Protocol extracts from the *Menetekel* brochures of 1956 - 1975

Theme : **GOD and HIS antagonist**

Questioners : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)
 Mediums : Uwe Speer (17) and Monika-Manuela Speer (15)
 MESSENGERS of LIGHT : AREDOS, ARGUN, ELIAS

The Medialer Friedenskreis Berlin, a Christian/Spiritual community, psychically received the texts to this theme between the years of 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

GOD and his antagonist, this interplay of forces all human beings either consciously or subconsciously participate in during their life here on Earth. This duality expresses parity and explains the reality in as much as there must be two characteristically dissimilar principles present. Religions are also based on the irreconcilable contrast between LIGHT and darkness, GOOD and evil. Every human being will *consciously* find itself in either one of these realms of the spirit after their physical death. We are actually already in the midst of all of this and we are already determining the future level or sphere of life after our demise through our thoughts and actions. It is important to realise that our damaged environment is an expression of our thought processes. We can unfortunately only envisage a world *imagined* by people and in spite of all explanations do not feel comfortable in it!

During his physical life, individual man is asked to gain the required clarity to be able to decide to *which* side he wants to belong to. It is necessary that one knows *both* sides; LIGHT and darkness, to do so. Many speakers at esoteric seminars or dubious gurus unfortunately play down the dangerous powers of darkness in a most irresponsible way. Their interpretations and explanations culminate in the statement that GOD and HIS antagonist is one and the same "person". – One should not allow oneself to be duped! The power of darkness is negative, highly intellectual, sly

and perfidious. If man creates the required prerequisites, it will pounce on him without warning. This is how accidents come about in this world. Crucial indicators in regards to this duality can be gleaned from *reliable* psycho-scientific literature. In order to make the selection easier, I have arranged a literary composition under the heading “Death – an aberration with fatal consequences”. Another option is that one looks for a *proven* medium in order to convince oneself. These opportunities do exist, especially in England.

However the detractors do not look in the indicated places so that they can continue to insist that there is nothing there to be seen; they tightly close their eyes and deny the sun’s existence. The dialogue between theology, the sciences and the broader community is nowadays as useless as an attempt to have a conversation with an automatic speaking clock.

Bad Salzuffen, August 1993

1. Introduction (By Herbert Viktor Speer, leader of the Medialen Friedenskreis Berlin MFK)

- GOD alone is the objective TRUTH, it therefore has its origin in HIM and it absolutely springs from HIM.
- The CREATOR is *not some old man with a bushy beard* and with a physical body, but pure SPIRIT that permeates through anything and everything.
- SPIRIT is eternal and ever present.
- SPIRIT controls matter and *not the other way round!*

GOD’S DOMICILE is the SPIRITUAL REALM and HIS TRUTH can therefore *only* come to Earth from this REGION. This has always taken place and it has never been restricted to one specific place or time. All INDOCTRINATIONS and additional REVELATIONS from these REGIONS are always *adapted* to man’s level of development and cultural state. Comprehensibility and relevance to the current situation are therefore always guaranteed.

- *GOD created specific LAWS to govern the transmission of the TRUTH.*

Mankind is certainly not only dependant on partially falsified traditions and their interpretations. These are evidentially *not* adequate! If these had been adequate and above all based on logic, we would, after thousands and thousands of years of reflection, have paradisaical conditions on Earth.

- *We can trust in GOD’S active EXPLOITS even in the here and now.*

Only the objective, divine TRUTH and knowledge that can be expressed through terrestrial vocabularies can reach planet Earth. Everything beyond your comprehension must, by necessity, have to wait, because the extent of the present terrestrial terminologies does not suffice. The already *available* material however suffices to elevate the world’s present level to a higher level of understanding. – All one would have to do is to acknowledge it!

- *The TRUTH certainly does not hide behind unverifiable religious coercions*

He, who has something to hide, usually asks for *blind* faith. GOD has no negative THOUGHTS and PLANS HE would like to keep from HIS CREATION. HIS truthful REALITY is absolutely august and stands high above all terrestrial standards, opinions and assumptions.

The opportunity to *test the spirits* as it were is absolutely possible and *imperatively necessary* and it can be done with an alert and logic mind, with one's feelings and its associated cognisance ability!

Every human being is able to utilise or ignore these abilities. Every human being has the opportunity to familiarise himself with this wonderful eventuality fully consciously and with clear insight, as long as they do not egotistically fight this notion. The only requirement is a *sincere* search for the facts and a willingness to learn.

There are an enormous amount of mistakes and knowledge gaps in regards to the divine TRUTH. They reach far into the past and they are solidly entrenched within the world's philosophies. To correct the mistakes that have crept in and to fill these gaps of knowledge would be an uncomfortable process to many people and institutions, so they prefer to avoid doing so altogether.

It is of course not easy to admit that, according to divine FACTS, one's own opinions and actions were incorrect. *Prestige* is unfortunately extremely hindering here. There also exist a huge amount of lies and misinterpretations. This is all a part of the century old practice of keeping the masses on a lower spiritual level thereby making them more obedient. The egomaniacal goals are called: Domination, suppression, seduction, exploitation and if everything else fails, it's annihilation.

The path towards a rapid spiritual evolution of mankind is *consciously* impeded. This happens in a well organised fashion on a large scale, but also on a smaller scale through personal misconceptions. Might is only able to prevail when the elucidating, divine TRUTH is defamed and attacked, portrait as incredible and ridiculed, with the result that the knowledge gaps will endure. This also applies when people hide their feelings from one another due to lack of interest or better insights.

The release from this devilish cycle to a peaceful and harmonious future offers higher KNOWLEDGE from GOD'S positive realm. This KNOWLEDGE can be detected via one's feelings and then verified through logic. In order to do so, the mind has to be trained in divine LOGIC and one's feelings have to be refined in regards to their positive VIBRATIONS. Both of these things belong together, they complement one another and form an *unalterable unit*. Access to the TRUTH can be gained through the themes from the series of scriptures called the *Menetekel*, which have actually been collated for this reason.

- *GOD is pure LOVE!*

This LOVE offers every human being individual HELP for the higher development of spirit and soul, of mind and emotions, however it is *never forced upon* anyone! The reader will quickly realise the CHAPERONAGE that is present whilst perusing these scriptures. A myriad of GOD'S authorised HELPERS are active in order to accompany human beings. Whether we are willing to feel, recognise and accept this HELP remains the personal decision of every individual.

He, who *genuinely* seeks and strives for higher KNOWLEDGE, that is to say, he, who has *focussed* on his goal, will have his cognisance abilities *enhanced*. He will be able to recognise aberrations and fill the gaps in his knowledge. Every human being can *refine* their soul and their feelings, if they are *willing* to open their hearts to divine LOVE and to close it towards the negative in equal measure.

The following INDOCTRINATIONS to the theme of "GOD and HIS antagonist" are only a part

of a comprehensive program of elucidation from the Fifties, Sixties and the Seventies, given to all those who can identify with this.¹

These transmissions are *not* the property of certain “chosen ones”, but basically belong to *all* human beings! They should be disseminated with this in mind!

These messages are rendered here *word for word* and stem from GOD’S positive REALM. They were transmitted by specially trained and authorised MESSENGERS of LIGHT and they come from within GOD’S HIERARCHY.

May every reader gain ample benefits from the KNOWLEDGE offered by these psychic messages!

Herbert Viktor Speer

2. Errant opinions

2.1 Immature concepts (Transmission from the year 1968)

People have portrait GOD in a variety of ways – and nobody seems to be happy with any of them. However what you have to take into consideration is the fact that mankind is subjected to advancement and development; mankind’s mental horizons are continuously expanded. The boundaries are slowly set or expanded. The expansion of mankind’s knowledge brings a greater understanding of the universe and the things in it.

In the past, man knew very little about his environment and the miracle life represents. He equated everything with the activities of the gods. He could only imagine GOD as a magnificent, but human-like being. This is how the original thought of making sacrifices comes from. They assumed that the gods were angry when thunder rolled and lightning lit up the sky. They believed that this anger could only be averted through offerings.

These immature concepts gradually make way to more laudable ideas. Man now endeavours to find the LIGHT. He fights his way through the darkness of ignorance and the veils of superstition to finally realise that the CAUSE, the great CAUSE, is way beyond his power of imagination. Traditional convictions however die a slow death and this is why the image of a splendiferous, radiant old man, a person that created the universe, managed to survive for centuries.

Mankind now finally begins to find out that the divine ARCHITECT, the august SOVEREIGN over the universe, is neither man nor woman nor any other creature. GOD is not a person in the literal sense of the word. The universe is only guided by HIS LAWS – and these LAWS are infinite in their range of coverage and also in their application. These LAWS do not stem from man’s consciousness; they are the result of divine LOVE and WISDOM, perfect, infallible and neither subject to aberrations nor one single mistake.

- *Life is spirit and spirit is life.*
- *The spirit in infinite, without beginning and without end.*

¹ You will find a list of all the themes translated so far on <http://www.pg-downloads.de> under the Union Jack symbol.

- *The spirit cannot be forced into any physical matter; it only forms a relationship with physical matter.*
- *Physical matter is just a faint reflection of the spirit.*

Human beings, who live in a physical world, are by necessity compelled to think that everything runs the way their *five* senses see, feel, taste, hear and smell things. They are *unable* to comprehend anything that lies *beyond* these senses. He, who is subjected to these limitations, is therefore unable to comprehend what lies *behind* it all.

We say that the universe is governed by completely natural LAWS and that the divine INTELLIGENCE behind these LAWS is perfect. However man cannot comprehend this absolute perfection, because he is imperfect himself. Due to the fact that man is a person, he can also not comprehend the impersonal.

He, who is still backward in his development, can not comprehend that there is a consciousness *outside off*, separate from his brain. He can also not comprehend that GOD is a cosmic UNIVERSAL CONSCIOUSNESS, a sentient INTELLIGENCE not bound to any body. – I hope that these elucidations help you somewhat, because this theme is not all that simple.

- *In order to comprehend the universal spirit that is GOD, you must remember that humanities on millions of planets constitute what one calls GOD!*

2.2 Creation requires intelligence (Transmission from the year 1958)

Even the most dedicated atheists do not completely reject GOD, however they do rob HIM of HIS intelligence, consciousness and almightiness over man's destiny. They reduce GOD to laws of nature that wisely compel, but in themselves have neither intelligence nor experience in a human sense.

Listen well and contemplate!

An animal lives and rejoices in its existence and is afraid of many dangers. However an animal neither contemplates CREATION not the CREATOR. Man on the other hand stands far above animals and possesses a completely different mind-set, one that enables him to contemplate everything he perceives with his senses.

- *Man therefore perceives the existence of a CREATOR, otherwise it would be completely improbable that he would even think about HIM.*

But how does man perceive the CREATOR? – He observes that everything is *meaningfully* organised, that everything has *a purpose* and that everything *strives towards one goal*. He sees nature growing. He sees the emergence of human beings and the procreation of creatures. He observes and hears a formidable environment. He has an inner sense that the world with its flora and fauna is something beautiful. He tries to mimic Mother Nature, to explore evolution, looks far into the cosmos and calculates that the universe is inconceivably large and enormous. Man is helplessly exposed to natural catastrophes and the elements. He is indescribably pleased when he succeeds in duplicating one of these enormous catastrophes.

Man *therefore knows* that the universe is formidable, enormous and beautiful. He is aware of the

versatility and the variety of life on this Earth and *he knows* that there are billions of stars that must surely feature a continuance of this enormous and interesting CREATION. Next to the world of plants there would only be the world of animals here to enjoy their existence, if man would not exist at this stage. However *the whole endeavour* of this CREATION would not be appreciated by animals.

GOD therefore had to create something that could *appreciate* HIS ENDEAVOURS, HIS MIGHT and INTELLIGENCE, if HE didn't want to be the only one to comprehend and to savour the unimaginable eternity and polymorphism of HIS CREATION. An effort like this would not have been necessary just for HIM, because one star would have been more than enough for HIM. However GOD created HIS angels, HE bred beings from HIS LIGHT that stood at HIS side to aide HIM, to discuss things with HIM and to take pleasure in every new creation.

You know that every individual experience is *without* substance if one cannot share it with someone else. You need friends you can *share* the experience with, friends who understand you and enjoy everything with you. CREATION needs an intelligence that is capable of conjointly experience all of CREATION with GOD.

- *In as much as you enjoy GOD'S CREATION, even if only mildly so, GOD is pleased that HE actually fashioned this CREATION that pleases and has meaning for somebody!*

Every human being wants to be heeded by his fellow men. Every artist likes to see his works are given attention to. It gives great pleasure and impetus to see others enjoy his accomplishments. Even GOD is not an exception in this. HE is pleased about the slightest emotion that shows that someone loves and adores HIS CREATION. Any CREATION that is ignored or not comprehended, well, even destroyed, would be without meaning and would therefore not have to exist at all.

- The environment *justifies* man's existence. GOD created the laws of nature for this reason. They are *not* GOD, they are HIS ORDINANCE. Man is actually GOD'S partner and he experiences all of CREATION with HIM – right into the furthest regions of the universe.

2.3 Why all this doubt? (Psychic transmission from the SPHERES of LIGHT)

Those with ears should listen!
 Those with eyes should see!
 Those with a mind should contemplate!
 Those that seek the TRUTH shall find it!
 The TRUTH is with GOD!

You try to explain GOD and with all your powers of reasoning you endeavour to somehow define HIM in a convincing manner.

- GOD can *never* be defined with the power of reasoning, only with very simple logic!

You have a tendency to *complicate* the simplest of things. Well, GOD is not really a thing, but HE is still very easy to comprehend unless you *make* HIM incomprehensible of your own accord. – This is something the churches definitely do!

I am one of GOD'S angels and I admonish the church:

- *Cleanse your bible, because it should be a HOLY scripture.*
- *Remove senseless threats, because GOD is more merciful than your own Christian thought processes.*
- *GOD'S REALM knows no officials and salaried employees, but only voluntary co-workers and voluntary spirit eminences.*
- *GOD needs HIS helping angels here on Earth and not crawlers and position seekers.*
- *You have turned the church – GOD'S sacred church – into an institution of dogmatism, of conflict and of obscure finances.*
- *Like Pontus Pilate, you wash your hands with your gifts of innocence and kindness.*
- *Your dress yourselves unscrupulously in the colours of dankness and bind the Holy Scriptures in black. Remove all poetry and lies from the holy text down to the last 100 pages that contain GOD'S unadulterated TRUTH.*

You look for EVIDENCE of GOD, because the most obvious evidence that GOD exists, namely that you are endowed with HIS soul energy and that you could not exist at all without HIM is not enough for you.

Did you create yourselves?

Well, in your lunacy you believe that GOD could *also not* have created HIMSELF, because you never created yourselves either and because you could never do so anyway and that this is the reason given why HE does *not* exist.

I am aware of all your thoughts and all of your questions, all your misdeeds and all your senseless endeavours to find an earthly truth that does not exist.

