The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

| Extracts from | : | P 173 to P187 from the year 2002 |
| Theme/specifics | : | Universe and extraterrestrial life (UFO - Contact 2002 (1)) |
| Questioners | : | Members of the <i>Psychic Work Circle</i> |
| Type of transmission | : | Verbal inspiration and automatic writing |
| SPIRIT TEACHERS | : | ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY. |
| Previous guests | : | AMENDON, ELIAS, SEATH, SETHAN, TAI SHIIN |

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I will be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for GOD'S antagonist. We know that we have to make the greatest contribution ourselves. – It is our aim to grow through spiritual TEACHING, then to be able to distribute the TRUTH to where it can fall on fertile ground. We are asking for GUIDANCE so that our MISSION on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

The meeting began with an opening meditation and a materialisation exercise under the guidance of the SPIRIT TEACHER MAGDALENA. This was followed by the inspirational and automatic writing part of the meeting.

The 7th of January 2002.

Welcoming all present and the start of the questioning.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
This is EUPHENIUS speaking. We welcome you very cordially this New Year and to

the challenges you, as a group, are faced with. We also welcome all the other terrestrial souls who actively support your work, very affectionately. May GOD'S blessing be with them throughout this year. We hope that we're able to continue to accomplish such highly qualitative work with you and we hope that this year will also bring a lot of new insights and progress, not just for you as a group, but also for those that read these reports and this information. These insights serve the purpose of inspiring the souls here on planet Earth to mature so that they find their way out of this chaos. We begin with the automatic part of the meeting. Our guest TAI SHIIN will announce his presence here later.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS :GREETINGS IN THE NAME OF GOD! This is LUKAS writing. We have been tracking your thoughts. Yes, it is important to read the introduction to every meeting. *It helps heightening the VIBRATIONS* and it replaces a conjoint prayer. My TEAM and I also hope for a successful cooperation with you and we await your first question with a keen interest.

Question :Some scientists are of the opinion that there must have been a big bang in the distant past that created the universe. Are they correct?

LUKAS :Well, this assumption is correct. The so-called "big bang" - as you call it - did happen. The universe came into being through the release of an enormously compressed ENERGY. GOD'S SPIRIT suddenly released this compression and this triggered the expansion of the universe that is still continuing to this day. The centre of the explosion...

(T. B: False!)

...was not within the centre of this ENERGY AGGLOMERATION, but some distance away from the epicentre. This decentralised energy release created the universal angular momentum that persists to this very day. The "big bang" theory is not accepted by all your scientists. There are other theories, but they are incorrect. One will eventually find out, the way it has always been the case in your science's history.

(T. B: One has to ask for more information.)

Question :How did the planets come into being?

LUKAS :The planets are the sun's children. As the planetary system began to form, they were parts of a disk shaped structure to begin with. There was an enormously powerful centre of gravity within the centre of this disk shaped structure. In the course of time, planets separated as individual rings through the influence of external forces. A compression of the physical components of these rings took place later. The universal

angular momentum remained preserved. All planets came into being in this way and this without exceptions.

(T. B: This was correct.)

Question :When you say “sun” do you mean the ORIGINAL SUN?

LUKAS :I was talking about the *planetary* sun, present within your solar system as the central star and delivering the necessary energy to sustain life.

Question :Do we understand this correctly, we also receive VITALITY beyond the well-known energies our sun supplies us with?

(T. B: Yes, that is correct.)

LUKAS :Naturally. Life as you know it here would not be possible without light and the radiated heat from the sun. Apart from that, the rays of the sun also contain other COMPONENTS that you are presently not able to measure.

(T. B: There are a number of them.)

Question :According to this, the sun is therefore an important focal point, one that the planets that receive its energy are grouped around?

LUKAS :Yes, that’s how it is. Look at the nearest larger system, your galaxy you christened “Milky Way”. You live inside a spiral nebula. Its insides becomes visible as a bright band in a starry night. Galaxies also possess central suns and they are positioned very close to the centre, thereby releasing such enormous forces, that the whole galaxy is provided for. The macrocosm mirrors the microcosm. The microcosm mirrors the macrocosm.

Question :How is our planetary sun connected to the ORIGINAL SUN of everything that exists?

(T. B: Interrelated.)

LUKAS :Through the same kind of CONNECTION you have with *all other* life forms. You are connected with everything around you and therefore also with this solar system. If your solar system would drop out of the community of solar systems for any reason, this would be communicated to all the others immediately - even to all the other giant systems.

- *This is why it is so important that peace and harmony reign throughout the universe, because this ALL-CONNECTEDNESS immediately communicates every IMPULSE to all the others.*

Question :Does duality predominate on all the planets of our solar systems?

LUKAS :Duality predominates through *all* physical matter, *this is why* matter was created. There is darkness and light, inertia and activity and a North Pole and South Pole on all planets... and this is why people live within the density of planet Earth in duality. This will only change when the whole planetary structure has become more ethereal and with it also its inhabitants. Only then would duality be markedly reduced and in the next stage, even completely disappear.

Question :Does every planet with the same atmosphere as ours accommodate souls or must souls adapt to the conditions on a planet?

LUKAS :All physical matter is made from compressed SPIRIT MATTER. The clarify things we have to say that there is no physical life on planets like Mercury, because the sun's rays are too severe. But spirit entities on the other hand can live on the first planet and even on the sun, respectively in its core in order to control this TRANSFORMER. This would be an impossible feat in a carnal body.

Question :Are there solar system where matter is of a more ethereal nature than here and where higher evolved ENTITIES live?

LUKAS :No living beings could stand GOD'S emanations, that is to say, GOD'S *direct EMANATIONS there also*. This is why a TRANSFORMER is necessary, there to transform GOD'S VIBRATIONS to a lower level. This is one of the sun's assignments. Not just your sun, but *all* the suns throughout the universe. The suns *are controlled* and they emanate the radiation you measure and you're familiar with. You must abandon your erroneous assumption that your sun merely represents a nuclear fission furnace. *This is a false assumption!* - I would like to say good-bye to you and to give our brother from the stars the opportunity to report to you. GREETINGS IN THE NAME OF GOD!

LUKAS.

The *oral* part of the meeting started under the guidance of the MESSENGER of LIGHT EUPHENIUS.

TAI SHIIN :GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
Dear brothers and sisters. This is TAI SHIIN speaking. I am pleased to be able to be here with you this evening in order to convey some important information to you. We are a small group of SANTINER assembled here this evening to give you LIGHT and ENERGY and to stand at your side with word and deed in regards to your chosen theme. One member of our group will always be present during the whole theme under discussion to give your TEAM support in this regard. I will report back to this circle later on to say a few closing words to this theme.

We would like to communicate to you that this planet has suffered a lot during the last year and that it had to endure many agonies. You will recognise in retrospect that many

natural catastrophes took place on this planet. Nature represents your mirror image of what now comes into effect. Nature takes revenge for all the things you, as human souls, have inflicted upon it. We hope that your knowledge progresses to a point where you'll comprehend that you have to treat this planet differently and more *justly*.

- *You neglect your duty of care in regards to this planet and you don't realise that by harming your planet you actually harm yourselves. The wounds you inflict upon the planet are wounds you inflict upon yourselves!*

We, the protectors of this planet, cannot interfere everywhere in order to re-establish and safeguard the equilibrium on this planet. We try our utmost to effect a change of consciousness in you. It isn't always easy to rouse your souls and to impart to you the knowledge that you *will actually kill yourselves* if you continue like this. This destruction can only be arrested and changed through our *combined ENERGIES*. You must awaken to this situation! Recognise that you are a part of nature and a link in a chain that may not break apart.

With the cooperation of the spiritual realm, we endeavour to send SOULS of LIGHT and MESSENGERS of LIGHT down to Earth. Many eminent ENTITIES have turned up here on Earth at around New Year in order to bring you LIGHT, warmth and knowledge. We hope that many people *recognise* these messages nature reveals to you for what they are and that they open their eyes to what is *essentially important*. You can only win, if you form a *united* front. A front that is supported by divine MESSENGERS, prepared to support you and to promote you. We only form *a part* of a TOTALITY and we depend on your cooperation. We hope that we are allowed to express such open words here and we hope that the knowledge we impart bears fruit in order to maintain the beauty of this planet.

Question : You said that you are "the protectors of the Earth". What exactly do you protect? Mother Nature is increasingly pushed into a corner and the environment is still being polluted.

TAI SHIIN : We regard ourselves as the preparers of the way for your souls and we want to communicate the insight to you, that *all of you* constitute a *unit*. The equilibrium is presently very much out of synchronisation. Earth's nature is trod upon. You think that you are the highest ranked hierarchy here and you are quite unaware that this imbalance endangers and restricts your own viability.

- *We have the divine ASSIGNMENT to amend this aberration you have embarked upon, to inspire and to help you by trying to impart healing and recuperation to Mother Nature so that your mental maturity can catch up and you come to the conclusion that you have to deal with your own quality of life differently, because your existence and nature are closely intertwined.*

We have positioned various bases around this planet and we utilise them to guard and to protect the Earth. Primarily to give you the opportunity to effect your development

without *external* disturbances. We are aware that fears are being stimulated here on Earth by mediums and through misinformation about asteroids destroying your world. We endeavour to prevent this - and we will prevent this! The divine PLAN is a different one and it doesn't include the destruction of this Earth by external forces. *If* it is destroyed it will be destroyed *from within* and *by you!*

Comment :If the asteroids fragments that collided with Jupiter had hit the Earth, we would not be sitting here today.

TAI SHIIN :Planer Earth's viability would no longer have been an issue, because these massive boulders would have dislodged the Earth from its anchorage and its balanced state.

Participant :A few days ago, a large asteroid passed by the Earth at a distance of about twice the distance to the moon.

TAI SHIIN :We escorted this asteroid pass the Earth. We positioned a protective shield around the Earth so that these encroachments on your physical existence and your planetary development do not take place.

Comment :If there is life on Jupiter, these asteroid impacts must have caused a massive loss of life.

TAI SHIIN :There are no souls incarnated on Jupiter, it is an outstation for more eminent BEINGS. Jupiter is not a homogeneous planet like the Earth, in this case "homogeneous" means that no human souls like you are incarnated there to advance their own maturity. Because the ENTITIES there are of an ethereal nature and not subject to physical laws, they possess the ability to evade these attacks.

Question :How many planets are inhabited by human souls like here on Earth?

TAI SHIIN :There are a number attached to this solar system that are inhabited by souls and that absolve a similar development to yours. There are also planetary entities that occupy a *higher* level of development and they are also accompanied and promoted, the way you have ENTITIES here that accompany *you* and promote your development through inspiration. There are still a lot of planets that are not registered in your earthly indexes. There are hundred of thousands that also undergo the same stages of development. I am *not* talking about *this* solar system, but I'm looking at the over-all picture.

Question :Are these galactic creatures also GOD'S creation?

TAI SHIIN :All souls are a part of GOD and they all spring from the same source.

Comment :This means that we on planet Earth only represent a little light.

TAI SHIIN :Not a little light, but *important lights* and these lights should endeavour to find their way into the *great* LIGHT. If all of you *would* allow your inner LIGHT to shine, this planet would be a veritably brilliant diamond in this sector of the Milky Way.

Question : If GOD created the universe, all galaxies would have to be HIS CREATION?

TAI SHIIN : That is correct. GOD is the here and now and *everything* that exists. HE is the epicentre and the ORIGINAL SOURCE of *you* and your soul's existence *also*.

Question : There exists a psychic drawing that depicts GOD'S CREATION in the following manner: The physical universe and the anti-universe are portrayed as two independent circles, they repel one another but they permeate one another in spite of this. These circles symbolise both main creations. Both of these major creations are embedded in a large, distended ellipse, which illustrates the spiritual realm, the so-called hereafter, and it encloses the world of matter and anti-matter. At the periphery of the ellipse, drawn as a waved line and encompassing everything, are GOD'S enormous VIBRATIONS. - Can one adopt this construction to support one's imagination?

TAI SHIIN : One could not express this in a more beautiful and representative fashion in either words or pictures if one tried, because it is difficult to explain something so enormous and so *multi-dimensional*. *What GOD actually is* is difficult to explain. It is difficult to explain that all of *you are a part of HIM*. It is difficult to make it comprehensible to you that all of you stem from *one ORIGINAL SOURCE*. It is particularly difficult because you don't even *humanly* respect and accept one another here on Earth. Your mind and you spirit is not developed enough to actually understand this.

Question : Can *any* physical creature understand it? - Can *you* understand it?

TAI SHIIN : We also only understand a part of this and not the WHOLE. We are also subject to development and we have not yet reached our final stage. We presently find ourselves in a REGION between matter and anti-matter and we have not yet crossed over into the LIGHT.

Question : Would this shift represent your next evolutionary level?

TAI SHIIN : We still have many levels in front of us. If you knew how long this ladder is...

Question : Does a kind of parallel world exist here on Earth wherein an ethereal civilisation exists one doesn't feel anything about? - Is something like that even possible?

TAI SHIIN : Do you feel that you're surrounded by ENTITIES, SHINING FIGURES, who lovingly embrace you with reverence and humility? - This is the issue! You are so engaged with physical matter that you're *unable to make out* ethereality. Don't be sad, because this is conditional to the fact that you *live* on this *coarse* Earth. You are at the beginning of a long journey. Bear this in mind, you can count yourselves lucky that you *know* about this and that you sometimes *sense* these ENTITIES around you.

There are civilisations made up of higher, ethereal souls that utilise training and inspirational spiritual PLANES you can hardly imagine. They consist of elemental

PLANES of VIBRATIONS that are no longer attached to physical matter. These are not the kind of civilisations you know about. Their life exists on a completely different plane and it cannot be compared to your earthly existence.

Question : There are researchers on Earth who have dedicated their life to the most exciting question our existence offers us: Are we alone in the universe? What can you tell these researchers?

TAI SHIIN : Everyone can answer this question by themselves and this with a clear-cut answer. The existence of entities *outside* your range of perception represents a component of your own soul's *inner* values.

- *Those that really try to find an answer will have this question answered!*

The existence of other beings is basically defined through the fact that you cannot find an *ultimate* answer in regards to the building of the pyramids, the evolutionary history of the Incas and all the things you received as pieces of information that make you cogitate and deal with this.

Question : If we are *not* alone in the universe, where are the others?

TAI SHIIN : All around you. They are *not always* present in a physical state. We are dealing with entities who move ethereally. But there are also alien entities with a physical body. But your Earth is *presently not* visited by such planetary denizen.

Question : Does “move ethereally” mean to move *without* the help of spaceships?

TAI SHIIN : That's right. Through soul migrations and through OSCILLATIONS you can only partially perceive.

Objection : But you are also ethereal and you utilise spaceships *in spite* of this.

TAI SHIIN : Our spaceships are used to bring you the realization *that we exist*. We don't necessarily depend on these spaceships. You know that I am present here in an ethereal form. There are a number of your SANTINER BROTHERS assembled around you that you cannot see with your terrestrial eyes. Making our spaceships visible to your eyes serves the purpose of making it easier for you to realise that life in the universe is possible and that it actually exists. We are not dependent on coarse, physical matter.

Question : So why do you live on a physical home planet?

TAI SHIIN : We live in an INTERMEDIATE REGION. We must also continue our development and physical matter serves this purpose, because it *offers the opportunity to deal with duality* and it promotes the maturity of the soul. Our further development would presently be relatively pointless, if we would only exist in the ETHEREAL. We have to deal with physical matter in order to completely discard it in our next GRADE.

Question : Assuming we would reach your home planet in one of our terrestrial spaceships. What would the surface of your planet reveal?

TAI SHIIN : Rubble! You would have to have become more ethereal *like us*, you could then see a town, you would see people and you would see animals. You would see nature, but you would have to be able to discard your coarse physicality first. It is a case where you have to be in a position in regards to your mental development where you can conquer matter, that is to say, that you get rid of your coarse physical body to then exist as unencumbered soul-beings within an ethereal body.

Question : Is this what JESUS meant when he said: “I have conquered the world”?

TAI SHIIN : That is it. Physical matter will *then* be conquered when the soul has made to forward leap to the next LEVEL. This means that it will then no longer be dependant on a physical body. It no longer needs this protective shell in order to grow and to flourish, because it no longer needs to spend time in the physical.

We SANTINER are in the fortunate position of being able to exist on *both* LEVELS of VIBRATION *simultaneously*. Otherwise we would not be able to communicate with you here on Earth, if we were not able to deal with the VIBRATIONS and adopt the physical conditions that exist on your planet Earth. We still have the opportunity to exist within the coarseness of your world. But it is our aim to discard any physicality completely.

Spirit ENTITIES and particularly the more eminent ENTITIES are completely detached from coarse physical matter. They are ethereal and are subject to *other* LAWS, ENERGIES, IMPULSES and VIBRATIONS and they also dwell in other SPHERES of EXISTENCE they call on. But they have great problems dealing with your coarseness and with your physical environment.

- *It is therefore very important to maintain the divine PROTECTION to establish an ATMOSPHERE here in this circle that makes it possible for these ENTITIES to announce themselves here in your physical world.*

Question : Is it your semi-physical condition that gives you the opportunity to gain an insight into our physical world and to receive ASSIGNMENTS from the spiritual realm?

TAI SHIIN : This is correct. We presently live in an IN-BETWEEN-WORLD and we represent the link between physical matter and ethereality.

Comment : GOD’S extended hand into the physical world.

TAI SHIIN : That’s right.

Question :Why do you find it so difficult to help our researchers in the quest to find “others”? Doesn’t it say somewhere: “Seek and you shall find”?

TAI SHIIN :They look in the wrong places, because they only look with their minds. It would be important to look with their heart and to see with their heart. If the heart, the mind and the spirit are *in alignment*, doors will open and the opportunity that we will be able to show ourselves in all our glory will present itself.

Participant :Our time here has unfortunately run out. Many thanks for your messages. We are looking forward to the next time!

TAI SHIIN :We know that you have a lot of questions that are very important to your own history and your development. I am prepared to return again in order to give you the opportunity to ask your questions. I will not be present here during the next meeting, but I will return to the one after that. I am happy to be here as your guest and I wish you a peaceful and contemplative evening and a lot of success for your next meeting.

TAI SHIIN.

EUPHENIUS:GREETINGS IN THE NAME OF GOD! I am pleased that I have been given the opportunity to also bid my good-bye in the name of the TEAM and all the souls assembled here around you to maintain and promote the PROTECTION necessary to make this meeting possible. I thank you for this evening and for your questions. On behalf of everybody and in GOD’S wisdom and commemoration we bring this meeting to a close.

EUPHENIUS.

* * * * *

The 13th of January 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS:GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
This is EUPHENIUS speaking. We welcome you very cordially to this meeting. Here to answer your question is one SANTINER and also the TEAM. Please ask your questions now.

????? : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
This is a brother from the stars writing, one who would like to accompany you. My name is SETUN. This is a trial, but it seems to work without any problems. We are very pleased about this!

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. You must excuse this short test phase, but it might not have functioned if it had been announced in advance, because the medium might have blocked it due to its inner discomposure. This gave us the opportunity of assimilation. I myself and the TEAM also welcome you very cordially and we await your questions.

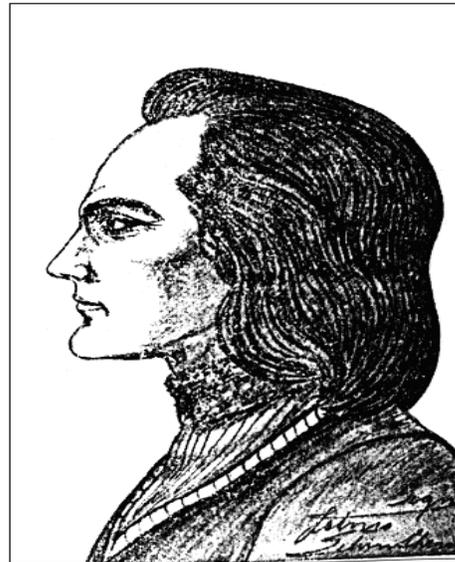

Question : Did we read the name correctly?

SETUN : Yes, my name is SETUN.

Picture: SETUN SHENAR.
A SANTINER, who bears responsibility for mankind on our planet Earth. These INTERPLANETARIANS are *not* our enemies. Caring and spiritual LOVE bring them to our earthly region.

Automatic writing drawing by Uwe Speer
Medialer Friedenskreis Berlin

Medial gezeichnet von Uwe Speer.
Medialer Friedenskreis Berlin

Participant : Last time we met we asked a question and the voice on the tape indicated that the answer was "*false*". Is there something wrong with this transmission?

LUKAS : Yes, The answer should have been different. Our medium unfortunately interfered. *It should not have been* "the centre of the explosion", *but* "GOD'S ENERGY". GOD'S ENERGY utilised a point outside the centre of this energy agglomeration to trigger the event, this initiated the rotational impulse that still exists today. The concentrated ENERGY AGGLOMERATION was suddenly released. The divine ENERGY'S point of attack was peripheral to the centre. The term "explosive energy" makes it sound as if this energy was autonomous. This is impossible. Everything is controlled by an intelligent ENERGY.

