Extracts from the *Menetekel* protocols from the year 1956 to 1975

Theme : **The hereafter**

Questioners : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)

Mediums : Uwe Speer (17) and Monika-Manuela Speer (15)

MESSENGERS of
LIGHT : ELIAS, ARGUN, AREDOS

The texts to this theme were psychically received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, between the years of 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

Instead of using the term “hereafter” one should really talk about the “spiritual realm”, because man is a spiritual being, whose original home is the spiritual realm. Man only lives for a limited time in the “realm of the physical”. The physical is to be regarded as a phase of development for the individual - and also for the world. The physical phase is followed by a spiritual phase where man returns back to his original home. The spiritual phase can once again be followed by a physical phase - maybe in another solar system. The number and the manner of these physical phases are dependant on the individual evolution and are called either re-birth or reincarnation. During the physical phase the spiritual realm is beyond the earthly-human range of perception. To give you a few examples:

Let's assume that the senses we're endowed with for our physical phase would have a different range of perception, our world view would be a different one. If our retina, containing the optic nerves, were directly connected to the cochlea of our ears, we would be able to *hear* what we *see*. For instance we would see a rainbow not only as a colour spectrum but also hear it as a scale. The connection of all the sensory organs could also result in a kind of omni-sense, so that every natural event around us would converse with all our senses at once. This would also change our experiences and thereby our view of the world. Our view of the world is created out of our experiences! Let's further assume that we were given entirely different senses to the one's we have now, our present world would cease to exist and a completely different world would present itself.

Several people possess a gift that allows these unconscious circumstances to come to the surface. Transcendental insights then enter the corporeal consciousness of the person in question. A re-routing of the range of perception, which form the border between the spiritual and physical man, takes place. People with a displaced range of perception were called prophets in the past; the same people are called mediums or mediators these days. Paranormal phenomenon's are only possible and can only be comprehended under the conditions that the person concerned experiences both dimensions at the same time. The transcendental consciousness of the person appears on its own accord in equal measure to the intensity he subdues his dominating earthly-sensitive consciousness. - Only when the sun goes down is the brilliance of the stars revealed.

Bad Salzuflen, December 1992

The connection with the spiritual realm (Transmission from the year 1963)

Spiritualism *verifies* that there is a conscious existence after physical death. The "dead" - as you like to call them - continue to live on our side. They can return and they do return. But there is more! - The people living on Earth can learn *why* they continue to exist, through the connection with the spiritual realm:

- What is the meaning of a continued existence of man?
- What is the effect of the earthly existence on the new life that begins after death?
- What is the relationship between both states of existence?
- What experiences have people had, once they crossed the threshold of death?
- Was whatever they did, said or thought during their time on Earth a help or a hindrance?
- What are the lessons they've learned that will help their progress?
- How are permanent things procured, once the material possessions have been left behind?
- What effect do our indoctrinations in regards to religion, science, politics, commerce, arts, international understanding, racial questions etc. have?

Well, all of these questions are touched upon during spiritual connections. This new information brings with it an explanation of the problems that have puzzled a tormented humanity for an eternity. Apart from a continuous fight for new knowledge we also fight a "war" against all powers of darkness, regression and against all those involved with it. *But above everything else we wage a battle against fear.*

Under certain circumstance the association and understanding between us is either made easier or harder. There are obstacles and they are *misunderstandings*, there is *animosity* and *ignorance*, but they can be overcome. It is of course a lot easier for us to reveal ourselves if you are mentally and spiritually *receptive*. You are spiritual beings *within* a human body. But we are spiritual entities *without* this body made of flesh!

But there is a link present, namely *the connection through the spirit*. You are *spiritual beings* here in the hereafter and you are *the same* in your physical world. It isn't death that imparts a spiritual life to you. Death only releases you from the constraints of the flesh and removes the shackles so that you can fly to freedom, akin to a bird whose cage is opened.

Strictly speaking, you have all the talents, characteristics and qualities of the spirit now and always. It is dormant within you. You can learn to awaken these and to give them the power of expression, so that they can reveal themselves and assert a claim on their glorious inheritance.

All the TEACHERS that come to you *must make sacrifices*, because they have to “descent” from the HIGHER to the lower regions. They have to convert the spirit into matter so they can reach you, or they have to borrow this matter from you.

Most of you, well actually the majority of mankind, *is unable* to attain the HEIGHTS of the spirit. They can't perceive the VIBRATIONS, because these VIBRATIONS are too delicate, sensitive and too subtle to be received. Only a small fraction of mankind manages to do so!

Those that want to reach you have to descent very deeply and in the process a lot of their magnificence is lost, a beauty you can't imagine. It would be better if you were able to meet them *half-way*, you would then be overjoyed by the sight of the splendour you would encounter.

Something you don't believe yourself (Transmission from the year 1958)

Mankind has been searching for millennia for evidence that the universe is controlled by a GREAT SPIRIT and that the human existence continues on an individual bases after death. Some say “yes” whilst others say “no”.

A whole science was organised to lift the veil on this secret. Great thinkers tortured their spirit, but *they themselves* didn't believe *neither one thing nor the other*. Even these days the people on earth are searching for the life that seems to be hidden from them and *allegedly* doesn't exist.

For more than a 1,000 years the matter couldn't be clarified. CHRIST clarified the matter, but this happened 2,000 years ago - and you still doubt it!

You use your physical sciences and technology to analyse this, but they *don't* give you any explanations. One *cannot* look at the REALM of GOD or the realm of Lucifer through a telescope, nor can they be x-rayed with Roentgen's invention.

Do you really want to deny this EXISTENCE?

With your egomaniacal and arrogant mentality you could have done so long ago and placed a final period at the end of this important chapter of your existence. *This final period is missing*, and you are *still* searching for the TRUTH. - Why?

If you reject the realm of GOD and HIS intelligent WORLD of the HEREAFTER, you don't have to continue to search any more!

It seems you *don't* believe your *own words*, nor your opinions or assumptions. Your “no” is not a definite “no”, because *fear and uncertainty are hidden behind it*. And if you do say “yes”, this “yes” doesn't count either, otherwise you would have peace and a paradise on your world.

- You don't believe what the sciences and what technology tell you.
- You don't even believe what you purport to believe.
- You don't believe yourself, or anybody else as far as HIGHER THINGS is concerned.

Thousands of years of uncertainty in the most important field of your earthly existence, that is certainly extraordinary, yes even unbelievable!

Shall I tell you the TRUTH?

You fear your own weakness, the way Paul recognised his own weakness. You just *don't want to recognise* that in spite of thousands, yes even millions of pieces of evidence that the REALM of GOD and that life after death *does exist*. You prefer to declare all of this proof to be lies and deceptions, morbid and impossible. Otherwise your weakness would come to the surface and you would be deeply ashamed of yourselves.

You don't want to change! - You prefer to quarrel, dominate, enslave, commit adultery, annihilate, destroy, kill, rob and loot and to hate and destroy the world and the universe, even annihilate and doom yourselves.

But a tiny DIVINE SPARKE within you *still warns you*.

You *can't* deny GOD *within!*

You are insecure!

Primitive pride (Transmission from the year 1959)

The primitive people of this earth never had any scientific comparison material at hand to explain any kind of phenomenon. In spite of that, these people knew that there was a SPIRITUAL REALM. They sometimes saw their "dead" and spoke with them. This glimpse into the spiritual realm caused fear of something unknown amongst them, because these spiritual entities were beyond any direct access or attack.

- No matter how far the continents or islands were apart from one another, the supernatural show and perceptions *were the same everywhere!*

But their fear of the unknown caused them to strike back in some way or other. Because every attack and every defence against the spiritual existence was futile, these people tried to reconcile with the spiritual world, *to subordinate to it*. This is how superstition or, to choose another term, spiritual cults practised by hundred of millions of people came into being.

- *The false behaviour* of psychic people on Earth, fear of the supernatural, mixed with reverence and astonishment led to senseless and cultural excesses, which even these days is looked upon with amazement and considered illogical nonsense and therefore incomprehensible.
- If scientists and academics on this Earth would find the time to seek out the origin - *and especially the development* - of superstitions, they would continually come across the fact that spiritual existence is a reality.

Lucifer and his cohorts in the spiritual and physical realm have managed the feat that the senseless cult of superstition finds the greatest rejection amongst all cultural people of today. This in itself would not be bad, if not some great ingeniousness was the cause of it.

The absolutely incorrect assessment of superstition led in reality to a situation where nearly everybody is ashamed to admit just the slightest concession in regards to a spiritual existence.

The people of this Earth have been *ashamed* for millennia because one might consider them to be primitive and prehistoric, only because they have contact with the spiritual world in one way or another or because they believe in a hereafter.

Especially academics and even more so scholars and professors take pride in their “reputation” and do whatever is necessary to avoid any suspicion that they might have superstitious or primitive views. This *really primitive pride* displays a definite *sign of a profane craving for recognition*, assuring Lucifer of success.

Any spiritual existence is denied and abused, it is prosecuted and ridiculed, only because the “pride of academy” could be discredited. But on a *private* level, mouth to mouth and ear to ear, many scholars are in agreement that life in the hereafter *actually* exists. But one sticks together and one is of the same opinion in regards to one thing anyway: “All of this will remain between us, strictly confidential.” - This is how all discussions about life after death end up. But if an unfamiliar colleague approaches, the conversation is immediately terminated. They only whisper when in the public eye so that the one next to them can’t understand.

- But where remains the *real academic laureateship*, which is presented to the public but doesn’t have the courage to *publicly* admit what one secretly accepts?

All those guilty of blasphemous mendacity and pretence will be called to give a special account of their actions when in the spiritual realm because:

This scientific pretence is the breeding ground of all irresponsibility and all wars. It represents an enormous support for the antagonist of GOD!

A few words on superstition (Transmission from the year 1973)

Well, superstition is a belief in something that has *nothing* to do with the TRUTH.

- But there are a lot of THRUTHS that are denoted as *superstitions*, because people *don’t correctly understand them*.

Almost all civilised people consider themselves to be intelligent -, even the dumb ones! This is the reason that one doesn’t publicly advertise that one believes in something others call superstition. One can therefore believe in a TRUTH, which one’s fellow man believes to be some great nonsense.

- Any belief tends to make you *slightly fanatical*, this also applies to superstition. But fanaticism is dangerous, because it makes you *biased*.

Life after death is an actual TRUTH, but in spite of that it is still considered to be a superstition by the majority of people and one therefore avoids the subject.

The sciences have distanced themselves from spiritualism, it is considered a superstition and every scientist is mindful not to be considered a devotee of superstition by his fellow man, because it would harm his academic standing. Consequently research in this field of knowledge never made any progress. Only once they find themselves in the hereafter do these scientists receive a shock when they see that feared and avoided subject of superstition is a divine TRUTH. Parapsychology only recently

managed to breach the wall of obstinacy. But now the suspicion arises that one might be dealing with a mistake. -

Research into ESP has also led to new insights in the Soviet Union, they now confirm that we're not dealing with superstition, but with *up to now unexplained natural phenomenon* on a *spiritual* basis. - The sun seems to rise on the scientific horizon. But because fear of ridicule is still present to a large extent, one faces the public *only very hesitatingly*.

