The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Protocols	:	Extracts from P145 to P149, from the year 2001
Theme / specialities	:	Man and the reason of his earthly existence
Questioners	:	Members of the <i>work circle</i>
Type of transmission	:	Verbal inspiration and automatic writing
TEACHERS of LIGHT	:	ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY.
Previous guests	:	AMENDON, ELIAS, TAI SHIN, SEATH.

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I'll be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for the antagonist of GOD. We know that we have to make the greatest contribution ourselves. – Our destination is to grow through spiritual TEACHING, then to be able to distribute the TRUTH there where it can fall on fertile ground. We are asking for GUIDANCE so that our mission on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words from WHITE EAGLE:

Forgo all the requests your lower self demands. Hold on to the SOURCE of your inspiration. It is neither your mind nor your soul, but your radiant spirit, the ORIGINAL SOURCE of all bliss, harmony, beauty and LIGHT. CHRIST'S SPIRIT within your heart is truthful, pure and divine. It represents the focal point from whence all seekers of the truth must operate from. Make peace with heaven and peace will reign on Earth.

Welcoming all present and the beginning of the questions.

EUPHENIUS :GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. - We greet you very cordially and we are pleased about your inner harmony and the emanations coming from your hearts. We greet all of you in the NAME of GOD and we hope for an informative and successful evening, so that other souls can also gain insights in order to progress in their own development. We are grateful that this work serves the purpose of bringing the pure WORD to souls that are ready to receive this WORD and new insights in the NAME of GOD.

We are curious about the questions you're going to ask about our theme, namely why you have your humanness, your problems and your difficulties on this globe. We like to inform you once again that you have a great number of soul entities around you, eagerly listening to these indoctrinations in order to find *their* way into the LIGHT. They all salute you and wish you all the best for the rest of your earthly existence.

We are pleased that you have realised how important it is for you to *remain focused* on what you do and *not get entangled*. We will endeavour to convey this difficult theme to you, using your phraseology in order to make its meaning and its higher knowledge comprehensible within you.

(TB: Consideration.)

- *But remember that you are subject to the same LEGALITIES as every other human being here on Earth. In spite of the work you do here, you have no primacy in regards to your fellow man!*

Remember this and live your life in humility and in the hope that enlightenment will come to every single individual.

Question : In what way were we in danger of getting "entangled"?

EUPHENIUS: The danger, that you would entangle yourselves in your all too human deliberations exists, because human beings always try to outwardly express their *own* valences and always endeavour to guide their *own* power potential to the outside. But you were

prepared to discuss (the choice of theme) the topics that developed and became imminent and this made it possible to reach *a* consensus and *a* valence.

LUKAS : We will try to write more legible *in spite* of a longer interval; this has been impaired somewhat as the connection has become somewhat thinner. The assignment ahead of us is not easy. But you ought to *accept* this evening *as it develops*, without feeling constrained inside or without contemplating how things might turn out. If something does not function or is not as effective as expected, let it happen. We are also pleased to be here with you in order to deal with our new theme. There is a lot to do, because the questions are multifaceted and some are difficult to answer. But take courage! Together we will get it done.

Question : We thank you for your encouraging words. The first question is: How did man develop on Earth?

LUKAS : When GOD allowed little ENERGY ENTITIES in his IMAGE - I would like to call them BUNDLES of ENERGY - to come into being from within HIM, a REALM was created that has no equal in its vastness and beauty. It is the REALM of the SPIRIT, GOD'S REALM that developed simultaneously.

- *This spiritual realm developed long before GOD created matter.*

In this way, GOD could *share* his ideas with other ENTITIES and at the same time entrust them with the care and the maintenance of HIS IDEAS. These were great ANGELS of LIGHT that stood at the side of the CREATOR. When the WORLD was completed, GOD created more souls in HIS image and they were equipped with similar, but somewhat curtailed powers and their own free will. This brought about the "fall of the angels" later on, or put in more appropriate words, the fall of souls.

- *The education of the fallen souls was made possible only after the matter that was created after the fall came into being.*

The souls that incarnated into matter in order to be trained and to find their way back were called "human souls". This is how man developed on Earth. These souls were released by ANGELS of LIGHT so they could incarnate and reincarnate on many planets in various universes.

Question : How was it possible for the dark side to develop, if *all* LIGHT SUBSTANCES are of *divine* origin?

LUKAS : Well, every soul has its own free will to serve or not to serve GOD. There were a number amongst them that became bored with GOD'S sapient guidance. A splitting off, a separation from GOD took place. These souls are removed from GOD and therefore *negative*.

- Question : How can a dark ENERGY emerge from such a bright ENERGY, if the origin is pure, divine and loving ENERGY and this in spite of free will?
- LUKAS : Everything is contained within GOD. A separation is therefore absolutely possible. You must understand that GOD has *no* polarity. HIS opponent had to create this polarity and he could do so, because he disposes over a POWER that your vocabulary has not sufficient words for to describe. - In order to make this a little clearer: Imagine a magnet with two opposing polarities. This magnet is cut in two in the middle. This creates two new magnets etc. The souls GOD created therefore contain *both*, the positive and the negative and every soul has the choice to decide.
- Question : Were man and soul incarnated on Earth at the same time?
- LUKAS : I understand your question to mean that when you say “soul” you mean the *divine* component and when you say “man” you mean the *physical* component *with* an incarnated soul. The physical component had to develop from the animal kingdom to begin with. The brain also had to have a certain size and it had to be able to make certain functions possible in order for a divine soul to be able to utilise the physical body. *Only* souls are incarnated and the physical body is the soul’s instrument in the physical world.
- Question : Why were human souls incarnated during the times of Neanderthal Man?
- LUKAS : The human soul, that which is called “human being” nowadays, was the *first advanced* attempt at incarnation and this took place at the time of Neanderthal Man. But there were human souls on other planets *long before* there was life on Earth.
- Question : According to this, life on Earth must have developed to a degree where a human soul *could* receive a physical body in order to justify its assignment to choose between good and evil?
- LUKAS : Even the solar system had to be stabilised to a degree that life in this form became possible on this planet. The question about the development of the human body must be looked at from a *different* perspective. But remember: *Spiritual* life existed *long before* matter came into being!
- Question : Existent as pure ENERGY?
- LUKAS : Not just as *pure* ENERGY. The human body, in its *astral* form, existed before the physical body. This spiritual body served *as the pattern* for the physical body. This matrix or pattern is indestructible, even then when the Earth doesn’t exist anymore.
- EUPHENIUS: You will find that a lot of things simply disappear into thin air once you look behind the mirror you’re looking into. You are the mirror image of what your soul and all the other souls have taken on as their assignment and as the meaning of life here on Earth. You will recognise the ORIGIN of your own being and the image of GOD within you

in all the others. Once you have comprehended what is *hidden behind* everything and what awaits you once you cross over to the spiritual realm, you will feel that a POWER and ENERGY is released within you.

Question : Why does the development of the human soul implicitly happen in the physical and not within the evolutionary stages of the spiritual realm?