Question : According to a newspaper report, US-scientists managed to take sensational pictures of the heart of the Milky Way with the space-telescope "Chandra". The report literally

states: “The centre of the Milky Way has a temperature of 10 million degrees. The way we imagine hell to be.” What can you tell us about this?

SETUN : It is as stated before: The centre of the Milky Way consists of a multitude of individual suns and their combined energy supplies the whole galaxy with energy. A source of energy that is made up of the most varied forms and frequencies, similar to the frequencies of your own central star. The galaxy’s central sun is as important to life in general as your sun is in regards to you on a smaller scale. We are ready for the next question.

Question : Is our sun inhabited by souls?

SETUN : Your solar system’s sun is a *control centre* that is controlled and monitored by spiritual ENTITIES. This would not be feasible with a physical body. These ENTITIES are more eminent ANGELIC BEINGS with the ASSIGNMENT to guarantee the viability of life on this system’s planets unless the inhabitants carry out an act of self-destruction. This energy supply can last for a long time, actually until the solar system has fulfilled its allocated assignments.

Question : How many levels of development are there in our planetary sector and how many of these do we, as human beings, have to absolve before we can exist without a physical body?

SETUN : Besides you, there is a whole series of other beings incarnated on planets in order to fulfil their mission. Your Earth is a planet of redemption, occupying a special status and it cannot be compared to other levels of development of a more ethereal nature. Your Earth is in fact a pretty solid and dark level. The number of developmental stages depends on the number of characters on your planet. This gives you a rough overview. - My writing assignment has come to an end. I thank you and I am pleased that I was allowed to write to you here. I bid you goodbye. - PEACE ACROSS ALL FRONTIERS!

SETUN

(Change of type face)

LUKAS : We must also say goodbye now. Being a first, this has been quite successful don’t you think? GREETINGS IN THE NAME OF GOD!

LUKAS

The oral part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. Many thanks my dear friend for participating in this surprising writing encroachment that made it possible for our GUEST to give his answers directly. This ploy was necessary to circumvent the blockages you sometimes suffer from. We hope that we will continue to be successful in keeping your CHANNEL open so that our GUEST can continue to give you a written account. Please ask you questions now.

Question : The denotation “SANTINER” makes us assume that we are dealing with *one single* civilisation. Is this correct?

EUPHENIUS: The fact is that what you call “SANTINER” represents *various* levels of development. A planet in the constellation Alpha Centaury is also inhabited by SANTINER. There are other planets within that quadrant of the universe and they are also inhabited by the souls of eminent ENTITIES. They are the SANTINER’S equals in regards to their level of progress. The area of responsibility of the SANTINER from Alpha Centaury is also intertwined with planet Earth, because they are also subject to its assignation and its development. The other planets are subject to *other* areas of responsibility and objective targets.

If you mentally concentrate on other souls with space-flight technologies, you will also encounter other genera of a similar technological development to that of the SANTINER, but they are subject to *different* authorities. From what we know I can tell you that from a technological and space-flight technology point of view, the SANTINER are responsible for this planet. But you also receive support from ENTITIES reincarnated on planet Earth who bear responsibility for your and for their own progress.

Question : Why are there so few opportunities to take precise and sharp pictures of SANTINER SPACESHIPS? A lot of photos merely show some kinds of lights or light apparitions, without details and very unconvincing.

EUPHENIUS: This has something to do with the fact that these ships are surrounded by a certain protective force field. Your present day technology is unable to penetrate this ethereality to make the ships physical appearance more perceptible. This is extremely difficult. Your scientific researchers have not yet had the opportunity.

Question : Where does the sudden change of heart of the Vatican come from? The Catholic Church has vehemently denied the existence of extraterrestrial life for centuries. The pope’s most eminent astronomer *Pater George Coyne* from the Vatican’s observatory at Castelgandolfo insisted that:

“Planet Earth’s inhabitants are not the only creatures God created. The universe is much too vast that we would be the all on our own. Yes, there is a God beyond nothingness. This is no blasphemy. The science of astronomy and its inherent search for extraterrestrials do *not* contradict one’s faith - they could even *further* one’s faith.”

EUPHENIUS: The reason for this change of heart is based in the fact that the Church *is very well aware* that extraterrestrials exist. They possess information that has not yet been made available to mankind, to you as inhabitants of the planet. The Vatican possesses many pieces of evidence and many fundamental scripts that indicate that messages from space and from the spiritual realm exist. This knowledge and all the things still hidden in darkness would *save us all a lot of work*. We would not have to work in such a restricted environment, but we would have to opportunity to do a lot of what is good and bright on a much larger scale. But this unfortunately happens only drop by drop and is not enough for the present situation on Earth. The reason why the Vatican is now prepared to publish this the way they do lies in the fact that the pressure on the Church to do so is quite profound. The Church must reveal its position in order to protect its own viability. Another reason is that they try to maintain their position of power. The Church is again trying to improve its image in order to keep its sheep from straying.

Comment : In order to be accepted by a flock of sheep one has to become a sheep to start with!

EUPHENIUS: This is right. If you look at this from that angle you would think that this would even become more apparent to those that do not take an interest.

Question : What is your comment to the following statement? The above mentioned papal astronomer further stated that *Pope John Paul II* was also very interested in space exploration. He literally said:

“His eminence has been keeping track of theories about the formation of the universe since his youth.”

EUPHENIUS: This astonishing statement is based upon the fact that the pope had extraterrestrial contact, but may not admit this nor does he want to admit it. His interests lie within the original principle of finding out that *it isn't so*, that he was *wrong* in the first place. The message he received *has been with him all his life*. The pope doubts his own awareness in this regards and the things that were revealed to him as being real. We hope that he can muster enough courage to reveal further TRUTHS to mankind.

Participant : The SANTINER who introduced himself at the beginning of this meeting called himself SETUN. Why is it that *the same names* always surface, the same names as appeared in the past at the *Medialen Friedenskreis Berlin* (Psychic Peace Circle Berlin)?

SETUN : GREETINGS IN THE NAME OF GOD! This is SETUN speaking.

I am a BROTHER from the STARS and I belong to ASHTAR SHERAN'S fleet. It is my assignment to be present here as advisor to you and your spirit TEAM for as long as you deal with this theme. I am supported by TAI SHIIN who will announce his presence here again at the next meeting. It is my assignment to acquaint you with life *outside* of your planet. This is a wonderful and worthy assignment for me, one I gladly accept. I am grateful that I have been given this assignment. We are a large fleet, that is correct. But there are *only a small* number of SANTINER that can harmonise with you as human beings in regards to your VIBRATIONS. It is very difficult for us and also for our spirit FRIENDS to find points of contact for our transmissions here on Earth. The VIBRATIONS must be *assimilated* and aligned with one another.

- *Because I had already undertaken this assignment in the past, it naturally followed that I would also accept this assignment here with you. The fact that I may make myself known through the voice medium and also through you is therefore no coincidence.*

Participant : We thank you for your explanations and for your presence. Our time here has unfortunately come to an end already.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. I thank you for being allowed to be a guest this evening and for the opportunity to answer your questions with the help of the SANTINER. This is a new combination and a new experience for us also.

Furthermore I would like to inform you that TAI SHIIN will be our guest here the meeting after that. A most eminent SPIRIT BEING that already announced itself last Christmas will join us here. It is of importance that you should take special steps to prepare yourselves for this particular meeting. We will give you some tips about this at the next meeting. - We bring this meeting to a close and we wish you a harmonious and successful week. In the NAME of GOD,

EUPHENIUS and the TEAM.

* * * * *

The 20th of January 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. LUKAS will write first this evening. Our GUEST is not yet present. The oral part will be carried out the way we did so a few weeks ago. TAI SHIIN will give his point of view to the questions that are asked. We would like to repeat that the MESSENGER of LIGHT SETHAN will be present here at our next meeting and that he will also take over the oral part of the evening. We ask you to abide by the directives you were given so that a heightened level of VIBRATION will be at hand. Remember, you are a *small* circle and your ENERGIES of LIGHT must be *elevated to give* the MESSENGER of LIGHT the *opportunity* to report to you here. We assist you during your meditations in order to support and to advance this HEIGHTENED ENERGY during the week.

- *Remember that you take on a great responsibility when this MESSENGER of LIGHT announces his presence here with the intensions of taking over this circle for a while. You must create the opportunity to make this possible and feasible! We will be at your side to give you inspirational support.*

We are looking forward to this particular evening with you and to your questions and naturally also to meeting our GUEST, who will report to you during the oral part.

Question : Will we be allowed to ask questions during the meeting next meeting when the MESSENGER of LIGHT will be present?

EUPHENIUS: The MESSENGER of LIGHT will give you, this circle, messages and information about the way he imagines the cooperation between himself and you as a group to take place. You can and you may ask questions, but *not in relation to a specific theme*. A dialogue between you as a group and this more eminent SPIRIT BEING will eventuate.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. So let us begin and utilise this evening to deal with your questions.

Question : It is said that all life emerged from water. Was the Earth covered with water before nature, animals and human beings arrived *later on*?

SETUN : Nothing can exist without water - no life the way you know it anyway. In order to allow physical life to develop, water was the prerequisite on this Earth also. Flora and fauna emerged from water and your body has also progressed through the various levels of

the animal kingdom to develop to such a degree that a human soul could be concatenated to it.

Question :When was the first human soul incarnated?

SETUN :The first incarnation of a human soul took place at around the time when Neanderthal Man walked on Earth. There were creatures here before Neanderthal Man with a similar human body, but their spirit was not able to reflect upon its own existence or ask questions at the sight of a starlit sky. These creatures accepted everything as a given, similar to the way the animal kingdom does. They were creatures that helped to prepare the way for the next level of human development.

Question :How did our planet receive its name?

SETUN :The name “Earth” is one of many terms used by you and all the other names for the planets of this solar system stem from you. The name “Earth” has no particular connotation and there is no deeper meaning to it. One could have chosen any other name. But it is a case where inspiration once again played a certain role, the way it always does.

Question :Life on Earth sprang from water. Is this the reason why the greatest percentage of our body consists of water?

SETUN :The structure of your body is associated with this to a limited degree. The fact is that the watery solution your body consists of to a large degree, requires a certain electrolytic conductivity to set the chemical processes of the physical body in motion. Chemistry, the way you know it, would not function without water.

(T. B: Something is not quite right here.)

(T. B: Ask again - soon. This was incorrect.)

Question :As we were told, to protect the Earth *from external* calamities is part of the SANTINER assignment. Do the SANTINER communicate with the NATURE SPIRITS here on Earth?

SETUN :NATURE SPIRITS are ethereal BEINGS, as we are also ethereal beings. This is why we practically share the same wavelength. We can see these NATURE SPIRITS and we communicate with them through the UNIVERSAL WAVES of telepathy. This is why we are able to have a calming influence on certain natural phenomena or on the weather. But this doesn't mean that we create your weather. No, this is certainly not the case! If your thoughts on Earth were more in tune with GOD they would have a substantial influence on your weather. We only express our wishes to divert radioactive clouds for instance, something that affected your Earth in the past. This enabled us to neutralise most of the radioactivity around you.

(T. B: ... and to save the Earth!)

Question :Can you influence natural catastrophes to such a degree that they can actually be prevented?

SETUN :Yes, that is what I have been trying to say. When the crucifixion of JESUS took place, we organised a storm. We can do this if we *receive a request* to do so or if our suggestion to do so is not superseded by other requests by GOD’S spiritual WORLD. But if we were to prescribe only sunshine for your world, your despots would show no willingness whatsoever to reduce any poisonous emissions. But as the world’s climate is perceptively shifting and will continue to shift, they will *have to* act in order to secure their own viability and the chances of survival of their descendants here on Earth. *We are not allowed to interfere* in these cases, the Earth represents a school after all and anything physical can be reconstructed, because you cannot destroy the spiritual BLUEPRINT.

Question :The spiritual “BLUEPRINT”?

SETUN :This is the MATRIX, the constructive PROTOTYPE that developed in SPIRIT and that continues to exist there, even when all the plants and animals on Earth have become extinct. This is why it is possible to create similar life to the one on Earth on a new Earth or a younger planet or to allow it to come into being once again after a planetary catastrophe. Look at nature, new life stirs in the soil’s nooks and crannies even after the greatest of fires or after volcanic eruptions.

Participant :It is time. We must change to a different medium.

SETUN :Yes, *you* are responsible for this meeting’s sequence. GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

SETUN.

LUKAS :I would also like to say a brief good-bye to you and express my thanks for this short writing segment. Please prepare yourselves for the next time a little *more intensely* in order to make it as simple as possible for our radiant BROTHER.
GREETINGS IN THE NAME OF GOD!

LUKAS

The *oral* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

Participant :GREETINGS IN THE NAME OF GOD! We welcome EUPHENIUS and our GUEST to the second part of this meeting very cordially.

(T.B: SETUN also salutes you again.)

TAI SHIIN :GREETINGS IN THE NAME OF GOD! I welcome you very cordially. This is TAI SHIIN speaking, as an envoy of the SANTINER, authorised to answer your questions here and allowed to convey to you the heartfelt regards of the BROTHERS. We have accompanied this Earth for a very long time and we feel a close connection to you. We are pleased that it is possible and feasible to answer your questions here.

Question :Are we dealing with SETUN SHENAR from the Medialen Friedenskreis Berlin here?

TAI SHIIN :This BROTHER is the soul that involved itself with the Medialen Friedenskreis Berlin. He is one of ASHTAR SHERAN'S companions who has accompanied and guided you during your earthly development in company of the BROTHERS. Many other circles had contact with him and many have recognised that his messages are important and fundamental in your own development.

Question :The creational story in the bible states that: "God said: Let there be light." Could one also say: "At the beginning there was only radiation?"

TAI SHIIN :Light represents just a minute particle of the radiation that is described here. It is one derivation of the divine RADIATION LIGHT that is spread right across the solar system, a divine AWAKENING ENERGY, providing light and viability for your organisms. Light is a *reduced* form of what is generally called ORIGINAL ENERGY. All light sources are concentrated rays of light emitting from your central solar system and therefore connected with the ORIGINAL CREATOR, with GOD. As you are solidified within matter, you can only utilise a *certain part* of the sun's rays for your body. If you could utilise more of it, you would burn up and your organism, especially your skin, would burn. It is therefore important that you recognise that the whole structure of your Earth is interwoven and interconnected. If you eliminate one link from this chain, the *whole* construction of planet Earth would be destroyed. RADIATION is first in line when it comes to supply your organism with energies, vitality, with growth and LIFE ENERGY. The first divine SPARK was also RADIATION and it created the universe and you here on Earth, right up now, by supplying your central sun with ENERGIES.

Question :According to today's accepted knowledge, one assumes that the ENERGY AGGLOMERATION the universe was created from concentrated on a miniscule point. Was this point as small as one assumes?

TAI SHIIN :These ENERGIES flow through such ethereal elemental tracks that they are able to penetrate the smallest of pores. It is a relatively small opening between the dimensions that made this possible, a minute point within the universe, making all of this possible at that time.

Question :Is the universe expanding?

- TAI SHIIN :The universe experiences the same flux as your LIFE ENERGIES. The universe also possesses an organic advancement and it is connected with all the things you are also linked with.
- Question :If this is the case, wouldn't the number of planets also have to increase?
- TAI SHIIN :The advancement is guaranteed because your RADIATION and your ENERGIES can co-influence new developments. Your *spiritual* growth also develops a HEIGHTENING of your VIBRATIONS and other planets are affected by this.
- Objection :The "Medialen Friedenskreis Berlin" mentioned at that time that the universe would *not* expand!
- TAI SHIIN :A mistake must have crept in here. Everything is subject to change, otherwise stagnation would reign. You are also subject to changes and you also have an influence on what the universe contains and on what happens to individual elements and solar energies. The universe is subject to a pulsating development the way you progress in your own development. It represents a giving and a taking, the way you are subject to bursts of growth here on Earth. As we mentioned, it would mean stagnation, because you also receive ENERGIES from the universe and everything is stored to then enter your consciousness as external knowledge.
- Question :According to the prevailing physical laws, the big bang created a universe of pure light - without one single atomic particle, without planets and galaxies. Where did matter spring from?
- TAI SHIIN :Matter came into being through GOD'S CREATION, that is to say, matter arose through what was specified to become a solid anchorage. We are dealing with THOUGHT STRUCTURES and MATRIXES put in place by the CREATOR. Matter formed and solidified from ENERGY. All matter contains ENERGY and it can also be dissolved again. How else could we make ourselves visible or invisible? We are dealing with energetic ascendancies here. Take a stone for instance, it is a solid substance, but it contains energetic VIBRATIONS within. We can dematerialise and also materialise this stone. This is the whole secret.
- Question :When I was formulating these questions, the following popped into my mind: *What applies to something small also applied to something large*. Everybody knows how soap bubbles are created. Let us mentally replace a soap bubble with a sun, one with a relatively small dimensional hole in its centre that represents a passage to the immaterial world. A constant STREAM of ENERGY flows through this dimensional hole to the inside of the solar bubble to maintain its size relatively constant. Once the solar system has fulfilled its assignment and if the FLOW of ENERGY through this dimensional hole increases, the sun's diameter would enlarge and slowly but surely destroy the whole planetary system. This occurrence is known as a "supernova". But if the FLOW of ENERGY diminishes, the sun will collapse and turn into a "black hole", the original dimensional hole, the one that allowed the sun to come into being and the

one that is invisible to us. One has been able to indirectly verify the existences of “black holes” and one has been able to ascertain an enormous flow of energy. - Is there something to this adventurous thought model?

TAI SHIIN :The thoughts you express here are *inspirational elements* and they make it possible for you to express this in words. It is very difficult for us to integrate this in words you can understand. Your thoughts have answered the preceding question about the big bang and its associated energetic solidifications and manifestations. This inspiration represents a *figurative simplification* of what the HISTORY of CREATION would like to convey to you about your ORIGIN, your history and from whence these energetic STREAMS and individual planetary forms developed from. These STREAMS of LIGHT give *birth* to hundreds of thousands of planets, forms and entities thereby giving souls the opportunity for advancement. It represents a chain that cannot be linked together, a “circuit” that fulfills itself on other PLANES.

Comment :If one expands this model a little, the so-called big bang might have been nothing else but an enormous, energetic IMPULSE through a relatively small inter-dimensional hole. The enormous energy-bubble that eventuated from this is still expanding today. The background radiation that was measured would be continuous with the radiation that originates from the periphery of this gigantic space-bubble.

TAI SHIIN :You were dealing with a small issue when you started your question. The “big bang” - as you describe and record this event in your science journals - eventuated like that. This made it possible to develop growth within matter.

Comment :This fits into the picture, namely the word “explosion” that the voice on the tape denoted as “false” last time around. If the universe actually developed through a relatively small dimensional hole, it becomes clear why this energy bubble still expands to this day, because *additional ENERGY still flows* into the universe and new star islands and new solar systems develop even now. These inter-dimensional holes act like energetic sources in regards to matter.

TAI SHIIN :You have answered this question yourself. This makes a number of things more conclusive and you can recognize the things that were not conclusive to begin with yourself, namely that form and reality approach one another. This process brings new life forms and new solar systems into being, with new forms of human incarnations and new species.

Question :The sun has been playing the role of being the source of our nourishment energy since primeval times. Is it also a source of knowledge?

TAI SHIIN :The source of knowledge is activated by the ELEMENTS you receive from solar energies and they activate the building blocks within your cells. Without solar energy you would eventually atrophy and with it your thought processes and your intelligence also. This FORM of ENERGY creates vital chromosomes and it heightens the functions of the core, making you receptive for new knowledge and giving you the ability of

cognisance in regards to new assignments and examinations of your own existence and your environment.

Question : Can the sun awaken age-old memories within the human consciousness?

TAI SHIIN : This is only possible through certain techniques and it depends on whether your GUARDIAN ANGEL and your spirit GUIDE *allow* it to happen. You alone cannot tap into this knowledge; you can only achieve this in connection with the ENTITIES around you. *They decide* whether you have advanced enough to look at and to recognise new knowledge. The fact that a certain maturity of soul is present is important.

Question : Can one utilise the sun to heighten one's own consciousness?

TAI SHIIN : Solar energy forms part of what is necessary to allow your own evolution. But many other components are a part of this and you are already aware of them. One important ELEMENT is still missing, because you are presently not advanced enough in your development to open up your third eye in order to discover ethereality.

Question : Is this the reason why so many native tribes here on Earth have venerated the sun, because they knew that intelligence and information come from the sun?

TAI SHIIN : That's how it is. This was the reason why the sun always represented the central symbol for life and the progression of strength, courage and advancement. These original messages have unfortunately gone astray during your development - like many other things also. For a period of time you were *more highly evolved* than you are now.

Question : Does the sun represent a kind of purveyor of information and source of our ideas or do our ideas stem from the spiritual realm?

TAI SHIIN : One has to keep these separate. It is difficult to make the function of the sun comprehensible to you and to ascertain what SOURCE of INFORMATION you receive through your divine SPARK, from the spiritual realm. Your inner SPARK of LIGHT is connected with your sun and it is important that these two OSCILLATE in unison. The divine SPARK within you receives information from your central sun in order to activate important INFORMATION. This is a part of a puzzle. You are only at the beginning.

Question : What would happen to people who leave this solar system?