In the field of astrology one is not quite sure whether the stars *can* control the destiny of man. One is therefore liable to say that they're inclined to do so. Here also a suspicion of superstition exists. But people tend *to ignore* the fact that they are *manipulated far more* by the INTELLIGENCES of the spiritual realm.

- *The power to control people from the hereafter is incomparably greater than the stars could ever do.*

Up to now no newspaper has ever reported about *this* possibility, they concentrated on the aspects of astrology a lot more.

Very objectionable is the *copying of spiritual phenomenon*, because the TRUTH is damaged and made incredulous when this happens. This kind of interpretation of divine MIRACLES stuns the mind and hinders progress.

- People seem to find spiritual phenomenon *creepy* and they are therefore *made fun of* until they're considered part of superstition.

Mankind has *a right* to a *meaningful* explanation. But this meaningful explanation must *also apply to superstition*. *There is no reason to doubt the TRUTH only because science is confronted with an "enigma"*.

Realistic fundamentals for a meaningful explanation are certainly available, but they must not be considered a part of superstition!

The great nothingness (Transmission from the year 1973)

Well, faith in GOD and HIS REALM has been discriminated against to such a degree that people have no general concept of its existence. They also know nothing about the hereafter and even less about life after death.

Philosophical thinkers have tried to get to the bottom of this, but they didn't find the TRUTH, because they didn't turn to the *correct source*. They were arrogant enough to trust themselves to get results, because they considered themselves to be *super-smart*.

Hardly anything resulted from these doubts and contemplations.

- People therefore have a *completely false perception* of the hereafter, because they consider that region to be absolute "nothingness" for a "non-event". One therefore states: "Man goes into a great nothingness."

This assumption turned into a *dangerous dogma*, one that even the great Churches couldn't eliminate; because these institutions are also very *ignorant* in this regard and *uninterested* to boot. Their disinterest is hard to comprehend.

The dogma about the "great nothingness" could only have been propagated by the antagonist of GOD, because it entices mankind from one sin to another and from one vice to another, so that mankind sinks deeper by degrees, morally and ethically. But once in the hereafter, the great lamentations begin, because only *then* will people begin to realise that the "great nothingness" is a *grave error*. One can say:

When a person dies, he enters a condition that opens his eyes and allows him to recognise just how very wrong he was!

Many people believe that death *puts people to sleep* because on tombstones and wreath one finds words like: "Rest in peace" or: "Here rest in the name of the LORD..." or: "Here rest in eternal peace..." - etc. The Churches don't like this, they therefore preach at the side of the grave: "Here rests until the resurrection on judgment day..." Und when someone wants to inquire about *when* this "judgment day" was going to be, the reply is: "Only GOD knows. Anyway it will be on the day of judgment".

JESUS talked in parables when trying to make the transcendental *comprehensible*.

I will therefore give you a modern parable:

In the mean time man has acquired the technical wonder of television. This apparatus can be tuned to *various frequencies*. Let's assume that you can follow and observe your life on the "first channel". Then the broadcast comes to an end; but you don't switch the apparatus off but continue to observe your life on the "*second* channel, that is to say, on a *different* frequency. Your existence in the great hereafter is also a life, but in a different way, respectively a life of a *different* FREQUENCY. But once this play comes to an end, the APPARATUS of GOD is switched back to the "*first* channel, where life begins anew so that you can observe it on television.

This is a parable that helps to make you understand that there is *no* "great nothingness", also *no* "eternal sleep" and also *no* "resting till the day of judgment" because:

- *Judgment day is the day and the hour of your passing over to the OTHER WORLD, the "second channel".*

The hereafter is a world of perceptions, exactly the way your world represents a world of secular perceptions, only under a different FREQUENCY!

Spiritual confusion (Transmission from the year 1959)

Criticism is only acceptable if it is *accompanied* by a *better suggestion* and *followed up with tangible support*. Otherwise criticism only constitutes a dilettantish affront.

Everything man physically, mentally, materialistically, scientifically or technically creates on Earth is *preceded* by a spiritual, that is to say, by otherworldly planning. Nothing is initiated by man that hasn't been preconceived.

- *Guard against your own value judgments, because sinning begins when you set your own limitations on good and evil!*

Many people proclaim of themselves: “I’m such a good person, I ever do anything bad, *but* I can’t stand *the others!*” - This is where the spiritual fall from grace *begins*. Many are offended by *the way* their fellow man *looks*, they are either too fat or too skinny or they are too dumb, too loud or too quite etc. There is *no* segregation of souls like that in the spheres of the hereafter, because there, only the heart and good will decide.

The hereafter *doesn’t* consist of thoughts that wander about lost. It is the spiritual realm. And as GOD is SPIRIT, it is *HIS* REALM. But *HIS* REALM is *not* darkness, but a paradise, a brilliant world, large and worthy of being a REALM of THE ALLMIGHTY.

But a lot of lost souls wander about in GOD’S REALM, the hereafter, they are *blind* or nearly blind and therefore live more or less in darkness. These souls *need* the LOVE of their relatives and friends, *even if these relatives and friends still live on Earth*. They can be helped *enormously* through prayers. *Not* by taking flowers to the cemetery, but through an *honest*, quiet prayer before you go to sleep.

These lost souls in the hereafter *suffer*, because the people on Earth have no genuine faith in the LOVE of GOD and because they don’t believe in the continuation of life immediately after death. It constitutes *great support* and *a great comfort* for the otherworldly souls to find out through the prayers of friends that their relatives *possess* such beliefs. It eliminates their great *worries concerning the TRUTH* and allows them to take better care of their *own* well-being so that they can then leave the earthbound spheres.

- The cause of this *spiritual confusion* in the hereafter is often to be found in incorrectly understood or erroneously explained Church indoctrinations. All those numerous *dogmas* and *misrepresentations* have *harmed* the true FAITH.

The Churches have *forcefully separated* from GOD. They fear demons and have little faith in the ANGELS and MESSENGERS of LIGHT. They confuse *genuine* revelations with fantasy and distance themselves from any supernatural contacts, yes, they even persecute mediums out of jealousy. The Churches won’t allow themselves to be guided by GOD, they want to guide *themselves*. But this increasingly places them into the hands of Lucifer and his helpers. *Lucifer has gained a special foothold within all the denominations!*

The difficulty lies in making the right, that is to say, a *good* contact with the hereafter. Communication with souls on the other side is relatively easy and more a matter of practice and experience. Millions of people have had contact with the hereafter and are still having contact these days. But most never succeed in making a *good* contact *or maintaining it*, this is why so many lies and terrible hoaxes happen. All the nonsense transmitted by evildoers on the other side makes you doubt the genuineness of the contacts with the hereafter. It is therefore no surprise that the academically educated doubter only shakes his head in disbelief and talks about a pathological expression of the unconscious sub-conscious. Our main assignment is therefore to *irreproachably verify* the responsible, the conscious survival after the earthly demise. With the power of GOD we will surely achieve this goal in the foreseeable future.

- The existence of GOD is *not a superstition* and the existence of Lucifer *neither!*

The “realm of the dead” is a realm of life (Transmission from the year 1957)

People become wistful when they walk across a cemetery. The grave inscriptions bear witness about the stage those once living have achieved: Here in God lies” - “Here rest in peace” - “Here forever sleeps”.

Did CHRIST teach you these words?

Where did *the Church fathers* get these words from? Probably because they long for rest and peace. I have to admit that the exponents of the Christian doctrine, *supposedly* representing the DOCTRINE of GOD, know *very little* about the HEAVENLY REALM.

- The realm of the dead has *no* similarity to a cemetery. The otherworldly cemetery is a place of horror and despair.
- Und the place of truthful PEACE is a place of vitality!

But the living there are a lot livelier than you on Earth! For a start they’re as quick as a flash in their movements and they are also a lot faster in their activities and thought processes. Boredom only exists in the hellish regions.

GOD, the FATHER *of us all* does an infinite lot for us. HE cannot use idlers about HIM. A sign from him and we’re off and running. Consider the hard work of a GUARDIAN ANGEL: A child is about to get scalded or sticks its fingers through a slightly ajar door. - A worker is about to reach for a rag caught in a running machine. - A man dies in a fire and a lot more. The GUARDIAN ANGEL has to be ready at an instant to avert an accident. He must act spiritually.¹¹ *All of you would already be with us in our realm*, if it wasn’t for the GUARDIAN ANGELS, which know you intimately and are listening in on the most minuscule of your thoughts.

Oh, the “realm of the dead” is not a realm of the dead! We are everywhere and have hardly time to converse with each other. And beyond that we have to go to school to refresh and supplement our knowledge. We don’t sleep in our graves. We hardly remember anything about our former body. Do you know something about the hair you left on the hairdresser’s floor? - Ask an amputee whether his lost leg still gives him troubles.

There is a little person on this Earth who goes to the cemetery and cries and waters the graves. Well, a small flower as an appreciation of my busy life would have done me a lot of good *then*, or a kind word to acknowledge my good intentions.

- *You can spare yourselves your worries about looking after graves, graves are of no importance to us, only when we see that you are still LOVINGLY thinking about us, every now and then. But you don’t have to run to a grave to do so. We can understand you across vast distances.*

¹ Always hoping that the protected in question listens to the subtle impulses and inspirations.

There is a moaning to be heard in our sphere; we simply cannot comprehend that the Christian Churches with all its associated organisations, offices, officials and helpers has not progressed in its contemplations to a degree that they can comprehend our otherworldly existence. Next to me stands a former parson. He taught and preached on Earth and believed in CHRIST and LOVE. *But in spite of this, he never had a perception of the spiritual realm*, and it just about took an eternity before he grasps all of this. He could have had it a lot *easier* on Earth: *because whatever one comprehends on Earth doesn't have to be explained on this side*.

- Here in our world, different LAWS apply. Every stage of development is *closely defined* and this makes learning and comprehending *difficult* in our spheres.
- You on Earth are a chequered lot *without* limitations. You possess many opportunities to learn and to comprehend!

Where is the evidence? (Transmission from the year 1960)

There are certain limits set for the people on Earth. There are things people long for that are unattainable no matter what they do.

The entities on the other side are also subject to those limitations. They just can't go *against* the LAWS of GOD, no matter what they do. One single entity within the spiritual realm has tried to break through the most powerful LAWS of GOD: It was the angel Lucifer.

- The spiritual realm also has its limitations and LAWS, which *make it impossible* to fulfil your earthly wishes.
- They are the reason why the spiritual realm can't deliver evidence *the way you would like*.

In spite of this there are still *many opportunities* to transmit evidence of a conscious survival after "death". But unfortunately the evidence was *misinterpreted* and *derided* by this humanity.

The masses of all nations get to hear almost nothing about this infamy!

Accordingly one *doesn't* deliberate over supernatural evidence *any more*. DIVINE and the devilish evidence have also *arisen* and have been documented *in writing* and *photographically* also *a hundred thousand* times! But all of this evidence is simply plastered on walls by the guardians of science.

Actually GOD and the spiritual realm should have got tired by now of delivering one more proof about immortality. - GOD is long-suffering. HE *continuously* supplies you with proof; in as far as they fit in with HIS LAWS, because GOD'S PLANS of REDEMPTION must not be troubled.

- If an injustice takes place *the people remain quite*, unless a couple of members of the opposition noisily raise their voices as a prank.

