Protocol extracts from the *Menetekel* from the years 1956 to 1975.

Theme : **Messengers of Light evenings**

With clues about the writing mediums as well as the press and television

Part 2: Extracted from the years 1956 to 1965

The following brief information deals with the *Psychic Peace Circle, Berlin* (Medialer Friedenskreis, Berlin. MFK Berlin) in general and with its Messengers of Light evenings specifically. These texts were published by the circle's leadership in their monthly *Menetekel* brochures as additional brief information. There are also a number of lengthy essays about the *Zweiten Deutschen Fernsehens* (ZDF) recording sessions of the circle's activity. All reports are reproduced in chronological order. Duplication is *explicitly welcomed* and is not subject to any restrictions or copyrights.

Preface

Every genuine contact with the hereafter requires a prearranged appointment with the TEACHERS of LIGHT that has to be *strictly* adhered to. We cannot make contact with them outside of this prearranged time. Otherwise *other* spirit entities announce themselves and they are often *negative*. This fact verifies that psychic contacts have nothing to do with telepathy. – The theme for the séance is sometimes briefly discussed beforehand. Important: The medium *categorically does not participate* in these discussions and it is therefore unaware of what will be asked during the meetings. The spirit GUIDE will however touch upon the discussed theme right at the beginning without having initially inquired about it. This indicates that the otherworldly were present in the vocational room *prior* to the séance and that they overheard the theme being discussed. The answers also show that we are *not* dealing with telepathy, but with the *independent* thoughts of the otherworldly TEACHERS.

The miscellaneousness of the *spontaneously* asked questions is enormous. It would be impossible for the medium to provide all the answers of its own accord. The otherworldly is also not an encyclopaedia, but it was explained to us that the spirit TEACHER in contact with our medium, the speaker respectively the writer, *is part of an otherworldly team* and as the otherworldly think *without* a physical "brain retarder" and that this explains the speed and the spontaneousness of the answers. We also find evidence of the genuineness of these SPIRITUAL CONTACTS here.

Independently from one another, it is internationally common practise for the MESSENGERS of LIGHT to announce their presence with their ORDER NAME. Every SPIRIT GUIDE who utilises a medium shows *characteristics* that immediately identifies him: Namely certain *hand movements*, the *arrangement of the writing* and habits in *the way they express* themselves. A good, really

passive medium allows this to happen clearly visible. Whenever the GUIDE changes, the characteristics also change immediately.

Besides: The otherworldly are often well informed about global events we are completely unaware of and spontaneously announce them even though there was nothing mentioned in the mass-media and none of those present knew anything about them. The newspapers then verified the correctness of the transmission days later. This is further evidence for us of the genuineness of our contact. The MESSENGERS of LIGHT obviously miss nothing. They always show an unprecedented spiritedness and mindfulness.

Herbert Viktor Speer
Leader of the MFK, Berlin

The exploration of the spiritual realm (By Herbert Viktor Speer, 1965)

Question : Is there a connection between the *Psychic Peace Circle* and the monthly journal “Die Andere Welt” (The Other World)?

Speer : No, no direct connection, only friendly contact.

Question : The journal “Die Andere Welt” (The Other World), previously known as “Okkulte Stimme” (Occult Voice) formulated the following in an article: “*Our Psychic Peace Circle...*”. – How are we to understand this?

Speer : The editor of the journal “*Occult Voices*” suggested to me to establish a few circles of development, like for instance beginners circles, advanced circles etc. After my acceptance a corresponding appeal was published in the “*Occult Voice*”.

Question : Did the *Psychic Peace Circle* (MFK) emerge from this?

Speer : The editor, *Herr Geisler* suggested that I give this project a name. We called our circle “*Psychic Peace Circle, Berlin*” (Medialer Friedenskreis, Berlin) from then on. Our spiritualistic circle however existed years before this appeal, but it didn’t have a name.

Question : Did anything happen with these developmental circles? – Did these circles develop further?

Speer : No. This suggestion was unfortunately not feasible. From all of those participants only one remains a member of our circle these days. All other circles had to be disbanded, because progress was impossible.

Question : Are there specific reasons that prevented progress?

Speer : Yes, there were various reasons: The recommended participants were indeed interested, but they neither possess the prerequisites nor the knowledge required to explore the world of spirit. This attempt pushed us back years. We had to dissolve everything and then begin from the start, naturally with the tried and tested regulars.

Question : What prerequisites did the new people lack?

Speer : Most times their *personal* interests were too much in the foreground. One could *not* recognise a *will to serve* mankind or *to make sacrifices*. The otherworldly should however try their very best to make sure that the participants are looked after from day one. Through their egotistical behaviourism *individual* participants can *play havoc with the whole séance*.

Question : What are these disturbances?

Speer : Incursions of hoaxing and lying spirits into the circle. The SCREENING is then no longer secure enough. It alone guarantees the truth. Apart from this, the work of the medium is made more difficult.

Question : There must have been a number of participants with at least some prior *theoretical* knowledge? There surely is enough literature around to create the required prerequisites!

Speer : Such *pre-encumbered* participants are the *worst*. They know everything better and they find fault with the medium and the otherworldly. They are not prepared to be completely open minded, but firmly believe all aberrations and nonsense they ever heard or read about. It is utterly impossible to make any progress with such people.

Question : And what is the attitude of the tested regulars?

Speer : They are always *patient pupils* and above everything else, are intent on *changing themselves*.

Personal messages

A lot of *personal* messages from relatives of the participants also come through during the MESSENGERS of LIGHT séances. These messages are the most convincing evidence for the genuineness of these otherworldly transmissions. They contain accurate information neither the medium nor the other participants are privy to. As these messages are of a *personal* nature, we do not make them known here.

January 1966

Question : Am I on the right track spiritually?

ELIAS : We know that you are spiritually very interested. But we also know that you read a lot. We say to you that it very much depends on *what* one reads.

- *The correct selection of one's spiritual literature is of utmost importance!*

A lot of what you read does not fit in with the picture you drew for yourself. It is therefore not a case of reading a lot, rather a case of *what* one reads. You do have to admit that you sometimes asked yourself how this or the other harmonises. Which is the right way? You believe that you now know.

- *The revelation-spiritualism is the right way!*

Bits of information

February 1966

Automatic writing is not simply the hand of the medium writing as it usually does. It is quite apparent that the GUIDING SPIRIT fights a battle with the hand of the medium and the writing paper. The SPIRIT tries to conquer the difficulties it is faced with. The medium could have an easier time of it, if it were to act of its own accord, but it is *imperative* that it remains *passive*, because this is the only way the SPIRIT gains the upper hand.

March 1966

Genuine contact with MESSENGERS of LIGHT is verified by the fact that it only takes place after a prior appointment. Apart from this, the medium displays *signs of de-odification* (The removal of adhering energies or vibrations), something that would not happen if the medium would act based on its own intelligence and its own will.

April 1966

Those with the opportunity to observe the medium a number of times will ascertain that the psychic writing style is *not* the medium's own. This is in regards to many individual characteristics which in turn are rounded down to one single conclusion. The end result: The SPIRIT is *actually* the cause of this writing style and it utilises an alien human hand to achieve this.

May 1966

Our otherworldly TEAM now has a HEALER in its ranks who was a *French doctor* during his last terrestrial life. We are not told about the capacity we're dealing with, because the otherworldly SPIRIT GUIDES reluctantly relinquish their anonymity. This spiritual HEALER calls himself *ARMAND*. He is very affable and prepared to advice us in regards to questions dealing with health. The MESSENGER of LIGHT ELIAS writes on his behalf. This gives our mission an enrichment we have desired for a long time.

June 1966

Doubters, unwilling to acknowledge communications from the spiritual realm, keep mentioning *telepathy*. The otherworldly endeavour to enervate this assumption by sometimes reversing the roles, *they* become the *questioners* and the meeting participants have to provide the answers. Their questions are extremely difficult and the participants cannot correctly answer them most of the time. The theory of telepathy is out of favour here.

July 1966

In order to have conspicuous evidence in one's hands, it is important to differentiate between the genuine and the apocryphal. The otherworldly think that training this capability is of *paramount* importance. A true spiritualist is *not* a believer in miracles, but an experienced researcher and knower.

July 1966

The expert is surprised

We received a letter from one of our readers an alleged psycho-scientist wrote to a reader of the *Menetekel*. This letter is an admonitory example that one cannot be careful enough.

We give you an extract from it:

“The departed no longer see anything of Mother Nature and of the Earth’s solid material, they only see air, the substance their body is now made of. This is why no departed human being can see the pendulum or the writing pad.”

If the writer of this letter was correct, there would be no automatic writing and drawing mediums and also no psychic support for artists. Besides, the departed do not consist of air, but of a spiritual SUBSTANCE.

But it gets even better:

“All of the departed live about 50 meters above us and all of them are lifted to that height.”

This truly takes one’s breath away! An idiotic concept of the spiritual realm! We wouldn’t pay these lines much attention if they weren’t from a man looking for spiritual friends through an advertisement in the journal “*The Other World*”.

Such machinations severely discredit our mission.

Apart from the clippings listed here, there is a lot more nonsense bandied about.

A layman, on the path to the truth, can be misled in this way. Maybe somebody can make a practical proposal of how one could render these parasites of the psycho-sciences harmless.

In order to help the truth to be victorious it is imperative that one contemplates how the objective truth can be controlled, selected and then disseminated in a reliable way. A pell-mell of mistakes, fantasies and truths cannot help us. The psycho-sciences also require a visibly labelled “Trade Mark”.

* * * * *

Bits of information

November 1966

Our otherworldly artist JOHN SHERIDAN drew the portrait of the otherworldly healer ARMAND *in profile* with the hand of the fully automatic medium. The original – as all our other drawings – was drawn on an A3 sized paper during our devotions. Time: 15 minutes *without* the pencil being lifted from the paper. We had postcard sized copies printed.

January 1967

Guest : Can the so-called lotus position (basic yoga position) lead to circulatory problems?

AREDOS : The circulatory system can only be adversely affected when the body is *tense*. This is however not the purposes of this exercise. Those that are tense certainly do not master this yoga position. Only the *complete relaxation* of all muscles fulfils the purpose of the lotus position.

February 1967

MESSENGERS of LIGHT are otherworldly TEACHERS from the CHRIST SPHERE. These are authorised souls that are sufficiently trained to be able to proclaim the truth within the DIVINE PLAN. This is why every answer from this TEAM can be considered a *biblical revelation*. GOD'S REVELATIONS have *not come to an end* – and they never will.

March 1967

The medium (mediator) loses some physical ENERGY during a séance. This LOSS of ENERGY could in no way be compared to the loss of energy the medium would experience if it would accomplish the same effort based on its own intelligence. This conspicuous LOSS of ENERGY *verifies* that otherworldly ASSERT a CLAIM. To hold séances *too often* or one after another could lead to the *total exhaustion* of the medium.

April 1967

The assumption that we could be dealing with a *split personality* in regards to automatic writing has been faultlessly refuted by utilising *two* mediums. The individual characteristics of the otherworldly are the same with either medium, even if weeks or month have passed in the mean time. Each medium puts the same graphic characters and expressions into words and also the exceptional peculiarities of the otherworldly. Even if he doesn't mention his name, we recognise the otherworldly WRITER just the same. This applies to *every* medium.

May 1967

Otherworldly mediums display an *individual* way of expressing themselves and their *own* knowledge. Their experiences are considerably more comprehensive than ours and this is why they are capable of answering our questions. They also dispose over an otherworldly vocabulary that they use very now and then.

June 1967

What we call an “otherworldly individuality” is behaviourism that is *conspicuously different* from that of the medium or any other participant at the séances. This behaviourism shows in the way they handle their writing and the way they express themselves.

September 1967

An otherworldly brain-trust

About the work of the otherworldly spirit guide SILBERBIRKE, who is active in an English circle.

The questions are not shown to the medium beforehand. The Messenger of Light SILBERBIRKE never hesitates with his spontaneous answers and they cover a wide, comprehensive range. SILBERBIRKE is indeed a “ONE MAN SHOW”, that is to say a ONE-SPIRIT BRAIN-TRUST.

Could a computer answer such questions so easily, comprehensibly and intelligently the way this happens through the spirit GUIDE?

I put this question to all so-called “experts” whose broadcasts are listened to by millions on the BBC and who sometimes trip over questions that generally only require elemental knowledge.

(Comment: We added this information because in its observations it *absolutely coincides* with our own. Our spirit GUIDES work the *same* way. They are quick of the mark and extremely knowledgeable, even though *not* omniscient. At any rate, their INTELLIGENCE towers way over that of terrestrial experts. This fact is based on their great insights over a number of incarnations and a corresponding otherworldly education. How far from this destination are we terrestrial human beings! – But there are a sufficient number of people arrogant enough to mock the eminent knowledge of these otherworldly TEACHERS. We are however aware that *immature* students at terrestrial schools and universities also mock their teachers. SILBERBIRKE is a teacher who is part of our otherworldly team of ADVISERS. His opinions and his knowledge conform with the work we do.)

SILBERBIRKE’S answers occur at a *speed of at least 120 syllables per minute*. Not one single word was changed during the writing process and no sentence was revised.

Question : What is the greatest contribution *spiritualism* has to make in this modern world?

SILBERBIRKE : The greatest contribution is *to bring freedom* to the children of the GREAT SPIRIT, to release them from the fetters that keep them imprisoned. They must be released from the prisons of ignorance by providing them with the evidence that the doors to knowledge are *wide open*. This allows them to live in the light of the sun instead of eking out a living in the shadows of their existence. Knowledge sets them free from the tyranny of superstitions and the priesthood and turns them into faithful fighters for the truth. They learn to recognise the *common thread* that exists between the UNIVERSAL SPIRIT and all of his children. They will be shown how to establish a new world where hatred, discord and racial differences *no longer exist*, where the more superior are those that earned it through their *service*. Their knowledge is enriched, their nature deepened, their spirit fortified and they will know how to live *to do justice* to their divine birthright. *This* is the great contribution spiritualism’s knowledge furnishes.

Man was born to be *free*, to live in *freedom*. He was not created to be a slave, a servant that is enchained. His life is to be filled with the riches of the spirit, the soul and the body. He should have access to all knowledge, all truths and all inspirations. He should live in the glory of the truth and this without annoying, harassing restrictions imposed by those that *deny* him his inheritance and work against his ordination.

(Comment: What do the Churches do to achieve this result?)

Bits of information

The activities of our psychic contacts in the mean time encompass well over 2,000 hours and apart from this, more than *250 psychic drawings* were made. The total time we engaged in these supernatural connections stretches across a time span of *15 years* so far. Its processing requires the full commitment of *a number of* participants.

- *This irreproachably refutes the assumption that supernatural contacts are harmful to one’s health.*

If people’s health is actually affected, it is due to the inability and the character traits of the participants.

December 1967

Question : If one were to take *infra-red pictures* during our séances, would one detect something extraordinary?

ELIAS : No, these pictures would show *nothing*. This would require a materialisation medium as the medium's SEMI-MATTER is required to influence the coating of the film.

January 1968

Question : We received a letter asking why we tolerate the fact that so many cut flowers are displayed in our devotional room.

ELIAS : Such nonsense! Always exaggerations! Fanatics lose all objectivity. We are always very pleased to see these acknowledgments.

Brain trust

When a medium makes contact with a spirit GUIDE, it becomes quite apparent that the GUIDE displays a *conspicuous* superiority of intelligence. This might lead to the conclusion that the GUIDE is kind of omniscient and this could easily inveigle us to demand everything from him.

The reality however looks somewhat different.

The otherworldly GUIDE is actually *also* a medium, but on the OPPOSITE SIDE. It isn't absolutely necessary for him to be an extremely knowledgeable entity, because he is surrounded by EXPERTS in various fields of knowledge. When a specific question is asked, it isn't actually directed at the GUIDE, but automatically at the EXPERT who is capable of answering the question. He will answer at lightening speed.

As telepathy plays a major role in the hereafter, the otherworldly communication between spirit beings goes *incredibly fast*. The moment the GUIDE grasped the question, he serves as a mediator.

To simplify matters, all questions are always directed at the GUIDE. This creates the impression that only the GUIDE answers all the questions. This is of little concern. We know that we are dealing with a large TEAM.

They said in England that the spirit SILBERBIRKE is the only spirit who represents a "brain trust", something no human being on Earth could emulate. This is also a mistake, because there are lots of otherworldly EXPERTS behind the American Indian spirit SILBERBIRKE. Not all of them have to be former American Indians.

In regards to experience, the spiritual realm is naturally far superior to us. There are also great places of learning there, but these are not exposed to the same physical influences as here on Earth. The level of higher insights is also *considerably* greater and this *expands* the educational horizon. If we had got to a point here on Earth where the sciences *would* accept spiritual insights, the door to HIGHER EDUCATION would be open. This situation forces people to depend on a *huge detour*, because they receive their HIGHER EDUCATION in the hereafter.

Our séances produce play on words that amuse us. We continue to admire their gift of *very precise criticism* and they way they *intelligibly* formulated it. Those that often have the opportunity to converse with spirit entities are also well aware of the reaction capabilities of spirits. It has been ascertained that their thought processes are *much* faster than is the case with us human beings. The translation through our physical brain probably hinders the whole thought process.

When I was in an elevated psychic state, I ascertained that my thought processes went a lot *faster*, actually all senses were *stronger*, well superlatively more pronounced. Medicine knows that a hallucination can be extremely powerful, but *not every* hallucination is imagination. There are a *lot of* psychic contacts amongst them.

The extremely fast thought processes of the otherworldly show – everywhere where the contact is genuine – a *great haste* in their communications. During automatic writing for instance, the writing *increases in speed*, the hand virtually races across the paper, so that the legibility suffers. The GUIDE tries to adapt his writing to his enormously fast thoughts, but it still lags behind the flood of thoughts.

These are signs that have *nothing* to do with the subconscious!

Something about perspectives

The *Psychic Peace Circle, Berlin*, well-known beyond Germany's borders, corresponded with otherworldly MESSENGERS of LIGHT during more than 2,000 hours. We asked our questions verbally and the MESSENGERS of LIGHT answered then *in writing* via the medium. One can ascertain by this *just how yielding* this source of knowledge is. There have been mediums in England that had contact with the hereafter for more than 25 years.

- *People are therefore not isolated from the spiritual realm. This FORM of EXISTENCE is also part of the human existence and it touches upon our physical world.*

The reason why the world's public knows so little or has the wrong information about this is mainly due to a *one-sided* perspective of observation. How often does one hear: "Only believe the things you can *recognise, see and touch*."

This clearly shows this one-sided *perspective*. The things that are invisible or not measurable are regarded *non-existent*. This might be a more simple approach, but it is basically wrong. This *one-sided* point of view is unfortunately supported by university science. If I only look at a house from the outside, I cannot exclude the possibility that people might actually live inside this house. The situation is similar in regards to perspective. Our perspective is *terrestrial-physical* and therefore *one-sided*, that is to say, *limited* and *not* expanded. We cannot get a feel for another perspective.

Dealing with the otherworldly showed us that spirit beings have a *different, individual* perspective. But they try to adapt to *our* perspective in spite of this and they *succeed*, because they also experienced many lives on Earth in the past. We, on the other hand, can remember our past lives on Earth only on rare occasions – and lives lived in the spiritual realm not at all. This is why we find it very difficult to tune into a different perspective.

- *Religious meditation however offers the possibility to expand, respectively train people's ways of looking at things.*

Subjects taught at universities know no other perspective than the one adapted to planet Earth. It is linearly *one-sided* and does not allow any other conclusions. This is the reason why a university scientist will almost always assess thing from his university acquired perspective. His thoughts will always provide the answers based on what's *measurable* and *verifiable*. And if evidence is available, it must *fit in* with his *terrestrial* perspective. Everything outside of or in a different direction, ergo demanding a different perspective, is *rejected*. This is a very simple method.

Our MESSENGERS of LIGHT gave us comprehensive clarification in regards to perspective. We can also not assess extraterrestrials, the SANTINER, only from our perspective. All kinds of mistakes are also made in this respect.

- *In order to gain HIGHER INSIGHTS and in the process an ordered living together of people, one has to take the perspective of the other side into consideration.*

We cannot apply the notion of “impossible” just because something *appears* impossible from *our* perspective, whilst it could *absolutely* and *naturally be possible* from another perspective. We can also not see a hidden column when it is situated behind another one. It does however *become visible* from *another* perspective.

Spiritualism demands the kind of logic from people that allows them to see things from a DIFFERENT PERSPECTIVE. We, from the *Psychic Peace Circle*, have learned this during more than 2,000 hours of schooling. But we also know that this schooling is not simple and that it is *not* taught at universities.