TAI SHIIN : Leaving the solar system is presently only possible to a limited degree. You are not advanced enough to leave your solar system. If you left your solar system now, you would die a terrible death, because you are linked with the sun's core and you are not in a position to undertake this leap forward. It is in connection with ethereality, respectively with your *lack* of ethereality. It represents the one component that makes it difficult to make this step, because you are anchored and, like through an umbilical cord, connected with this energy source here.

- Objection : It is said that the Earth and mankind change their FREQUENCY.
- TAI SHIIN : You adapt to your sun and *not the other way around*. If you were only aware of the highly potential VIBRATION MECHANISM that stands behind this... You are at the beginning. You can not yet step over this ENERGY.
- Question : Is there an opportunity here on Earth to penetrate into a parallel world?
- TAI SHIIN : This is only feasible in your world of dreams at this point in time, because you first have to overcome your physical body.
- Question : How can one then explain the *sudden* appearance of UFOS?
- TAI SHIIN : This has something to do with ethereality and with the fact that we do not eject any waves and energies that your radar systems could perceive. We operate from a plane of existence that makes it impossible for you to perceive our presence. It only happens when *we want it to happen* and when we receive permission to do so here on Earth from the higher BROTHERHOOD. We can exist on an intermediate level and we can appear either in an ethereal state or a coarse, physical state. This is absolutely necessary, otherwise we couldn't fulfil our divine assignment here on Earth, because we have to stride through a development with you.
- Question : The press likened the destruction of the twin towers of the World Trade Centre in New York on 11th of September 2001 with the burning of the library in Alexandria. When religious fanatics set the library alight it marked the end of antiquity. Did the events of 2001 also herald a new era for us?
- TAI SHIIN : This new era - a you call it - began *a long time ago*, something that has been imperceptible to you up to now. You have only been able to gain a glimpse of it because an increase in natural catastrophes is taking place here on Earth and by the fact that a process of upheaval has been put in operation. This act has given the NEGATIVE the opportunity to make its presence felt and to articulate its EMINENCE more profoundly.
- Question : What EMINENCE?¹
- TAI SHIIN : His EMINENCE Satan, who received new SOURCES of ENERGY here on Earth.
- Question : Is the so-called BATTLE of ARMAGEDDON a WAR between FREQUENCIES whereby the DARK FORCES try to keep our human ENERGY FIELD on a lower level?

¹ **Eminence** [lat.] Majesty, a power behind the throne that is hardly perceptible, but represents an influential personality. (Manipulator)

TAI SHIIN :The DARK FORCES try to *change the polarity* of these ENERGIES and to *absorb* them. They try to perforate and through decomposition, to moderate these ENERGIES with all their MIGHT. This represents a new form of destruction.

Comment :Let us hope that no such destruction will take place!

TAI SHIIN :This is not really what we have been trying to say. This represents a *different kind* of warfare from what you are used to.

Question :To what degree does the course of events on Earth change due to our thoughts?

TAI SHIIN :If you were prepared to join your thought energies with the ENERGIES that flow through your planet Earth from the divine RADIATION of the sun, the MIGHT and the strength hidden behind the ENERGIES that are linked with the CREATOR, would become apparent. Solar energy represents a *reduced* form of divine ENERGIES.

Question :In which time segment do we find ourselves at this moment in time?

TAI SHIIN :If I may say so, you find yourselves at its beginning and you have the chance and the opportunity to conquer DARKNESS *if you want to do so*. When human souls stand up and declare their preparedness to fight against evil and decide to stand at the side of *the positive* and *their life* with its vitality and for the things this planet is faced with, they will then *not be alone* and this is a *great opportunity!*

Participant :Time has progressed. Unfortunately we must bring this meeting to a close. We thank you for your words and we are looking forward to our next evening with you.

TAI SHIIN :I bring my expositions to an end and I hand over to EUPHENIUS who would like to communicate something to you. GREETINGS IN THE NAME OF GOD and peace for everybody.

TAI SHIIN

EUPHENIUS:GREETINGS IN THE NAME OF GOD! This is once again EUPHENIUS reporting back to you. My TEAM and I also bid you goodbye. It is important that you are aware of your assignment and your responsibility in order to guide this circle further into the LIGHT. The next meeting will be a test, a test we are also subjected to and we look forward to it with great anticipation. We hope that you will be successful in allowing the LIGHT to shine in such a way, that it will be possible for the announced, eminent ENTITY to make its presence known here and we hope that the VIBRATIONS reach such an energetic height that the messages and answers can flow freely. Till the next meeting. Within GOD'S LOVE.

EUPHENIUS and the TEAM.

* * * * *

The 27th of January 2002

Welcoming all present and starting with the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. We salute you very cordially with an inner connectedness with your souls. Our GUESTS are present and they will be with us throughout this evening's gathering. We are curious about how tonight's meeting will progress and about what kind of information, requests and objectives will be expressed and asked of you from this eminent BEING of LIGHT. We begin with the automatic writing part. I will report back to you once again later on.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! I welcome you very cordially and I am pleased about your inner attitude, which is reflected within your auras. This helps us too, because we are a part of you and we also received *our* conceptual formulation so we can pursue a particular aim, something that we have been assigned with from a higher PLANE of EXISTENCE.

You must not liken tonight's meeting to tests you're familiar with. It is completely different. On a mundane level your mind is tested and *not* your soul. Here with us, your soul, that is to say, your *inner attitude*, which is reflected within your aura, is tested. *You therefore cannot disguise your feelings* and you don't have to learn anything by heart. We are your LEADERS and we make sure that your inner stability is *enhanced* and that this circle will be successful. This stability will then flow throughout the whole structure of this world.

Question : During our last meeting the voice on tape expressed the following within the protocol: "*Something is not quite right here. - Ask again - soon. - This was incorrect!*" - What was incorrect?

SETUN : It must say "*provides*" instead of "requires"; now the sentence is correct. Apart from that everything else is in order.

Question : Did our astronauts have contact with beings from planets of our solar system that accommodate souls?

SETUN : I can say an emphatic no here, because your space projectiles are not able to visit planets that accommodate souls you could perceive. But once the arrogance and the abhorrent attitude of your terrestrial leaders have been broken, this will change. This attitude will *have to* change. The about-turn will come *from within* and not from

external influences. - (Addressing the medium:) You should always write this relaxed my friend!

Question : Did the SANTINER have contact with terrestrial space shuttles?

SETUN : This hasn't just happened once. Contacts have taken place and this quite often along the flight paths very close to Earth. Your attempts to reach the moon were also accompanied by us a number of times, visibly accompanied and not ethereally. It is a sad fact that your leaders in politics, religion and economy are so afraid to lose their positions of power.

Question : Were you present when the first man walked on the moon?

SETUN : We escorted the Apollo 13 mission. This was a difficult enterprise for you. Such contacts have taken place during your flights to the moon and no other conclusions could really be arrived at.

Question : Are there planets within our solar system where souls reside?

SETUN : There are planets within your solar system that also support life. You will be able to verify the existence of some of this life. Apart from that, there are abandoned space stations from another race from the depths of space who visited the Earth well before its present earthly cultures.

- *There was once a spiritually more advanced race of human beings on this Earth. When the time was ripe, this race moved on to different tenements within the LORD'S universe when it was assigned a different task. This is why this knowledge is interesting, but it does not advance your progress.*

Question : Were there giants and Cyclopes on this Earth in the past?

SETUN : Not every myth and not every fairytale is true. I would like to express it like this: No human spirit can come up with something that doesn't exist in a similar form somewhere else. It is often a case of reflections from the soul's enormous subconscious reservoir. A certain amount of embellishment and embroidery of the actual events is also a part of this. This characteristic is typical for your race on Earth. It is unfortunate that you always have to add something or leave something out and this brings about all these completely unnecessary corruptions of the TRUTH. This is foolish behaviourism on your part. Every human being ought to test themselves and never add or omit anything they have not been authorised to add or to omit. I would like to say goodbye now. GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

SETUN

(The pen was once again put to paper for the SPIRIT TEACHER LUKAS)

LUKAS :No, I don't want to write right now, because I don't want our eminent GUEST to wait any longer. Please understand. With LOVE,

LUKAS

The *oral* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking.

Before our GUEST will speak through our medium I would like to ask you to air this assembly room and to carry out a short meditation so that the opportunity presents itself for this ENTITY to assimilate with this medium's and with your VIBRATIONS.

(Short interval)

Participant :GREETINGS IN THE NAME OF GOD, SETHAN! A hearty welcome to our circle. We hope that with the help of our FRIENDS, we were able to effect the necessary BASIC VIBRATIONS for you.

SETHAN :GREETINGS IN THE NAME OF GOD to you, GOD'S children. This is SETHAN speaking. Some of your soul-brothers know me from the Berlin circle's work I was allowed to participate in with other BEINGS of LIGHT. The lights of your souls are rising and they are searching for the true meaning of you EXISTENCE. Your human mind often blocks the advancement of your souls. You know the LAWS and you know where you must apply yourself in regards to your humanity. Do not forget that everything and anything you do here on planet Earth creates an echo somewhere else.

I am a MESSENGER of LIGHT and I am supposed to work with you and with your ANGELIC BEINGS and to accompany you along the next stretch of the way in the name of GOD. All of us are here to make you appreciate the true existence of another WORLD, the existence of the true, divine WORLD in fact. All of us must try to prepare the way for all the souls who are willing to go the same way. I will lend my support now and then in order to broaden the work you accomplish here with this information. It is my assignment to strengthen this circle and to enhance the quality of the transmissions. This entails that everyone here is willing to fulfil their assignment also. I will discuss this in more detail later. But to begin with ask a few questions you find pertinent in regards to allowing the co-operation between me and your TEAM to be successful.

Comment :We are not familiar with a MESSENGER of LIGHT called SETHAN.

SETHAN :I was a TEAM MEMBER of the group in Berlin (Medialer Friedenskreis, Berlin) that mainly cooperated with that circle at that time. A formation of these MESSENGERS of

LIGHT, they have now progressed, is spread all over this planet in order to perform their work with individual circles. There are a lot of NAMES of ENTITIES of LIGHT that *were not mentioned* in Berlin and their activity was not publicised, because they performed their work *in an advisory capacity*. The same applies to your TEAM, there are ENTITIES present here that have not made an appearance either in name, orally or through writing so far.

Question : You were saying that every one of us must be willing to fulfil their assignments. What did you mean by that?

SETHAN : To begin with, one of the assignments, and this is from a divine POINT of VIEW, is that you recognise that your souls have progressed and matured to point where they can perform positive and divine WORK here. You are at the beginning of a new journey and you already have a long journey behind you, a journey that led you through different planes and along different paths. You had different experiences along these different paths and they helped you make the existence of invisible ENTITIES consciously *comprehensible* for every one of you.

You no longer question the existence of spirit ENTITIES and the existence of a spiritual realm. Your own, personal journey helped you *sense* and *feel* the existence of DIVINITY. What is still obstructive is your humanness, that is to say, your mind, because you have not yet *externally* put the DIVINE into practise.

- *You still condemn and evaluate. You criticise others instead of concentrating on yourself. These are the hindrances that block your progress and your development.*

I represent a BRIDGE between the spiritual realm and your earthly existence and I would like to try to advance your own progress so you can do justice to your assignments here. It is important to recognise that every individual has his or her own shortcomings and that you are human beings after all. Your thoughts are not always of a divine nature.

- *Test your own thought processes! They block your psychic abilities.*

Mankind on this Earth would be considerably further advanced if it would not allow itself to be so distracted by their *external world* instead of listening to what its inner VOICES have to say. Why is this so? It has something to do with the fact that *everything* is interconnected. If every individual *were* clear and pure of heart, wars, destruction and excessive deaths in connection with this, something that is *not pre-programmed*, would not happen. Most wars have been the result of *human* thought processes and actions.

In order to send LIGHT into these dark times, we appeal to your positive feelings and your pure thoughts. But who does this on a regular basis and with consequence? - When it comes to these realities, you are also very sloppy! You are aware that you are also subject to humanness.

It is important that you direct your thoughts towards us, towards GOD'S MESSENGERS, in order to turn negative feelings and negative thoughts away from you. This will heighten your ENERGY of VIBRATION and it makes it *easier* for us to give you pure and clear communications. It will then no longer be necessary to be around you well *before* these meetings begin in order to balance the VIBRATIONS that prevail here. Your ethereality and your sensitiveness would be heightened and our friend's ability to materialise things would become visible and bear fruit from one day to the next. We support everything you do in a divine sense and we try to amplify and support this.

Question : Is the daily meditation the key?

SETHAN : No, that would be too simple. It begins by directing your first thought in the morning at DIVINITY and asking for PROTECTION in regards to the things that might befall you during the day. Important is that you do not lose your anchorage with your own heart, your own soul and your DIVINE SPARK. How often do you lose the centeredness of your being and how quickly are you shattered inside, when you encounter violence, fear and insecurity.

- *You will only find your own inner STRENGTH when you don't lose your faith in GOD, in yourself and all the OTHERS around you, but fortify yourself in the knowledge that you are in a position to also express DIVINITY to the outside.*

You are affected by what your history indoctrinates you with. But you are also a part of the divine ENTITY that anchors you within the spiritual WORLD. This conflict continues to cause your VIBRATIONS to dither and to cause you inner strife.

- *Begin by thinking more about the DIVINE within you and your own self-awareness so that you are in a position to awaken your own inner POWERS.*

Participant : We have discussed this once before in an earlier theme, but the fact remains that in our daily confrontations with other people, especially those that cannot help but annoy others, it is difficult to put these indoctrinations into practise.

SETHAN : You must realise that you cannot change anybody.

- *Neutralise your thoughts against the one with evil in his heart or approaches you in a disagreeable fashion. Contac the divine ENERGIES, they flow within seconds, so that you will be protected from these ENERGIES and so that you don't have to step out of your own FIELD of VIBRATIONS.*

You find yourselves in energetic SURROUNDINGS that continue to try to *re-polarise* or *extract* your divine ENERGIES. This is the reason why you suffer from illnesses, frustration and listlessness and this is where the causes of states of psychic exhaustion and pathological episodes are to be found.

Question : Can you give us an example of how to neutralise one's thoughts?

SETHAN : If a colleague at work tries to negatively influence you by *talking about others in a negative way*, do not confront him with the *positive* characteristics this other person possesses and externalises, but begin by neutralising the words directed at you through a counter-thought by saying that your colleagues perceptions and formulations are *his* and this on behalf of *his own self*. There is no use in adopting the position of the one being foul-mouthed. Accept the words, but do not absorb them as a STREAM of ENERGY within you. By *neutralising* his words, you supply this human being with ENERGY of LIGHT, whereby this ENERGY of LIGHT endeavours to *dissolve the* dark ENERGIES.

- *Through your neutral thought process you supply this person with new ENERGIES and with the help of the inspirational influence of the ENTITIES around him, this gives him the opportunity to adopt a different thought structure.*

Question : There are supposed to be spiritual teachers in India that demonstrate these kinds of things to their pupils. People from the western hemisphere go there, live with these teachers for a while and observe how they master earthly problems. Encouraged by these practical demonstrations, they then try to apply what they have learned to their own situation. Do you regard this as something practical?

SETHAN : This is one way to gain an insight into what being a human being and what divine ENERGY is all about. It represents an emergence from your FIELD of ENERGY to enter a completely different ENERGY of VIBRATION. These souls are unfortunately emotionally shattered when they re-enter your western ENERGY of VIBRATION. The PROTECTION they enjoyed on site is no longer available here. They are no longer surrounded by people who interact with them with LOVE, kindness and divine humility. They are again confronted by their everyday existence and all its associated worries. They can maintain their PROTECTION for a short time only and they then lose contact to the VIBRATIONS they received through these people. Their inner structure is usually not as stable that they are able to capture what they would like to capture.

Question : I was going to formulate a question in regards to alleged extraterrestrial contacts in Switzerland last time. As I began to write down the question I already had a feeling that I should completely discard this question. You said before that one should not evaluate things. Is not asking such questions a part of it?

SETHAN : This is the first step in the right direction, namely that your thought process is directed along different lines. Because you would give this group the commission to find out, whether work in this regards is carried out somewhere else. It is not your assignment, but it is up to others to assess and to promote this. Bear this in mind and you will find that many of your questions become superfluous.

- Comment : It is everyone own responsibility to do their own work!
- SETHAN : That's the way it is. We will always endeavour - within the opportunities given to us here and especially what the medium is able to provide us with - to answer your questions with dignity, uncorrupted and in a divine SENSE.
- Question : Could you recapitulate once again at the end of this meeting how we can create, strengthen and stabilise a solid working basis for you?
- SETHAN : I would consider it a good basis if you were to try to keep your thoughts pure and free from any negativity at least during the day of the meeting. This would bring about a *heightening* of VIBRATION around here and this would give my presence here a better start. The only reason why it was possible today is the fact that many eminent ENTITIES are here in order to guarantee an energetic balance. It is my goal to make you able to receive me here *without* such external efforts.

We begin the day of *this* meeting with you trying to control your thoughts and to make them reviewable. I know that this is difficult, because you are human beings who like to complicate things through your thought processes without others realising what is taking place. It is the so-called "silent majority" that possesses great powers here on your planet Earth, especially in regards to the *destruction* of things. We are dealing with SOURCES of LIGHT here that are invisible and imperceptible.

- *I wish that you are successful in controlling your thoughts more intensely during the days of our meetings and to direct them into a positive direction. This would suffice and it would give me the opportunity to reach you through this medium.*

My next appearance in this circle will be announced by EUPHENIUS. We will now close this meeting and I hand you over to EUPHENIUS. - Until the next time. In divine togetherness.

SETHAN

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. We hope that we are successful in creating a LEVEL of LUMINOSITY that will make it possible for us to welcome this eminent ENTITY to this group more often. We know that your thoughts are independent organisms and they are difficult to tame. The challenge we are trying to master with you is a difficult one. We close this meeting in the spirit of divine love and with an inner connectedness and we salute you from a different, distant LAND, one that is connected with you through a ribbon of thought.

EUPHENIUS and the TEAM.

* * * * *

The 10th of February 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. We welcome all of you to this meeting very cordially. We are here in the NAME of GOD in order to carry out this meeting with you. Be aware that it will take some time before this eminent BEING announces its presence here again. We point this out in order to give you the opportunity to adequately prepare yourselves for the next meeting. We will give you an appointed time at the end of this meeting. We will now begin with the written part. I will report back to you later.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! I would also like to announce myself here and to wish you an educational evening. We know that a multitude of questions are once again on the agenda and we want to deal with them now. SETUN is not present. But we expect his arrival during this meeting. I will temporarily take over this part of the proceedings and if necessary, contact SETUN via a thought-bridge.

Question : When it comes to Egyptian gods, are we dealing with myths, human beings or extraterrestrial beings?

LUKAS : Yes and no! Some were human beings, that is to say, born on Earth, but there were also more eminent BEINGS of *non-terrestrial origin* visiting the Earth at that time. Some of these BEINGS lived amongst the Egyptians for a long time and they helped the Egyptians to appreciate the laws of nature by explaining them in great detail. It was *a time of knowledge exchange and this is something that has happened before with societies that existed here on Earth well before the Egyptians.*

Question : Were the pyramids build by extraterrestrials?

LUKAS : No, not by extraterrestrials, but *with extraterrestrial help*. There are laws of nature that make it possible to lift these heavy blocks of stone. They experimented with various sound sequences in those days that allowed the abrogation of gravity to a certain degree. The knowledge about this was given to the priests and they employed this knowledge. Aside from that, there was also the opportunity for spaceships to pass over these stones and that changed the composition of the rock and they became lighter. The radiation from the spaceship had an influence and the stones became lighter. The characteristics of these stones changed over centuries and they are now back to their normal weight. But there is the opportunity to detect residual, magnetic radiation within the stones with today's sensitive measuring instruments.

Comment :In the old days, fishermen sang a specific mantra to make it easier for them to haul in their heavy nets.

(T. B: Correct.)

LUKAS :That's right. This is a relic from those days, one might say a remnant, but it cannot be compared with the knowledge of the past. Extraterrestrial technology and intimate knowledge of the laws of nature allowed the construction of pyramids all over the world. Some of them, especially the smaller ones, were constructed according to earthly yardsticks, that is to say, with muscular strength and willpower. The pyramids of Giza, like the great pyramid of Khufu (Greek: Cheops) and some of the others are exceptions and they were build during the period in history I am reporting about.

Question :Are the SANTINER the only entities that received the ASSIGNMENT from GOD to accompany and protect us here on Earth?

(T. B: No.)

LUKAS :Yes, this is correct. There are other viable planets out there in the universe that exhibit a similar development to yours, but a low level of metal development such as yours is nowhere else to be found. These other planets, situated in distant solar systems, are not supervised by the SANTINER. Other, more eminent ENTITIES have the assignment to do so. The SANTINER are responsible for this earth and it will take a long time before all of mankind will have made the next evolutionary step, that is to say: *Acknowledge the CREATOR, understand reincarnation and know about life after death.* But hard times are ahead and they represent a difficult learning process. Difficult in as much as *a lot of suffering you impose upon yourself is unnecessary*, because GOD, the LORD is not in favour of it. But all is well, because in the final analyses, the Earth is a planet of redemption and a school for difficult to control children.

Question :If we would rediscover this sound sequence you were talking about, would we be in a position to change matter?