EUPHENIUS: These evolutionary stages are not adequate enough for you to learn and to recognise what you have to recognise. You will not be able to achieve perfection on these evolutionary stages, because there is *stagnation* and *long waiting periods* on many of these STAGES. It is actually impossible to recognise, receive and live the DIVINE within you on some of these spiritual stages. Through your physical form of existence you have the opportunity here on Earth to find your own SELF and to come to the conclusion that this DIVINITY *is within you* and that you are carried along by the shady side also. You have a plane of development here on Earth that has to be regarded as mainly *neutral* at the beginning of your existence and your being here. You have the chance here to *purge* the karma and the culpabilities you have burdened yourself with for the present life. You will regain that insight the moment your soul leaves the physical body.

- *Earth represents a great opportunity for you to make up time and to turn towards the LIGHT, the divine BRILLIANCE.*

Question : Why did GOD create souls in the first place? Was HE tired of being alone?

EUPHENIUS: The SOURCE of LIGHT, the ORIGINAL SOURCE of divine BEING, filled with LOVE and with a great DEVOTEDNESS, released SOURCES of LIGHT in order to give these SOURCES of LIGHT an *independent* existence in this particular form, because the universe and the cosmos was supposed to be enriched by these SOURCES of LIGHT. Darkness was supposed to give way to light. The release (birth) of individual SPARKS shows the LOVE GOD represents for every single, divine ENERGY ELEMENT. It is a present and a gift that endorses independent existence. Your life, your soul's existence was made possible through GOD'S LOVE.

Question : What disadvantages would have presented themselves to the CREATOR if HE had *not* created any souls?

EUPHENIUS: The CREATOR is also subject to HIS own LAWS and HE certainly recognised the importance of *handing down* and *releasing* VIABLE ENERGIES. HE would otherwise be a SOURCE of LIGHT without any opportunity for further development. HE would remain stuck in HIS own existence, because HE is also subject to HIS cosmic LAWS.

It is difficult to understand what the reason for this divine SACRIFICE is. If this ENTITY, this SOURCE of LIGHT, this ORIGINAL SOURCE did not release ENERGIES, it would simply extinguish. GOD must also take care of the viability of HIS SOURCES of LIGHT. It is a case of giving and taking. All of us receive the

CAPACITY to absorb ENERGY from HIM and HE in turn receives ENERGIES *back* from you through your divine LOVE. It is a circuit and it is very difficult to explain with your limited vocabulary here in Earth. - It might only be explained figuratively: A fireplace also needs nourishment from various sources in order to exist.

Question : Because there is no higher physical entity here on Earth than a human being, an entity that can grasp creation with its mind and all its senses, it is necessary to find out more about this human being. What can you tell us about man's first appearance on Earth?

EUPHENIUS: The first viable life form to guarantee a divine soul a dwelling place existed long ago. Its isolated appearance was possible here on Earth, because on *various* continents incarnations of souls had taken place. Your history of evolution tells you that *simultaneous* developments took place in various regions on Earth, which made it possible later on that more and more souls were able to incarnate here on Earth, giving them the opportunity for further development.

GOD'S PLAN took a long time to establish such a framework for the human soul in order for everything that is of importance from a divine VIEWPOINT to find cognisance within man. Then the mind, the spirit, your ego, your divine spark, your soul and your heart are ELEMENTAL COMPONENTS that HARMONISE *in unison* and together form *one unit*, mutually complimenting one another.

As GOD had decided that certain LAWS, namely the divine LAWS, were necessary for the development of the soul, the mind must also recognise that all of you here on Earth are subject to a HIGHER AUTHORITY. What has to be recognised too is that the dark SIDE is also at work in order to prevent you from carrying out this divine PLAN. The free will *to recognise this* and the ability to decide *which* plane of existence to chose took a long time to eventuate and it still has *very little* meaning for a lot of souls even now.

- *Your own cultural history shows you that you continue to trip over your own free will, because you allow yourselves to be manipulated by other souls.*

Question : Fossil records and genetic evidence indicate that man's nursery is to be found in Africa and that the modern homo sapiens of today developed from there. Africa doesn't just seem to be the place where man developed from primitive pre-human to early human beings, but also the place where the decisive genesis of intelligent, modern man took place. Are anthropologists correct? Was our "primeval mother" African?

(TB: Yes)

EUPHENIUS: The *first* incarnations took place on that continent. All the *other* incarnations were realised from that location. You must remember that geographically speaking, your Earth *did not look the way it looks now* in the past. There was a more limited amount of land present and only a small region where GOD'S BLUEPRINT could be realised.

- Question : Who was created *first*, man or woman?
- LUKAS : The first human beings were *materialised* and they were androgynous. The male and female components were combined *within* a human sheath. The separation of these two different but complementing ENERGIES took place later.
- Question : Did this bi-sexuality have something to do with duality or with reproduction?
- LUKAS : Well, as you are well aware that reproduction in a genderless state can take place. But a sexual union could not take place in an asexual state. This happened later on and this through the influence of the divine PLAN and during the course of the evolutionary process.
- Question : If one is born a woman one also has the male aspect within, but the female aspect dominates. According to Far-Eastern philosophy, one ought to harmonise the Yin and Yang. How can we do this?
- LUKAS : Every soul receives the opportunity to experience its male and female aspect, but this can only take place *separately*. This development was provided for by the CREATOR.
- Question : I don't understand this. What was the sense in separating the sexes, if procreation and new incarnations were also possible in an androgynous state?
- LUKAS : Quite simply because souls could not experience their male and female aspects in an androgynous state. In regards to procreation, the respective entity mentally selected the process and set it in motion. Modern man, respectively a couple *plans* procreation, the difference being that it takes *two* bodies these days.
- Question : Why was it so important to GOD to incorporate this separation into the evolutionary process?
- LUKAS : Because we're dealing with two different FORMS of ENERGY and they are supposed to develop and completely unfold along separate lines in order to reunite *strengthened* at a later point in time.
- Question : Does GOD comprise both ENERGY POLARITIES, the male and female aspect?
- LUKAS : Yes, that's the way it is.
- Question : According to this, souls are the result of HIS procreation?
- LUKAS : Naturally! - In HIS image.

- Question : Is it within the divine PLAN of DEVELOPMENT that every couple, if possible, ought to procreate?
- LUKAS : Yes, in order that other spiritual components, namely souls, receive the opportunity to experience the physical and to develop further.
- Question : How does the parable of Adam and Eve fit within this evolutionary formula?
- LUKAS : This parable *is incorrect* and represents an *invention* on behalf of your Church fathers.
- Comment : Probably out of necessity.
- LUKAS : It developed out of their *need for power* equipped with a decent portion of farsightedness (To the advantage of the clerics) and negative inspiration.
- Question : Are the assertions of Mr. E. von Däniken, that the people on Earth are the descendants of extraterrestrials, correct?
- LUKAS : Earth's development is relatively new. At the time when the Earth was still populated by primeval entities there were already evolved humanities on other planets. The souls living on other planets lived a *highly cultured* existence and they had to fulfil the FUNCTION of a GUARDIAN in the NAME of the CREATOR.
- Question : Were the Maya for instance the descendants of an extraterrestrial race?
- LUKAS : All human beings descend *from GOD*. The physical body and its development is something *completely different*. You unfortunately only see the physical. *The primary issue here is the soul!* Nothing else. - Everything else is illusion.
- Question : According to the way we measure time, how old is mankind?
- LUKAS : *Which* mankind? - There have been a *number of different humanities* here on Earth, which had relinquished their time on Earth due to external influences. The present day humanity living on Earth began to be incarnated with higher souls, which deserved to be called "human beings", during the time of Neanderthal Man. All the entities that existed before were in an *experimental stage*, because their bodies had to be adapted to the environment, that is to say, to the planet and the emanations from the sun. Only then was the physical body in a position to make the incarnation of a higher soul possible.
- Question : Has this something to do with the higher life expectancy we experience these days? The average life expectancy was around 40 years in the past and before that even less so.
- LUKAS : *This is a mistake!* There were people in the past that lived for *a few hundred years*. This had something to do with a healthy environment and their lifestyle. The unfortunate

