The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Protocols touched upon	:	Extracts from P 155 to 160 (June and July 2001)
Theme/specifics	:	Reincarnation and Karma
Questioners	:	Members of the work circle
Type of transmission	:	Verbal inspiration and automatic writing
TEACHERS of LIGHT	:	ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY.
Previous guests	:	AMENDON, ELIAS, SEATH, TAI SHIN, SETHAN.

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We welcome all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I'll be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything of GOD'S antagonist. We know that we have to make the greatest contribution ourselves. – Our destination is to grow through spiritual TEACHING, then to be able to distribute the TRUTH where it can fall on fertile ground. We are asking for GUIDANCE so that our mission on Earth will be justified. We cannot reach this destination under our own steam and without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words from WHITE EAGLE:

Man must live his life spiritually fully conscious, because *he is spirit* dressed in a physical form and his form is anchored in the spirit. The life expressed to the outside is therefore the effect of the spiritual substance within him or to express it in different words, to what extent he permits the pure, perfect and divine life and LIGHT of the CREATOR to shine through his own life and his body. Live within the consciousness of the LIGHT and know that everything gravitates towards perfection.

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. As a totality we also welcome you very cordially to this meeting. You have found out (through e-mails) that little by little your efforts begin to bear fruit. This insight may strengthen your resolve to set solid guidelines in the work that you do, in order to help those souls that are still searching. We are pleased to find a harmonious and tolerant circle here, one prepared to spread the answers given in a DIVINE SENSE. You are embedded in a SEA of LIGHT brought to you by souls willing to protect this circle of people assembled here and also willing to supply it with divine LIGHT.

SETHAN : GREETINGS IN THE NAME OF GOD! This is SETHAN speaking.

I am a guest here today and also here to participate in this meeting. I am pleased to be able to announce myself here in order to tell you that you follow the path with divine assignation and that you are accompanied and protected by ENTITIES from divine SPHERES. Your work gives you the opportunity to reach souls who are willing to expand their consciousness and still the yearning within their hearts. Continue to perform this assignment in a divine SENSE. You are accompanied by ANGELIC ENTITIES who are willing to work with you. We send our thanks to you from the SPHERES of LIGHT and this on behalf of the CREATOR of this Earth.

Participant : We are surprised and delighted that you announced yourself here. We have not had the pleasure of meeting you before. I assumed at first that a vocal mistake was made and that you were the SPIRIT TEACHER SEATH.

SETHAN : I am a LIGHT ENTITY and I come from a *different* SPHERE and I pleased that I am allowed to be a guest here. I was allow to participate in this meeting and I am grateful that I may take part in the work you do here. I have no connection to the MESSENGER of LIGHT SEATH and I belong to a different ANGELIC SPHERE.

LUKAS : The theme we are about to discuss belongs to the most important fundamentals of spiritual knowledge and we are pleased to be able to process this extraordinarily important theme with you. We hope that you have numerous questions, which would be asked in a similar way by those who are very interested in this theme and who would also like to sit around this table.

We will endeavour to deal with this theme in conjunction with you, a theme that has no equal when it comes to being controversial. Nothing is more important than this

controversial theme; it represents the link between understanding life and GOD'S JUSTICE. Life is illogical and incomprehensible without this link. As you are in the process of receiving lessons, it is absolutely vital that the material we deal with is correct and if at all possible untainted, that is to say, unadulterated. There are unfortunately too many forgeries on this Earth. The result of these forgeries is evident all around you and this on a daily basis.

Question : To begin with, can you tell us something about reincarnation from your point of view?

LUKAS : Well, yes, but to do so would take more time than we have available tonight. You have to specify your question a little, so that I know where to begin.

- *Reincarnation is an ancient doctrine of truth, one that only relatively recently has disappeared from your culture. Disappeared due to the striving for power of various institutions and also individual power brokers. This represents a sad chapter in your history. It is about time that this chapter experiences a new edition; a new edition that complies with the TRUTH and not some new dogma.*

Question : What was the reason for making reincarnation available to human souls?

LUKAS : Well, it is because the CREATOR wanted to expand his absolute justice to include planet Earth. There was therefore no other choice but to make a *fresh start* in connection with a *free will* possible for these souls, in spite of some set boundaries.

- *Absolute justice is only possible through reincarnation.*

But because nobody teaches you about reincarnation, there are questions like why a person can live off the fat of the land, while somebody else is ill and can hardly sleep because of his pain. There are innumerable examples of *alleged* injustices and also many questions of why the CREATOR, who represents LOVE, allows something like that to happen.

- *Only reincarnation and its associated karma can satisfactorily explain the law of cause and effect.*

Question : What are the necessary prerequisites in regards to the soul, in order to reincarnate again?

LUKAS : The soul must *be ready*, because forced-incarnations only take place in exceptional cases. The soul must be ready to perambulate through a new life, a new school. It must have set particular goals and also a final goal. These goals are discussed with the KARMIC COUNCIL beforehand and *only then* will the soul be allowed to reincarnate. Every soul is bound by these LAWS, they apply individually and differ from case to case.

- *Reincarnation represents redemption from the dark regions of the spiritual realm.*

Question : Are the number of times a soul reincarnates predetermined?

TB: That is not possible)

LUKAS : No, certainly not, how a soul will live its earthly existence is not foreseeable. The decision of whether a soul needs to be reincarnated again can *only be made after*.

(TB: Very good.)

Question : Is there some preparation or even some training given in regards to a new incarnation on Earth?

LUKAS : Yes, of course. The soul experiences assimilation after its earthly demise, that is to say, it is *re-born* into the spiritual realm - this is something we have already dealt with. Something similar takes place when a soul is willing to experience a new incarnation. Somewhere along the line, maybe only after a few hundred years have passed, this soul feels that it is not making any progress. Its inner longing to progress one step further grows and grows and it finally incarnates into the physical with all its facets and educational opportunities.

- *Every soul has it in its grasp to break out of or stay within the cycle of reincarnations. The way a pupil has it in its grasp to progress to the next grade or stay behind and repeat the grade once again.*

Question : Can a soul select the time and the place for their reincarnation and also their physical parents?

LUKAS : Everything is discussed with the KARMIC COUNCIL, a superior AUTHORITY, and this under direct instructions by the HIGHEST AGENCIES of the spiritual realm. The soul may make suggestions, because it may also set its goals. The KARMIC COUNCIL has warned souls repeatedly not to incarnate with parents *they cannot cope with*. But if souls have set themselves this difficult goal in spite of the warning, the KARMIC COUNCIL will not hinder them in any way. The soul's spiritual GUARDIAN can also put in a good word and it can accompany the soul once again.

- *But the KARMIC COUNCIL takes a great interest in the course of the reincarnation. It happens over again that souls push to the front and take possession of a child's body, even though they do not have the right to incarnate at that time. These souls are then recalled. (Still birth, cot-death)*

Question : Does the COUNCIL also decide whether a soul may incarnate on another planet?

LUKAS : The KARMIC COUNCIL also decides here, but *without* the approval of the soul. Before a human soul is allowed to reincarnate amongst an unfamiliar and more eminent

extra-terrestrial race on another planet, it must first conquer its problems in regards to other races and its hatred of others during its earthly education.

Question : Can you explain the function, composition and task of the KARMIC COUNCIL?

(TB: To spread the LIGHT)

LUKAS : To describe it in your words, the KARMIC COUNCIL consists of MASTERS of LIGHT. They are highly evolved souls who have gone through everything there is to experience. Only then are they in a position to understand and caringly guide other young souls, if these young souls are determined to incarnate on a much higher evolved planet.

These MASTERS of KARMA are some of the highest angels, but they are still below the level of ARCHANGELS in regards to their level of development, as we know, ARCHANGELS help the CREATOR to continue the development of the universe and they are charged with assignments which are far more complex. But I like to emphasise that *both* are important assignments! The work archangels do is not “more important“, as you might think, than the work the MATERS of KARMA perform.

- *There is no hierarchical structure, like that of a pyramid, with GOD at its apex, but a broad and expansive horizontal plane, with its most diverse assignments and everything is encased in GOD'S VIBRATIONS.*

Question : If other people, who have not dealt with divine LAWS, hear that reincarnation is a fact, they might think: Why should we make an effort to change our life, if we get another chance anyway, there is no merit at all in changing one's present way of life and get involved in what the divine LAWS prescribe. How do you see this?

(TB: Incorrect! - They will be surprised just how this works.)

LUKAS : It would be akin to someone saying: “You and your spiritualism, leave me alone, once I'm dead, I will know exactly what is right and I will react accordingly.” *This constitutes an error*, one that many a soul has regretted very much. It is *never too early* to think about these things. And whether a soul returns to Earth is *certainly not a given*.

- *Many people are incarnated on planets that have the level of development Earth experienced about 70 million years ago. These human souls pass through the whole cycle once again -, because they thought exactly the way you described it.*

Question : Any discussion about reincarnation is for many people *of no concern*, because according to their convictions, physical death means complete annihilation and the existing natural laws allow no room for the survival of the soul, whatever form or shape it might assume. Others welcome with anticipation the growing amount of evidence, which allow a rational believe in reincarnation to grow, even if this growing amount of evidence is not clear cut by a long way. The problem with the doctrine of reincarnation

still remains the same, the thesis of reincarnation remains a question of faith, because it has not been either confirmed or confuted up to now. How do you see this problem and is there a solution?

EUPHENIUS: This problem represents a situation that has reigned here on Earth for decades and centuries and it has made you, as souls, *feel insecure* and it has *seduced you to deviate* from the true reason of being. Your belief system here on Earth is guided in connection with *ecclesiastic* faith and *ecclesiastic* laws and with ecclesiastic, dogmatic conditions. But what does faith imply for you here on Earth? - What meaning has the word “faith” for you as a humanity and for you as individual souls? - You place faith on an even footing with seeing, knowing and demonstrable scientific knowledge. But *where does it spring from* and *what is the TRUTH?*

The Church has destroyed this faith, this divine faith, by what it determines to be of merit and by what it depicts as reality. They have failed to remind people about the *actual assignment* that applies to every individual soul here on earth. It has distanced itself from what GOD had in mind for you, as human beings here on this planet. You have erased ORIGINAL KNOWLEDGE. This ORIGINAL KNOWLEDGE is no longer perceived as existent. We find partial information and core truths within individual religions and they attest to this. You are controlled by your head to such a degree that you fail to find the channel to your HEART in order to assess whether there just might be a SPARK of this faith present there. This faith can only grow by listening to all the information that reaches you from many areas of the hereafter.

- *Through the DOOR of your soul and through various and diverse information, human souls find their way to the true religious denomination, the one that can only lead to GOD.*

This entails that in regards to the divine, - and this is how it starts - *the existence* of GOD is *initially* even considered. For many, GOD does not exist at all. This is where all erroneous beliefs have their beginning! How can you have faith, if you do not even have an inner conviction that a GOD exists, that a CREATOR exists, thereby giving you the opportunity to continue along the path you have chosen here on Earth and also the opportunity for your soul to turn towards the LIGHT? All of this has to be regarded separately and also digested separately, only then will the way to knowledge and to reincarnation be open.

Question : Of all the things that exist in the physical world, your average citizen has only seen a minute part of, but he still knows that they exist. Only a restricted number of people have come face to face with an a-bomb for instance, but in spite of that, everybody knows that this weapon exists. Why do people find it so hard to believe when dealing with GOD?

EUPHENIUS: GOD is only accepted when mankind or a soul needs somebody to blame. Or when one is distressed and desponded, one remembers that there just might be somewhere where one can send one's feelings, pleas and wishes. The a-bomb is a creation of your

humanity and therefore exists for everyone. But GOD is so far removed for many souls, that this existence cannot be accepted as the TRUTH.

Question : Why, as a spiritual soul, is one forced to wander within the physical world from one body to the next?