LUKAS :We are dealing with a combination of VIBRATIONS that offer the opportunity of bringing about a certain, *momentary* ethereality. But this is only a momentary phenomenon and only lasts for as long as the sound sequence rings. Physical matter is not changed in any way and it still possesses its solid characteristics after. It is magic, even though this word is not the right one, because it doesn't ring true here on Earth. But unfortunately you have no other vocabulary to describe this.

Question :What role does the moon play in regards to our Earth, respectively for all our lives?

LUKAS :Well, theoretically speaking, the Earth could exist without the moon and life on Earth would still be possible. The effect the moon has on your oceans is well documented. There are naturally other connections too, for instance in regards to astrology. But this connection is not imperatively necessary and this means that an inhabited planet does not necessarily have to have a moon.

Question : Does duality only reign on our planet?

LUKAS : No, duality is a natural law. The duality of the soul, that is to say, its male and female aspect, is also represented on other planets. Let's take a look at the SANTINER, they have already experienced what is still in front of you. They were able to bond with their respective soul mates to such a degree, that both their respective male and female characteristic could be effective within one incarnation. There is also the possibility that one partner intensively cooperates from the spiritual world or that both partners live a conjoint existence within a physical, ethereal environment. But man on Earth prefers separation and that is your problem! *You separate* - not GOD! You separate the ORIGINAL! Think about this for a while! Every one of you in this world practises this on a smaller or larger scale. I would like to stop now. I am pleased about being able to write here and I am looking forward to the next time. GREETINGS IN THE NAME OF GOD!

LUKAS.

(The oral part of the meeting dealt with another theme and it will be published later.)

The 17th of February 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. I am grateful for being able to greet you and thank you on behalf of the TEAMS and souls who offer their PROTECTION this evening. We are here today to continue with our old theme and to encourage and to express our thanks to the human souls who support your work outside of this circle. Many people's thoughts are with you with joy and expectation in order to support this work you do here. We begin with writing. I will get back to you later.

The automatic writing part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD, dear friends! I and my TEAM welcome you very cordially. We are pleased to once again work with you and to bring insights from ANOTHER WORLD to you, to this Earth and its inhabitants. Please ask you questions.

Participant : We asked you the last time whether the SANTINER were the only ones who received the assignment from GOD to accompany us and to protect us? Your answer was "yes". The voice on tape said "no".

LUKAS : This question was *not completely* answered. We could have corrected this straight away, but it would have looked as if the medium was correcting itself. It was better to receive a tip-off via the voice on tape, because the objection would not have been an easy one. -

The fact remains that you always equate the SANTINER with the people living on Metharia. This is only partially correct. They belong to them, but they are *not alone*. The people on Metharia call themselves something else. But this is of no importance. Altogether there are a number of what you call “civilisations”, participating in the redemption and indoctrination of Earth. These peoples or races do not enjoy the same spiritual and technological development, even though they’re ahead of your development by many thousands of years.

The people on Metharia have reached a spiritual and technological level one could deem the ULTIMATE GOAL on a physical level. The answer should have been that the people of PLANET METHARIA *participate*, but *many other races do so also*. All told, there are about 20 different peoples from different star systems co-operating with the Earth’s plan by providing protection and by visiting your Earth every now and then.

Question : You mentioned different races. There are also different races here on Earth. Could there be an underlying agenda, namely for us to learn tolerance in order to peacefully welcome alien peoples from the stars?

LUKAS : Yes, that is right. Why should extraterrestrial officials visit you when you cannot deal with your own, *terrestrial* races and you continue to persecute and annihilate one another? In your opinion, what would the reception committee that would welcome these extraterrestrial BROTHERS from the STARS look like? I don’t think that I have to name your services and your authorities. - Yes my dear friends, you have described it to a tee. That’s the way it is. You have *to sort out your own problems* by accepting the differences within your own ranks, before you will be contacted by people that might have a bluish skin and white hair, something the radiation from their sun might have caused, or by people with large heads, huge eyes and completely differently coloured eyes. I don’t even want to mention the multitude of other life forms of a *non-human* nature. There is still a lot for you to do and to learn.

But if an event should take place whereby the viability of planet Earth is endangered, *interference would occur* and you would then be confronted by a variety of beings you just couldn’t imagine. But this doesn’t mean, and it never will mean, that this interference would be of a warlike nature, something that is presupposed all the time. All of this will take place within the desires of our LORD, who is also your LORD - the LORD over life and death.

Comment : This answers the often asked question of *why* the SANTINER do *not officially* land and are not seen more often. At this point in time most people on Earth cannot deal with these differences.

(T. B: This is correct.)

LUKAS : Yes, that's how it is. Spaceships are seen, but *not by everybody* and also not at the same time. You can assume that those that have seen these ships, even one ship or even had personal contact with them, have become different people, different in their attitude towards their own self and to life altogether.

Question : One report states that NASA scientists assume that the core of the moon could be filled with an elastic, mud-like liquid. This assumption is based on examinations of the moon with lasers. Are these scientists correct?

LUKAS : The moon has indeed a different structure than the Earth. The surface of the moon rebounds profoundly when it is struck by large objects from space, comparable to the covering pulled tight over a drum. Most of the moon is a hollow world, containing inner structures of bases that have been abandoned in any case. These bases under the moon's surface will undoubtedly be discovered one day.

(Change of typeface.)

SETUN : These were our bases and they have been abandoned long ago. - I salute you very cordially. This is SETUN writing. I remain in the background, because LUKAS is considerable better, that is to say, writes faster than I do. But I'm happy to participate if you so desire.

LUKAS : Well then! It does work, doesn't it? - My medium assumed that SETUN wasn't here at all. We had to convince him that this wasn't 'so. Please ask your next and last question, because we would like to change to a different medium.

Question : Does our spiritual maturity run *parallel* to our technological maturity and do we have to show a certain ante-achievement before the correspondent inspirations from you side are forthcoming?

(T. B: Naturally!)

LUKAS : You receive inspirations when important tests are on the agenda. The results of these tests represents your - as you say - "ante-achievement" for *further* inspirations. Human beings can promise a lot, but when the time comes to deliver, they often chicken out. This is why their *true* character has to be evaluated by the divine *SIDE*. This means that you will be confronted by situations where you must reveal your *real* inner attitude. Your reaction cannot be foreseen, because you, as human beings, have been endowed with *free* will. Looking at it from this angle, it is always very engrossing for the spiritual realm to experience just how your development has progressed. You are presently faced with a difficult test and it will continue well after your calendar count, for years to come. Only then will it become apparent whether you are ready and in a position to undertake the next evolutionary step. It has been a pleasure for me to be allowed to write here and a bid you a fond farewell.

GREETINGS IN THE NAME OF GOD!

LUKAS.

The *oral* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. I salute you and I am ready for the spoken part. Please ask your questions.

Question : Around the middle of May 2003, an alien planet is supposed to enter our solar system and have a devastation effect on our Earth. This heavenly body, about four times the size of the Earth is supposed to have been observed by astronomers. What information can you give us in regards to this?

EUPHENIUS: We can negate this prediction that was made here, it will *not take place*. To begin with it is important to know that your Earth will *not* be destroyed by other planets or by external, hostile attacks. *If* a complete annihilation would take place it would only be through your behaviourism! This alien planet will not continue along its present path but will be redirected so that it will not touch your planet. It would be absurd if this wasn't so, because the divine PLAN for this planet Earth is completely different and it will not be fulfilled through an external destructive event. Destruction will only take place here on your Earth and it *doesn't* come from outside! All the messages you receive from us and from the SANTINER will not contain any information or indications in any form or shape that suggest that your home planet, the Earth, will be destroyed from without.

Objection : The Earth itself would not necessarily have to be destroyed, but the impact of a large mass from space could obliterate all life on Earth.

EUPHENIUS: What sense would it make to extricate you *prematurely* from your physical bodies in order to pull your souls across into the spiritual realm, if you have not fulfilled your ASSIGNMENT here on Earth? It would be a repeat of something that has happened *once before* on this planet and it would not change anything within your process of maturation.

(T. B: That is right.)

Question : Would you warn us if a global environmental catastrophe or another major event were imminent?

SETUN : LUKAS told you that if you were unable to complete this evolutionary step, we would be standing by and we would become visibly engaged on Earth in order to accommodate you, as human souls, and to guide you across from this planet to another

planetary world. But we will only become active, if desperate times demand it and when you are unable to fulfil the things that are expected of you.

Question : A different question: Why did all the physical particles and anti-particles not obliterate one another within the first seconds of the big bang and why didn't everything just turn into radiation? If anti-particles represent the identical counterpart to physical particles, they would have to have obliterated one another during the big bang. The universe would then have been filled with nothing but radiation and galaxies, small planets and therefore people would not exist.

EUPHENIUS: What would have been the logic of having the elemental particles neutralise one another? The reason for this birth was that planets would develop in order to accommodate, protect and provide a viable basis for souls. A neutralisation would have opposed this in a way as if this birth was like a loop that constantly repeated itself. Evolution would run on idle and life and advancement would not be possible. It would be akin to a hamster running inside an exercise wheel, never reaching an end.

- *The aim is to return to the divine LIGHT, to the ENERGY FIELD, in order to amalgamate with what you call the "ORIGINAL SOURCE". But this objective can only be attained through individual levels of development, through spiritual maturity and its physical continuation on various planets.*

The big bang released elements that effect a screen between matter and anti-matter. All major creations arose within what you call "seconds", something *we cannot* call "seconds". The HISTORY of CREATION, with everything that goes with it like duality, free will and the CREATION that contains life and VITALITY, is mirrored in this. These ENERGIES are there and they still flow to this day.

Question : Professional circles listen attentively when, for the first time, researchers at the Geneva based organisation called CERN² were successful in producing anti-hydrogen. Will one find the answer to all the major questions in regards to mankind with the help of high-energy particle accelerators and will this bring new insights into the HISTORY of CREATION?

EUPHENIUS: These scientific researches are particularly important because they direct their insights in the right direction and they open a door that allows the sciences to catch a glimpse of what *true* CREATION and *true* SCIENCE is all about. Scientific experiments made you aware of the fact that you emerged from water, that a large part of you is made up of water and that life, the real original history of your existence developed from it. If you had looked into the true background of water and if you had utilised water as an elixir of life and a source of knowledge, you would be many steps further ahead in your progress. But the opposite is the case! You squander and abuse this source of life and

² **CERN** [fr. sem] Short for *Conseil Européenne pour la Recherche Nucléaire*. As from 1954 called Organisation Européenne pour la Recherche Nucléaire, (European Organisation for Nuclear Research), an organisation founded in 1952 for nuclear research with its seat in Geneva and its Research Centre in Meyrin, near Geneva. Its aim: Cooperation in the fields of nuclear physics, high-energy physics and elementary particle physics.

you are not aware of the ENERGIES for GROWTH and SUBSTANCES, which maintain the actual viability of your existence, that exist within the element of water.

Comment : Probably because they are impossible to measure.

EUPHENIUS: You are presently unable to measure this, but you are quite aware that you cannot exist without water, that your whole environment would simply die off and wither away if the element of water was no longer present. There is a reason for everything, but nobody asks for the reasons. You contaminate and exploit water and you do not realise that by doing so, you *cut yourself off* from your own ENERGY and your life sources, the things you desperately need to exist at all.

Question : The first, direct analyses of dust particles from the far reaches of space astonished the researchers to begin with: According to the first data available, the majority of these interstellar particles consist of giant molecules. Mixed with liquid water, they can initiate the same chemical process that presented the prerequisite for the formation of life on a much younger Earth. Where such organic, giant molecules the triggers for life on Earth also?

EUPHENIUS: This is the source of your physical existence. Over thousand of years, your physical body has emerged from these elements and you have configured your own development on hand of these insights. You represent a part of the whole! Reassure yourselves that all of you are linked and connected to one another, with the smallest of dust particles, with flowers, with water and with the air. You form a part of the whole with all of these, because you developed from all of this and your bodies still develop from this even now.

Objection : But it was once said that higher life forms were *materialised*.

EUPHENIUS: The first human beings certainly. Their shape, their stature, had to be created first. GOD *didn't* create it from clay, but they were built from individual molecule particles. Everything runs according to a DEVELOPMENTAL PLAN, similar to the way you build a house or the way you try to appear and assess yourselves. You are the expression of individual organs that were assembled by a HIGHER AUTHORITY.

Question : A few years ago, so-called “black holes” were still pure speculation, but their existence has been indirectly verified in the mean time. What can you tell us about these monsters of gravitation, what is their function?

EUPHENIUS: These so-called “black holes” are portals to other galactic spheres. They represent windows that serve the purpose of allowing energetic STREAMS to flow through, to this planetary region also. We are dealing with VIBRATIONS that are expanding in order to preserve the overall structure of your planet. This applies to your whole galaxy. These are energetic FIELDS of VIBRATIONS that serve the purpose of supplying these regions here with ENERGIES and to provide contact with other galaxies.

Question : Can “black holes” represent a danger to planet Earth?

EUPHENIUS: “Black holes” - as you call them - are portals, portals of elements that are not here to destroy, but to *promote development*. We are dealing with “wheels of existence” that... - we lack the appropriate words, because terms like “VIBRATIONS” and “ENERGY” are inadequate when it come to describing the powerful mass that is active there. They are transformers and they penetrate this galaxy and the next. They are portals and they establish the connection between the various life forms of these galaxies. They are custodians of energy and they serve the purpose of connecting your galaxy with VIBRATIONS - like poles.

Question : One theory maintains that there are as many universes as there are forms of existences at the disposal of sub-atomic particles. In quantum physics, these particles have countless opportunities at any time. Are there really that many universes?

EUPHENIUS: The things that are still unreachable, boundlessly open and permeated by strong ENERGIES can hardly be formulated in numbers with your powers of imagination. It is an enormous domain and it pulsates and it continues to expand. It cannot be expressed in individual mathematical formulas.

Question : How can human beings ever comprehend this?

EUPHENIUS: It is a question of whether it is *on the agenda at this point in time* to comprehend this, because it takes a lot of imagination to do so. You do not have this kind of imagination yet.

Question : Circles of experts discuss so-called “wormholes” within the space-time-continuum. What are we to make of them?

EUPHENIUS: They represent connecting channels between various galaxies and life forms. They are - you would say tunnels - we call them “leaps” between individual energies of development.

Comment : One assumes that a traveller that enters such a “wormhole” would appear in a different time and in another universe at the other end.

EUPHENIUS: We negate this, because the developments that are on the agenda so far are marked by a different epoch and through a different development. We are dealing with imaginations here that are disseminated by you through films in the form of fairytales. There are galaxies where life forms exist that go about their business billions of units of distance away. We are dealing with inconceivable nexuses and developments and they are unreachable for you. You would not emerge in another time, but certainly in another universe. But you would be unable to carry this out, because you are not in a position to execute this mentally, psychically and physically. They presently represent only mental pictures, wishes, mental dreams and they do not conform to your reality.

Objection :It was mentioned during one of our meetings that nobody can invent something that doesn't already exist somewhere in the universe.

EUPHENIUS:*It does exist.* - But your human soul, your human body and your technology cannot accomplish this.

Participant :This is a lot easier for spirit beings. They don't need technology.

EUPHENIUS:Because we have conquered matter; with the help of the *power of thought* and through energetic combinations, it is easy for us to move through space without time.

Participants :During the last month we had over 2,000 protocols downloaded from our website. I do believe that this is a very pleasing number.

EUPHENIUS:There could be no better way to assess your work and the reason for this activity. It shows that the working papers we collate here form an important foundation for those looking for a different thought and religious structure. It proves that what we do here does *not* remain *unimportant* and *not without results* and answers. It also shows that the time we spend here is important and beneficial, not just for you, but for others also.

We bid you goodbye now and we hope that over the next phase - because it will be an extended interval - you will be successful in facing all the things you will be confronted with, with an inner peace, with harmony and humility and that you recognise that everything that affects you and everything you're faced with has solely to do with you. We will have a GUEST present at our next meeting, someone who has announced that he will be here and he will take control over the spoken part. We hope that it will be possible for you to receive information that will help you enlighten the direction of your assignment within this circle. We now bring this meeting to a close and we hope that you do not lose your FAITH in GOD and *in yourselves*, but that it will solidify and amplify. With LOVE and divine CONNECTIVITY,

EUPHENIUS and the TEAM.

* * * * *

The 17th of March 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS:GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

We welcome you very cordially to this meeting after your holidays, which has been an excellent time for recuperation and to revitalise and to enhance your energies. We hope that our GUEST will arrive in time for the verbal part. He will then announce his

presence through the medium. We hope that you will perform a short meditation after the written part of this meeting so that the ENERGY within this room can be re-established and concentrated. We will now begin with the written part.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

(During the next few minutes only loops appeared on the paper... Contact was then lost.)

LUKAS :GREETINGS IN THE NAME OF GOD! This is LUKAS writing. I am happy to be able to welcome you once again to our conjoint meeting. FINE-TUNING our connection with you here is like switching on a radio on Earth and turning the dial until you hear the selected station clearly. This is roughly what takes place when WE TUNE INTO a terrestrial receiver. But this procedure is in reality *far more complicated* and indescribable with your vocabulary. There will be no need for words at all once you're on our side of life, because all of this has been stored within your consciousness from the beginning of your existence. We would now like to continue with our theme.

Question :Are there planets within our solar system where we could physically exist?

LUKAS :The survival of your physical body could not be guaranteed without the help of technical aids. The atmospheres are too varied, sometimes not present at all or too thin for your lungs. The composition of the various gases is also too varied. As I said, not without technical aids. Impossible with your dense "mantel".

(T. B: We don't need one!)

Question :Will the sciences fulfil their divine ASSIGNMENT one day?

LUKAS :What divine assignment are you talking about? These people virtually never fulfil their allocated LIFE'S WORK. And if they do, they are caught between their university acquired knowledge and their religion, respectively their soul's inner voice telling them that there is more to it, but this "more" doesn't fit within their formulas. As there is no divine SCIENCE here on Earth, there is therefore no divine ASSIGNMENT. This might change one of these days. The rethinking process has already started.

Question :Do our scientists not realise that they are led and guided?

LUKAS :Some do realise this, but not all of them by a long shot. The ones that dare to state their assumptions and theories in public are few. The collapse of a house always begins with a trickle of plaster, this is followed by cracks until - quite suddenly - the collapse takes place. The structure that represents the established sciences is in danger of collapsing and the same applies to the structure of the Church. All of this does *not only* have positive effects! Consider the fact that there are people that only and exclusively hold

fast to Church proclaimed beliefs, respectively to the doctrines of orthodox science. They have nothing else and they know nothing else. If one takes that away from them, they lose their bearing and that in turn can lead to mental breakdowns with devastating consequences. These people unfortunately do not have the courage to deal with the true LAWS and REALITIES. Please remember this.

Question : Ought one to begin little by little? It is obvious that a lot still depends on the heart, the inner attitude, the spirit, meditation or other measures in order to facilitate an educational CONTACT with the spiritual realm.

LUKAS : Not little by little, one cannot put it like that. Every human being ought to actually *begin* to do so. Everyone in his or her own time and they ought to begin with the things that are closest to their heart and the things that interest them the most. It doesn't always have to be circle work, certainly not. Only those that look for evidence, especially as an active medium, cannot usually avoid circle work. Strictly speaking, the various ways are manifold, well, nearly infinite. *Everybody gets a chance* they can take advantage of - or maybe not. But later on, after their demise, nobody can say that they were not aware of any of this.

Question : What can you tell us about the existence of the anti-world?

LUKAS : Well, we have discussed this already in the past. The world of anti-matter is its own individual sphere, consisting of many, agglomerated universes, the same way your world exists, the difference being the anti-polarity of its make-up. Matter and anti-matter repel one another and apart from that, anti-matter is invisible to your eyes. One was able to verify the existence of anti-matter here on Earth and to measure its enormous energy potential. When this anti-matter interacted with your physical matter, both of them dispersed into pure energy. People like you live in the worlds of anti-matter and they are also looking for the opposite polarity, in their case the world of matter. These people are looking for you the way you looking for them, but *you* are invisible to their eyes.

Question : Will an amalgamation of the two worlds take place one day?

LUKAS : No, because that would mean that everything would disperse into pure energy. It would be as if you would return to the original big bang. The universes, respectively both major creations repel one another they way two identical polarities repel one another. If GOD were so inclined, HE could abrogate this polarity and everything would turn into radiation, spelling the end of matter and anti-matter. Things would return to the way they were before, when no physical worlds existed, just before the fall of the angels. *Not influenced* by the radiation of the disintegrating worlds in any way, your souls would move into the spiritual realm which contains all major creations and they are enveloped with GOD'S VIBRATIONS at their peripheries. - We would like to stop here, because our GUEST has arrived. We are very happy and we are pleased that it is possible for our small circles to welcome such a BEING of LIGHT. I am very pleased,

especially about the excellent writing contact. Yes, mediations bear their fruits my friend. GREETINGS IN THE NAME OF GOD!

LUKAS.

The *verbal* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

Participant : GREETINGS IN THE NAME OF GOD! A hearty welcome to the second part of this meeting. A special welcome to our GUEST. A sincere welcome to our circle! We hope that the VIBRATIONS and the PROTECTION are adequate.