You try to *explain* the CREATOR who actually does not need a more detailed explanation as HE does not make a visible appearance HIMSELF. If GOD *would* make such a physical and forceful appearance that we *would be able* to immediately recognise HIM as supernatural, it would mean the unstoppable decline of all of mankind. The very moment this would come about, mankind would *only rely on GOD and would cease to make its own decisions*, nor would it undertake any endeavours that would promote the world. At the same time, all of mankind would be in the grip of fears and inferiority complexes and this would help to promote a rapid decline.

- GOD remains intangible and undemonstratively in the background as your INSPIRATOR REX.

Why do you waste your time thinking about whether GOD really exists?

Who amongst you can see the spirit of their brother or sister?

You are *not prepared* to believe in something that is still *beyond* your reach, because *you* would like to occupy the *highest* position. The devil advocated this attitude even though he was infinitely higher placed than you are. However this attitude, this wilfulness, made him plummet into darkness and into an abyss.

- *But I can say to you that every human being that regards itself to be the most eminent creature will also plummet into this darkness and abyss.*

You have established many principles in order to explain your existence. You have included the CREATOR in these principles, completely disregarding whether you're dealing with theological, cosmological or ontological evidence of GOD'S existence. All of this alleged evidence is pure *child's play*.

Well now, I will tell you what the reality looks like.

Those with a mind shall contemplate this!

- There is *no absolute nothingness*, all of space is filled.
- Matter constitutes the, for you only, *visible* part of the universe.
- The powers of reasoning, sensual perceptions and conceptual consciousness are SPIRIT ENERGIES and they are beyond physical matter, however they correspond with it.
- GOD corresponds in this way with the terrestrial world and also with other terrestrial like worlds.
- GOD is a CONCEPT.
- A CONCEPT is a *tangible* condition.
- GOD *is a condition* that has always existed and that will always exist.
- GOD is therefore a *permanent* EXISTENCE.
- GOD is represented everywhere, wherever something exists either visibly or invisibly in space, because there is only *one* EXISTENCE.
- GOD is exactly the same as the word "EXISTENCE". – The word is therefore with GOD.
- The word came down to Earth to you, namely in the form of EXISTENCE.

Is it really that difficult to comprehend that you have to assemble whole communities in order to interpret the simple logic of the bible? – Whatever you interpret from the Holy Scriptures is *superfluous*! You might as well interpret a detective novel. However the bible proclaims a TRUTH you *have not yet recognised*, because you neither understand the language of the prophets nor do you believe them.

It is also written:

"Be fruitful and multiply and fill the earth and subdue it and have dominion over the fish of the sea and over the birds of the heavens and over every living thing that moves on the earth."

- It is not written that you *should overpopulate* the Earth.
- It is not written that you should allow yourself to be *triumphed over* by the Earth, by physical matter. You should subdue the Earth –you call it physical matter – as it stands at the moment you are *its subjects* and it *reigns over you* to a high degree.
- It is not written that you should *hold dominion* over your fellow men, only over fish, fowl and all other animals.

It is also clearly written:

"You shall not make for yourself a carved image or any likeness of anything that is in heaven above, or that is in the earth beneath, or that is in the water under the earth"

He, who does not believe in the sacredness of the revelations, also does not believe in GOD. He is beyond help!

What have you done to GOD'S COMMANDMENTS?

A codex with hundred thousand paragraphs!

This codex is required in order to have sufficient commandments at one's disposal to *circumvent* GOD'S COMMANDMENTS.

But you are not afraid from bans and interdictions, because you assume that you are independent and free and this is why you have turned the LORD'S ANGELS into kitsch and derided the souls of the departed. You call them "ghosts" and depict them as caricatures.

- However this is *your way of saying thank you* to your invisible HELPERS!!

2.4 Questions and answers

Question : Why do even savants rack their brains asking whether GOD exists or not?

AREDOS : Man cannot comprehend GOD'S EXISTENCE, because he lacks the mental training in regards to this. Man cannot comprehend anything *without* experience and *without* training. He thoughtlessly turns from GOD and concentrates his egotism on material things. Mental exercises of a divine nature are called meditation, *but meditate under a half-moon, because the negative forces are at their most powerful under a full moon.*²

Question : Why do even those people not progress spiritually that are of good will and eager to believe in GOD?

AREDOS : Their good will turns to obstinacy in most cases. However obstinacy is the negative form of good will. *Willpower must be directed at a positive goal through self-knowledge.*

Question : Is the path to GOD very difficult for an individual person?

ARGUN : The insufficient knowledge prevalent on this planet does not make this path an easy one. However man *complicates* this path by avoiding the TRUTH, because he is *ashamed* of the TRUTH. The heart, and not hatred, must always speak first. Brotherly love is the only useful foundation for an all-inclusive community here on Earth. Hatred is a demonic indoctrination and power blinds the leaders of this humanity.

Question : Is it actually important that one occupies oneself with what GOD is all about?

AREDOS : No, certainly not, because one is not really able to comprehend HIM. But it is however important to deal with GOD'S intelligent ORGANIZATION and to act accordingly. Man must first comprehend himself before he can reach for the stars.

Question : There are those that say: "I don't believe in GOD, but I do believe in a higher being." What are we to make of such definitions?

² One should not meditate too often!

ELIAS : This comes from the fact that most people imagine GOD *in the form of a person*. This is a great mistake. GOD is a spirit – and not physical matter. However GOD is also everything – omnipresent, planning, knowledgeable, helping and eternal. One has not made an effort to define GOD correctly or to define HIM even *approximately* correctly.

Question : Are the knowledgeable obligated to teach others the TRUTH?

AREDOS : Yes, but *only* when the others *want* to hear their instructions! There are people that adamantly close their mind to any knowledge. Any attempt there is futile, it might even worsen the situation. – Be careful with the word “GOD”! Use other terminologies like: “THE GREAT PLANNER” or “THE INFORMER”.

Question : Why is the word “GOD” inappropriate?

AREDOS : Because the churches have given this terminology an inappropriate connotation. They have dragged the word “GOD” through the mud with their dogmas and false promises, with their materialistic thought processes in general, so that hardly anyone believes in a living GOD.

Objection : As is well-known, one *also* objects when the word “GOD” is used *too often*.

ELIAS : Yes, the more often such a word appears, the more manipulated people feel. A very difficult task to find the right solution here!

Question : The sciences also shy away from using the word “GOD”, one talks about “X”, the unknown. What do you say to this verbalization?

ELIAS : If one looks for a formula for the word “GOD” one should rather use a circle. It is not an unknown factor, but encompasses everything. GOD is an *abstract concept* that sounds very nice. This word must be *rehabilitated*! The word “GOD” does not require a different verbalization, even though a lot of other explanations are allowed. However GOD remains GOD – any other word for GOD still remains an abstract concept. One would do exactly the same with any other word as one does with the word “GOD”. The word “CENTRAL CONSCIOUSNESS” expresses a little more, namely the invisible consciousness in all of nature. However we ask ourselves, *must* GOD be explained at all? Isn't it enough to know that HE exists?

Question : Because GOD is very abstract to our comprehension we need a more concrete picture of HIM. Is this the reason why the idea to humanise GOD to a large degree has come about?

ELIAS : GOD is timeless. HE is neither young nor old, but very wise. GOD is absolutely taboo! Theology hardly takes notice of this, otherwise one would not beat about the bush so much, to ask for instance whether GOD might be dead. GOD'S antagonist knows of *no* such taboo. He tries with all available means to promote himself to the front. I have tried to explain this to you before. This is naturally very important. One has to point this out over again.

Question : There are those that not only deride other people's religion, but that try everything *to persecute* GOD, by malevolently reviling HIM and by regarding Him to be a figure of fantasy. Why does one persecute GOD?

ARGUN : GOD is infallibly just. However this JUSTICE is *unwelcome*, because it doesn't concur with the wishes of the ignorant and the negative. They demand that they should be well off and that they should have the power to enslave and to exploit others and because GOD does not allow this to happen, they turn against HIM.

Question : Due to all the blasphemies and discriminations GOD *actually* needs to be rehabilitated by the people on Earth. How do you see this?

ELIAS : Yes, this is actually true. GOD needs people and they need HIM. HIS CREATION does not give Him any pleasure without mankind's acknowledgements. The present situation can be compared to a child never saying mum or dad. You have done your bit in this regards by explaining to others that GOD is a COSMIC CENTRAL CONSCIOUSNESS. GOD is unfortunately – even if often only subconsciously – regarded an individual personality. I mean to say that GOD is most times given a human personality. However this is the very reason that HE is justly dismissed as such a personality. The appellation “dear God” already creates this image. One is spontaneously inclined to think of a dear old gentleman.

Question : When one looks around the world one can ascertain here and there that *not only* the word “GOD” is proscribed, but also the word “spirit”. Is this observation correct?

ELIAS : This is because man can glean very little from these words. Everything to do with the spirit is still to be discovered. Well, one talks about GOD'S spirit – but one means GOD'S *soul* because one doesn't think of spirits in regards to GOD, whilst the soul and the astral body are to be seen as spirit. The word spirit is a collective term.

Objection : Even the explanations of the greatest thinkers still leave us with remnants of doubt.

ELIAS : GOD *cannot be explained*, because man will *never* be able to completely grasp GOD.³

2.5 The way to GOD (Transmission from the year 1960)

Of all the living creatures throughout the universe, man is *the only* divine being that is able *to contemplate* CREATION and the CREATOR. But *only a few* people on Earth make use of this ability. However those of good will to contemplate the secrets of CREATION and the meaning and purpose of their own existence, are being hindered from exercising the freedom of their mind by many *dogmas*.

- *At the highest place stands GOD'S law of nature called LOVE. To love GOD is the highest commandment. However it is a voluntary endeavour and never forced. The many church dogmas particularly sin against this most eminent divine FREEDOM of expressing LOVE.*

³ Man is only capable of three-dimensional thought, however GOD and HIS REALM are multi-dimensional!

- He, who looks for GOD may seek HIM in complete freedom and his *own individual way*. There is no vow, no promise, no law, no commandment and no religion that can force man to look for GOD along strictly prescribed lines. The freedom to SEARCH for GOD stands *above* any terrestrial promises. Every vow made by a priest becomes invalid if it *contravenes* the freedom of one's own SEARCH for GOD!

The religious coercion the people on Earth are exposed to is extortion, blasphemy and it *hinders* any genuine GOD REALISATION. No genuine GOD REALISATION can come about through coercion, it can only come about through one's own experiences and observations, considerations, self-realisation and freedom of mind.

- There is no: *You must* believe in GOD. There is only a: Based on your *own* insights, *you will* believe in GOD one day.

The priests and educators in this field of knowledge established many regulations that are formulated as if GOD had passed these regulations and complying with them was demanded with absolute authority. People *sense this coercion and balk against it*. Have you not been able to observe over again that GOD does not forcefully interfere in terrestrial affairs, but *hardly perceptibly* and this with infinite TOLERANCE and LOVE?

How often does it happen that the Christian confessions *urgently warn* their devotees from all *other* religious communities? The Catholic Church even threatens those devotees with eternal damnation that should dare to contemplate looking for answers in any other way, even though eternal damnation *does not exist*; it is only a temporarily limited period of time that can be brought to an end by every human being and every soul of their own accord. How often are people completely dependent on their priests and allow themselves to be molested in regards to their faith and all their religious thoughts?

- *Man has been conceded such a lot of freedom in thought and action by GOD that he is even allowed to run after evil and negativity until he sees the error of his ways.*

A molested philosophy or god-realisation is never the correct path into the LIGHT. The divine LIGHT must be searched for and found by every individual soul under its *own* steam. However there are GUIDES at your disposal to help you search and they will indicate the right path to you. But there are also seducers standing at the side of this path and they direct you towards darkness. Man's own sense for the truth shall be the compass the soul should be guided by.

The highest GUIDE and GOD'S *representative* for the whole terrestrial and spiritual humanity of planet Earth is and remains CHRIST! Through his just and assured guidance he redeems us from all evil, namely in absolute FREEDOM and LOVE! In as far as you manage to spiritually fight your way forward to a point where you begin to assess everything according to the measure of FREEDOM and LOVE, you will never go awry and you will go towards the LIGHT.

The churches and their organisers are not GOD'S representatives by a long shot, but churches *ought* to be places of divine indoctrinations. GOD'S words can certainly be proclaimed there, however the teachers engaged by the church do not have the right to assert the right to make decisions that only GOD, his SON and his ANGELS have the prerogative to make. – *These teachers usurp the right to condemn. – GOD does not do so!*

3. Without GOD?

3.1 Ungodliness (Transmission from the year 1964 and 1965)

Well, theology has *never been* successful in uniting all of mankind under the umbrella of one religion. Atheism has always had a mighty word to say in the past; however atheism now also plays an important part in world politics.

Religion should actually be completely separated from world politics, but this is not the case, because atheism is now a very significant factor of making whole nations amenable in regards to political interests. One attempts to make people devoid of scruples so that all measures of human seducements and human defence mechanisms can be carried out without resistance.

This is the reason why FAITH in GOD in all its nuances is regarded a *threat to the state*. If the major religions were not as powerful as they are, they would have been liquidated long ago. However religion is not just what the churches teach. Religion is more of an *inner awareness* in man. Just how someone advocates his point of view is a different matter altogether.

- An atheist does *not* necessarily have to be *godless* just because he does not give church doctrine complete credence.
- A heathen can be a human being that is spiritually *far advanced* of a faithful churchgoer.

The word “atheism” should therefore not to be generalised!

It *doesn't* necessarily follow that we are dealing with *complete* ungodliness here. Only the *preconceptions* of GOD and HIS REALM are *often different* than that of the churches and sects. The major religions basically err in most things, even though they are in possession of a few partial truths. However man's terrestrial and otherworldly THOUGHT PROCESSES are *entirely different* from one another. No progress is made by blindly persecuting atheism. It is also senseless to persecute ungodliness.

- *The only path that leads to GOD is through tolerance!*

It is however important *to disseminate* the TRUTH even when the existing major religions are not happy about it. The objective TRUTH is also to be disseminated with all possible means, particularly there, where the sciences are dealing with false insights and false formulas.

The recipe for mankind is:

- *Disseminate the TRUTH everywhere, but do not persecute those that are of a different opinion. Only an excessive dissemination of the TRUTH can decisively change the situation.*

Do not condemn atheism *prematurely*, because it is often not completely ungodly, but just a *severe criticism* of existing religions. However the existing religions must cop this severe criticism because in spite of being severely criticised, they are unwilling to relinquish their hardened point of view, even though they sense that they are not correct.

Religions have produced more fanatics than positive, deist human beings. Even the Christian religions have never taken the initiative to keep track of the research and experiences of psychic

research and act accordingly. The spiritual realm blames *all* religions for the present level of ignorance of mankind on Earth in regards to the human situation.

- The doctrine of immortality must first be disseminated, before a TRUE religion *can follow*.