EUPHENIUS: This contains the opportunity for you - and this is a GIFT from the CREATOR - to receive the opportunity as souls to turn your soul towards the LIGHT so that you can grow and mature. *Without* the interaction of the physical and what is associated with it, namely your duality, you would not give a thought as to what GOD'S wishes are in regards to individual souls.

- *The interaction between good and evil, with the different kinds of nationalities and its associated conflicts, gives you the opportunity to test your free will and to decide which way is the right one.*

This gives you the opportunity to cross the playing field from different sides, maturing on various levels and planes. This gives you the assuredness that you are confronted by the DIVINE; remember that every individual fellow human being also carries the DIVINE within.

- *Your contact with others brings about your interaction with divine LOVE.*

Question : Is this the reason and the goal of this seemingly endless journey?

(TB: Certainly)

EUPHENIUS: The aim is to break through this, so that you don't have to decide anymore whether something is good or evil, but that it rests with you, that is to say, up to you to make this journey with your heart, without when and but. You are then not in need of the physical body anymore, with its mind and its thoughts, you *would have become* the final aim: Bright LIGHT.

Question : There is thus an escape from the LAW of KARMA and from the wheel of birth and death and therefore an end to reincarnation?

EUPHENIUS: There will be an end to reincarnation, when the soul *is so bright that it can exist in the ethereal.*

Comment : In a way, its ethereality allows the soul to fall between the spokes of the turning wheel of reincarnation and it will be free.

EUPHENIUS: This is correct. If you like to put it like that, this is a nice example.

Question : What is the criteria that determines what parents the souls receives in its next physical existence?

EUPHENIUS: This depends on the goals and reasons the soul has chosen for itself for the new incarnation. This takes place in accordance with the KARMIC COUNCIL and the ENTITIES that eventually accompany the soul during its life on Earth. It happens quite often that souls select parents whereby a karmic bond can be dissolved or where the opportunity exists for the soul to grow in a divine SENSE.

Question : Just how many lives has a European to absolve on average?

EUPHENIUS: This *varies a lot* and cannot be assessed numerically. Be assured that it is *several* lives and you will remember them when you slide across to the spiritual realm.

Question : Are the number of lives dependant on the environment?

EUPHENIUS: This does not depend on the environment, but it depends on *how willing* a soul is to begin a new life here on Earth. The flood of souls arriving on this planet has increased over the last thousands of years, brought about by an increase in opportunities to learn and due to the fact that souls from the darker SPHERES have begun to continue their spiritual journey. But one has to take into consideration that higher ENTITIES also use this planet in order to give you here on Earth INFORMATION and IMPULSES. Remember that every soul receive the opportunity from GOD - if their desire comes from the heart - to develop further. It would not within CREATION'S PLAN, if this was interrupted.

Question : Can *every* type of soul quality incarnate on the physical plane, from CHRIST down to the lowest of negative souls?

EUPHENIUS: Negative souls will receive the opportunity to reincarnate here on Earth only after decades and after a lot of instructions.

- *It is not as if dark souls incarnate here on Earth, but it is souls flushed with light who are ready to continue their journey. The darkening of the soul only begins once they begin their journey here and if they allow themselves to be captured by the dark SIDE.*

These souls are *unstable*, made insecure by their fears, contradictions and ambivalences. They are traumatized in their thoughts and in their heart. They quite often do not have a connection to the divine ENTITIES that are at their side, meaning: These souls have lost their contact with their ORIGIN.

Question : You told us that negative souls receive the opportunity to reincarnate only after decades. Is there a predetermined period of time?

EUPHENIUS: This period of time varies. If we are dealing with souls from the lower SPHERES it could be that such souls have only incarnated once or twice up to this point in time.

Question : Does a soul reincarnate immediately, if it dies shortly after being born?

EUPHENIUS: It depends on whether the soul had to impart the souls of its parents a certain assignment through its death. It can also be a case of dissolving karma. But it could also be a case where the soul dies due to genetic circumstances and thereby receives a chance of an immediate reincarnation.

Question : What about soldiers who die at the front?

EUPHENIUS: These souls are ripped out of the physical body under great stress and therefore are in need of a longer period of healing in the spiritual realm in order to find themselves. These souls need specialised help. They decide when the next incarnation is due.

Question : To what degree do gender, race, colour and religious beliefs change from one incarnation to another?

EUPHENIUS: This differs a lot and depends on various factors. It deals with the highest principal to begin with, to see *what goal* this soul has set for itself and it depends on the KARMIC COUNCIL'S views on the development of that soul. In regards to gender, it varies a lot and as far as nationalities are concerned, it can certainly be very different. It can also be a situation where the soul chooses a completely different direction for its own development.

Comment : This reveals the senselessness and stupidity of being intolerant. We only condemn ourselves by expressing our prejudices in regards to others.

EUPHENIUS: This represents the mirror-image I was talking about: By separating yourself from other nations, from other religious denominations and from other cultures, you deny yourself the way that leads to GOD. Remember that these are also souls and they are also connected to you and to GOD. Only when you can accept this will you understand *the meaning* of reincarnation *correctly*.

Question : Just like the rungs of a ladder, there are many levels in the spiritual evolution of souls who have not allowed the compensating factors of the planetary experiences to have an effect within them. The soul can trip, fall back and drag others down and this anywhere on its journey of development. Does this apply to all the other inhabited planets in the universe?

EUPHENIUS: This imagery of levels you portray applies to planets where the physical has the upper hand. The SANTINER for instance, living in a world of the physical and the ethereal are subject to *other* LEGALITIES. This represents a LEGALITY that applies to planets where the physical has the upper hand.

Question : From an astronomical perspective, the solar system of the SANTINER'S home-planet is relative close by. Are there other inhabitants out there in the universe who have reached a similar level of development to the SANTINER'S?

EUPHENIUS: There are planets of a similar composition to your Earth out there and where one finds different sections of development. And there are also planets that enjoy the protection of entities like the SANTINER you're familiar with.

Question : The Church denotes the reincarnation of the soul a false doctrine. But it was still anchored within the believe system of the early Christians. What are the reasons why this has changed?

LUKAS : Well, the fact that people carried their own responsibility didn't suit the Church and therefore changes were made, assuring that the Church would always be the relevant authority in regards to GOD and his people. This assured the influence of the Church.

Comment : The Church calls the doctrine of reincarnation a total lie.

LUKAS : Well, they also tell lies and this statement is therefore relative. He, who wants to know the TRUTH, must ask the SPIRIT of TRUTH and not some human authority.

Question : If the Church only knew the results of all their depictions and dogmas. There are so many people who implicitly trust every word spoken on behalf of the Church. What can we offer these people?

TB: (This is difficult.)

LUKAS : This represents an enormous guilt the Church has burdened itself with. The tragedy of this situation is that these trusting souls, looking for true guidance from their "guardians" - in brackets - are not informed about *what would bring them closer to GOD*. Most of the time they only hear platitudes without heart and soul. These souls have to take it upon themselves to find the TRUTH. There are souls amongst them who possess such a strong faith that they don't necessarily need Christian spiritualism in order to gain salvation.

Some theologians are well aware that the doctrine of reincarnation would achieve considerably better results, because above everything else, it represents a *logical link* and fills the gap inserted into the Christian bible, inserted in order to have the authority to wield power over people. Theological circles become ever more anxious, because they are aware of the questions coming from the populace and they are also aware of their own helplessness.

Question : Why are some people born into an environment that affords them every possible blessing, whilst others enter a world of poverty, ignorance and misery or with a disfigured body? Where is the justice of a just GOD here?

EUPHENIUS: This is a question that is asked very often due to a feeling of desperation and ignorance about the *true* reasons. - There are presently countries with a high birth-rate where epidemics and infant mortality are endemic. These are regions that assist those souls

who only need a short time here in order to learn and to develop further. As you said before, it is dependant on the *goals* a soul has set for itself here on Earth. Which family, which Nation and the prerequisites necessary to achieve this goal has to be co-ordinated in conjunction with the KARMIC COUNCIL. It is difficult for the human mind to synchronize this and to look at it from the perspective of GOD. Wars, hunger and misery produce doubts and these questions arise, questions that are rightfully yours to ask.

- *But remember that GOD is not responsible for everything, but that you also have to take control of your destiny in order to be able to travel your chosen path here on Earth. You have an effect on some sections of your chosen path and you are responsible for your deeds and actions.*

Question : Could one say: He, who lives a life of luxury here on Earth has earned this affluence in his past life?

EUPHENIUS: One cannot put it so all inclusively, so black and white. Maybe a soul has to learn to *deal* with opulence *with dignity* to eventually support other souls with this wealth.

Question : The most important thing seems to be a “side effect” of reincarnation, namely karma. What can you tell us about it?

EUPHENIUS: Karma is the imprint you bring with you from the past lives you have behind you and it is the ledger of your credit and debit - an exaggerated example - which can now be labelled. Karma represents one's goal's perspective which also streams across during a new incarnation. The soul must try to dissolve this karma in order to progress in its own development. But this is only possible if the soul recognises that an indemnification *for oneself* is an important goal perspective. You quite often overlook or disregard why for instance illnesses are important to you as a mirror, allowing you to recognise what you are doing wrong in your life. You continue to receive the same tests during your daily existence and do not recognise the “why”. Asking questions and looking within atrophies, because you live primarily in an exterior world.

Question : But how can one know all of this?

EUPHENIUS: Knowledge only begins when one *recognises*, that one *is not just* governed by outside influences, but *first and foremost by one self*. The cognisance that one is an individual, sentient and strong willed entity, is the first step that leads to changes in one's situation.

Question : Does the saying: “Do unto others as you would have them do unto you”, indicate that karma is cause and effect that has come alive?

EUPHENIUS: That is correct. With everything you do to yourself, to others, and this includes not just human beings but also nature, a mirror image of yourself and your soul will be the

result. It is important to recognise that everything here on Earth has a cause and produces an effect. Not just here in this life, but you take a part of this package with you to the spiritual realm.

Question : Is adverse karma equal to paying a debt, conquering weaknesses or the temperance of extremes?

EUPHENIUS: This comparable portrayal cannot be considered correct. Guilt and weaknesses are a part of the human characteristic trait you gain through your character expressions and idiosyncrasies. A karmic accompaniment is something that you have brought with you from the external expression of your past lives.

Question : Is it true that adverse karma has to be conquered first, before the cycle of reincarnation can be broken?

EUPHENIUS: The dissolution of karma is the reason why you are here on Earth. If you didn't have a goal and this motivation to be here on Earth again, a reincarnation would be nonsensical. You would then no longer need this history of development here on this planet. Karma represents a part of the guilt that has injured, weakened and saddened your soul. This must be remedied first, enabling you then to change across to the spiritual realm as a colourful, strong and luminous form.

Question : What are the potentialities available to overcome adverse Karma? What can one do?

EUPHENIUS: It is very important to begin with that one becomes aware of *the goal* one wishes for oneself, as a human being and as an independent ego-person. This is identified by one's behaviour and one's dealing with others. It is important here to recognise that the heart and one's faith in GOD represent two important pillars when it comes to walking this path. Recognising that divine LAWS do exist is a signpost, indicating that personal karma has to be conquered and dissolved. Adhering to GOD'S LAWS makes it easier for you to dissolve this karma so you can walk the path into the LIGHT.

Comment : Human beings are like a bear in a zoo: He can walk back and forth and sideways in complete freedom, but there are boundaries he cannot cross.

EUPHENIUS: The boundaries you talk about *are set by you*. They do not represent GOD'S BOUNDARIES. You are the ones that can decide whether boundaries are to be respected, changed or shifted. The reason for boundaries is that they may fall, in order for you to recognise what lies beyond these boundaries. Boundaries are human constructions and they have nothing to do with DIVINITY.