SETHAN : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS, within your souls and every cell of your human existence. This is SETHAN welcoming you. I am pleased that I am a guest here this evening in order to make contact with you. The souls assembled around you, who have accompanied your circle for quite some time, have reached a point where they must decide and where your group must decide whether you are willing to participate in a *spiritual change*. This change brings with it an enormous responsibility and also a self-assessment for you, because it is in connection with a *renewed assessment* of your human qualities and human weaknesses and this is where you must *decide* whether you want to make this journey with us as a TEAM and with me as a MESSENGER of LIGHT. We offer you this chance and we are ready to make this journey with you. Your mental development certainly puts you in a position to undertake this journey and I would be pleased to proceed along this path with you. The TEAM of EUPHENIUS, and all the other ENTITIES that have accompanied you so far, will continue to remain with you as ADVISORS and as a TEAM.

- *The change from my side will take place when you have familiarised yourselves with and tested the divine LAWS your work here has revealed to you and when the time is right for our side to take your work on board.*

Please analyse whether you are prepared to carry out this step as a group. We support you and we will inspire you and help you. This inner self-examination is important and so is the insight of whether you *want to* undertake this journey. Remember that you possess your free will and that it is *up to you to decide which* direction, *which* way you want to go and at *what* speed.

Participant : May we ask a few questions in this regard?

SETHAN : I would be pleased if we could entertain a dialogue.

Question : Ever since we have been active as a working group here, we have experienced a number of changes within the spiritual GUIDANCE. To what degree does the upcoming change differ from the changes in the past?

- SETHAN : You will be confronted by a LEVEL of VIBRATION you presently cannot perceive. It would mean that you would receive transmissions of a higher purity and that the medium would have to declare a willingness to cooperate to a greater degree and more intensively.
- Question : Is “transmissions of a higher purity“ equal to accuracy of transmissions?
- SETHAN : Not accuracy, but *completeness* and *the higher knowledge* would enhance the answers. This higher knowledge would reach you along a spiritual path, because my place of contact is different from that of the SPIRIT TEACHERS who presently accompany you.
- Question : Does this exert more pressure on the medium?
- SETHAN : It would mean that this medium would have to *self-analyse* itself to a higher degree, namely the human weaknesses within its thought patterns, and that she would have to be prepared to undertake her meditation *on a regular basis* and in a *prolonged* form.
- Question : Would you present your indoctrinations in the form of a speech in future and this to a theme of your own choice?
- SETHAN : The cooperation would run in such a way that I would bring a theme to a close, that I would be present here at these meetings in an advisory capacity and that I would bring my LEVEL of ENERGY into this room. We would continue to deal with themes that are important to you and to your souls. Furthermore I will bring you additions from the spiritual realm through messages and transmissions and this will support and enrich this group.
- Question : You say that you will bring a theme to a close?
- SETHAN : It could be ending a theme, but we could also be dealing with messages that are important for this planet or additions to transmissions from your TEAM.
- Question : Would there be merit in dealing with old themes again so you can transmit subsequence additions? I imagine additions to themes we have already dealt with and that can then be posted on the internet.
- SETHAN : This would be one opportunity to bring my knowledge into this group in order to entertain a dialogue with you. If I do start working with you and if you are prepared to work with me, we will *contemplate conjointly* on how we will proceed in regards to the technical side.
- Question : How would this work proceed if we were *not* prepared to do this?

SETHAN : You would then have to decide whether you want to continue this work as per usual, that you continue to work with EUPHENIUS and the TEAM and that you take care of your assignments on *this* level.

Question : Will you mainly deal with themes you have expert knowledge of?

SETHAN : That will be *one part* of it. The next part will be organised in such a way that there will be *individual messages* and they are presently being discussed between, the SANTINER, TAI SHIIN, with ASHTAR SHERAN and also with your spiritual LEADERSHIP. Individual messages that are important for the spiritual development of everyone here on Earth.

Question : To what degree will the progression of the meetings change?

SETHAN : Things would change in as much as I would participate at these meetings and that this would enhance the energetic VIBRATIONS and furthermore, that you would have to be prepared to undertake your tasks. Tasks that imply that you make inner contact with us, as spirit beings, through meditation, through divine prayers and that you try to apply the divine LAWS and their applications *more consciously* within your everyday life. Your task will be to prepare for these meetings *more intensively* and *more consciously*.

Question : Will there be a considerable increase in regards to our PROTECTION?

SETHAN : The present level of PROTECTION is adequate, because you are embedded in the VIBRATIONS of SOUL ENTITIES who are willing to provide you with a higher level of PROTECTION, because there are so many souls from the spiritual realm participating at these meetings to learn about your assignments and the reasons of an earthly existence. Many souls are here to advance their own soul's maturity. This would *also* give your circle an *amplified* challenge.

Question : Is there a danger that the heightened level of PROTECTION also *amplifies* the POWERS of the negative SIDE, helping them to destroy this point of contact?

SETHAN : The PROTECTIVE FRAMEWORK would be guaranteed by our side, by the spiritual realm, so there would be no danger that the NEGATIVE could penetrate it.

- *If you consciously control your tasks and if you carry them out in a divine sense, we will also be able to do our work in such a way that one link will link up with the other. Things would otherwise go wrong and the connection could no longer be regarded a DIVINE one. It is a giving and a taking and cooperating with one another. If you fulfil your assignments, we fulfil ours.*

Question : Do the preparations for any future meetings with you include more meditations?

- SETHAN : This is a part of many. The most important thing is the realisation that you are prepared to carry out this meeting with an *open heart* and with an *open soul* and that you conduct it in such a way that the mediums receive the opportunity to do their work.
- Question : Would it be more appropriate to conduct a meeting every two weeks?
- SETHAN : The longer the intervals between the meetings, the more reluctant you will be *to do something in preparation* for it. An old saying states that: Something you do not want to deal with today can be left for tomorrow - and *nothing will happen*. Prepare yourselves for the predetermined meetings and you will see that you will be able to arrange them the way you plan brushing your teeth or wash your hands.
- Participant : I have been meditating for years and I still have the impression that I have hardly made any progress. It still happens that all sorts of thoughts dart through my head during meditation. For all the years I have been meditating, I really can't see any results.
- SETHAN : You are too involved in your physical world and with the things that surround you every day. It is important *that you quietly go within* and that we receive the opportunity, when your thoughts are positively aligned, to enter and to work with you on a mental level. *Your mundane thoughts must continue* otherwise you might as well lock yourself away in a monastery. This is not possible. You should therefore not concern yourselves with the fact that you cannot go within as deeply as the people from the Far East. What is important is that we receive the opportunity to reach your soul along this avenue in order to work with it.
- Participant : Especially at the beginning, when I tune in to you, I often feel a distinct uneasiness or considerable tension in my temples. When I concentrate on GOD and HIS HIERARCHY only, this feeling *is immediately there*. A clear sign that something is taking place.
- SETHAN : Everyone senses something individually and this makes them realise that spirit ENTITIES are with them. Everyone experiences *different IMPULSES* and they are there to make you realise that ENTITIES, ANGELS are around you, there to accompany you, to encourage you and to work with you in these times.
- Question : What do you suggest, what will help us decide?
- SETHAN : To begin with - and this individually - you should test your inner preparedness to take this step. Meaning that in order for you to do this work, I expect you to prepare for this meeting here in a positive and intensive way and with a joyful heart. If this is the case, if this is confirmed, my work with you will begin *after the summer holidays*.
- Participant : We thank you very affectionately for coming here and for your words.
- SETHAN : The divinity within you will give you advice and it will reveal the opportunities that are in store for you. We are in agreement with *every answer* you will be giving us. Do not

concern yourselves with this; you only put pressure on yourselves. Every answer will be accepted and not appraised. The only thing that is of importance here is the cognisance in which direction you want to go in order to accomplish sound and divine work here. -

I bring this meeting to a close in the NAME of GOD and in the NAME of LOVE around you and with the knowledge that you are a mirror of every individual here and that you are endowed with abilities that open up the opportunity for you to look into other, *invisible* SPHERES. With this in mind and a joyful heart I bring this meeting to a close and I hope that next week will be a successful one for you.

SETHAN

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. I thank you for the opportunity to direct a few words at you as a group. We support you in regards to *every positive* direction you prefer to take. We will help you, support you and encourage you in making this decision. The TEAM is grateful for the opportunity to travel this path with you, wherever it may take you in the future. We also salute you with GOD'S LOVE in our hearts, we envelop you with LIGHT and we wish you a lot of harmony and LOVE for the next week.

EUPHENIUS

* * * * *

The 24th of March 2002

Welcoming all present and the start of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! This is EUPHENIUS speaking. We also welcome you very cordially to this meeting and we are looking forward to your questions with anticipation and what realities this theme imparts on you in order to give you and other souls an insight into a completely different PLANE. We begin with the written part. I will report back for the verbal part later.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. It seems difficult to ADAPT today. It is not down to the medium. There are various VIBRATIONS that interfere somewhat and we have to guard against them. This is unfortunately

imperceptible for you, the only indication you have is that it takes a lot longer to make contact. Please ask your questions now.

Question : Another iceberg has separated from Antarctica, this time the size of the island of Mallorca. Will this have an effect on planet Earth?

LUKAS : Not to begin with at first, because this iceberg floats on the surface. But the question is: Why did this happen? If one answers this truthfully, the only question that remains is: What can one do? - We observe this development on the Polar Regions, because *both* poles are affected. But one still behaves as if this didn't have anything to do with mankind. This is a mistake!

Question : What does this mean?

LUKAS : It means that the Earth's climate is undergoing a change due to the way you polluted the atmosphere over the past decades and the fallout from that will give you many a headache. Only a few people on Earth have recognised the signs and they argue correctly. But their argumentations fall on deaf ears in the face of all the corruption, avarice and demand for power. As you often say, "After me the deluge". But I warn you forcefully! I do not want to alarm you, that is not my intention, but the TRUTH must be expressed! After all, we are here to help you understand.

(T. B: You have written this correctly.)

Question : What has the constellation of the planets to do with one's birth?

LUKAS : Well, the fact is that during one's appointed birthday, a certain constellation in the heavens emits RADIATION, similar to the Reiki symbols, for instance. These ENERGY FIELDS assert an influence on the small child. The constellation is certainly *not a straightjacket*. The RADIATION from the stars *makes you inclined* to behave in a certain manner, but during the span of a person's life, his or her VIBRATIONS can undoubtedly change; an Aquarius can turn into a Taurus, even though this person was born under the sign of Aquarius. It is also possible that this Aquarius will be born a Taurus next time around, if another incarnation is on the cards. This RADIATION represents a symbolic ENERGY, one that emanates from the constellation of stars at the beginning of one's birth.

Question : Does this ENERGY have a vital influence on life on this planet?

(T. B: No.)

LUKAS : As I mentioned, it is not a straightjacket, therefore *not formative*, because every human being has his or her free will and thereby the freedom to unfold and this may not be changed or assailed *in any way*. This is a divine LAW! A person can develop from a Pisces into a Sagittarius or into a Lion. School on Earth promotes all human traits, the good ones as well as the bad ones.

Question : Generally speaking, what are we to make of astrology and especially the predictions by Nostradamus?

LUKAS : Astrology no longer has the significance it once enjoyed, because many parts of astrology have become too commercialised. There are just few genuine astrologers left who work with their feelings - which is the most important part. The majority use their computers and programs now, even though the results are very imprecise. But it is the simplest way they get their hands on their customer's money. I certainly don't want to doubt all of astrology, but one ought to differentiate very accurately.

Question : How are we to assess health horoscopes generated by a computer program?

LUKAS : Some of these programs certainly produce results one can utilise. But the results are incomplete, because spiritual elements, mental components and *the flair* of a good astrological medium is lacking. This is to be regarded as the criteria.

Medium : If a possible change in regards to the CIRCLE'S SUPERVISION is on the cards after the summer holidays, will I continue to work with EUPHENIUS or exclusively with SETHAN? I didn't quite understand this the last time.

(T. B: Yes, you had to ask this. You take this serious.)

LUKAS : Before we can answer this we have to know whether the group stands as one behind the announced changes, otherwise any questions in regards to this are irrelevant. I would like to answer you in spite of that, because you deserve an answer:

- *Should all of you accept our proposal, you will work with both TEACHERS. SETHAN will decide when and in what form he will intervene, respectively give his commentary. The VIBRATIONS of the whole group will intensify, SETHAN might take control of the running of the TEAM later on, similar to what ARON did in the past, and EUPHENIUS might remain in the background.*

I would like you bid you goodbye and thank you for your questions. There are probably many more questions to this theme that have not yet been discussed. But with SETHAN'S advanced knowledge, these questions will be answered in a more detailed and interesting fashion. I wish you a harmonious progress of this meeting. GREETINGS IN THE NAME OF GOD!

LUKAS.

The *verbal* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. We welcome you very cordially to the second part of this meeting. Please ask your questions. We are ready to answer them.

Question : Is someone from the SANTINER present?

EUPHENIUS: The envoy SETUN is present and he will give us information and addendums, which we will then give to you via this medium.

Medium : Why did SETUN not write with me?

EUPHENIUS: Because the SYNCHRONISATION of VIBRATIONS is very difficult and it is easier and more practical to act through a TEACHER you are familiar with in order to answer the questions more efficiently. It always takes SYNCHRONISATION to match the two VIBRATIONS and it takes too long to give SETUN the opportunity to become active through you as the medium. The fact is that SETUN is at our disposal in an ADVISORY CAPACITY, here to answer specific questions on behalf of the SANTINER and this for as long as we are dealing with this theme and for as long as you ask questions in regards to this complex theme. It is difficult for him to speak through this medium, because there are always interruptions, that is to say, his messages do not get through in their entirety. In order to give you an evening where you can ask your questions, it is a lot easier to work with settled habits. This will make it easier for you to ask your questions and for us to answer these questions.

Comment : This probably guarantees that more is put to paper.

EUPHENIUS: That's right. A simplification of the whole meeting's progress.

Question : What are your views in regards to the construction of the International Space Station?

EUPHENIUS: This cooperation between various countries and various sciences makes it possible to regard you as a unit and an addition within a great scientific complex. Everyone has the opportunity to have their knowledge and their abilities bear fruit in order to progress your research and your sciences. This community project shows that you are able to take a *unified* step forward instead of fighting and going to war against one another. This forward step allows you to put all your knowledge into one basket and this guarantees the best possible results in that direction.

Question : Does man really need manned space flight?

EUPHENIUS: Manned space flight is an important step in order for you to put your external perceptions into practice. As human beings, you always need components of reassurance: *What I see exists*. There is the potential opportunity of making contact and of sightings now, the way contacts with astronauts on the moon took place, but they were sworn to secrecy. This is important, because it will guide the misguided in the right direction.

EUPHENIUS: Plans exist to colonise Mars, because it is within the right distance from the sun, but one would have to warm it up and re-establish an atmosphere there. One intends to bring chlorofluorocarbon (CFC) to Mars. These greenhouse gases would warm the atmosphere of Mars to such a degree that the polar icecaps would thaw, releasing their carbon dioxide. This would further promote the warming process and the water that is presently about one meter under the surface of Mars would thaw. One could then begin to seed the planet so that over thousands of years carbon dioxide would convert into oxygen bringing with it a gradual stabilisation of conditions that support human life. How do you rate this project?

EUPHENIUS: Your biological deliberations certainly represent an important foundation in regards to such an undertaking. But a long time will pass before something like that will come to pass. But you have to take small steps to begin with. This course of action is an important step for you here on Earth in your endeavour to familiarise yourselves with and to explore the universe. These biological conversion processes are certainly possible, but they still require a lot of research before they can become a reality in the here and now.

Comment : If life on Earth should ever become non-viable and if the expected help from the SANTINER does not arrive, the only thing left to do for mankind is to put this plan into action.

EUPHENIUS: That you should continue with the destruction of your planet to a degree that condemns life on Earth to become non-viable is not something we expect at this point in time. It would mean that you stifled the divine ENERGIES on Earth and that the POWER of DARKNESS managed to unbalance the scales in its favour and gained the upper hand.

Question : The Earth is supposed to have come into being 4.5 billion years ago. In its early phase, a great number of meteorites crashed into its surface. Did these meteorites supply the modules for the synthesis of life on Earth?

EUPHENIUS: We are dealing with complimentary processes and they were necessary to allow growth and life to take place here. These were elements of cellulose, necessary to make a start here in association with divine ENERGIES. These meteorites brought all the vital substances and elements that started the evolutionary process here on Earth. You, as human beings, would not exist without these elements.

Question : There is apparently nothing easier than to transport solar energy in the shape of light to those creatures that are dependant on it. But if one thinks of alternatives, one discovers every time that they cannot function. Did the CREATOR also experience this?

EUPHENIUS: If you look at your own evolutionary history - the CREATOR had to pass through many levels in HIS own history in order to form a creation that is a human being. You also have covered a lot of ground with its associated highs and lows, with its new LEGALITIES and structures to become what you are *now*. To transform divine matter is a difficult and arduous process. You have realised that replacing sunlight also has its dangerous side, the way everything you deface with negative thoughts turns into something contrary. You are conscious of the fact that you must fulfil your life's plan and your life's journey by bringing your free will into play.

Question : Accordingly, the solar system, as we know it today, did not reach perfection in its first draft?

EUPHENIUS: The solar system within this constellation is exactly the way the CREATOR has planned and accomplished it. Only "life's evolutionary path" apparent here on Earth has brought with it many processes of change.

Question : If our solar system within a constellation exists the way the CREATOR planned it from the outset, how does the destruction of planet Mallona fit into the picture?

EUPHENIUS: This happened due to the effects of a process that allowed new planets to form and to be reconfigured. The destruction of Mallona was not within the DIVINE plan. The annihilation took place due to an inner destruction of the planet. The human race is also in the process of destroying their planets inner workings. You have already progressed some distance along this path. The inhabitants of Mallona did not have the opportunity to react and to support and advance their planet's history, with the help of the SANTINER. You have divine BEINGS at your side and this should guarantee that such destruction will not repeat itself a second time. After the destruction of Mallona, the GUARDIANSHIP became the responsibility of the SANTINER.

Question : Our sun could nourish hundreds of planets like Earth with its light and this without difficulties. Why is there only one Earth?

EUPHENIUS: The Earth was selected as *the* planet within your solar system as you know it, where *coarse material incarnations* take place and where various phases of existence are experienced. The Earth is a unique planet the way you are GOD'S unique creatures. Every individual is in fact a SEPARATE CREATION! The Earth is also a SEPARATE CREATION and not repeatable.

Question : A second inhabited planet on the same orbit around the sun would be quite conceivable?

EUPHENIUS: It is not planned to carry this out in this form and constellation. The fact is that you here on your home planet are the one's who received this Earth as an bestowal and a gift. You ought to *cherish and foster* this bestowal and not destroy it. What use is another world to you, if it is constructed along the same lines as yours? You would treat it just the same. The idea to visit another planet is the goal you have set yourselves. You have already started to distance yourselves from what is present here. Space travel is an overstepping of your own history. Whatever takes place on a small scale here on Earth would then eventuate on a grander scale somewhere else. As human beings, with your various races, skin colours and languages are not able to live in peace and harmony with one another, but you fight one another whenever you can. It would be a sin, if a second planet would be drawn into this situation. You would visit this planet with war on your mind.

Question : Do our planet's races stem from alien stars?

EUPHENIUS: We are dealing with physical differences here that are conditional to evolutionary processes and they have nothing to do with other planets and their populations. Your Earth's regions exhibit a wealth of various climatic conditions you have to adapt to. An Eskimo would find it difficult to live in Africa.

Question : Why this diversity here on Earth?

EUPHENIUS: So you learn to respect and value one another. It is *your destiny* to undertake this step and to deal with one another in a brotherly fashion and not antagonistically. This is your tutorial and what you ought to learn here, namely to live with one another in peace and harmony, without contempt in regards to skin colour, religion or language.

Question : In contrast to all the other planets of our solar system, planet Venus rotates in the *opposite* direction around its axle. Why is this so?

EUPHENIUS: The core of Venus has a different magnetic make-up, it **VIBRATES** on a different, difficult to explain **LEVEL**. It moves in the opposite direction, because it needs this rotation to maintain its biological viability. The polarisation takes place on a different **LEVEL** of **VIBRATION** and it is subject to other legalities.

Comment : One assumes that Venus was once struck by a large object and that this reversed its rotation.

EUPHENIUS: No, it is the inner core, a different plane. The biological processes also run contrary to its structure. Its fibres, components, **VIBRATIONS** and its microscopic particles are subject to a different legality. The core is a kind of „reactor“ that receives its energies from a completely different energy source.

Question : Why these differences?

EUPHENIUS: Because ethereality there is different from all the other planets of your solar system. Venus is subject to a completely different ethereality.

Question : On the 30th of June 1908, an object exploded about 6km above Siberia. The energy it released was so enormous that the shock-wave mowed down the forest for thousands of kilometres around the area. What kind of object are we dealing with?

EUPHENIUS: This object had to be destroyed by the SANTINER, because it was a flying object that was not going to visit this Earth with divine intentions.

Question : Therefore not a comet?