A blatant piece of evidence

If one is asked to believe in something, one has to ask for evidence first.

Spiritualism offers *lots* of evidence, but it is *twisted* or *talked out of existence* in most incredible ways.

We received some wonderful evidence a few years ago. I am talking about evidence that cannot be twisted or talked out of existence. The medium was 17 years old at the time. He had not been specifically trained to draw things and certainly not on an academic level. *Not one* amongst the circle participants, there were four altogether, had *any ideas* of what academic drawing lessons were all about. Telepathy or memories of such training could therefore be excluded.

The otherworldly MESSENGER of LIGHT JOHN SHERIDAN announced his presence during a séance. He asked for a piece of drawing paper, because he wanted to draw a portrait with the hand of the medium. We expected a human head, ergo a proper portrait in profile. We were astonished when our otherworldly FRIEND drew circles and crosses, but he explained them in writing.

He wrote:

“We are dealing with the schematic construction of a portrait the way it is taught at academies of the arts.”

He then proceeded to draw a portrait within the schematic template. This verified his academic artistic training not one of us had an inkling of. Nobody had seen such drawings before.

- *The theory about the “ingenious subconscious” was once again refuted.*

This evidence does not just reveal the activity of an otherworldly soul, but also clearly shows that the otherworldly retain their education, their entire consciousness and their talents *permanently*.

During the continuation of our contacts, JOHN SHERIDAN drew over 200 portraits and all of them showed historic attributes.

* * * * *

Questions and answers

February 1968

Question : After all these years I recognised the fact that the work we’re engaged in here, namely giving lessons of indoctrination, is the *most difficult* work there is. Why is it that these doctrines are so difficult to disseminate?

ELIAS : CHRIST had the same problems, but he also mentioned that seeds produce *various* results: There are seeds that fall on rocks, but some of them also find fertile ground here and there. The same applies to our mission.

Question : According to my opinion CHRIST forgot something: There are birds that destroy a freshly germinating crop. How can one avert this?

ELIAS : This is *not* part of your assignment. The truth requires a certain period of time to establish itself through *tolerant* means.

Question : We received a letter informing us that the reader of our brochures stopped her *Menetekel subscription*, because her son explicitly forbade her to read these scripts. What do you say to such guardianship?

ELIAS : If the son finds that his mother acts strange and if he suspects that this is due to her reading these brochures, *he acts correctly*. If this is however not the case, he commits a great injustice.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1968)

Even though the INTELLIGENCES of the spiritual realm give us sufficient information about their present existence, these impartations are unfortunately noticed and given the corresponding serious attention to by only a very small portion of the human race. By far the greatest portion of the human race regards their survival after death as impossible. Primitive tribes, respectively people close to nature, know more about this from their own experiences, but one is even less inclined to believe them, because the arrogance of civilisation looks down on them.

Question : What kind of evidence do you consider to be of greatest pertinence?

Circle leader: Each séance provides us with *new* evidence. There are thousands of them! There is physical evidence and there is also spiritual evidence. We specialise in spiritual evidence and we take advantage of a relatively good understanding with

otherworldly INTELLIGENCES, that is to say, with human beings who live in another dimension. The spiritual evidence is very compelling, very convincing. During the course of lots of contacts, we gained enough certitude to know whether a contact is genuine or not. The way an expert is able to immediately identify an element, we trained ourselves accordingly. Can you tell me which doctor or psychologist has the same specialised and long term connection with the hereafter?

Question : Can you describe this kind of evidence more accurately?

Circle leader : The human consciousness is limited and we are reasonable aware of its capabilities. We can exert our mind according to the all available precepts, but we can only achieve certain results and they are based on our experience. The SITUATION is entirely different with the WORLD of SPIRIT. It is far superior to ours. Almost all questions make this quite apparent. The boundaries of the terrestrial human thought processes are exceeded here. Surprises abound and they demand our high esteem for their superior INTELLIGENCE. Moreover, the medium is neither a scientist nor a philosopher.

Question : Could we be dealing with telepathy between the medium and the participants here? Telepathy has already been sufficiently verified.

Circle leader: Life after death has *also* been verified, maybe *even better* than any telepathy. But when talk turns to this, one keeps one's eyes and ears closed. What could a participant possibly know about life in another dimension that would have to be communicated *telepathically*? – What does a participant know about processes taking place in the otherworldly WORLD the rest of the public are still unaware of?

Otherworldly ENTITIES can *think a lot faster* than we can. Whilst the participants are still deliberating, the answer is already there. The speed the medium writes at would normally be a chore. This is due to the fact that the otherworldly WRITER also tries to keep up his writing speed with the fantastic speed of his thoughts in order to not lose the thread. Over 15 years we ascertained that the answers follow *immediately* without fail, even when dealing with an extremely difficult problem. The otherworldly INTELLIGENCE is *paramount*, if this was not the case, we could spare us all these questions. To experience something first hand is naturally better than just reading a protocol. Faith turned into knowledge.

* * * * *

Questions and answers

March 1968

Every contact brings new distinguishing marks in regards to *evidence* that we are *actually* dealing with otherworldly HUMAN BEINGS. Their knowledge, reaction, arrangement of scripts and many other things show us clearly that the otherworldly show no similarity to either the medium or any of the participants. The otherworldly individuality, as with a genetic-biological examination, is ascertained irreproachably.

Question : Certain precautions have to be in place when we prepare a meeting of our work circle. We cannot establish contact with you without an appointment and unprepared. Do you have to undertake similar precautions?

ELIAS : We rarely organise a circle unless we make enquiries so we can reliably answer certain questions. We can however race through immense space in a very short time. This makes it possible for us to always *be on call*. One of our MESSENGERS of LIGHT is always there to personally support me.

We have *a lot* of obligations. The work *here* is only a sideline. Looking after all participants *and* readers is a huge endeavour in itself. The PROTECTION of the circle and this MISSION demands a *huge contingent* of trained souls who help us achieve this. We are immediately there for you when you need us. This game of questions and answers always provides fruitful aspects for both sides.

May 1968

The magazine “*Revue*”, as well as two television corporations, photographed and referred to our world-renowned séances. *Some* doctors and scientists are on our side. Our psycho-scientific work is *not* a business, but a MISSION to benefit and to deliver all human beings. One of the most eminent psycho-scientists of our time, *H. K. Iranschär* wrote about our *Menetekel* in his journal “*Weltharmonie*” (World Harmony):

“According to the press, this community is one of the most serious and credible organizations in this field of knowledge. Those that study some of their brochures will be convinced that this is so. H. K. I.”

Every human being is psychic and has the opportunity to establish contact with the spiritual realm. This happens in most cases on a subconscious level. Fully-automatic writing, that is to say, subliminal psychic writing is mainly based on *good training*.

June 1968

The medium, as well as the participants, lose some *physical* energy during a séance. This occurrence was internationally observed; a feeling of hunger and thirst is felt after the meeting and this is particularly apparent with the medium. This fact in itself makes one recognise that the medium does *not* retrieve the answers from within its subconscious, but that the communication with otherworldly BEARERS of THOUGHTS also requires *physical* energy.

Question : We can unfortunately not gain an overview in regards to the success of our mission. Can you?

ELIAS : This is correct, but it is not of decisive importance: Your protocols encourage many intellectuals like *authors, theologians, sociologists* etc to contemplate things *more deeply*, that is to say, all of them are influenced and their logic is gradually trained. You naturally have no overview over what these people do, understand or think. I can certainly understand that you feel like somebody about to drown, namely that the brief time before the rescue seems like an *eternity*. But have no fear, because there is no chance that you will drown. You will be helped out of this situation.

Question : Is it because we can not recognise the objective sufficiently enough?

ELIAS : You recognise the objective *well enough*, but you cannot – like all the others – grasp the ultimate consequence. *Many* possibilities arise, but which of these is *correct*, *this* is this so-called consequence. One can never gain an overview without a completely solid faith in GOD.

(Comment: Dear reader! We thank you cordially for all the numerous acknowledgments and thank-you notes for the spiritual work we do. We also thank you for the trust you place in us. (Because of lack of time and reasons of high postal charges, we find it unfortunately impossible to answer all your letters.)

The exploration of the spiritual realm (By Herbert Viktor Speer, 1968)

When talk turns to *spiritual séances*, one spontaneously thinks of necromancy. One connects this word with concepts like *superstition*, *devil's spook* and other gruesome tales. And then there is the fear of Church Fathers, who, based on biblical texts, reject all communications with the dead. They can under no circumstance believe that a séance could possibly have anything to do with religion.

The reality looks entirely different!

- *A good séance is a celebration that is more devotional and august than a usual service in a Church. The atmosphere is exceedingly solemn and friendly. LOVE and trust are absolute, basic rules.*

The medium is not an actor in the sense of our socialites, but only a neutral mediator, just a living instrument. However, one has to adamantly take the difference between spirit and matter into consideration. It doesn't make sense to ask questions that mainly deal with our physical existence, for instance, how one *can make money* or how one *can improve one's standard of living*. If we desire *indoctrination*, the spiritual realm will help us in every respect. The following, exemplary questions always find resonance:

- How can we improve our relationships with our fellow men?
- How can mankind's level of development be raised?
- What does the future that awaits us look like?

During a séance, a television producer asked what direction the *political future* will take. This question was *ignored*. The spirit GUIDE mentioned that it was not his mission to portend the political future. This producer was eventually reminded that he could put *ethical* or *religious* questions.

We also tried at times to ask questions in regards to the political situation. But after two or three of such questions, the spirit GUIDE asked us to change the subject. The fact is that these types of questions lead to *disharmonies* that could upset the whole course of a séance, because this could introduce otherworldly BEARERS of THOUGHTS that feel absolutely wonderful when surrounded by disharmony. These TROUBLEMAKERS and WISEACRES, these WAR STRATEGISTS and *negative* PHILOSOPHERS and POLITICIANS would dearly like to vocalise their points of view through the medium, would like to cause unrest the way they did during their lifetime on Earth.

A well organised séance, with excellent participants, is a glorious connection with superior SPIRIT ENERGIES. But one can also turn a séance into a gruesome event. It is up to us; because the following saying also applies here: “*Show me whom you keep company with and I tell you who you are.*” One has to be liked by the otherworldly BEARERS of THOUGHTS and one has to demonstrate a common interest. This is based on reciprocity.

Wherever *good* circles work on Earth, the methods are almost always the same.

Wherever *macabre* circles ply their trade, the methods do also not differentiate from one another, that is to say, they are *negative*.

If the major Churches did not have appreciable success in this field and were lied to and duped in the past, you will find that the blame lies with those that experimented – because they were *negative, arrogant and overbearing*. They did not possess the kind of positive characteristics that guarantee positive results.

- *A high standard of human ethics is the basic premise of a good séance.*

Bits of information

July 1968

The sciences endeavour their hardest to interpret the phenomena of *spiritism* and *spiritualism* in such a way that the results the medium produces are to be found in its *subconscious*. More than 1,000 séances however verified the opposite. The medium also depends on the otherworldly GUIDE.

- *If the GUIDE happens to fail for one reason or another, the medium’s subconscious will not help it any further.*
- *The superior individuality of the spiritual GUIDE furnishes the best evidence for their truthful existence.*

August 1968

The medium *doesn’t know* the questions we ask our spiritual GUIDANCE during a séance. Most questions come up *during* the séance. The answers follow *instantaneously*. The *answers* never require a time of reflection. We recognise therein a distinctive difference between terrestrial and otherworldly thought processes.

August 1968

An interview with the circle leader

Question : What is the objective of the work you do?

Leader : To furnish evidence of *one’s personal survival after death*. There is indeed an infinite amount of such evidence already available, but it is always worthwhile to continue to add new evidence to the pile.

Question : What would it mean to people if they were to become convinced of this fact?

Leader : They would then assess their own existence completely differently. To recognise *the meaning* of the human existence here on Earth is important. It is also important to know one's own level of spiritual maturity, as life is eternal and does not end with one's disembodiment.

Question : Do you really believe that you'll be able to achieve your objectives?

Leader : A pioneer never asks this question. He does the best he can and in the process performs preliminary work for those that follow. The same also applies to *spiritualism*. We already know a whole lot about LIFE in the spiritual realm, but an enormous amplex still waits to be unveiled.

Question : Are you convinced that this knowledge can be communicated via handwritten indoctrinations?

Leader : This field of knowledge also offers a great selection of literature. Our messages are however not part of this literature in the conventional sense. They are *direct* indoctrinations and messages for our subscribers. Our readers have the pleasure of receiving very important, life-changing knowledge.

Question : Do you actually know whether this knowledge really has an impact with your readers?

Leader : Yes, to quite a degree, because we receive thank-you notes from almost all our readers and this informs us about the level of spiritual development. We can gauge from them whether we have been understood. The educational level amongst our readers naturally varies. We have to take this into consideration in order to be understood by all.

Question : What convinced you the most to make you believe so confidently in these psychic messages? Could you not also be dealing with the ingenious efforts of the subconscious?

Leader : No oak can naturally be felled with one single stroke of an axe. Qualms can be maintained for a while, but they have to gradually give way to *objective observations* and *controls*. The abundance of these observations, including the slightest trifles, is extraordinarily large. This is the reason why it was absolutely beneficial to continue this work unabatedly. We conducted over 1,000 séances up to now and the results of those were always published. This raised the level of this mission more and more. If the slightest doubt existed, this enormous psychic endeavour, associated with many personal and financial sacrifices, would be an unequalled pointlessness and an enormous self-deception. Both our mediums are absolutely not egotistical, but only convinced of the importance of this assignment.

Question : What is the greatest benefit your readers gain from this?

Leader : This transmitted knowledge endows them with the complete power of judgement in regards to life throughout the universe.

Questions and answers

September 1968

The sciences would like to see all psychic activity *explained* according to *physical* laws. The things that are real should not really exist in its eyes. Contact with otherworldly is unfortunately not measurable. But an extended association with the otherworldly makes one gradually realise *how much* they *differ* from us terrestrial human beings.

Question : Can our work have an *even more far reaching* effect?

ELIAS : The study of this work requires a good general education, one that encourages contemplation. You cannot expect that all readers have this general education. But long term readers have the advantage of having acquired a relatively good general knowledge from the "*Menetekel*".

October 1968

Apart from automatic writing, one should mention that *automatic drawing* is also of extraordinary conclusiveness in regards to what the OTHERWORLDLY do. We receive information about the terrestrial lives of the OTHERWORLDLY specifically through the very impressive drawings portraying *hairstyles, jewellery, weapons and costumes of past epochs*. Neither the medium nor the participants at the meeting could imagine such drawings. The medium did not study these historical epochs. Everything is new to all of us.

Question : A storm is raging over Berlin. Do these electrical disturbances influence our contact?

ELIAS : Oh yes, one can certainly say that.

Question : What do you suggest?

ELIAS : *Continue!*

Question : During automatic writing we observe that you fill in all spaces between the lines, this is something that isn't really necessary. Is there a specific reason for this?

ELIAS : There is a reason when I add something between the lines without waiting for the piece of paper to be turned and it *isn't* because of thriftiness, but in order to not break the contact, because:

- *Every new start of the automatic writing process means LOSS of ENERGY.*

Question : Is the psychic contact exclusively guided through the hand of the medium or is his brain also utilised?

AREDOS : The contact that takes place here asserts a claim on the *whole* body.

- *The consciousness of the medium however remains uninvolved. This is why the medium never knows what the otherworldly HAND actually writes.*

These contacts actually signify top performances in this field, because they vouch for the *greatest reliability* of the transmissions.

Question : Can we improve the way we communicate?

AREDOS : There are no opportunities to improve things as far as the activities of the mediums are concerned, but the circle can help through *harmony* and *quiescence*, respectively mental *even-temperedness*.

Question : A number of people wrote to ask us why these precious messages are transmitted *specifically here to us*. What can you tell us about this?

ELIAS : It is a matter of course that we *select* our preparers of the way *ourselves* and that we do not accept the mediums suggested to us.

Question : What mediums were suggested to you?

AREDOS : We mean *presidents of states*, eminent *politicians* or *Primates of the Church*. The prophets mentioned in the Bible were also unpretentious people. JESUS CHRIST was a righteous carpenter.

Question : And why did you prefer *us* in particular?

ELIAS : Because you are prepared to *unselfishly* help the truth to break through.

November 1968

Psychic *writing-contact* provides *better* control in regards to the absolute genuineness of an otherworldly connection. This provides many opportunities to show otherworldly individualities. These are the reasons why we have successfully concentrated on this type of connection. The medium may however not know what its hand writes.

Question : Our opponents continue to assert that the subconscious must play an important role in contacts with the hereafter. One talks about an "*ingenious subconscious*", namely that the medium is "*completely unconscious*". It is therefore a case of unequivocally refuting this false assertion. What do you say to that?

AREDOS : This assertion has already been unequivocally refuted by distinguished scientists. But if this was the case, I would suggest that all leaders of the human race *deactivate their minds* and *only*, but completely depend on their completely unconscious subconscious. This would turn this planet into a divine paradise in no time at all.

- *Knowledge demands schooling – and where did the "completely unconscious subconscious" get its schooling and its world-encompassing experience from?*

You can clearly recognise the nonsense one would like to use to discriminate against the truth.

December 1968

Once the medium lifts the pencil from the paper, the contact is immediately severed. It requires a *waiting* period of about *one* minute until contact is re-established, after the medium has put pen back to paper again. If the answers came from the medium's subconscious, the medium should be able to continue to write again *immediately*. All of these little characteristics help to recognise the actions of the otherworldly.

Question : Somebody suggested that we introduce a badge, for instance a pin, for all readers of our protocols. What do you make of this suggestion?

AREDOS : We are *not* in favour. Such a badge would not promote contact between people. It is rather a case of deft conversation. But above everything else, the *courage to come forward*, something most people unfortunately lack. It is less a case of recognising like-minded people through a badge, but rather a case of what CHRIST called a so-called "catching souls". He said to his disciples who did not wear badges: "*Come with me fishing for people!*" No fish likes to be caught in a net and this is why one has to do this very adeptly.

- *Spiritualism is not ideal as a society. Spiritualism is also not a Church religion, but a natural science; only it can have scientific pertinence, that is to say, be empirically credible.*

ELIAS : We are generally not against wearing of club logos, if the practice is *not abused*.

Question : Dear ELIAS, it is my intention from now on to confidently discuss everything with this regular circle in absolute friendship. We will discuss things and then ask our questions after, so that we can progress *even faster*. Is this to your liking?

ELIAS : Yes, this is a *good* proposal, one we *gladly* accept. We can then correct your discussions. I would like to attract your attention to the fact that it is mainly a case of *getting away* from your terrestrial thought processes and begin to think in *cosmic terms*.

- *The appellation "GOD" would have to give everyone a feeling of awe.*

The exploration of the spiritual realm (By Herbert Viktor Speer, 1968)

Question : Are *forecasts of the future* possible through connections with OTHERWORLDLY?

Circle leader : Yes, but to a *limited* degree, because the otherworldly are indeed knowledgeable, but *not omnipotent*. Base spirit beings only spread hoaxes. The answers of the otherworldly are purely based on trust.

Question : How do you ascertain that the answers and forecasts given by your MESSENGERS of LIGHT are correct?

Circle leader : This is a case of extensive experience. During our 16 years of co-operation we managed to get to know the otherworldly TEAM of WORKERS pretty accurately. We know that we are not told lies. If it should happen that our MESSENGERS of

LIGHT are not informed enough about a subject matter, they refuse to answer our question.

Question : How does one best approach such MESSENGERS of LIGHT?

Circle leader : When looking for precious stones, the diggers must first remove a lot of rubble and must show a lot of endurance. The same applies with spiritualism; one must also remove a lot of rubble here first. The better SPHERES are only gradually approached after many disappointments and demonic encounters. Above everything else, one has to *personally change for the better* and one has to make an individual effort to achieve a higher level.

- *It is impossible for someone with a low level of spiritual maturity to make contact with a reliable MESSENGER of LIGHT.*

Question : Can you give me an example where a forecast of the future by your MESSENGERS of LIGHT was *verifiably* proven correct?

Circle leader : We have a *lot* of these examples. But let's take a closer look at our contact with the hereafter in front of a television camera in October 1967: Our SPIRIT GUIDE told the producer *Horst Knaut* that *the English had to wait for a long time before being accepted into the EC*. The spirit guide ELIAS further mentioned that *one could expect armistice negotiations to take place in Vietnam in 1968*. These answers were read to millions of viewers during the television broadcast, they are predicted and also verifiable.

Question : Why do the major Churches distance themselves so conspicuously from spiritualism?