I will explain to you how things really are on hand of an example, a parable: Let's assume that a government has formed in a nation on your Earth. This government has taken over all the functions of state and now turns to the public, respectively the rest of the nations, asking to be recognised. But the other nations will not accept this government, because they don't approve of this regime! - Contemplate this situation for a while; it parallels the efforts of the spiritual realm as it tries to be recognised by those on Earth. -

This *non-recognised* government is therefore *a fact*. The members of this government are functioning, but only within their *own* constituency. Not even the slightest effort to verify their power and their existence to the rest of the world will help them, because all the other nation *know* that this unique, *undesirable* government advocates views, that *oppose* all aspirations for power and possessions. The government exists, but it is *negated* by all the powerful of this Earth. -

- The GOVERNMENT of GOD also *exists*, it is an *actual fact*, but it is *negated* by all the powerful of this Earth.

It isn't an argumentation about this actual fact any more, but wholly and solely about its *world-wide acknowledgment*. Just as soon as this acknowledgment has taken place, all the previous earthly laws will be relegated to the background.

But I can tell you that the new LAWS will overshadow everything that existed in regard to order and justice!

A dangerous error (Transmission from the SPHERES of LIGHT)

Well, your legislation runs most of the time in close relationship to your holy scriptures. But the highly respected bible is *jam-packed with errors*, which unfortunately haven't been recognised by theology as such. Believe me, the prophets and apostles of *all* denominations have also made mistakes at the time and in many cases *deceived themselves* or were *mislead*.

- Supernatural gifts alone *are not enough* to receive the unadulterated TRUTH. It takes thousands of years of experience.
- Only with astronomical, technical and scientific experiences in all of the fields of the spiritual *and* the physical will it be possible to carry out *controls* and *comparisons*, which will lead you step by step to higher KNOWLEDGE.

The people from a neighbouring solar system² that have periodically visited the people on Earth, possessed such higher knowledge *thousands of years ago*. But their warnings and divine MESSAGES were *not taken seriously*, and *were* most of the time not understood because the development of humanity on Earth is still in its infancy. Even the most advanced cultures of the human race were *only one-sided* and their divine KNOWLEDGE contained mistakes and errors.

- Your present day theologians ask for *blind and mindless* obedience threatening that everybody who criticises the Holy Scriptures in any way is on his way to hell.

Those that follow this theological mistake have no opportunities left to understand GOD, nor comprehend HIS assured LAWS.

The falsified and highly distorted bible and all *the other* holy traditions, seduce people to create for themselves a completely false picture of GOD and HIS REALM.

- What is even worse is that *fanaticism won't allow* any attempts to clarify these pernicious scriptures.

² Alpha Centaury, about 4.2 lightyears away from Earth.

The gold brocade, the Brussels laced robe and the black gown hide all the sins and human weaknesses, the *rest* of the people are tainted with. The bible erroneously teaches that GOD is an avenger. - The LORD says: "Vengeance is mine!"

The abuse of HIS NAME appears in all shapes and sizes in an infinite procession. Only the realm of Lucifer *knows* revenge. But with GOD and HIS REALM there is understanding and JUSTICE. But your political development is marked by this *erroneous application of revenge* instead of JUSTICE. - An error that ends up in death!

- Natural catastrophes, floods, erupting volcanoes, typhoons and electrical disasters are *not* retributions of the LORD! Swarming ants, plagues of locusts or epidemics neither. All of these occurrences are *side effects* that are *dependant on the development* of an enormous power play between the higher powers of CREATION *and of destruction*.

It is not the WILL of GOD to harm anyone. Martyrs and victims of this enormous struggle will find justice in the REALM of GOD. Those that make the sacrifices will reap the benefits.

In most cases, man destroys nature, kills himself or his fellow man, attacks the divine ORDER and blasphemes GOD in HIS NAME. He feels mighty and free of all his sins and damages the genetic make-up of his body by his unnatural way of living, without realising that *through reincarnation* he will end up being his own great, great grandchild!

Something about the hereafter (Transmission from the year 1972)

Well, the hereafter is *not* a realm of the dead. *A realm of the dead doesn't exist at all*, because life also rules in the hereafter. If somebody reports about the hereafter on hand of his own experiences, he is ridiculed and attacked. The same thing happened to CHRIST. This is why nothing has changed in this regard up to now, because:

- Powers and intelligences antagonistically inclined towards GOD *don't want* that mankind is informed about this. This is why it wasn't possible for the Churches to learn and to teach the TRUTH about the RELIGIONS of GOD.

It is wrong when someone insists that great, intelligent thinkers are not interested in the hereafter and therefore have not admitted to avow to this TRUTH. Great thinkers and philosophers have *occasionally recognised* the TRUTH; they *haven't* been afraid to openly confess to believing in it and to teach it.

Let's consider Socrates for a moment³: He was a scholar and a famous philosopher. He *had* contact with the other side, informed himself about a lot of things and tried to publicise his knowledge. But his fame didn't help him, because the adults, the guardians of politics and science declared him their enemy.

Socrates then tried to influence youth, which he considered to be unspoilt. But he was subsequently accused of *debauching* the young and *teaching them appalling nonsense*. He was sentenced to death. - A similar case to what CHRIST experienced.

Nothing has changed in this respect up to now!

Even nowadays eminent men try to teach the TRUTH; the TRUTH about the immortal soul, which *consciously survives* in the hereafter. Being famous, even being a Nobel Price recipient doesn't help them. - One makes their life a misery.

- Those that *spread* divine TRUTHS and are attacked because of it must know that these attacks are also directed *against GOD*.

Can a *normal* person understand this behaviourism?

What is *illogical* about the teachings about the hereafter?

I will explain it to you: Scientists and many other intelligent people say to themselves: "The teachings about the hereafter cannot be correct, because if there is *no* matter in the hereafter, how can one live there, dress oneself, eat and drink, build and lots more?" - The hereafter is *supposed* to be the realm of the dead and of "eternal peace", a realm of "eternal sleep".

All of this is nonsense!

There is actually no physical matter on the other side, because it is perceived by the otherworldly soul only as a picture of light. But *instead* of physical matter there is some SUBSTANCE *that subordinates to the wishes of the people living there*, that is to say, which can be formed and shaped at will.

- Everyone on the other side can manipulate this SPIRIT SUBSTANCE. This is why there are *demarcated* spheres there, *so that no nonsense takes place*, something that could have dangerous consequences.

³ **Socrates**, born in Athens ca. 470 BC, dies 399 BC, Greek philosopher. Son of the stonemason Sophroniscos and the midwife Phainarete; married to Xanthippe. After his military service (Hoplite in the Peloponnesian War) he administered political offices, where he was not obligated to abide by laws and justice. In 399 BC, he was accused of allegedly introducing new gods and of seducing the younger generation and condemned to death by drinking hemlock. Socrates left no writing behind, because he only taught orally, so that only his pupils (Plato, also Xenophon) can give an account of his occidentally thinking, basic philosophy.

As an ethic, Socrates dedicated his thoughts to moral behaviourism. In contrast to the sophists, his methodology wasn't based the dialectic-rhetoric masterpiece to make the true seem to be false and the false seem to be true, but to recognise the true as such, applying dialectic artistry. His aim was not (as it was with the sophists) recognise the beneficial as positive, but the realisation that the positive was generally beneficial. After Aristoteles, the new artistry of Socrates consisted on one hand in allowing the observations of the essential to accend to generality (Induction), or on the other hand by abstracting from the inessential and by summarising the essential to arrive at solid general terms. (Definition) This method was practiced by Socrates in the form of dialogues with his pupils: He proceeded in a way that the questioner, even though he has the knowledge, pretends to be ignorant, whereby the questioner pretends to be indoctrinating him as if he possessed the knowledge. This method, to teach the truth in this fashion, is called *socratic irony* or *maeutics*.

In regards to his own actions, Socrates called upon his *demonions*, a warning VOICE, which, if something unjust is about to take place, would make itself known. The moral reasons for the self-assuredness of man (not in regards to morals, state or religion). Established knowledge of goodness brings the correct action with it by necessity: Knowledge is virtue.

If someone on the other side wishes to dress in *medieval clothes* because it pleases him *he can do so*, because he can manipulate the SUBSTANCE there. But he can also arrange *his own body* in a way that the SPIRIT SUBSTANCE of his soul, that is to say, his astral body can be utilised as clothing.

- With the aid of the spirit and fantasy, an otherworldly can adopt the shape of an abominable demon⁴, something a positive spirit would never do.

But a good spirit, a noble soul can acquire *a loveliness* of self in the same way, something you just can't imagine.

Anyway, it is beneficial to work on oneself - here and there.

Every little effort is rewarded a million times!

This is not a fantasy, but an *otherworldly reality*, which is however taking place on a DIFFERENT SIDE of one's existence.

Apparitions (Transmission from the year 1962)

Well, extra-sensory apparitions have coined the term *phenomenology*. But most ask the question why these apparitions are *so rare* these days, whereas the bible depicts an *amplitude* of such phenomenon? - Strictly speaking, these apparitions *certainly* haven't *abated*, but in contrast to the past, they are now called a *pathological fantasy*. Even if a supernatural phenomenon is observed by thousands of people at once, one dismisses this with the term of *mass-suggestion* these days; that is to say, one calls it a hysterical mass-imagination.⁵ Insofar as *imagining* something suggestively, one already utilises the possibilities of the astral world. Every contemplative imagination can take place in two different ways:

- In the first instance, the physical world is reflected within the soul when the physical sensory organs direct the detected impressions *via the brain to the soul*, where they will be perceived, that is to say, made *conscious*.
- In the second instance, the opportunity presents itself through the lightning fast forming and shaping of the astral matter by the power of creation of one's fantasy. In this case, *the astral world is reflected within the soul*, by recording all spiritual images of one's imagination via the astral brain.

Man can therefore *see* things in *two* different ways. He uses his physical eyes or looks through his SPIRITUAL EYES. Something real is present in *both* instances! You have to remember that *every spiritual conception* or hallucination is *represented* in the astral world by an actual object. Even if

⁴ The same is also possible, namely that a person residing in the spiritual realm enables the relatives that enter the spiritual realm after him to recognise him, by assuming the form he last presented whilst on Earth. In such a way and in similar way recognising one another is always guaranteed.

⁵ A classical example of this is the so-called "Miracle of the sun" of Fatima. An extremely beautiful human figure appeared to three shepherd children out of a white "cloud". This extra-terrestrial entity brought three important messages for all of mankind. To give the stories of the children a certain credence, an announced "miracle" happens on the 13th of October 1917, observed by tens of thousands of people. Grey rain clouds parted and a brilliantly illuminated disk appeared. It performed some astonishing manoeuvres and bathed the landscape in colourful light. Most of the witnesses fell on their knees and started to pray. An extra-terrestrial phenomenon and three prophetic messages for mankind, two of them have already been fulfilled. There are actually similar events reported all around the world. - But the Catholic Church talks about a "light-ship of our Lady" and keeps the third message under lock and key.

these objects were *created by you* as a phantom. But they *can't act independently*, but are subjected to your will.

But there are a number of phenomenon's that belong to phenomenology, because they are *not* subjected to your will, even if they are a part of the astral world. Such an apparition *doesn't do* what *you* would like or wish it to do, but acts *completely individually*. It is an apparition that has an active, but also an *absolute autonomy*.