EUPHENIUS: It was a spaceship that was destroyed on behalf of divinity, namely by the SANTINER. This spaceship would have caused a great catastrophe here on Earth. This was the reason why the outer belt and the protective layer was augmented and expanded so that the appearance of flying objects was reduced and sightings were reduced also.

Question : Hermann Ilg states: "... you cannot imagine what it must mean to the SANTINER to have to observe how a humanity succumbed to the destructive will of an anti-spirit. Now, at the end of its reign, the redemptive balance sheet of this mankind looks so catastrophic that only a comprehensive cleansing of all vital spheres of your planet will put you in a position where you can finally reach the level of existence of your brothers and sisters from the stars enjoy. Everything that is going to take place in the near future is directed at this goal. Interference from the dark side is no longer possible." - Is this transmission still newsworthy and how are we to interpret the passage "in the near future"?

EUPHENIUS: It is difficult to measure this within time and space. What is of importance is the end result that eventuates from this, namely that many positive developments and redemptions are taking place on many levels and they re-stabilise and re-establish goodness and the LIGHT here on Earth. New opportunities, experiences and legalities will be revealed in many areas and they will indicate that you have not lost your faith in the divine and in the LIGHT.

Question : Is this transmission actually still newsworthy?

EUPHENIUS: This transmission *is newsworthy* and we stand behind it.

Question : Researchers have ascertained that the areas afflicted by catastrophic weather conditions has significantly increased during the last century - like for instance by various floods all over the world. In the USA alone, the areas affected by massive downpours have increased by 30 % during the 20th century. Where will this lead to and how high do you assess the degrees of increase over the next years?

EUPHENIUS: To answer this is difficult for us, because we find it problematical to make it clear to you what the laws of nature are presently up to. This is a special field and it is the

business of special GUIDING FORCES who endeavour to bring these natural planes once again into equilibrium. You are aware that many NATURE SPIRITS have left your planet and that only a few ever return to enrich the balance of this planet with their presence. The equilibrium, especially in regards to nature, has broken free from its anchorage. It is difficult to bring these planes back into equilibrium and into uniformity. We endeavour to support these BEINGS. - It is difficult for us to look into the future and imagine how all these natural catastrophes, which have amplified and increased over the last few years, can be moderated and how Mother Nature can be appeased and brought back into equilibrium. We support these BEINGS so that this instability can be pacified. We try to calm the Earth in its imbalance.

Question :Do the SANTINER exclusively utilise their ability to dematerialise during their interstellar travels in order to reach speeds beyond the speed of light or do they utilise so-called “black holes” during their trips through space?

SETUN :GREETINGS IN THE NAME OF GOD! This is SETUN speaking. I will try to answer this question through this medium, because it needs a qualified statement. As an envoy of the SANTINER I can tell you the following in regards to this: You know that we exist in a kind of “INTERMEDIATE REGION” where we possess physical and also ethereal abilities and opportunities. We do *not* utilise these “holes”, because we are responsible for the quadrant your Earth is in. Our obligations are with this solar system. In order to survive these “holes” that lead to other universes and solar systems without suffering any damage, we need an even higher quality of ethereality. But we entertain mental contact with entities from other star systems.

We are tied to this solar system and we have not yet left this galaxy. Our home planet and our solar system is also part of this galaxy. We therefore do not use these energetic GATES. We work with the materialisation and dematerialisation of our spaceships and we attain speeds that allow us to reach your solar system very quickly.

Question :The nearest star-sized “black hole” is supposed to be at least 15 light-years away. Some astronomers entertain the theory that “mini black holes” came into being shortly after the big bang and that they are scattered throughout our galaxy. Could a black hole threaten our Earth?

SETUN :One has to know what these “black holes” are all about to begin with. “Black holes” - as you call them - are ENERGY PORTALS and they allow you to reach the most diverse worlds and solar systems. We are dealing with energy flooded conduits and they do not represent any dangers to you, the people on Earth. We are not dealing with holes that devour or attract and make whole planets or complete solar systems *disappear*. They are in fact HOLES of VIBRATIONS and they contain pure, divine ENERGIES of VIBRATION.

Objection :I believe that I have read somewhere that it has been verified that whole star systems have disappeared within these “black holes”.

SETUN : Our side has to deny this.

Question : This meeting has unfortunately come to an end. We thank you for your answers.

EUPHENIUS: The next meeting ought to be utilised to deal with *personal questions* that bother you, the *change* of LEADERSHIP of this circle and *supplementary questions* to this theme. We are open minded in regards to any question you care to ask and you will not be directly bound to this theme. You will have the opportunity to ask questions in regards to other topics. Make use of this opportunity, it will give you reassurance in regards to what the future of this circle will look like.

We bring this meeting to a close and we hope that you find the DIVINE within you and that you are prepared to give this Earth a part of the LIGHT and DIVINITY. GREETINGS IN THE NAME OF GOD!

EUPHENIUS.

* * * * *

The 7th of April 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. All of us also welcome you very cordially to this meeting and we are looking forward to arranging this evening's work with you. We hope that you will receive lots of information tonight and that we can give you messages that are of importance to you and other souls, in order for you to proceed along your life's journey and in order to allow the LIGHT within to shine and to emanate around you. We will now begin to write.

Question : Will climatic changes also become apparent in Germany and will weather conditions completely change because of this?

LUKAS : Well, Germany has already experienced climatic changes. The cluster of floods and unusual rainfalls were just a small sample of what could still eventuate. But you have - we and other SPIRIT BEINGS have already disclosed this to you - certainly the opportunity to change the weather and with it the climatic conditions of your planet with your power of thought.

- *When you begin to think more positive, that is to say, more in tune with GOD, the NATURE SPIRITS in charge of the climatic changes will return to Earth, because they will then encounter VIBRATIONS they can comfortably work with.*

What is happening at the moment is that NATURE SPIRITS that could tame the planet's forces are still leaving the planet, because they do not find working conditions here very favourable. What would you do if you would encounter a hostile atmosphere at your place of work on a daily basis? Well, you would resign or you would become ill. The NATURE SPIRITS do exactly the same, because they also possess their free will just like you.

Question : Can the SANTINER influence the climatic conditions and would they be prepared to help us in conjunction with nature's SPIRIT ENTITIES in this regards also?

(T. B: Hardly, because you are afraid!)

LUKAS : If you were aware of all the things the SANTINER have achieved for this Earth you would be astonished. I can say with absolute certainty that the earthly race would be *severely decimated*, maybe even completely *annihilated* if the SANTINER had not cleansed the atmosphere and continually stabilised the planet's axis. The SANTINER managed to avoid the worst! But they are *not* engaged to prevent storms and tectonic trembles. All of you *ought to experience* what it means to torment the planet that sustains your existence. But there are unfortunately people amongst you who love, protect and take care of this planet. But remember: *There is compensation for everything*, or there would not be a just GOD. - I would now like to say goodbye and to wish you a harmonious week, harmonious in regards to GOD'S VIBRATIONS. GREETINGS IN THE NAME OF GOD!

LUKAS.

The oral part of the meeting dealt with questions about man's time of death. These questions and answers have already been published in a special protocol.

The 14th of April 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
This is EUPHENIUS speaking. We also welcome you very cordially to this circle and we await this evening's progression, namely the types of questions that will be asked and we are willing to answer, with anticipation. We are supported by SETUN who is again present here in order to answer questions pertaining to the theme "the universe". The PROTECTION is adequate. We are pleased about the great favour your small circles enjoys in the invisible WORLD so that many souls are prepared to support you and make your meeting appear in SPLENDOUR. We begin with the written part. I will report back later for the second part.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS :GREETINGS IN THE NAME OF GOD! This is LUKAS writing. It took a while to establish CONTACT, but the writing functions well now. I am pleased to be allowed to write in this circle. Please ask your questions now.

Question :The so-called big bang created many solar systems. To what degree do these solar systems differ from one another?

(T. B: Without limitations!)

LUKAS :Not only various solar systems came into being, but also various galaxies, these huge islands of stars, wherein enormous numbers of solar systems are situated. Every planetary system is the progeny of its sun and as there are such a lot of different suns, there are also a lot of different planetary systems. If there is life on any of these planets - and that isn't always the case - the creatures there are children of their sun in regards to their physical bodies. Their whole appearance is adapted to the radiation of their sun and the gravity of their planet. In addition to that there is also a difference in the level of mental development this also affects the ethereality of the physical body. This should do for now.

Question :Do individual solar systems entertain contact with one another?

LUKAS :Well, as *everything* is connected to everything else, these solar systems and galaxies are also connected to one another. These are connections of a HIGHER ORDER and they are *not always* recognised and believed to be that. Take a look at your Earth and its population: Not everybody believes that everything is interconnected.

Question :Do ARCHANGELS have an influence on the negative CURRENTS that stress our Earth?

LUKAS :Well, it has to be said to begin with that you stress yourself through your negative thought structures. It would not be a good school if ARCHANGELS would simply compensate for this as if nothing happened so that mankind on Earth could continue as before. This is not the case! And this will not change either, even though these ARCHANGELS *could* interfere. It would be an easy thing for these eminent BEINGS to do so, but they wouldn't think of doing your *self-inflicted* work for you. *Learn from this!* Because everything contains *positive* aspects also, especially for you in your present situation.

Question :Man represents Mother Nature's greatest nemesis. Who would you consider to be mankind's greatest nemesis?

LUKAS :Mankind's greatest nemesis is mankind, because your thought processes manifest everything evil, be it in the shape of wars or many other destructive events here on

Earth. An additional aggravating factor is the fact that you are *encouraged* to proceed along this path by DEMONS with the result that relatively few individuals reap abundant material benefits. All of this is an enormous tragedy.

The oral part of the meeting dealt with questions to the theme of “time of death, guardian angels etc.” and they have already been published.

The 21st of April 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. We also welcome you very cordially to this meeting. We support your VIBRATIONS and you positive inner ENERGIES in order to arrange this evening in such an effective way that your questions can be answered in a positive and in a divine way. Our GUEST is present and will join us after the written part is completed. We will now begin with the written part and we hope that our GUEST will help us with answering them also so that you can enjoy a direct connection to the SANTINER.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! Welcome in the name of the HIERARCHY of the LORD, which observes our evening from a distance. We are pleased to have so many souls gathered around us who provide us with PROTECTION and many more souls willing to learn with you. The latter do not yet understand this CONTACT with you, but they have the advantage of being able *to see* you. Unfortunately you don't enjoy this privilege and this results in recurring doubts, small ones and large ones too. Let us begin now.

Question : What pertinence has the “Milky Way” for us here on Earth?

LUKAS : Well, the Milky Way is an island of stars the way these islands exist in great numbers throughout the universe. They are congregations of various solar systems that belong together, together in regards to the ability to learn and the divine state of the souls that live there. These islands of stars are arranged in the shape of gigantic spirals that slowly rotate around a common centre. Your galaxy takes around 20,000 years to make one rotation. Its function and assignment is to provide physical living conditions for creatures, for GOD'S souls. Because there are an unbelievable number of creatures of the human species, there is also a multitude of such viable islands. But *not all* star clusters are inhabited by souls, respectively offer opportunities for organic life. Different conditions prevail there.

Question :Of what relevancy are the rings around Saturn, something unique within our solar system?

LUKAS :Well, there are certainly other planets with rings around them. These are made up of pieces of rocks and ice and some of the material dates from the time when the solar system came into being and when Saturn's gravity snared them. These rings orbit Saturn the way the moon orbits the Earth, because its mass was not sufficient enough to create one single satellite. But this can still eventuate if more fragments of dust and ice increase the volume of the rings.

Question :Of what significance is the astral mist?

LUKAS :We are not familiar with an "astral mist". There is *a condition* within the astral WORLD that people with near death experiences called the "LAND of MIST".

Question : Do all planets throughout the universe come in the shape of a sphere?

LUKAS :Basically speaking, the sphere is the ideal form in space, but not within an atmosphere. This is why planets and suns are spherical with only minor deviations from the ideal form. What you find within the macrocosm you will also find within the microcosm.

Question :What are falling stars?

LUKAS :When solid particles collide with the earth's atmosphere without being deflected back into space, they try to reach the surface of the planet through the Earth's atmosphere. But due to the heat generated by friction, they quickly burn up. But larger masses have a chance to get through and they can cause a lot of damage. You were able to observe such an event when a large mass from space approached Jupiter, when it broke up into a number of large pieces to then collide with Jupiter due to gravitational influences.

Question :Is there anything else you would like to tell us to this theme?

LUKAS :Well, you decide what is important! A theme is not a message, but a time for questions. We will not influence you in any way. You ought to recognise - assuming you read the protocols once in a while - what changes have taken place with the way the questions are being asked, how the priorities have been set etc. Remember, everything is a school, these meetings here also! - I would now like to say goodbye and leave our GUESTS and EUPHENIUS to deal with the spoken part. The pleasure has been mine. GREETINGS IN THE NAME OF GOD!

LUKAS.

The *oral* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

TAI SHIIN : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! Dear spiritual friends, this is TAI SHIIN speaking. I welcome all of you very cordially my dear brothers and sisters assembled here to ask your questions. I am particularly pleased to convey *good wishes from the other side* to you; they are here to attend your circle in order to also undertake the education of their own souls. Please ask your questions now.

Question : Are there familiar souls amongst them?

TAI SHIIN : These souls live in the spiritual realm in a kind of INTERMEDIATE ZONE, they still feel very *earthbound* and it is difficult for them to find their way into the LIGHT. Your LIGHT SOURCE, this divine PLANE of VIBRATIONS here, attracted their attention. You don't just give important information to *human* souls, but you are also a circle that makes it possible for *astral* souls to find their way into the LIGHT. These souls will be guided into the SPHERES of LIGHT by those ENTITIES that provide this circle with PROTECTION. We are dealing with souls here that have not yet found their assignment and their way. They roam around this planet and they cannot find an exit. A lot of these souls had to relinquish their physical bodies under traumatic circumstances. This gives your circle an *auxiliary* function and we are happy to be able to support such an endeavour here. The souls you *assume* that they might be here have taken over their assignments in the spiritual realm and they are mentally connected with you. They send you their heartfelt greetings!

Question : We are very pleased about the fact that we're also able to help unknown souls. We also greet our old friends very cordially. - Now to our theme: There exist a number of remarkable variances in our solar system. According to a Russian study (Dr. Dmitriev, Academy of Science, Novosibirsk, UN no. 358, March/April 2002) more conspicuous changes within our solar system take place more often. Similar statements come from other scientists also, like Dr. Mike Lockwood, Rutherford Appleton National Laboratories, USA. The Russian Academy of Science in Novosibirsk came to the conclusion that the possible cause for these energetic changes within the solar system might be due to a high frequency energy zone that increasingly merges with our solar system. Is there something to this?

TAI SHIIN : We are dealing with energetic IMPULSES and they have amplified over the last decades. The cause lies in the fact that the whole cosmic determination in your sector of space had to change due to the Earth's vibrations. The Earth has adopted a different LEVEL of VIBRATIONS from 20,000 years ago. Remember that planet Earth is a living entity, one that *accumulates* and also *emits* divine ENERGIES. Due to the changes to the IMPULSE EMISSIONS, the environment around the Earth also changes. Remember that individual planets are connected to one another through this divine line. Remember that every planet is a living being, they harbour ENERGIES that

are emitted and this maintains the contact with one another. Based on this change that acts like a chain reaction, INFORMATION will be disseminated differently and the energetic CONNECTION is changed and disturbed.

- Question : The magnetic field of the sun creates a heliosphere around the whole solar system. This heliosphere is drop shaped, like a comet. The Russians have studied the edge of this heliosphere and they observed glowing, agitated plasma energy there. The study concludes that this plasma energy has expanded from 10 astronomical units (One astronomical unit represents the distance from the Earth to the sun) to 100 astronomical units and this since 1963, exactly during the time when natural catastrophes have been on the increase here on Earth. Assuming that this study is correct, what consequences will arise from this for planet Earth?
- TAI SHIIN : This study implies that external and also internal changes have taken place. The effect of this is that the connection between the Earth and the sun is now different from what it was years ago. The inner destruction of your planet Earth will also bring about changes within the solar system. The sun also changes its FREQUENCY and its RADIATION. This effects a change in that the protective shield around the Earth is undermined and that radiation can penetrate unhindered. The system is full of holes and these holes are expanding, because the Earth's own healing powers no longer function as before. This allows the sun's rays to penetrate more forcefully and the equilibrium between the planets is no longer preserved.
- Question : The Earth's moon does not possess an envelop one could call an atmosphere, but the Russians say that there are indications that a 6,000km deep layer is forming around the moon. Such a layer could not be ascertained before, that is to say that it simply didn't exist to the degree it exists now. Why is this so?
- TAI SHIIN : The moon is developing individuality with the effect that energetic sources emanate to the outside and they become blatantly obvious now. The moon takes on an important function for you and for the Earth. The moon will deliver important ENERGIES in order to create balance on planet Earth.
- Question : According to this study, the atmosphere on Mars has also become denser. How is something like that possible?
- TAI SHIIN : The atmosphere of Mars - as you call it - is also undergoing a process of change and this is brought about by the fact that the chain I talked about before is no longer present in its entirety. INFORMATION from individual planets only arrives intermittently. The energetic FIELD and its connections are blocked like an artery that is affected by a blood clot. Stowages and blockages take place. This is the reason why individual planets have to mobilise their *own* powers in order to secure a readjustment for planet Earth and for you, as human souls.
- Question : The study states further: The magnetic fields of *all* the planets seem to change. The magnetic field of the giant planet Jupiter is supposed to have magnified, this also

applies to the magnetic fields of Uranus and Neptune. Actually, all the planets seemed to shine brighter, because their atmospheric properties change. What can you tell us about this?

TAI SHIIN : This is an old law, namely that if *one* element changes, this change will *also effect all the others*. The planets are willing to abide by the new LEGALITIES they are exposed to. This represents a complete overhaul of your solar system, because the connections between the planets are subject to different INFORMATION.

Question : Planet Jupiter is supposed to have received such a high energetic charge that a visible conduit of ionised radiation developed between the moon Io and this gigantic planet. One is supposed to be able to see this “energy conduit” on photos that have recently been taken. What is the meaning of this and what are its consequences?

TAI SHIIN : The consequences are that one of these days you will be ready to utilise and positively exploit such ENERGY on Earth also. Remember that you live in an age where an upheaval into a completely different dimension is taking place. All of us hope that your mental PLANE will catch up to a degree that you will be prepared to recognise this ETHEREALITY. The planets are getting ready for this new age and this new LEVEL of CONSCIOUSNESS. Remember that the planets are living beings, that is to say, divine ENERGIES with the assignment to support you as human souls.

Question : If Jupiter were a little larger, our solar system would have *two* suns. Did something not function here the way it was supposed to?

TAI SHIIN : GOD is the greatest CREATOR of all things and all living beings. HE put *some thought* into this and this is the reason why this planetary system looks the way it does, otherwise destruction and other elements of nature would already have taken place in order to change and re-constellate the planets. Your Earth also experienced a process of radical change and this was in order to give you, as souls, a home. *Two suns would be too intensive* for this solar system, because the protective energy around your planet Earth would not be able to cope with all this radiation and energetic elements. Your Earth and your bodies are still *too physical* to be able to protect themselves against these extremely powerful FREQUENCIES of LIGHT. A burning process like the one under a magnifying glass would take place.

Question : Is your home planet not a component with a binary star system?

TAI SHIIN : We, the SANTINER, have other elements of survival and other opportunities to employ our ETHEREALITY in order to deal with these ENERGIES of LIGHT. We can absorb them differently and we can divert them. We have the ability to control these FREQUENCIES of LIGHT and we can even moderate them so that our body can endure them.

Question : Uranus and Neptune seem to have experienced a reversal of polarity some time ago. These conclusions can be arrived at from data collected by the Voyager Probe, because

on the face of it, the North and South Poles have moved from their previous locations by quite some margins. Can you confirm this?

TAI SHIIN : This we can confirm, these two planets are undergoing one more stage of development. They are starting to prepare themselves for an eventual settlement by souls. They have the divine assignment to also serve as inhabitable planets.

Objection : Hard to imagine, because both of them are so far away from the sun.

TAI SHIIN : These frozen worlds will change, the way your ice age that existed here in the past has also changed. INTERMEDIATE SHIELDS will be diverted in order to awaken these planets with solar energy.

Question : According to a newspaper report, an unknown force slows down the speed of probes that have advanced far out in the solar system. This phenomenon of deceleration could be observed with the progress of PIONEER 10, which was sent to the outer planets of the solar system in 1972 and also with PIONEER 11, which was sent in the opposite direction in 1973. The Jupiter probe Galileo and the sun probe Ulysses also reported the same effect. How can this deceleration effect be explained?

TAI SHIIN : The deceleration is the result of the energetic reconstruction taking place within your solar system. All available ENERGIES are presently utilised to close all energetic holes the restructuring of your solar system has produced. Due to the fact that your energetic CONNECTING CHAIN has changed, the energetic VIBRATIONS within your whole solar system also changed. This decelerates the progress of these probes, because the energetic STREAMS no longer flow the way they used to years ago.

Comment : One assumes that the speed of light and the rate of expansion of the universe could be responsible for the deceleration of the probes.