Circle leader : The Churches have tried to make contact with the hereafter for ever and ever, but they never managed to get passed all the rubble. The level of spiritual maturity of the Church's people dealing with this was *not high enough* to find this jewel. But when they really did manage to establish a good contact, they were harshly criticised by the MESSENGERS of LIGHT. This however did not suit them at all, because they regard themselves *infallible*.

Question : You distribute brochures and booklets for a price. Isn't this a form of profiteering?

Circle leader : Only those that are unaware of the *complexity* and associated difficulties of the work we do would call it that. We know that we are dealing with a mission that is very difficult to achieve. Our efforts in no way relate to our revenue. On the contrary – there is always a deficit and this in itself would induce many to abandon this mission. Over all these years, we never demanded one *single* fee from the participants of our circle.

Bits of information

January 1969

The medium is *never in a trance* during a séance. The most important prerequisite for a contact with otherworldly beings is the medium's *complete passivity*. The medium feels a *slight tug* on its hand and it must obey it completely. The questions are asked *verbally*. The answers follow *at the blink of an eye in writing*. Each answer is immediately deciphered and read out loud by the medium. The different handwritings are very difficult to read. A certain degree of perfection has only been achieved through years of practise.

February 1969

The medium *may not show an interest in the questions that are asked* so that its consciousness does not come to the fore. The written answers are *immediately* read out loud and recorded on tape. If the answer is illegible, the otherworldly WRITER is asked to repeat the answer. This then clearly shows that the otherworldly WRITER makes a more concerted effort. The illegibility of the handwriting is due to the very high tempo of the writing process. Genuine contacts always display this *very high* tempo of the writing process and this has probably something to do with the significant speed of the otherworldly being's thoughts.

Questions and answers

Question : We do recognise the fact that our *Psychic Peace Circle* is just a small piece of tessera within the overall picture. We therefore have no idea what GOD'S PLAN looks like. Can you tell us more about this?

ELIAS : What would the world look like if there were *not more* people who think and act like you? You do not have to be aware of the details of the divine PLAN, suffice it for you to know that such a PLAN *exists*.

Objection : But if one does not know a PLAN, one could easily be tempted to do something wrong.

ELIAS : This cannot happen to you, because it is virtually impossible under our guidance. Follow our instructions explicitly, because we *know* the PLAN that is still incomprehensible to you.

- *If you were aware of the PLAN of SALVATION, the great danger would arise where the ANTAGONIST would attack you from all sides in order to gain this insight.*

The divine PLAN reaches back thousands of years, well actually back to the time of *Moses*. The SANTINER are however completely orientated. They also know the details and abide *accurately* by this PLAN and not according to your ideas. The SANTINER are also in possession of *better means* to prevail against the ANTAGONIST.

You have to remember that this meeting room here has no physical boundaries for us and that it represents an AUDITORIUM MAXIMUM from a spiritual point of view. This simultaneously provides *visual instructions* for *many* souls willing to help make

the world a better place, no, even more: *To save it!*

Bits of information

March 1969

Psychic, respectively automatic writing and drawing depends to a high degree on the physical and mental state of the medium. Complete *ease* and *harmony* are *absolutely essential*. The medium must be well rested before contact takes place. If the state of mind of the medium is not in order, contact difficulties arise that could produce absolutely illegible psychic writing. But the *circle participants* must also be in a *harmonious* mood. They can also disturb the circle.

April 1969

An eminent journalist expressed himself as follows about the psychic messages of the *Psychic Peace Circle, Berlin*:

“It is an exemplar of spiritual brilliance. The ability to convert the 26 letters of the alphabet into words is *unparalleled in its beauty*. My profession demands that I spend my whole time at work writing. This is why I appreciate how supernatural it is to express words of great wisdom so spontaneously and with such august simplicity.”

May 1969

A spiritual medium represents an excellent instrument for otherworldly souls to make contact with people on Earth.

- *There would be no religions on Earth without this possibility of COMMUNICATION. It is the actual origin of all religions on Earth.*

The transmitted messages do however depend on the level of development of the spiritual interpreters.

- *The better the circle, the better the answers of the otherworldly.*

June 1969

The writing medium never participates in the discussions. The medium only enter the room the séance is held in when the séance begins. It often happens in spite of this that the spirit GUIDE *immediately mentions the discussion* to make explanatory comments about it. This is beautiful evidence that the spirit GUIDE is already present *before* the séance and that he perceives everything.

July 1969

Not every otherworldly WRITER is able to write with the medium. Both mediums, namely the one in the here and now *and* the one in the HEREAFTER must harmonise very accurately. We experienced in the past that our spirit GUIDE ARGUN generally could only write with the medium *Monika-Manuel*, whilst the writing with *Uwe* became too fast so that it could no longer be deciphered. This circumstance however provides particularly good protection against abuse by somebody under a false name. Even if one were to *imitate* the handwriting, the contact would be

immediately disturbed. These messages have been absolutely reliable for more than 17 years and our GUIDES are still *the same*.

August 1969

A séance lasts about *two hours*. The appointed time is always determined by the otherworldly TEAM. As reward for this work, the participants bring a lot of beautiful flowers. *Seven candles* burn on the work table. *Two candles* burn behind the medium. This candle cult is important, because it clearly shows the WORLD of SPIRIT that it is dealing with *Christian Spiritualism*. We were told that the otherworldly participation in these séances is *very significant*, similar to an *Auditorium Maximus*.

September 1969

The medium is not able to establish contact with the hereafter at another location unless this location was agreed upon by the otherworldly GUIDES. This fact has to do with *security precautions*.

October 1969

Good psychic contacts are *very beneficial*. Over the course of many years, the medium performed a noteworthy task. The psychic writing amounts to *more than 5,000 printed pages*. In addition to this are *over 200 psychically drawn portraits*. It would be wrong for someone to assert that psychic contacts are damaging to one's health. The gazette "*Jasmin*" estimated that the medium was 21 years old. The actual age of the medium is however 35. The medium is fully employable in his responsible position where he works.

- *Only poor connections with the hereafter are damaging and this is mainly due to the medium or the circle's leadership.*
- *Even more dangerous and unreliable are mediums who work on their own, mediums without a circle and without a circle's leadership.*

November 1969

The *Psychic Peace Circle, Berlin* works with experienced automatic writing mediums. The mediums are *not* in a trance and are absolutely awake. The difficulty consists in the complete elimination of the mediums own will so that their own consciousness does not provide answers to the questions that are asked. All those present have not the slightest idea what the text written during the séance is about and this includes the mediums. After the text has been received, it is immediately read out loud and recorded on tape.

December 1969

Genuine contact with the WORLD of SPIRIT is based on the LAW of perfect harmony. Burning candles, music and appellations are *preparations* to facilitate this harmony. The medium requires these VIBRATIONS to free itself from anything terrestrial. This has nothing to do with your general cults. Good contacts *require* solemn serenity.

Questions and answers

January 1970

The work circle debates and asks questions. The medium *instantaneously* writes the answer and immediately reads it out loud. The result, respectively the question and the answer, is recorded on tape and later transcribed.

Question : Our work circle has been working according to a predetermined plan and we never allowed ourselves to deviate from it. Is it alright for us to continue as before?

ELIAS : Yes, this is exactly your assignment. Nothing will be changed. Do you believe that you discovered spiritualism all by yourselves? This was also *planned* and *prepared* very accurately. Coincidence has been completely eliminated.

Question : Are there actually coincidences?

ELIAS : There are *coincidences*, but there are also *providence* erroneously regarded coincidences. Even GOD had to deal with coincidences now and then. But HE then includes any such a coincidence in his divine plan. They become part of his experience. If a coincidence is positive, it will be acknowledged and passed on.

Bits of information

February 1970

Various FRIENDS that are part of the otherworldly TEAM announce their presence every now and then. They then write via the medium *individually*. *Their temperament* and their *handwriting* identify them. This is how they want to remind us that they are still here and still part of the TEAM. After a short welcome the spirit GUIDE once again takes control of the medium.

The processing of the theme is sometimes determined by our otherworldly GUIDANCE. This is why it isn't always possible to put our own questions *right away*.

- *All proposals to officially publish the Menetekel were always rejected by our spirit GUIDANCE.*

The *Menetekel brochures* represent an individual indoctrination for every bona-fide seeker of the truth.

March 1970

To guarantee the immunity and genuineness of the contacts it is very important that the medium does *not know* the received messages. Even the medium is unable to decipher the writing if it is illegible. The answers will then have to be written once again.

April 1970

- A genuine contact has its typical characteristics. If the messages came from the subconscious, the following characteristics would not make an appearance. The behaviourism of the circle participants is *decisive* in regards to the success of the contact.
- The medium loses certain ENERGIES.
- Hunger and thirst are the consequences of every séance.
- If there is *disharmony* within the circle, the medium is *totally exhausted*.
- If the circle works *harmoniously*, the medium also profits and receives *additional ENERGY*.
- A meeting last for about *two hours*.
- The arm of the medium is supported by an otherworldly FORCE during the *automatic writing process*. The right arm hovers during the whole process. It is never rested. But it doesn't get tired.

Questions and answers

April 1970

Question : We cannot have a view over the success of our mission. Can you tell us something about this?

ELIAS : Terrestrial people can at times see the objective they strive for, but they can unfortunately *not predict the final consequences*. This applies to the whole planet Earth whose future is at stake.

May 1970

The medium occupies a leading, responsible position at work. The psychic contacts have been realised by the medium for over 18 years. This is concrete evidence that psychic abilities are not a pathological condition if the intentions are *absolutely positive*.

Question : Do we have an influence on reforming human thoughts?

ELIAS : The truth slowly filters through.

Question : Somebody once suggested that we arrange the *Menetekel* in such a way that we *stick to one theme* each time and not go from one question to another. What do you say to this proposal someone put to me?

ELIAS : I am of the opinion that one should not serve an excellent meal all at once. One should not eat more than one can digest in one sitting either. Meals should be selective, eating a little here and there. Its success verifies that the *Menetekel* has the correct format. Nothing will be changed here.

Question : Our circle work represents the basis for the *Menetekel*. Are our questions the right ones?

ELIAS : This informational script is not meant to be a thesis for opinionated scientists. This script should *animate* the readers *to contemplate* a lot of things. We maintain that one single logical sentence can animate thoughts much more than a whole book that might be difficult to understand.

Question : One talks about the “Age of Aquarius”. This Age of the Spirit promises a renewal of human thought processes. Can you yell us more about it?

Answer : New problems will continue to arise and this should actually make you proud, even if this does not make sense to you now. A great endeavour is to be finalised and preparation for those that follow should already be made. Problems will arise in increasing numbers.

Everyone wants to and can quench their thirst for the truth at living FOUNTAINS. You can satiate many souls and those that want to serve will be informed *to be at the ready*, because many will assert a claim on their support.

It is further required *to close the ranks* of all co-workers, because you will be exposed to numerous attacks, you, the pioneers of the spirit. You must learn to remain *steadfast* and not to be afraid *of anything* whatever attempts are made to ambush you. I hope that the time of spiritual renewal is not arrested.

Question : What particular difficulties does this renewal have to overcome?

Answer : Above everything else, *materialism* and *selfishness*. *Egotism* has the upper hand. It isn't necessary for me to delineate the chaos that already reigns, because selfishness reigns *without regard for one's fellow man*. But people already take notice, because they sense that the Age of Aquarius has begun.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1970)

If one wants to assess whether spiritualistic contacts are easy or difficult to establish, the following must be said about it:

Every human being can establish such contacts. It is a matter of patience, interest and the correct training. It can be roughly compared to riding a bike: Once one has worked it out, one becomes more and more confident. It is however a lot more difficult to establish good, *reliable* contact.

It is even more difficult to establish a FRIENDSHIP with otherworldly beings. In regards to such a friendship, it is very important and absolutely decisive in regards to the truth. A FRIENDSHIP with otherworldly FRIENDS can last for years. Our FRIENDSHIP with our MESSENGERS of LIGHT exists since 1952. They have been *faithful*, *sincere* and *reliable* throughout all these years. Their punctuality is exemplary.

One has to remember that the spiritual realm is multi-faceted. We are surrounded by entities that are very much *like* us. The here and now and the hereafter have a shared interest in this.

- *If we happen to come across unwanted BEINGS during a contact, we have to look for the reasons with us to begin with. It is particularly bad when one affronts otherworldly BEINGS or if one does not take them serious. They do not tolerate such derisiveness. Base spirits always try to take revenge. They are sometimes successful. The end result might then be a lunatic asylum.*
- *There is hardly anything to fear when contact with positive spirits has been established and one accepts their doctrines.*

We have a lot of practical experience. We were not just able to study the *circle participants* during well over 1,000 séances, but were also able to get to know the OTHERWORLDLY. We also made a few mistakes and we had to adjust a lot of our opinions accordingly.

The summarisation looks like this:

- *A circle might be ever so good, but it will suffer an absolute setback if it allows guest to participate.*

Even if guests assert that they are well versed in the psycho-sciences, it will not change this fact.

- *A circle participant can have participated at all the séances over all these years, but he will have learned nothing in spite of this, if he was not willing to combat his shortcomings, if his character remains as it ever was. One or more people can of course be dragged along. The fact that the circle is not as it should be will always be a hindrance.*

This is why it is absolutely reasonable for a circle *to close ranks* and not allow access to anybody else. This has nothing to do with the circle having something to hide. We are not dealing with fraud or with the running of a superstitious cult. These are purely *security measures* and they are justified. This unfortunately leads to a situation where all guests, aspiring to join to circle on a permanent basis, feel *affronted* or *aggrieved*. These circles call themselves “Secret Lodge” or “Secret Sciences” in a lot of cases, there is nothing mysterious about it, but only a desire to remain amongst themselves. It has happened that those that were rejected wrote some very *spiteful* letters to us *after*. This was the best evidence for us that we had acted correctly, namely to keep our circle pure.

Questions and answers

June 1970

During the course of many séances, a kind of “stenography” developed between the spirit GUIDE and the writing medium only the medium can decipher. Due to the *very rapid* writing speed, the medium is unable to follow the text and this protects it against any *subconscious interference* on its part.

July 1970

Every medium has a GUIDING SPIRIT. It is most of the time impossible for a medium to correspond with the SPIRIT GUIDE of *another* medium. We are therefore dealing with *another* medium when *another* religious ORDER NAME appears in an answer.

Question : How can one ascertain that messages are *genuine*?

ARGUN : The quality and genuineness of psychic messages *depend on the PROTECTION*. The construction of an ESCARPMENT around the work circle takes *years*. As this circle has been in existence for 18 years, the PROTECTION around it is accordingly well organised.

Question : A Roman-catholic reader of these spiritual doctrines writes to say that it would be a wonderful thing for people on Earth, if these spiritual connections were true. He further states that the result of a *verifiable* existence after death would spread *more LOVE* amongst people and that there would be *less* sinning and *fewer* wars on Earth. What do you say to that?

Answer : Let's be grateful that at least *one* soul sees a SHIMMER of LIGHT and endeavours under difficult circumstance to recognise the greatness and augustness of the LIGHT in contrast to what he learned and held to be the truth. He already searches for answers to his questions. This is how knowledge has its beginning.

August 1970

During the many contacts between the medium and the spirit GUIDE, a style of writing developed that only the medium can decipher. We are dealing with abbreviations similar to stenography. If the medium cannot read the writing, the spirit GUIDE is asked to rewrite the answer.

Question : We did indeed complete a book in co-operation with you, but it is extremely difficult to find a suitable *publisher* for it. What do you have to say about this?

ELIAS : *This manuscript has to remain unchanged!* We *intentionally* selected this form.

- *We are however aware that publishing is always more about profits than spreading the absolute truth.*

Publishers always look for the sensational, that is to say, the spectacular. This unfortunately also applies to the Churches, because they always look for sensational miracles.

* * * * *

The exploration of the spiritual realm (By Herbert Viktor Speer, 1970)

The things people generally hear about spiritual phenomena is *mostly negative*. They therefore cannot gain a clear picture about it. They believe that they're dealing with misjudged, ancient things "enlightened" people have not taken serious for a long time. The same applies to most scientists and doctors, because they obtain their knowledge from the same sources.

The reality however looks entirely different.

The exploration of the spiritual realm has detached itself from these antiquated views some time ago and proceeded along its *own* paths. One thing an initiated, interested party immediately spots is the fact of the *international accordance of the research results*. Even when the individual

research circles are not in direct contact with one another, they still ascertain that there is an enormous amount of accord in regards to these supernatural messages. The details include the spiritual realm's LAWS and details of the way the otherworldly THOUGHT BEARERS live. We are therefore dealing with fields of knowledge that are generally *unknown*. So-called "experts" have no ideas about these things. Their interests are only in the *unusual* and *sensational*. They are *not interested* in this kind of indoctrination. We experienced this often enough.

About 15 years ago we informed *Professor Dr. H. Bender* about our spiritual activities. He answered that he would "visit us the very next time he came to Berlin". We have become world-renowned in the mean time. The press and various television crews have come to visit and interview us, but his visit still remains a promise.

It is said that you can knock on the DOOR of KNOWLEDGE and the DOOR will be opened for you. There is something missing here, because we are dealing with *two* DOORS: One DOOR leads to heaven and one DOOR leads to hell. But those that do *not* know the prerequisites and legalities will surely knock on the *wrong* DOOR. Hundred of thousands of psychic people try to knock on the DOOR leading to the hereafter; it will open for them most of the time, but it is unfortunately the DOOR to hell. This also applies to scientific "experts" who are not better informed than the layman.

- *The otherworldly contact is substantially determined by the behaviourism of the mediums and the circle participants.*

Some of the INHABITANTS of the *lower* SPHERES are *highly intelligent*, but extremely *crafty* and *devious*. They are able to *make themselves interesting* and spread insanity amongst the whole circle. *This* fact in itself is evidence of the genuineness of the contacts.

Parapsychologists assert that it is necessary and unavoidable to allow mediums to establish a cult. But they never entertain the thought that it *isn't* about the cult, but a *certain respect* for the spiritual realm. The respect isn't always present with scientists and it therefore comes as no surprise when they are cleverly led astray. This is the reason why family circles are still the best, particularly those one finds in England. Family circles are *honest* and they show a certain amount of respect for anything HIGHER.

Eminent spirit TEACHERS are *absolutely not* interested in magic tricks and matinee performances. They are highly intelligent and experienced TEACHERS and work within an extensive, world-wide MISSION, one that is supposed to raise us to a *better* level. Terrestrial experts however do not like to be instructed in this manner. This is just *one* of the many shortcomings of so-called "experts".

Bits of information

September 1970

The training of a medium takes years. It however becomes apparent that the TEACHER and GUIDE of the medium, ergo the otherworldly, entertains the best contact with *his male or female student*. Any other otherworldly will encounter difficulties. This circumstance is good evidence that we're not dealing with revelations from the medium's own subconscious.

October 1970

The medium suffers a visible loss of ENERGY during spiritual contacts. This is why contacts cannot be repeated after only short intervals. *This* is also clear evidence that spiritual contacts have *nothing* to do with the subconscious.

November 1970

All genuine writing mediums accordantly explain that they feel that their arm, the hand included, is attached to an instrument that carries out its movements.

Questions and answers

Question : Can you tell us something about the *benefits* of our mission?

Answer : I am obliged to talk about myself. This is something I have a great aversion to, because I only see myself in the role of a mouthpiece for the OTHERWORLDLY that sent me to fulfil a great assignment in your world with your help. I am an individual with absolutely human attributes and they naturally endow me to express and feel LOVE and affection. I am proud of the fact that I may receive these feelings from you, you express your feelings with a trusting heart because you know that I will never disappoint you.

I have been your invisible FRIEND for many years, one that stood at your side and encouraged you to strive for the HIGHEST you can possibly achieve. I endeavour to point out the nobleness and eminence of the great mission we're entrusted with and to draw your attention to the souls entrusted in our care, souls we're trying to reach, and the service you are supposed to perform. Let us be joyful about the fact that there are many here and OVER THERE that are happy about what we already achieved, that the POWER of the SPIRIT manifests itself in many and that knowledge already triumphs in the minds of many. May the GREAT SPIRIT bless you all. I came with LOVE in my heart and I go with LOVE.

Objection : One expects *material* service everywhere. There is *little* demand for *spiritual* SERVICE. This situation easily makes one's enthusiasm drop a little.

Answer : Let us remind ourselves again that *all of us* are instruments for an august and mighty PURPOSE. Let us strive to become vessels for the great POWER of the SPIRIT who flows through *us* and teaches *you* how to *renew* and *discipline yourself*. We teach you to take advantage of your *own* gifts so that the GREAT SPIRIT, who resides in all of you, can freely unfold. Therefore allow us to always *live* in the service of mankind, because you live in a material world, where continuous service is imperative. When you serve your fellow men, they will also serve *their* fellow men so that a chain of many links you forged into *your* archetype is formed.