development here on Earth brought with it a continuous shortening of your “life filament”. You have only recently *gained a number of decades* through hygienic methodology and through the development of medicine. Your poisoned environment and other factors have limited your potential age to a high degree. An average age of 120 years would be possible with your present day lifestyle and your current physical body.

Question : LUKAS wrote that man’s physical body developed from the animal kingdom and that the brain had to exhibit a certain size before a divine soul could make use of the physical body. In the protocol called “The history of the Earth” ARON stated that the body of terrestrial man was created by higher ENTITIES. What is actually correct: Did man’s body originate from the animal kingdom or was it materialised?

EUPHENIUS: In regards to this we would like to tell you that the physical body came into being due to the fact that entities existed here that used Earth as a “laboratory” - in inverted commas - in a divine SENSE, this was before your time on Earth and before you could be called “human beings”. To give you an example: Remember the way you began to fabricate a car in the past and what the car has turned into nowadays. -

It took a long time of development to achieve such perfection that man, at his present stage, could master the assignments put to him. You possess a highly developed brain, but you presently only use a fraction of it. You are not yet capable of complete control over your brain. GOD has provided certain characteristics for the human form and they are necessary in order to put what the divine PLAN contains into practise, namely the cognisance of free will, the mind, the spirit and one’s own inner LIGHT and also the ego.

- *In regards to this, we can say that your form developed from that of the animals. Species from which the creature “human being” developed during the course of thousands of years.*
- *Materialisations of human beings are those you recognise as highly cultivated sections of the population, which have been sent to this planet Earth by GOD in order to accompany and support you.*

It also demonstrates a piece of history of *those* souls that live on *other* planets. The way the SANTINER have taken on the task of protecting your Earth. These cultural epochs were necessary to compress ENERGIES into a positive form for the development of your existence and your Earth. They represent important LIGHT and ENERGY IMPULSES, necessary for the development of your Earth.

Question : There were times when people lived in caves and suddenly, in a relatively short time, began to build enormous structures like for instance the pyramids and other constructions in South America. This cultural breakthrough has never been explained up to now. Is this in connection with the materialisations of the distant past?

EUPHENIUS: That's how it is. It has to be looked upon as if you went to school and trained your spirit in mathematics.

- *They represent IMPULSES from the CREATOR to advance and enrich your development and to move you forward in your human history.*

Exactly the way evolutionary elements take place and are carried out in *various* locations on this Earth *simultaneously*. These are expressions of *external* support, there to absorb the tumble of fallen souls and to give them the chance to exist here on Earth.

Question : Is it true that primitive, ape-like ancestors of man developed millions of years ago on the Dark Continent?

EUPHENIUS: We can answer this question with an emphatic yes. This continent is the origin and the cradle of your development and the evolution of your own history.

Comment : Fossil finds confirm that early, prehistoric man already walked on two legs, but that the shape of the cranium still displayed distinctive ape-like properties.

EUPHENIUS: This represents an intermediary stage, necessary to look at present day man in his overall development. This is a development that progressed *step by step* over a long period of time in order to arrive at *the* humanity which is *presently* here in the physical. It all began because a physical body as a dwelling place was needed to give the soul room at all. The brain was the *second* stage; it provided the opportunity for man to become *aware* of self, thereby recognising that he had *a choice* between a number of potentialities.

Question : One assumes that a group of early modern man left Africa and that all non-African populations derived from them. But this rather small group apparently *lost* the DNA type only found in Africa, otherwise this typically African DNA marker would still have to be present in Europeans and Asians living today. Is this assumption correct and what are the main reasons for the exodus from Africa?

EUPHENIUS: *One* of the objectives was to populate planet Earth and this is why the exodus took place and the spread of the human race was carried out. Through ENERGY SOURCE that existed in Africa in the past, the propagation of the DNA group was guaranteed. The changes to the DNA helix took place due to the exodus and the removal of this ENERGY SOURCE. It is like atrophy, something that eventuates when important VITAL ENERGIES are not available anymore. The separation from a divine SOURCE of LIGHT caused the changes to the DNA helix.

Question : When did GOD'S antagonist begin his interference here on Earth?

EUPHENIUS: The moment people began to inhabit the planet. Lucifer began his work here on Earth ever since the experimental beginnings of the physical body.

Question : Up to about 30,000 years ago, Neanderthal Man supposed to have lived in Europe, an archaic, but highly evolved form of homo sapiens and they were practically immediately succeeded by modern populations. How did this break away eventuate?

EUPHENIUS: This break away developed through the support provided by higher ENTITIES. There is an invisible ladder within your development, one you haven't perceived and are not able to perceive. *It is an invisible world* and it *intersects* your physical world. - We know that all of this is very difficult to understand and to explain. It is like the assistance rendered to children by adults explaining that a crayon can also be used to write with.

Question : Does the *multitude* of terrestrial races originate from alien planets.

EUPHENIUS: There is also a multitude of various birds and other various animals. This is a colourful mixture of physical bodies and they live in different regions on Earth. It mainly depends on the climate and the prevalent ELEMENTS of VIBRATIONS on Earth. Do not forget that the Earth is a *living* entity, one that emanates *various* ELEMENTS of VIBRATIONS. You also receive your nourishment from Earth and your genetic structure is *adapted* in regards to VIBRATIONS. - You are familiar with the term: "A freak of nature" - and that is what it looks like. These are expressions of physical reflections, conditional to the climatic zones and whatever is present in these areas. One important element is the fact that the emanations from the Earth's core affect every continent *differently*. The variety hidden behind this states that you too could be part African and part Eskimo.

It is difficult to understand that there are parables and connections that coalesces this mankind together. The races represent a stumbling block within your genetic make-up and this limits your human thought processes. But the aim is *the reunification* of the whole population of souls. Regard this as a training field that will help you to see beyond the point of your nose. You are one component amongst *many*! You don't stand out. You are like your neighbour. - In your culture, as you like to call it, *different* races stand out considerably. This demarcation between the races has nothing to do with DIVINITY. Earth represents a classroom, one that makes it easier for you to recognise the brotherhood that connects you with all the others.