This autonomy, only subjected to the *will* of the apparition, *is the proof* that they *don't* belong to fantasy or suggestion that perceive this apparition. The academic sciences of this Earth must in future endeavour to make a definite distinction in this regard!

Every *self-created* phantom, whether dead or alive, doesn't react to any other will but its *own producer's*. This phantom reflects the wishes and also the inhibitions and complexes of the producer.

- *A genuine, supernatural apparition, which is supposed to represent a message from the REALM of the LORD, cannot be influenced by the observer in any way. As soon as he tries to do so, the apparition simply vanishes.*

These apparitions can't just appear at any hour of the day or at any time. It always takes extensive preparations to create and co-ordinate *all the prerequisites for it*. But it happens some times that these prerequisites *appear on their own accord*. The sciences unfortunately make the mistake of assuming that this spiritual activity *begins and ends within the brain*. But the brain is *not* the end of the line for the consciousness, but only an intermediate station, a transformer or a converter for the divine soul.

- *The activity of one's consciousness is astral, meaning: COSMIC!*

Apparitions (Transmission from the year 1962)

It is only natural that most people *cannot* comprehend that there are also OTHER WORLDS where souls can live. - Let's assume that a psychic person in a spiritual opportune moment *sees* a soul: This soul is dressed and carries a briefcase under its arm and a watch chain on its vest. It's a matter of course that nobody will believe what the psychic seer has seen. This all seems to be a rather a phantom of a *pathological fantasy*. A psychologist will mock the seer and consider him *schizophrenic*.

- In spite of this it is a fact that the souls in *our WORLD don't* walk around *naked* or in *white robe*. Our OTHERWORDLY WORLD represents in some way a *parallel* to the secular world. It has, for example, a *physical substance* that *complies* with the wishes of the soul.
- *With the assistance of the power of thought, everything that one's fantasy, respectively the power of imagination of one's consciousness can imagine can be created.*

This is the reason why an otherworldly person represents a kind of "conjurer" who can *design* according to his wishes. From the spiritual MATERIAL he can form anything that develops within his consciousness. He can therefore *instantaneously create* a briefcase, as well as his clothing and the watch with the chain.

- This might sound quite improbable to you, but *if you close your eyes and dream*, you have these things quite clearly before your eyes, if you concentrate on it.

But the hereafter is a realm of *superlative* possibilities. *Everything* is actually superlative. LOVE and hatred *are heightened*, as are the TRUTH and lies. Yes, the scent of the flowers is stronger and the colours more intensive. But those that are hysterical seem to see things even more fantastically and unlimitedly enhanced.

- *To prevent the creative possibilities from somersaulting in the hereafter, the Earth is supposed to be a school for its sensible application.*⁶

It is only natural that the deceased bring *with them all their habits* and traditions from Earth. They continue what they have started on Earth. For this reason the hereafter represents in many cases an absolute parallel, for instance in regards to fashion, sporting or other matters. We therefore have gardens according to your models. We have houses and institutes of learning, yes, even kindergartens and sporting facilities, which serve to entertain and not to further one's physical prowess.

You have to envisage that from our side, we can see and perceive your physical world merely as a *permeable haze of rays*. For this reason we walk through a permeable wall with a body that feels very solid *to us*. In our life, everything mundane is considered "otherworldly", the difference being that we can perceive the mundane *in spite of it*. If someone talks about a glorious "Pearly Gate", it certainly isn't a fairytale, because we have plenty of doors like that. They are actually *built by fantasy*, but consist nevertheless of a SUBSTANCE that contains the building blocks of the universe.

We also have prisons and *sealed-off* areas for those souls that do not fit in with us, that is to say, who with their *anarchistic* intentions place themselves *outside* of our COMMUNITY. They belong to a lower, a GOD hating world. - But we welcome every artist that is good at what he does. He has great opportunities here to creatively design the fantastic and extremely beautiful. But *abstract art isn't* welcome here; *it belongs to the nether regions*.

The LAW of harmony may not be trespassed against in the positive SPHERES!

Apparitions (Transmission from the year 1962)

I have to repeat myself over again: You truly live in a beautiful world, but unfortunately you make your *own* situation uncomfortable any way you can. *You create your own misery* and never think of abolishing it.

But you're not quite unaware that there is supposed to be a spiritual realm wherein there is to be found a paradise, at least *some of you* proclaim to know about it, maybe just to console themselves.

- This is the reason why this consolation is regarded *a pious lie*, an *opiate anaesthesia* and a hope for a more beautiful existence.

Well, it *isn't* anaesthesia, but certainly hope!

It is a TRUTH that has actually *nothing to do* with the physical world and is therefore *so very hidden* from you.

⁶ One recognises quite clearly just how practical it is that the physical atoms of creation – apart from a few exceptions – don't react to the thought processes of the people on Earth.

- In spite of this, life on Earth is a *very necessary prerequisite* for a life in the hereafter. It is preparation and education. The fact is the under *positive* prerequisites, the hereafter offers a *completion*.

I will explain it to you, because it is important beyond compare and promising.

This is only an example for you.

I will try a CHRIST parable:

A gardener on Earth propagates beautiful flowers with all his LOVE. He tries in all sorts of ways to create new forms and colours or especially valuable hybrids. He is sometimes successful in producing a number of new varieties of flowers. But within his mind he fantasises about something very special. He would like to have a splendid specimen of purity and beauty, scent and harmony of his own making in his hands. But unfortunately a whole life passes by. He never creates this example. It remains a dream of fancy. -

But because this gardener is a *pious* person, he enters paradise *after his demise*, namely into the so-called “Summerland” of the spheres. The gardener has completely different MATERIALS to work with here than on Earth. It is a *spiritual* SUBSTANCE that has *more* applications than anything comparable on Earth. The gardener can therefore *creatively act with his will* and realise his dream. He can *accomplish* what he had planned and prepared during his life on Earth.

The language used in the hereafter

(Transmission from the year 1972)

Well, when SPIRITUAL TEACHERS come to you, there is a reason for it, namely to *teach you*, so that you learn something that will generally help you in the hereafter, *after* your “death”.

Unfortunately many people, in their ignorance, think that they don’t need any indoctrination about the hereafter, because in their opinion there is no hereafter. But when travelling to a foreign country one can’t get a lot of information about, every rational person would try to *gain some information beforehand*, that is to say, to *familiarise* himself with all the customs and traditions. Don’t believe that this preparation is hard to do.

But to start with, the question is: *How do I begin?*

One of the most important gifts GOD bestowed on man is language, therefore communication. It can be of an acoustic nature, but *also telepathically*. Generally speaking communication within the spiritual realm is very simple. It takes place incomparably faster than here on Earth, because the physical brain is switched off. *The detour* that would otherwise slow down the thought process *is missing*.

- All people can communicate very well with each other in the hereafter, even if they speak *different* languages. Telepathic concepts and mental pictures are sent and received. *Everyone acts as his own interpreter* and translates the received concepts into his own mother’s tongue. But if the sender speaks the *same* language as the receiver, the transmission can also take place *verbally*. These transmissions are of such a high standard that they *can’t be compared* to any form of communication on Earth.

But what actually takes place when a disembodied soul enters our spiritual realm?

Most people have a completely *depraved* subconscious. One cannot describe what has *accumulated* within this mental reservoir. All the crude and vulgar expressions, pornographic imaginations, suppressed baseness, collected impressions from negative movies and journals, accumulated hatred, malicious glee and a lot more. Especially one particular hideous word that pops up at a moment's notice, one that isn't even appropriate in the toilet. - All of this is *completely exposed*, because the physical brain that served as a guard and restraint was left behind.

The hidden subconscious and the whole conscious, which are COSMIC PROCESSES, assume *complete* activity and *despair* the disembodied soul, because all of a sudden it has *an overview* over everything his conscious has hoarded and collected.

You can imagine *how important* language is: One single word can become an annoyance, if it repeatedly appears even if one would like to ignore it!

- Hoaxing spirits know all about it and they make use of this opportunity, one that can send a normal person *around the bend*. This surfaces as a *possession* during your life on Earth, something one *erroneously* calls *schizophrenia*.

What can one do about this?

I advise you to:

- *Cultivate your language*, because you will desperately need it later on.
- To be able to reach the HIGHER SPHERES within the spiritual realm one has to be able to speak properly, otherwise the HIGHER INTELLIGENCES will *avoid* you.

From our spheres (Transmission from the year 1972)

To start of I would like to tell you that we *also have a form just like you*. We live in *various* spheres, which are compatible to our personal development.

- But we have to fulfil various MISSIONS. *Idleness doesn't exist here*, at least not in our sphere.
- GOD'S ANGELS entrusted us with these important MISSIONS. A pledge *obliges us* to definitely fulfil it.
- *We enjoy great freedom when we strive to do good*. When we possess this freedom, we're able to reach any other place at the speed of a thought.

This freedom is *symbolised* by the wings of the ANGELS.

- It is a mistake to think that ANGELS *have* wings; most of the time they are only there to *indicate* that one is dealing with ANGELS.

We are TEACHERS in our REALM, a large COMMUNITY that has bonded very closely and virtually constitute a sphere. It is our assignment *to help you*, to protect you if at all possible and to give you advice every now and then. *If we can manage* we try to protect you from illnesses or to heal them. We

would like to indoctrinate you, to convey the TRUTH to you and the open your eye, which have been clouded by the antagonist.

It is our desire to become your good friend so we can journey along the divine PATH *together*. Sometimes this PATH very long and has many obstacles; but if we *stick together* we can make it.

- *Don't ever think that you are alone; we guard over you ever second of the day! We accompany you every step of the way.*

We try to warn you, but unfortunately you very seldom listen to our warnings, our admonitions. Beside, every one of you has a personal GUARDIAN ANGEL and he knows you intimately; you have virtually grown up together. He laughs and cries with you. He assimilates all of your emotional demonstrations. But if you don't get on with other people and begrudge them everything good, this GUARDIAN ANGEL is mortified and deeply disappointed and sad. He sometimes allows himself to be replaced because he can't stand the heartache anymore.

- *Never believe that nobody listens to you and that you must live in your world misunderstood. One of us is always at your side; because if something serious should happen to you, we will be ready for you immediately.⁷*
- Every one of your prayers will *at first* be perceived by the THOUGHT BEARER on the other side, namely by the GUARDIAN ANGEL. If a prayer *comes directly from the heart* and is *sensible*, the GUARDIAN ANGEL can *then* pass on this prayer. An ANGEL can then evaluate and decide. If the prayer is *worthless*, it will be ignored, because its VIBRATIONAL FREQUENCY is too low.

We're familiar with your situation, it is a difficult one. But we hope that everything will turn out fine; because whatever happens: *GOD will always be the winner!*

But you *shouldn't* apply your calendar.

Misinterpretation (Transmission from the spheres of LIGHT)

Recently I observed a famous doctor. He debated over the possibility of *conscious survival* after physical death. At the end of the debate only one theory was left, one that he stubbornly supported. It was *the theory of the ingenious subconscious*, which was drawn into the conversation as the ultimate explanation for the incomprehensiveness of the human soul. The colleagues he debated with supported the opinion that matter - in a certain configuration - thinks. (Dialectic materialism)

The travel-story writer Karl May was *highly psychic* and wrote about 50 books. I ask you: did *matter* come up with this copiousness of adventures and has all this fantasy room within the subconscious? It has never been found within the brain. But how can matter retain and meaningfully order such a mass of thought processes and mental imagery? - Where sense, respectively logic fails, your thought-up word-monster comes to the rescue.