Many atheists criticise religion pretty severely – and this is *absolutely justified!* – One should listen to them and act accordingly if one wants to get to know the TRUTH more intimately. – This is the only way they will get to know GOD.

I see no reason to attack or to persecute something, just because it doesn't make sense to me or I don't like it. This is why the spiritual realm cannot understand why you persecute GOD, just because you cannot comprehend HIM.

We are therefore not just dealing with atheism here, but with the regular persecution of the CREATOR, whom you blame that you are unable to get on with one another and whom you blame for not physically interfering. Well, is this what you want, that GOD actually participates in your strife? – What kind of *humane* GOD would that be?

Based on idiotic philosophies, the atheist insists that there is a Mother Nature, but that there is no GOD. This definition is *absolutely absurd*. It is devoid of any logic. GOD is indeed not a human being, but HE is an enormous COSMIC CONSCIOUSNESS, quite apart from HIS many POWERS and CHARACTERISTICS.

- That you cannot comprehend this lies with the analogy that you think that the human brain is the source of consciousness, the way fire can be converted into energy.

However human consciousness is *cosmic*, meaning that it is *not located within the brain* itself. The difference is that GOD'S CONSCIOUSNESS, which also does not require a brain to think, is *much, much larger* than all consciousnesses of *all universal humanities*.

Admittedly, man is intelligent; he does create machines and implements that can be regarded miraculous. However man's wondrous activity can certainly not be compared with GOD'S WONDROUS ACTIVITY. Whilst man is *microcosmically* active, GOD is *macrocosmically* active. The macrocosm is HIS CREATIVE ARENA.

Erroneous concepts in regards to GOD, promoted by false religions, bear the blame for the rise of atheism. Atheism is a healthy criticism of the way the concept of GOD has been falsified. But no judiciously thinking human being should make the mistake of simply ignoring GOD and HIS SPIRITUAL REALM.

- *I admit that the foundation of man's faith is false, but when man makes an attempt to comprehend himself, he will absolutely close in on GOD REALISATION.*

Atheists say that Mother Nature produces everything and that she does not require a GOD to do so. Mother Nature would have to have some enormous ENERGY at her disposal to make all of this happening.

But where does Mother Nature get this INTELLIGENCE and these ENERGIES from? – The atheist, the faithless and ungodly doesn't say anything about that. GOD does not have to get this INTELLIGENCE and these ENERGIES from anywhere, because HE *possesses* them already.

They are HIS CHARACTERISTICS, the way human beings also have their characteristics and their life force.

Man draws his spiritual ENERGY from the cosmic universe. Man only receives a minute amount of ENERGY from the enormous mass of ENERGY available. GOD however has a far greater capacity for these cosmic rays and forces. Compared to man, HE is a gigantic generator, whilst man is just a minute aggregate.

Mother Nature would not know what to do with these ENERGIES, even if the greatest sun were shining. However GOD, with HIS COSMIC CONSCIOUSNESS, *meaningfully controls* this greatest of chaos of unfettered forces of nature and HE constructs and expands the universe with these forces.

- *GOD therefore possesses all of Mother Nature's capabilities. They are however only meaningful and harmonious through HIS INTELLIGENCE, through HIS supra-dimensional CONSCIOUSNESS, which intervenes to bring order to this enormous INTERPLAY of FORCES.*

3.2 About atheism (Transmission from the year 1970)

Atheism is often discussed these days. Atheism is already regarded a sign of the times. There are even whole nations that more or less avow to atheism.

The question now arises whether atheism has some justification in some way?

One cannot call all those that profess to be atheists as really godless people – or what is even worse, as GOD'S enemies. He, who seeks the TRUTH, is never an atheist. Whether he finds the TRUTH or not, which is solely with GOD, doesn't matter here. Even a materialistically minded scientist who deals with stars and microbes looks for some hidden TRUTH within nature; ergo he is *not* an atheist, even if he has no real concept of GOD at this point in time.

The word "GOD" only plays a *subordinate* role here; whether we're dealing with a law of nature, a process within the universe or a biological activity within man is of no consequence. All of these phenomena are of a divine nature and are a part of GOD, the gigantic PLANNER.

Atheists usually balk against the appellation of "GOD" and not against HIS POWERS. This comes from the way the churches have erroneously *humanised* the concept that is GOD. The churches try to make the incomprehensible plausible to their followers. They have unfortunately achieved the complete opposite in the process.

A survey amongst the younger generation was carried out in the Federal Republic of Germany. One of the questions was: "Do you believe in GOD and how do you envisage HIM?" – One third of thus questioned avowed to a *personal GOD*. – Two thirds envisaged GOD as an *active FORCE*. This is the corresponding *pantheistic* explanation. Even if one imagines GOD as an active FORCE, we're dealing with just one part of GOD, but never with all of HIS MAJESTY!

No scientist can deny the fact that an intelligent order exists throughout the immeasurable universe; it functioned all the way down to the microcosm and even further than that. There is not

one example throughout the universe, and this includes all sciences and philosophies, where order *without* experienced INTELLIGENCE is the order of the day.

- GOD is *not* a person, but a *sentient* FORCE.
- GOD is the *sentient CONSCIOUSNESS behind all of CREATION!*

Nobody on Earth will ever know whether somebody will ever be able to come in contact with the PLANER on a terrestrial, extraterrestrial or spiritual level.

- *A departed soul will therefore not come face to face with GOD, but with a REPRESENTATIVE who belongs to GOD'S spiritual ORGANIZATION.*

The GREAT PLANER certainly has *other* functions to perform than to stand in judgment over a poor soul. However this does not absolve anybody from the responsibility they bear witness to when faced with the spiritual realm's CHOSEN ONES.

- Church religion has *never ever* proven its mettle as a tool of redemption. The dead bear witness to this! Man can only find redemption through *self-realisation, self-betterment* and by striving towards perfection.

The *real* atheists are antagonistic towards GOD and this out of pure stupidity!

3.3 Questions and answers

Question : We often asked ourselves just what makes atheism so *attractive* that so many people fall for it.

ELIAS : *Atheism takes people's inner moral inhibitions away.*

People thereby get rid of their complexes.

It is unpleasant to have an invisible WITNESS to all of one's deeds and thoughts. This is what they like most about their new religion, namely that *they believe* they can do whatever they like *without* a WITNESS and *without* responsibilities. However such a WITNESS is most important for man, because when he passes away, this WITNESS helps him to cross over, a little like someone helping somebody to alight from a train. The WITNESS is here so that the disembodied spirit finds its way. The way people die *varies* a lot, however a reasonably decent human being has *nothing* to fear, he will have HELP.

Question : In light of our present world situation, the path that leads to GOD becomes ever more difficult. Is this why atheism continues to spread its influence?

ARGUN : Due to poor insights here on Earth, this path to GOD is not an easy one; but man makes this path *even more difficult* by *evading* the objective TRUTH, because he is *ashamed* to admit that he believes in a TRUTH that others consider nonsense. The heart and not hatred must be listened to *first* and *foremost*. BROTHERLY LOVE is actually the only practical opportunity for the peaceful coexistence between people.

- Hatred is the *doctrine of demons* and might *blinds* the leaders of the human race.

Question : What effect does frankincense have on an atheist?

ELIAS : An atheist finds the use of frankincense ridiculous, the way they regard every religious tradition ridiculous.

Question : If we want to understand today's matter of fact people, we must assume that through consistent, mental training certain brain cells must feature a corresponding development. Is this the case?

ARGUN : Yes, they have *adapted* to atheism and therefore accordingly developed. They also align themselves with the law of adaptation, assimilation.

Question : How can man assess whether his thought processes are logical?

AREDOS : The term "logic" comes from LOGOS, meaning GOD or divine. Atheists want to be logical, respectively they continuously bear reference to logic, however they are neither interested in GOD nor the DIVINE. Man must also *test* whether his thoughts *contradict* GOD or the DIVINE. Is this the case, his thoughts are *illogical*.

- Atheistic thought *distances itself increasingly* from the objective TRUTH.

Question : According to this, the fact of a spiritual existence is beyond the comprehension of many people. Does atheism actually belong to our hereditary preconditions?

ARGUN : Yes, because we are dealing with a mental underdevelopment of the brain's activity. Even children do not exercise and foster their intellect to begin with, but mainly their imagination. This is the reason why imagination is *more* pronounced with most people than a healthy common sense. Alleged great thinkers therefore apply their imagination to a higher degree during their investigations and definitions and this is why they produce these fantastic explanations, thereby avoiding the TRUTH altogether. This is why spiritual experiences and evidence is usually called an aberration of fantasy.

- *Children already learn to lie and to fantasise!*

Question : Is this the reason why there are so many people who are absolutely *inaccessible* in regards to insights from the spiritual planes?

ARGUN : These people never had anything to do with insights from this field of knowledge – and if they have – then in a *negative* way. Their mind is therefore *not prepared*. They have *no perception* for these types of INDOCTRINATIONS. These people have been taught from a young age that there is *something funny* about the supernatural or the DIVINE. This has managed to inhibit all future learning.

- Many storybooks actually *teach* atheism.

Question : How can we demonstrate to these doubters under these circumstances that a conscious, responsible existence after one's death is a reality?

ARGUN : The TRUTH must find its way out of the quagmire. There is enough evidence available all over the world. *It isn't just about evidence, but about the mind* that is supposed to correctly assess this evidence. The LORD is not pedantic, but HE does not play HIS HIGHEST TRUMP just yet.

Question : All the evidence we provide is *falsely interpreted* by academic scientists and psychologists. Are we to ignore their judgement?

ARGUN : These people are *afraid* of JUSTICE. This is why they delude themselves and vehemently reject anything that seems *too eerie* to them if it were true. They close their eyes when faced with GOD'S, for them, unbearable LIGHT. They *deliberately* reject the TRUTH so that their precious, price-winning lies can continue to exist. But these people are already aware that they have lost this battle. They thrash about like somebody that is drowning.

Question : Is atheism the result of *negative* science?

ARGUN : *Yes, absolutely!* – One's spiritual existence can be verified at an instance. Everything is obtained from the cosmos. However the verification of one's spiritual existence would be *too dangerous* for the sciences. This is why all efforts are supported by all sides when it comes to escaping a higher JUSTICE.

Most academics persuade themselves to believe this nonsense in an extreme suggestive fashion and this gives them the peace of mind to deal with their scientific and social misdeeds. But once they despair, they no longer know what's right. This is actually the point where the SOUL *recognises itself* and desperately looks for help, but eventually *breaks down*.

You deny and condemn the existence of the soul, because you are unjust and ignorant. GOD reincarnates souls according to HIS LAW and not all souls are in the service of progress!

Negatively disposed people soon become victims of evil and fall prey to their false theories and dogmas. However, the people who really accomplish something stand quietly in the background and offer all they have to idealistic research.

- The craving for recognition is *no predicate* for the TRUTH!

Question : We ascertained that the universities throughout the world *prevent* any objective progress through proscribed limitations. Do you share this opinion?

ELIAS : Yes, one unfortunately has to say that this is so. These proscribed limitations are the dangerous fetters we call *dialectic*.

- Dialectics tends to *falsely analyse* everything whereby it just goes around in circles. This standstill is unfortunately not detected.

Question : If universities continue to follow this course of action, the TRUTH will be a long time coming. Is this correct?

ELIAS : There are some amongst the scientists that do not close their mind in regards to the TRUTH and think further ahead. Most scientists, even though they are looking for the TRUTH, have an *antagonistic* attitude towards the TRUTH. However scientists will find the TRUTH – and once they have found it, they will find IT difficult to comprehend. Even those that are not interested in divine INSIGHTS will gain them, but they will be a bitter pill to swallow.

- *The TRUTH takes a long time to sink in.*

Your endeavours have done more than you assume. Many pundits deal with the results of your endeavours, however only privately and secretly.

Question : Atheistically minded politicians do not believe in celestial punishment. One is of the opinion that one does not have to give account of ones deeds and actions, because death simply eradicates everything.

ELIAS : *This is a terrible aberration, because the otherworldly punishment can be a lot worse than any terrestrial one. - To be incarnated on an inhospitable planet is certainly not a pleasure. Prehistoric monsters still live on such planets and living conditions are close to a primordial state and absolutely terrible.*

However, hardly any politician or scientist in the service of the antagonist will believe in such an incarnation, otherwise they would leave these things alone. This has nothing to do with “Dante’s inferno”. *It is GOD’S LAW of JUSTICE!*

Question : We have the impression that the political atheism here on Earth continuously progresses. Could a situation arise where it actually will gain the upper hand?

Answer : Do not allow yourselves to be duped by appearances. Whatever happens, you must continue your fight. Do not be afraid of contradictions and also not of being attacked through unfair means. *There is no other victor but GOD!* Only the TRUTH can survive. But the powers of darkness can *severely arrest* progress. However the SPIRITUAL REALM is at your side.

Question : World communism is strengthened by atheism. How do you see this?

ELIAS : Yes, this is unfortunately true. Atheism is taught at all universities on Earth, it doesn’t matter whether it is in the curriculum or not. This fact is conspicuously recognisable through the behaviourism of students.

Question : Are there atheists who are respected in the spiritual realm in spite of their scepticism?

ELIAS : It isn’t just about whether a human being believes or not. It is actually all about whether he *acts and thinks positively*. There are naturally atheists that are moral, progressive and humane. However you are wrong to think that you will be able to force an opinion on an atheist. If one tries to force something on an obstinate person, one achieves the opposite, namely hatred. This also applies to politics.

3.4 People's behaviourism (Transmission from the year 1964)

Well, there is not one single higher being on the whole Earth than man. He has the gift of being able to comprehend creation in all its complexity. With his mind and his senses he is able to grasp everything he is surrounded by.

However the Earth does not represent all of creation, it is only *a part* of an immeasurably enormous GRAND CREATION. This places man *not just* on *this* planet, but smack in the middle of a huge universe. He is made up of two parts, namely of matter and of the cosmos. Without the cosmic part, man would just be a lump of flesh. When man dies on Earth, he cosmic part leaves the physical body and only his flesh remains on Earth whilst the cosmic part remains in the cosmos, which is its *actual* home, its original home. Man has not yet grasped this fact. He searches in all directions, but he only reluctantly dares to deal with the divine REGIONS.

Every human being living on Earth is aware that the human race he is a part of is *not* the best. Its behaviourism is *negative* and everyone believes that he can do as he pleases unless the state stops him from do so. As far as he's concerned there is only *terrestrial* punishment and this is what he tries to avoid. But the cosmos represents a parallel to the earthly existence. This realm *also* has GUIDANCE and *also* a JURISTIC LAW. Many have probably heard about it, but one regards such a realm a fairytale. Many children and simple minded people consider fairytales to be true and there are therefore naturally some that will also believe in the hereafter.

The histrionic man of cultural also regards the faithful to be simpletons that are unconditionally prepared to accept every fairytale and every saga as truth. The thought processes of an intellectual however are simpler than one assumes: They demand from GOD that HE *should show HIMSELF* in all HIS GLORY and all HIS MAJESTY. – Their deliberations do not go beyond this point.