- *Higher ENTITIES (from outer space) will not be able to materialise here on Earth amongst you before you accept the other races and show genuine understanding for other religious beliefs, other schools of thought and other cultural differences.*

Comment : Well, this represents an impossible task for a lot of people and the VISITORS would receive a hostile reception.

EUPHENIUS: You don't accept one another as human beings here on this planet Earth. How can you possibly cope with such an SOURCE of ENERGY and recognise that it *means you well*? - You limit yourselves simply because some people on your *own* planet are different from you. - How dare you judge others like that?

Question :If theologians and philosophers are asked about the meaning of life, they will not give you a satisfactory answer. What can you tell us about that?

EUPHENIUS:How can theologians that live in the past and within the dogmatic framework of their Church's limitations give you an answer? They are not prepared to accept what the divine SIDE is sending you. We would like to explain *the meaning of life* to you like this: Life is a SOURCE of LIGHT, there to brighten up your soul and also there to release your soul from all the shackles that burden you. The soul ought to breathe freely and to flow into a STREAM of LIGHT and pure ORIGINAL ENERGY.

- *The meaning of your existence is to recognise your past life's history and thereby change your future.*

Without this cognisance, your path is marked by darkness and shadows. You are badgered and chased and you're devoured by your own sorrow. The real meaning is *to accept* that this terrestrial existence has a limitation, which is illusionary in regards to what *you* assume it to be.

Question :Man arranged the Earth according to his will and in the process created a world of unhappiness, animosity and fears. According to what has been handed down through the ages, GOD wanted to create a paradise. Why did GOD not pursue this original PLAN?

EUPHENIUS:The desire and the PLAN were in place. But GOD did not expect you to go your own way *in this fashion*. This is the *effect* of the gift HE gave you, the gift of *free* will and *free* decision-making. GOD could therefore not foresee that you, here on Earth, would allow yourselves to be *captured* by the DARK FORCES. GOD did underestimate the POWER of the antagonist in this regards, HE did not anticipate that the antagonist interference would stop you, as souls, from going your way. But history shows that you quite often leave the divine path in order to strengthen your power and your ego here on Earth.

- *Paradise can only develop within the heart that represents a mirror image of your divine EXISTENCE. Paradise is your divine SPARK and your heart which stores this ENERGY, giving you the assurance that death can be overcome.*

Question :How can it be that GOD did not recognise this beforehand, a GOD we endow with OMNIPOTENCE and OMNISCIENCE?

EUPHENIUS:GOD has *no control* over the free will expressed here on Earth. If this free will *could be* controlled, all of you would have returned to GOD'S LAP. It is GOD'S desire for you to *freely decide* over what the ORIGINAL SOURCE has given you.

Question : In your opinion, what are the reasons that people find it ever more difficult to live with one another?

EUPHENIUS: Life amongst you has many kinds of risk factors and they are connected to one another through VIBRATIONS. At a time when you enjoy such a highly technical and scientifically advanced existence, you leave very little room for your *own* thought processes, for your *own* self. You are *wedged into* situations that leave you very little room for your *own* contemplations. Your body is subjected to rays and a poisoned environment that have an effect on your nervous system and your whole organism. This is a *creeping* process and it slowly changes your behaviourism.

- *You must recognise that the connection to your ORIGINAL ENERGY, to your nature and to your Earth has an important function!*

You have *trimmed the very roots of your existence* and you do not recognise the fact that you are slowly going to rack and ruin. You annihilate yourself and this brings with it aggressive reactions and violence. It is a giving and a taking. Cause and effect. The Earth does not give off *the* ENERGY it once gave off. *You* have changed the Earth and you are now surprised that *you also* change.

Comment : One must have taken the biblical words of “go forth and multiply and take control over the world” *too literally*.

EUPHENIUS: This text is a *back to front* rendition of the original text. You should *not* take *control* of the Earth but live *in harmony with everything* that exists here; you constantly forget that you represent ELEMENTS of VIBRATIONS, which *emit* VIBRATIONS that affect everything you encounter. You re-emit everything that you *reabsorb*. If you enter a toxic forest you will exit that forest poisoned.

Question : How does GOD envisage a positive development of man on Earth?

LUKAS : • *Every human being's purpose in life is to harmonise with GOD, the CREATOR.*

Therefore all disharmonies and disagreements with CREATION and the CREATOR are to be cleared out and removed. This will result in the complete repatriation of mankind on Earth and all the other human races throughout all the universes of the physical worlds and the negative spiritual realm. Reincarnation gives every entity, no matter where it finds itself, the opportunity to do so. Everything depends on the free will and the freedom of choice of individual entities.

Question : How can one find inner harmony when surrounded by disharmony, stress, noise and hectic?

LUKAS : Well, you must have noticed that possibilities have been presented to you that will help you harmonise in spite of all the unpleasantness. Those that are not aware of this or do not *want* to know anything about it find it *a lot harder* than those that can accept it and

also *practice* it. It is very important to start with the basics to begin with, that is to say, to believe that a CREATOR, a spiritual realm and eternal life actually exist, the way the CREATOR also enjoys eternal life, and that is applies to every one of HIS creatures. In HIS image. This is the *basics* and the beginning towards harmonising.

Question : Why is it so important to GOD to save fallen souls?

LUKAS : It is as if I would ask you why you do not try to rescue your children when they're in trouble. This is just an example. How would you answer?

Comment : It is sometimes *not* possible to save one's children. Sometimes one has to give up.

LUKAS : That is a mistake! - *Those who give up do not believe in GOD!* Because people would otherwise turn to Him for HELP and hand all the worries over to HIM.

Question : Would this also be a message to those souls who became very ill here on Earth? Does the rescue of the physical body, not just the soul, have anything to do with faith in GOD or are there some kinds of differences here?

LUKAS : Whenever you give the negative side the opportunity it is always ready to strike in order to destroy. This is often forgotten. *Not everything* is therefore foreseeable or preventable. This is why accidents take place! Faith and the determination that springs from it have often lead to spontaneous healing.

Question : I have been hearing the word "test" in my mind for quite some time. What is the meaning of this? What am I supposed to test?

LUKAS : Your questions. This doesn't mean that you have asked the wrong questions. But we are of the opinion that you could have *answered* some of them *yourself*. You are well advanced in regards to your experience with the divine world and in dealing with the spirit world. We will always endeavour to answer your question in such a way that you can do something with the answers.

Question : How is it possible to develop something as perfect as the human brain?

LUKAS : Well, this was possible because it originated from the PLAN the CREATOR developed. Did you expect something else from your CREATOR? - But it took quite some time to develop such a complete link between the physical and the spiritual. Your present brain is actually *not* completely developed.

Question : Do all the other abilities develop later, once the human spirit has made further advancements?

(T. B: Yes, that is quite correct.)