But the reality is that one abnegates GOD as a supernatural SPIRIT, because nobody has ever *seen* HIM. The divine soul of man is abnegated in the same way, because one also *has never seen* it within a living or a dead body. But the soul has previously been seen a millions times by the living, when it

⁷ But how far do we believe in it? – and destroy this extremely important – sometimes even vital – connection because we don't believe?

was *outside* of the body. The functions of man and his soul are very practical and are not surpassed by any other created entity. -

Would it make sense if man would hallucinate so irrationally? There are verified cases where someone spotted the soul of a departed and where this soul was *simultaneously* seen by an animal, which reacted accordingly. Where does the explanation of a hallucinating subconscious fit in here? -

- I repeatedly tell you that it is *not* about proof, but only about misinterpretation!

How comforted people would be if they possessed the assurance that they cannot die spiritually. We are trying to give you this assurance, but the result is unfortunately withheld from mankind.

At the time when the events that constitute the contents of the bible were taking place, people didn't have any significant experiences in the field of research into the hereafter. It is therefore no surprise that they interpreted these kind of observations *wrongly*. The importance placed in the bible *these days* unfortunately leads to *erroneous* conclusions.

- *We terribly regret the fact that the Christian Churches never initiated a spiritualistic seminar. This is why the Churches of the LORD lack contact with GOD!*

All wars on this planet are the result of *pure dogmatism*, even if it's only the notion of being the stronger one. The major religions unfortunately make the same mistake and end up fighting each other. The same applies to the sciences, here also strength is all important, whereby the state supports anything that *allegedly gives them the right to kill*, because without this alleged right, no regime can maintain its position. To be able to achieve a durable peace, one has to grab the evil by its roots. This recipe prescribes:

- Renunciation of any dogmatism.
- Balancing of powers based on an *international ban on shedding blood and damaging health*.
- Settle all differences of opinion based on the divine right of *every* individual to live an *unrestricted* life on this Earth.
- *Condemn all guilty parties by banishing them to primitivism.*
- Deposing any statesman, if he *displeases the public of the world*.

The borders of geniality (Transmission from the year 1963)

Well, man can achieve a lot, but there are *constitutional limits*. Sometimes these limits are *transcended*, so that the term "genius" or "infant prodigy" is applied.

- In all instances where the natural boundaries of human capability are *transcended* you are dealing with an *inspiration*.

An inspiration is never an individual thing. In most instances it is instigated by spiritual INTELLIGENCES. Most people unfortunately never think about this kind of mental co-operation, because they consider an existence outside of their physical world *impossible*.

The section of mankind that does *believe* in inspiration unfortunately is of the opinion that this inspiration represents a spontaneous, exceptional ability *of one's own making*. One considers such a feat

one's *own* ability, something that goes beyond the norm. This distortion leads to enormous mistakes, something you're not able to calculate.

- These mistakes oppose all our endeavours to convince you of a continued existence in our far greater world.

If for instance a good medium is utilised by us, a *go-well-beyond* the capabilities of all mental POWERS takes place. This isn't actually inspiration anymore, but an *absolute contact* with a living person. If the medium in question attracts attention due to its excellent effort, the know-it-all of some standing turns up and insists that this medium possesses these ingenious POWERS *within its subconscious*, which come to the surface because of the mediums abnormal condition.

My dear friends, this is **a grave error**, one that we in the spiritual realm deeply regret.

- The ingenuity of man has its limits, *even then*, when we're dealing with a medium. Even an artist encounters limitations that he or she cannot escape from.

How does one recognise these limitations?

Well, they appear immediately once the medium has *gone beyond* his or her experiences and memories.

I will explain such a case to you:

Let's take a medium that is made use of by a spiritual GUIDE. A spiritual GUIDE is naturally always a soul from the other side. The medium cannot speak or write one word in French, he or she has absolutely no expertise in this language. But the spiritual GUIDE was a Frenchman in his past earthly existence. It is therefore easier for him to communicate through the medium in French. This naturally makes a great impression on the people, but not on all of them, not on the know-it-all with their reservations. They declare in the name of science that this represents an ingenious application of the subconscious, even though the limits of human self-ingenuousness have by and large been surpassed.

There are still a number of doubters that have *never witnesses* such an accomplishment. They've *only heard about it* and consider all of it mere cock-and-bull stories. I would like to advice them to have a look at the Holy Scriptures. The Pentecost miracle of the Apostles describes cases like these in detail. We are dealing with *biblical* proof here, indicating that there have been mediums and spiritual GUIDES for thousands of years, actually always.

Cases like that are *certainly nothing new*, but only the *continuation* of a co-operation between people from Earth and otherworldly souls. It isn't really necessary to discriminate against this co-operation, it would represent a blasphemy against the DIVINE REALM!

When the fun is over (Transmission from the year 1961)

It is difficult to believe that *in spite* of all the religions and an enormous number of Churches and temples a situation exists that one could describe as *world-atheism*. There is of course a valid reason for all this ungodliness. To formulate this is very easy and goes like this: "I only believe in what I can *see and touch*." - A blind person doesn't see anything even though it exists - and amputee unfortunately can't grasp anything, because he has no hands to do so!

But if man fails, technology is supposed to help him.

- In the mean time one asks of science and technology to *verify* that something invisible and impalpable exists - if they can't, it doesn't exist.

But who can *touch* or *see* man's consciousness? The thinking process and consciousness can only be expressed by an animated body. - But what happens when there is no body anymore that obeys this consciousness? But that is no reason to assume that a consciousness isn't present anymore. In this case, it just is *incapable* of expressing itself!

- But if under certain circumstance the *disembodied* consciousness (soul) *finds an animated body* that *reacts* to another, invisible and impalpable consciousness besides his own consciousness, we are dealing with a medium. (The bible calls them "prophets")

This *organic instrument* can switch itself on and off and *surpasses any technology*, because it is a divine INSTRUMENT, one that the CREATOR created and *not* one that came about through man's talent and diligence.

Why do the Churches not take these divine TOOLS serious?

One certainly gave it a try, but the results *were not quite* what one *envisaged*. The fact was that invisible and impalpable intelligences announced themselves through these mediums, but they didn't seem to be departed people. *They derided the priests and the believers*, they became inconceivably *rude* and *terrible in their blasphemy of GOD* or *they told such awful lies* that it horrified the people on Earth. Those "researchers into the hereafter" lost interest and wondered what this terrible contact was actually all about. But as these entities could certainly *never* belong to the divine HEAVENS, they would have to belong to *hell*. But one entertained some fantastic notions about hell at the time that it just couldn't be possible that these superlative blasphemers could *ever have been* human beings. The priests were quick to judge and agreed that they could only be *demons from hell*.

But one also tried to quote the angels.

But the "angels" that did announce themselves lied or deceived with sweet words, praised GOD and all the Saints, but *didn't communicate any TRUTH*. If they were chided about it, they also revealed themselves to be very vulgar spirits. The fun came to an abrupt end and spiritism and spiritualism were "exposed" and *condemned as the devils work* by the Church and were finished.

The people that had started to research the hereafter *were unable* to penetrate "hell" and break through the physical attachments. They were no better than those hoaxing and lying spirits within their soul.

- They attracted this conformity to a natural law, because *they glorified themselves*, instead of being sincere SEEKERS of the TRUTH.

Their failure was the just reward for the unredeemed and ignorant state of their soul.

Why only the mighty ones? (Transmission from the year 1960)

GREETINGS IN THE NAME OF GOD! - I come to you with good intentions.

May I explain to you why we souls, who all too often annoy you, are so malicious? I'm just an unimportant soul and I'm not *associated* with the great SPIRITS, the one's you would like to deal with exclusively. My life on Earth brought me little luck and even less insight. *My occupation was that of a priest.*

I was very disappointed and felt betrayed by life in general on your side. I was a martyr of a *distorted* faith. But it was *my own doing*, because I *closed* my mind against the actual TRUTH. Please allow me my wish to talk about it. I'm *not* a TEACHER from the hereafter, but a soul that had some bitter experiences

- I *believed* to be a servant of GOD, but I was a servant of aberration. This disgrace took away my sanity.

Next to me were thousands of souls that shared my misfortune. Then a new misfortune approached us. We had the opportunity *to observe* the people still living on Earth.

- I saw my colleagues on their own -, in a way that I have never seen them when I was alive...
- I saw all these people inside their apartments and observed their personal mannerism...
- I saw the world in a way I *never* suspected I would be...

To the outside world most of them behaved nearly *normal*. But woe and behold if I encountered them alone or within the close circle of family and friends...

I wondered why there were and are jails on Earth. Almost all of mankind belongs in such jails if laws and justice were correctly applied, even judges and benefactors belong there. My indignation was justified but it *didn't* raise my spirit, but rather plunged me to the depths of despair. *I was annoyed* by my inability to give the people living on Earth a piece of my mind. *I couldn't understand* why the MESSENGERS of LIGHT are so generous and why they tolerantly turn a blind eye to all the evils of deceitfulness and treachery. A lot of the souls around me were of the same opinion: One had to be ashamed to be a human soul. - But *we completely forgot* that we once lived exactly *the same way!*

We were of course able to influence many people, especially when they had just experienced a *great annoyance*, or - as one tends to say - lost their nerve. We then took great pleasure to vent our own spite on them. *They never caught on that we could make them dance like marionettes.*

We came across *spiritual circles* that sometimes consisted of only one or two person. We managed to read their thoughts and cleverly joint in to then take away the pleasure their curiosity gives them, because it *wasn't a true* yearning for knowledge, but really only *profane curiosity* or the hope to gain power and riches with the help of supernatural co-operation.

We *believed* that if we *were not allowed* to be SERVANTS of GOD, that we could at least be GOD'S avengers. We have never come across a situation where GOD used HIS fists to create order, especially where it would really have been appropriate. This is why we did it for HIM. Many, many souls are still doing this for HIM, believing that they are taking over one of HIS TASKS.

But in the *meantime* I have *come to the conclusion* that revenge must not be employed.

GOD *didn't avenge* my mistakes either. But because of *obstinacy* and *dogmatism* I didn't *want* to abide by the TRUTH. I'm at a stage now where I know that evil can only be cured with LOVE. *But this cure is very difficult*. I will *still take a number of earth-years* to learn this. The worst thing thou are the pictures you paint of us. (Ghostly caricatures) Disgusting! Are they supposed to be your future portraits? - GREETINGS IN THE NAME OF GOD!

Questions and answers to this theme.

Question : Can you tell us something about the otherworldly spheres?

ELIAS : These spheres can be *anywhere*. These spheres can be quite close to one another, they don't necessarily have to be immeasurably far apart. An otherworldly sphere can begin *one centimetre away from you*.