Participant : I cannot accept it like that, because karma also has its limitations. Karma was discussed by the KARMIC COUNCIL and this would turn it into *divine* boundaries.

EUPHENIUS: But you have the opportunity here to leap across these boundaries and to dissolve the karma that does represent a boundary. By recognising that this is possible you will have

all the necessary power in your hand to carry this out. But you are torn hither and thither by your emotions and by the pro and cons. In certain ways you have limited yourself in your narrowness through the duality you experience and through your free will.

Question : Can adverse karma defer itself over a number of lives until the correct constellation of circumstances eventuates at a certain point in time?

EUPHENIUS: Karma is only *a part* of the whole picture. If someone here on Earth has set himself the goal of dissolving his karma, it will be the right time to try to break away from this karma here and now. This is the goal the soul strives for. If this karma has not been dissolved, it will certainly be possible to try again to dissolve this karma in another life. But this will then takes a *more intensive* effort on behalf of the soul, because the intricacies of that karma have changes and *amplified*.

Question : What is the situation like in regards to karmic ties with other people if they have not been born before the existing karma can be dissolved?

EUPHENIUS: Karmic ties between people - if it deals with dissolving disentanglements - can only be dissolved when these souls are also incarnated here on this planet. If it serves to dissolve this karma, the opportunity will present itself. It *doesn't have to* drag out across a number of lives.

Question : Generally speaking, there should not be any “negative” karma, only positive, because its purpose is really to further *spiritual advancement*.

EUPHENIUS: Karma should not be regarded a negative representation, but as support and chance. This word “karma” often has a bitter undertone here with you on this Earth. This shouldn't be so, because it is a chance to advance the further development of the soul. It is a divine chance, enabling you to recognise the weak points of your soul and to change them.

- *Karma is always a positive ENERGETIC VIBRATION and it is fed by GOD'S CREATION.*

Question : Is the dissolution of old karma automatically guaranteed, if one accumulates good karma, for instance by carrying some of the burden of someone else or if one endeavours to undo an injustice?

EUPHENIUS: There could certainly be a connection here, that by doing so, you will neutralise some aspects of karma. This ENERGY will then be dissolved. Your behaviour indicates that you allow the divine ASPECT within you to grow and it reminds others to *adhere to* these same divine LAWS in order to make their own development possible.

Question : No matter what kind of adverse karma?

EUPHENIUS: Any kind of karma is dissoluble and from a divine point of view, it would not be advantageous if karmic situations would remain here on Earth.

Question : If will is the deciding factor, it would have to be able to change the potentiality and destiny created by the preceding activities of the soul. Does karma provide a predetermined constellation that can be changed through one's will and discernment? Is this correct?

EUPHENIUS: This is correct. Your will gives you all the opportunities of taking your own destiny into your own hands and to go your way. You can decide *which* ENERGY IMPULSES you want to confront, you decide *which* is the right way for you and how you deal with your fellow man and with yourself. These are the most important prerequisites of discernment, namely that you carry the responsibility for yourself, for your environment and for the Earth you live upon. This responsibility represents one part and will help in leading you towards this discernment.

Question : Do we therefore find free will and predestination within every human being?

EUPHENIUS: Predestination only comes into play, if the soul, with its free will, is willing to *actually see* and *accept* this. What's the use, if the decisions you make take you far away from the goals you set yourself here on Earth? You must have the motivation inside of you to recognise this.

Question : Is it true that any injustice *always* originates with human beings and what seems to be luck, a mistake or coincidence goes deeper than the alleged malicious acts of a capricious creator, as some of our contemporaries maintain?

EUPHENIUS: This shows quite clearly once again that everything has its cause and effect. These are conditions that dwell within you and emanate from you. Everybody has the opportunity to progress either negatively or positively. Calamities and luck are often based on how you grasp your salvation and your positive attitude in regards to yourself and your fellow man. Everybody interprets luck differently. We call it lucky, if you find enlightenment within because it enables you to recognise that you are divine being. This inner peace and confidence show you the way, allowing you to take control of your own destiny here on Earth.

Comment : Many people are of the opinion that in their case, GOD always looks the other way.

EUPHENIUS: They wrangle with themselves, because they do not recognise that *they* are the cause of what they are reaping now. It would also make sense for these souls, in their hour of need, to have a good look at themselves and scrutinise their own life's situation to date.

Question : Could it not be a case where innocent souls are burdened by other souls, which in turn again amass fresh karma?

EUPHENIUS: Remember that you have SOUL ENTITIES around you who adopted the obligation of protecting every soul here on Earth. This PROTECTION is only lost when the inner SUBSTANCE is lost allowing negative ENERGY to affect its influence.

Question : Has the soul a choice of incarnating in a male or a female body?

LUKAS : To a large degree, yes. It depends on past lives, whether a soul has lived as a man and whether it would like to gather experiences as a woman. This can sometimes lead to *irritations*, because something from a past life is reflected and the soul, now in a human body, cannot come to grips with its femaleness and under the surface mourns its past life's male existence. The reverse is also possible, for instance if a soul gathered experience as a woman in its previous existence and would now like to do the same as a man. Due to the fact that the soul about to reincarnate is allowed to make suggestions and to express its wishes, it is up to the KARMIC COUNCIL to allow such an incarnation to take place or not to take place. But there would have to be pretty important reasons for the COUNCIL not to grant this wish.

Question : Were homosexual men supposed to incarnate in a female body?

LUKAS : Their wish was to live a life as a man, but this desire does not present itself after birth, because due to the change of one's PLANE of EXISTENCE, the memory in regards to this wish is lost. The VIBRATIONS the soul has adopted from its past life as a female, is brought across. But this isn't always the case. There must be a certain instability present to cause these fluctuations, otherwise such developments would not be possible. But the Earth represents a school and this is why one should *absolutely tolerate* this, because the same can happen to the mocker in the next reincarnation! - The mind belongs here on Earth and it is discarded during one's crossing to the hereafter, respectively neutralised and the soul awakens in the spiritual realm with new and unimaginable mental capabilities.

Question : Therefore the feminine aspect has nothing to do with the balance between yin and yang that is a given, something that would strictly speaking be desirable?

LUKAS : No, this equilibrium play a part in a community, a marriage, within a group, well even within businesses, but not within the voluntary reincarnation of as human soul, which asks for something like that in order to advance *independently* from the yin and yang constellation.

(TB: Difficult cases!)

Question : What are the reasons why there are such varied and different opinions in regards to the doctrine of reincarnation?

LUKAS : Well, there are not just different opinions in regards to reincarnation, you find them in all areas of life. But the fact remains that with questions of religion, fanaticism, with its negative effects, seems to have easy access. The Christian Church alone is divided into various religious denominations and the same applies to the doctrine of reincarnation, it too is split up, beginning with absolute rejection, to an “eventual yes” or “not proven yet” and such like. You find homonym new-revelations at various locations around the world, but the Churches will not listen to them. But it will have to one day, otherwise it will go under.

- *Listen to what is given to you from GOD’S REALM.*

Question : Can it come to a blockage in the development of a human soul, if it *doesn’t accept* reincarnation?

LUKAS : Those who do *not accept* reincarnation will not make any suggestions when the time comes to be born again and will also not ask to be reincarnated, therefore blockages cannot occur. Blockages do turn up when the soul is diverted from its desired path through the stations of a misguided mind.

Question : Is the soul prepared for its incarnation in the spiritual realm?

LUKAS : One cannot generalise it like that, because *the characteristics* of the future life plays a big part. Compare it to the training of professionals and trades people, it also demonstrates diverse facets. The soul is *acclimatised* to the situation is it likely to find on Earth, this involves many spiritual HELPERS with experiences from past lives; they act as TEACHERS and influence the character of the soul before its difficult journey into matter. This influence can be compared to your conscience which announces itself when you deviate from the ORIGINAL PROGRAM due to an aberration of the mind, which in turn dissuades the soul from journeying along the right track. During one’s incarnation the mind dominates proceedings and the effect is that the soul reacts quite severely in a psychosomatic manner. This can lead to various side effects, for instance illnesses.

Question : Does Church dogma prevent us from understanding supernatural truths and observations here on Earth, especially in this century?

LUKAS : Oh yes, unfortunately, because the Church has a powerful influence on the soul, through its early indoctrination in schools and religious education for instance. It is very difficult later on in life to shed or revise something erroneous - let’s say something *incomplete* - that one has accepted as a young person, especially if the new information does *not* spring from *religious* sources and if it’s not some new revelation. The sciences have the same problems, it is also familiar with numerous dogmas and it is not willing to sacrifice them. There is a lot to do in order to change this one day. But external circumstances will help and the Churches and the sciences will have to admit that they have been wrong, wrong to the detriment of the masses that have always borne the brunt of these machinations. But GOD will not be mocked and the Earth cannot be exploited

for ever, it only takes that famous last drop in a bucket. But this is another theme altogether.

Question : The continuity of life makes GOD really a GOD of grace, justice and above all patience. “This is why you should be perfect”, is one of the commandments of the bible that is often quoted. A seemingly impossible demand. How do you see this?

EUPHENIUS: The demand to move towards perfection is one goal that is achievable. Remember, in their distant past, the SANTINER were also human souls, but they managed to complete their way up the ladder to the LIGHT. It is not that GOD’S GRACE and GOD’S PATIENCE stop somewhere along the line. It is the SOURCE of CREATION, life and ENERGY. You will never be dropped by the divine SIDE. You will be carried and cushioned by MESSENGERS of LIGHT, ANGELIC BEINGS and by ENTITIES who accompany you along your journey.

You certainly have the opportunity to interrupt the WHEEL of REINCARNATION and to go tread the path that leads to the LIGHT of GOD. You only have to be ready to take the first steps in order to realise that it is worthwhile. Only your mind, your scepticism and your distrust hinder you from opening your true heart to the life and beauty GOD has placed everywhere here on Earth. Remember that this planet is also a SOURCE of LIGHT that is fed by GOD.

Question : There are inherent mental impulsions, for instance certain interests. Where do these impulses spring from?

EUPHENIUS: Interests are character traits that develop after the reincarnation of a human soul. They represent tendencies, which are activated by external sources, that is, by family or through excitation and external stimulation. Interest constitutes possibilities, not just for insights but also for further advancement, advancement in regards to people’s mind, sensibility and basic personal characteristics. Interests can be either positive or negative, dogmatism is certainly present here too. Your free will gives you the opportunity to activate your interests and to guide them in a positive direction. They represent enrichment for your spirit and for your mind.

Question : Could it be a situation where certain mental inclinations and interests are connected with interplanetary journeys undertaken in a past life?

EUPHENIUS: They could certainly be these kinds of after-effects, but they don’t have to be. It can be a case where through one’s incarnation into certain family systems and karmic ties, interests develop that have not been discovered by the soul before.

Question : What do feelings express?

EUPHENIUS: Feelings are sensations that quite often cannot be put into words by you. They represent expressions of sensations and they can be of a physical or a mental nature, meaning that the body and the soul can express feelings. The feelings expressed by the soul often

express themselves as physical pain or discomfort: like a tightening of the abdomen, heart palpitations, shortage of breath, restless limbs or even feelings of elation you call high spirits and exuberance. Feelings are a barometer, not just in regards to the outside, but also for inside. They express your innermost feelings and this mirrors itself via your physical corporality.

Question : Are these emotional impulses from past physical lives lived on Earth?

EUPHENIUS: This is only possible when souls are hypnotised or in a deep sleep. In a situation like that, souls can experience sensations and feelings that have nothing to do with their present earthly existence. But this is only possible if one takes a soul back to a past life. This happens at time during operations when under a heavy narcosis or under hypnosis.

Question : Does *every* thought, *every* word and *every* action actually contribute to the overall building of one's character and does it in turn become a part of a person's karmic structure?