- LUKAS : Yes, we can confirm this. Due to the fact that your development has not been completed, your brain is only partially active. But your sciences don't quite know what to do with this. The areas we're talking about, there for *clairvoyance*, *clairaudience*, *telepathic abilities* and the potential to *allow ENERGIES to flow*, are still unfermented, respectively completely switched off by some people.
- Question : Next to GOD, are there other ENTITIES of LIGHT that are just as active as the CREATOR?
- LUKAS : Yes, HIS dual.
- Question : Who is HIS dual?
- LUKAS : All the humanities in all the universes, including your little Earth.
- Participant : This means that our children are our dual-souls.
- LUKAS : This is a mistake! That, which you have created with your wife is a physical shell for a soul GOD created. The two of you have given two souls the opportunity to learn here on Earth and to lead an independent life. - I believe that you should organise some questions along those lines. Ask these questions next time and try to formulate what you want know more *precisely*. Please separate the physical and the spiritual components of man. They represent two *completely different* things and it is imperative that they are kept separated; otherwise they will loose their connotation when it comes to asking questions.
- Question : GOD created the Earth to be the redeeming planet for human souls. Weren't there any other planets out there in the universe that could have come into consideration? Did an extra planet have to be created in order to give us human beings some extra opportunities to learn?
- LUKAS : Well, it is a question of opportunities to incarnate. If you were aware of the enormous dimensions of the spiritual realm and the huge number of souls, this question would become superfluous. The fact is that there are an enormous number of souls and all of them - well *nearly* all of them - must go to school and are therefore allocated a suitable planet.
- *The training received in the spheres is not enough.*
- Souls are not able to cross over to higher LEVELS and higher SPHERES of VIBRATIONS. It is different on a planetary level. We need the physical plane, that is to say, universes in order to receive the opportunity to incarnate. This is why the world you know was created. A world of beauty and full of opportunities to learn. Before the Earth was created, there already existed innumerable, highly developed and underdeveloped planets indicating that this kind of training existed from the beginning of time.

- Question :How many more souls are going to arrive here for training? Where do all of these souls come from?
- LUKAS :From the spiritual realm. - The number of souls in the spiritual realm is *enormous* and the opportunity to incarnate is not all that often present that all souls could incarnate *at the same time*.
- *Imagine two enormous intertwined spheres. One is the physical world with its universes and the other is the anti-world, the reciprocal pole with its universes. Both of these enormous creations repel one another thereby allowing precision to reign in the cosmos. The spiritual realm surrounds both of these enormous creations in a sweeping, elliptical fashion. Both of these gigantic creations are therefore embedded in the spiritual realm. The CREATOR'S ENERGETIC VIBRATIONS enclose everything at the periphery of the ellipse. - This is just an illustration.*
- Question :Did planet Earth adapt to the development of man or did man orientate himself according to the conditions on Earth?
- LUKAS :Well, mankind tried - and is still trying - to *force* its will on nature, respectively on planet Earth. Every rational mind must realise that this cannot go well. Unfortunately not a lot of minds understand this. Nature, respectively the Earth will *never adapt* itself to the control of man. This is an impossibility from a LEGAL point of view, because the laws of nature would have to be abolished and only the CREATOR can do this. These measures would result in chaos, a chaos you would not survive. But whether you will survive your *own* chaos is still debatable. It would then *not* be the CREATORS responsibility. But people would continue to blame the CREATOR and ask why HE allows all of this to take place.
- Comment :Nature ought to be our greatest teacher, one we can orientate ourselves on in order to develop further. All growth and healing impulses are present in nature.
- (T. B.: Correct!)
- LUKAS :Nature can be compared to a robot that only acts according to the Creator's natural laws programmed into its system. And nature, this robot, *will react* - respectively is already reacting. Everything may take place according to your free will.
- Question :Assuming a soul suffers a cot-death shortly after it was born. How can such a short period of time be of any importance in the soul's development?
- LUKAS :A period of time is of course allocated. This time span is discussed beforehand. Even when a child dies in its cot, this for you unfathomable occurrence can bring with it a healing kind of lesson for the parents, a lesson that was *discussed* with all souls concerned *beforehand*. What can happen is that a woman will carry her own mother

from a past life for the full term of a pregnancy, a mother from a past life that who *has learned* her lesson and is now here for a short time in order *to help* her daughter learn a specific lesson.

Comment : Looking at the ever increasing population figures around the world one must come to the conclusion that a great number of souls are ready to incarnate. A frightening scenario, because it looks as if time is running out for planet Earth and incarnations take place at an alarming rate in order to give these souls a last opportunity.

LUKAS : *Every* physical body born on Earth *must* receive a soul. This is the LAW. There are also many souls from the lower regions who want to learn their first lesson here on Earth in order to continue along their evolutionary path.

Question : What does the positive, divine development of man depend upon?

EUPHENIUS: A positive and divine development *can only* take place when one begins to *realise* that one has to approach one's fellow man, one's own self and all the things around, with LOVE, gratitude and humility. One must face the world with a pure heart and one must realise that everything that is send out will be returned in a positive way, even if this is not immediately apparent in one's earthly existence. Negative thoughts blur and distort this image. The path can only be trodden on hand of one's INNER LIGHT and by realising that one's needs are of secondary importance.

Question : Does man not have to find his INNER LIGHT in the first place? Who is actually aware of it?

EUPHENIUS: This INNER LIGHT is known and found right across the world and it can be perceived with the heart. Many people regard the heart as the centre of the LIGHT. We mean the divine LIGHT, the divine SPARK within you. Most people recognise this LIGHT with their heart to begin with. It begins with what the Church also preached: *Allow your heart to do the talking more often*. But who amongst you in your society does this? - You are controlled by your mind and you do not see the damage your thought patterns cause.

Question : Do people gain advantages in regards to their period of development on Earth, if they belong to a particular Church or religion?

EUPHENIUS: We have to answer this with a *clear no*. There are various religious denominations and orientations on your Earth that regard human beings to be higher entities, here to consolidate certain religious ideas.

- *There is only one CREATOR, behind all of these religious denominations, namely the ALMIGHTY.*

Various epochs and historical events have brought with it all these many religious denomination. These are words. Some of these deities date from prehistoric, traditional

times and they serve the purpose of conveying a part of divinity and GOD'S RULES. You can find major points of reference within these various religious orientations that talk of LOVE and state that one ought to journey along a righteous path. But what mankind does with these GOD-GIVEN GIFTS, with these VALUES, is *most conflicting*. The various religious denominations utilise these powerful instruments against themselves and against mankind. They try to control mankind with this and to push them in one direction.

That inner divine FAITH can only grow within and become externally visible in people themselves. You *cannot* be guided *by words* you don't believe in. You must be prepared *to incorporate GOD'S* word and to *absorb* it within you. It is of no use to sit in Church listening to a sermon, sing a psalm in GOD'S praise, if you are *not* ready to absorb this and understand the words with your spirit, your heart, your soul and your INNER LIGHT. What use is knowledge of divinity if you do not externally transform this divinity?

Question : Is a spiritualist a more spiritually evolved human being than others?

EUPHENIUS: He journeys on a *different path*. But it doesn't automatically follow that these people are automatically better or worth more or less. These people chose a different path and they try to *apply* and make these divine LAWS their own.

- *A true spiritualist opens up to GOD'S COMMANDMENTS and tries to incorporate these COMMANDMENTS in his daily activities and to become aware that all of this has an effect not only on himself, but on every individual human being, the nation, nature and everything around him, actually everything to do with planet Earth.*
- *A true spiritualist understands that he is a link in a chain that invisibly connects and interweaves him with everything.*

Question : Can you see a reorientation taking place within the minds of people over the next ten years, one that will allow them to recognise the meaning of their earthly existence better?