TAI SHIIN : The sun's energy has also changed. You can feel this here on this planet, namely that a high FREQUENCY of LIGHT exists here on Earth because the protective shield no longer functions the way it did hundreds of years ago. This LIGHT INFLECTION is intense and directed at your planet. This gives the sun a different penetrability and this in turn changes the interrelationship between your sun and the solar system.

Comment : Reading this report one is reminded of the stories about the "photon belt" our solar system is supposed to have immersed in. Planet "Nibiru", who is supposed to bring about changes, also got a mention. Do these reports deal with the same thing?

TAI SHIIN : The fact is that these reports certainly contain *one* basic idea and it serves the purpose of creating the opportunity for you here on Earth to *make you realise* how the whole solar system is intertwined in its connection with other galaxies and with ANGELIC BEINGS from the spiritual realm. One FORCE of DESTRUCTION is given, namely the fall of the ANGELS to begin with and the fact that you are also dealing with

negative ENERGIES here on Earth. The negative FORCE of DESTRUCTION certainly exists! We cannot tell you how all of this will turn out at this point in time.

Question : One assumes that the real, but hidden reasons of an observed, *spontaneous development* in the distant past here on Earth can be blamed on a change within the DNA double-helix. The harmony within today's DNA double-helix is also supposed to undergo changes. Will an evolutionary leap forward be the result of this?

TAI SHIIN : Changes within your DNA have led to various evolutionary processes in the past and it changed your whole structure. Your DNA will also be changed and reconfigured in the future. The New Age and the changes within your consciousness will bring about changes to connections and their associated carriers of information and when you have reached this level of consciousness, you will be able to acquire ETHEREALITY and the necessary insight to progress in your further development.

Question : The magnetic field of the sun is supposed to have magnified about 230 percent since 1901. The maximum of solar activity, the so-called 11 year cycle, also lasts much longer. This wasn't something that was observed decades ago. I could also ascertain an increase in anomalies within the world wide short wave radio signals only recently. What is happening here?

TAI SHIIN : This has to do with the fact that you continue with the destruction of a living being that serves the purpose of accommodating you. It has to do with the fact that you *consciously* destroy a divine CREATURE and that you force it to defend and to protect itself from the inside. The destruction you inflict upon your planet has an affect throughout the universe. This changes the whole *cosmic reaction* and also your own cycle here on Earth. The progressing destruction of your own planet brings with it a constant destruction of the interconnected ENERGY CHAIN within the zone of your universe and your solar system.

Question : There are hypotheses that during periodical peaks within the sun's eruption cycles, waves of new knowledge are transmitted. Is this correct?

TAI SHIIN : We can confirm this, because the sun is also a RESERVOIR of KNOWLEDGE, one that transmits new IMPULSES and ENERGIES to you here on Earth. These ENERGIES are CARRIERS of INFORMATION and they underwrite the growth and the development of your planet. The SUN'S ENERGIES are important carriers, there to maintain the viability of your human envelop so that you can activate your cell's nucleus and there to allow your cells to carry out their function, giving you freedom of movement here on Earth and providing a place of residence and an embedding for your souls. These CARRIERS of ENERGY are divine IMPULSES and they are here to maintain your viability. They also represent CONNECTIONS between all the planets. A chain of INFORMATION CARRIERS and INFORMATION that run from one planet to another. They comprise the QUALITY of LIFE that is necessary to allow you to exist within this solar system. If one SYSTEM fails, the whole CHAIN collapses and you are separated from this circuit.

- *There isn't just one cycle of existence and one cycle of your soul, but there is also a cycle within this solar system that is connected with you.*

Question : Is it possible to describe GOD and HIS universe with the help of mathematics?

TAI SHIIN : This is beyond your mental capacity and your inner values. You are unable to fathom the immensity of this. Admire a flower and you will recognise that all the wisdom you need is contained within it, because it *harbours GOD within*. Mathematics is an important subject and it enjoys an eminent status here with us also, but mathematics only represents *one part of many*.

Participant : We thank you for your transmissions and we are looking forward to your next visit.

TAI SHIIN : I thank you for the opportunity of being a guest here to answer your questions and to observe how your mental and spiritual development has changed and moved in a divine direction in the course of time. Remember that you too represent flowing matter that is connected to one another the way the universe is connected to you. We salute you very cordially and we hope that you enjoy a lot LOVE in your common future.

TAI SHIIN.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. I would also like to convey my thanks to you and to bring this meeting to a close. We also salute you very cordially and we wish you a harmonious and peaceful week, accompanied by RAYS of LIGHT that flood through you. Greetings from

EUPHENIUS and the TEAM.

* * * * *

The 5th of May 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! This is EUPHENIUS speaking. We also greet you very cordially and we hope the way you hope, that this meeting will once again turn into a harmonious affair, full of positive VIBRATIONS. We are ready to answer your questions and we are looking forward to the things that will eventuate tonight. We start with writing. LUKAS is waiting. I will report back to you later.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD, my dear friends! This is LUKAS writing. We are pleased to be able to work with you here again and to answer your questions. We are a large GATHERING, because a lot of souls are present here today who want to attend and to observe this event and the kind of interchange that is taking place here in this room. If you were able to see this large GATHERING, you would probably be alarmed about its size. Imagine the largest stadium on Earth occupied to the last seat; well, there are actually BEINGS positioned around the periphery and in the midst of it all a small table with four people sitting around it, surrounded by a wall of LIGHT that protects them and gives them ENERGY. It is difficult to explain because it isn't really a stadium, but I believe that this comparison comes closest. Please ask your questions now.

Question : Should one sow and harvest according to the "moon calendar"?

LUKAS : Well, it is a known fact that the moon emanates certain VIBRATION that, from an astrological point of view, has a certain effect. But there are worlds out there without a moon. The fact is that the radiation coming from the moon exercises an effect on plants. The "moon calendar" lists the results of experiences man made over many centuries without actually knowing the reasons behind it all. It isn't really necessary to know why this is so. They simply acted accordingly and they were successful. There are people even now who plant and harvest according to the so-called "moon calendar". As we told you, these are the results of experiences made when dealing with Earth's flora and they were proven to be correct.

The oral part of the meeting was followed by additional questions in regards to gene-technology that have already been published in another protocol.

* * * * *

The 20th of May 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
 We also welcome you very cordially to tonight's meeting. We hope that you gain enough insight to further your development and to experience the new consciousness the way it is necessary for you human souls to experience it here on Earth. We begin with the writing part. I will report back later.

The *automatic part* of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD, this takes a while. Patience please! -

Medium : I don't understand this...

LUKAS : You are only the instrument and you do not have to understand this. It is not important, it only hinders you. Allow everything to flow as in the past, without taking an interest in the contents of the transmission. - We salute you very cordially and we are pleased that you were able to organise this evening and we hope that you have brought a lot of questions along. Let us now begin to deal with these questions.

Question : According to the latest data, the surface of the moon is supposed to lift up and down up to 10cm. But according to statements made by scientists, this could only take place if the inner core of the moon is in a fluid state. What can you tell us about this?

(T. B: This is correct.)

LUKAS : This is partially correct, because the moon also possesses enormous cavities. There certainly is volcanic activity there and due to its enormous mass, also piping hot magma. But this magma is distributed differently than here on Earth. The moon's inner structure is more of a hollow world with its outer layer lifting and lowering like a balloon. The forces within, magma activity is part of this, make this possible. The moon possesses a completely different structure than the Earth. You will be able to ascertain this at a later date.

Question : Why are underground nuclear tests carried out, even though one is aware that these tests can change the whole inner composition of planet Earth?

LUKAS : One can detect different factions within the earthly sciences whose opinions are completely diverse. Depending on their connections with either the military or with politics, these factions receive different priorities. This is why sometimes completely illogical activities take place, due to the fact that the sciences do not *present a united front*.

Question : According to statements made by NASA experts, gigantic solar flares were discovered on photos sent back by the space probe "Trace" and they show electrically charged clouds of gas being ejected from the sun at speeds of up to 322,000km/h. These particles interrupt radio communications here on Earth and they can trigger headaches, depressions and nausea. An astonishing fact if one takes the distance to the sun into consideration. How do you see this?

LUKAS : The distance to the sun is relative if one takes the force of the eruption into the equation. We have indicated this once before, namely that the sun isn't just the fusion reactor science imagines it to be, but that the sun also possesses a

TRANSFORMATION FUNCTION. A TRANSFORMER for GOD'S VIBRATIONS you as human souls cannot come to terms with in their direct forms. What you measure are changes your measuring devices can perceive and document. The reality is that what is actually emanated is something completely different and it lies outside any nuclear particle structure and outside of your measuring devices. When light throws a shadow, the shadow is not the light, but simply a secondary effect.

Question : According to the latest research, many devastating earthquakes are supposed to be triggered by mini-meteorites, which were ejected into space at the time of the original big bang. These mini-meteorites are microscopically small and they are of an extreme density. When they collide with the Earth they trigger earthquakes. One of the researchers mentioned that these so-called "lumps of quasars" collide with our planet at least once a year and they penetrate the earth's crust like an arrow. What can you tell us about this?

LUKAS : If these particles arrive here once a year, we have to ask the sciences of your Earth what is the cause for all the other powerful earthquakes? This is supposed to divert the attention from the *real* causes of these quakes. The Earth is certainly able to deal with anything coming from space, it has proven this over and over again over a few billions of years. An erratic jump in the number of earthquakes has only been detected during the last century. One certainly couldn't say that the CREATOR is to blame for this.

Question : Why do scientists not recognise that everything is interconnected, that everything is part of a biological chain planet Earth also belongs to?

LUKAS : Oh, they recognise this, but there are only a few who recognise this and they are unfortunately not listened to. To question the prevailing system is taboo and everyone who does so is reviled by his colleagues and must count with a loss of reputation. This is why one is cautious because one has to take the welfare of one's family into consideration. But the criers in the DARK are on the increase, the systems as it stands today here on Earth cannot maintain its position, because it stands in opposition to CREATION and therefore in opposition to life itself. This means that this system *will destroy itself*, they way all negative establishments and governments of the past have done. It is only a question of time. The good will prevail! - I would like to bid you goodbye and hand the reigns to EUPHENIUS. GREETINGS IN THE NAME OF GOD!

LUKAS.

The oral part of the meeting was followed by additional questions in regards to gene-technology and they have already been published in another protocol.

* * * * *

The 2nd of June, 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. We also welcome you very cordially and - as you do - we are also looking forward to what awaits us here tonight in regards to further insights and in regards to our progress in the NAME of GOD. We begin with writing. I will report back later.

The *automatic writing* part of the meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD, this is LUKAS writing. We are pleased to be able to effect this meeting with you here tonight. Our theme is not yet completed and we are looking forward to your questions with anticipation. To re-establish CONTACT with you always takes a certain amount of effort on our part. This depends on how often you made mental CONTACT with us and on the inner accessibility that was present. Meditations are very beneficial and so are all thoughts inbetween.

(T. B: Everything correct.)

Question : Scientists in the USA are convinced that Mars was inhabited and utilised by living beings in the past. What can you tell us about this?

LUKAS : That is correct. A long time ago a race from the stars was living on that planet. But powerful, predictable changes took place on that planet and this forced its inhabitants to leave their abode. There are some traces left on the red planet that bear witness to this. This space-traveling race took off and found another world, one that was uninhabited and suitable. There are many mansions in the LORD'S universe.

Question : How did the pyramids on Mars come into being? Are they remnants of that culture?

LUKAS : No, we are dealing with different coherences here. Mars has often had visitors from the depth of space without immediately becoming the home of a people. The planet often served as a base, sometimes in order to observe the Earth, because duality and the influence of evil can be studied particularly well from there.

Question : Researchers are of the opinion that due to its structure and substance, Mars is certainly suitable to establish an outpost for the terrestrial civilisation. What do you say to this notion?

(T. B: Tactical!)

LUKAS : It always depends on *the motivations*. If it is a case of beginning a divine and positive investigation into one's own beginnings and previous existences, we are in agreement.

But if we're dealing with a planned military installation, there to control the Earth and other planets, it is to be rejected. Mars has turned into a very surreal world and one would have to invest a lot of money in order to create a basis for a viable existence there for the people on Earth. *The motivation is important.* Is it positive, your endeavours would be *supported and encouraged* by the spiritual SIDE and also by the SPACE BROTHERS and direct contact would then be possible.

Comment : What is actually planned is beyond our knowledge.

LUKAS : There are certainly endeavours on the behalf of the sciences to take the possibility of contact with other space faring people into account. But it is a tug of war of a financial nature and this is often difficult to justify, if exclusively economic benefits are not apparent.

Question : What would happen if the sun would suddenly stop shining?

LUKAS : All physical life on all the planets of this solar system would cease to exist, die out. Damaging radiation from space would then penetrate more amplified, because your sun would no longer throw a protective mantle over this solar system. Heat radiation and the light photosynthesis depends upon would also be lacking. All plant life, including the plants in the oceans of this world would perish in a relative short period of time. There exist a myriad number of suns in the universe, but there is only one sun in your solar system. If it dies, all its children will also die. The planets would turn into worlds of ice and they would move about the universe as dark planets, devoid of life.

Questions in regards to gene-technology followed and they are not part of the theme of this protocol.

The oral part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. I welcome you to the second part of this meeting. Please ask you questions now, so we can utilise our time here accordingly.

Question : Are any SANTINER present here today so that we can continue with our theme?

EUPHENIUS: If you have any more questions in regards to this theme, I would like to ask you to present them the next time, because the SANTINER TAI SHIIN will be present then.

Question : Can we ask questions in regards to *UFO-contacts* instead?

EUPHENIUS: We will answer these questions to the best of our knowledge. If these questions deserve a more specific reply, we will ask you to present them again the next time. This will give you a foundation, so that if these questions are of a certain significance, a SANTINER will verify them at the next meeting.

Question : Through a method of complete relaxation during which the emotional, neuro-motor functions of the body are just about subdued, some people are successful in separating their ethereal body from the physical. Is it possible that *only this* makes UFO sightings likely, because only a few fortunate people share this experience?

EUPHENIUS: These are two elements and two planes. The stepping out of one's physical body can be achieved under various circumstances. This can happen under narcosis during an operation, but it can also develop through such deep relaxation that the separation of the SOUL'S BODY can become a possibility. An out-of-body experience is always in connection with mental relaxedness and with a level of trust, it happens in order to collect knowledge that will either consciously or subconsciously flow into one's daily routine.

Sighting a UFO has nothing to do with this ethereal FREQUENCY, it is based on the fact that some souls are undoubtedly able to discover elements within the starry sky, that do not fit in with the normal constellations, through their alertness and their awareness. These are souls who *open up* to this field of interest, namely Ufology, and encounters with other life forms. These are often souls that entertain the thought that there is more to life than the here and now, that there are additional DOORS one can step through in order to look beyond the limitations of one's field of vision and that there is more to life than what your five senses convey to you.

Comment : There are cases where people have found themselves lying on a couch after a UFO sighting. A typical case where reality and dream can not be conclusively separated.

EUPHENIUS: This kind of experience is connected with the ability of these people to step out of their time rhythm, a little like being under the influence of narcotics. We are dealing with people here who, removed from time and space, are able to look down from within another SPHERE upon procedures their physical body is subjected to. (Near-death-experience) It isn't just in regards to UFO sightings, but with this specific phenomenon, to be able to separate from the physical body in order to become active on an ethereal PLANE. These souls are often not aware of the potential and abilities they possess and these events terrify them. They are often very confused, insecure and unsure of themselves and they have no opportunity to discuss this with others during their earthly existence or to analyse this by themselves. They are often left to their own devices and they do not know how to deal with this. These people are branded "nutcases" and "crackpots" by their fellow man and they do not realise that they possess the wherewithal to make contact with inhabitants of other worlds through their abilities.

Question : We cannot work out why these people do not know what to do with their abilities?

EUPHENIUS: These are *indications* for these souls, in order to grow and in order to receive the knowledge that they have abilities others do not possess.

- *These abilities will come to the fore more often during this decade, because we endeavour to amplify your ETHEREALITY and we endeavour to open up your senses in regards to such perceptions.*

You will notice that your genetic building blocks change in order to perceive these IMPULSES *more intensely* and you will recognise that you are certainly in a position to dispose over extrasensory perceptions.

Objection : Such abilities turn these particular people into outsiders.

EUPHENIUS: Yes, this is a fact. These are difficult tests and we are presently unable to curtail them, because we are often dealing with souls that are very *sensitive, perceptive* and *unstable*. These souls have *started to search* and they are beginning to find their way back to their ORIGIN. This makes such an extra-perceptionary journey *easier*. People, who are *earthbound, more determined* and *more confident, hardly ever* experience such phenomena, because they are often guided by their power of reason and by purely rational realities.

Question : Are a meditative disposition and an open mindedness in regards to the secrets of the universe the best means to experience UFO sightings in the sky?

EUPHENIUS: The desire for such sightings can assuredly be enhanced through meditative exercises. But to what degree the SANTINER acknowledge this and act upon it is another story.

- *What often happens is that the contact to this soul is anchored beforehand through dreams and visions.*

Question : Do UFOS only appear to open-minded observers?

EUPHENIUS: UFO contacts, the way they have been carried out in the past, like the sightings in Mexico and in Russia, were “major events” - in inverted commas - and they were not designed for individuals. They were intended as evidence for the respective governments and for military research, indicating that more things exist than what you on Earth assume.

- *It isn't a case where UFO sightings are only produced for individuals with the right inner attitude.*

Question : In contrast to the northern hemisphere, why is South America, particularly Chile and Peru, singled out to experience a lot of fly-overs and contacts?

EUPHENIUS: There are a few locations there that are important in relation to the Earth's energetic ELEMENTS of VIBRATIONS. Some of the SANTINER ships spend time there in increasing numbers. But TAI SHIIN will tell you more about it the next time.

Question : ASHTAR SHERAN is supposed to have made contact with politicians in the past. Why did he select politicians of all people to converse with, they're not exactly the most spiritual people?

EUPHENIUS: We have to tell you that these were attempts to find an opportunity to contact politicians through dreams, inspirations and visions. But due to the structure of your human make-up and your race, this is very difficult, because these people are often guided by completely different character traits. It is difficult to make contact with such a person on a different LEVEL, because his position of power and the rights he enjoys as an individual get in the way. It is certainly true that attempts were made to contact and to entertain a connection with politicians. This has only been successful with a handful of politicians and these few were really the exception.

Question : Could it be a case where the UFO observer already leaves the normal reality of his existence during his experience without realising this? Because within the framework of his vision, the physics of our time and space continuum no longer applies until he returns to his normal world.

EUPHENIUS: You know that time and space does not exist for us as ENTITIES and the SANTINER also do not lay claim to it. Due to their special status, the people that are contacted no longer consciously perceive time, space and even locations.

Question : Are we dealing with a kind of daydream or a light trance here?

EUPHENIUS: It can be called either hypnosis or a trance and it is applied in order not to plunge the soul into a panic situation or a crisis. Otherwise the whole biological apparatus of your physical operating system would be exposed to too high levels of stress.

Comment : There are a lot of people who fervently wish for such CONTACTS, but they do not experience them in spite of that. On the other hand, some who do not want such CONTACTS experience them.

EUPHENIUS: This is exactly the point, people and souls who exert themselves and go out of their way to make such CONTACTS, often do not possess the qualities to facilitate such CONTACTS. Because most of the time something completely different is on the agenda, namely *sensationalism* and the acquisition of a certain *position of power* and the fame that comes with being the first to make contact with extraterrestrials. There are only a few people who allow their soul to oscillate and to seek a place of longing *by going within; these* are the souls that will be intercepted by ENTITIES that are authorised to facilitate such contacts.

Question : What prerequisites have to be in place in order to produce physical or telepathic contact with the SANTINER?

EUPHENIUS: An inner attitude that this ought to take place in a divine SENSE and not out of avarice or a craving for power. It is important that this soul is prepared to engage in an

encounter with a completely different world - as mentioned - under the conditions that this may only take place in a divine SENSE. It is also important that the terrestrial soul wants to carry this out of his free will and without any ulterior motives. People engaged in research possess a completely different intuition to do so. It is quite often children and teenagers and also older people who seek CONTACT *only for themselves* to then emanate it to the outside.

Question : Are many sightings, photographically recorded, due to psycho-physical feedback, a kind of an acknowledgement of an *inner* communication or are these flying objects really visible in the skies *for everyone to see* and can they be photographically recorded?

EUPHENIUS: These flying objects are *visible to everyone* who is prepared to take the trouble to look up to the sky with an alert eye and an open mind. You too have the opportunity to experience sightings, if you are willing to invest time to achieve this. Sightings often happen *spontaneously* and without forewarning and to people with an opportunity to record them photographically.

Question : Can you tell us whether UFOS, respectively their occupants, must *always* be mentally interconnected with the observer and contactee?

EUPHENIUS: Please put this question the TAI SHIIN the next time around, because this is a specific question and he should really answer it.

Question : There are assumptions that UFOS represent virtual flying objects of a metaphysical nature through which our HIGHER SELF, oscillating within a cosmic CONSCIOUSNESS, communicates with our imperfect spirit. What can you tell us about this?

EUPHENIUS: We have to reject this idea, because it doesn't conform to reality.

Question : Do UFOS provide mankind with support, signs, symbols and guidelines for the evolvement of its consciousness according to the tempo of the times?