EUPHENIUS: Every expression, like words, actions, activity, movement, thought or reaction you articulate *are present* and can influence your karmic ties and your karma anew. You must be aware that thoughts manifest themselves just like words and that negative actions will catch up with you one day. These are concrete components and they make it possible for you to review your life once you're in the spiritual realm.

You bear a great responsibility, because *you* know about these things and because *you* have knowledge about things that many people never think about; they will therefore never realise the effect their reactions produce. These reactions, this misbehaviour, for instance through negative thoughts, can even start wars, if they appear in a cumulative form.

Question : Are the situations we find ourselves in always exactly what we deserve?

EUPHENIUS: I can affirm that this is the case most of the time. Everything is adapted to such a degree that you have the opportunity to realise the goal you have set for yourself in the spiritual realm here on Earth.

- *But there are souls who elbow their way to the front and simply incorporate themselves into a reincarnation cycle. They then find themselves in the wrong physical body and it can eventuate that these souls are fetched back to the spiritual realm very quickly due to a premature death.*

Everything that awaits you here on Earth has been well discussed and prepared for in the spiritual realm and one expects of you *only what* you can presently learn and achieve here on Earth.

Question : Could one say: If somebody does alright or even very well that they have earned this in a past life?

EUPHENIUS: This is certainly a possibility, a soul might get to take it easy here on Earth to eventually prepare other souls to what's on the agenda. But it can also be a case where souls lead a happy, light hearted and cheerful existence without knowing what their actual assignment really is. But they will recognise their assignment when they get an opportunity to do so.

- *Every soul here on Earth has an assignment, it may be big or it may be small. It is not up to us to assess this and needs a DIFFERENT kind of assessment.*

Question : Have people who live of the fat of the land earned their material affluence in a past life?

EUPHENIUS: It *doesn't* work like that. These are souls who certainly have an advantage - well, you would say so - because money plays an important part in your world.

- *Money is your concern and has nothing to do with the spiritual development of a single soul.*

It could be that a soul receives an opportunity here *to learn to deal* with this money in a *sensible* manner. But it could also be a case where the soul has lived in such poor circumstances in a past life that it deserves to get to know the other side for a change. There are various reasons *why* a soul leads such a life here on Earth. There are no general guidelines. The soul's *wishes, goals* and *development* are always taken into consideration so that the soul is not overextended or not challenged enough.

Question : Accordingly, we will be credited in a future existence with everything that we do now?

EUPHENIUS: We can clearly answer this in the affirmative, because it expresses exactly what you can expect when you cross over to the spiritual realm. You will be confronted with whatever you have managed to *produce* and *strived for*. You will be presented with an *accurate list*. But don't dread this, because everybody has something positive to show for.

Question : Reincarnation is often confused with transmigration, that is, with the transmigration of the soul. According to Hindu traditions, the human soul could therefore also return to the animal kingdom. What is your opinion in this regards?

EUPHENIUS: We deny this. It is impossible for you to reincarnate as the soul of an animal within an animal's body. The make-up of your spiritual substance makes it impossible for you to exist in an animal's body. Your soul will always return to human form, respectively to a LIGHT FORM. The souls of animals vibrate on a completely different LEVEL of VIBRATION and it cannot be adapted to that of a human soul. What could a human

soul learn within an animal's body? - To learn and to develop represents the *highest* divine COMMANDMENT.

Question : When does the actual reincarnation take place?

LUKAS : Nothing stands in the way of an immediate reincarnation once the KARMIC COUNCIL has given its approval.

Question : Let's assume that this decision has been made, where do we go from there?

LUKAS : If there is a couple available with the wish to have a child, their thoughts are received in the spiritual realm and an appropriate soul is found. This soul is then advised to reincarnate. All of this is preceded by the soul's willingness and plea for a new incarnation. Once the physical body of the child has matured enough, the soul can permanently connect with this body.

Comment : But there are also couples whose wishes for a child are denied.

LUKAS : These are physical influences, whereby the constitutional connections must be correct. This is not the task of the spiritual realm.

Question : Do you mean biological connections?

(TB: Yes.)

LUKAS : The physical connections are the ones that allow a fertilised ovum to grow into a child and in the first place, allow the fertilisation of the ovum to take place, constitutional connections are here also necessary.

Question : Can we assume therefore that our two children have selected us to be their parents?

LUKAS : This is the case most of the time. But there are cases whereby souls are allocated to *certain* parents. These cases are a rarity.

Question : Does a newborn have its own consciousness?

LUKAS : Yes, naturally. But we have to add here that the child's soul, respectively the child's consciousness, takes *complete* control of its physical body only at about the age of 15.

Question : Is a soul's character neutral prior to its birth? Do the dual characteristics of good and evil develop later on, due to the influences of the environment and the child's upbringing?

LUKAS : No. The soul is indeed positive, otherwise the KARMIC COUNCIL would not accept it, but certain character traits are already present in infants and they are a part of its personality. For instance, if the soul is unstable, it will be easy to guide and to

manipulate this soul here on Earth. But there are souls who immediately display a strong and pronounced personality and who make full use of it, for instance to their own advantage without taking the need of other people into consideration. You can often observe this lack of social competence amongst the ranks of your executives.

Question : Is the soul present during the mother's pregnancy or only during its birth?

LUKAS : The connection to the mother is established *at the moment* conception takes place. The soul and its developing, physical garment are connected with one another. The soul helps with establishing the DNA of its body. This wouldn't be possible if this connection was not in place or if the soul entered the body at the moment of birth. No, the fact is that the soul supplies the invisible BLUEPRINT for the physical body.

- *It can lead to irreparable damages, if the physical modules are defective or if they are encumbered by harmful rays and the like. The soul cannot reverse this kind of damage, because a certain predetermined PROGRAM runs its course. Disorders are not catered for, otherwise there would be a REPAIR PROGRAM in place.*

Question : Does this mean that the soul has no influence on the biological sequence any more, if the developing, physical body is damaged?

LUKAS : No, no influence at all. If it is foreseeable that something like that takes place, there are souls - something inconceivable to you - who will take it upon themselves to undertake an incarnation in such a damaged body, due to their LOVE for their CREATOR, *because every body has to have a soul*. This is a divine LAW.

(TB: That is true.)

Question : Does this mean that handicapped children do not necessarily deal with karma?

LUKAS : This is correct. But it can be one of the reasons mentioned; it would then constitute self-imposed karma.

Question : Does this mean that the soul originally allocated to this physical body decides not to accept the damaged body

(TB: Yes, that is possible.)

LUKAS : Yes, correct. This decision is *voluntary* and based on free will, something that is absolutely essential.

Question : Does this mean that free will also exists in the spiritual realm and that it is not just an earthly addition?

LUKAS : Free will has *absolute priority* and is respected in all its facets by the spiritual realm -, but not by the negative side.

Question : What norms exist in regards to souls and reincarnation?

LUKAS : Well, “norm” is such a mundane word.

- *First of all, the request by a soul for a reincarnation must be present.*
- *If suitable parents are found, and that can take some time, the question of whether the soul will follow through with its desire to incarnate remains. Take into consideration the instability of many a character that suddenly changed its mind. If the soul wants to continue with its request, everything else, the whole sequence of its earthly life with all its major turning points is discussed and establish with the help of the KARMIC COUNCIL. This ensures that the soul is guided to the turning points during its lifetime, where it must decide on which way its wants to continue. As we mentioned, free will has highest priority.*
- *Now comes the time when the soul’s GUARDIAN ANGEL and HELPERS are determined.*
- *And finally, with the fertilisation of the ovum, connecting the spiritual COMPONENTS with the physical body is carried out according to eternal LAWS, LAWS in effect since the beginning of incarnations on Earth.*

Question : Could you please explain the term “karma’ in more detail? Are we dealing with a “package we bring with us”?

LUKAS : *You should not be interested in karma at all* because it always only leads to speculations. If you really trust in the GENIALITY of your CREATOR and realise that everything that you will experience, *will in the final analysis, serve your higher development*, the question of what your karma might be, is therefore irrelevant. But it is certainly good to know that karma and therefore cause and effect *exists* and because it is one of GOD’S LAWS, you cannot escape it. This should be enough.

Question : When the Christian Church removed the doctrine of reincarnation from its confession, it robbed mankind of its most joyful hope. Above all, it denied GOD his ABSOLUTE JUSTICE. Did the Church create its own karma by taking this step?

EUPHENIUS: Through this fundamental interference with the most important thing here on Earth, namely the body of evidence that GOD exists and that everything runs along just lines, the servants of the Church have not only created their own karma, but also created a matrix for the negative, which found a basis here for its negative actions. This fundamental interference supplied the DARK SIDE with powers that were *not provided* for in this form.

- *The negative interference by the Church has somewhat diminished GOD’S LIGHT here on Earth and reduced the hope in the hearts of souls to the size of a pilot light.*

The Church has inserted a decisive point of inflexion into the development of mankind with the result of slowing down and destabilising the whole development of your planet. Hatred here on Earth gained so much impetus through this situation that wars and animosities ensued - and the concept of brotherhood fell by the wayside. The Church will have to justify the fact that it blocked and interrupted the divinely prescribed path on Earth, with some higher AUTHORITY.

Objection : But even throughout the largest religions of the East, which do teach reincarnation, hatred of one another is as prevalent as in Christendom.

EUPHENIUS: Yes, the emissions of the negative are present even there. The duality to decide which way a soul can travel is present there also. In spite of rebirth and the knowledge that everything individual souls cause here on Earth has an effect in the DIVINE, souls are still induced to choose the negative. Rebirth and the doctrine of reincarnation taught there do not induce people to wander through their earthly existence in a positive and affirmative way. On the contrary, they endeavour to conquer boundaries they think worthwhile through physical might. These religions have to a large degree also lost the knowledge of the true faith.

Question : The edict by the Council of Constantinople (553 A.D.) under the Roman emperor Justinian determined: *“He, who teaches the pre-existence of the soul be damned.”* Those who continue to believe in the pre-existence of the soul and in reincarnation must expect to be appropriately persecuted and punished. One can follow the blood drenched trails of this edict across centuries. How did the spiritual realm treat the initiators of this edict and where are they now?

EUPHENIUS: These souls *still suffer today* and they have only partially travelled the path that leads to the LIGHT. They find themselves on very low SPHERES where only darkness and cold exists. They find it difficult to tread the path of indoctrination and to expand their consciousness in a divine manner. These souls are presently not ready to undertake a new rebirth here on Earth, because their development is still so rigid and misguided, that that have not yet begun to tread the path that leads to knowledge.

Question : Is it true that after the Council of Constantinople, the Catholic Church gave orders to remove any reference to reincarnation and that in the year 1,500 A.D. two cardinals from Augsburg received an assignment to further “revise” the bible? Did the bible receive its final purge in this way?

EUPHENIUS: We have to *confirm* this; a deep sadness connects you and us because of this. The hope that existed, namely to prepare you, as souls, for what you call “death”, *has been circumvented*. You have been robbed from learning about the clarity and instructions CREATION has to offer and this due to dogmas and the hunger for power. Most of you are misguided souls *even now*, most of you still do not accept that life after death, another life and another LEVEL of VIBRATION does *exists*. Most of you here on

planet Earth believe that your earthly existence is all there is and that you therefore do not have to take responsibility for your deeds and actions.

- *This fallacy blocks the soul's growth in a lot of cases and hinders the soul's progress, because many people are of the opinion that they do not have to develop the positive, the humane and the good within.*

They literally walk over corpses in order to expand their lust for power and their material wealth. *They atrophy inside*, their soul ossifies and their (empathic) heart will dissolve due to their own anger and self-destructive tendencies. This is *not* according to the CREATORS WILL!

The misinterpretation of the bible and the ballast the Church has burdened itself with are the cause for this. This ballast has been with you for many centuries and its effects are wars and destruction. The Church is not a place of tranquillity or of encountering one's inner self, but mainly a place for intrigues and power struggles. Machinations are present there that still exist today.