Firstly, GOD is a being that stands *above* physical matter and therefore constitutionally unable to fulfil this request. Secondly, GOD has HIS REPRESENTATIVES. However when these appear in physical form, they are looked upon as terrestrial human beings, because they are subject to the same terrestrial laws. Thirdly, GOD would not gain the slightest advantage if HE were *to force* mankind to obey.

- This human race has been *prepared* for its existence on this planet for an infinitely long time.
- The human race on Earth has to absolve one GRADE.
- This human race should find its way to GOD *individually*, human being by human being, soul by soul. It should find its way to GOD due to its *own* decisions and also due to its *own* ASPIRATIONS and LOVE.

It is an unfortunate fact that people have no yearning for GOD, not to mention for LOVE. This is the best evidence for *how immature* these people still are and how often they probably have to absolve an existence here on Earth.

The majority of the human race has no idea what reincarnation is all about. Even all the many churches frivolously bypass this fact. There are many, many people on this planet that actually were *their own grandfather* or *their own grandmother*. This is where the mental family likeness

one regards as” heredity” comes from.

At any rate, CHRIST said: “Every debt must be paid!”

3.5 Questions and answers

Question : A Moscow radio station transmitted an atheistic radio program that criticised GOD for not verifying HIS existence through phenomena. What will be the result of this blasphemy?

AREDOS : This fact alone proves that communistic atheism already *contemplates* GOD, that is to say, that it finds its own ungodly behaviourism a little eerie.

The divine PHENOMENON they look for is CREATION itself, however to “see” GOD is *impossible*. Even CHRIST did *not* see GOD, only HIS GLORY; but he did hear GOD’S own VOICE.

- *GOD is not an avenger, HE will however not be mocked. HE will always teach you a LESSON.*

Question : Why is it that young people are particularly attracted by this scientific ungodliness?

AREDOS : Due to a lack of a better doctrine atheism seems far more *logical* than an imaginary FAITH in GOD. This however is the fault of the major churches. They tempt, well actually coerce people into accepting atheism, because in their stupidity and ignorance, they themselves have become *stuck* in a fanatical fashion and they don’t make any endeavours to progressively inform themselves.

The DIVINE LAW dictates to man that nobody, and this *without exception*, is to receive something they’re *not entitled to*. In a desperate situation however, man *can* receive something without making a personal contribution. But what are adolescents entitled to without meriting it?

- A human being, having journeyed through Earth’s school of life, with part of his redemption already behind him, looks at the world *through completely different eyes* than an adolescent.

But adolescents must absolutely see the world through the eyes of a redeemed soul one day. They will however not be able to do so, if their own process of redemption is *withheld* from them. The mature and responsible human being may not abet youth in this way by sparing them something that is the foundation of the terrestrial redemption process and an insight into higher, supernatural KNOWLEDGE.

- When life is *made all too comfortable* for adolescents, the heart’s normal process of development and customary common sense will be inhibited whereby a situation is created that leads to a complete *misanthropic* disregard of all previous generations.

Today’s youth’s behaviourism and attitudes *warningly indicate* this miscalculation and it is unfortunately sponsored by the state, because statesmen have no knowledge what-

so-ever about the meaning of life and about divine TRUTHS.

Question : Why is atheism so pronounced amongst students in particular?

ELIAS : Once a student has learned something, he immediately thinks that he is *smarter* than all the others. He will then not listen to any non-academic. Generally speaking, a student will only accept indoctrinations from his professors and never from anybody else.

- *Teachers have it within their power to correctly guide students and, generally speaking, today's youth as well.*
- *They must however also represent good role models!*

Question : CHRIST said that one should “*not cast pearls before swine*”. Does it really make sense to discuss GOD with an atheist?

AREDOS : Such a conversation must be *very carefully* choreographed. It is however possible that one evokes a smitten of doubt in the atheist's attitude. This is one step forward. *Every* human being is on a quest, even an atheist.

Question : There are people on Earth that regard life a constant torment and an injustice. To have a conversation with them is very depressing. What are your thoughts on this?

ARGUN : Almost all of these people are atheists. But talking to them might still be fruitful. *Something will always stick in their minds*. A conversation with them is never completely useless, even if it only strengthens one's own resolve. Initiative thought processes will always be stimulated in any case.

Question : A person with a Christian upbringing always finds it a test of nerves when talking to an atheist about religion. What can one do to improve this situation?

ARGUN : As I mentioned before, something positive will come from all one's conversations with atheists. These conversations are *never completely* without merit, even if they only strengthen one's own resolve and one's own initiative thought processes. The benefit is therefore mainly *one's own*. It is also interesting to observe *what argumentations* are brought forth by the interlocutor. One has to give them serious consideration and one learns in the process.

Question : We engaged an atheist in a conversation and we showed him an essay from a lecture by a well-known university professor. This scientist clearly and positively verbalised his approval *for* an up-to-date research into the supernatural, the hereafter. The atheists answer was: “I am not interested at all, because this professor might possibly be a dullard who only expresses his own thoughts and opinions.” What do you say to this?

ELIAS : It suffices to have drawn this doubter's attention to the existence of the hereafter. Even if he presently baulks against your conclusions, there will come a time in his life or even after his demise, where he will *remember* your words. He will then have to realise just where his ignorance has led him. At least you were able to give him some guidance.

- These people will not be able to use the excuse that they have never heard about these things, because they have *rejected* this KNOWLEDGE!

Everything remains within the cosmos, I mean to say that all memory *remains preserved*. Life often forces people to search for insights. Those that have heard about an existence after death are then in a better position to deal with it.

Question : Why is it that atheists are so inapproachable when it comes to dealing with the question of GOD’S existence?

AREDOS : Atheists are people that cogitate a lot, but they do *not cogitate deep enough*. They are people that talk *a lot*, *express* themselves *pompously*, want to be regarded as *very educated*, but don’t really produce any real TRUTHS. The main mistake they make is that they look upon GOD as if HE were a superman. This will naturally not make sense to them and they are actually quite right.

GOD however is not a superman, but a SPIRIT. Man’s spirit needs an appropriate body here on Earth in order to express itself and in order to communicate with others. Without this body, hardly anyone would be able to see the incarnated spirit. The same applies to GOD, because one also cannot see HIM, even though, like the human soul, HE does exist. Atheists do not believe in the existence of the soul and this is why they also do not believe in GOD and in the spiritual realm.

Question : Will it be possible to effectively eradicate atheism one day?

AREDOS : One is well on the way to achieve this. This action is *not* initiated by the churches, but quite unintentionally through scientific research. Mankind already experiments in GOD’S “workshop”. Once it has examined everything very carefully, it will not be able to ignore the fact that this “workshop” must surely have a MASTER. Before GOD began HIS creation, HE naturally had to establish an appropriate “workshop”. This is where the laws of nature came into being. The people on Earth experiment with these laws of nature these days and this makes some of them creators.

Question : A proverb says that adversity makes you smart. Does this mean that mankind has to endure adversities before it comes to its senses?

ELIAS : How often has GOD intervened, given signs, even sent HIS SON down to Earth and one still did not want to see and hear. – What is taking place here on Earth is *unique* throughout the universe. Beauty and ugliness are hardly ever this close together on any other planet. The step from genius to lunacy is supposed to be a short one and this absolutely applies to this Earth. You can see just how close these contrasts really are especially here. Planet Earth is a very prominent planet of redemption in spite of this.

Question : Atheism has never managed to provide one singly piece of evidence that there is *no* GOD, but it still manages to find enough devotees that are not concerned about this lack of evidence. Isn’t this strange?

ELIAS : There mustn’t always be evidence, but this is no reason to disdain CREATION. Man should rather demonstrate that he is *a human being* and not an animal. To be positive and moral has nothing to do with believing in GOD. –

Universities and high-schools are neither willing nor capable of teaching mankind due respect of the magnificent nature you're surrounded by. Once this respect of Mother Nature has been established, everything else will also not be derided. *Therein lays the great mistake* those in responsible positions at universities cannot see. Almost all subjects of their curriculum do *not* take this circumstance into consideration. This is why I emphatically say:

- *Begin by teaching adolescents to respect Mother Nature!*

One is ashamed to admit to anybody that one believes in something HIGHER. One wants to use *one's ignorance of the DIVINE to impress* others by projecting an alleged ungodliness to the outside. – But nobody really feels comfortable about it inside.

Objection : Atheists, most of them are really communists anyway, however insist that GOD does not make an appearance in any shape or form.

ELIAS : Apart from GOD'S interaction with Mother Nature, GOD appears *often enough*. However GOD wants to be loved by man *without* having to resort to encouragements. But man only pays lip-service to GOD. It always depends on the evidence – and mankind is not inclined to give this evidence. GOD also wants this evidence. HE wants to be genuinely loved.

AREDOS : *If GOD did not control the universe, only chaos would reign!*

3.6 The abnegation (Transmission from the year 1957)

GOD, the almighty does not deceive you or lie to you! You live in a world of reality and irrefutable facts. The CREATOR created a world for you that is neither a fraud nor a deception! You harvest the fruit of HIS labour and the LORD allows the most beautiful flowers to grow for you. How magnificent is your world's beauty!

You are well aware that the greatest paradises are her on this Earth, but you turn these paradises into sites of misery and fears. You defraud one another and you lie whenever you can. As if this was not enough, you deny your own origin and you're not interested in your FATHER, a FATHER you can be *proud* of. What child is *not proud* of a FATHER that is a MASTER in all things and one that can create enormous WEALTH? The heavenly FATHER is your PRODUCER, your CREATOR, who first created your soul *and then* proceeded to create your terrestrial body.

Why do you deny a FATHER who created space, a so-called universe? – With whom do you want to replace HIM with? – To whom do you want to bear reference to? – Verify your origin? – Can you list any reasons that give you the right to judge your CREATOR so disrespectfully and viciously that you even pretend *not to know HIM at all?*

GOD has *never ever* betrayed or abandoned you – his children. What do you think your existence would be like if GOD did betray and abandon you? What if HE would pretend not to know you? If HE would disown you, the way you have disowned HIM? – Oh, you have no idea about what would happen if this would be the case!!

But GOD is the purest and eternal LOVE and as it is *eternal*, GOD can not disown you and HE will never do so. However HE would like to experience this one day, namely that HE can be *proud* of HIS children the way a father is proud of his children when they give him reason to be proud in every respect, particularly when they turn out well.

- You don't even take the time to contemplate this!

You have *lulled* your conscience *to sleep* and you have *numbed* it through your materialistic and egotistical attitude. You believe that you do not know GOD, because you cannot see HIM face to face. Is there a reason for an orphan who has never seen his father to say: "I have not been created by a father; I have been born on Earth *of my own accord* or *by coincidence* or some caprice of nature."?

One does not have to see everything that exists! – There are an enormous number of things throughout the universe that you *cannot* see and *new* discoveries are made by scientist every day.

- You want to discover GOD! – GOD *is not there to be "discovered"*, because GOD is *omnipresent* and HE reveals HIMSELF through all the things in your life, beginning with the breath you take to the greatest stars and suns you can only see through a telescope.

Through your *false view of life* and through your *ungodly behaviourism* you have managed to create unprecedented conditions for yourselves that already worry you no end and make you live in terror. You forget that *only* your truthful FATHER, who holds your lives in HIS hands, can help you in such a situation, a FATHER who gave you life and who can take your life away without a doctor or a scientist being able to do anything about it to prevent it from happening.

But GOD is MERCY and LOVE and this is why HE does not pretend that you are not HIS children.

On the contrary!

GOD does not lie to you and deceive you, but sends you HIS HELP in your greatest hour of despair. HE will *show and prove to you* that you have a FATHER you can be proud of.

3.7 Questions and answers

Question : If man was created in GOD'S image, where does his evil wilfulness come from?

ELIAS : What actually is this "in GOD'S image"? –

- *There is no such thing as an image of GOD, because GOD is unreachable.*

Man does however represent one of GOD'S eminent CREATIONS; but man does not take this into consideration. GOD possesses SENSES and so does man. There is a connection *in this respect*.

Question : The bible states in Genesis that GOD created man "in HIS image". Based on this statement man, respectively theology, ended up with a *human-like* concept of GOD.

This has remained so for thousands of years. Does this false concept ultimately lead to atheism?

ELIAS : Let's assume that the people on Earth ended up mutations of themselves due to constant nuclear contamination. A *completely different* human race could develop from generation to generation. It would be an absolutely terrible sight to behold in your eyes, it would be thoroughly *deformed*; if it was unaware of its original form, it would regard itself the crowing glory of creation and consider itself *completely* normal in regards to its appearance; it might even consider itself to be the spitting image of GOD.

- *Who has seen GOD and is therefore able to say that he is made in GOD'S image? GOD is within every form!*

Question : Even some of the theological fraternity insist that *GOD is dead*. In any case, one wants to discourage people from believing in a HIGHER AUTHORITY. What do you say to this?

ELIAS : This is absolute nonsense, because where would intelligence, respectively, conscious thought come from. Physical matter *is incapable of doing so* on its own. The conscious awareness of his environment is *the truly DIVINE* within man.

Question : Man's CONSCIOUSNESS must therefore be what the bible calls "in GOD'S IMAGE" and *not* the body?

ELIAS : Yes, this is correct. The form in which such a conscious awareness is possible is completely immaterial.

Question : GOD therefore does *not* possess a *human* form?

ELIAS : GOD is the CENTRAL CONSCIOUSNESS of the universe. Every human being and all other creatures are *connected* to this CONSCIOUSNESS. Everything is related to this CONSCIOUSNESS.

Question : GOD is a fairytale figure to most people. Can one actually grasp HIS existence?

ARGUN : HIS SPIRIT is an eternal LAW, here and the hereafter. HIS SPIRIT can therefore also be seen in physical matter.

- *GOD'S aura embraces the whole universe.*
- HE bestows all HIS LOVE on you, but receives *only a small part* of it back (from you).

Question : Can one confront, that is to say, encounter the GREAT PLANNER? Is HE a personality, similar to our soul?

Answer : The GREAT PLANNER is the GREAT SPIRIT of the universe. HE is the origin of CREATION. To explain his existence is a futile endeavour, but this doesn't mean that HE *doesn't exist*. He, who is unwilling to accept HIM cannot think and grow beyond a certain stage in his own development.

It is strange that atheists have no other, credible explanation for the genesis of CREATION. These people mention Mother Nature and evolution, but *underestimate* Mother Nature in their ignorance, because they would like to deny her a divine FUNCTION.

- Such illogical thoughts verify that one cannot rely on these people *in other respects* also.

GOD is the most effective LAW throughout the universe and it cannot be compared with all humanities throughout the universe on that score. This is why one should *not* depend on the bible, because it provides an *inadequate* explanation.

- *Man is not GOD'S likeness, but HIS works! – Thought through and saturated with all the experiences of HIS SPIRIT.*

As GOD spans all forms of spiritual, mental and physical activities, I would like to make it clear to you that human beings are included *within* the system of the GREAT SPIRIT and have access to it, because they account for *a considerable part* of this system.