The changeover from this side to the hereafter can sometimes be *very uncomfortable*; in certain cases even *painful*. It always depends on *how* one departs this life.⁸ But once the separation of the soul from the body has taken place, the soul will find itself *instantaneously* in a dimension that *matches* its vibrations. The *previously* experienced dimension will then only be perceived as something *transparent*. In this condition, the soul that passed over finds itself in a kind of *twilight zone*; it *temporarily* belongs to *two* worlds at once. This condition slowly changes as it all depends on the level of development of the soul, until it is inevitably accommodated in its appropriate sphere.

The separation *doesn't leave behind an uncomfortable feeling*, rather a feeling of relief, because withheld ENERGIES are released, as the physical doesn't present an obstacle any more. The same condition exists here that someone experience when between an awake state and a dream state. The different *reincarnations* also belong to GOD'S CREATIONAL PLAN, the way the ENTIRE CREATION has its function.

There is however an enormous difference between the shaping of the physical or the spiritual region. In the spiritual regions, man creates everything *with the help of willpower* according to a plan and his fantasy, whilst terrestrial man has to create everything *by the sweat of his brow*.

The way the perception takes place is *very different* between the various planes of existence. Only by the process of traversing between the here and the hereafter can man experience the wholeness of divine CREATION. There are for instance aromas present in the hereafter that are *not* present on this Earth. The same applies to light and colours. But there is *no wind* in the hereafter. One more perception there - one less perception here.

As a matter of fact, the hereafter is *unimaginably larger and versatile* than the here.

⁸ See brochure: *Das Mysterium des Sterbens*. (The mystery of dying)

Life on Earth is relatively very short and once in the hereafter, one has the feeling of only having made a short side trip.

All lives are like creeks and rivers that strive for the sea to be united. But *every* soul still remains *individual*!

There are also all the various dark spheres in all their ranges of gradation. The LAW “birds of a feather flock together” applies in the spiritual realm and *not* the general view of: “Opposites attract”!

Question : Are the various spheres differently equipped?

ELIAS : Yes, they are. But in addition there is a *refined way of perception*. An advanced soul finds it a lot easier to perceive the finest of differences than an undeveloped soul.

Question : Do souls enjoy *different* freedoms?

ELIAS : If we talk about movement, you’ll find that developed souls enjoy a much larger elbow-room in regards to bridging cosmic distances. But if a soul happens to be *immobile* for quite some time it is usually self-inflicted. A *good* soul can naturally pass through good SPHERES. But an *evil* soul can’t do so, it will not get through. - That is the LAW!

Question : Why is it so difficult to improve and educate souls in the hereafter?

ELIAS : There is no excuse in the hereafter as to why a soul that had access to positive INDOCTRINATIONS simply *ignored* and *rejected* it. Because it was too inconvenient for them to change and to fulfil the following three things, namely: to *respect*, *love* and *help* their fellow man. - These are the three things that are the KEY to heaven, respectively, to the better SPHERES. Those that fulfil this live in the grace of GOD!

Question : How long does the training, the way it’s organised in the spheres, take?

ARGUN : The training in the spheres aligns itself with the *abilities* and *characteristics of the pupils*. Training within a sphere takes between 4 month and 200 years according to your chronological calculations.

Question : Do the souls that possess some knowledge about the research into the hereafter whilst on Earth, have an advantage?

ARGUN : This knowledge and their good intentions raise every soul very high indeed! Our shared MISSION has helped many, many friends very much. What use are all your worldly powers if you are alone, without a *true* friend in the hereafter? It is wonderful to possess the knowledge that the souls *doesn’t* die with the body and that it *isn’t* carried to the grave with the body; but above everything else, that it *isn’t lead astray*. It is the most beautiful feeling to be allowed to occupy a place within the REALM of GOD, something that isn’t the case in the physical.

Question : Are there blind people in the spheres, because many a psychically talented painter has depicted figures without pupils when they painted lost souls?

ARGUN : *No*, but there are those that suffer from *self-inflicted blindness*, because of their arrogance and pretensions. But there are also *disinterested* souls, who love the darkness; they take a long time with their development and are therefore not reincarnated straight away.

Question : Do the spheres have anything to do with sunlight?

ARGUN : *No*, the LIGHT in the spheres comes from GOD. It *isn't* physical. This is why developed souls can *see everything, even in complete terrestrial darkness*. A person on Earth can be thoroughly observed in absolute darkness.

Question : What are the main factors applied when a soul is incorporated into the spheres?

ARGUN : Departed souls are accurately assessed on *what they have done*, the heart is tested in the process. The smallest of marks play an important role.

Question : Is there a separation between the various religious denominations in the spheres?

ARGUN : *Certainly*, there are groups like that within the spheres. But *spiritualism* plays *the greatest part*, because it is *the greatest* religion throughout the universe. Willingness and an interest for everything must be present. It is lacking on Earth. But a willingness to go to war is *much greater*. Mankind lives according to the motto: It is better to be a dead hero, than a live hero. The *neglect of one's own health* is also a part of it.

Question : Most people can't believe that the souls in the hereafter dress similarly to here on Earth. How do you explain this?

ARGUN : One also controls "spiritual" MATTER in the hereafter, but it reacts to one's will power. Wishes can be realised like that. Most of our friends are very plainly dressed in our realm. But those who were very meticulous in their appearance and craved for recognition will do *so more than ever*. The power of thought plays *the greatest part* in our realm.

Question : Is there a specific religion in the spiritual realm that has precedence?

Answer : Service is the denomination of the spirit. The only religion I preach is:

- *Help wherever you can!*
- *Don't* pay any heed to theology, declarations of faith, rites, ceremonies or doctrines. *Don't* pay any attention to altars and church steeples, colourful glass windows, robes of office and the like. Don't attach any importance to these things, because they count for nothing.
- The only religion that enjoys preference here is *serving mankind*, it is *more important* than any prayer.

These are the simple TRUTH'S I have come back to announce. For as long as you stay *true* to these TRUTH'S, *you can't* go the wrong way. But the Church religions can certainly lead you astray.

- *Offer your knowledge wherever you can.*

Tou will sometimes be rejected and you will even encounter derision and ridicule at other times. But that shouldn't worry you. Those that are *not prepared* to listen to the TRUTH and to contemplate it are simply not developed to a point that makes them receptive. You have nothing to blame yourself for. - *Your work is done!*

Question : The majority of your INDOCTRINATIONS remind us *not to fear* anything. This is very difficult, when for instance bombs fall on you. Isn't it natural to feel fear in a situation like that?

Answer : At the birth of CHRIST, the MESSIAH, the SANTINER said: "Don't be afraid!" - One can therefore certainly switch fear off. I'm certainly aware that ideals cannot be realised *immediately*, but keep in mind that the greatest pleasures are always derived from those things that one *had to work hard for*.

Question : You, in the hereafter can actually *observe* criminals. Why can't you therefore assist with the *solving* of capital crimes? This could deter many and fortify their believe in your existence.

Answer : When we make contact with you we do so as a kind of MISSION. We have *certain designated guidelines*. We are *not allowed* to deal with crime. But when a crime takes place, even the lesser souls will not help you, because they *sympathise* with criminals.

Let's assume that we would actually participate in solving a crime, we would find that tainted souls would stop us from doing so. But this has nothing to do with sinning: because every culprit *eventually comes to us* and there will be *no* weak excuses and no escape from punishment *then*.

Question : You have explained to us a lot of themes you're familiar with. Can you tell us if there is something you know nothing about? Do you have any problems and what sort of problems are they?

SILVER BIRCH: I have access to KNOWLEDGE. I'm *not an omniscient* entity. - I'm equipped with LOVE and LOVE helps me. There is co-operation. I'm a *mouthpiece* but *not* the GREAT SPIRIT, *not even an angel*. Similar to you, I'm also an individual. My character is also burdened with many flaws, imperfections and weaknesses. I'm therefore not made of "pure gold", but still a human being, that is to say, a man with human feelings.

My challenge lies in how to *reach* the greatest number of people with my KNOWLEDGE, then quite frankly, time is running out for me also. I would like to see my important MISSION crowned *with success* before I say goodbye to your world!

Question : Does your MISSION of indoctrination look promising or can't you tell us anything about it?

SILVER BIRCH: When I visited my home-sphere the last time they were not dissatisfied with my efforts. But maybe I should learn some more in the near future. I'm dealing with very wise COUNSELLORS, a TEAM of true PHILANTROPISTS. We discuss all problems of the people on Earth and of CREATION.

Question : What does the "sky" that constitutes the highest spheres look like?

AREDOS: The higher the spheres, *the greater the responsibility*. The higher the spheres, *the harder the task* and the greater *also the joy* when this task and responsibility shows success.

Question : *Who* reaches these high spheres?

AREDOS: It is those people that have *very high moral laws* within themselves and a *keen sense of judgment* and *tranquillity*. I know that this is very difficult, because the antagonist of GOD always comes between GOD and people. Unfortunately most people don't believe in the existence of the devil. But he is here and everybody should actually *feel it quite distinctly!*

Question : How does the spiritual realm assess the awarding of medals and achievement awards?

AREDOS: Medals are also worn in the spiritual realm. The reason being that the spiritual beings there are also people who once lived on Earth. But awarding these medals is subject to *far greater control* in the spiritual realm. Medals are not as easily to come by as on Earth and certainly not for every kind of nonsense!

The Earth is teeming with medals but no soul here with us would entertain the notion of wearing 20 or 30 medals on his or her chest. Apart from that, any war related medals are forbidden. They are only worn by the devotees of demons. Sporting performances are also not rewarded. But service to one's fellow man or assistance given under extraordinary difficult circumstances are on top of the list here. Medals of convictions are however worn here, but:

The Christian Cross doesn't have the same denotation as it has on Earth.

Question : Are the MISSIONS benefiting mankind rewarded?

AREDOS: Naturally, but not the way *you* might imagine. Service on its own is reward enough, because one gains experience. Apart from the service rendered to mankind, knowledge about GOD also expands. One can become the equal of ANGELS!

Question : Whenever one mentions the hereafter people always say that: "Nobody has ever returned from this alleged hereafter!" - How should we answer this?

AREDOS: **This is a grave error**, because *everybody* has spent time in the hereafter and has returned from there (reincarnation). But the SPIRIT of the hereafter can reveal and manifest itself according to the LAWS prevailing there. If nothing is known about this, it is due to the lack of interest shown by these people!

Question : Is there a great difference in regards to time between here and the hereafter?

ELIAS : Yes, there is. Many an experience fades away during one's earthly existence. With the onset of old age the brain cells begin to fail more and more so that at 80 years of age one has hardly any memory of one's youth. This is different in the hereafter, where 200 or 300 years make no difference in regards to memory. Consciousness doesn't need brain cells and that is why the memory survives a lot longer. But compared to eternity, many impressions also fade away in the spiritual realm, because they have to make way to new experiences. People generally measure the passing of time by their impressions and experiences. But

those that experience a lot within a short period of time will feel that these experiences have taken a long time.

Question : Could one say that a person who experiences a lot virtually lives longer?

ELIAS : Taking the multiplicity of experiences into account, yes. There are people that might experience a lot, but on a conscious level retain very little of it. A slow-motion effect takes place during space flight, that is to say, the closer the spaceship approaches the speed of light, the further the feeling for time is displaced.⁹ This is the reason why the SANTINER feel that time is not a big factor on their long space journeys. A spaceship is subject to different time factors under these extremely high velocities. We call travel faster than the speed of light, as UFO'S do, a *jump through space*.