EUPHENIUS: It is very difficult to give you a time frame. We can see that there are many souls here on Earth ready to walk the path of elucidation and knowledge. We observe that many people recognise and understand - and this through the mirror image nature represents - that everything is one unit and that changes can only come about through self. This is an important prerequisite for attaining the right VIBRATIONS. Even the Church has realised that it has to make changes to its dusty and old thought processes and deliberations. Little by little the Church is also beginning to rediscover the origin of its religious direction.

Question : Where will mankind's culture end up, if its present development continues?

EUPHENIUS: In order for man to survive, you *must* begin a complete turnaround of your thought processes, because the present direction your development takes will bring with it

natural disaster that will shake you to the core. You will understand that unless you change, you will destroy yourself through your misconduct. You will recognise that the exploitation of your planet spells your own demise. - You will recognise that *all* of you, no matter what nation you show allegiance to, will only be able to survive by *working in unison*. Borders will be opened and you will begin to cultivate togetherness in order to continue to exist here on Earth.

Question : Is mankind still in a position to avert this imminent catastrophe?

EUPHENIUS: As things stand at the present time, we can inform you that you are certainly in a position to recognise this early enough and to then deal with it accordingly. Endeavours are under way, especially by the SANTINER, to *strengthen* and *stabilise* the new values that you are beginning to recognise. Throughout many nations, individual people will stand up and speak out, in order to enlighten mankind about what actually takes place here on Earth because natural laws are infringed upon. The helper's assignment is assured.

Comment : Many people, especially despots, have not recognised the meaning of their existence, otherwise they would act differently.

EUPHENIUS: From the position they hold they think very egocentric and they have not recognised the seriousness of the situation that presently exists here on earth. The explanations and the resurrection must come from a *different* direction, a different basis. This basis is supported by the fact that nature, its dying moments, still send you signals to that effect.

Comments : It is quite incomprehensible that scientific research does not do everything in its powers to get behind the meaning of people's earthly existence. If people would indeed *not* continue to exist after death there would be no recognisable sense in their earthly existence at all.

EUPHENIUS: They would have to develop a totally *new thought processes* and announce to the world that they have misguided the public and that they have behaved incorrectly. Who is willing to admit that mistakes have been made and that their concepts were *not* the correct ones? - *A lot has to happen first in order* to change such thought processes and to explain to the people in such powerful positions just what harm their actions have caused and to make them recognise the effects of their incorrect behaviour.

Question : Is the often disowned doctrine of reincarnation not also part of this, because it is the one thing that offers a *just* balance in regards to one's earthly existence?

EUPHENIUS: That is correct. Many people in your Western regions have begun to familiarise themselves with other religions and doctrines from other parts of the world. Your Church dogmatists of the Western regions will not be able to hold out much longer and they will have to recant whatever happened in the past.

Question : The sciences are getting ready to take total control of nature and even tinker with artificial life and artificial intelligence. How can it furnish the basis for a life conserving ethics at the same time?

EUPHENIUS: This cannot be brought into accord with one another. It is difficult to tame the greed for super-humanness and to explore what has not been explored yet. It is a search that is steered by negative impulses. To interfere with inventive nature cannot be condoned. This can only bring calamity and nothing positive will come out of it.

The physical human body is created in a way that enables it to accommodate a soul for a while. The body *doesn't* presently have the capacity to live, to function and to accommodate a soul for 300 years. This timeframe has been set on a different level. You have no right to interfere in this timeframe. You try to *manipulate* nature and your own development. This is *not* as CONTEMPLATED by the CREATOR!

You should rather recognise that everything *within you* has a SOURCE and you should not concentrate too much on your external appearance and your physical body. You have not yet discovered the true allotment of your existence. You interfere with the ageing process, because most people try not to grow old, not to get sick and not to become frail. What gives them the right to do so? - It would be better if you began to *cleanse your soul*, to enlighten it and to prepare your soul to face the fact that there is life after this earthly existence. This would keep a lot of fears at bay and a lot of the coercion people on planet Earth are presently subjected to would fall by the wayside.

Question : Who or what can prevent mankind from doing what it does because of their scientific curiosity, thereby preparing their own downfall?

EUPHENIUS: You will do so by destroying yourselves. These experimental opportunities will present themselves and they will scare you and panic you. You will recognise that something some might call "positive" will turn out to be a dark spheres later on.

Question : There are two things in every person's life that are absolutely impossible to change: One's birth to begin with and one's death. Is it really possible for people to arrange their own life beyond that, according to their own desires?

EUPHENIUS: Due to the CREATOR'S gift, you have your mind, a heart, your morals and your free will within and you - and *only you* - can decide what is good for you and what is not. Nobody else can change you or make decisions on your behalf. You alone are responsible, and this in the eyes of the law here on Earth also, and you decide whether you will steal or not, whether you will tell lies or not or whether you will commit murder or not. You are subjected to *a number* of legalities: On the one hand as one of GOD'S entities, then in the eyes of the law here on Earth including the norms established by your fellow man and on the other hand to the legalities of the KARMIC COUNCIL who will welcome you in the spiritual realm.

Question : Are there *predetermined* points for either change or decisions during one's lifetime that people are inevitably guided to by spiritual ENTITIES in order for them to recognise their life's purpose and in order to remove karma?

EUPHENIUS: The fact that a soul might not recognise its true purpose of being here on Earth is certainly on the cards. It is possible in cases like that, that the influence of ENTITIES will have a sobering effect on the soul. It could be a case where they try to place a symbolic mirror in front of the soul in order to wake it up. These are situations where the soul has *not recognised* its true assignment, even though this was all arranged *prior* to its birth. This is why you have a GUARDIAN ANGEL and a SPIRIT GUIDE and they will undertake these assignments.

Question : How can a person know and recognise this as it cannot remember anything after it is born?

EUPHENIUS: Many begin to reflect on this when they suffer some *calamity*, when they suffer terrible *distress* or when they have managed to find a *quiet moment* to reflect on this. They look for consolation in prayers, something they *haven't* done in years. They look for consolation within a religious community. They begin to deal with their own self and they hold an inner dialogue. They receive IMPULSES from there that bring forth knowledge which they concern themselves with and they begin to deal with their individual situation. An illness for instance can bring about a *total change* within some people's attitude towards life. These represent upheavals within their life cycle that bring about a standstill and a period of rest and they begin to realise what their illness is actually trying to tell them: What is the reason behind this and what demands have to be met. This quite often opens a door for these souls and it encourages them to begin to allow changes to take place within their lifestyle.

Question : Can we find information about the meaning of life in the bible?

LUKAS : In spite of all the changes made to the bible, there is still a lot in it that is of value in regards to your development. This also applies to all the other holy books, but with the same limitations, namely that every book, including the bible, is incorrect in many respects or certain information is missing. A lot of things were removed from the bible that do belong in the bible and a lot of things were added to this book that does not belong in it. But as mentioned before, this applies *to all* the holy books of your world. Because people in positions of power, with the means to change or improve other people's personal existence through restrictive measures, do not shy away from using these holy books to their advantage.