3.8 The mystery GOD represents (Transmission from the year 1962)

Every human being has dealt with the mystery GOD represents in one way or other within living memory. It matters not whether we're dealing with cannibals or atheists, Christians or Moslems, *all* of them concern themselves about the existence of a SUPER-BEING that governs the world.

People's different levels of development makes GOD appear in the *most varied* assumptions and insights. Even GOD'S greatest opponents cannot avoid these thoughts. An atheist might be beset by doubts, but his doubts are only based on his latest assumptions from a recurring thought that will nag him for the rest of his days. He tries to extricate himself from his tormenting crisis of conscience with fierce defiance and with derisive sarcasm. The less successful he is, the greater grows his resistance.

- GOD *cannot* be ousted from the consciousness of a human being, not even from the most primitive consciousness of a cannibal. He also seeks the MYSTERIOUS ONE in his own primitive way. He will also *not* be relinquished by HIM, even if he immoderately fears GOD.
- *Dear friends, allow me to tell you that GOD lives right amongst you in this way. HE is a part of every human soul and just how HE is sensed or recognised by the human soul doesn't matter.*

Man however is incapable of grasping GOD'S greatness and mightiness. He cannot imagine GOD and he will not find something to compare HIM with throughout the universe, even if he were to imagine GOD in the form of a gigantic sun. This inability to grasp GOD'S divine MAJESTY is *the main reason* why man *avoids* this line of thought. Because he, who pursues these thoughts must, per force, gain a more forceful and more convincing *conviction* of HIS EXISTENCE.

There is no evasive definition for GOD!

Every rejection of HIS EXISTENCE is nothing more than laziness – an evasion. These people, assessed as atheists, do not want to have anything to do with GOD. The only explanation for their stance is based on GOD’S invisibility. How many things are invisible and their existence can still be verified? Is GOD’S invisible existence verifiable? This is the most important question man has to deal with.

- Well, my dear friends, GOD’S existence can be *verified*, even if it is invisible. Man’s spirit is equally invisible even though it does exist!

Man’s spirit therefore needs *an instrument* in order to express itself on a physical level. He therefore has a terrestrial body, a human body here on Earth to do so. GOD would also have to have an instrument in order to express HIMSELF here on Earth, but this is *not* within HIS assignment. HE has many other functions and they are so august and important that you could never imagine in the slightest what they could possibly be.

- *GOD’S functions within the universe are more important than a terrestrial incarnation, because it would only hinder HIM.*

It should become clear to every human being after some consideration that it *isn’t worth one’s while* to think about *the manner* of the divine EXISTENCE. It suffices to recognise HIS EXISTENCE in the reality of HIS CREATION. Apart from that, GOD is so immense and enormous that no human consciousness *is capable of* comprehending even the smallest part of HIS functions.

- *He, who wants to define GOD, is insane, because he overestimates his own intelligence!*

3.9 Blasphemy (Transmission from the year 1969)

Well, man is confronted by a gigantic cosmos and its creation remains a mystery to him. However such an infinitely gigantic universe can never develop from nothing. There must be PLANNING, WILL and FORCE behind it.

Man is now however informed that CREATION must naturally have been created by a CREATOR. This almighty CREATOR, whose truthful grandeur can never be envisaged by any man, is called “FATHER” to simplify matters. According to the eminent grandeur of the spirit, this FATHER *would actually have to be taboo*. However this is unfortunately not the case. One contemplates HIS countenance and as one is simply not able to comprehend HIM, one *humanises* HIM, that is to say, GOD’S grandeur is measured with a *human yardstick*. –

This is blasphemy!

But this is unfortunately not the end of it, because the sinning continues. I will give you an example to explain this:

There are cases where children expect their father to grant them every wish, particularly when

their father is an exceptionally wealthy man. In their stupidity the children do not ask whether their wishes are of a positive nature or whether they are justified. On the contrary – most of their wishes are generally negative and they are potentially *damaging* to themselves or the broader community. This however doesn't hinder them from emphasising their wishes. If their father does not react to it, he is immediately threatened with: "If you don't fulfil my wishes, we will leave home forever!" A deep hatred against the caring father develops and all the things he has done for them in the past counts for nothing. The hatred triggered by an alleged cruel father takes on deadly proportions.

- A father is a procreator! If GOD is your, respectively our FATHER, he must also be our PROCREATOR!

If one looks at the demeanours of stupid, unreasonable children, people's behaviourism *against* GOD is understandable. Human hatred is directed against GOD, the FATHER, because HE is not willing to fulfil the unreasonable requests of HIS children.

- Mankind is not aware that by doing this, it commits a great blasphemy.

Seen from a *human* perspective, these wishes seem to be justified; the children *always* feel that they have a right to ask. However children lack experience. This means in this case that the people on Earth will never have the experience GOD amassed over eons. GOD'S experience stand *above* any human thought, there is no doubt about it. Consequently, there can be no criticism in this way.

It makes sense and it is promising to seriously contemplate this matter.

The only drawback in the deliberation is that you *cannot see* GOD, the FATHER. You are dealing with an invisible SPIRIT, but certainly not with an abstract. – GOD is *never* abstract. This is nonsense, because GOD is concretely *verifiable* through his infinite and absolutely intelligent CREATION. False excuses and sophisticated definitions and interpretations are nothing else but blasphemy with the intention of putting one over a "cruel and unreasonable, recalcitrant and opinionated FATHER".

- *All abnegation of GOD is evidence of a base attitude against a positive and benevolent ALMIGHTINESS that has only your interests at heart!*

4. Acknowledging evidence

4.1 Questions and answers

Question : Studying the religious sector more closely, we find that there is no logic present at all in many respects. Are we dealing with mistakes made by priests?

ELIAS : Yes, this is correct. Their conservative and materialistic thought processes end up being dogmatic, this hinders them from applying their *free* thoughts and this could lead them away from their normal thought processes.

Question : One can continuously ascertain that the logic applied by the masses is unfortunately well below par. How do you see this?

ELIAS : The conservative and materialistic thought processes of most people usually turns into dogma. This hinders their free and progressive thought processes. This attitude prevents them from deviating from the tracks of their imagination.

When an atheist challenges you by saying that there is *no* GOD, you simply turn away from him by saying: “You also do not exist as far as I’m concerned, because if GOD does not exist you also do not exist – this is impossible – or can you prove the opposite?” – If however something is *supposed* to exist *without* GOD, it would certainly be something that does not make sense, meaning that it could *only* be *chaos*.

Question : Are we actually dealing with logic if it is directed *against* GOD?

ELIAS : You have hit the nail on the head. The human existence is the best evidence that GOD exists. There would be nothing without HIM – or if there was actually something, it would be *bereft of meaning*. There is *no* logic without planning. There is no logic without thought; the construction of the universe is however *planned and logical*. – Who would insist that a computer came into being purely by coincidence, without thought and planning? Atheists should keep this in mind. Without meaningful planning there would only be chaos.

- *Man lacks humility!*

Man is too autocratical, otherwise he would never entertain the illogical thought that there is *no* GOD one has to be grateful for, for everything. If one becomes impatience one can easily do some damage! – I can well understand why you would like to push the wheel of progress forwards. However everything takes time – KNOWLEDGE and its dissemination also takes time.

4.2 Removing doubts (Transmission from the year 1971)

Well, the battle between GOOD and evil has unfortunately led to a situation where the CONCEPT of GOD has been put under pressure. Many people are already *ashamed* to openly enunciate the word GOD. No human being has up to now been able to provide evidence that there is *no* CREATOR. No human being has also ever been able to explain how CREATION came into being *without planning*. The incredible vastness of the universe, with the polymorphism of all life forms, provides man with an insoluble enigma that shocks him. However this is no reason to doubt the existence of a PLANNER.

- *GOD is the central, ingenious CONSCIOUSNESS that controls CREATION!*

Church religions are to blame that the concept GOD is now discredited. They have *humanised* the majesty of the GREAT PLANNER, not only in HIS appearance, but also in the way HE thinks and feels. A church god – the way he is depicted – does indeed not exist, because a church god is a *caricature* one can only smile about.

- *No human being is capable of making himself an approximate picture of the MAJESTY of the CREATOR.*

Man is curious and he is not fond of secrets.

However GOD is a mystery to you and will always remain a mystery!

Scientists are not happy about the fact that such a mystery confronts them. This is why they distance themselves from something they can neither fathom nor explain. This could only harm their reputation, because people assume that scientist should actually know this. To distance oneself from this mystery does not really provide evidence that there is *no* GOD. However the majority of the people interpret the stance science takes differently. They assume that the sciences have *abandoned* their search for GOD, because they have come to the conclusion that they will never find GOD, ergo, that HE doesn't exist.

What is also regrettable is the fact that church religions are incapable of ridding the world of the caricature image they have created. They make no attempt to provide their community with a *better depiction* of the CREATOR. They unfortunately also make no attempt to gain certain evidence that might help them do so. A direct connection to the spiritual realm does exist, namely spiritualism. However they fear this connection, because they are well aware that one can also reach the devil through this connection.

- *However he, who genuinely endeavours to find the TRUTH and who regards it as something sacred and worthy of protection, will be able to see the regions of the spiritual realm that GOD created for all enlightened spirits.*

What would you say if a car would drive passed you and the driver would say to you: “Have a good look, because this car completely *created itself*. It developed over centuries *of its own accord*.” –

You would assume that you are dealing with a madman!

- But deliberate for a moment and ask yourselves whether you are also dealing with madmen, because they insist that CREATION also came into being of it own accord!

4.3 What are miracles? (Transmission from the year 1964)

Well, the ungodly do not believe in miracles. Every miracle is either *a coincidence* or *a fairytale* to them. It is alleged that all miracles are devoid of natural-scientific evidence.

Is it really true that there are no genuine miracles? – I say to you that this opinion is very *superficial*! There are billions of *genuine* miracles and they can be observed everywhere. However because these miracles take place in huge numbers on a daily basis in front of our eyes, they have become so *self-evident* that they are no longer regarded miracles, but part of an implicitness we can't do without. The whole universe with all its stars and all its atoms is a series of miracles. It is arranged in such a way that every miracle produces another miracle and that one miracle cannot come into being or exist without the preceding one. The creation of human beings alone is a great miracle, well, actually the greatest miracle of them all!

- *Life, in its immense variety and polymorphism, is a series of miracles. However what you regard a “genuine miracle” is a deviation from the abovementioned implicitness, a deviation from the familiar norm.*

But why shouldn't there be deviations from the norm? – You can observe and *verify* this deviation with mutations. Nevertheless, you are not game enough to talk about a miracle in these cases.

- A mutation represents a leap from the familiar ORDER.
- A mutation represents a leap from the LAW that calls a new LAW into being.

However there are also illnesses that represent a deviation of the LAWFULLY determined norms. One does *not* talk about the miracle of a dangerous illness. Cancer is a good example of this. Cancer cells act outside any prescribed LAWFUL order. – They go *against* GOD and HIS PLAN. If a human being is now suddenly healed through a miracle, one does not want to believe such a miracle, because it goes against any (terrestrial) legally determined norm and against the general trend. One could basically call a divine miracle nothing else but a mutation. A leap from order in order to create order.

- *A REVELATION from the divine SPHERES is also an absolutely credible miracle. It is a "mutation" of the normal way of communicating.*

Why are the insights gained by the natural sciences not correctly applied? – One often hears: "Science is faced with an enigma." – Science *should not* be faced with any enigma. It possesses the opportunity of a correct explanation, because there are *no impossible miracles*. Every miracle is possible, that is to say, any leap from order is possible, even if these leaps are absolutely not commonplace and thereby not a part of the usual implicitness.

- *He, who insists that miracles do not happen, should rather ask himself the question of whether he exists at all!*

If he answers this in the affirmative, he must admit that *he himself* is a miracle, one that other people unfortunately do not rack their brains about, because overexposure **dulls the brain**. The fact that human beings can *think* and *plan* at all is an even greater miracle. It is man's divine PARTIAL-INHERITANCE.

Man balks at the idea of a hereafter. He's unwilling to acknowledge such a realm and also unwilling to regard it a miracle. But the hereafter represents a parallel to the physical world, only the fabric (within) is different (non-physical). The soul is the same here and in the hereafter, it only changes its *character*, it only changes its good and evil intensions.

- *Every human being can perform a miracle by bringing about a POSITIVE mutation within!*

4.4 Can GOD'S existence be verified? (Transmission from the year 1970)

Well, mankind has been yearning for millennia for a higher ENTITY that reigns over everything. All quests seemed to be in vain, because GOD is not visible. Should the existence of the CREATOR of the universe simply remain an unrequited yearning?

The greatest philosophers and theologians have dealt with this question that must surely be *the most important question* man can ever ask. Unfortunately not enough information has come from this quest to convince mankind of GOD'S existence.

But this is due to an error of judgment, of observation.

The moment one tries to comprehend GOD or explain HIM, one deals with something that is INEXPLICABLE. Nobody will ever succeed in explaining GOD the way one *usually* explains other things. This means that GOD *cannot be objectively* verified. This assessment has unfortunately led to atheism. However this is certainly not the last word on the subject.

- *But GOD can certainly be verified subjectively.*

There is no doubt about that and this is why one should stick with this conclusion. This subjective evidence *is man* and we are not dealing with his bodily functions, but his *spiritual* EGO, man's personality that has its origin in GOD'S will. The unsophistication applied trying to avoid this fact is absolutely astonishing. The sciences are still dealing with the theory of apes and at the same time admit that there must be other humanities on planets in other star systems.

What a contradiction!

There are naturally coincidences to be found in nature. But it is absolutely insane to ascribe all of CREATION to trillions of coincidences. Every one of these "coincidences" is so planned and meaningful that one coincidence could not have come about without the one that happened before. It is therefore a *planned interplay* that has nothing to do with one or more coincidences. This is why there is no better appellation for GOD than: "THE GREAT PLANNER."

- *One does not necessarily have to personally come face to face with an inventor in order to assess the geniality of a great (terrestrial) planner; it suffices to see his works. The same applies to the GREAT PLANNER. HE is the sentient, planning CONSCIOUSNESS of all of nature.*

This CONSCIOUSNESS is not tied to physical matter the way man's consciousness is also not tied to physical matter. However GOD'S CONSCIOUSNESS *controls matter* the way man's consciousness *controls his own body*.

It should therefore be a case where mankind on Earth supports the GREAT PLANNER, but this is unfortunately not always the case. Mankind tends to attack the PLANNER and act *against HIS WILL*.

The Earth could demonstrate a completely different level of development, if people had a more positive attitude.

People wage war against one another in all corners of the world. However it would be more important if people were to make a point of recognising their *real* enemy. Evil must be eradicated! – Positive thinking young people must die instead. This verifies that the people on Earth are incapable of really deep cogitation.