Question : I assume that the human thought process is very different when travelling at various velocities?

ELIAS : Oh, yes! - The thought process is *less* affected by outside influences in the hereafter than in the secular. The thought process in the hereafter is therefore a lot faster and more precise.

Question : Is it true that someone in the hereafter, a soul, has no solid body?

ARGUN : An otherworldly body has correlative contours; it is limited in shape, therefore has a certain shape. But this fluid-body is flexible; it can expand and also reduce its size. It is supple.

Question : Which type of material is easiest to influence by the otherworldly?

AREDOS : That varies, because it all depends on the spiritual POWER available. But glass, wood and blood are easier to influence; these materials are *easily* manipulated. It doesn't necessarily have to be glass. All the materials that allow light to pass through them are suitable.

Question : What are your assignments when you're *not* co-operating with us?

ELIAS : We *observe* and *advise*. We *philosophise* and we *educate ourselves*. We deliberate on how we can *advance* CREATION. We have a *lot* to do!

Question : Is it true that lovers meet in the hereafter and stay together?

AREDOS : *Genuine* and sincere LOVE for one another is the strongest bond; it is inseparable also in the hereafter. Whole groups can assemble in the name of LOVE.

Question : It sometimes happens that spiritual entities affect an influence on physical matter. How is this possible because spirit is separate from matter?

ELIAS : It happens sometimes but it is very, very difficult. If a spirit *moves* a physical object, it becomes very hot, because its atoms are changing. They start to vibrate intensely. Heat

⁹ In quantum physics, similar occurrences are explained with the terminology of *time dilations*, something that was observed with highly accelerated nuclear particles.

makes the atoms move away from each other. This happens because the spirit created the material in question to a degree. It represents assimilation. The material utilised by the spirit is flooded by its spirit matter and he feels through it. When you heat up a piece of metal, the atoms start to vibrate. They move ever further apart until it liquefies and finally evaporates. The same thing happens when the spirit tries to move an object; it could also make it disappear completely, it then would represent a de-materialisation.

Question : What happens when such an object is re-materialised?

ELIAS : According to a LAW unknown to you, the atoms reassemble according to plan. It doesn't really matter *where* the de-materialisation takes place. As far as the atoms are concerned, they can be accelerated *beyond* the speed of light under exceptional circumstances. The human eye can't register this speed and this is why it can't see this process. It happens at lightning speed.

In regards to the SANTINER, the process can't be ignored. It is well-known that UFO'S appeared on radar screens, but disappeared instantaneously. The sciences haven't yet grasped this process. This is why scientists continue to shake their heads. The de-materialised person can see himself as per usual and everything else that is de-materialised. But it does see the non-de-materialised world somewhat incomprehensible, respectively translucent. But the contours didn't change at all.

Question : Has somebody on the other side an opportunity to find reclusion if he has a need for it?

ARGUN : Absolute freedom is required to do so. And someone can only achieve this if he *respected GOD* and was *righteous*, respectively lived a correct life on Earth. If this *wasn't* the case, he becomes *a prisoner of his sphere*, something he can't evade and from whence he can't break out. Only those that were righteous will be able to savour freedom, something that means a lot in the hereafter.

Question : Is it possible that everybody in the hereafter can communicate with his or her relatives?

Answer : Many in my world shed bitter tears because they *can't* communicate with those they love. Many are greatly disappointed about the fact that *so little* is done to improve the situation. But all of them are willing to offer their help and energy to those that contribute to the welfare of their fellow man, genuinely helping them organise their life so that they can partake of this overwhelming generosity. Joy and happiness should arise from this; it forms a part of one's divine birthright.

Question : Of what importance is language in the hereafter?

ARGUN : Language is also *very important* in the spiritual realm. Nobody can enter the higher spheres with a common, *neglected* form of expression. Most souls have to *start right from the beginning*. Decency, dignity, tolerance and a healthy moral, as well as a cultured, polite way of expressing oneself are essential.

- *Only those that can speak well can also think well.*

But proper language must be without superfluous phraseology. Think along *pure, logical* and *rational* lines. I may not be that one says: "I'm *insanely happy*" or: "I had a *terribly* good time". One finds these sorts of expressions even amongst respected, prominent people.

Question : The hereafter is ridiculed by most people because reports from your world depict an existence that is supposed to be modern, has technology, gardens and houses?

AREDOS : I recognise that it is quite difficult to imagine such a world, something you can't perceive unless you are psychic. But the hereafter is not a world of ghosts, not puff and fluidity in your sense of the word, but a bona fide reality to us - but *not real to you*. We perceive this ethereal world with *direct* senses, whilst you perceive yours with *indirect* senses. Spirit is spirit and material is matter. But this doesn't exclude the fact that we have MATERIALS at our disposal of a more *refined* nature, one we can also *mould* in a certain way.

Question : Is there a kind of family life with children and so-called domesticity?

ARGUN : No, not the way you imagine it. Every soul acts on its own. There is only *one* FAMILY, all amalgamated.

Question : Can you tell us something about the quantity of otherworldly spheres?

ARGUN : As far as we're informed about the many various spheres, we know that there are *154 spheres* for mankind on Earth, which are divided into *7 large stages*. The middle range of these is between 60 and 80. Every one of these spheres has particular assignments. Souls cannot reach a *higher* sphere *without* having *absolved* the stepladder one rung at a time. But every soul can *descend*.

Question : In which sphere is your actual home situated?

ARGUN : It is to be found in the 10th sphere.

- *The 1st* is the CHRIST SPHERE, from whence we receive our indoctrinations.
- *The 9th sphere* is the sphere of *divine INSPIRATION*, the angel IKARUS belongs to this sphere.
- *The 10th to the 20th spheres* accommodates the MESSENGERS of LIGHT and the GUARDIAN ANGELS.

Question : Can one keep a secret in the hereafter?

ARGUN : Certainly, but everybody must ask his supervisory angel for permission to keep such a secret. This angel will then decide whether it is positive or negative. The angel knows his protégé very well, that is to say, he *sees* right through him. But all of us here within the REALM of GOD show a lot of trust.

Question : Is there a LAND of MIST in the spiritual realm, which every soul has to pass through before they come into the LIGHT?

ARGUN : The LAND of MIST is a *level of consciousness*. - Mist doesn't actually exist, but the soul *can't see anything yet*. This sphere represents a kind of sauna for the spirit. This condi-

tion of consciousness *cleanses* the soul, down into its deepest pores. Here the earthly ballast falls away from the soul. But those that *don't* go through *this* purification and exculpation remain *earth-bound* and can't leave the physical world on Earth. But there are a lot of souls that wish for this purification with all their heart.

Question: Can you tell us anything else about the otherworldly spheres?

ARGUN : The spheres where everybody proves their worth are GOD'S PLACE of PILGRIMAGE and - if successful - lead you far, far away. It is GOD'S will to grant *every* soul the same opportunities of probation.

The partitioning of the spheres is akin to a schoolhouse: The student is promoted according to his development. His assignments depend on the trust placed in him. There are cases where a soul can gain *in two month* what others can't achieve within *five incarnations*.

Question : Are the souls in the hereafter without gender?

ARGUN : Only *highly evolved angels* are genderless. All other souls are within their mental thought process sexual.

- *The difference between the sexes remains in the hereafter.*

This is why everybody on Earth has his own GUARDIAN ANGEL according to the thought processes of the protégé. A male protégé can for instance have a female GUARDIAN ANGEL and - also vice versa.

- *All the assignments are also according to gender.*

Question : Is it possible for you to find any individual within your world?

Answer : Those that are trained to fulfil these assignments are able to do so. Remember that individual entities are divided *into two* categories in our world, namely into those that wish to *return* and those that *don't* wish to do so.

It is *easy* for those that do want to return to make contact *with you*, provided that suitable tools (mediums) are available. I suppose that those who do *not* want to return are easy enough to find, but *nothing can force them to return*.

Many intelligences in our world naturally feel the attraction of LOVE, affection, friendship and sympathy. Wherever this bond of minds exists, it is based on reality, because the mental and spiritual powers are *stronger* than the mundane. An artist in your world, whose heart belongs to another artist, maybe a more talented one who's passed through the door of death, *attracts this artist*; the artist I my world returns and uses his influence gained by this *bond of attraction*.

After death - as your world is apt to call it - you discard your physical body and begin to develop whatever mental or spiritual qualities you had on Earth. These will then be *significantly greater* than on Earth; because the restricting influence of the physical body isn't present anymore.

- *Wherever you find an instrument, a channel, medium, use it so you can share your expanded abilities. - Sometimes this influence is quite unconsciously.*

Artists in your world know that they work on an inspirational level, something they can't explain, because they envision that it is all of their doing and don't believe nor are aware that they are guided by the spiritual world. Some of the really psychic artists are well aware that they are connected with the spiritual realm and that it represents a direct inspiration from those one considered to be dead for some time.

Compared to you I have a little extra knowledge about the LAWS of life and about spiritual realities and therefore look for psychic contact to share my knowledge with those ready to accept it, greater souls than myself are looking for the same opportunities; because their greatness is reflected in their wish to serve.

You greatness is not determined by what you receive, but by what you give.

Try to understand that all of you are or could be tools in the hands of higher ENTITIES, which strive to utilise you for some great assignments. All you have to do is tell yourself that you want to use whatever talents or gifts you possess to alleviate distress, to right something that is wrong and to serve. You have nothing to fear, if this is your utmost resolution. There wouldn't be any circumstances that could do you harm. With the divine will then guiding you, with the good intentions of not to deviate and always abide by the rules, genuinely wishing to do your best, *you can't* go wrong!

Question : We can't believe that there are supposed to be otherworldly people that once again can't understand their new situation. They *must surely* realise that they can't communicate with people in the physical world. Can you explain this to us?

ARGUN : There are souls that prowl around for years without this insight. But they will find a lot of people in the same situation with whom they can sympathise and live. Others immediately recognise their situation and therefore enter the better spheres a lot sooner.

Question : It is equally incomprehensible to us that there are otherworldly people that do nothing else but *hoax* and *lie* and do all sorts of other *spooks*. Why do they do this?

ARGUN : They are *so lazy* that their existence is aimless and they wish for nothing. They only do this because it pleases them. They don't aspire to go higher, because their present situation will do them quite nicely. They suffer enormous boredom, but they are certainly not unintelligent. They have always shied away from working and are still doing so. They simply let themselves be carried along.

After a certain period of time these souls are called to account for their actions. They are punished accordingly, which in turn will redeem them. The GUARDIAN ANGEL remains the protégé's adviser in the hereafter, until the soul is mature enough to co-operate.

Question : Are there spiritual entities in the hereafter *without* a body?

ELIAS : Well yes, but in this regard there is *only* one spiritual entity and that is GOD. This is the reason why GOD is connected with every atom throughout the universe. *This is the reason why HE perceives everything.* HE is the greatest COSMIC CONSCIOUSNESS.

Question : Can we make mistakes in the spiritual world as easily as here on Earth?

Answer : You can naturally also make mistakes in the spiritual world. You must evict any thoughts from your mental imagination which makes you assume that only *infallible* entities live in our world, who never make the slightest error. An amplified range of the spiritual life is present in our realm, which is attuned to the entities that live there. The successful grade is more developed than the less successful. The higher you climb the magnitude of spiritual values, the more the possibilities of errors are eliminated.