In answer to your question we can say that especially CHRIST had a lot to say about your existence on this planet. This question about the meaning of an earthly existence was also topical in biblical times - yes, from the beginning of man's epoch, that is to say, ever since the physical body had developed to such a degree that it was able to offer a human soul an opportunity to incarnate.

- *The question about the meaning of life can still be found and explained on hand of the adulterated bible.*

Question : Did the Church carry out the falsifications of the Holy Scriptures?

(T. B: Amongst other things.)

LUKAS : In earlier times it was forbidden and punishable by death for common people to possess a bible. Apart from that, the bible was written in Latin for instance. Ordinary people could do very little with this. Well, I have to confess to you that my colleagues here have made some dreadful adjustments too, something the people would not have readily accepted. - Once the bible had been translated, all falsifications became *set in concrete* and could not be reversed, otherwise one would have had *to admit* what had already been assumed - and that would not do in the eyes of the Church.

- *But the Churches will have to come up with something, otherwise they will not survive the next ten years in this form.*

Question : What about all the scriptures that also date from biblical times and are held under lock and key by the Vatican? They probably contain additional information that is arbitrarily withheld from us.

LUKAS : Well, there are a number of other gospels, but they have never been accepted by the Church and the public never got to hear about them. But these scriptures were not destroyed and they still exist today. Something that didn't find favour with the Church were the Dead Sea Scrolls. But because some of them were published before they could be secreted away, a lot of information saw the light of day that the Church were not too happy about.

There are *also other* scriptures available that confirm that Mary gave birth to eminent MASTER JESUS in a completely natural way and that JESUS also had siblings. All of this doesn't fit in with the official doctrine and was therefore not preached from pulpits. A lot of the things you are not aware of, well, actually could not be aware of, has led to wars on your planet, because there have always been disagreements in the interpretation of religion.

(T. B.: Happening still!)

Every religious leader believes to possess the truth, the ABSOLUTE TRUTH. This *pseudo-truth* was all too often fanatically defended.

- *As you can see, it is religion that furnished the basis for your coexistence here on Earth and not your laws. Ask the SOURCE and ask us and peace will reign on Earth.*

Question : Many people on the way to find answers to their questions about the meaning of life take a look at other major religions. According to your opinion, which one of these religions contains *the most* signposts in regards to the meaning of life and what GOD expects from us?

LUKAS : There is *no* other religion that I could mention here that contains more TRUTHS than yours. The other major religions have received *as many* truths and also suffered *as many* falsification as your bible.

- *All the TRUTH from all religious books would have to be extricated and brought together in a new book, acceptable to everybody.*

But this goes well beyond man's capacity. Because who amongst you knows the TRUTH well enough to decide what is true and what is not? Those able to do so do not live on Earth anymore. They were the great MASTERS of LIGHT, incarnated *all over* the world to put the DOCTRINE right. They prepared the arrival of the SON of GOD, who illuminated this world two thousand years ago. It is about time that something similar takes place again. But only the LORD knows when.

Question : Where does this inflamed hatred come from, as for instance in Northern Ireland, when it comes to dealing with religious questions and both parties claim to have omnipotence in their hands?

LUKAS : My dear friend, if the foundation is not stable, no house will stand for a long time. You can only build on a solid and *above all*, a true foundation. You can also not begin with the roof of a house, if the foundation to sit it on does not exist. But you still do it - and you are then surprised about the conditions on this beautiful planet, left in your care to serve you as a training ground. The time will come when the LORD will ask you to return the lease on this planet. You must then come up with the answer about *why you* have destroyed and humbled this beautiful house.

EUPHENIUS: You see, hear and feel that it is not easy to govern and live a life here on Earth that is PLEASING in the eyes of GOD.

- *It takes total concentration on one's own ego to gain the self-discipline and selflessness required to serve GOD in a divine SENSE.*

Consider that fact that you live in a highly technological world that is now of a different nature than the one tribal societies were privileged to experience hundreds of years ago. Recognise the fact that differences also existed even there. Wars and violations took place then also. You are subjected to *more* pressures and you must recognise that a spiritual VIBRATION arises as an opposite polarity, one you will recognise with your consciousness.

Question : Wherein lays the real meaning of man's existence?

EUPHENIUS: This can be answered in one sentence and its contents is filled with the notion of LOVING oneself and of recognising the LOVE of others. All of this includes the occurrences that serve the purpose of lifting you up to the LIGHT and to DIVINITY.

- *Only through your own LOVE of SELF and through your sacrificing LOVE for others will you open the door of knowledge that hides the meaning of life.*

The meaning of life on Earth comprises your chance to *return* to the ORIGIN of BEING, the return to the divine SOURCE, into the LIGHT and into UNITY. You are a part of this divine existence, here to enrich the cosmos and a part of a TOTALITY. The insight, that all of you are interconnected to one another because of your common ORIGIN, represents *the highest erudition* and the *most important* information that enables you to find your way here on Earth.

Question : Many people suffer from mental anguish because they believe that they cannot find their life's mission. What can these people do in regards to recognising their life's mission?

EUPHENIUS: These souls search *externally* and they orientate themselves on *external* issues. They endeavour to find their life's mission through other means. Every soul carries its existence, its assignment, its karma and its fate *within*.

- *The answers cannot be found by looking outside of self, but only by returning home to within oneself can one gain this insight.*

You carry this information within you and you will recognise it when the time to do so is right. These souls concentrate *too much* on externalities and tend to forget that they have to begin by looking at themselves. It is the wrong direction - the way LUKAS described it - that you start with the roof in order to build a house. Due to the many external attractions, you are fixated on externalities and this prevents you from recognising the fact that you carry the internal SOURCES of LIGHT and the WISDOM *within* you.

- *Forget! Go within yourselves in silence and you will receive the INFORMATION.*

Question : Which developmental level will a human soul occupy after its return to the spiritual realm, once it has received its "university degree" here on Earth?

EUPHENIUS: What does take place is that the soul *falls out* of the cycle of reincarnations for a while. Unless this soul decides to voluntarily appear once again with a divine ASSIGNMENT here on Earth, like all the eminent MASTERS who have furthered terrestrial development with their information and encouragements. These souls are no longer subject to the physical and to matter. They represent FREQUENCIES of unimaginable KNOWLEDGE about the DIVINE. It is difficult to put this into your words in order for you to understand. These souls represent fusions of pure LIGHT.

Question : Does the spiritual realm guide us to *predetermined* decision-making and turning points during our earthly existence in order for us to be able to fulfil our own life's commission?

EUPHENIUS: This journey of yours is *not* predetermined *by us*, but *by you*, as a soul. You give yourself the assignments you want to master in your present physical life before you are born. And rest assured that ENTITIES accompany you that send you information and LIGHT in order for you to recognise your tasks and in order for you to sense and comprehend the correct path when faced with a fork in the road so that you can receive your "school certificate".

Question : Many newborn babies unfortunately suffer from allergies or contract cancer at a very early age. What meaning has an earthly incarnation or reincarnation, if the necessary, vital basis for survival is no longer present due to the poisoned environment and they can no longer do justice to their life's assignments?