- *Nothing is easier to verify than GOD'S subjective existence!*

4.5 The great evidence of GOD'S existence (Transmission from the year 1963)

Well, man on Earth deals with the important question *every once in a while* of whether there really is a GOD who was there at the beginning and who is without and end. Even atheists are troubled by this question and it matters not whether they live in the deepest jungle or on the high seas, whether they live in a hut or in the hubbub of a city. Man agonises over thoughts of death, the dissolution of his physical body and the uncertainty of what really lies beyond.

Due to the fact that this question continues to come up, well, that it does not make an exception with anyone, that is will deeply trouble every human being at one stage, even the greatest thinkers, philosophers and theologians, also scientists and kings have contemplated this question. Evidence of GOD'S EXISTENCE were sought and apparently also found. But even the best evidence of GOD'S EXISTENCE always leaves open a *second probability*. This has driven many a speculator insane before now. Well, I am prepared to help you in this regards.

The assessment to begin with: Can GOD be verified or not? – This is what you would like to know.

To continue: What measures and means are required to achieve a positive result?

- *Safe and sound EVIDENCE of GOD can only be furnished through irrefutable logic, that is to say, with a well-informed acceptance that does not leave the slightest of doubt to remain.*

Even GOD draws your attention to it by reminding you that the Earth is like a speck of dust amongst the stars in the universe. Therefore the mind of a child⁴ would suffice to ascertain without doubt that there are far GREATER THINGS than a terrestrial existence.

- *The, for you, unfathomable vastness of the universe is one piece of evidence of a divine EXISTENCE and GRANDEUR.*

No animal is capable of either apprehending or comprehending this vastness. No animal throughout the whole universe is looking for evidence of GOD'S EXISTENCE. However man, in his divine *similarity*, is the exception. He is able to comprehend parts of the universe and he looks for DIVINE EVIDENCE. Apart from GOD and HIS ANGELS, he is the only creature that can utilise his own mind as a yardstick. There is only logic and it does not allow any other possibility of interpretation, that is to say, it does not allow one single doubt to remain. Measured with this yardstick, GOD is *unmistakably existent* and absolutely comprehensible. The formula is:

- *Every human being on Earth is proficient, if of good will, in recognising EVIDENCE of GOD'S EXISTENCE within.*

Every individual human being in search of this evidence must be *brought up* and *educated* with all possible means so that he is capable of making the best use of his mental capacities. It therefore *doesn't* require a formulation of how GOD came into being or how HE works and exists, but only the correct *preparation of human logic* so that on hand of all available examples the universe offers in such an enormous copiousness, man can reach the incontestable conviction that all of this evidence are absolutely adequate.

⁴ See CHRIST'S WORD: "You must become like little children."

- *Only logic and the objective application of this logic in regards to the existing universe is the only reliable tool that can provide EVIDENCE of GOD'S EXISTENCE.*

Every human being that *doubts* GOD'S existence has not reached a point in his spiritual development where logic reveals everything. This has to be remedied. However some doubters will then ask: "Where does GOD live and reign?" – GOD has rightfully and with objective logic selected the by far greater and immortal part of the whole universe as HIS domicil. I am naturally talking about the spiritual realm wherein HE reigns as a spirit!

4.6 Questions and answers

Question : Why is the spiritual realm unable to provide us with a *visible phenomenon* in order to completely and *explicitly* convince people of GOD'S existence?

AREDOS : If GOD would personally show HIMSELF in all HIS GLORY, the Catholic priests would be the very first to say: "You have seen the devil in his negative transfiguration." – Nevertheless, little phenomena are continually shown, like for instance the case of the church tower in the Nowolipki St, in Warsaw.

(There was one building left standing in that field of the razed down ghetto, pointing its blaming finger to the sky, it is this church, originally left in the middle of the Jewish ghetto for those Polish-Jewish families who accepted the Catholic religion as part of assimilation process, part of being what they thought of as "genuinely Polish".)

Question : Mankind is looking for irrefutable evidence of GOD'S existence that the sciences can *absolutely accept*. Is the spiritual realm familiar with such a formulation?

AREDOS : It actually does not need a formulation, because the present CREATION is evidence enough. A CREATION cannot simply establish itself from within, it must be planned and it also requires the application of experiments and experience.

Question : Religious uncertainty reigns on Earth. Everybody is asking for evidence, because one lives in a world of lies. What can one say if asked about life after death?

ARGUN : This question alone smacks of dullness. If there is physical matter, it can *never have been created of its own accord*, especially not in such a *well ordered* and deliberate manner. Every act *bears witness to* and *verifies* the existence of a PLANNER and CREATOR. This is one LAW that cannot be refuted.

Question : You said PLANNER and CREATOR. Is there a difference?

ARGUN : GOD is the PLANNER, but *not always* the CREATOR. HE obviously established an unimaginable HIERARCHY for the construction of CREATION. The greater the works, the larger the "factory"! Such a great works could never come about without a great number of co-workers. – The same applies to the great CREATION.

Question : Is GOD *not* the SOLE CREATOR of all things?

AREDOS : That's right. HE also needs helpers. The human races on many other planets are also HIS assistants, respectively co-creators. But GOD is the HEAD, let's call Him "the

boss”, in any case. HE is the PLANNER. There is nowhere a greater sign of GOD’S existence than *all of you*. Who else could have created mankind?

Question : Has one MESSENGER of LIGHT amongst you ever seen GOD?

Answer : No, but that doesn’t mean that one should doubt HIS EXISTENCE. All *positive* souls know that GOD exists anyhow.

Question : What do you regard as evidence for this?

Answer : Firstly our own existence. If we live a spiritual existence it must naturally follow that GOD also exist spiritually or in a similar fashion. However if you on Earth do not even believe in our existence; it should come as no surprise that you also doubt GOD’S existence. If there are no spirits, there can also not be a SPIRIT of GOD, this is the frivolous way one thinks here on Earth. – Secondly, the fact that we come in contact with ANGELS and this must surely be regarded as wonderful evidence.

Question : And this evidence gives you the energy to help the people on Earth to gain an insight?

Answer : That’s right. We cannot fathom the expansion the MIGHT of the SPIRIT is capable of. We, who are engaged in *this* assignment, only hear about events that take place in our immediate surroundings und within the circumstances of our *own* sphere of activity. We do not know and we cannot know whether our endeavours have the effect we have in mind. However we want to continue our work in spite of this and help wherever we can, even though we sometimes wonder just how many or how few ever sense what we do.

However THOSE that hold the strings in their hands, THOSE that encounter one another in harmony from time to time, know through various means the resulting reaction *in all parts of the world*. THEY are the ones that can gauge the depth of the effect of what we have done.

Question : There is an author who alleges to have seen GOD personally?

ARGUN : No, that is not possible. GOD can only be discerned in the hereafter. This author saw an ANGEL whom he believed to be GOD because of the ANGEL’S august glory. If GOD had shown HIMSELF to this author, GOD would no longer be a just GOD. There are unfortunately a great many things bandied about and fantasised about our “dear GOD”.

Question : Can GOD appear to an *otherworldly* soul in “person” as it were?

ARGUN : GOD has HIS REPRESENTATIVE, that is to say, HIS SONS HE placed throughout the universe.

- *However GOD can appear to an otherworldly human being in HIS true, spiritual form and speak to him. But this is an exception, because HE has HIS ANGELS as HIS MESSENGERS!*

GOD is not an old man with a long flowing beard, but HE does sit in HIS PLACE the

way children are taught. GOD has HIS DOMICILE and HIS GAZE reaches just as far as HIS POWER – and it is *unlimited*.

The heavenly HOST, the ANGELS have substance - and so does the LORD. *The human soul*, made in GOD’S image, and physical, terrestrial man possess HIS FORM. However terrestrial man unfortunately bears the signs of the negative, because he has self-inflicted this on himself.

- *Be content about the fact that CHRIST extricated you once more from the spheres of damnation, otherwise you would not live on this Earth.*

Question : Is it true that the word “GOD” can actually not be spoken out loud often enough, because doing so allegedly heightens one’s VIBRATIONS?

ELIAS : The word “GOD” is certainly of profound importance. But if a word is *meaninglessly repeated over again*, it is *without* meaning, therefore without VIBRATIONS, the way you mean it.

- The word “GOD” should only be used from *deep within one’s heart*.

Question : Will something positive happen in regards to spiritual insights?

ELIAS : Due to the fact that the sciences have already made great strides and only a few doors remain to be opened, progress will also come about in these fields of knowledge. The sciences presently do not know where it will lead them, but from Alpha to Omega, they go around in circles until they realise that one more step will take them into nihilism. They will *have to* accept that a great PLANNER stands *behind* CREATION.

Question : The enormous upheaval of our times brings forth a lot of psychic messages. Some of them, as you are well aware, are so *alarming* that we are unable to make sense of them applying our entire mind. It seems that an otherworldly soul pursues a specific intent?

ARGUN : Oh, yes, but this will probably always be the case.

Objection : But this is very discouraging!

ARGUN : Oh no, because something can be *learned* from this! – Man *should learn to appreciate* the TRUTH and GOD’S WORDS of LOVE from these mistakes.

Question : In your religious instructions for us, you are ahead of us in every respect. How were you instructed about GOD’S personality?

ARGUN : *GOD’S POWER is a positive dimension.*

- *GOD is a personality and HE has spirit form.*
- HIS INTELLIGENCE is the sum of experience of the whole universe, including all memory processes of *all* universal humanities.
- HIS SENSES are *unlimited*. This allows HIS PERCEPTIONS to encompass infinity.

- GOD is at the disposal of *every* human brain and every activity of the brain!

Objection : Dear ELIAS, I sometimes feel that our mission is just a drop of water onto an enormous, hot stone.

ELIAS : It is a seed that *slowly* geminates, but when it does eventually unfold it will display a wonderful blossom.

Question : Do you believe that from all of these wonderful indoctrinations, some will remain intact for mankind's future?

Answer : We are still at the beginning of our endeavours. But I do admit that in spite of this, we have managed to cover an enormous distance along the way. In our conjoint effort we certainly touch upon some formidable and profound problems anyway. –

We are all parts of the GREAT PLANNER. Separated from the unit life represents, the GREAT PLANNER would be non-existent and for as long as there is life, GOD will also live. This is certain!

Question : Many people believe in a personal GOD *in human form*. What can you tell us about this?

Answer : The number of people trapped within a rigid, orthodox faith is *continuously diminishing*. The number of those that bring *new* insights to these circles is *steadily rising*. This is a part of the unstoppable influences of evolution. There are naturally still a great number that, due to their particular psychological state, will not change and continue to bow to the pressures of strict formulas. They are certainly not the majority. On the contrary! Their numbers have increasingly *diminished* over the last 50 years or so.

A healthy spirit of renewal is at work. *Progressive* insights make the old images and concepts of a personal GOD *disappear*. All new knowledge in regards to the size and extent of the universe, the vital life contained within in and the discoveries of RAYS and VIBRATIONS beyond your scope of vision have completely changed people's ideas about religion.

Nobody believes the old concepts of heaven and hell anymore after the sciences have discovered a world of *four* dimensions. We have sided with the winners, because the TRUTH is with us – and it will be victorious!

- You must however be vigilant in regards to those that approach you, because their feigned willingness to accept your doctrines *hides their insincerity*. They are trying to take the wind out of your sails in order to resurrect the old theology.

The living SPIRIT, in its radiant beauty, must be disseminated. This however requires instruments (mediums) that may be able to give the SPIRIT'S faculties expression.

- *Once a soul has been touched by KNOWLEDGE, it can never ever distance itself from it!*

Your world has never received a better offer than is the case here. Come forth and refresh yourselves on the source of the OBJECTIVE TRUTH and share in the miracles of infinite wisdom. – The supply is inexhaustible!

Nobody should suffer from the illusion that they are able to counteract the power of the SPIRIT. Antiquated laws and bans may be quoted, the police and courts may be appealed to, but *nothing, absolutely nothing can prevent the revelations of the SPIRIT*. Many have already been affected by its beneficial healing and guiding influences and they are prepared to suffer the consequences, whatever they might be.

The POWER of the SPIRIT shines down on you in innumerable ways. What originally began as a trickle has already turned into a mighty stream, well, actually into an ocean that will sweep away everything still in its way.

- *Continue sedately along your journey!*
- *Trust the POWER that contains everything. It will be the equal to all the forces of resistance.*

I continuously proclaim that the ETERNAL PRINCIPLES cannot be affected by past, present and future events, because they are *a part* of the eternal REALITIES, which are based in the effectiveness of GOD'S unchangeable LAWS.

The KNOWLEDGE is yours and this makes you *strong* and it bolsters the way you make your decisions. You can look to the future without fear and with courage, because you know that you disseminate the TRUTH!

5. GOD and us human beings

5.1 The veneration of GOD (Transmission from the year 1963)

The unimaginably eminent personality that is GOD naturally demands great veneration. One tries to do justice to this demand here and in the hereafter. The souls in the hereafter are closer to GOD'S SPIRIT and therefore employ a *completely different form* of veneration. For you here on Earth GOD *seems more distant* to you – unless you actually doubt HIS EXISTENCE. On Earth, that is to say, in the here there is therefore a completely different form of venerating GOD. It now depends on which form of veneration is the right one.

I am going to tell you something in regards to this:

Almost all souls that arrive in the spiritual realm bring *the form of veneration* they exercised on Earth, *with them*. There is however very little they can do with it in GOD'S realm. They will be unable to make any headway if they stick with their old habits and if they do not make a *completely new* start in regards to loving and venerating GOD. This explanation clearly shows that the religions on Earth are *not* okay.

- *Religion does not equate with faith, but veneration based on faith!*

GOD does not demand bigotry, it *offends* HIM. HE simply demands *normal* behaviourism from every human being, no matter where they are.

But what is actually normal in this case?

- *As GOD created man as a human being, only the things that are human are therefore normal.*

Man is not a super-being. He therefore does not have the right to behave like a super-being or *inhumanely*. Man already deviates from these commandments in his day to day existence. He deviates even more so if he wants to be devout or if he adopts a church religion. For thousands of years the priesthood has devised some kind of theatrical performance. Church and religious traditions adhere to these theatrics with an iron will, one is of the opinion that one does man a favour so that he can experience some kind of rapture.

- But I say to you that this behaviourism is *neither* instrumental in bringing about your redemption nor will it help you progress one single step in the divine DIRECTION. GOD is your FATHER, HE is the FATHER of us all! HE can therefore only be approached in HIS role as a FATHER. HE can only be venerated and approached in HIS role as UNIVERSAL FATHER.

What would a father here on Earth think of his children, if they were to give him the same theatrical performance that is common practise in church? He would have to think that his children have suddenly lost the plot. The assessment of the souls in the hereafter isn't all that different when they *observe you*. However we are tolerant, because we also participated in the same cultic behaviourism in the past.