- *There are secret manuscripts the Church is not yet ready to publish, because it is afraid of losing face.*

The way GOD'S WORD is destroyed and tread underfoot here on Earth is a disgrace!

Comment : I personally feel that many Church buildings are gloomy places, where one is reluctant to speak or cough. There is no trace of a divine LIGHT or inner joy found there. Even some of the artistic and precious frescoes cannot hide this fact.

EUPHENIUS: These are *no* HOUSES of GOD, wherein GOD'S LOVE *can flow* and where everybody can get rid of their inner needs and problems. They are just walls, frozen by the coldness of *the* century when the SOUL was taken out of the Church. It is the repercussions from the past that perpetuate into your future.

Question : Could one say that the Church will only survive if it reintroduces the doctrine of reincarnation into its curriculum?

EUPHENIUS: These religions will experience an inrush of souls and they will rise to the occasion and spread this knowledge. Mankind on Earth is looking for the meaning of life. Your consciousness has expanded, because new VIBRATIONS, new insights and luminous souls have reincarnated on this planet. These (reformed) Churches will then be able to give your human soul the contentment, LOVE and tranquillity your soul hungers for. But in the mean time, more and more people will turn away from religious communities because they are a fossilised remnant from a past that cannot survive here any more.

- *Religions that allow the seed of hope to grow, namely that not everything comes to an end after one's earthly existence, will be heard and they will make the seed of hope grow anew in people.*

Question : Was the doctrine of reincarnation suppressed by the Church, because the idea of self-responsibility did not fit into their concept?

EUPHENIUS: The Churches tried to achieve a level of control that placed it above mankind. They regarded themselves as GOD'S envoys and so they moved the goal posts. They have introduced laws and opportunities for destruction here on Earth in order to document their powers. This is verified by the witch hunts of the past and by the fact that they bless weapons of war and make decisions over life and death. GOD'S WORD has been abused and the Church basked in the GLORY of GOD in order to reign here on Earth and to gain power over others. These are dark machinations and they have nothing to do with the Christian faith.

Question : Why do so many people turn away from Christendom?

EUPHENIUS: Because they cannot receive answers to the questions they presently ask from deep within their consciousness and from their hearts in order to find their way here on Earth. They recognise that material possessions *are not everything*, but that inner contentment *is the most important* issue for people. There has been a shift in that direction and it has placed man's consciousness in regards to *inner values* in the foreground again. These values are the divine LOVE for one another, sharing, humbleness, brotherly love and the belief that good exists here on Earth and that these values gain new meaning here on Earth.

Question : Why do so many look for their salvation in Asia? Is this helplessness a sign of religious decadence?

EUPHENIUS: Insights are anchored in those religions and they fulfil the wishes of individual souls. The "looking within" is anchored there, the fulfilment of one's own contentment, the insight that answers can be found *by asking oneself* is also found there and it helps in finding solutions. The eastern religions do not orientate themselves to externalities, but concentrate on *looking within* and this is a cognisance the West hears about anew and it clearly expresses the yearning of the soul.

Question : Are there critics amongst the theologians within the Church who have now recognised that the Church's view and the needs of the layman have developed along different lines a long time ago? The religious need for metaphysical knowledge - as you said before - is present in many believers, but people's questions are not answered meaningfully by theologians. Theologians must recognise that mankind is looking for a vista of the hereafter that isn't just based on faith, but one that *also* includes *knowledge*. What is your advice for the Church?

EUPHENIUS: The Church should discern that fact that it still lives in the past in regards to its laws. It must accept that man's consciousness has developed further and that man's own thoughts about the here and now has become an important question and also an important cognisance. The Church must accept that it cannot continue to hold influence

over the will of others. The Church's power has been broken, because mankind's consciousness and common sense has developed and amplified differently.

Their inner faith and recognising their own free will to re-orientate themselves has become very important for souls here on Earth. The Church has forfeited its powers, but it is not aware of this and it cannot understand why so many souls have abandoned their Churches. The knowledge of the invisible world, about angels, whom the Church acknowledges anyway, but only *for itself* and not for the souls "out there", is a hindrance the Church has to deal with.

Question : Why isn't the doctrine of reincarnation simply reintroduced into the Church's curriculum?

EUPHENIUS: The Church, particularly the Roman Catholic Church, is dealing with this theme. But it is afraid to confront its religious community with this, because it would have to face the pillory and admit, that during all the centuries that have passed, they have preached a false message. It is afraid to loose face and it doesn't know how to present this to the populace. There is an additional difficulty, namely that it is well aware that it must move away from their present doctrine. But this would result in a complete overhaul of Church history.

Comment : There are passages in the bible that clearly indicate reincarnation: It states for instance: "Don't be fooled, GOD will not be mocked, because what man sows, he shall also reap." - JESUS said: "Truly I say unto you: Until heaven and Earth shall pass, not one iota or line shall be changed until everything has come to pass." - A different passage: "I tell you that you will not go to heaven until the last penny has been paid." - The Church, with its reincarnation dilemma, is akin to two scientists confronted by a lion in the field. One of them calls out absolutely terrified: "My God, the lion is going to eat us!" The other scientist answered: "*This hasn't been proven yet.*"

EUPHENIUS: Our side does not have to make any other comments in regards to this. There are numerous clues that indicate that an incarnation here on Earth is possible through a soul entering a body. The Church actually indicates that the soul leaves the body, but *where* the soul actually goes it left open. The Church plays a grotesque game here on Earth. People who think with their heart will recognise that a lot has been falsely interpreted and presented by the Church.

Question : The Holy Scripture is saturated with the theme of eternal life, the immortality of the soul and the creation of man at the beginning. The seer Edgar Cayce said that the resurrection in its original sense meant rebirth and that many texts of the New Testament had a deeper meaning, if regarded in relation to reincarnation. Will the Churches be confronted by an awkward situation one day, when the TRUTH about reincarnation will be verified beyond a shadow of doubt?

EUPHENIUS: The Church is certainly aware of this. There are Church officials who deal with this and they can certainly recognise the TRUTH that is in the bible. But this group does not

have the courage to share this with the rest of the world. It will take a different orientation, before they open their mouth and speak in the NAME of GOD.

This group belittles the work you do here. You are observed and called an imperceptible source, because they are afraid to confront the TRUTH and to announce the TRUTH here on Earth. You are derided and called “fools”, because you assert to have contact with ENTITIES from other SPHERES. According to them, only the Church may do so and certainly not ordinary souls like you!

This is the reason why the Churches still assert a claim for power through their dogmas, namely that *only they* are GOD’S representatives and nobody else. They do not acknowledge that *every* soul can have contact with the spiritual realm in order to undertake their journey here on Earth.

Question : Why do we hear so little about reincarnation here on Earth?

LUKAS : Well, the theological world holds back with information for the masses. And how would most theologians even know about these things? It is not part of the doctrine the theological faculty teaches. All information - let’s say *most of* the available and published information originates from private initiatives, that is to say, from private research and from private contacts with the SOURCE that created you. It is therefore not surprising that you often search in vain or that you only receive a collection of assumptions and very few facts. I also include scientific research here, because it doesn’t go deep enough. There are enough manuscripts with an unbelievable amount of facts available, but *one looks the other way* and doggedly sticks to the dogmas of the Christian Church.

(TB: Absolutely terrible.)

- *Ask the spiritual world and you can’t go wrong, because it was appointed by GOD and his HIERARCHY to teach you.*

Question : What are the reasons why they look the other way? These people would under normal circumstance also receive inner, spiritual IMPULSES that would prevent them from looking the other way.

(TB: They are not fazed by this.)

LUKAS : They would have to emend the bible and admit that it was modified, well even *consciously modified*, especially in regards to reincarnation.

Participant : Accordingly, nearly everybody depends on the faith the Church manifests here. We are trapped by our own rules and regulations.

LUKAS : Presently yes, but this will change. A lot of things come to the fore that would have been impossible in the last century. The last 15 years have already given you taste of

what *alteration* really means. The TRUTH, with its might and glory will finally illuminate this planet. It is just a question of time and is not brought about by simply snapping one's fingers. GOD'S MILLS grind slowly, but *very, very finely*!

Question : Where do you stand in regards to birth control?

LUKAS : Birth control is a positive thing, if it doesn't tamper with the divine PLAN. People certainly have the choice of whether to have children or forgo having any. But if the state tries to suppress one's free will, that is, the peoples free will to have children, respectively to regulate the number of children for whatever reason, it *would not* fit within GOD'S PLAN. The sensible thing to do would be to give the people an exact explanation as to *why* every family should only have one child. This would be alright and it wouldn't interfere with their free will. But in the final analysis, the couple who wants to start a family should have the final say.

Participant : They have tried to control the population explosion in China through federal regulations.

(TB: We are aware of this. - Exactly the problem.)

LUKAS : There are federal regulations in place there and they do go *against* one's free will. The people must be enlightened to such a degree that it *recognises and understands why this is right*. Only then will people understand and their free will, will have been preserved.

Participant : The number of children in a Chinese family virtually represents the parent's social benefits in their old age. It is surely not appropriate that "surplus" children are abandoned and beaten to death, just because a national regulation allows it.

(TB: Lord, forgive them.)

LUKAS : Dear friend, this world founders on its traditions and regulations. It is really high time to clear out the rubbish!

Question : Looking at Germany, where the birth rate is reclining, we find that many couples immerse themselves completely in their professional careers. How do you rate this situation?

LUKAS : It is their free will to set *different* priorities. People have their freedom of choice and no matter what they do with it, it must be absolutely preserved, because of possible karmic coherences. It is and remains *their* decision.

Question : What takes place within a soul that has chosen its parents, to then find that they have decided to offer it for adoption?

LUKAS : Some of these are dreadful decisions, which trigger fateful consequences for the parents and the child. New karmic ties also spring to life and they must be dissolved by the

parents in another life. Maybe the parents will be born under similar circumstances and will also have to experience this in body and soul. But you don't have to concern yourselves with this, GOD'S JUSTICE is great and infallible.

(TB: What good fortune.)

Nothing, absolutely nothing happens unobserved. People believe that they only have one life and they cannot see the justice in that. - And this brings us back to the beginning, namely the doctrine of reincarnation, part of religion like the kernel in a nut.

(TB: You have done well!)

Transcendental voice for the medium that works with LUKAS.

Participant : Dogmatic Christian doctrine insists on the no-recurrence of human existence and the immortality of the soul. According to their theories, GOD gives every human being *one single*, unique life on this Earth and he can more or less do with it whatever he likes. After the demise of the body, a COURT of LAW sits in judgment and dishes out either reward or punishment, based on the lifestyle of the person in question. This COURT of LAW decides irrevocably whether a human soul will end up in eternal heaven, GOD'S REALM, or whether it will be condemned to eternal damnation in hell. Theologians must realise that *without* the doctrine of reincarnation, this theory *lacks credibility* in many aspects.

EUPHENIUS: Church officials are blinded by their own thoughts and by their own immobility. The Churches here on Earth are typified by their inertia and their torpidity. They are afraid to open their eyes and to reveal *what they know deep down*. They recognise the fact that their false doctrines will soon lose their substance and their significance here on Earth. Due to Far-Eastern doctrines and the preparedness of many souls to search *beyond* this mirror in order to recognise the TRUTH of the CREATOR within their hearts, the Church will have to start to scrutinise their own behaviour so they can begin a new game plan here on Earth.

The Church elders find it very difficult to change and to modernise, because they adhere too much to their old habits and on everything that has been taught by them for centuries. They would lose their credibility, if they would change their own Christian doctrine now and if they would admit that whatever they have individually preached as the "Word of GOD" was quite simply a lot of empty words and *human* words, conjured up by the Church on Earth. But who is willing to indict themselves? - The heads of the Church, who bear the responsibility for their false doctrines, will receive their indoctrination and what they can expect in another DIMENSION.