EUPHENIUS: Presently, sightings serve the purpose of - and this is the present desire of the SANTINER - *reducing* fears and inhibitions amongst the people on Earth. It is difficult for the people on Earth to accept that there are ENTITIES around them with *good intensions* and *not evil intensions*. For rationally thinking people like you, it is difficult to accept that more eminent, technologically more advanced ENTITIES exist with the opportunity to positively interfere here on Earth. Positive in a sense that they try *to protect* your world and try to embed you, as souls, on Earth. What is negative is *your outlook*, because you always assume that you are threatened by a destructive event coming from space.

Question : Is there a UNIVERSAL LAW that *prohibits* a higher civilisation from interfering with the development of a less advanced race?

EUPHENIUS: Yes, this is a divine LAW. The SANTINER received their assignment from a divine authority. No higher ENTITIES would think of interfering with anyone else's development, because they would not act in accordance with the divine LAWS.

Question : What exactly are the SANTINER allowed to do for us and what must they refrain from doing?

EUPHENIUS: The SANTINER have the specific assignment to protect you, the citizens of the Earth, to secure the viability of the Earth and to make sure that the environment here maintains a certain equilibrium. They are authorised to support you in your endeavours to deal with your personality in a positive way.

Question : Will only a person with *higher* VIBRATIONS possess the prerequisites to make contact with *positive* extraterrestrials?

EUPHENIUS: One prerequisite - as you call it - in order to make contact with ENTITIES always depends in the way a person sees *himself* and *others with their heart*. As inside, so outside. If everything is right inside, external contact will take place.

Question : Will UFOS remain an eternal secret for us?

EUPHENIUS: This secret will be revealed at a specified time within the divine PLAN. Your *negative* ENERGIES are so powerfully directed against such sightings at this point in time, that this would constitute a dangerous situation *for you*. It would be akin to total annihilation, because you would destroy one another here on Earth (With the employment of nuclear weapons against a perceived extraterrestrial "enemy") and this would *not allow* GOD'S PLAN to be *fulfilled*, because a danger beyond your capability of assessment would be totally overestimated.

Comment : A danger that isn't really a danger.

EUPHENIUS: That's right. How can one explain something like that to you, if you are not even prepared to live in peace and harmony *with one another*?

Participant : We thank you for your explanations and we are looking forward to the next time.

EUPHENIUS: We thank you for your questions and we are also looking forward to the next meeting. TAI SHIIN will be our GUEST again and all questions will be answered. It is important that a representative of the SANTINER receives the opportunity to answer all these questions. - IN THE NAME OF GOD we bring this meeting to a close and we hope that you enjoy a lot of harmony and great delight in your life here on Earth. GREETINGS IN THE NAME OF GOD!

EUPHENIUS and the TEAM.

* * * * *

The 16th of June, 2002

Welcoming all present and the beginning of the questions.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is EUPHENIUS speaking. We also welcome you very cordially to this meeting. We will begin with writing. Our GUEST will be here to answer your questions. LUKAS is waiting. I will report back to you for the second part of tonight's meeting.

The *automatic writing* part of this meeting began under the guidance of the SPIRIT TEACHER LUKAS.

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. We are looking forward to this evening with you and we hope for interesting questions. We were present during your dialogue this morning (Visit to the Psychic Work Circle, Herford) and we listened to your discussions and your argumentations with interest. It was very harmonious and a very special experience for two of the people present there. We hope that this will be repeated.

(T. B: Certainly!)

Question : American astronomers have discovered a planetary system in the star sign of cancer that is about 41 light-years away, that could very likely resemble our own solar system. What can you tell us about this?

LUKAS : Many planetary systems have already been discovered even though this has been tried ad absurdum in the past. But in the mean time, your sciences are now reached a point where they can discover these worlds with the help of more sophisticated instruments. There was originally a different intent on the agenda, namely to verify that terrestrial human beings are an absolutely special life form, one that exists nowhere else but on Earth. The dogma about this uniqueness of *Earth* has bitten the dust in the mean time and the dogma in regards to the uniqueness of *terrestrial life* will soon follow suit.

Question : Are individual solar systems connected to one another?

LUKAS : Dear friend, everything, I repeat, everything is connected with everything else, whether we're dealing with minerals, animals, plants or higher life forms that are able to cogitate about their own existence. Everything is interconnected and this naturally includes all solar systems that have ever been created and those still to be created. There is only *one* CREATOR and he put this interconnectedness between everything that exists in place.

- Comment : Even if terrestrial spacemen *could* travel at the speed of light (~ 300,000km/s), they would have to travel for 41 light-years to reach this newly discovered planet. Unimaginable!
- LUKAS : Only if the speed of light is regarded as the absolute, maximum speed. But that is a fallacy, one that will be clarified within the next years. You are not familiar with all the natural laws by a long shot and this is why you think that travelling faster than the speed of light is akin to a “miracle”. To break through the sound barrier and to survive such velocities was also thought a “miracle” in the past. Believe what we tell you and you will experience the kind of “miracles” that might seem irrelevant to you right now.
- Question : Do you mean astral journeys that allow us to leave our physical bodies behind at any given time? We would then not have to rely on technical aids like spaceships and the like.
- LUKAS : No. We are talking about travelling through space with the help of a highly evolved technology, however one that utilises magical means. You are beginning to understand these LAWS.
- Question : What are individual solar system’s functions within the universe?
- LUKAS : Functions in the form that they offer the residing life forms, if any exist at all, a home and an educational opportunity. Not all planets are inhabited by a long shot. But such an enormous number is left that, if you would recognise this, you would be astonished about the dimensions life in other existent worlds, in other existent universes has taken on. A number you’re not familiar with.
- Question : Why did GOD create such enormous spaces?
- LUKAS : Where else can spirit beings, souls incarnate, but on physical worlds that offer them the basics for a physical existence the spiritual realm *cannot* offer them. The planets offer such an enormous educational potential; this is something that is very difficult to achieve in the spiritual realm and something that can only be gained over an extraordinarily long period of time. The reason being that the various levels of development are separated from one another by SPHERES, because not all ENTITIES possess the same level of development by a long shot. Physical worlds were created to provide opportunities for incarnations in order *to accelerate* the soul’s progress. This is where human beings and other life forms, with their inherent free will, can decide to be either for or against the CREATOR.
- Question : Is duality only present in our solar system?
- LUKAS : No, duality is a factor throughout all the physical worlds in all of CREATION. But duality is hardly a factor on most planets. The inhabitants of these planets received inspired technologies which give them all possible labour saving devices imaginable to

make their physical existence easier. There is no stress and no work there as you know it. All that is left is service within the framework of the WHOLE. The chase after money and physical possessions no longer exists. This is why these worlds and their inhabitants have become *more ethereal* than you. Their next evolutionary step will lead them on a direct path to the HOUSE of the FATHER. These ENTITIES will longer experience the *second death*, but will find themselves in SPHERES of EXISTENCE that would absolutely astonish you, the people on Earth. A WORLD beyond comprehension, full of brilliance, universal life and all the things necessary to progress the LORD'S CREATION with voluntary work. You, the people on Earth, will also tread that path sometimes in the future after many incarnations.

Question : Why did the CREATOR create so many life forms?

LUKAS : So that you learn to accept *all life* and not look upon it as inferior. Everything is interconnected and because this is so, the CREATOR *knows exactly* how you treat your fellow man and all other life forms on planet Earth. A PART of HIM is *within you* and *absolutely nothing* is ever lost! Everything is recorded in your personal BOOK of LIFE and you will be presented with this sometimes in the future! Universal LIFE on Earth, the diversity of species called "life", also inherent within the most minute life forms, provide you with an excellent practical opportunity *to protect* these life forms instead of destroying them. This gives us the opportunity to observe *how you think and act!*

Question : It has apparently been verified recently that the impact of an asteroid 65 million years ago obliterated the dinosaurs. Researchers discovered an asteroid crater of around 100km diameter in Mexico. They detected such high levels of carbon dioxide within ossified leafs of the Ginko tree that they maintain that only the vaporization of up to 13,000 billion tonnes of carbon could have brought this about. Only the impact of an asteroid could explain this. What do you say to this?

LUKAS : Well, we transmitted this information once before right at the beginning, namely that a huge mass from space changed life on this Earth. That this has now been recognised by your sciences is gratifying, but this doesn't advance your *mental progress* by one step. It is interesting, but that's all.

- *You have not incarnated here on Earth to explore your past, but to explore your future! We hope that this will finally find acceptance within the heads of pundits.*

It has been a pleasure to write again and I look forward to the next time. GREETINGS IN THE NAME OF GOD!

LUKAS.

The *oral* part of the meeting began under the guidance of the MESSENGER of LIGHT EUPHENIUS.

Participant : GREETINGS IN THE NAME OF GOD, dear EUPHENIUS! A sincere welcome to the second part of our meeting. We cordially welcome our GUEST from METHARIA and we would like to ask him some closing questions today to this theme. We ask for contact.

TAI SHIIN : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! Peace be with you. This is TAI SHIIN speaking. I am pleased to be here once gain this evening in order to answer your questions. It is always a great delight for us to progress with you one step further, so you gain a better insight into what is of importance to your senses and what's on the agenda for you and your planet.

Question : Our contact with you, the SANTINER, also enriches our lives! Can you tell us whether UFOS, respectively their occupants, do always have to be interconnected on a mental level with their terrestrial observers and contactees?

TAI SHIIN : We would like to say the following to this: All SANTINER active on Earth within the divine PLAN, possess an association to informants and bearers and to their SPIRIT ENTITIES which occupy the main role and the LEADERSHIP that administers and communicates a network of information. This is a midway station to the spiritual realm with a connection to the CREATOR.

Individual SANTINER do *not have a direct* connection to the CREATOR, they are subordinate to SPIRIT ENTITIES of a higher rank. We are the students of *more eminent* MASTERS and we are subject to their information and tutelage.

Question : What kind of MASTERS?

TAI SHIIN : MASTERS within the fleet command, which is presently stationed within the Earth's sphere of influence, to be regarded as contact persons lead by the spiritual leadership of ASHTAR SHERAN. He represents the mediator between us, the SANTINER, the spiritual realm and the CREATOR, so we can fulfil our assignment within the framework of the CREATIVE PLAN for you, as souls. We are also subject to strict, divine RULES and we cannot behave the way we might behave if we would act according to our free will.

Question : Do you *not* possess your free will?

TAI SHIIN : We do have our free will, but we are subject to a special PROTECTIVE ORDER within the Earth's plan, a strategy we have to observe here. For instance, we cannot correct and interfere with everything we observe here, because we are also subject to the divine LAW, namely to allow you *to exercise* your free will and this means that we do not prevent climatic changes, wars and the like.

- Question :How can it be that of a group of five people, two can see a UFO and the others can't?
- TAI SHIIN :This happens because many souls do not have the consciousness to perceive them. Everyone possesses their own matrix and with it their own inner mirror. Go to the theatre and you will take home *different* perceptions and *different* highlights from the play than somebody else. You are sometimes blind to the most obvious and it therefore happens that many people do neither see the signs nor recognise the things they are confronted with on a daily basis. The fact is that you are not even prepared to listen to your fellow man or hear when Mother Nature cries out in agony.
- *Due to the fact that there are various filters of the senses and various levels of consciousness, it often happens that the ethereality we're subjected to cannot be perceived by many terrestrial human souls.*
- Question :Why is it that especially in South America - in contrast to the northern hemisphere - and particularly in Chile and Peru, flyovers and contacts still take place?
- TAI SHIIN :This is accounted for by the fact that energetic FIELDS exist there that we rely upon in order to refuel with certain ENERGIES here on Earth. ENERGY STREAMS exist there that we need for our magnetic fields. In addition this that, an INTENSITY of VIBRATION predominates there that makes it easier for us to show ourselves in a physical state. This has something to do with the elevation and also with the composition of the air that exists there on the one hand, but also with specific geographical prominences on the other hand and they are difficult to explain right now.
- Question :In view of the occasion, I would like to ask three questions that have little pertinence in regards to our theme: The nations of Pakistan and also India apparently do not realise the abyss they are moving towards. The press reports with horror about the nonchalance both nations play down any nuclear threat - and this not just within political circles, but the man on the street also. It is as if nobody understands the damage nuclear weapons can do. How do the SANTINER assess the situation there?
- TAI SHIIN :The situation there also posed a critical phase for us, one we observed and perceived with alarm and deep sorrow. We also had to acknowledge that the DARK SIDE has become visually more conspicuous. What becomes quite apparent is the passionate way the annihilation and destruction of various areas of your world is discussed, even to a point where the annihilation of other creatures is talked about. This clearly shows that the Earth is undergoing a potent change.
- *But it also shows that the divine, all the many prayers spoken by people and the LIGHT are certainly capable of creating changes and re-orientations here on your Earth.*
- Question :Neither India nor Pakistan could win a nuclear war. The American Pentagon assumes that in the case of a nuclear war there, there would be at least 12 million immediate

casualties. But nobody can predict with any certainty just how many million Indians and Pakistanis would die years later due to being exposed to nuclear radiation. There would also be global consequences: A collapse of the international financial markets with an associated worldwide economic depression, a stream of refugees without equal followed by famines and human catastrophes the like the world has never seen. A retired Pakistani army chief had this to say to journalists: “I don’t know what they worry about. They might be killed crossing the road or they might die in a nuclear holocaust. They all must die sometimes.” - I don’t know what one can say to such an attitude.

TAI SHIIN : What becomes apparent is that this would be the beginning of the end. A row of dominos would begin to tumble. If a nuclear proliferation would take place, it would affect your whole world and not just one or two nations. The Earth would not be able to recover from all that devastation and destruction. We would surely receive permission from the CREATOR to interfere in order to prevent this scenario so that you, the inhabitants of planet Earth, can continue along your path and pursue your assignments here on this planet. We are naturally aware that we occupy a special position in all of this. It is difficult for us to observe with our hearts just how much hatred, fear and hardship is present here on Earth; we must concede every day that it becomes increasingly difficult to pass through the mental haze here on Earth.

Question : Could a demonstration of your presence over these two countries be helpful?

TAI SHIIN : This would lead to a situation where *even more* fears would develop and further insecurities would eventuate, something that is already present in these emotionally charged continents, so that an *uncontrolled action* would be the consequence. It is more important to awaken the divine within these people and this with the help of those ENTITIES who support you here on Earth and through ARCHANGELS, which endeavour to transmit LIGHT and LOVE to these countries. What is of importance is that the knowledge about the TRANSFORMATION *also becomes apparent to these peoples*. These peoples are also divine creatures and they must also be encouraged and guided along the right path. But we, the SANTINER, do not have the right to do so and at this point in time, we are not authorised to interfere in such critical situations.

Question : Are there actually certain energetic zones here on Earth that allow passage to a parallel world at specific times?

TAI SHIIN : These avenues exist, but they are presently unrecognisable and invisible, because with your present level of awareness, you are not mature enough to see and to realistically perceive these ethereal PASSAGES. Your third eye and your ethereality are not advanced enough to recognise this. You would not be able to physically tolerate these FREQUENCIES of LIGHT and these energetic FIELDS.

Question : Are there portals at the poles that allow access to the Earth’s insides?

- TAI SHIIN : There are entrances at various points on your planet's surface. They are there for those creatures that live inside your Earth.
- Objection : It was once stated that *no* life existed inside the Earth.
- TAI SHIIN : We are dealing with ENTITIES here that are presently sent to Earth in order to offer terrestrial nature the opportunity to regenerate.
- Question : Are these actual, physical portals?
- TAI SHIIN : We are not dealing with physical portals. You cannot visible perceive them. They are only discernable by highly evolved, ethereal ENTITIES.
- Question : But what is the explanation for the peculiar events within the Bermuda triangle and similar zones in the Pacific Ocean?
- TAI SHIIN : These were commotions and predominantly energetic attractions that sprang from within the Earth. There exist ENERGY RESERVOIRS within the Earth that are ejected when the Earth is disturbed and when it loses its equilibrium through extraneous disturbances. We are dealing with EMANATIONS of ENERGY from inside the Earth and they might be called "tunnels" or "exits", triggered by inner disturbances, for instance through nuclear explosions.
- Objection : Strange events within the Bermuda triangle have been reported well before the nuclear age.
- TAI SHIIN : Due to evolutionary events wherein your Earth has experienced processes of change, this portal has been open for millions of years. It is a SLUICE that has not been closed. There are a variety of such SLUICES; volcanoes belong to that group also.
- Question : The famous American South Pole aviator *Admiral Richard E. Byrd* is supposed to have inadvertently flown into one of these SLUICES in the forties. Is there anything to this story?
- TAI SHIIN : We cannot confirm this. There exist PORTALS within the various polar caps, but they are only accessible to ENTITIES of an ethereal nature. These unobtrusive SLUICES are invisible to beings of a physical nature. We too utilise these SLUICES, so do NATURE SPIRITS who carry out their work there and we support them with our ENERGY SOURCES.
- Question : Do parallel spaces exist that can only be accessed through to one's own psychic abilities? Is this the reason why there are a relative small number of contactees?
- TAI SHIIN : My dear friend, the required level of awareness can only be gained through the *training* of one's soul, spirit and inner values! You will never be able to perceive the ENTITIES around you without training nor will you gain INFORMATION from ANGELS or

perceive us, sent here to accompany you. There are very few people with the potentiality to perceive us and in whose presence we are willing to show us.

Question : Could one say that there is a kind of parallel world here in Earth, one that has nothing to do with the hereafter, but one that concurrently exists on Earth or within the Earth?

TAI SHIIN : That is correct. Remember your astral journeys, they also represent a displacement of your own self.

Question : According to contactee accounts and witness statements, most attempts by UFOS to appear here in our world succeed for a limited time only. Why?

TAI SHIIN : These are short-lived sightings, where we show ourselves only partially visible in order to give you the impetus to deal with this phenomenon. These are not as fear filled moments as if we were hovering for hours with our enormous ships over Europe. This would actually trigger a catastrophe that is neither within CREATION'S PLAN nor the spiritual LAWS, because we would encroach on this Earth's regulated budgets.

Question : Many UFO contactees report about the various shapes of spaceships they have observed. We know about your disk-shaped ships, respectively roller-shaped mother-ships. What is the reason behind these different shapes?

TAI SHIIN : These shapes are utilised by other, ethereal BEINGS who are supposed to gain an insight into how you exist and live here on Earth. We are dealing with envoys from other planets and they are also interested in accompanying you in your PROCESS OF CREATION. They will also be ready if the evacuation of planet Earth becomes a necessity.

Question : There are a lot of cosmological models, the *parallel universe*, the *rotating universe*, the *super-string theory* etc. What can you tell us about the construction of the universe?

TAI SHIIN : The universe represents a huge habitat and it possesses various solar elements, which in turn supply various planets with ENERGIES the CREATOR is connected to. It is a vastness where time and space do not exist and where the physical finds dissolution at its periphery. It is a gigantic series of planets with the sole purpose of providing souls with an opportunity to mature. There are various levels of development, as there are various levels of development within the spiritual realm. It represents a series of stairs that every single one of you has to climb.

- *If you were able to recognise and understand the structure of this gigantic system, you would no longer doubt the existence of the CREATOR and HIS BRILLIANCY!*

It is unfortunately a fact that you think in the *smallest* of units and this makes you miss the overall picture. You are equipped with cell structures that contain divine MESSAGES and that store all the things the future provides you with. You, the people on Earth are a complicated consubstantiality, which, if you *would* find your way into

the LIGHT, would recognise that your brain possesses *much more* potential than you presently utilise here on Earth. But you are not quite ready to penetrate the secrets of the ORIGINAL SOURCE. But you will become aware one day that it is *absolutely beneficial* to undertake this journey.

Question : Will the expansion of the universe go into reverse one day and all matter revert back into one minute, compressed point?

TAI SHIIN : The aim is to reunite all SOURCES of LIGHT and to subsume all divine SPARKS into one great SOURCE of LIGHT which will then return to the CREATOR.

Participant : This brings this theme to an end and we thank you and your HELPERS for your explanations. We are looking forward to you next visit here with us.

TAI SHIIN : I thank you for giving me the opportunity to answer your questions. We, the SANTINER, are pleased that there are terrestrial souls who recognise that our existence is in fact a reality. We are always happy to be at your disposal with our answers and I am prepared to speak through your medium as your guest at any time. I will hand over to EUPHENIUS and I wish you a good evening. GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

TAI SHIIN.

EUPHENIUS: GREETINGS IN THE NAME OF GOD! This is EUPHENIUS speaking. The TEAM and I bid you goodbye and we hope that during the next day, you open your hearts to the DIVINE that exists and lives around you. Recognise that you are a part of something VAST and that you can only undertake your journey into the DIVINE by OSCILLATING in UNISON with this VASTNESS. Bear this in mind and remember that GOD exists within everything and within everyone. GREETINGS IN THE NAME OF GOD!

EUPHENIUS and the TEAM.

Participant : We also thank you and the whole TEAM!

The giving of thanks and saying goodbye was followed by a short closing meditation to close the chakras.

We dream about travelling through the universe:
 Is the universe not *within us*?
 We are not aware of the depths of our spirit.
 The mysterious path leads *within*.
 Within us, or nowhere else is eternity with its words,
 the past and the future.

Novalis