What should actually take place in church? – Naturally nothing that is different from what takes place in the LORD'S realm. All that's required is beauty, perfection, purity and harmony. Everything else is *superfluous*. The constant repetition without variety or without progressive change is something terrible. Your churches and temples always follow the same traditions. Everything takes place under ancient guidelines. The devotee is bored to death. He regards all of this ado as utter nonsense, but out of respect he is not prepared to revolt against it. The *more normal* you would behave as human beings, the more progress GOD would be able to see in you. However irrevocable traditions and theatrics do not lead a human soul into the paradise of HARMONY.

- *The VENERATION of GOD is an affair of the heart and it hardly needs to be expressed in public!*

5.2 Questions and answers

Question : The bible tells us that GOD alone has dominion over man, that HE decides what will happen to man. Is this correct?

Answer : GOD is your CREATOR and your FATHER.

HE knows all of HIS children by name.

HE knows their character, their will, their ambition, their malevolence, their rationality and their irrationality.

HE determines where HIS children are to live and it is immaterial whether they live in the spiritual realm or in Lucifer's domain.

The realm HIS children would like to live in is determined through their own behaviourism!

GOD'S realm is a *clean* realm and HE will not allow any of HIS children to enter if they have characterised themselves through laziness, idleness, malevolence or through any other bad habits or bad behaviourism, it matters not whether we're dealing with workers, professors, theologians, politicians, artists etc.

- *GOD tests the heart and not school knowledge!*
- Be like children, but be *good* children!

GOD does not have to do everything by himself to carry this out. HE has an enormous ORGANIZATION for this and it acts on HIS BEHALF and in HIS NAME.

GOD as UNIVERSAL CONSCIOUSNESS can think ahead to an unimaginable degree.

Question : Does GOD worry about our conditions here on Earth or does HE have a completely different function?

ELIAS : GOD is naturally informed about *every single detail* within HIS CREATION. But HE has HIS ANGELS for support. These ANGELS also take care of the people on Earth. GOD naturally has HIGHER TASKS to perform and there are *no* deputies that can take care of those.

GOD'S ANGELS are of the highest PURENESS and INTELLIGENCE. However whatever THEY do is always thwarted by the followers of the great antagonist. Many people who live on Earth are also followers of the antagonist!

5.3 The direct path to GOD (Transmission from the year 1962)

Well, the religious denomination a human beings feels attracted to is completely irrelevant!

- However what is of importance is that he feels *drawn* to GOD from within an *inner* compulsion.
- What is crucial is that he *seeks* his CREATOR!

There are innumerable ways that are supposed to lead to GOD. Every religious denomination asserts that it *is the right one*, ergo the only passable path. I say to you my dears that all of these paths are *immaterial*, because there is *only one single* path to GOD. It is the *direct* path, one without one single bend in it.

You would now like to know where this path is to be found.

One has to travel one way or another. But this doesn't apply to this spiritual signpost. One can't just simply wander this path that leads to GOD and one can't just go for a walk on it. It is much

more about a direction one has to *search* for GOD. It is therefore all about a turn around in one's present life, of one's habits, thought processes, feelings and actions. Human beings however are very phlegmatic, they avoid all unnecessary efforts and always look for the path of least resistance.

- *All souls that happen to believe that they have been redeemed through CHRIST'S blood will suffer the greatest of disappointments!*

These souls travelled *the most crooked* of all paths, because they demand something that is really illogical and also impudent. A misjudgement in regards to GOD'S mercy! Man also does not pardon all criminals and simply let them loose on society again.

- *Without atonement, that is to say, without improvement, no soul reaches a higher, respectively a more pleasant sphere. This is why it is of a subordinate importance to which religious denomination a soul belongs to. All that is of a decisive nature is the quality of the soul. But the quality of the soul depends entirely on the individual's behaviourism.*
- Every human being bears *their own responsibility* in regards to the purity of their own soul!

But what is the point of keeping a soul pure, if it enters an "eternal sleep" situation with its body after its demise?

Herein lays the mistake of temptation!

Like the soul of ARCHANGELS, the human soul is also *immortal*. It is a SPARK from GOD that can *never* be extinguished. This is why, after its physical disembodiment, it is *reborn* in a new garment that is subject to other LEGALITIES.

- *This is the moment where man reaps the fruit of his labour!*

A *soiled* soul receives a *soiled* garment. By the same token, a pure soul receives a pure garment, something that is available in all graduations, according *to merit*. The soul has no opportunity to change its appearance in this state. Neither a tailor nor a beautician can change the way it looks. It is a *visible indicator* of what somebody's soul looks like. This garment can only be altered if the soul that wears it also alters. When the soul becomes purer and more beautiful, its *external appearance* also changes.

- This is why all those that have *already* made a start, by *seeking* the direct path to GOD whilst here *on Earth*, have an advantage.

5.4 Questions and answers

Question : Atheists doubt that there is a GOD with a *personal* CONSCIOUSNESS. Can this question actually be answered?

Answer : Yes it can, but this CONSCIOUSNESS has *many* embodiments and it does not have a phase of being or activity *outside of* GOD'S vision, because the natural LAWS automatically include *everything* within the whole universe.

There are no phases of movement, of VIBRATIONS, of animal, vegetable, human or spiritual life that are *not* regulated by divine LAWS. There is no discord in the universe. An unimaginable, bodacious harmony reigns there on an enormous scale. Once you have the key to the TRUTH in your hands that will open the door to understanding, it will be very easy to comprehend that the UNIVERSAL LAW controls and directs everything.

THIS LAW IS GOD! – GOD IT THE GREAT LAW!

Question : So many terrible things are happening in our world that atheists say: “If there was a GOD, HE would not condone this situation. HE would put a stop to it. But as this doesn’t happen, there cannot be a GOD.” What do you say to that?

ELIAS : GOD is the LAW! – A LAW is enacted and it dictates. But the LAW does not act on its own, it has its ENACTORS to do so. These ENACTORS are in the spiritual realm or they come to you in so-called UFOS.

- *However, this LAW comes into full effect for the individual only after an incarnation. Every soul receives exactly what it has earned during the course of time!*

Question : Does GOD also have to deal with coincidences?

ELIAS : *There are coincidences*, but there are *also* foreordinations one might *erroneously* regards as coincidences. Even GOD had to deal with one or more coincidences in the past. When they eventuated, GOD decided to include them in the divine PLAN. They form a part of HIS EXPERIENCES. If a coincidence is positive, it will be acknowledged and handed on.

5.5 GOD’S LAWS are not commandments (Transmission from the year 1957)

GREETINGS in the NAME of GOD! – One’s actual existence does not solely consist of movement, but rather more of thinking and comprehending. *Perceptions* can only be taken in on a SPIRITUAL LEVEL. *The senses* are only there to promote the contact between body and soul. It would be senseless for man to see something that he could not comprehend. These things are channelled towards the soul through the nervous system and the brain, which is then able to comprehend them to a higher or lesser degree.

This is how things are looked at and how a lot of knowledge is taught.

However man is not always capable of comprehending these things. A great thinker or researcher might at times, well actually quite often, no longer comprehend all the knowledge that was *drummed into* him, because he is unable to separate what is correct and incorrect.

- Most people are incapable of differentiating between TRUTH and deception. They believe the things that mankind in general is being *fed as a staple diet*.

If a nation feels compelled to reject the belief in a personal CREATOR, millions of people are unfortunately also induced to do the same. – When a nation goes to war, other nations follow suit

because they don't want to be excluded from such enormous events. – However when a normal mortal being climbs a mountain in order bring down GOD'S COMMANDMENTS from on high, one does not believe in a higher MESSAGE, but one forms the opinion that these COMMANDMENTS must surely come from this normal mortal being. – Every human being, right from early childhood, is used to receiving all commandments, indoctrinations and admonitions from living and breathing human beings and all *books of wisdom* are written or printed by living and breathing human beings.

This is the measuring stick man also applies to GOD'S LAWS and COMMANDMENTS:

GOD'S COMMANDMENTS are intelligent and the receiver of these COMMANDMENTS was undoubtedly also an intelligent human being. Could he not have found the same words with good will and intelligent deliberation? – Would GOD'S COMMANDMENTS not have to be much, much more intelligent, more sophisticated? Would every human being reading or listening to such commandments know straight away that: No terrestrial being can talk like that, only GOD can? – When GOD has something to say to us, every conceivable doubts would have to disappear, because GOD is that super-intelligent, powerful CREATOR of the universe and no human being is capable of imagining HIS INTELLIGENCE and HIS MIGHT. – However, how completely different the reality is...

- *GOD'S COMMANDMENTS are so simple! – HIS WORDS are the words of every uncomplicated human being.*

The great GOD thinks and talks like the average citizen? – Would this not give one enough reason to express some kind of doubt? – On the contrary! A terrestrial poet or professor of natural sciences speaks too *pompously, mysteriously* and *incomprehensibly* for the man in the street and if those so cramped full of complicated knowledge do not believe in GOD, one naturally has to give credence to these “experts” of creational science. These people are credible, wise and super-intelligent in your eyes and, judging by GOD'S simple WORDS and COMMANDMENTS, GOD is *not*?

But I say to you in the name of the only GOD in the universe:

- *GOD'S LAWS are not commandments!*
- *You received your common sense from the FATHER.*
- *You have a soul that enables you to comprehend!*
- *GOD'S LAWS are very simple. They are only complicated to those that want to use them for their own means.*
- *GOD'S LAWS are even simpler! However they are incomprehensible to the disobedient!*

5.6 Question and answers

Question : Man fights a constant battle against Mother Nature. This situation makes one believe that man can also fight his fellow man, if man assumes that he is the stronger. This is why one tries with all available means to acquire power in order to use force. Is the archetype Mother Nature provides us with authoritative, as GOD and Mother Nature are supposed to be identical?

ELIAS : Man rates *higher than Mother Nature*, but never higher than GOD! Man sees something self-evident in Mother Nature, something that does not require an INFORMER. But the law of the jungle reign in nature.

This is where a grave mistake is made: Mother Nature is something that is *purely physical!* It represents a *concrete* concept that is *unfamiliar* with characteristics like kindness, trust, mercy and considerateness. – GOD on the other hand is an *abstract* concept, but one that *possesses* all of the above characteristics!

Question : Does the philosopher Spinoza bear some responsibility that GOD is disowned to such a degree all over the world?

AREDOS : Spinoza came up with the idea of an *impersonal* GOD within all of CREATION (pantheism), but Spinoza interpreted his own ideas radically differently from the way society *conceived* them. He was *misunderstood*, because he didn't manage to express his thoughts and feelings *more meaningfully*. He lacked the gift of communication.

Question : Can you tell us what Spinoza was actually trying to express? What I mean is the crux of his theory.

AREDOS : To begin with, Spinoza wanted to emphasise that a GOD, the way the bible and particularly the Old Testament depicts HIM, does *not* exist in any case. He wanted to express that GOD represents a far higher INDIVIDUALITY that one assumes. – He was correct in this respect.

Spinoza was aware that without a GOD, chaos would reign throughout the universe. He knew that no universe would exist or could exist without GOD. This is why he emphasised that the divine PRINCIPLE *was present everywhere*. But he was *unaware* of the fact that consciousness and perceptions are cosmic FUNCTIONS! He could therefore *not imagine* that GOD has HIS *own* CONSCIOUSNESS and therefore awareness of HIS own existence.

Objection : If someone continues to think along analogue lines, he is naturally unable to comprehend GOD.

AREDOS : Yes, quite correct, that's how it is. The comprehension of the true existence of GOD is only possible to those that already possess the required maturity. It isn't just the matured intelligence that plays a part in this regards, but *the complete spiritual demeanour* of an individual, because when a human being is thoroughly good, through and through, and highly developed into the bargain, he will continue to think along analogue lines and will thereby gain full GOD realisation.

You will find such an example in CHRIST. HE also contemplated things in more detail of HIS own accord. As GOD can only be the superlative of man, man comprehends that GOD can only represent the superlative, MOST EMINENT DEVELOPMENT of an INTELLIGENCE that can never be physical, but certainly more spiritual. This eminent insight connected Spinoza with the CREATOR!

Question : There are messages from the hereafter that are supposed to originate directly from CHRIST; these particular messages assert that HE was here on Earth *as GOD*. How is

it possible that this has crept in, as the rest of the content of these messages are of a high standard?

ARGUN : Well, have a think about it: To allow GOD to bleed to death on the cross, respectively on a gibbet for criminals, through man's wilfulness and evil action, would constitute evidence that man's power on Earth would have been *greater* than GOD'S MIGHT. Therein lays the whole blasphemy.

This however is the insurmountable cliff that *individual mediums* and their strong dogmatic attitude represent. No MESSENGER of LIGHT is able to break through this obstinacy – specifically if the messengers are *only being inspired*.

- These individual mediums were *unable* to establish the required protection *without* the guidance of a circle and there was *no* prospect of control by a third party.
- *This is why a good working circle is always an advantage!*

One is aware of this in England, in America, in Switzerland and everywhere where *genuine* communities have come into being.

- *CHRIST dictates HIS messages only to his spiritual MESSENGERS who live with HIM in the spiritual realm.*

“GOD'S VOICE”⁵, the way you received it, is also just *a transmission* through one of CHRIST'S MESSENGERS.

The SANTINER are also entitled to speak in GOD'S NAME. They are HIS PEACEKEEPERS. They are there to take care of order and harmony.

Question : Due to the fact that man always works with *physical concepts* he also looks for GOD in a physical form. Is this why one turned CHRIST into GOD or the SON of GOD?

ELIAS : Yes, this is correct! – Something that thinks and acts *purely spiritually* and autonomically is difficult to imagine. Astral projection, telepathy, telekinesis and teleportation in connection with living human beings are conceivable. However the reality is the exact reverse.

- Organic life can only function correctly through the autonomous, disembodied existence of the EGO. Meaningful physical activities are impossible if the autonomous spirit does not control the body through its consciousness.
- The spirit can manage very well *without the body*, but the body cannot exist without the spirit!

It is imperative that the sciences take note of this basic formula. One can also not endow GOD with a body HE absolutely does not require at all!

Question : Atheists say that there cannot be a GOD, because cruelty is tolerated in our world. How do you see this?

⁵ See brochure “THE CREATOR”

ARGUN : GOD knows that man sins, but HE loves him *just the same!* HE certainly isn't cruel, only just.

- *Catastrophes often arise from man's free will.*

Question : Why does GOD tolerate all that suffering here on this Earth?

AREDOS : Mankind brings this suffering *upon itself!* – Mankind must continue to be confronted with problems so that mankind is forced to *contemplate* all this suffering. This is the only way most people find out at the end of their terrestrial existence that GOD and HIS REALM *do exist*.

Question : Many people are of the opinion that there is no personal GOD, because He obviously *allows* evil things to take place. What can we tell these people?

AREDOS : Where does their information that GOD *allows* evil things to take place come from? – Good things take time. GOD does not retaliate with war and crime. GOD removes evil solely through HIS great LOVE.

Question : GOD and CREATION are often criticised. One blames GOD for all kinds of mistakes – if HE actually exists. What is your opinion to such an attitude?