Question : Just how can anything ever budge and change in this respect? Will the natural fluctuations play a part in it?

EUPHENIUS: The Church will be forced to make changes within their own ranks, otherwise it will have to relinquish its position of power, because many souls, respectively, its flock, will turn away from what the Church is presently preaching. There are already quite a

number of people who turn to other religions or even resign from their religious community, because they are no longer prepared to accept what the Church preaches from its transfixed monument. They can no longer accept and digest what is presently preached from the pulpits and what the Church presently represents. The Church will be forced to reveal a different picture in regards to GOD here on Earth, reintroduce reincarnation and the true FOUNDATIONS and this will also change the bible.

Comment : Maybe financial considerations will bring about a change.

EUPHENIUS: It has something to do with its dogmatic regulations and with the fact that the highest Church officials adhere to structures that have reigned here on Earth for thousands of years. For as long as there are Holy Scriptures and the TRUTH rotting away in cellars, nothing will change within the Catholic Church's history.

Question : Could it be a case where one tries to fill the alleged empty coffers, by introducing something new to the old doctrine just to fill the Churches again?

EUPHENIUS: Mankind will not acquiesce with a different Church image from one day to the next. It will take some time for the Church to reinvent itself and also rearrange itself. The Church must own up and it must allow access to the scriptures and the TRUTH'S which are presently only accessible by a *few* souls here on Earth.

Question : Theologians insist that due to constant new-creations, the number of human souls continues to grow. Taking reincarnation into consideration, wouldn't we expect that a certain group of souls re-embody according to certain rhythms?

EUPHENIUS: It is a fact that there are certain cycles present and that groups of souls continue to realise their reincarnations, thereby implementing their history in accordance with their assignment and with the KARMIC COUNCIL'S backing. But it is also a case where "young" souls are given a chance to reincarnate in order to prove themselves. It represents *a mixture of various levels of maturity*, recognisable by the various emanations of people's aura and by what can be observed in regards to your behaviour on this planet.

- *It is a false assumption to assume that additional souls are reared. The fact is that those souls who have achieved a certain level of maturity will continue their development on a different, more highly evolved planet, whilst young souls reincarnate on Earth again in order to complete their personal history. It is not a case where the CREATOR gives birth to new souls.*

Question : We find that Christian traditions *start* by making believers consciously aware that, as human beings, they are sinners and burdened by guilt, to *then* disencumber them from this guilt through absolution. What is your opinion in regards to this Church tradition?

EUPHENIUS: This is a completely distorted picture and the things people assert here in order to interfere in the CREATIONAL PROCESS are *not* the CREATOR'S way of doing

things. How can human souls, sent down to this planet to incarnate, assert something that is the prerogative of the CREATOR? - Every soul is equipped with the valence and IMPULSES to be able to enter DIVINITY.

No one has the right to judge others in such a way and to say: “You are good” or “you are evil”. *No* human soul on this planet has the right to do so. These are powerful emotions, utilised by the Church to gag and shackle human souls to its apron strings. It is a game played by evil and the DARK SIDE and it expresses all its negativity.

Objection : But criminals must be condemned for their actions by being found guilty.

EUPHENIUS: Such a soul has committed a misdemeanour of its own accord and it was well aware of the laws and rules that apply on your planet; every individual here knows that misdemeanours will have their consequences. But the ecclesiastical brotherhood has commandeered all this power for their own benefits in order to declare a soul’s sins absolved, but this *isn’t possible* because *only* the CREATOR can affect such a result.

Question : If a soul does *not* manage to dissolve its karma and beyond that amasses even *new* karma and this throughout a number of lives, wouldn’t one then have to assume that the karma will end up so substantial that a soul will never be able to dissolve it and just simply collapses under the burden of its self created karma? What happens to a soul in this situation?

EUPHENIUS: Such a soul will *continue to receive* new chances by the CREATOR to learn anew. But the reincarnation will not take place *immediately*, because the soul will receive instructions in the spiritual realm in order to strengthen it and to allow it to grow, thereby receiving the stability to be able to exist here on Earth.

- *Unstable souls have a difficult time on Earth, because they represent targets to the negative WORLDS and this puts them in a position where they are in danger of not being able to fulfil their ASSIGNMENT nor reach their GOAL here on Earth, they thereby amass new guilt and they will have to begin the whole process again in the spiritual realm.*

Question : Who has not experienced a situation in a completely new locality where a feeling of “I have experienced this before” arose? Is something like that a mental delusion or simply confusion?

EUPHENIUS: We could be dealing with sensations that are transmitted to you from your spiritual GUIDE or through your GUARDIAN ANGEL, sensations that you have experienced similar situations before. It could be a case of receiving feelings of familiarity, of happiness or also of fear. But it can also be sensations you accumulated within, also sensations triggered by those ENTITIES around you.

Question : The basic tenets of Buddhism state: Life means suffering. Death means to be reborn again to suffering. The wheel of life, death and rebirth (Samsara) turns endlessly and

inexorably. Salvation is only possible through enlightenment - a conscious state of empathy in regards to the universality of all things. Enlightenment is the door to Nirvana, the separation from this endless cycle and the amalgamation with universality. What is your opinion in regards to this doctrine?

EUPHENIUS: We can only partially agree with this. Enlightenment, in order get off the wheel of reincarnation, is surely the aim of *all* souls and it is something we, your spiritual FRIENDS, also strive for. We would also like to return to the CREATOR'S CIRCLE of LIGHT, to the ORIGINAL SOURCE.

The opportunity given to you by the CREATOR, namely to orchestrate your life here on Earth or on another planet in accordance with HIS APPROVAL, represents a GOD given blessing. Surely a life on Earth is not always fun and games for you, as souls, because you need the other side too, so that you can recognise that you can allow yourself to fall into the PROTECTIVE ZONE of those ENTITIES who accompany you.

You can only "find" yourself, if you recognise that all of this assists you *to progress further*, to accomplish fulfilment thereby taking you into the SPHERES of LIGHT. Reincarnation is a joyful and RADIANT event, exactly the way crossing over into the spiritual realm is marked by peace, LIGHT and harmony.

- *Reincarnation is a fact and we like to strongly emphasise this here as the TRUTH once again.*

Question : The knowledge about re-embodiment is not just the prerogative of Hindus and Buddhists, but was also common knowledge of *all* the peoples of the Mediterranean region during antiquity. Therefore the original Christians would also have been familiar with re-embodiment. Is this correct?

EUPHENIUS: The original Christians were certainly also aware of the doctrine of rebirth. If you could only know what is secretly known about the TRUTH, but you have no opportunity to read and to discern it.

- *The fact that a group of souls here on Earth has the arrogance to keep this a secret, in order not to change the structure here on Earth, is an absolute disgrace.*

Question : Oral traditions sport a number of proverbs that indicate a vague understanding of cause and effect: "What goes around comes around" or "You make your own luck" or what the poet Novalis expressed: "Do I not choose all my destinies since time immemorial?" We also find hints in regards to the laws of karma in the bible, for instance a sentence by the apostle Paul: Do not be fooled, God will not be mocked, whatever man sows he will reap: (Galatians 6. 7) Does this mean that reincarnation is therefore not purely an idea from the East?

EUPHENIUS: All of these versions contain divine LAWS and they mirror GOD'S TRUTH.

- *The LAW of REINCARNATION is one of the highest and most important of all LAWS. A meaningful existence for souls is not possible without this LAW.*

And also not without these divine LAWS, which are rendered here in various forms, be it in the bible or through old wisdoms, comprising the facts that experiences and knowledge have always been around and that the doctrine of reincarnation *was known* in its original form by the early Christians.

Question : Every individual is born with its own personality, all his own - a mixture of good and wicked character traits, which become noticeable at an early age. Do these character traits represent influences from past lives?

EUPHENIUS: They are due to the fact that this planet Earth exists in a state of duality and that man must also bear this duality within in order to perceive something that will allow the free will, given by GOD, to grow. What use would it be, if GOD would equip you with *only positive* elements, there would be no need for you to grow and to learn spiritually; you could simply flow across to the divine LIGHTS.

- *Your own spiritual history demands this duality, in order for you to grow and to mature at all.*

Question : Pre-existence is a controversial issue, but if there was no pre-existence of the soul, the character traits would not be brought along by the soul and they wouldn't be its very own, but forced upon it through heredity to begin with and later on through the environment. If this was the case, could the soul be held responsible at all by the CREATOR for its needs and its weaknesses, which do not actually originate from the soul, but developed through circumstances beyond its control?

EUPHENIUS: Every soul has its own spiritual CONTROL MECHANISMS, which are present *within*. To begin with, you have the divine LIGHT that guarantees the connection to the CREATOR. This is followed by your mind and your heart. All of these represent CONTROLLING MECHANISMS and they are at your disposal in order for you to be able to test your own thoughts, your actions and your deeds.

- *If you were a neuter, you would not have to exist here as a human soul, but as a monad without any character traits.*

Question : You told us that people learn through their actions. Does man only know what he has experienced and does he grow with resistance?

EUPHENIUS: Man grows in many aspects through many self-experiences abilities and through all that confronts him from external sources. Man will continue to have contact with his surroundings and the things that affect him inside and outside. He represents a highly developed "machine" with many IMPULSES intertwining within, enabling him to analyse and thereby change abilities and practices.

Question : If every soul has its own, special karmic matrix, does it follow that the same applies to families, groups and nations?

EUPHENIUS: There is family karma and also group karma. There is even a *specific* karma for countries and its purpose is to change individuals, groups, families or even a whole country. The aim is to sense one's conscious memory in order to get the chance to deal with the task imposed with the co-operation of the KARMIC COUNCIL.

The Germans, as a nation, have karma from WWII and you have to deal with it here and also in future generations. Due to the destruction that took place, you bear complicity, because you have condoned and tolerated it to some degree - and some tolerate it within themselves even now. The fact is that your generation has to bear a karma that has now become apparent in your homeland and this through the gathering here of people from many nations.

- *It is your karma to share your prosperity and to accommodate these people with respect and human dignity.*

Participant : According to Catholic religious doctrine, death is the punishment for committing the original sin.

LUKAS : This is absolute nonsense! *There is no original sin!* These kinds of thoughts do not originate from the SPHERES of LIGHT. Birth And death are natural occurrences of life and belong together, like the kernel belongs to a nut. You have managed to show death in a completely false light; we are dealing with conversions in both cases, namely birth and death. - But one has always managed to make good business out of fear and nothing has changed in this regards. The Churches would do well to cleanse its doctrines with the HELP of the LOGOS.

Question : The New Testament doesn't mention the partition of man in a mortal body and an immortal soul. What can you tell us about this?

LUKAS : Well, I am surprised to hear you say this, because it is *not* correct. CHRIST also talked about the REALM of the FATHER which is not of this world and he also mentioned that there are many ROOMS in his FATHER'S MANSION. These ROOMS are for the souls who have left the physical world. For whom else would they be? - Soul, spirit and mind are terms CHRIST also used. These terminologies were clearly understood by his listeners and only later changed, due to the influence of the Church and religious denominations.

- *CHRIST did not establish a Church. Others did that with advantages on their minds.*
- *It is also an error to assume that the apostles established a Church. The apostles and CHRIST formed a spiritual circle, which performed genuine CHURCH SERVICES and beyond that handed down their insights to the communities.*

(TB: That was fine. - Thank you.) A note for the medium.

Question : One hears the following words quite often and this from people outside of our circle: “Show me evidence of eternal life - you can’t do so, can you?” What answers would you give such an utterance or what explanation would you give?

(TB: None, it has to be experienced.)