In the spiritual spheres of life that lie *very close* to the Earth, there is very little difference between the concepts and behaviourism of the people that live there and here. Only those that *distance themselves* away from the vibrations of the Earth will get rid of errors and weaknesses. But they'll never reach a stage of PERFECT INFALIBILITY because this would mean PERFECTION - and that is an *eternal* process.¹⁰

Question : What are we to understand under the term *sphere*?

Answer : There is a continuous leaving of physical bodies taking place in your world, because the soul is prepared to lead a life in another sphere. Try to understand that these are, in a sense, *not places* of predetermined space with borders, but a series of graduated lives that merge with one another and amalgamate. People live in different worlds even on your Earth, even though they occupy the same level; but there is a difference from the *spiritual* aspect.

Question : Do our dear departed ones know what those left behind on Earth think?

SILBER BIRCH: Before I answer this I would like to say: If they were really loved, when genuine LOVE exists between the two - yes.

But I believe that I have to explain this in more detail: Those entities living in my world are not always listeners. But those that are connected by a band of LOVE are *always together in spite* of the interference of death. Our world can't understand that the "dead" are still here; they are not in a different universe, because everything is part of the *same* universe. The whole life is one life, but with *millions of graduations*. The people on Earth unfortunately don't recognise that the departed souls are *present*. They are sometimes closer to you than before.

Once the expressions of an existence are transferred across from the physical to a *spiritual* phase, the abilities of the spirit become REALITY, whilst those of the body *fade away*. The result of this is that your thoughts are *more real* to those you love than your words. - But where there is *no* LOVE there is no connection and also no reunion, because LOVE is the only dominating principle within the spiritual plan.

¹⁰ We had established very good contact with a highly redeemed spirit years ago. This spirit told us that he came to Earth to give us information rather unwillingly. Returning to Earth always placed him in danger of losing his accumulated objectivity.

Question : What likeness does a person adopt after death? Can a departed soul be developed to such a degree that those that follow can't recognise it at all?

SILBER BIRKE: You don't change your identity, nor your individuality and your consciousness remains the same. You grow mentally, *but you remain the same individual* you have been before. Your knowledge *expands* and your gifts *become stronger*. You remain identifiable, the way you were on Earth, with the exception that your flaws and shortcomings disappear.

You shape doesn't change, because the spiritual still needs some kind of manifestation, a body, a vessel, an instrument that allows the spirit to control itself. This fine and tender body already existed whilst you stayed on Earth.

The question of recognition, as far as adults are concerned, is not difficult, but there is a problem when we deal with *children*, because they achieve a certain maturity before the reunion takes place.

The second half of the question depends on one single factor, namely on LOVE. When these entities are *connected* by LOVE, no matter what their relationship happened to be on Earth, *LOVE will remain*, because death has no power to touch it. Wherever LOVE is present, those who leaves the physical horizon have no desire to separate from the one's their LOVE is concentrated on. -

- But whenever there is *no* LOVE, the connections are *dissolved*.

Question : Can you explain to us why a soul is best looked after in the hereafter if it is given an assignment?

ELIAS : The assignment gives the soul a feeling of *not being useless*. What soul would like to have a sense of uselessness? The otherworldly soul would otherwise aimlessly roam about and the otherworldly regions are *unimaginably vast*. A soul without an assignment just doesn't know what to do with its time.

Question : Are there certain illnesses occurring in the spiritual realm, maybe mental disturbances?

ARGUN : Yes, they affect the intellectual capacity and that is also a terrible illness, because any advances made are nullified to a degree.

Question : Do the otherworldly souls deal with *dwarfs* and *elves*?

ARGUN : Souls can change their respective size quite markedly. *Dwarfs* and *elves* are part of the nature spirits. It all depends on their intelligence and their assignment, respectively where they belong to. A normal human soul must also reduce its size accordingly before an incarnation.

Question : How fast can the human soul travel?

ARGUN : It depends on the *freedom of movement allocated*. With the great freedom we enjoy: Berlin - New York in a fraction of a second. As fast as light, but if it wants to also as slowly as anything right down to a complete standstill, *depending on its volition*. It doesn't

matter how high. Good souls endeavour to stay within their spheres and do not cross any boundaries.

Question : Are the eyes of the otherworldly subject to certain optical laws?

ARGUN : No, but depending on our level of spiritual development we can be either short sighted or farsighted. We are not depending on physical light and this is why good souls can recognise things in the dark. With some souls their OWN LIGHT is so powerful that they seem to carry a “lamp” with them all the times, one that illuminates everything around them. It is *brighest* near GOD; this explains the halos (head aura) of the angels. Only those that could *see* angels were in a position to *describe them*. Michelangelo was one of those, so that he could observe angels correctly and undisturbed. He painted everything they way his psychically trained eyes saw it. This happens with divinely gifted geniuses.

Question : There is one author that insists to have seen GOD on a personal and metal level. Is the assertion correct?

ARGUN : *No, that's not possible.* GOD can only be recognised in the hereafter. The author has seen an angel, one he mistook for GOD at a moment of sublime glory. If GOD had made HIMSELF known to him, HE wouldn't be a just GOD. There is unfortunately a lot of nonsense talked and fantasised about GOD.

Question : What about the VOICE of GOD? Is there hoaxing involved with these kinds of transmissions?

ARGUN : It could be an ASSIGNMENT! Whether this voice is actually a “MESSAGE from GOD” can only be assessed *by its contents*. Hoaxing always rears its head *when* something that is beginning is to be destroyed. Demons use any means, even claiming that: “Here speaks CHRIST” or “GOD”. All looks wonderful to start with, but then the hangover begins. The best mediums are *especially* susceptible to this danger, if they have *not* assembled an excellent circle around them that will provide sufficient protection or when the circle leader *thinks illogically*. Many a wonderful glasshouse suddenly collapsed.

Question : Has the spiritual realm the power to influence matter?

ARGUN : Yes, but only in a restricted manner. The intelligences of the spiritual realm have more power to *influence the spirit of a human being*, if this particular person doesn't fight it and is accommodating. When Kennedy visited Berlin, it became quite apparent just how strong the influence of the spiritual realm could become, when the population is *accommodating* this idea in great numbers. VIBRATIONS haven't been as strong as on this particular day for years. But they weren't VIBRATIONS of hatred, because Kennedy never pointed the finger at anybody during his speech. His words were destined for everybody's ears, without aggression. I can therefore tell you that I'm well pleased.

Question : Do you believe that this situation can be achieved one day?

ELIAS : The people on Earth certainly have it in them to create this situation. But acknowledging the continued existences of man must however be part of this. You can subjugate the world, but *not by destroying* it. You can influence the weather, but not in a way that will conjure up catastrophes. On the contrary - you can banish natural catastrophes to a large

degree. It certainly lies within the capabilities of man, because great powers are at his disposal, to do GOOD *and* to do evil. Unfortunately the negative is in power and the people are *blindfolded*. There are only a *few* exceptions.

Question : Is the spiritual paradise a “holiday resort” for souls, respectively, a holiday from life on Earth?

ELIAS : Yes, one could call it that, but the ideal situation is PERFECTION. This condition is realised when there is peace *throughout* the universe. The spiritual realm represents an *intermediate level*. But an intermediate level wouldn't have been necessary if paradisiacal conditions were already reigning on Earth.

Question : Of what importance is candlelight to the spiritual realm?

ELIAS : Candlelight is a tradition that has a lot going for it, candlelight for instance is a very quiet light. The flame of the candle seems subdued and emanates pure fire. Yes, *the element of fire has cleansing properties*! It isn't just the brilliance of the light that adds to the ceremoniousness of the situation, it also takes the smell of burning wax to have a peculiarly festive effect on the soul.

Question : If the spiritual realm virtually exhibit's a similarity with our Earth, the question arises whether all the ugliness, like for instance slums, terrible conditions etc. are also present in the spiritual regions?

Answer: The *lower* regions of the spiritual world also feature *deprived conditions*. They represent the *necessary surroundings* for an infinite number of souls that have remained backward in their development. All of them couldn't imagine that life can continue under different terms. But you have to take into consideration that these circumstances do not represent reality, but only an *expression of feelings* by those who live in these spheres. The moment they realise that they *are not compelled* to live in squalor or in conditions are akin to the worst on Earth, they are free. Only those live there that are at first so ignorant that they can't comprehend such a difference and those who are mentally not ready to promote themselves.

Consider this, all of this is a part of a wise providence. Easy stages for the development of spiritual life were created; if these little steps were not present, the shock a lot would have to suffer otherwise would have been an awful thing.

Question : Is there forgiveness in the spiritual world?

SILBER BIRKE: There is forgiveness in your and in my world, but it *doesn't* atone for misdeeds. If a person who has done something wrong and is looking for forgiveness, it is a sign that *some realisation is dawning*. Even if the asked for forgiveness is granted, it doesn't necessarily follow that the trespass is thereby *redeemed*. It is purely a case of cause and effect. The slate cannot be wiped clean if things haven't been *redressed*.

Question : Is there a similar political situation in the hereafter, as we find it here?

AREDOS : Politics is *created by people* and as there are people living in the hereafter that once lived a physical life on earth, it only follows that they bring their ideas and idiosyncrasies into

the spiritual realm. They try *to influence* the people on Earth from over there. In one word: *They* make politics on Earth.

Question : Can a spiritual entity like you *walk through* someone living on Earth?

ARHUN : We can walk through glass and other diaphanous materials without difficulties. If we walk through an animated body, we feel a kind of *electric shock*. This doesn't stop us from walking right through. The soul also enters when an earthly body is taken over.

Question : Are there any elements you *can't* pass through?

AREDOS : This completely depends on the spiritual development. The higher the degree of development, the better matter can be conquered. It is of course a lot easier to move through air. We therefore recommend to all those wishing to conduct séances to open one window to a degree that one can walk into the room through pure air. We can of course slide through a crack in the door as we can expand and contract our astral body.

Question : Would it be possible for a spiritual entity to retain his consciousness without an astral body?

AREDOS : This is a difficult question. But as far as I know, this is hardly likely because we also have a brain, even if it consists of a different material. The functions of the brain are to *delve into* the cosmos on a certain FREQUENCY. The consciousness works with the cosmos hand in hand.

Question : Unfortunately many people can't believe that the spiritual realm is very similar in many ways to Earth, for instance, that there are also trees, meadows and flowers etc. there. Can you tell us something about that?

ELIAS : Your earthly flowers also remind us of paradise. Nature, as a part of GOD'S CREATION, as far as beauty, inventiveness and originality is concerned, still *unsurpassed*. The flowers you have *here on Earth* have *more wonderful* fragrances than you can perceive. The scale of *your* perceptions and your senses is *relative small*. Only the purely spiritual within you is able to perceive the *actual* nuances.

Question : Do our imaginations coincide with the reality of paradise?

ELIAS : No, that's *certainly not the case*, because paradise is a spiritual realm of harmony, beauty and peace. If the people on Earth were successful in creating permanent peace and if people would be *nice* to each other, a paradise would be created on Earth that would come close to the spiritual paradise. But people would have to become *creatively active* within GOD'S PLAN. But unfortunately people are very creatively active on behalf of the great antagonist of GOD and *prefer* to work for his terrible cause.