Remember that a POWER exists that strives *to express* itself through you. This POWER is *a part* of creation that determines the course of time, controls the seasons, directs the planet's progress, causes the changing tides and guides the inexorable activity of UNIVERSAL LIFE. This POWER envelops you with a mantle of protective LOVE.

Question : Is the development of psychic abilities the *next* step within the human development?

Answer : Those whose psychic abilities are *more* on the surface are without doubt the *harbinger* of this development. They are the first to climb the next rung on this ladder UPWARDS. The future will see psychic abilities as part of normal human capabilities. Your world is going through a phase of mental unfoldment and the spiritual revealment will follow in its tracks.

- *The capability of extra sensory perception will in the future be part of the acknowledged senses of every human being. What is called "abnormal" these days will belong to the things that are called normal.*

December 1970

The communication with the WORLD of SPIRIT is a perfect example of the co-operation between the INTELLIGENCES of living, sentient BEINGS able *to direct, to help and to guide* us in our terrestrial affairs if they find it necessary.

Question : Spiritualism practically looks for the objective truth. It is therefore not irrational at all, but rather the opposite. This fact is however continuously attacked by people with *neither* praxis nor theory in this field of knowledge, people that paraphrase the things other drummed into them. What kind of opponents are we actually dealing with?

ARGUN : Your opponents are numerous; they are everywhere, sometimes hidden, but most of the time up front, because people rather believe them than the truth you were given. What is even worse is that they are not happy to just blaspheme, but that they openly deride and attack GOD. But the latest insights and inventions of technology with help spiritualism – let's call it UNIVERSAL RELIGION – to become the globally accepted world religion. These deriders will then have to cease their mockery.

Question : Can we somehow stave off these attacks?

ARGUN : This is presently hardly possible. But in any case, you must know that we will always stand behind you. The ALMIGHTY also stands at your side and this should comfort you.

Question : Our financial means are at extreme levels. We can only continue this work with great deliberation and planing. What do you say to this?

AREDOS : We are well aware of your concerns, but this work has been carried out in spite of this. As you know, it has gained favour everywhere. We stand by you and we will always participate. The renewal of the spirit is still in its infancy.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1971)

All the things that belong to the human perception process are worthwhile investigating. The spiritual realm naturally also belongs to this, because *all* human beings will experience this LEVEL of EXISTENCE one day whether they want to or not. It is therefore *completely incomprehensible* that so many people *distance* themselves from all otherworldly research results or show no interest in them whatsoever.

One would actually have to assume that theologians are informed about the extent of *spiritualism*. Our conversations with theologians verified that they *know absolutely nothing* about spiritualism; they indeed know the word “spiritism”, but are convinced that they are dealing with *imagination* or *deception* here. This is an inexcusable *backwardness* in regards to the Christian religion.

The devotees of spiritual doctrines are counted in the *millions*. They are mainly spread across countries like *Brazil, Japan, England* and the *USA*. *Germany* occupies *last* place. There are even circles in the *Soviet Union*, even thou they have to exist in secret. The Russians are not prepared to have their religion taken away completely and they are very receptive to everything supernatural. The reader will therefore comprehend that all spiritualistic endeavours here in Germany are *indescribably difficult*. People here are of the opinion that GOD should not accept remuneration for his messages and their distribution.

Question : For how long have you been working in this field of knowledge?

Leader : For around 50 years. We have been publishing since 1952.

Question : Why don't you have these scripts printed?

Leader : We abide by the instructions of our spirit GUIDES and they prefer this form of dissemination. These scripts are very *individual* and specifically qualified as an exercise booklet for the serious searcher.

Question : Where do your mediums come from?

Leader : We are dealing with a family circle that gradually grew in size. The main medium is my son. He has been voluntarily working for this mission on a continuous basis since 1952.

Question : Wherein lays the gift of psychic ability? What qualifies him for this?

Leader : The gift mainly consists in the difficult art of mentally emptying his mind to such a degree that he becomes an instrument in the hands of the otherworldly GUIDE without the slightest resistance of his own will. The otherworldly GUIDE guides the hand of the medium under the supervision of a CONTROLLING SPIRIT. The GUIDE is the handwriting SPEAKER for an otherworldly TEAM of TEACHERS.

Question : What is your son's interest in acting as a medium?

Leader : Only that of providing a divine service for mankind. It is an honorary duty.

Question : Does your son derive any advantages or disadvantages from this?

Leader : He derives no advantages whatsoever and he does not dependent on this activity. He is *36 years old, married* and has been a *managing director* in an *engineering factory* for many years. The disadvantages consist in the impertinent discriminations by the Church and some reporters.

Questions and answers

When observing the way the medium writes, one can clearly recognise the difficulties the WORLD of SPIRIT has to battle with. The SPIRIT GUIDE tries to reduce these difficulties. All these observations always verify the co-operation of otherworldly BEINGS.

Question : What means can we use to disseminate the spiritual truth better?

AREDOS : This question is justified. But I am of the opinion that these means must be financial, because the spiritual means are there and will continue to be at your disposal.

- *There are unfortunately hardly enough insightful people prepared to make a sacrifice on behalf of mankind. This is the only way the truth can be proclaimed diligently.*

As these doctrines are very comprehensive and therefore difficult to understand, the costs involved are accordingly high. The *state* and the *Church* show *no interest* in these doctrines *whatsoever*.

Bits of information

February 1971

During well over 1,000 séances, we were able to observe the medium *very astutely* over again. The guided hand reveals the otherworldly guidance every time. We also continue to be astonished about the eminent knowledge of the otherworldly CO-WORKERS. All doubts about the genuineness of the contacts would border on blasphemy.

March 1971

Our contacts mainly take place through automatic writing. One can observe the difficulties the WORLD of SPIRIT has to overcome to prevail in this way. The hand of the medium carries out movements that allow one to recognise the difficulty of the transmission and how they try to avoid them. Without spiritual PROTECTION, the truth could not be guaranteed.

- *This is why each individual effort by a medium always represents a great danger.*

The spiritually very experienced researcher and *Philosopher H. K. Iranschär*¹ made the following assessment in his monthly journal “Welt-Harmonie” February 1959, on page 158:

“This community called ‘*Psychic Peace Circle*’ is recognised by the press as being one of the most serious and credible organizations in this field. Those that study a few of the brochures will be convinced of this.”

¹ **Iranschähr, Hossein Kazemzadeh**, born 1884, the son of a doctor in Tabriz, Iran. Iranschähr worked at the Sorbonne and the Collège de France as well as the University of Cambridge. He answered a call by the Eidgenössische Technische Hochschule, Zurich in 1936 where he gave a cycle of six lectures to university lecturers and student alike. Based on the requests of his friends, he founded an esoteric school in 1942 to proclaim his doctrine of the harmonious development and co-operation of spirit, soul and body. Iranschähr lived in Flawil, CH, from 1957 until his death in 1962. His legacy included around 70 manuscripts and books, most of them are out of print, as well as numerous unpublished manuscripts. In his later years he looked for a religious-philosophical approach to help the occident out of its prevailing chaos. It was his aim to encourage people to establish a new world culture, one that allowed them to leave their inner turmoil behind to eventually find inner freedom. He wrote numerous works on cultural problems, hedonism, psychology, education and esoteric.

Another 12 years have passed in the mean time and we managed to hear and to learn an infinite lot from the same GUIDANCE. What would *H. K. Iranschär* say these days about our spiritual work? The *Psychic Peace Circle* gained an international reputation amongst those that seek the truth.

Questions and answers

Question : We received an Austrian newspaper the other day wherein a medium asserts that the psychically drawn portrait of ASHTAR SHERAN came from *his* hand. The picture was published without our consent. What do you say to this?

AREDOS: I am not surprised at all. The impertinence in this field of knowledge knows no boundaries. Are you aware of all the things that are stolen or falsified?

Question : Could it also happen that we in our circle are being hoaxed?

AREDOS: This is hardly possible these days. Apart from this, you would notice it immediately. The base otherworldly WORLD knows only too well that it can no longer interfere with you. The mediums themselves do not ask questions and they do not contemplate them during a séance. Over a period of almost 20 years we conjointly managed to build up an ESCARPMENT that cannot be breached.

April 1971

Our medium *Uwe Speer* does *not* rely on this MISSION to secure his livelihood. *Uwe Speer* is a managing director in an engineering factory. His service as a medium is voluntary and without remuneration and he does this to serve the truth. All participants at our séances have never been obliged to pay a fee. All support for our work is on a *voluntary* basis without any coercion.

May 1971

The medium tried a number of times to write psychically *outside of* the circle. All of these attempts were fruitless. Automatic writing only takes place during a scheduled séance.

Question : Can we in the Peace Circle also be duped?

AREDOS: This is hardly possible, because the mediums do *not* ask questions and they do not have the usual room for personal wishes in their hearts. They are only instruments within GOD'S mission. If a deception was intended, the mediums of this circle would immediately fail.

- *The devotional room specifically created for this and only used for our spiritual work, made it possible over the many years of co-operation to establish absolutely secure PROTECTION against any abuse of trust.*

Question : A lot of *negative* FORCES are presently at work and this severely harms spiritualism and the SANTINER mission. How can we fend against them?

ARGUN : By consequently eliminating all those that only want to make money from this

situation with their ruthless *business practices*. You recognise them by their *panic causing* ways and their threats of a Last Judgment. All of these rumours are *not* based on the truth. Those that believe them wait for the SANTINER in vain. The extraterrestrials are and remain your friends and helpers. Even when they encounter massive rejections, they still remain faithful to their mission. The SANTINER are not invaders or revolutionaries, they are HELPERS.

Question : A lot of these panic causing rumours allegedly stem from psychic sources. Is this correct?

ARGUN : These mediums use pendulums, write with a glass or use a planchette. They are therefore unprotected. For as long as they are *dogmatic* and *fanatical*, almost *religious zealots* trying to enforce their opinion on others, they will be duped.

Question : Is there a difference between tests carried out in laboratories or home circles?

Answer : Absolutely! A test in a laboratory *never* has the atmosphere, respectively the harmony as is the case with a home circle. This is why base spirit beings can easily abuse the medium in a laboratory.

- *But scientists hardly show an interest in the results home circles achieves, because they were not produced under their supervision.*

Question : Is it conceivable that the spiritual realm will one day *abandon* its endeavours, because scepticism and atheism are rampant?

Answer : No mortal human being on Earth has the power to extinguish the divine LIGHT of the ETERNAL SPIRIT that resides in *every* human being. The positive spiritual realm will *never* abandon GOD. This is impossible.

Even though the spirit is intimidated and beaten down to the lowest form of serfdom, it refuses to give in, because it is aware of its inherent, respectively its inherited divineness. It gets up over again until evil is gradually overcome. The despots will be destroyed and tyrants will lose their powers; because they are the ones that arrest the development of mankind on Earth.

Bits of information

June 1971

One can observe some loss of energy with the medium after every genuine contact. This is the reason why the medium requires a certain time to replenish this loss of energy. It is therefore not advisable to hold séances in quick successions.

July 1971

The medium wrote at least 5,000 pages automatically. According to the opinion of some scientists, an *automatic writing* medium is supposed to write *only subconscious things* from its subconscious. Those that believe this nonsense cannot be helped in any way.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1971)

The exploration of the spiritual realm is unfortunately confronted by some considerable mistrust. In most cases only people with their *own* experiences in this regards are convinced of the survival of the spirit. One does however *not* believe these people, but rather considers them insane.

We endeavoured for decades with all our might to solve the mystery of one's personal survival and *personal-experience* plays the greatest role in this. The things that however justify our trust are the fact that our mediums are members of *our own family* and that this eliminates deceit, particularly as the mediums work *without* remuneration.

We carefully traced the excuses and nonsensical statements the sciences came up with. What is lacking in any case is personal experience, even if a scientist works with good mediums we are still only dealing with observations, but certainly not with self-experiences. This is why we are well ahead of most similar circles. The circle's leader *personally* experienced all possible forms of communicating, the way we deploy them here. You can add clairaudience to this, that is to say hearing the otherworldly when they communicate with one another.

Doctors naturally have no time for such assertions, because they neither know nor understand this process. It will be possible to better comprehend this type of communicating in the future with the help of technology, that is to say, telepathy will gain enormous pertinence.

- *All human beings are in some way or other psychic, that is to say, they are telepathically connected to the hereafter. Without actually noticing it, they are influenced by entities from the spiritual realm. These telepathic thoughts are perceived as one's own. The whole dangerousness of the human thought processes stems from this fact.*

The fact that spiritualism has not reached all of mankind lays in the fact that the profane house-spiritism has had an upper hand in all of these experiments. House-spiritism is *dangerous*, *mendacious* and *negative* and it should be combated in any case.

As circle leader I heard the way the otherworldly conversed and consulted one another during such experiments, with the aim to *amuse* themselves and to *dupe* the circle participants. This produced results that brought the whole research into the hereafter into disrepute.

- *In contrast to this, we certainly to not practise house-spiritism and certainly not necromancy. All questions asked in this way are futile. Our work is strictly scientific and it only takes place in co-operation of our spirit TEACHERS.*

We are approached by interested parties now and then who assert that they are very interested in spiritualism. We found out later that almost all of them were only interested in *talking to their departed relatives and loved ones*. They showed no interest in the indoctrinations from the spiritual realm, particularly not when asked to *work on themselves*.

The questions asked at house-spiritism parties are profane and material. This type of spiritual communication can never show positive results. We have come across leaders of other circles asking for Lotto numbers until the slips of paper were completely covered with numbers. This is the great malady within the research of the hereafter. One believes that the hereafter represents an

information booth for all kind of nonsense.

* * * * *

Bits of information

August 1971

The perfection of automatic writing consists in the fact that the medium does *not* know the text and that it can also not follow it whilst the writing is in progress. Only once a page is full will the text be deciphered and read out loud by the medium. The questions and the answers are recorded on tape.

September 1971

The medium has been working with us to help us find the truth on a voluntary basis for 20 years and this without being paid. The medium works professionally in a responsible position and does not depend on this psychic work. In spite of many hostilities and discriminations, the contact with spirit TEACHERS is continued. This is the pinnacle of faithfully fulfilling a duty in regards to spiritualism.

Questions and answers

Question : Is it true that *parapsychology* gradually gains more and more recognition?

AREDOS : Yes, that's true. Many magazines feature reports about it. By and by interest in it is awakened in this way too. Without interest, everything would be in vain. This is why it is important to present truth in an *interesting* fashion, so that it also appeals to young people.

Question : Can we improve the work we do in this direction?

AREDOS : No, hardly at this point in time. The processing of the SANTINER messages is certainly interesting and *very* educational for all human beings. One will no longer smirk about it in years to come, but discuss it in all seriousness.

Question : Our means only allow a very limited dispersal. Can the truth hold its own at all in this way?

AREDOS : You shouldn't forget the *translations*. A snowball can turn into an avalanche.

Question : You once told us that you had difficulties with our language. What language do you speak?

Answer : Where? – Here or in my own WORLD?

Question : Well, if you had difficulties you must have a different way of expressing yourself. We call this language. I assume that it was the language you used during a life on Earth?

Answer : You see a physical body here you call "medium". This word means a mediator, one that is an instrument that can be used to send something. There are *various layers* of life in our WORLD. It is a WORLD that is organised by the SPIRITUAL

EMINENCES that live in it. It is a life that is classified in various grades, but everything melds together.

- *The longer you live in our WORLD, the more your ties to Earth disappear.*

I had reached a certain level of spiritual maturity when I received an invitation to *return* to Earth in order to *help* your world. A number of the ETERNAL TRUTHS were supposed to be taught, simple principles that had been forgotten, because they were buried under the filth of *falsehood, superstition, ignorance and prejudice*. In order to provide a service to your world, I had to *reduce* my normal VIBRATIONS. I believe that this is the simplest way to answer your question:

- *With the reduction of my VIBRATIONS I had to sacrifice some of my individuality, because the closer one comes to Earth, the less one can manifest one's real spiritual ENTITY.*

Once I was here, I had to utilise a medium to establish contact with your world.

- *The language I talk in my own WORLD, one I return to occasionally, cannot be compared to any terrestrial language whatsoever. We do not use your symbols in the WORLD that I now belong to.*

In order to make myself understood in *your* world I had to have command of your language. I was helped in my endeavours by those I may call EXPERTS.

Question : Where did you live on Earth?

Answer : There is no significance in this. If your common sense allows it, accept the things I tell you. If it goes against the grain, refuse it. If something reaches you via the medium whose origin you find unworthy of its source, do not accept it.

I have been fulfilling my assignment here on Earth for many years. I travel along my path through the truths that I teach and I can talk and discuss things with all and sundry. I cannot assert to have any authority, apart from the one that is connected to the truth that I teach. I would like to emphasise something though, namely that the doctrines bear the stamp of genuine spiritual approval. They can *withstand* the analysis of rationality and the healthy common sense of human beings *at all times*. These doctrines are *not* a philosophy, but the simple truth that will bring true peace to your world. Hatred and chaos, predominant in your world, will gradually be banished.

Question : In our world we place great importance in *famous names*. An unknown name has no significance at all when it comes to doctrines. What do you say to that?

Answer : My doctrines would not be more or less acceptable if I would say “this is *Julius Caesar* speaking”. The truth *must be tested* and solidified through facts. Names mean *nothing* in our world. This phase of glorifying people has passed.

Bits of information

October 1971

15 years of “Menetekel”:

Our first protocol about our psychic work appeared in print on the 1st of October 1956. 180 educational brochures have since appeared in print. Thousands of thank-you letters have attested to their value.

(Comment: Menetekel (Aramaic), according to the writing on the wall at the palace of *King Belshaz’zar*, “*mene mene tekel upharsin*” is interpreted as: “*counted, counted, weight up and dispersed*”, a serious warning and a sign of pending calamities.)

(Daniel 5; 25) This is the interpretation of the matter: “*mene*” God has numbered the days of your kingdom and brought it to an end; “*tekel*” you have been weight in the balances and found wanting; “*peres*” your kingdom is divided and given to the Medes and Persians.

The perfection of automatic writing consists in completely deactivating one’s own will and allowing oneself *to be guided* by a spiritual ENERGY. The medium is not under hypnosis and also not in a trance state. Over the last 20 years the otherworldly GUIDE and the medium have managed to completely tune into one another. The medium knows all the abbreviated writing styles of the spiritual GUIDE very well.

November 1971

Amongst all our spiritual experiments, *automatic* psychic writing has *proven to be best*. The training took place through the otherworldly GUIDES who utilise their own “stenography”. The medium knows all the writing styles and abbreviations. Decades of studying and associated exercises are required to work securely and dependably.

December 1971

Genuine contact with the hereafter is instantly recognisable. It differs from all other usual writing through many important characteristics. A medium declared a person of trust by the otherworldly TEACHERS can produce very connotative work under good GUIDANCE.

October 1971

The brochure: Cosmic giants

A reader writes:

“I have the contact report “*Cosmic giants*” by ASHTAR SHERAN at hand. You however write that the text has been clothed in a narrative so that it can be better understood. I find this a pity because as an outsider one does not know what is reality and what is narration. I am of the opinion that you would serve the matter more if you were to only publish the psychically received material without narrative embellishments.”

Our answer to this:

The whole matter is so important that one finds it difficult to imagine. The form of processing this was carefully discussed with our spirit GUIDES and also with the SANTINER. Many quarters have tried of the years to attack, deride and discriminate against the extraterrestrials with all available means, respectively portray them as dangerous enemies. A large part of the global armament taking place is actually *founded* on this possible danger. The SANTINER and also the spiritual realm endeavour to *correctly* inform mankind. This is the reason why *this* form, which is also a form of entertainment, was preferred.

- *All those people that have no inkling of psychic abilities and spiritual or extraterrestrial existences should be informed and spoken to. We particularly had adolescents in mind in this case, because they should also be included.*

The major publishers have unfortunately completely failed here, because business takes *priority*. They were not prepared to take risks and were also not prepared to appeal on behalf of something that was discriminated against from all sides. So that this precious manuscript would not remain laying on the desktop, we took the advice of our spirit guide ELIAS and undertook the production and the dissemination *ourselves*. All readers can imagine what this meant for us. This additional work, with it numerous processes – all done by hand – is hardly manageable.

We received a lot of replies in the mean time that express true enthusiasm. Young people are also full of praise. We are not a publishing company with access to the book trade. We also do not advertise.

What within these brochures is actually true?

This work goes all the way back to 1956. All dialogues and descriptions of extraterrestrials were elaborated during our séances. There is therefore hardly anything left for the narration itself. Only the journalist *Marin Berger* is an invention. This *Martin Berger* however represents the working team of our *Psychic Peace Circle, Berlin*. This working group was amalgamated in his person. The questions this *Martin Berger* asks the extraterrestrials are the self same questions we asked the extraterrestrials and our spirit GUIDES. All answers stem from the same co-operation. We can therefore say that: These brochures do *not* differ from the reality.