LUKAS : There is *no physical* evidence in regards to eternal life, because eternal life is a *spiritual* life, the way all life is a spiritual process. He, who tests his own behaviour and thoughts and its associated acts, cannot but...

(TB: Ought to participate.)

...recognise the power of the spirit that every human being possesses. A house, an automobile, a computer, these most complicated things first developed in the mind before they materialised through the labour of your hands. If eternal life did not exist, GOD would also be mortal, because you were created in HIS image.

A look at the eternal changes of the seasons shows clearly: A dying in autumn and a rebirth in spring. These also represent *spiritual* PROGRAMS and they take place irrevocably. When you dream or sleep, you recognise that there are no problems or mundane worries. They have disappeared! Only the chiming of your alarms reawakens your mind and reintroduces all the mundane worries and fears of the soul. The mind belongs to the Earth and it is therefore connected with the VIBRATIONS of this planet.

- *The interplay of life, from the physical into the spiritual realm, gives you a different MIND, one that fully utilises the reservoir of your conscious memories and it allows the whole personality, with all its memories, to come into being anew.*

(TB: Correct.)

Question : Would it not constitute a giant step in the right direction, namely to affect changes here, if the sciences were successful in producing evidence in regards to reincarnation?

LUKAS : Dear friend, there is without doubt already an enormous amount of evidence available and applied to your earthly jurisdiction; it would have condemned every criminal long ago. Evidence only does *not* seem to have any validity when it comes to reincarnation.

- *It is time that the sciences a) redefine the term “evidence” and b) that they take the spiritual, respectively, the metaphysical aspect into consideration. This would give them the key to solve all the problems of the world.*

Comment : This is exactly the problem, namely that this isn’t possible.

LUKAS : *You created the problems, not the spiritual world! We look for people we can approach every day, people ready to at least spare us one single thought. By ignoring us, we feel as if you ignore your parents and siblings, as if you did not want to have anything to do with them. But with the crossover to the GREAT HOUSE, great lamentations and the clatter of teeth begins. -*

Very important:

- *You have to make FRIENDS in the spiritual world whilst still on Earth, otherwise you will be alone, respectively, only surrounded by your relatives who are there to collect you, but they're not able to remain with you, because most of them will belong to a different LEVEL of EXISTENCE.*

Question : How is the LAW of CAUSE and EFFECT connected to death and reincarnation?

(TB: Sensibly.)

LUKAS : This LAW has absolute effectiveness, in the physical and also in the spiritual realm. Life, as the cause of all things and measures on Earth, and reincarnation, with its karmic connection, as the effect triggered by the cause. They are both connected with one another, but *independent* from duality.

Question : Is there a connection between reincarnation and astrology?

LUKAS : Astrology and reincarnation are connected, because the stars promote tendencies. This doesn't mean that a "Pisces" cannot turn into a "Lion" during a life time. Reincarnation and astrology must interact with one another, in order for the time of the reincarnation and the constellation of the stars to coincide. This is a given most of the time. But there are displacements here also, but they are seldom.

Question : Are human beings in a position to work out their own soul's age?

LUKAS : No, this entails a lot of background information. There are people who can take a look at the Akashic records and are thereby able to acquire information. But these people are a rarity and they do not advertise their abilities.

Question : Therefore *not everything* can be gleaned from one's date of birth?

LUKAS : Not everything, but *enough to give some clues*. As you know, accuracy is an important aspect. Astrology certainly gives you the opportunity to get an adequate outline. It can be even more accurate, but this takes the above mentioned abilities and possibilities.

Question : The chronicles of success, recorded by reincarnation therapists fill wall to wall shelves, in the mean time. This is certainly a seemingly positive way to disentangle past experiences and to deal with it. How does the spiritual realm rate reincarnation therapy!

(TB: Yes, positive.)

EUPHENIUS: Reincarnation therapy offers many souls an opportunity to release certain compulsions and self flagellations. It gives an insight, helping to better understand *why* their present life is filled with difficulties and pain or *why* they are so intertwined with their own destiny. This gives souls the opportunity to dissolve AREAS, so that they can *concentrate* on the objectives of their *present* life on Earth. Reincarnation therapy also offers the opportunity to understand why recurring experiences intensify or why some people cannot let go of certain lifelong compulsions.

Question : One in eight Germans thinks it's possible that there is life *before* life. There are many case histories of "regressions" and supposedly "past lives" recorded under hypnosis accumulating in psychiatrist's practises. What do you make of these regressions and is there any guarantee that the accounts of these people under hypnosis are *actually* based on past lives?

EUPHENIUS: We can assume that these protocols are identical, because only the soul has command over this information.

- *Hypnosis, if practiced conscientiously and positively, not only offers a chance to gain an insight into an earthly life, but allows a shift in time back over centuries.*

There are accounts where the person hypnotised suddenly speaks in a foreign language or renders stories of events, the person under hypnosis didn't know about. You can assume that the soul is the information carrier and that it is willing to release this information.

- *Hypnosis is only successful where the soul and the connection to the spiritual realm are prepared to reveal this.*

Question : In spite of all successes, there are *two major reasons* why for instant Sigmund Freud¹ turned away from hypnosis, thereby condemning reincarnation therapy to the twilight zone. *There is the problem of suggestion, to begin with*, because the field of consciousness narrows to such a degree during a trance, that only one singular avenue

¹ **Sigmund Freud**, born on the 6th of May, 1856 in Freiberg, Moravia (now Pribor, Czech Republic), died on the 23rd of Sept. 1939 in London, Austrian doctor and psychologist. Professor in Vienna since 1902; emigrated to London in 1938. Freud began with anatomical brain research and discovered the analgesic properties of cocaine. With the co-operation of Josef Breuer (born 1842, died 1925) he developed a procedure to heal mental illness through the "abreaction" of suppressed traumatic experiences, the first approach of his applied therapeutic *Psychoanalysis*. The theoretic conditions lay within the expansion of the older psychology by including the subconscious and its associated insights into dynamic instincts. Freud assumed that human behaviourism was mainly guided by sexual instincts (libido): And he believed that especially the development of one's sexual instincts was suppressed by society's rules and taboos, thereby developing an error in one's development leading to neurosis; this was something that could only be ameliorated through subliminal suggestion (converting sexual energies into intellectual and cultural output).

His works: *Interpretation of dreams*, (1900), *The Psychology of Everyday Life*, (1901), *Totem and taboo*, (1913), *The Ego and the It*, (1923), *Civilisation and its Discontents*, (1929).

of contact remains, namely the “rapport” with the hypnotist. That the power of suggestion can have a powerful effect here has been scientifically verified. Conclusion: The trip of fancy was induced by the therapist through suggestion and through the myriad of expectations of the test subject. What can you tell us about this?

EUPHENIUS: It could be a case where this physician might have tried to get to the real core of the problem, but with the wrong approach. He tried to gain verification that should have had the effect of completely separating and encapsulating the soul from the body. This is impossible, because the soul is attached to the physical body. The hypnotist’s suggestions only serve the purpose of gaining information for the soul, so it can react to certain questions. During hypnosis, the mind is completely separated from the process. Under hypnosis, only the things the soul wants rendered are played back.

Question : Sigmund Freud’s *second reason to reject* hypnosis is the fact that people in a trance are not only *easily seduced*, but are also amazingly good at *telling logical stories*. Because those under hypnosis are absolutely convinced of the validity of their mental gymnastics and this quite autonomous from the fact of whether we’re dealing with actual or contrived events. Wouldn’t it be advisable to leave this procedure alone?

EUPHENIUS: Remember that you are prepared to walk over glowing coals under hypnosis. What is of great importance is that hypnosis is always applied from a *positive* point of view. A soul will never voluntarily subject itself to be a plaything of your human avidity and it will only release information that can be released with the approval of the ENTITIES which protect you. Some of the things taking place under hypnosis are not designed to heal the soul, but are there to show that mankind can be manipulated. This makes it apparent to you, that you do not have GOD’S free will under complete control. This is something that should *not* take place. As human beings, you have the free will to decide. Hypnosis *paralyses* this free will and the mind. These represent points of danger you soul is quite aware of.

- *One should only subject oneself to hypnosis under certain circumstances and this only if it serves to get to know yourself better and in order to free your soul.*

Question : There are people who cannot be hypnotised. What is the explanation for that?

EUPHENIUS: These people have such a strong will that they are not willing to relinquish control. They are guided by their immovable will and their mind and it is therefore very difficult for them to fall into a trance.

Question : It has happened that regressed people have suddenly managed to have good command of dances, rituals and highly complex movements that nobody could have performed for them or taught them, because they had not been performed for centuries. Or they show an ability to speak a foreign language fluently, one they have never learned this time around. (Xenoglossy) A possible answer to this would be that all of us have learned how people lived in the past from films and books and that in this way the

most amazing information about an alleged past life enters our heads. What can you tell us about that?

EUPHENIUS: This is a case where the scientists are trying to pull the wool over your eyes, because they cannot explain it either. They will only accept what *they* think is right and only this will end up as specialised knowledge. They cannot explain where these phenomenon comes from. They would have to question many of their scientific works. But who wants to do that? - As you see, you are surrounded by false doctrines. It is always easier to accept a scientist's statement than to form one's own opinion.

Question : When detailed accounts of "past lives" were scientifically scrutinised in Chicago in 1988, they experienced a surprise. The living conditions portrayed by the regressed people coincided exactly with the statistical data about the social class system of the various epochs collected by historians. One really had to expect that: *The least* was known about an epoch, *the more mistakes* would have to crop up during the accounts given by the people under regression. No matter whether they dealt with China at around 2,500 B.C. or New York at around 1800 - all this memory of the past described everything *in great detail and very accurately*. But no matter how convincing this data about reincarnation may seem, the suspicion remains that it might after all only be a case of fantasies released by the hypnotist during the trance, therefore the status quo also remains in spite of all this statistical data. Just how could the sciences gain irrefutable evidence in regards to reincarnation?

EUPHENIUS: Scientists try to filter some knowledge from this in order to support their theories. *They don't* want to open this window and cannot see that there is anything factual about the doctrine of reincarnation. They push the doctrine of reincarnation away, with the knowledge that something like that *may not exist*, because it doesn't resonate within. They do not accept the utterances of many human souls under hypnosis. There are books and statistics full of truths that are not accepted and tolerated by the sciences. Scientists are of the opinion that *only they alone* may write world history. Only whatever they accept is therefore correct. The same also applies to doctors; they are of the opinion that only they are here to heal the sick. Doctors also do not accept that there are other possibilities beyond their recognised boundaries. The sciences are also of the opinion that they have a mortgage on the truth and do not accept that *there is more* than meets the eye and more than can be measured.

Question : Even all the 1,700 exiting cases of Professor Ina Stevenson, *not* researched *under hypnosis* but *consciously*, could not definitely be verified. Isn't there anything that one could hold on to? All that remains now is to believe one way or another.

EUPHENIUS: What does belief mean? - What is of importance is that you do not loose the connection to your own INNER CORE. You are only able to control your life through your own feelings and your own aptness. Only the people who want to *know more* than certain people's fabrications will undertake their journey. These people *are aware* of their free will and also what they feel and experience within their own body.

Believing is linked to the mind and *it continues to demand proof, visible proof*. Faith and knowledge are two different things. *Your knowledge* is different from the knowledge of others, *your faith* differs from the faith of many other people here on Earth. But you still undertake a journey in order to *find out more* about a WORLD that is separate from your physical world.

Question : Does the confrontation of culpabilities from the past represent the imposition of a burden or the elimination of a burden?

EUPHENIUS: It is the *elimination* of a burden, because the guilt, the culpability can be redeemed here, through your life on Earth. Reincarnation here on Earth offers you the opportunity to correct whatever has been agreed upon as the goal of your incarnation. You have every opportunity to allow your soul to grow and to light up your INNER CORE, in order to achieve your goals here on Earth.