EUPHENIUS: It could be a case where this does serve a purpose, namely that these children, these souls, were prepared to live here on your planet for a *short* time only, in order to open other souls eyes and hearts so that they recognise that their demise represents a *special topic* for the souls here on Earth. Many souls who have lost a child begin the journey of realisation.

What happens quite often is that these souls get rid of certain unresolved karma in order to be able to provide their soul with a healthy body for their next incarnation. These souls have to go through the dying process once again in order to complete their development in the spiritual realm. They require this phase once again and this for their own cognisance.

Question : Let's assume that a soul decided before it was born to set itself a lifespan of 80 years to achieve something here on Earth. But because of environmental pollution, it does not reach this particular age and it can therefore not completely fulfil its life's purpose. Isn't it going to be nonsensical to incarnate at all somewhere down the line?

EUPHENIUS: That is right. You have just answered your question. But even if your planet isn't quite the blossoming planet it used to be due to what you have done to it, the divine PLAN would be annulled if GOD wouldn't provide special PROTECTION, GUIDANCE, LIGHT and ENERGY to these souls. These children that reincarnate here, these souls, certainly have a chance for development on your planet. You can presently observe your biological circulatory system and it is quite obviously affected by poisons, contamination and their associated illnesses. But remember:

- *The CREATOR would not allow incarnations to take place on this planet, if there was not one chance to lead souls and also this planet into the LIGHT.*

Question : We're experiencing an ever increasing mixture of nationalities here in Germany. Is this divinely-ordained?

EUPHENIUS: Divinely-ordained in that there are no differences in the eyes of GOD. There are no nationalities, no differences and no foreignness as far as GOD is concerned. These differences only exist *for you*; they are not according to GOD'S PRINCIPLES. GOD looks upon all of you as his children and as a part of him. The perception you express here is *yours* and surely, partially based on fear.

Question : There exist charismatic tribes and also individual people that project higher VIBRATIONS than others. Does it make sense that these "high-school graduates" share the classroom of "first graders"?

EUPHENIUS: How can first graders learn, if they do not have teachers or masters? How can a little person know what language, arithmetic, reading and writing is all about, if nobody takes it by the hand and teaches it all of this? - These entities, those with higher levels vibration, have the assignment to take you by the hand and to teach you all the important things in regards to your life on Earth.

Question : To what extent does the relationship between the soul of the child and that of the parents exist?

EUPHENIUS: A relationship between these souls is *not always* a given. By incarnating with their parents, the souls hope for specific experiences and developments. It isn't always a case where these souls know one another from past lives. The souls decide whether they'll accept or reject these requests.

Question : Within our human history, we have passed through many evolutionary cycles in order to develop physically. Is this physical development necessary to further progress in regards to spiritual and mental development? Does the physical and intellectual development of man run along parallel lines?

EUPHENIUS: The physical body is required so that an incarnation can be carried out at all. The body is important, it enables you to perceive certain functions so that you can accomplish exchanges and be noticed.

- *The development between body and soul has always got to be seen in accordance with one another. The development of your DNA is also to be equated with the development of your soul.*

The New Age will also bring with it an evolution whereby your body and your soul will take one more step forward.

Question : Thus the development of man's present physical body has not been completed?

EUPHENIUS: That's the way it is. You have not managed to consciously become aware of everything about your body by a long shot. Remember that you only utilise a fraction of your brain. What would happen if you were successful in activating your brain to a degree

where you could see and hear *beyond* your five senses thereby achieving perfection? You would cross the boundary and leave the physical behind.

Participant : We hereby end this theme and we thank you for your elucidations.

EUPHENIUS: You notice that we find it difficult to give you answers using *your vocabulary*, in regards to what GOD has accomplished with your planet and with you as souls, within the divine PLAN, answers that you can understand. Step by step, we will shed light in this darkness in order to reach people with these messages, people that will take notice of the things we tell them about their true existence.

The TEAM, with me as the circle's spokesperson, would like to remind you that you can only gain the knowledge you are trying to gain through further education and from lectures, *by yourselves*. Recognise the fact that this peripheral information is important because it gives your own thoughts *impetus*. But remember that you are the only ones that must be ready to put this into *practice*. To a lot of people, this putting into practice means to jump over high walls, to open doors and then have the courage to change. This process must be in accordance with your heart, with your divine LIGHT and with everything you are prepared to allow taking place in accordance with your free will. *You* decide the tempo of your development. But you must *recognise* the fact that you are the ones that have to take the first steps.

It is our hope that you recognise that you are a barometer in regards to the people around you only through your inner attitude, your self-acceptance, your own feelings and perceptions. Begin to accept the fact that you are a part of a pulsating, divine SOUND, one that amalgamates with others to produce an enormous SOUND ENERGY.

Your spiritual PROTECTION is in the shape of a shining CIRCLE that envelops you. You are embedded in brightly shining souls that would like to go the WAY of KNOWLEDGE and ENLIGHTENMENT with you. We are happy to be able to entertain an exchange with you, giving you the opportunity to expand your knowledge and to reach out to other souls in order for them to open up to their *true* existence. Kind regards from the SANTINER, who protectively hold sway over you and who are looking forward to being your guests here again the next time.

The LORD and CREATOR of your existence enriches you with HIS LOVE and HIS LIGHT. Accept this consciously and thankfully and share this gift with others. Begin to open up your heart to these VIBRATIONS so that your soul can embed itself in these familiar VIBRATIONS.

When you look back through your own history - not just your short life's history you experience within a certain timeframe here on Earth - you recognise that you will understand the things that happened on your Earth and what develops out of it in modern times, a lot better.

- *A lot of things will become clearer and more noticeable for you, once you begin to search for the meaning of your own existence.*

Your physical shell, with all its functions, organs and nerve conduits, is a highly developed, sensitive structure, something you can not yet reproduce with your present day knowledge. Your gene research represents the first step where you begin to have a look inside GOD'S CONSTRUCTION KIT. Whether this can be converted in something positive, something pleasing in the EYES of GOD is still questionable. - We thank you for your interest in your own existence and we are looking forward to the next meeting. With GOD'S LOVE,

EUPHENIUS and the TEAM.

(T. B: It was well worth it.)

Words from WHITE EAGLE:

Never give up. Ban all *negative* thoughts. Think exclusively *positive* and constructive and your body will react accordingly. Every part and ever cell of or body is subjected to divine power and glory. Your higher YOU - CHRIST within you - is king. Strengthen the CHRIST CONSCIOUSNESS in you and you will triumph over darkness and evil. In CHRIST'S spirit, there is no failure. - Search for the point of tranquillity within the centre of your being. JESUS said: Drop everything and follow me. We do not mean for you to neglect your worldly responsibilities, because they are part and parcel of your spiritual path and your daily discipline. But what we mean is for you to withdraw daily from your external world, from the noise and from the conflicts around you, in order to find the truth at a place of quietness and peace, beyond any mundane thoughts. The impressions you receive from the quiet, inner voice help you to recognise the TRUTH and to identify the true RESONANCE. Learn to be calm and quiet - learn to listen.