Now let's assume for a moment that everything, including the encounter of *Martin Berger* with an extraterrestrial, *had* taken place like that and we would give an account of it, where would we then be? – Based on international experiences, the reporter would probably die a sudden death and the whole thing would be branded an "accident". Nobody in the USA is surely dumb enough to admit having been chauffeured around the universe in a spaceship in such a fashion. We see this with *Adamski* and many others as well, also with the inventor *Schauberger*.

Those that make the powerful of this planet feel uncomfortable leave this Earth.

The three brochures "*Cosmic Giants*" contain the key to the salvation of terrestrial mankind. Credibility naturally also plays a major role. The credibility can however only be achieved if one shows *an interest* and if one *searches* for the truth with all available means. This is why it is of extreme importance that this information about extraterrestrials is communicated as *interestingly* and as *comprehensibly* as possible. We are of the opinion that these brochures, which actually represent a book, made the subject matter so interesting and comprehensible that *everybody* can comprehend it. Everything else is down to dissemination.

A lot of our ASHTAR SHERAN brochures have been translated and published as booklets so far. All of these translations were quite successful. We hope that these three brochures, being of great importance, also find their way to the public on a worldwide scale.

It would represent an enormous service to the mission of the SANTINER, if every reader would acquire a *second* copy in order to *lend* it to others. We ourselves do not have the means to start such an action. It also isn't possible for us to repeat these editions.

Our work naturally depends on the understanding of our readers. We take the opportunity here to thank all interested parties who supported us so insightfully so far. Most of our readers would not know the extent of what has already been achieved in this respect. The SANTINER messages made a great impression everywhere; this is verified by the replies we receive from all over the world. The mission continues, even if somewhat slower, to serve the truth, the very truth the Churches and other confessions *must* adopt one day if they do not want to go under.

* * * * *

The exploration of the spiritual realm (By Herbert Viktor Speer, 1971)

Research into the hereafter *isn't just* about contact with deceased people one would like to talk to one more time, it is the exploration of the unknown world of the *fourth dimension* every human being – without exception – will one day go to. We are therefore dealing with a human DOMAIN of EXISTENCE.

- *Logical contemplation must make it clear to everyone that this research is far more important than exploring the Moon who is not a domain of existence for human beings. This fact makes one recognise how differently man's terrestrial assignments are appraised.*

We are convinced that we would never have achieved the level we enjoy these days if we had *only* dealt with necromancy, ergo questioning the dead. Even though the interest in necromancy is greater, we categorically reject dealing with questioning them. We ascertained that *no guarantees* in regards to genuineness are achievable with necromancy, ergo contact with the deceased. Even when so-called CONTROL SPIRITS announce their presence, ENTITIES from the *lower REGIONS* can *pretend to be* the relatives one is looking for.

Spiritists assert that one can ask for proof of identity. We also tried this, but with the result that the proof was also very cleverly falsified.

- *The Bible therefore seems to be correct when it states that one should not hold conversations with the dead.*

Just who in the spiritual realm should one turn to? Aren't *all of them* physically dead?

- *The aim of any contact may not be for personal advantages. Instructions for all and sundry must have priority.*

CHRIST also always wanted instructions *for all and sundry*. This is the way! A confession stands in the path of this aim, because church dogma can influence the required logic. One has to be so open-minded that one has to start *right from the beginning* and one has to be prepared to declare that one is willing to learn.

We amassed a lot of experience over the last 20 years and we now know pretty accurately how our otherworldly TEACHERS like to proceed. Our TEACHERS do not force anything on us. They also do not freely lecture us, they only answer our questions. These questions are answered very elaborately and conscientiously. The moment we expect the otherworldly to tell us something about ourselves, the GUIDE writes a large question mark with the hand of the medium, meaning that *we* should ask our questions. The method is extremely effective and it should be given more attention to by pedagogues. When students have more opportunities to direct their questions at the teacher and when these questions are correctly and appropriately answered, you will find that this is an absolutely correct way of giving lessons and all students would be readily willing to participate. Other ways of educating can naturally also be utilised on the side, but the *question-answer-lessons* are best for educating people.

Up to now, our otherworldly GUIDES have always tried to offer us *moral education* as well. Even though all of our themes, problems and questions were always dealt with, moral education always played an important role. We were able to learn a lot in regards to *civility*, *decency* and *justice* from them. But we were also able to ascertain that our sphere of existence *lacks a lot* in this respect.

Research into the hereafter isn't just interesting it is also *unequally educational* and *satisfying*. It turns everyone into a *better* human being.

Bits of information

January 1972

The medium has been working in this mission for 20 years. The activity takes place on a *voluntary* basis, an honorary service to benefit and to save humankind. The medium occupies a position at work that demands a lot of responsibility and it does not have to depend on any additional income. One can therefore not assert that this tried and tested psychic ability is something *pathological* or something *peculiar*. The motivation is and remains: LOVE for one's neighbour and for mankind.

February 1972

A major advantage of our psychic communication consist in the fact that the medium is so highly trained that it doesn't know what's being written during the automatic writing process. The subconscious is therefore *not* involved.

March 1972

The medium may *not* ask questions. This strategy *assures* the reliability of the psychic transmissions. Mediums that ask their own questions enlist their subconscious and this makes them unreliable.

- *We categorically reject all psychic transmissions if they stem from mediums who ask their own questions or if there are even their own circle's leader.*

Questions and answers

Question : Our questions are answered by you *at the blink of an eye* and without hesitation. This performance always allows the genuineness of the contact to shine through. This is the same with other circles. It is international. What brings this conspicuous promptness of the messages about?

Answer : You ask your questions, but before you can express them they form as thoughts in your mind. These thoughts clearly show up in your consciousness. You are aware that you are thinking, but in order to express these thoughts to me you have to use symbols. These symbols have pertinence for those that understand them. You call them “language”. The words you use are attempts to dress up your thoughts into something that makes them comprehensible. Your mastery of your language shows whether you were able to express your thoughts *applicably* or *incomprehensibly*. But even if you had the ability of *Shakespeare*, you still could not express your very last thought, because thoughts are *non-physical* whilst your language is *physical*.

Those that hear the words have to retransform them into their original thought from, before they can accept them into their mind set. A long and arduous process is therefore at work here. It is often a patch-up job because you have to *materialise* your thoughts first. Misconceptions occur only because words cannot express your *real* thoughts.

- *If you were able to convey all your thoughts to others without the application of language, most problems that alarm you here on Earth would be eliminated. There would no longer misunderstandings, because all would know what you really mean. Omnipotent diplomacy would be eliminated and all unnecessary ambiguities would disappear.*

Our LANGUAGE is the LANGUAGE of THOUGHTS. The moment we *discard* our terrestrial habits, we converse with one another with *mental* directness so that the hindrance language represents can no longer cause complications.

- *A Frenchman can converse with a Swede and an Eskimo with an Italian and other people and races. Thoughts are sent to one another and not words that only represent symbols of thoughts. I hope that I managed to express this comprehensibly.*

Question : Let's assume that people living on Earth cannot detect that they are addressed by the *spirit* SIDE because of this. They always hold the opinion that they are dealing with their *own* thoughts. Isn't this so?

Answer : This is correct. Many say this about it: “My conscience is talking to me.” But *we* are actually this conscience in a lot of cases.

Question : Can one *enhance* the contact between the departed and the living?

Answer : This depends on certain preconditions. You live in a *material* world and you naturally think along *material* lines. But the spirit inside of man is non-physical. Its origin does

not lie in possessions or financial assets. You are in reality not physical matter, only you physical, transient body is.

- *You are and you remain within yourself always a spirit, whether alive or dead. This spirit moves from one body to the next.*

But where harmony reigns, contact between an incarnated and an otherworldly spirit can take place. This for instance eventuated between *Karl May* and an eminent AMERICAN INDIAN, who inspired him.

April 1972

Over the course of many séances, the otherworldly TEACHERS developed their own kind of stenography. Only the medium is capable of reading this script, because it knows these abridgments from experience. The achievement of the medium is astonishing, but it exacts a lot of ENERGY from the medium.

Question : We are concerned about whether our messages in the *Menetekel* brochures suffice to elevate people to a higher level.

ELIAS : You naturally cannot elevate the whole world to a higher level; it suffices to begin with when a certain number of them learn. Do you want to include something in the *Menetekel* that people cannot comprehend? We could naturally convey a lot of things to you, but you would also not comprehend it either. We therefore have to progress with our teaching method *step by step*.

When I consider the enormous truths that have already reached the public I have to say that this is what I call success. The brochures you so arduously produce have found *remarkable* acceptance. We can say that our co-operation was successful. There are however truths *that you would not understand*. There are no other messages that come anywhere near this work you do.

Bits of information

May 1972

The medium is *not* in a trance state during the séances, it is *completely awake*. The art in automatic writing is found in an *absolute passivity* that makes it possible for an OTHERWORLDLY HAND to guide you. There is nothing occult about this as far as the participants are concerned, because we are dealing with real knowledge.

June 1972

The writing medium feels a very slight pull on its hand. It may not act against this motional impulse, but must remain so passive that the otherworldly has the opportunity to *assuredly guide* the hand of the medium. It is also not appropriate for the medium to track the automatic writing whilst it is put to paper; it may not be aware of what is being written.

July 1972

Neither craving for recognition nor material thought processes are the cause for this mission that

exclusively serves the truth. We have been carrying out this service for mankind for more than 20 years to improve the spiritual standard of this world. We align ourselves exactly according to the guidelines the MESSIAH gave us.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1972)

An interview with the circle leader of the Psychic Peace Circle, Berlin, Herbert Viktor Speer.

Question : How did you end up researching the hereafter?

Speer : This was a recently long journey. Its beginning goes back 50 years. I originally only dealt with occult literature. Experiments did not lead to convincing results. The situation only changed *decidedly* once my son had turned 17. He is highly psychic and the spiritual realm showed an interest in his psychic abilities. Successful experiments initially produced *physical* phenomena.

Question : What do you call “experiments”?

Speer : The two of us experimented with establishing contact with the spiritual realm. We could naturally only utilise *spiritism* as a basis. We undertook attempts to levitate tables. We achieved good rapping sounds.

Question : Could these noises not also have been produced by the medium?

Speer : The many attempts carried out under highly psychic conditions gave me the opportunity to observe these rapping sounds accurately. The otherworldly endeavoured to convince us as much as possible. The raps came from locations we never anticipated. It happened at times that they came from a distance from us the floor boards, that is to say, from the floor. These raps included well-know rhythms, for instance songs and pop songs, and even a number of spirit entities participated in the drumming. It was a veritable drumming concert. We arranged a code, but it was too cumbersome. We eventually made attempts at writing. The communication gradually improved.

Question : What was most convincing for you with automatic writing?

Speer : We received messages whose content we did not anticipate. The first one to announce his presence was a spirit who told us that he forfeited his freedom, because he was a *criminal* here on Earth. He asked for a *prayer of salvation*. We were completely taken back, but we fulfilled his request. He returned the following day and thanked us in writing for the prayer that had apparently helped him a lot.

Question : I am sorry but this sounds like a fairytale. Could it be that this message stems from the subconscious of the medium?

Speer : No, I find this impossible, because our wills were directed at a *different* target. We know nothing about a “loss of freedom in the hereafter” or a “prayer of assistance”.

Question : What were you able to observe in regards to the medium?

Speer : Both of us were highly psychic and complemented one another perfectly, but we lost a

lot of personal ENERGY during these experiments.

Question : How did you detect this LOSS of ENERGY?

Speer : An *unpleasant tiredness* developed after all these experiments, we found it difficult to stay awake. It was a weakness that took a long time to recover from.

Question : How was this circle formed?

Speer : *We did not* form this circle; it developed through the *initiative of the otherworldly*. One spirit being announced itself with the words: "Greetings in the name of God!"

- *We were asked whether we would be prepared to do good deeds and place ourselves in the service of mankind. Spirit beings would give us the knowledge to do this.*

Question : The work of the spiritual circle is very much doubted by the sciences. What can you say to refute their assertions?

Speer : The arguments the sciences put forward are grasped out of thin air and not backed up by anything. It could possibly be that one or more séances are not completely convincing, but after this work has gone on for years, there can be no doubts whatsoever, because evidence of its genuineness *amassed* to such a degree that one could write a whole lexicon with it.

Question : Did you inform the sciences about your successes?

Speer : Yes. For instance, I sent a report to *Professor Hans Binder*, Freiburg/Breisgau. This happened 20 years ago! *Professor Bender* answered that everything seemed to be well observed and also very interesting. If he ever came to Berlin, he would not neglect to pay me a visit.

Question : Did *Professor Bender* pay you a visit? As far as I know, he has been to Berlin on numerous occasions.

Speer : No, he never ever turned up.

Question : What conclusions do you draw from this?

Speer : I am no longer surprised about this. I learned a lot in the mean time and I am not just aware of *Professor Bender's* behaviourism, but also aware of the attitude of general science. *Professor Bender* was able to travel far and wide abroad, but he could not get himself to make a small detour to our address in the *Ahrweilerstrasse*. One has probably not reached a stage beyond forming a *theoretical* opinion, ergo one is *not* asking for personal experiences.

Question : How do assess the situation generally?

Speer : I can understand the scientists' and journalists' great scepticism. We are also extremely distrustful in regards to all spiritual assertions. We receive messages from other circles from all over the world on a daily basis. The things these messages

proclaim are outrageous. The darkest Middle Age sometimes reveals itself. The lies that are told are incredible. It therefore comes as no surprise that one loses faith in it. We however have the opportunity to always maintain our faith through the constant repetition of our séances.

Question : What do you do with these messages?

Speer : We do not keep the messages we deem hard to believe; they immediately end up in the wastepaper basket. I hold the opinion that such messages and assertions only *attract base souls* and we have no use for them.

Question : What makes *your* messages so credible that they differ from the others?

Speer : I can tell you what it is:

- *First the eminent level and secondly the enormous knowledge in all fields of expertise. In addition this is the expressed will to guide all of mankind towards a better future. Besides, our messages do not contain threats, lusts for revenge and no pious gobbledygook. Everything is very factual and real.*

Question : You brought out a monthly journal you call “Menetekel” for about 20 years. Why do your scripts not appear in print if they are so good?

Speer : We abide by the instructions of our SPIRIT GUIDES and they always *rejected* going to print. This is where we differ from other publications. We maintain our individuality.

Question : Can you explain to me how contact with the hereafter is established?

Speer : It is a case of the *mind* and *patience*. One must be able to wait and continue to undertake experiments until results are forthcoming.

Question : Must séances be carried out in darkness or by red light?

Speer : We experimentally tried everything:

- *Red light is appropriate with physical phenomena.*
- *Contact through writing can also take place in bright sunshine.*

Besides, we already realised a contact for television where three powerful floodlights were engaged.

Question : It is therefore not true that spiritualism shies away from the light in order to deceive?

Speer : We have no reason to carry out a deception. We do not depend on our spiritual work to sustain us. Our work is a *service* on behalf of elucidation and the truth.

Question : What really convinced you that a contact is actually *genuine*?

Speer : You will be surprised: *It was actually demons that made a great mistake.* They affronted and reviled us in such a terrible way that we immediately noticed what was going on. They also used such an *ordinary* way to express themselves, something that is not common practice here. We could clearly detect that they wanted *to prevent* us from contacting positive spirit beings.

Question : How did you deal with the situation?

Speer : I also made a mistake by saying: *“We want nothing to do with proletarian spirits.”* I ended up regretting these words very much, because they revenged themselves by causing a spook that *really verified* for us that a hereafter does exist.

Question : How does this spook articulate itself? What do these spirit beings get up to?

Speer : Base spirits made a rumble during the night and *so that we couldn't sleep*; they even moved furniture about. One of their more **ENERGETIC FEATS** was to lift one side of my desk to then allow it to crash to the floor. The desk weighs at least 50kg. They also pestered my clairaudient ears by talking to me incessantly.

Question : How did you manage to get rid of these annoying spirits?

Speer : I had to retract my “proletarian spirits” statement and *I had to apologise.* – I now know that one *may not insult* base spirits, even if they behave ever so terribly. One does not improve the situation doing so.

We carried out well over 1,000 séances in the mean time and gained a lot of experience in the process. We now know pretty precisely how to deal with the hereafter.

- *We don't just welcome our SPIRIT GUIDES when we initiate a séance, but also all spiritual GUESTS we hope will gain insights and instructions. This has proven its merit. In any case, we are always successful and never experience any disturbances.*

Question : Politics plays a major part in our life. Can we ask the spiritual realm questions concerning this matter?

Speer : This is very difficult. It has happened that our SPIRIT GUIDES denied us the right to ask such questions. If political questions are kept simple and if they do not deal with violence they are usually answered very well. But if they are dealing with *Vietnam* for instance, interferences immediate abound. The medium is hindered from writing. It can happen that the whole circle has to disband. We witnessed a television producer asking these questions. Our GUIDE however encouraged him to *only ask ethical* questions.

Question : Did you ever have a visit by a politician?

Speer : Yes, but we only found this out later. We only noticed this when they were determined to find out who their political enemies were and what apposition within the government they might achieve one day.

Question : How were their questions answered?

Speer : They were answered politely but evasively. These guests were *not at all* interested in ethical doctrines.

Question : Do you often have guests at your séances?

Speer : Yes, we always had guests and some of them came from abroad to participate at our séances. But we have declined such visits for quite some time.

Question : Are there reasons for this?

Speer : Guests ask questions that do not further our aim. They ask *loaded questions* in order to find out whether the spirits *are genuine*. And they regard themselves to be omnipotent. We have achieved a level these days that we can only maintain when we continue to investigate with our tried and tested team; we would otherwise have to start from scratch.

Question : Will excluding guests not have a detrimental effect for you?

Speer : I don't think so, because our readers have been subscribing to our brochures for years and they well understand where we come from. I don't believe our subscribers would be too pleased to find that our level has dropped because of a number of inquisitive guests.

Question : Is or was participating at a séance connected to a fee?

Speer : No, we never ask for money. But we cannot publish our brochures for free.

Question : How do you calculate your expenses? This must be very difficult; at least the edition isn't too large.

Speer : Yes that's true. We also use machines as well as expensive electronic appliances and tape recorders. These costs must also be amortized and the postage also continues to rise. We can only send our brochures as printed matter. Sending them abroad is particularly expensive.

Question : Do your scripts only appear in German?

Speer : Yes, *we throw the first stone and others produce the circles*. Our scripts are translated abroad, but we don't receive anything from this. It is said that what comes from GOD must be given *for free*. We regard the whole thing a divine, important MISSION.

Question : How much longer will you continue with this work?

Speer : For as long as GOD helps us; till we breathe our last breath.

Bits of information

August 1972

The *best* instrument for otherworldly contacts is *a human being*, because it *disposes* over all the organs the spirit requires.

September 1972

We noticed over again that the otherworldly endeavour *to verify* their existence in one way or another; they come up *with new ideas all the time*, even though we no longer doubt their existence.

October 1972

When we began with our contacts with the hereafter, the otherworldly GUIDES made great efforts *to verify* their spiritual EXISTENCE. They produced veritably artistic performances through automatic writing, something no terrestrial human being can accomplish. Later, once they realised that we no longer had any doubts, they reduced their attention to just questions and answers.

November 1972

The medium occupies a leading position in a technical company that demands a high degree of responsibility and concentration. The medium participates at these spiritual séances out of LOVE for GOD and mankind and does so in an honorary capacity and unselfishly. A craving for recognition is also not present, *because the medium is not involved in the further processing and publication of the protocols*.

Questions and answers

Question : Can the guests at our séances influence the communications with you?

ELIAS : This is by all means possible, because the FREQUENCIES that are very important for this type of communication undergo a shift. This happens for instance when the BEARERS of THOUGHTS are too energetically engaged by the guests.

Objection: It must therefore be more advantageous to work with a *regular circle*. But if one rejects the participation of guests one immediately falls under the suspicion that one has something to hide.

ELIAS : A tried and experienced circle works without doubt far *better*, even though guests sometimes come up with some interesting themes. But guests' prejudice can influence the whole course of a séance. A prejudice must not always be a prejudice, because it might also be an inner warning.

Question : What effect do your guests have?

ELIAS : Worst are hypocrites that *behave* as if they were convinced, but are racked with doubt within. But as we already know telepathically what they're about, we can organise

protective measures.