Objection : But to begin with, one is born with an *imposed* burden from the past.

EUPHENIUS: *Not always*. Many of the souls incarnated now are *wise souls*, they are here to show you the way, the LIGHT and the heightened RATE of VIBRATION that is approaching you. Not every life on Earth is symbolised by the removal of guilt or a burden. One's life often serves the purpose of *achieving a certain result*, something that could quite simply be for you to recognise that you are one of GOD'S children. This then has nothing to do with a burden or any guilt.

Objection : If one studies the papers and reads about the way some young souls behave and conduct themselves, one finds it very hard to believe that they are supposed to be "wise".

EUPHENIUS: These particular souls, reincarnated here on Earth, are *extremely sensitive* and *susceptible*. They certainly register the VIBRATIONS presently found here on Earth. Remember that many *misguided* souls are trapped here. Also remember that the dark FORCES also ply their trade here. But be assured that *many* POINTS of LIGHT also exist here on Earth.

Question : I would like to mention the burden of guilt from past lives. By *acknowledging his guilt*, the "patient" must accept all responsibility for its destiny - a step that has often *opened the door to recovery*. How did something like that come about?

EUPHENIUS: Acknowledging and recognising that the source of any illness always lies within opens windows and opportunities to affect a healing from external sources. If the soul is ready to accept and recognise this, and this is very important in order to accomplish the next step on a conscious level, the illness will represent an important signal and will quite often be the first shift towards change.

Question : One often objects that the principle of grace is the antithesis of the severe law of karma, according to which all guilt has to be redeemed. Can grace only be realised through karma?

EUPHENIUS: Grace will *always* come from the CREATOR:

- *It is grace that gives you the opportunity here on Earth to experience another rebirth.*
- *It is grace that opens up the opportunity to learn and to go your own way here on Earth.*
- *It is grace that you are guided by ENTITIES who lead you and inspire you.*
- *It is grace that you have the free will to choose which way you want to go.*
- *Grace is GOD'S LOVE, which flows to you for ever and without prejudice.*

Grace is connected with karma, because it entails an interaction. Karma makes the dissolution of all of one's guilt possible and this enables the grace of divine LOVE to flow.

Question : Is one forced to take responsibility for one's own destiny through the confrontation of one's guilt within the reincarnation therapy, that is to say, bring about personal changes?

EUPHENIUS: Everybody has the opportunity to change their consciousness and to take control of their own life's destiny. Nobody can say: "*The others* are to blame for my suffering here on Earth." This is incorrect! Every soul must arrange their life and their existence here on Earth. It isn't right to try and make *others* responsible for the things one experiences.

- *Remember, every single human being is a mirror image of yourself, because you are all connected through an earthly, mental SPARK and through the things that connects you to DIVINITY. What I mean to say is that the divine SPARK is present in every single human being, even if it is presently attached to a physical world.*

Question : Will it happen one day that one will *officially* adopt regression therapy in psychotherapy and thereby discover that certain causes have their origin in prenatal experiences?

EUPHENIUS: One begins to realise these days that certain behaviourism or illnesses, especially in the realm of the psyche, represent a matrix from earlier childhood occurrences. They represent expressions of the child's soul that became ill through external influences. It can also be a case where a soul has brought back IMPULSES and VIBRATIONS from a past life. Psychology is aware that it cannot heal the causes of someone's mental anguish solely through the methods presently applied. They begin to look for alternatives and that is a good thing, because the methods for healing have expanded and are not solely restricted to oral medication.

Question : From your point of view, can the following statement of a renowned reincarnation therapist be accepted?

“Reincarnation therapy (regression) does not satisfy one’s curiosity about past lives nor is it the opium for the masses, whereby the promise of a new life will console people. Reincarnation therapy represents an arduous journey towards redemption. The succession of lives does not instil solace within us, but an invitation to free ourselves from the wheel of rebirth through our development towards perfection. We affirm an earthly life if it is necessary in our journey of development, but our goal lies beyond the physical world, it is the source (unity) from whence we separated long ago and to which every human being yearns to return in the end.”

EUPHENIUS: It is difficult for us to add anything to this, because the content of this citation represent a compact rendering of what all of us wish for all souls. The insight, that all of you will flow back to another REALM, to another LIFE FORM, is important. The physical is transient and will remain coupled with the Earth. The importance, that life continues after this earthly existence is the highest LAW GOD tries to convey to you here on Earth.

Question : What are your comments to the following verse by the German poet and drawer Wilhelm Busch:

“The doctrine of return is of dubious nature; one has to ask oneself whether one can say after: This is me!”

EUPHENIUS: This citation makes it very obvious that you do not take your material way of thinking here on Earth with you to the spiritual SPHERES. You represent a soul-mate there, who is marked by various lives and the amalgamation of his earthly incarnations. Your *feeling and thinking is different* there, because here on Earth you have to deal with duality. In the spiritual SPHERES your SOUL’S INNER CORE is perceived with *other* VIBRATION, different from the way you do here under the control of your mundane mind.

Question : If whatever constitutes one’s physical personality remains intact, there is no reason to fear reincarnation and karma, because they can offer people fresh hope and new insights, which are absolutely vital for their development. Can you confirm this?

EUPHENIUS: We emphatically affirm this, because it perpetuates the hope that resides in every one of you. The hope for an additional life, one that is not identified by the years here on Earth, but one that indicates that things do go on and that every earthly existence enhances you and places your soul into a heightened STATE of VIBRATIONS. It makes it quite clear that all of you receive the opportunity to undertake your soul’s journey. Hope is the driving force so that you don’t loose your faith in the things that await you.

Question : If every effect has its cause and people realise that they have to account for their most secrets thoughts and actions or will have to give account of them in the future, they would have to lead a good life, not just because it is the smart thing to do, but also out of sheer necessity. Do you agree with this?

EUPHENIUS: This would be desirable, but it is not a given, because only a small number of souls contemplate this LEGALITY. Cause and effect are *pushed aside*, because nobody tries to look *beyond* to see what effect his actions have on mankind and on this planet. It would be desirable, if one would take a look at one's actions and their effect on oneself and the environment. If the Church would consciously celebrate this, it would pave the way in the right direction and the Church would pick *the right place* to begin spreading GOD'S NAME throughout the world.

Question : We can only hope that thoughts about reincarnation gain a foothold in the so-called "western appreciation society", taking up its rightful place, in order for mankind to gain a better insight in its immediate responsibilities in regards to its actions and omissions. How do you see the future in this respect?

EUPHENIUS: It is very difficult for us to describe the future. I can only gauge it by the important information you collect this evening through your questions. You represent a wheel that gives others the opportunity to get in touch with their own self to then ask just what effect the doctrine of reincarnation has on their own life. This is an opportunity to guide this planet towards the correct LEVEL of VIBRATION. You are a part of a large wheel and it turns so that the Earth is not ceded to destruction. It would be desirable for the LIGHT of LOVE to envelop this planet and for the LIGHT to be directed towards the darkness. Many souls are on their way looking for this LIGHT. Many reach their goal through various means. And this is what gives us ANGELIC BEINGS so much pleasure. We hope and believe that you, as human souls, will find your way out of this darkness in order to step into the LIGHT.

Question : The question about our human existence has not really been answered, even if one has understood and accepted the natural laws of karma and reincarnation. One tends to say: "So what, there is life *before* birth and life *after* death, but what can I do with this knowledge, what *practical consequences* can I glean from this?" What would your answer be?

EUPHENIUS: Our answer would be that you should live life *as a human soul*. You are human souls and you are connected to one another. This has to do with some of the divine LAWS that have already been discussed here. To implement change here on Earth always starts with oneself. Begin by allowing your LOVE to flow to those near you, accept and respect all others as your soul-brothers, respectively your soul-sisters. Begin with humility and LOVE and by showing empathy to all those around you and those that journey with you. You represent a mirror for all those you meet, because every one of you is a mirror image of GOD. Become aware that there is a piece of DIVINITY in every single one of you.

- *Do not try to judge and convert anybody.*

Every human being has the right to exercise his or her free will and to travel their chosen path. Do not try to interfere with this free will, but accompany them caringly and thoughtfully on their journey and they will recognise that their path is not the right path. Do not argue with DIVINITY, but try to convince them with your valences. Your actions, deeds and *the way you live are most important* when trying to reach others.

Do not hesitate or become paralysed, but travel your own path and try to spread some LIGHT around you. Encourage and show mercy to those who suffer and those in pain.

All those on their journey here on this planet are destined to go into the LIGHT. It is not up to anybody to judge this or criticise this. A lot of people need a longer and more arduous path. Mentally support every single entity willing to make this journey. This is what you can do with your life here on Earth in order to walk in a DIVINE sense here on Earth.

Participant : Unfortunately time has again advances to a point (22:00 hour) where we have to interrupt our theme for today. All of us cordially thank you for all your transmissions.

EUPHENIUS: We regret that time here on Earth also restricts us, even though we are not bound by a temporal dimension. In spite of that we thank all of you for adhering to the rules by indicating that our time here has come to an end for now. We would certainly like to answer further question, but we also have to abide by the rules and obey them.

We thank you for your questions and we look forward to additional questions in order to bring this theme to an end, because it represents the CENTRAL KEY and it prepares the way and opens the door for your faith in GOD and contains what faith would like to say and convey to you. May the LIGHT of GOD and harmony accompany you and also the knowledge that all of you are connected to one another and may you push your LIGHT VIBRATIONS to a point where you will be able to recognise the LIGHT within you.

We thank you for the fact that you show concern for yourselves and the things around you. Inside and outside are connected to each other and can only harmonise if they are in a positive relationship with one another.

We thank you for your constant willingness to carry out these meetings. We know that you are heavily engaged in your professional and fast paced world. We certainly recognise the fact that it is not always easy to adhere to divine RULES. Do not loose your courage and your trust, because everything can be learned and everything can lead to enlightenment.

We hope that you continue on this journey, which is often burdened by darkness, wrong turns and doubts, to accomplish your assignment in a divine SENSE, namely to bring

LIGHT to the darkness. We thank you and wish that you maintain your trust and confidence in GOD until we meet again.

EUPHENIUS

BALTASAR :Dear spiritual friends, dear students. I am pleased to be able to participate at this meeting this evening. I have observed this circle for quite some time and see just how you manage your development and also any mental crisis. I am impressed with the way you continue to find your way in spite of the darkness around you and I am also impressed by the way you ignite the LIGHT and feel DIVINITY within you. My name is BALTASAR and as the latest member will actively support this group and I am looking forward to working with you.

- *Please begin by connecting with your inner SPIRITUAL BEING. Try to make daily contact in order to stabilise this connection.*

BARTHOLOMEW: Dear group of souls, this is BARTHOLOMEW speaking. I am happy to be able to say the final words here, this gives me the opportunity to practice with this medium and also to work with this medium.

- *We, as a team, hope that you recognise that the doctrine of reincarnation represents the most important component of your existence here on Earth. Your whole history of development would be blocked without your acceptance and your coming to terms with this TRUTH.*

You will recognise with your HEART and the CORE of your SOUL that the TRUTH is mirrored within your own being. Acknowledge that this offers the opportunity to exist here on Earth and to recognise what external dangers affect you so that you can guard against this so that you can continue to walk the pure path of CHRIST'S DOCTRINE. Without acknowledging that everything you encounter here on Earth has an effect on your being, you will *not* gain the insight that you will have to *show cause* for your actions in another REALM, a realm where you will recognise who you really are.

The TEAM accompanies you and protects you, thereby giving you the opportunity to make contact with every individual member of the TEAM in order to protect yourself in case of dangers. We are prepared to do so and are pleased to have the opportunity to spread the TRUTH here. We wish you a beautiful and harmonious week and look forward to our next meeting.

BARTHOLOMEW and the TEAM.