December 1972

When a medium managed to produce way over 5,000 printed pages of *automatic writing* in a magnanimous fashion one can univocally talk about a reliable medium. This would have been impossible without otherworldly PROTECTION. The *Psychic Peace Circle, Berlin* has two of them, members of the same family, at its disposal. The answers from our MESSENGERS of LIGHT can withstand any criticism.

Question : You have to come to us when we want to talk to you. Is it very difficult to correspond with us?

Answer : We naturally require a good instrument in order to correspond with you, ergo an expedient medium. Once it has been found we have *to coach* it and *protect* it so that it isn't abused by the evil side.

- *However coming to you is a sacrifice, because we are attacked and this could even make us lose our objectivity. You cannot imagine the things that have to be organised first before we can talk to you. Without prior organization, bedlam would reign.*

A lot of good teachers refuse to visit the terrestrial sphere. Who wants to leave a country where things are *a lot better*? But I know that I would be of little value to you if I would not retreat once in a while, because only the INNER SPHERES can provide me with the ENERGY required for this work. Once I am back there again, I have no great hankering to leave again, because this is where I am at home. It is a world of ineffable beauty where radiant joys are paramount in their unfoldment. However, a lot still has to be done. Whilst I am there I must also find out whether perfect accreditation is given in regards to what has been achieved in a certain direction. I also like to *catch up* with those that are so near to me in a spiritual way.

Don't forget me when I'm away and remember that my influence remains with you. I will return to you and I will continue with the assignment I selected for myself. I want to be your constant PROTECTOR and your invisible SERVANT. It is a pleasure to share your life with you and a privilege to be able to serve you.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1972)

An interview with the leader of the *Psychic Peace Circle, Berlin* Herbert Viktor Speer:

Question : I would like to know more about the way you work, because I think that it is important for the public to find out how such a circle must be organised.

Speer : *All human beings are basically in contact with the spiritual realm. They are telepathically connected. One can develop a medium, but this isn't without dangers, because one has to have some knowledge about the spiritual realm. Labile people are best suited for this, it is easier to guide them and they are able to shut down their will; this makes them expedient for the hereafter. Not to offer resistance is the basic condition, it matters not what type of psychic ability we're talking about. We do however warn against necromancy!*

Question : What do you refer to with necromancy?

Speer : I mean contact with a departed friend or relative. One then usually corresponds with a SPHERE one just might call a “slum”. This SPHERE is *overcrowded* and its habitants are not on our side; they sorely abuse our trust by pretending to be a “friend” or a “relative”. These connections can turn out very dangerous for us; we *can* also *not glean* the truth from them, because these lying spirits can easily adapt to our questions. They possess a lot of fantasy!

Question : With whom should one then talk to?

Speer : Once one has reached a point where communication is possible, one should completely avoid necromancy altogether. If one’s desire for guidance and indoctrination is *genuine*, more highly developed INTELLIGENCES will announce themselves.

Question : How great is the interest amongst the population in regards to *spiritualism*?

Speer : The main interest is naturally focused on necromancy, because people are *less* interested in indoctrination or guidance. This is the reason why people that prefer necromancy are not prepared to pay for instructions, *but are willing to pay for information from the realm of the dead, if they’re dealing with a relative.*

Question : Why don’t you do the same? You do require financial means for your research.

Speer : The readers of our brochures can hardly imagine that we require means. There are costs involved, for instance electrical and electronic instruments, taps, machines and repairs, rent, taxes, postage etc.

- *We could not guarantee the truth with necromancy. We would also lose our connection with our spirit TEACHERS, because they beseechingly warned us about such experiments.*

Question : Are older people more interested in *revelation-spiritualism* than younger people?

Speer : Older people represent the majority; but we also have younger people amongst us. The majority of our readers are women. Men are programmed in such a way that *they will not even attempt* to contemplate whether they will spiritually survive their physical demise. Most think that this is superstitious nonsense.

- *This makes one realise that the alleged enlightenment and intelligence is really based on ignorance and dullness.*

Questions and answers

January 1973

People have been sneering and deriding the service spiritual mediums provide for people for thousands of years and people still do when GOD’S name is mentioned. One should *not* be

amused by it, but rather *try to distinguish between genuine and false prophets*.

Question : Our mission is at times made more difficult through forgeries and defamations. Are these machinations to our detriment?

ARGUN : Those that give up after setbacks may not call themselves advocates of the truth. Those that deal with the truth are naturally severely scrutinised and this causes anguish of mind.

Question : The virtually catastrophic maldevelopment on this Earth is due to people's ignorance in regards to their SPIRITUAL EXISTENCE. If the things taught here were generally known, an escape from the dead end situation would surely be possible, maybe even a direct path to world peace. How do you see this?

ELIAS : The numerous different levels of development as well as the various religions and political opinions compound this assignment. The major publication media like the press, radio and television have not yet realised where the truth lies. They unfortunately still walk *negative* paths thereby *debauching* mankind's good-will in many respects.

- *People attend television events who have no idea whatsoever in regards to SPIRITUAL THINGS. It is very important to make a few changes here in order to achieve a revised spectator attendance.*

Question : The interest in our mission is unfortunately still very faint. How can we make our assignment more interesting?

ELIAS : *You have done everything possible.* But I may tell you that you have encouraged the public and also the sciences to think along revolutionary lines. The stone has already started to roll and it will drag an avalanche after it.

Question : We can unfortunately not overlook the overall success. Can you give us information about this?

ELIAS : Do not worry. Even the *revised Bible* has already become a matter of course for many. We will continue to work with you in order to give this mission on behalf of the truth more impetus. But we can naturally not provide you with the material means, this is something you have to deal with yourselves. A drop in "the ocean" is not enough. When it comes to spiritual values, we still have lots of things in store for you. The brochures "*Cosmic Giants*" is actually an attempt to make our messages more interesting and more readily available.

* * * * *

The exploration of the spiritual realm (By Herbert Viktor Speer, 1973)

An interview with the leader of the Psychic Peace Circle, Berlin.

Question : *Thousands* of spiritual séances take place all over the world. In spite of all of these numerous contacts one still holds with the point of view that *all of this is imagination*,

fraud or deception. What do you say to that?

Speer : Take into account that the *Psychic Peace Circle, Berlin* has carried out over 1,000 séances. This work extends over 20 years. If any doubt in regards to deception had been verified during all this time, the *Psychic Peace Circle, Berlin* would have *ceased* this work *long ago*, because it isn't easy and it demands financial sacrifices.

Question : According to your opinion, what is the reason for the snide assessment of our work?

Speer : There are a lot of circles that work *improperly*. Even scientists participate in such blasphemies. One endows the otherworldly with omniscience. The otherworldly are asked to give information they have no way of *providing*. The participants are lied to in such cases, because the otherworldly do not want to lose contact, but they also do not want to admit that they do *not* know anything. This eventually leads to a negative assessment of séances.

Question : What questions in particular are so sensitive?

Speer : It is usually about money to begin with. The otherworldly are supposed to give advice about *how one can make money*. The spirits are asked to give Lotto numbers that will produce a first price.

Question : Do the otherworldly actually give numbers?

Speer : A medium once approached me with a diary full of numbers. When I said that it was dealing with a hoax, the medium began to argue the point and became very agitated. One also demands from the otherworldly to solve capital crimes. When they refuse, one immediately states: "*The whole thing is a fraud!*"

Question : Do séances represent a danger to people? There is a danger that one could go mad.

Speer : Every contact with the hereafter is dangerous if it is handled *incorrectly*. We experienced that so-called "old hands" at occultism were incredibly ignorant. In their own way they asked for all kinds of things, but they did not have a desire for indoctrination.

When a spirit is really genuine it will criticise a participant every once in a while. But no scientist ever accepted criticism from the other side up to now. These gentlemen leave the circle when this happens and declare that everything is a fraud. Lawyers and detectives are no different. They do not shy away from deriding and affronting otherworldly beings.

Objection : I can't imagine why a scientist would not show an interest in contact with the hereafter.

Speer : Because of my experience, I hold a completely different opinion. *Professor H. Bender, Freiburg/Breisgau* is an expert in parapsychology. I drew his attention to our work years ago. He is aware that we have been working for years, but he *never ever* visited us, even though he promised to do so years ago.

* * * * *

Bits of information

February 1973

The medium does not use the séances to make a living, because the medium holds down a solid, high-ranking professional position. The psychic activity takes place out of pure brotherly love and this is the only way the objective truth can be guaranteed. Any craving for recognition is completely absent because the medium does not want to draw attention to himself, he would actually prefer to remain anonymous.

March 1973

No séance is mentally prepared for. Neither the medium nor the participants know the questions that will be asked.

- *The theme establishes itself during the séance and it is then dealt with.*

The exploration of the spiritual realm (By Herbert Viktor Speer, 1973)

Research into the hereafter enjoys a *more prominent* position in various other countries than is the case in Germany. Political influences might have something to do with this. Research into the hereafter in *England, Brazil, Japan, France* and the *USA* is seen in a *much more* positive light than for instance in communist countries.

A good contact with the hereafter is of eminent importance. This fact is verified through the contacts *Socrates, Buddha, Mohammed* and many other had in the past. Their doctrines are indeed paid attention to, but their origin completely concealed.

It must not always be Saints that are eligible for such communications. Let's take *Karl May's* biography as an example. He was also a hereafter-contactee, something he often admitted. It therefore comes as no surprise that he was able to narrate his American Indian stories *so lifelike*. *Karl May* was inspired via "clairaudience", that is to say he recorded otherworldly dictations.

The treatises contained in the *Menetekel* were inspired in the same way. The fact that automatic writing makes a quiz of questions and answers possible is an added bonus. Even CHRIST made use of this, something that can be read in the Bible. This verifies that JESUS CHRIST was a human medium that required EMINENT SPIRITS to gain information from. As telepathy is capable of bridging enormous distances, it offers the opportunity of simply leaping over numerous SPHERES.

The fact that the public *knows so little* about these things is very depressing to an experienced spiritualist. The world would be an unimaginably more developed place if the SPIRITUAL SECTOR had not been so neglected.

- *Rampant materialism makes people discontent and ill.*

There is telepathy between people and also between people and animals. But telepathy between people living on Earth and people in the hereafter is also possible. Besides, there is also telepathy

between people from other star systems and people on Earth.

- *Strange as it may seem, telepathy within native tribes functions a lot better than within more cultured nations. Technology managed to largely distance us from telepathy.*

As telepathy has been scientifically acknowledged and verified one tries to use it to explain things of a supernatural nature. Telepathy is naturally also possible during a séance, but an experienced circle cleverly excludes this possibility. This is why no séance is premeditated. Nothing is discussed beforehand. All questions are put *spontaneously*. And then there is the style of writing, it legitimises the otherworldly. Apart from this, the otherworldly have certain writing habits they utilise.

But the otherworldly also endeavour to eliminate telepathy from the proceedings. They do this by *intentionally* writing *illegibly* in order to ascertain whether the medium would still read something into it.

Our questions often lead in a completely different direction then the one the otherworldly strive for. Through years of routine, our circle has developed to a point where failure is well nigh impossible. Failures are immediately recognised and cut off.

We performed over 1,000 of these types of séances. This however is no record. There are mediums that carried out *several thousand* séances. This proves that séances *can certainly be repeated*. Medicine, respectively the sciences only want to acknowledge the things that *can be repeated*. Is this really true? No, because the sciences balk at a truth that, according to their opinion, should or may not exist.

Questions and answers

April 1973

The derision one shows spiritual phenomena *prevents* this world's progress and *promotes* a general dullness that through the application of force, can become a danger to everyone. The medium is virtually a "pencil" in the hands of otherworldly GUIDES. The extremely high quality of the messages provides no reasons for ridicule. Those that do so in spite of this only verify their own ignorance.

Question : Everything we do is publicly criticised. What according to your opinion is correct?

Answer : Always do the things your experience tells you is correct. Do not give a thought to what the world thinks of you. Never do the things that seem convenient or expedient to you, do what *your spirit demands of you*.

May 1973

The completely *trained* psychic ability of the writing medium shows itself in that the medium does not know what is being written during the automatic writing process. Only after the text has been finalised will the SPIRIT GUIDE draw a long line at the end of his message to indicate that the text can now be read out loud. The read out message is immediately recorded on tape and autographically processed later. It however happens at times that the text is so illegible that the medium cannot decipher it – the automatic writing will then be repeated.

Question : We would like to know what we can do to help you with your work.

Answer : Always give me your LOVE and trust in me. Send me the thoughts of your good will. *This* is the nourishment I require. Do not worry about my work; I will surely accomplish it. I do however believe that I have a more positive influence on those that are of a mature age.

I can unfortunately not tell you that life will always be full of sunshine. It will be cloudy lots of times and heavy downpours will eventuate. Difficulties will unfortunately not stay away. Obstacles will appear along the way and tests and temptations will await you. Life is not one long, monotonous affair. It is full of colours. When everything goes well, you will also enjoy happy moments. But you will also not be able to avoid hopeless hours. The diverseness of experiences life offers in amplitude must be character building.

- *If life was easy, without difficulties, without problems and travails, there would be no development.*

To participate in this race is worthwhile. The price on offer has its worth, because it had to be *earned*. Go and earn it! You do not have to worry about a possible defeat; you *will* be victorious, because you are *not ignorant*. There are therefore no difficulties that you cannot overcome. Nothing can hinder you and in spite of all of this, nothing is beyond your POWER to deal with this. Learn from every experience: *Nonetheless, do not shy away* if they seem to harsh, steel yourself against them and the result will pleasantly surprise you.

Always remember that *you* are also spirits that are manifested in a physical body and that *nothing* can damage or injure your ETERNAL SPIRIT. Always say to yourself: "I am a part of the GREAT PLANNER. A part of his DIVINITY resides in me and a part of his DIVINE POWER is at my disposal when I need it. Call out to this POWER in your hours of need and it will help you.

Whether you succeed in a *terrestrial* sense means nothing. The winning cups of physical successes easily lose their *shine*. But what is of importance is that you remain utterly *true* to your own nature; *never disown the things you regard absolutely true*, be true to yourself. Obey your conscience! Whatever the world might say then, - *you know* that you gave your very best.

When the time comes one day when you have to say goodbye to your world, you will do so with the certainty that you are *prepared* for the things that await you. – This is my advice!

June 1973

Only an *unselfish* medium can maintain a *good* connection with the WORLD of SPIRIT. LOVE for the truth and LOVE for mankind are two factors that are *absolutely* required.

July 1973

A good indicator that a contact with the hereafter is *genuine* is the way things are *written very*

rapidly. It is as if the writing isn't fast enough to keep up with the otherworldly thoughts.

Question : Contacts with extraterrestrials are naturally also of great importance within the framework of the work that we do. This connection could only be established with your help. We thank you for this! Can we expect further contacts with the SANTINER?

ELIAS : This is possible. You can however not imagine how difficult this direct contact is. When the SANTINER land and come in contact with things on Earth they all become ill one after another. But these patients have recuperated and are partially healthy again. We will maintain contact with the SANTINER and we will probably be able to keep you informed. The SANTINER are COSMIC SENTINELS. We maintain a friendship with one of them – you would say – a “communications officer” of the SANTINER.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1973)

An interview with the leader of the Psychic Peace Circle, Berlin.

Question : Can you tell our readers where you got the idea to establish a spiritualistic circle from?

Speer : I was interested in occult literature already at an early age. I was therefore aware that circles existed that corresponded with spirits from the hereafter. But I was not convinced that they were actually dealing with spirits. After the end of the Second World War, I began to conduct spiritistic experiments with the help of my son who was then 17 years old. But I could still not discern whether these phenomena stemmed from spirits or not.

Question : What kind of phenomena did you encounter?

Speer : We started with levitating tables under red light conditions in those days. We ascertained in the process that the phenomena turned out differently from what we expected. The table emanated rapping sounds and we heard the rhythm of a familiar tune. We then asked for a *specific* tune. But instead of that specific tune the table rapped *another* tune.

Question : Could the circle participants have produced these rapping sounds?

Speer : Indeed, we also had that suspicion. But we were then completely taken by surprise, because the raps came from *the floor boards* in a corner of the room. These raps were *intelligently controlled*, because they answered to our questions. This made our doubts gradually disappear. I thought it appropriate to continue to *very seriously* deal with this phenomenon in order to investigate it further. I wanted to solve this mystery.

Question : What really convinced you that there is actually a hereafter where people reside?

Speer : We attempted to establish *contact through writing*. This is when we also discovered *writing with a glass*. We spread an alphabet on the table and allowed a glass, we both touched it with one finger, to slide here and there. This is how our questions were answered.

Objection : But the answers could also have come from one's own subconscious.

Speer : We then received *instructions to desist* with writing with a glass and that we should rather use a pencil. An otherworldly explained this in writing: "We will practise with you until you will be able to correspond with us."

Question : What particularly caught your eye with this type of communication?

Speer : A member of our work circle, *Senior Medical Officer Dr. H. Gerbis*, carried out a test: He wrote a series of questions that dealt with difficult medical problems. These questions were presented at a *séance at a point in time Dr. Gerbis was unaware of*. He received the solution to these questions through *automatic writing* in spite of this. The answers could neither have come from the medium nor a participant at the meeting, because they presupposed specific medical knowledge. *Dr. Gerbis* also received instructions for a textbook he was working on. Whereupon *Dr. Gerbis* was so convinced about the whole thing, that he remained a member of our research group for over 10 years until his demise.

In closing : I know that Professor *Dr. Hans Bender*, from the *Institute of Parapsychology* in Freiburg/Breisgau, dealt with psycho-scientific questions for quite some time before he decided to continue his research in the field of parapsychology. – Mister Speer, I thank you for your time.

Bits of information

August 1973

Automatic writing also always shows the emotional outbursts of the otherworldly WRITERS: Some words are written impetuously or powerfully or underlined a number of times in order to emphasise their importance. The answer is sometimes given with a capital "YES". Summarising one can say that one can gather the individuality of the WRITER from their style of writing. One learns to accurately recognise the character and the temperament as well as the psychic ability of the WRITER.

September 1973

Automatic writing is recognised by *the speed* it is written. Besides, the hand of the medium can put the script on paper in every possible perspective; it can appear in *reflected face* as well as *upside down* and also *sideways*. A good medium can write just as well left-handed as right-handed or even *simultaneously* with both hands, whereby the writing styles and the contents are nevertheless *different*.

Question and answers

Question : What is your opinion in regards to *conscientious objectors*? – It is really necessary to have soldiers to defend one's homelands.

Answer : If people generally had the correct insights, one would only require a police force to keep law and order.

But there is a *far greater* WAR to fight for everyone. Large, powerful ARMIES will stand behind you when you take your place in order to participate in this great BATTLE that has been raging for centuries. The call is: “Serve!” – There are no medals or awards, no ranks and no promotions, but you can be assured that victory is certain when loyalty and unremitting devotion is exercised. Help us to drive out all the evils Earth is afflicted with. Offer us your own life so that we can use you as instruments in our hands.

- *Your life will not have been in vain if you managed to help just a few souls!*

Question : An *individual* human being is not capable of doing a lot on its own. A huge organization with all modern means is missing.

Answer : A human being, supported by the POWER of the SPIRIT, can achieve great things. I do not use boastful ways of expressing myself, because I am filled with humility and compassion. I was given a seemingly unsurmountable assignment: I had to find my way to you along unknown trails only equipped with a language and simple doctrines, to search for an instrument and to be victorious with the help of LOVE and common sense. Yes, only *one* being, but equipped with the *same* POWER of the SPIRIT that is available to *all* those willing to serve.

I found a suitable instrument in spite of all kinds of distress, difficulties and obstacles and I trained it for what I had in mind. With patience I managed to assemble all those around me that could help me. By me by I won their hearts, but only by stoking their enthusiasm *to serve* and not by promising them rewards. The truth, whose instruments we are, managed to embrace the whole world within a few years.

Question : What will happen when you are no longer with us and when we have to depend on ourselves?

Answer : Don't despair, *we will never leave you*. This is not a boast. The knowledge of spiritual LAWS, which are infinite, will help us exploit all sources of help. Whatever circumstances might hinder you, we will never cease to guide, to support and to sustain you. You will learn to deal with unpleasantnesses so that you can progress along the path that will lead you to where you can provide the greatest service you're capable of.

- *To serve is the only true religion!*
- *You, who call yourselves spiritualists, are the keepers of a great truth. You are also co-combatants with those that forge a new age.*

Think of yourselves as soldiers of the GREAT PLANNER who leads the mightiest of all great BATTLES. You help to conquer the POWERS that keep people veiled in darkness and ignorance, because they bringing misfortune, wars and chaos to your world. Through your help a new world is formed wherein all the GREAT PLANNER'S children can share his generosity and wealth, something he places magnanimously at the disposal of everybody.

- *The old world dies, because it was built on selfishness, avarice, cruelty and stinginess.*

October 1973

The guarantee for the truth is found in the assembly and organization of the PROTECTIVE FORCES. This PROTECTION takes many years to achieve *stability*. Even though we arranged over 1,000 séances, we still work with the *same* FORCES we had right from the beginning. This lengthy friendship offers the certitude that *unwanted* ENTITIES from the hereafter do not participate.

Question : Is your MISSION tied to certain directives or can you teach us according to your own discretion?

Answer : Yes, we are tied to certain truths that we may not deviate from. We naturally have our curriculum and therefore also certain directives.

I see a *duality* in my MISSION: One side is only *destructive*, but the other is *constructive*. To begin with I destroy the weeds that has ravaged the human soul for too long. I mean the weeds of untruths propagated by the Churches – ergo all absurd, twisted and even blasphemous doctrines being spread in the name of religion. All of this must be eradicated, because it hinders people from leading their life the way it should be lived. This is the *destructive* part of my assignment. – The *constructive* part consists in the *presentation of knowledge*. I will show you how rational, simple, glorious and true knowledge can be for those that are *prepared* to accept it.

The two parts of my assignment go hand in hand and I do not care for those that reject all criticism of traditional falsehoods. I observed too many results of these untruths in my world as well as yours.

November 1973

Question : Why are there circles whose SPIRIT TEACHERS do not mention the existence of UFOS or even disown them, even though there is sufficient evidence available all over the world that they exist?

AREDOS : When the medium or the circle leader do not believe in UFOS or are not convinced, the SPIRIT TEACHERS omit to give information about them, because they already know the reaction of their pupils. This however doesn't mean that they maintain that UFOS do not exist! – The same also applies to all other problems. If the SPIRIT GUIDE guiding the medium knows that he will encounter *obstinate doubts*, he prefers to avoid this disharmony and prefers to diplomatically withdraw from this situation. – You can see, *it is up to you* to ask for and to hear the truth.

December 1973

Journalists make fun of the name “ELIAS” by asserting that our work circle was in contact with the *prophet Elias*. The reality is that ELIAS, who is our spirit GUIDE, has nothing to do with the biblical prophet. The name “ELIAS” is merely an otherworldly ORDER NAME.

Question : Your punctuality at appearing at our séances always surprises us.

ELIAS : Well, we are *not* guided by the clock; we are guided *by your thoughts*.

Bits of information

January 1974

This issue is the 196th Menetekel. We also published 22 other brochures about the mission of the SANTINER. Many of those have been translated into other world languages. We staged over 2,300 séances and formulated around 6,000 printed pages. The thank-you letters are too numerous to count. *We throw the first stone, others draw the circles*. Our 20 years of spiritualism managed to be successful.

* * * * *

John: Chapter 8, Verse 6:

“They said this to trap Jesus, so that they could accuse him. But he bent over and wrote on the ground with his finger.”

Verse 7:

As they stood there asking him questions he straightened up and said to them: “Whichever one of you has committed no sin may throw the first stone at her.”

Verse 8:

Then he bent over again and wrote on the ground.

The fully-automatic writing medium sat at the table and with a pencil wrote on a large piece of paper: “GREETINGS IN THE NAME OF GOD and PEACE ACROSS ALL FRONTIERS!”

Questions and answers

Question : Journalists reporting about our activities cynically remark that our séances take place in a *rented apartment*. What do you have to say about this?

AREDOS: We naturally prefer a family circle, because it emanates warmth and domesticity. A family circle working without a craving for recognition and only concentrated on the indoctrination of mankind is respected and protected by us. Genuine friendship is the band that ties us together. Journalists that do not comprehend this can certainly not make sense of this, because they show no interest in the truth, *they prefer lies and derision* instead. These people arrest progress - and hardly anyone notices this.

Question : We, who have cooperated with you for decades and learned a lot, feel no longer understood. We can hardly comprehend the world we live in. How can we deal with this inner pressure?

Answer : I always warm my heart with the LOVE of those near to me. LOVE is an atmosphere I can inhale. LOVE is a great consolation for the joys that I miss. If you were able to see the beauty present in the supernatural SPHERES, you would no longer be able to live joyfully in your old, grey world, filled with rancour, hatred, bitterness and animosities.

- *But your world still has a lot of beauty on offer and knowing that you can help other people to some degree, must give you a sense of contentedness.*

Therefore do not hang your head in despair! Let us continue with this sacred issue. A lot of people need help in the form of advice. The objective truth cannot be compared with monetary values; it is actually *priceless*.

The assistance given by the WORLD of SPIRIT represents an enormous SOURCE of ENERGY. All the many thank-you notes you receive verify this. You help more than you imagine! Let us continue to work together so that a great breakthrough will eventuate. – It has to come!

January 1974

The exploration of the spiritual realm (By Herbert Viktor Speer, 1974)

The exploration of the spiritual realm unfortunately has its limits. It is for instance not possible to find out everything one would like to know and seriously interests us from the otherworldly. This gap in the research into the hereafter is one major reason why the sciences do not regard *spiritualism* conclusive enough.

We want to give you an answer based on our extensive experience: Contact with the hereafter is only possible when certain conditions are adhered to. The ignorant most of the time forget that the hereafter has *two* sides which have been biblically called “heaven” and “hell”. *Spiritualism* doesn’t just deal with these *concepts*; it actually *reveals* their full existence.

- *The moment questions deal with people’s character or religious improvement, the REGIONS of GOOD and EVIL are immediately brought into the picture.*

A clearly visible spiritual BATTLE takes place. Base spirits from the lower SPHERES try to *interfere* with the contact. This battle is already apparent with the simplest forms of *spiritism*. This is *one* reason why the Churches forbid communications with the dead. But the hereafter also has its EMINENT SIDE and this is why the Churches are *wrong*, because this interdiction is absolutely *one-sided*.

Spiritualism being the *higher* form of research into the hereafter offers the opportunity to surmount the lower spheres and to establish contact, well actually establish good and genuine friendships with HIGHER SPIRIT BEINGS. This connection establishes a communication channel that mainly deals with religious or moral *indoctrination*, in other words: A SUPER RELIGION.

These communications can for instance not be used to ask who the thief was. Base spirits will answer with lies and aerial fancies or they cause infamous mischief.

- *HIGHER SPIRIT BEINGS, those that serve the truth, refuse to answer such questions, because they do not want to be a catchpole or a judge. The positive spiritual realm does not denounce anyone. Similar questions, those that compromise or hurt a person, are not answered either. If this should be the case, hoaxing or lying spirits are at work.*

Journalists now say: “Aha! This is the best evidence that the medium has a “screw loose”, when “ghosts” do not answer or when they tell some hopeless nonsense. But the reality is serious enough! – One can also not ask questions in relation to politics unless the otherworldly tell us

something about it *of their own accord*. These questions basically bring evil spirits immediately into play, spirits known as demons. A good circle can immediately disband if its PROTECTION is breached through such questions. The otherworldly know the extent of their options if they happen to make statements about political events and will stop dealing with the theme immediately when dangers crop up. We often experienced that the spirit GUIDE asked us *to change* the theme, because unwanted POWERS might enter the picture.

Academics, who find all of this still rather strange, would like to experience *masterpieces*. The otherworldly are expected to dance to their tune. I remember what somebody said to me at a congress:

"Believe you me, if I was in your shoes I would squeeze every possible answer from the otherworldly."

These words exposed a theorist and *not* a pragmatist.

Bits of information

February 1974

The most difficult task of a writing medium consists in *completely excluding its own interests* in the questions and the answers. It often happens that the medium is unable to decipher what the otherworldly has written. The otherworldly is then asked to rewrite the answer as clearly as possible.

March 1974

Fully automatic psychic writing is the most reliable method for communicating with the hereafter. Through years of contacts we managed to develop a kind of stenography so that more extended transmissions were possible.

April 1974

The medium always feels hungry and thirsty immediately *after* a séance. A sign of LOSS of ENERGY! One can recognise by this that the contact with the hereafter was *genuine*. This would not be so obvious after normal writing.

We recently had a visitor from Brazil attend our circle. We believe that this visit had a MESSAGE for us, because we found out that the doctrines and messages received here *are disseminated and discussed all over Brazil*. Even though we gain no financial benefits from this, this favourable message is gratification for us that the work we do is not in vain.

Question : How do you assess this message from Brazil?

AREDOS : We naturally assess it as positive; because we welcome every potentiality to publicise, even if *you* do not get a mention. It is all about the MISSION! We are pleased to see your endeavours accepted as the truth. Hundred of thousands already think the way this Brazilian friend thinks.

May 1974

The otherworldly endeavoured many years ago to convince us of their existence through all kinds of *calligraphic tricks*. As doubts in their existence no longer exist, they now concentrate all their energy on *indoctrinating* us in every possible way.

June 1974

CHRIST'S disciples fell into a trance during Pentecost. They fluently talked *in other* languages and praised GOD and his justice. None of the disciples had command of the language they spoke. *These people were used by spirit beings*. Such miracles still take place these days. Automatic writing is part of it, because the medium can write in a language *it is unfamiliar with*. Telepathy often mentioned by sceptics does not play a part, because none of the participants at the meeting understand the foreign language. We experienced such phenomena and we were only able to decipher the script with the help of a dictionary. A very meaningful text was transmitted in *Latin* for instance. None of those present could translate this text.

Questions and answers

Question : Emancipated women demand their right of self-determination. Is this correct from your point of view?

AREDOS : Self-determination *without* GOD is not an option. If nobody governs them, they are lost. – May *I* ask a question? What do you believe must happen for the world to change?

Leader : According to our opinion: Only the dissemination of the unadulterated truth.

AREDOS : And how is this supposed to take place?

Leader : We know that we cannot accomplish this without your help.

AREDOS : This is correct. But we also need *your* help. Just how important this MISSION really is has unfortunately still not been properly recognised. CHRIST began it about 2,000 years ago -, *you are supposed to proceed with it*.

Leader : Our means are very limited. We are not an ecclesiastical organization supported through tax benefits.

AREDOS : Is *our mutual, sacred assignment* to open the mind of people. *How* this happens is of no importance, but the truth has to be presented to the human race in every possible form. The influence of the antagonist on people is *dangerously powerful*. Do not allow yourselves to be guided by any criticism, but remain steadfast at the helm. You know that the *Menetekel* has gained a reputation beyond the borders of your nation and this is of great importance. Do not lose the courage to continue.

July 1974

Certain *promoting* moments develop in private or domestic circles consisting of small associations of *family members* or *friends*; because the assembled people are *in sympathy* with one another and can therefore *easily* find harmony in regards to the aim of an evening's session.

Question : We dispatch a lot of *Menetekel* brochures in order to reach those ignorant of the facts. But we have unfortunately relatively few subscribers to this mission. Why is this so?

ELIAS : But success is your's *in spite of this*, also *internationally*, even if you do not hear a lot about it. The reason that this success is not overwhelming is found in the fact that we're dealing with a script that contains decisive truths.

- *The readers are spontaneously presented with a mirror wherein they see their soul. Most people cannot deal with this. People prefer to be lied to from all quarters.*
- *Mankind reacts best to base sensations.*
- *Many only want to read things that fit within their own concepts.*
- *There are however readers that have been reading these protocols for quite some time. The Menetekel represents great support for them not just in regards to this life on Earth but particularly for the next life, namely the LIFE in SPIRIT. Besides, we are these people's friends and we endeavour to support them.*

The behaviourism of these people will change over time.

Question : Can we do something towards this?

ELIAS : Yes, by drawing the readers' attention to the fact that parapsychology makes great strides in all the major nations on Earth. Some of the major nations already have a number of professorships that deal with the research into supernatural POWERS.

- *A lot will change if reliable results are achieved.*

Question : Where do you see the greatest resistance in regards to our work of elucidation?

AREDOS : This question is easy to answer. This mission *has to rely in itself*, because it does not attract government support. It is therefore mainly a case of finances.

- *It has always been the same, namely that the objective truth has to beg for support.*

But institutions that are being financed usually have no idea about *spiritualism* and virtually search for GOD and his REALM in the rubbish bin.

August 1974

When an "intuitive" medium only has an *average* sensitivity, everything it writes seems to be in a uniform style. But if it is *very* sensitive, it will be able to express the personality and the spirit of the one whose thoughts he transmits.

Question : Can we address even more people with our work of elucidation?

ELIAS : The circle of interested parties is unfortunately very limited. The study of this work requires a good general education, one that enables one to contemplate things. But you can however not expect that all readers have such a general education. But they

certainly have *more prejudices* they are ready to introduce at a moment's notice.

- *Seasoned readers have the advantage of having acquired a good general education through reading the "Menetekel" brochures.*

Bits of information

September 1974

A medium may *not* engage in magic in order to *heighten* its POWERS! Certain occult POWERS, not being part of the terrestrial region, have a *terrible effect* on those that are silly enough to awaken them or use their services.

October 1974

Every message must be assessed by its *content* and *not* by the name written underneath. A MESSAGE consisting of *platitudes*, with the signature of an eminent name underneath, brings spiritualism more discredit than an authentic message of high value advances it.

Questions and answers

Question : We are in possession of the ORIGINAL COMMANDMENTS given to Moses on *Mount Sinai* be extraterrestrials. Is there a possibility that these valuable COMMANDMENTS we call "*divine legislation*" or "*heavenly laws*", will find enough dispersal and recognition here on our Earth?

ELIAS : This must naturally happen *from within*. Let's take fruit as an example: It ripens, but it takes time to ripen. The development of terrestrial mankind is however continuously *hindered* from ripening by the Churches and the sciences. We are dealing with dogmas they do not want to discard. This is why the ripening of "fruit", respectively the development, cannot eventuate.

- *If the SANTINER would intervene, the world would be a better place, that's true, but the required maturity would therewith not have been achieved, unless it had naturally eventuated from within.*

A new regulation, even if it's a good one, will always be regarded an *annoying coercion*. People have an aversion to any coercion, even if it happens to be the truth. The moment an interplanetary protectorate falls by the way side, an around-face would immediately take place.

Objection : A lot of those interested in our scripts are however of the opinion that the SANTINER must undertake something that will *force* the people on Earth to adopt a more *positive* behaviourism.

ELIAS : The SANTINER have a different attitude when it comes to achieving a change. They want to *wait for the human development to progress* so that they can achieve their goal as much as possible without arbitrary measures. People ought to realise what's right *by themselves*.

Question : We know that we often make mistakes. Would it be possible to warn us *a priori* when we are inclined to make a mistake?

AREDOS: *We may not do this*, because it would constitute a *restriction* of your individual freedom. A person's freedom may not be limited or interfered with. Spirit telepathy represents a different situation: There is certainly a possibility that when people are *inspired* from the hereafter their personal freedom might be interfered with, it is however dangerous, because *this* inspiration comes from *base* spirits.

November 1974

A *good* medium *likes* to hear others *criticise* the messages it receives or the manifestations it achieves. – Those that are affronted by criticism and refuse to subject themselves to strict controls have either evil intentions or are suspected of being affected by unhealthy spiritual influences.

Question : We still feel that there are people that regard our publications as fantasy, because we do *not* allow our Menetekel messages to be printed in the usual manner. What do you say to this?

ELIAS : A generous publication could certainly promote the dissemination of the truth. But this would require a large publishing company that would also deal with the marketing and distribution. You could not accomplish this, because you are already overburdened with formulating the truth. The truth is after all *far more* important than the print. In any case, there are already a number of places where your work is translated and disseminated in print. The way you publish this credibly differs from all that gobbledygook that is printed in order to make money, without consideration given to whether people are duped in the process. Leave everything the way it is. It finds its way.

Bits of information

December 1974

The best way for an ideal writing-contact between the hereafter and the here and now to take place is when the SPIRIT GUIDE and the medium have known one another very well for many years.

January 1975

When the predominant thoughts of people participating at a meeting are *healthy, pure* and *free from egotism*, they are then *harmonious* and effect excellent conditions for psychic experiments. The conditions are disturbed and made insecure when there is an interfering element within the group.

February 1975

MESSENGERS of LIGHT bring us spiritual doctrines:

“When the time has come where the medium is surrounded by all required caveats, you will be able to open wide all DOORS that have remained closed to you up to now, in order to establish a connection between your world and our WORLD. When you have groups of serious experimenters who carefully deal with mediums and above all,

try to fathom the LAWS of an otherworldly EXISTENCE, you will remain free from ridiculous parodies that bring discredit to your doctrine and your faith."

March 1975

Many excellent mediums, like for instance *Swedenborg*, only developed their abilities at the threshold of mature age. Many temperaments *never* turn into mediums, whilst other *receive* or *lose* their ability according to the physical or psychic changes they endure over time.

April 1975

A medium under *positive* INFLUENCES is *never jealous* of other mediums or bent on proving that its POWERS are *superior*. On the contrary, it will endeavour to establish its own level of development through the exchange and comparison of its own experiences with those of other mediums.

- *Jealousy is always a sign that evil INFLUENCES are at work.*

Things concerning us

Our spiritual research community suffered a great loss: Our seasoned, best co-worker

Senior industrial teacher

Paul Ferdinand Hagemeister

has left us aged 82 in order to continue his work in the GREAT HOME on the other side. Mister *Hagemeister* searched and quested all his life. He found the truth and he fought and worked on its behalf with all available means and by making sacrifices.

Our dear friend and co-worker was the one to ask the questions most of the time and he also helped us financially to distribute the *Menetekel*. He passed away on the 6th of March 1975 fully conscious and equipped with the wonderful knowledge of life after death, looking forward to unite with our spirit FRIENDS. His wish was to be cremated and he was anonymously entombed without cult or ceremony.

The passing of our co-worker unfortunately forces us to stop our precious work as from January 1976.

We will however continue with processing the tape-recordings that have not yet been published. This is why we ask our readers and those interested to not make any subscriber payments for 1976, because we will cease the production of the *Menetekel* during 1976.

Over the last 22 years we formulated and published over 8,000 printed pages. We exerted an international influence on the culture of many and placed ourselves at the disposal of television corporations. All of this is *evidence* for the incredible co-operation of the WORLD of SPIRIT that shows an interest in all our problems and constantly worked with us human beings in a kind of co-production capacity.

The circle's leader

* * * * *

May 1975

When the participants have some experience in spiritualistic matters and when the medium is also experienced, the prerequisites are good and there is hardly anything to fear. Most common house experiments are unfortunately *not strictly* controlled or they are carried by people with only a vague idea about the whole thing.

These people believe that experience *is superfluous* and that reading a few books on spiritualism suffices to enable them to hold such meetings. It is as if one wants to undertake chemical experiments after having read a small handbook and without ever having worked in a laboratory.

Questions and answers

Question : Are we doing the right thing by also directing our spiritual work at mankind's leaders, even though they are *even more difficult* to approach than your average citizen?

AREDOS : The truth is *not just* the prerogative of your average citizen. It is there for *every* human being. It is therefore up to you to disseminate the truth in the best way possible.

- *Even if you're unable to see the result, something of it will always be detained by others.*

A lot of people try hard to spread this truth and they get annoyed when they meet with refusals. But they can basically not ascertain whether a refusal is *genuine* or only *feigned*.

- *These instructions sometimes take years or some major calamity to resurface.*

Therefore do not allow yourselves to be duped. But you also should not make the mistake of *fanatically force* this important truth on people. You can *only sow* this truth; you should not concern yourselves with whether the seed will germinate.

* * * * *

May 1975

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

We dealt with the exploration of the spiritual realm for 22 years. These studies and experiments demanded all of our attention. Over 8,000 pages of our psychic produced results were published. This in itself is a great mission.

Numerous reporters interviewed us and also three television corporations.

The success abroad was *greater*.

The dissemination of the truth was expensive but purposeful. Thousands of copies of our protocols were sent to *chief editors, institutes and Church representatives*, well even to *politicians*. When

we expressed our intention to cease the dissemination of our protocols at the end of 1975, our readers expressed their regrets. The following should be mentioned:

The circle's leader and publisher is 73 years old and seriously disabled. The medium used so far bears a great responsibility as managing director of a factory and is exposed to stress on a daily basis. It is quite unreasonable to continue to impose such a difficult assignment on him. A lot of our readers imagine that this assignment is simpler than it really is. This service for human beings happened *voluntarily* and *without* the intention of making money from it.

Hereto an otherworldly explanation from England:

"One can find a physical weakness in mediums that interferes with their battle to exist, even in cases where the mediums have a strong character. The medium is subject to a process that is akin to BLEEDING TO DEATH and this demands a certain part of his LIFE FORCE that cannot be *completely replenished* at the end of the session. When the medium does not get enough sleep after and when he has to resume his regular work next day, he can not replenish its ENERGIES rapidly and often loses even more of his LIFE FORCE.

Only few concern themselves with what happens to the medium after the meeting has come to an end. The medium often doesn't pay any attention to his condition either. He tries not to miss the next meeting, even though he feels physically ill, either because he does not want to miss out on earning a living at work or because he does not want to disappoint his friends, when he provides his services without remuneration."

We can only concur with this statement from England. Amongst the large number of interested parties that joined our circle there was hardly anyone who gave this a thought. On the contrary – all they said was: "This is a divine gift and this is a task nobody should ask money for." – But particularly these participants were always interested in having lots of their own *personal* questions answered. It was therefore extremely difficult to make a selection so that serving the truth remain a priority.

We therefore ask for your understanding in regards to our decision to cease our work as from January 1976.

We will in the mean time try to continue to do our very best.

We are very pleased that most of our readers have been our subscribers for decades. We received a lot of thank-you notes and greetings – and we are happy that this specific recognition of such a difficult mission gave us constant impetus to carry out this work with all our effort and our LOVE for our fellow human beings. We are pleased to hear that our readers were able to free themselves from dogmas and aberrations and are now able to evaluate the TRUTH by themselves.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

Our mission, which *is not just* engaged in research, but also in the purposeful dissemination of the achieved results, triggered a worldwide correspondence that demanded an enormous effort on our part, specifically because this correspondence was in many foreign languages. We disclose a few figures here. It deals with the dispatch of our scripts like the *Menetekel* and the *ASHTAR SHERAN* brochures we sent *free of charge*, that is to say, *we* covered the cost, in order to make the ice of dogmatic resistance melt.

People	Menetekel	A. S. - Brochures
Church dignitaries, Priests, Vicars, Catechists.	582	233
Teachers of all schools.	1130	320
Scientists (Professors)	238	150
Engineers in all fields.	446	240
Doctors, Specialists, Psychologists, Psychiatrists, Dentist etc..	566	268
Naturopaths	147	40
Artists in all fields	119	45
Chemists	181	27
Librarians, Booksellers, Bookshops.	422	38
Private people	2741	
Hospital personnel	207	
UFO-Study groups	23	23
Airline pilots	2	2
Total	6804	1386

This calculation does *not* contain the number of brochures sent on by our readers. We cannot ascertain the international figures.

We carried out around 1,200 séances. One meeting lasted for around *two hours* and they always took place on a *Saturday* between *19.30 and 21.30*. Every sheet of paper, *DIN A 2*, psychically written on, was immediately read out loud by the medium and recorded on tape. Apart from this, well over 200 *psychic drawing* were also produced and most of them depict *GUARDIAN ANGELS* in profile. Each of these drawing took about 10 minutes to draw.

If there are still some that doubt the otherworldly *EXISTENCE*, they should ask themselves why somebody would take on such an enormous task, if there was no guarantee that it was genuine. The actual work performed is beyond calculation, it happened on a *voluntary basis*.

Bits of information

June 1975

When a medium is *not even-tempered* it can happen that it *avoids* its fellow human beings, because it under the impression that it has been *chosen* for something great, that it is one of the *chosen* ones. This is a form of possession and if not treated, can lead to insanity.

July 1975

Innumerable things can be told about the spirit and also about the varied conditions of the human consciousness. People know almost nothing about the powerful LAWS that govern their life and all, apart from a small number of “dead” people, are just as ignorant as the people on Earth. This is the reason why so many meetings must remain unsuccessful and why so many begotten phenomena seem so useless.

August 1975

Analogy: The same warning signs as the ones generally used for high voltage installations could be affixed over the door to a meeting room. Electricity can provide good services for us, but we have to be *accurately aware* of how to deal with it. The same applies to psychic POWERS.

September 1975

If its psychic abilities are developed, a medium should *strictly test* all the connections it manages to establish. It must not allow itself to be hypnotised by eminent names.

- *In 99 out of 100 cases, imposing signatures are false!*

They are, one might say, *false* calling cards, utilised by unknown spirits in order to gain access to a circle. The medium must be on guard so that it does not allow itself to be influenced by *flatteries*.

There is always one TEMPTER amongst them prepared to whisper to a medium that the world has been waiting to be *saved only by it*.

A good GUARDIAN ANGEL will – if he will actually mention it – talk about the medium’s mission in modest terms, because there are *many* mediums and each of them can only work on one furrow in an enormously large field.

Questions and answers

Question : We heard of late that the universal teacher ASHTAR SHERAN also makes an appearance in other circles in order to proclaim sensational messages. Are these contacts genuine?

AREDOS : As far as I know, such messages come about *all over the world*. But you shouldn’t forget that hoaxing and lying spirits are at work everywhere. These spirit beings fill their boredom by taking their listeners for a ride. They certainly do not lack imagination! They are pleased when one believes their nonsense. This is naturally carried out *systematically*.

- *I am unable to control all messages, but those that are familiar with ASHTAR SHERAN’S style, will immediately find out whether a message could be genuine. It is difficult to consort in the correct way with the hereafter.*

Question : A reader writes that a young medium works in Wiesbaden that has been severely

overtaxed. It is quite apparent that this medium gives one the impression that it is ill. Should one engage this medium for psychic work?

AREDOS : When a medium ails – even a very good one – one should show consideration and *not* lay claim to it. This would otherwise be a trespass against the health of another human being. One should also not allow one's curiosity get the better of one.

Question : We received the LAW of HEAVEN from ASHTAR SHERAN some time ago. It consists of SEVEN COMMANDMENTS and SEVEN DEMANDS and they were handed to *Moses* on Mount Sinai. This LAW of HEAVEN was however falsified at that time and rendered ineffective in the process. We published this LAW of HEAVEN that was re-issued by ASHTAR SHERAN. What can we do to help it gain *worldwide* dissemination?

ELIAS : This LAW of HEAVEN you now released in a better form under the title "*What is truth?*" will become absolutely effective even if it presently doesn't seem that way. But these words will be followed by action. Mankind is *very impatient* and also the *most disobedient* under the sun. Time however can produce miracles. Now listen carefully: There used to be people that thought exactly the way you do. These people wanted to interfere with the wheel of development, but this only made the wheel to come *to a standstill*. Impatience is one very great human evil.

Question : We can unfortunately not gain an overview of the situation. We do not know *what kind of success* our mission really has. But we did do research over 23 years and we did published our results. How do you assess the situation?

ELIAS : It is correct, but not decisive at all for you. Your publications induce many *writers, intellectuals, theologians* and *sociologists* etc to contemplate things *more deeply*, that is to say, they are heavily influenced and make better use of their logic. What these people now do is certainly more positive than before. But it naturally takes time for the avalanche to start rolling.

August 1975

Question : A number of brochures circulated in recent time that contain strange predictions. What do you make of them?

AREDOS : It is not our task to control everything to see whether it is correct. Even if lots of fantasies and falsifications do the rounds, one should simply ignore them. A rectification will only make matters worse.

Objection : But they also contain a message from ASHTAR SHERAN. It is of particular importance. What can one say about it?

AREDOS : We are not dealing with a genuine message. There are at least one hundred ASHTAR SHERAN messages all over the world that are *not genuine*. One more or less therefore makes no difference.

Question : What are the characteristics of a *genuine* ASHTAR SHERAN message?

AREDOS: Those that have read ASHTAR SHERAN messages on a continuous basis will *recognise their style*. Most ASHTAR SHERAN messages are *transmitted* via otherworldly spirit beings. – But there are a lot of unreliable mediums and circles. Hoaxing and lying spirits love to manipulate such messages, because they know that one listens more attentively when a spirit announces its presence under the name of ASHTAR SHERAN. This abuse of trust is unfortunately impossible to prohibit!

- *Only a very positive and experienced circle with impeccable members can be protected from this.*

There are a lot of trifles one has to look out for. Such a message, one *without* a signature, is potentially harmful. ASHTAR SHERAN does not say goodbye with “GREETINGS IN THE NAME OF GOD!” but with: “PEACE ACROSS ALL FRONTIERS!” But when ASHTAR SHERAN does transmit a message personally, something of a rarity, he deploys this salutation in his own language. There is a lot of gobbledygook pretending to be a UFO message.

- *Genuine ASHTAR SHERAN messages not only criticise your deplorable conditions, they also contain positive doctrines and examples of how one could improve your world’s situation.*

You must always remember that ASHTAR SHERAN is a *universal teacher* with something to say to you, he doesn’t just waffle on. Have a good look at these messages and you will find out soon enough what’s from ASHTAR SHERAN and what may be from the medium or from a hoaxing spirit.

Question : A reader of the Menetekel would like to know who the esoteric *Abd-Ru-Shin* was.

Answer : This name is a *pseudonym*. His real name is *Oskar Ernst Bernhardt*. He was born on the 18th of April 1875 in Bischofswerda. *Bernhardt* went to a common school and then to a commerce and trade school, he was then working in a commercial capacity for a major concern. He occupied his time with writing and travelled through the orient at the beginning of the century. He then published travel books and also plays. He also travelled a number of times to the USA. He then went to England and lived in London for a time. He was interned on the *Island of Man* in 1915. He went to Dresden in 1919. In 1924 he went to live in Bavaria and wrote his “*In the Light of the Truth: Grail Message*” under the name of *Abd-Ru-Shin*. He later lived in Silesia and then in the Erzgebirge where he died.

AREDOS: *Bernhardt* was psychic and, after many experiments, became clairaudient. He gained contact to HIGHER SOURCES and this is how he acquired HIGHER KNOWLEDGE. – Even though he spread a lot of truth, he was still hindered by his belief in Church dogma. A lot of things are therefore not as he imagined them. His views, even if some of them are his own, are at least – *positive*.

- *As all of these endeavours, those that emerge from the co-production with the spiritual realm, are severely attacked, the work “In the Light of the Truth” was also discriminated against by negative forces.*

September 1975

Question : You once said that we could do nothing in regards to giving additional information. Isn't our *Menetekel* also read by scientists and doctors who can contemplate it?

AREDOS : Yes, this is correct. I know this, but I also said that they are *not willing to be instructed* by spiritualists, that is to say, not willing to accept doctrines that do not stem from universities – *particularly not* if these doctrines stem from the spiritual realm.

Bits of information in regards to us:

We will continue to fulfil our assignment even though we have to cease our practical psychic work at the end of this year. We are unfortunately not in a position to continue with the dissemination. We will be forced to look for a publisher willing to print our results. – A prophet has no honour in his own country. Our successes abroad are *considerably greater*. We published a series of messages in book form. A new book was only recently published in Brazil.

October 1975

Psychic abilities should only be developed by people with a *healthy* spirit and a *strong* character so that they can withstand evil suggestions and prevent alien BEINGS from taking possession of them.

- *The development of psychic abilities in people with a weak will or unstable morals opens dangerous doors to evil influences that could easily turn them into their playthings.*

November 1975

There are also other INHABITANTS in the world of spirit besides the spirits of departed human beings from Earth: ELEMENTAL SPIRITS (nature spirits) and FORMED THOUGHTS (phantoms) belong to this category. Many of those that have taken leave of this Earth *deny* the existence of these ENTITIES, because they have *never come across* them. The fact that they never saw these spirits can be explained, because ELEMENTAL SPIRITS rarely manifest themselves to people during their life on Earth or after.

December 1975

When a circle wants to solve a specific problem, like for instance the problem of the various LEVELS the spirit is freed from after its disembodiment from its terrestrial body as well as all general terrestrial conditions, one can suggest the following path: The writing medium can try to receive a series of messages that describe the various LEVELS. One can gain many interesting conclusions that show how the separation is effected, for instance in the case of a human being that is suddenly killed, with an old person or with someone that succumbed to an illness. There are differences in all of these cases of crossing over.

- *Banal* questions lead to the *destruction* of a circle.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

As religion and the sciences have not been able to correctly elucidate mankind in regards to “death”, one is completely ignorant when it comes to dealing with the inexorable fact of dying. Contacts with spirit beings from the hereafter take place all over the world. Seriously experimenting people are absolutely convinced of the existence of the spiritual realm. But most of those *lacking* personal experience cannot imagine the survival of human beings because they are encumbered by dogmas and aberrations. We give you the last contact of our tried and trusted co-worker *P. F. Hagemeister* as an example. This was the last séance the then seriously ill *Hagemeister* participated in:

AREDOS: Dear friend, you are seriously ill, but you will not yet die. But your life’s clock has certainly already run out of time.

Hagemeister: I know. – When will I come to join you?

AREDOS: We cannot give you an exact time. It might take a few days, but maybe also a few more weeks. In any case, we will come and fetch you when it happens. But don’t get involved with BEGUILERS, even if they appear in full regalia and disguised as religious dignitaries. Do not believe them, because they will try to kidnap you.

Hagemeister: How will I recognise you?

AREDOS: Positive spirit beings emanate a certain AURA. *You can recognise us by our LIGHT*, it does *not* come from the outside, but from *within*. Apart from this, we also bear an emblem on our chests. We will be there on time. Besides, you already have a GUARDIAN at your side.

Hagemeister: I thank you with all my heart. What should I do?

AREDOS: When you are no longer able to walk, you will have to go to a hospital, because you live by yourself and you will no longer be able to look after yourself.

(Comment: We took P. F. Hagemeister to the “A. V. Hospital, Berlin”. After eight days in hospital he was asked: “*Why are you here? – You should be in a nursing home.*” – After a fortnight one found out that he had two tumours and also water on his lungs. His lungs were drained on a daily basis. This was a senseless experiment that only delayed his final hour.)

We talked to the doctor and pointed out that our friend *P. F. Hagemeister* was not afraid to die, that he was *ready to die*. She uncomprehendingly shook her head and asked: “*Why? – Does he believe in reincarnation?*”

Hagemeister: (Turning to a doctor.) *Can you help me by alleviating my pain? What’s the use of this drain, this is nonsense!*”

Doctor : “*You talk to me like one would talk to a terrorist.*”

Hagemeister: “*Of what use is this nonsense?*”

AREDOS: Tell him to insist to be made free of pain, we will collect him the moment this

happens.
And so it came to pass.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

One can naturally call our scientific research, research into the hereafter. The most difficult part of our séances consisted in eliminating all interferences by so-called hoaxing and lying spirits. The result of our endeavours is very satisfying. After all, we managed to publish around 8,000 A4 pages.

Question : Such comprehensive work *must* surely have brought its financial benefits or not?

Speer : On the contrary – we were always in *financial strife*. Most people do not give this a thought. We received eminent information and we also need many tape recorder tapes, electronic devices, duplication and printing machines. And then there are repairs and other expenses. Our international correspondence alone costs an enormous amount of postage. If we did not have a few readers showing on interest in what we did, it would have been impossible to continue this important mission for such a long time. What stands out is that only “poor” people supported us. More *affluent* circles did indeed praise us, but *never* entertained the thought of supporting our mission. (JESUS CHRIST also commented on this at that time.)

Question : The brochures of the *Psychic Peace Circle* have been translated into a number of foreign languages and published by the book trade. Are you not involved in these publications?

Speer : We know that the messages we received are sold in *Brazil, Italy* and also *France*. Apart from non-adhered to promises, we gained no benefit from it at all. In most cases we are not even asked for permission, but find out about what’s in circulation much later.

Question : Has the reason why you now stop this mission something to do with finances?

Speer : Not entirely, but it certainly plays a major role. We will however continue with our UFO research.

Question : Are your publication protected by *copy rights*?

Speer : Nobody asks whether something is protected or not in regards to spiritual things. One maintains that the things that come from GOD are there for *everybody* – *and it shouldn’t cost anything either*. We virtually worked hard seven days a week, but we also *felt* our spiritual support.

People in *Brazil* ask us for more materials and also psychic drawings for further publications. No offers of payments! – We are however greatly pacified by the fact that we received at least 1,000 thank-you notes and we want to cordially thank everybody.

(Comment: Our cache of brochures has around 100 examples of “*What is truth?*” on offer. This extraordinarily important and unusually excellent brochure makes for a very good present. One can do something really worthwhile with it. We ask our readers to disseminate this brochure whenever they can, because it represents an effort to achieve

peace and they would do the SANTINER WITH a great service. *Only the truth will set us free!*)

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

Even though *evidence* for the existence of the human soul appears on a *daily* basis all over the world, one is always ready with a preconceived answer. One is always dealing with the rejection expressed by certain scientists that actually do not deal with this whatsoever. Real evidence for life after death is *not bound to a location*, but appears in many guises everywhere. When individual evidence is compared to other evidence, it fits together like a mosaic to create a concordant picture that leaves no doubts about its correctness. Various phenomena are found everywhere, but they are always the same in spite of this, they have the same aim and means.

Our scientific research mainly dealt with *automatic psychic writing*. We had good writing mediums at our disposal and they were trained and perfected by the hereafter over many years. These mediums were also able to produce physical phenomena. But we decided to forgo such experiments in spite of this. Here is one example of such accomplishments which happened completely *unintentionally*:

The medium Uwe sat at the table and drew a psychic portrait. The tempo rapidly increased. The medium suddenly flew across the room, chair and all, and landed completely perplexed about 3 meters away in the corner of the room.

A very powerful ENERGY must have been at work to produce this thrust. The chair was on a carpet and the chair was not equipped with gliders. It is quite impossible to achieve this relocation *sitting down* and at such a speed under one's own steam.

But as we had writing contact with otherworldly we were given the corresponding explanation: The medium emanated an ASTRAL COMPOUND during the meeting. This PLASMA is mixed with the emanations of the otherworldly, rather like mixing petrol with oxygen in a car engine. This produces a FORCE FIELD that the otherworldly are able to manipulate. This applies to all spiritual forms of *telekineses*.

The circle leader and the medium Uwe used a heavy desk on another occasion. The top of the desk was empty, but the drawers of the desk were filled with lots of manuscripts, it was very heavy.

"On a Sunday and in broad daylight, we both placed our hands on the table. We sat opposite one another. After about two minutes the inside of the desk began to make noises and rustling sounds. One side of the piece of furniture suddenly lifted to an acute angle and swayed to and fro. Two legs of the desk remained firmly on the floor. We were dealing with a feat that one could not accomplish with one's arms only; besides, our hands were still loosely placed on top of the desk. We were able to observe the magic POWER that can be mentally triggered."

These phenomena can teach us a lot, because they make you contemplate things. These types of phenomena reveal to us an enormous POWER at work.

The exploration of the spiritual realm (By Herbert Viktor Speer, 1975)

Most people erroneously do not believe in their conscious survival after their demise. Even though there are an enormous number of research reports available, these are generally unknown. You

also find that *hardly anyone* amongst academic scientists and intellectuals know anything about it and therefore base their judgment on what they *heard* from the general public. This is incredibly incomprehensible, because we are dealing with a subject no human being can avoid and one that has the greatest meaning within our own existence.

This is naturally also due to human mediums, because in spite of being mostly unusable - they still profess to be important. There are however some mediums amongst them that are so outstanding that one has to ask oneself why they were not able to convince mankind to such a degree that the psycho-scientific doctrine of life after death has not become known worldwide.

Making an all out physical and mental effort for over 23 years, we endeavoured to break through the *barrier of prejudices and rejections*. Next to the written messages, which are of awesome quality, we also received a lot of psychically drawn sketches that make a very convincing statement. All of the pictures were drawn at a very fast pace and most of them show something symbolic pertaining to the spiritual realm that waits for every human being.

The body of evidence is however so large that it is not possible to give account of it *without* the generous support of the state or major industries, because too many drawings and explanations would be required. No private group can afford to do this.

The *medium Mirabelli* play a very special role amongst the more sensational mediums. But we shouldn't forget that JESUS CHRIST was also an *excellent medium*. This fact is completely irreproachably recorded in the Bible. What the Churches did with the medium JESUS only produced *misinformation* for mankind, that in no way led it to the truth. The influence of the Churches and sects is so great that most people erected an inner barrier that is so solid that they *absolutely* refuse to acknowledge scientific experiences.

The *medium Mirabelli* was tested by scientists in Brazil. The results of these tests were signed by more than 60 reputable people. They all *verify the genuineness of the phenomena* that verify life after death. It is absolutely incomprehensible that the sciences turn a cold shoulder to these results, even though a number of these phenomena are repeated all over the world on a daily basis.

As our psychically more powerful medium *Uwe* was also suitable for physical tests, we undertook a number of *spiritistic* séances. This produced a very strong knocking *inside* the wood of the table. One guest doubted the knocking was genuine, believing that the medium produced it, but the moment this opinion was expressed, the knocking stopped. The same knocking sounds suddenly no longer came from the table, but *3 meters away from the room's floor boards*.

The world of spirit always endeavoured to demonstrate something to us that we didn't really want, but that was designed to totally convince us that the "dead" are still alive.

Psycho-sciences is no humbug,

but a pre-eminent science!