AREDOS : Based on our own experiences and insights, which are not only scientifically supported, but also through *personal experiences*, as surely as the sun shines down on you, I can say:

- *No human being upon your Earth is so logical, so perfect in his thoughts and above all so extremely forward-looking and wise, so experienced and without prejudice, that he would be in a position to give a just criticism of GOD'S hotly debated EXISTENCE and HIS LAWS of CREATION!*

Even the thought of such a possibility is already the height of blasphemy. Mankind on Earth tries something improbable with this attempt and exposes an egotism we find impossible to comprehend.

Question : Would it be possible to exist *without any BELIEF* in GOD?

AREDOS : An individual existence *without GOD* is *impossible!* The proof lies in wars, intolerance and in destruction. The worldwide enslavement of mankind would be the result. However if this mankind were to *entertain* direct contact with GOD, all of these events would be impossible.

Question : If GOD is *really* almighty, HE should really prevent wars.

ELIAS : Why did GOD endow the people on Earth with sufficient common sense? – Why should GOD do something *human beings* could do? – GOD does *not* work according to your plans!

Question : Almost all nations entertained the idea that they had GOD on their side, because they

allegedly fought for a just cause. Does GOD really stand at the side of a nation?

Answer : HE does not allow any nation, no matter how just its cause, to imagine that the GREAT SPIRIT sides with one side or another.

- GOD is the LAW! – If you do what is *right*, you *automatically* put yourself in harmony with the effects of the natural LAW.

There is no inducement to create an augmented *human* “deity” that calls upon all the POWERS of the universe to help you in your hour of need. A lot of spiritualists are unfortunately of a similar opinion that does not necessarily exclude the existence of a personal GOD. When I say “personal” I mean personal in a *human* sense.

5.7 Peace across all frontiers (Transmission from the year 1968)

Well, peace comes from GOD and *not* from people. It is therefore impossible *to come up with* an idea that can bring about peace. Any attempt to solve this problem is a pure waste of time. All existing philosophies must end up in chaos, if they were developed *without* acknowledging GOD’S existence.

Well, if mankind on Earth is incapable of believing in GOD and HIS HIERARCHY in the appropriate manner, there must be something wrong in the exiting faith in GOD. People sense this intuitively and therefore react with rejection. The major churches are unfortunately incapable of recognising the cause for this rejection, that is to say, the cause for atheism.

Well, as a MESSENGER of the LORD I say the following important words to you:

- *Your belief in GOD, the way your churches have taught it to you and defended for thousands of years, is wrong!*
- *This fact brought about a situation where GOD’S antagonist has been able to put his terrible intentions into action step by step and this for thousands of year.*
- *Mankind on Earth does not strive towards the LIGHT, but towards darkness instead!*

GOD, as limitless SPIRIT, is not a human being, not a conjuror and certainly not Father Christmas. GOD’S unimaginable MAJESTY has neither been recognised nor appreciated by the people on Earth at all. GOD is *not* a human super-being.

- *GOD is an intelligent, cosmic FORCE!*

Enormous spiritual FUNCTIONS are not reflected in man. This is why it is a biblical aberration, when one looks upon GOD as a *human* being or if one regards man to be created in the *image* of GOD. To attempt this is pure blasphemy. – However the LORD *has* a MIND, a CONSCIOUSNESS and all the SENSES, well, beyond that many thousand SENSES *more* than man.

- Do not search for peace *without* GOD!
- When the churches fail, *common sense* must be victorious just the same!

One should actually assume that academics possess this common sense. This is why it is the assignment of the sciences *to recognise* and *to eradicate* the errors within the existing religious doctrines. This reformation of the human thought process may not take place with disrespect and scorn in one's heart, but solely through sacrosanct TRUTHS.

- *GOD is spiritual and this is why the TRUTH is also spiritual.*
- Physical matter is not the only tangible reality, but all other matter that is immortal and imperishable certainly is.

Many positive people contemplate peace. All of this thinking *is useless* if GOD'S MAJESTY is completely ignored. The sooner mankind gains the TRUTH, the sooner all possibilities of a peaceful co-existence open up.

The following sacred words are still valid:

“PEACE ON EARTH AND HAPPINESS TO HIS PEOPLE.”

Atheism is the way of the antagonist, it *never* leads to peace!

6. GOD'S ORGANIZATION

6.1 GOD'S HELPERS (Transmission from the year 1959)

Experts assess the spiritual world, their findings indicate that they might be dealing with the subject, but that they hardly know anything about the TRUTH. There are cooks whose cuisine is their very profession, but whose dishes *still* have no taste and then there are laymen who produce *outstanding* dishes that are also very healthy into the bargain.

But woe if a nameless, an unknown publishes higher insights, insights that *contradict* all previous theories and definitions of empirical science. In such a case, every outsider is accused of unpardonable lack of knowledge, because they lack a university diploma.

- *A poor cripple could quite possibly see one of GOD'S angels in his greatest hour of pain, but nobody will believe him – because he is not the pope!*

This world judges wrongly and too harshly, so that the apparent truth deceives.

There is not one area where the weeds of erroneousness do not grow exuberantly, but the defenders of knowledge dare not touch these stinging nettles; they don't want to be stung. However the little guy, the lover of unadulterated nature, knows how to deal with this weed and if he does get stung he is not worried about the blisters.

You should therefore not be surprised that any knowledge of a far GREATER WORLD than yours

has progressed so slowly. Knowledge can be equated with fungi: They grow in the forest, some are mushrooms and some are toadstools. It has happened that one collected the wrong fungi by mistake and people have become very ill or even died. Because of events like these, some people cry out: “For goodness sake, stop eating mushrooms, because they are all *poisonous*! Even if one knows them all, how can one be sure that one will not die?”

The messages from the spiritual realm are like these “fungi”, they are very much alike, the good ones and the poisonous ones. One has to be an experienced “fungi collector” if one wants to separate the genuine MESSAGES from the apocryphal messages. But this does not to authorise anybody, neither priest nor scientist, to assert that *all* messages from the spiritual realm are demonic or false.

- If the spiritual realm did not provide the people on Earth with billions of spirit GUIDES and HELPERS within a divine-christian ORGANIZATION, to guide you and to protect you in an invisible and hardly perceptible way, *not one human being would be left living on this Earth*, that is to say, this humanity would have perished thousands of years ago.

You have no notion of the *invisible* dangers that lurk and that you’re sounded by. Lucifer’s forces and intelligences try everything in order to remove every human being from this planet of redemption. Hardly anyone ever gives this a thought, on the contrary – one asks for GOD’S HELP. When nothing happens, one simply denies GOD’S existence. Nobody ever entertains the thought that GOD’S HELPERS make a super-human and sacrificing effort on your behalf and that they are there for you with LOVE in their hearts. They do so *without* reward, *ungratefulness* is actually the order of the day most of the time.

Oh, you poor, ignorant priests! – You rack your brains when you have to prepare your Sunday sermon. You struggle when asked to write a small article for the community paper. Why don’t you, for once, *really* contemplate GOD’S spiritual realm? There is plenty of information you can refer to. – Are you of the opinion that GOD protects and observes mankind *with just a handful of ANGELS*? GOD’S HELPERS are innumerable! GOD alone knows their numbers. This number is however *under one percent* on Earth, that’s how immeasurably large the ALMIGHTY’S, the omnipotently loving LORD’S realm really is!

6.2 Universal guidance (Transmission from the year 1963)

Well, you are well aware that everything here on Earth requires guidance, supervision. If this wasn’t so, no nations, no organizations or political parties would exist. Even the military would be without leadership, without officers and chaos would reign.

- In spite of this self-evident insight, the majority of the human race tends to entertain the idea that the universe, respectively planet Earth, does *not require this sort of GUIDANCE!*

Mother Nature, meaning the world with all its fauna and flora, *apparently* governs all its function of it own accord. There are apparently LAWS of NATURE that *do not* have a LEGISLATOR and one thing calls something else into being. There exists not one single example in the whole wide world that could be called upon as evidence to support this. There is not one single enterprise, factory or institute here on Earth that doesn’t require supervision and responsible leadership. – The same applies to the affair of the universe. This is why the whole universe is also supervised and conducted by GOD and HIS ORGANIZATION.

- You will find out by yourselves that this comparison is *irrefutable*. It *unequivocally* verifies GOD'S EXISTENCE and the EXISTENCE of HIS ORGANIZATION mankind is also a part of. Beyond this, GOD'S EXISTENCE is additionally verified through the inevitable effect that follows every cause.

Mankind's negative behaviourism is also one cause that triggers an inevitable, divine EFFECT. It is a great mistake when some believe that such negative behaviourism does not have any repercussions at all.

All leadership on Earth bears responsibilities. Why should this be different in regards to the leadership of the universe? GOD also bears the main responsibility for the smooth functioning of the universe's operation. The LEADERS of HIS divine ORGANIZATION bear full responsibility for their ASSIGNMENT at the same time. Not just on behalf of mankind, but also in the name of GOD and the LEADERSHIP of the universe!

- Just because it looks like these people are *not* being asked to give account in the eyes of terrestrial humanity, doesn't mean that account is not demanded from them. It is demanded *with all its consequences!* The responsibility of the divine INTENT is naturally aware of *every* injustice and *all* developments here on Earth.

All administrations introduce measures that serve to maintain law and order. These measures *don't always* have to be broadcast amongst the lower classes, because they might not fully understand what they are all about. GOD and HIS ORGANIZATION are also busy with corresponding measures that deal with the people on Earth and their own world. There are some people in leading position that *are being informed* even if this information is not intended for the ears of the broader masses.

The moment a divine MESSAGE or an ORDINANCE has been acknowledged by the senses and consciousness of terrestrial people, the DIVINENESS of the message is *no longer* given credit to. The prophets are no longer believed and one mocks them.

- Do not choose adversity and catastrophes as your *only* form of indoctrination!
- The spiritual realm intensifies all means in order to make these REVELATIONS possible, but you have *to help* them in their endeavours!

6.3 Acknowledging things (Transmission from the year 1962)

- *A true religion is worthless if it is not correctly understood!*

I ask you: Which one of your terrestrial religions can you understand correctly?

You can't just simply walk into the spiritual realm and walk out again after you have gained some orientation. If this were possible, a lot of things on Earth would change for the better. There is however a *delicate area of contact* between the two worlds.

The spiritual realm makes every effort to indoctrinate you, but this indoctrination is unfortunately

all too often misunderstood. As soon as one is unable to understand something one soon enough discards it as something implausible.

The whole misunderstanding begins already with the word “GOD”!

You cannot comprehend HIM or understand HIM correctly and HE is therefore rejected in most cases. At other times we hear: “GOD observes you, GOD listens to what you say.” Hardly anyone can imagine the fact that GOD can listen to billions of people and observes all of them at the same time. – This is where the appellation “GOD” is completely inappropriate, as is the case in innumerable other situations.

It would actually have to say:

- *GOD’S ORGANIZATION or rather CHRIST’S ORGANIZATION is there to look after every human being, that is to say, that it does not leave them unattended for one second. Therefore when GOD observes you, HE does so through all the many authorised and purpose-trained SOULS who are constantly with you and who have very specific TASKS to perform within the guidelines of their EMINENT POSITIONS.*

Most people are of the opinion that a prayer is *directly* routed to GOD’S personal address. Those that cannot imagine this task of a personal GOD, simply reject the idea of praying as utter, ineffective nonsense. – The appellation “GOD” is also completely inappropriate here too. Every prayer is *initially* received by a personal GUARDIAN ANGEL and it is up to the GUARDIAN ANGEL to decide whether this prayer should be passed on to a HIGHER AUTHORITY or not. The GUARDIAN ANGEL knows his charge as well as his own conscience and is therefore in a position to decide whether a plea through a prayer is appropriate or not.

- *The plea might not be acted upon for instance – even if it is appropriate – if it interferes in any way with the PROCESS OF REDEMPTION of the charge. – This is the case most of the time!*

When a *seemingly* justified prayer is *not* fulfilled, people immediately begin to doubt the existence of GOD’S JUSTNESS. – GOD does not necessarily have to have the slightest inkling of the process that is taking place. HIS commissaries enjoy HIS absolute trust and they are absolutely *worthy* of this trust!

- *GOD’S ORGANIZATION is unimaginably enormous and unimaginably reliable. There is not one soul amongst it that falls out of line!*

Specific difficulties arise though because the antagonist *also* has an organization and it opposes all divine INTENSIONS by constantly trying to destroy them. There are however *no trustworthy souls* within this evil organization and this is why there is this great disunity amongst them.

- He, who allows himself to be influenced by this evil organization, is lost!

6.4 Questions and answers

Question : Does GOD hear us when we appeal to HIM through prayers?

Answer : Most people unfortunately always imagine a *human-like* person when they think of the PLANNER. When thinking of GOD, one should *first and foremost* try to understand HIS ORGANIZATION. This positive COMMUNITY is unimaginably extensive. Certain sections of this ORGANIZATION *take note* of these appellations. One can therefore say that GOD has *heard* them.

Here is an example: Let's assume that somebody writes a letter to some very eminent personality. This letter might reach the secretary's office and an employee there will acknowledge its arrival. It isn't absolutely necessary that the boss has to see this letter. Some employees also have *the authority* to make their own decisions and to deal with it. This is why an exuberant form of address is not necessary. A simple form of address is quite enough.

It is however most important that everybody knows *which* organization they want to belong to and *which* community they want to serve, it is either GOD and HIS ORGANIZATION or the antagonist and his negative organization.

Question : All the various religions know many appellations that can be used in regards to DEITIES. But most of these are just a lot of twaddle. Does this make sense at all?

Answer : If there is a specific meditation attached to such an appellation, it would at least constitute some progress for the one making the appeal. I will give you an example of how you can do this:

GREAT SPIRIT, YOU ARE THE ONE WE WOULD LIKE TO TALK TO, IF WE COULD ONLY FIND THE WORDS TO EXPRESS YOUR MAJESTY, YOUR DIVINITY AND THE OMNIPOTENCE OF YOUR LAWS THAT RULE THE BOUNDLESSNESS OF YOUR UNIVERSE.

WE ARE TRYING TO REVEAL SOME OF YOUR PROLIFIC TREASURES OF THE SPIRIT SO THAT MEN AND WOMEN WHOSE HEARTS ARE FILLED WITH DREAD AND WHOSE MINDS ARE FILLED WITH HORROR AND WORRIES KNOW WHERE THEY CAN FIND YOU AND KNOW HOW THEY CAN TURN TO YOU IN ORDER TO GAIN THE ASSURANCE THAT EVERYTHING IS WELL AND EVERYTHING IS DIVINE.

A PART OF OUR ENDEAVOUR IS TO DESTROY FALSENESS AND ALL HAREBRAINED MISTAKES, ALL IGNORANCE AND ALL MISUNDERSTANDINGS THAT HINDER YOUR CHILDREN FROM SEEING YOU THE WAY YOU REALLY ARE, NAMELY THE LAW, PERFECTION IN ITS QUALITY AND IN THE EFFECTS OF ITS APPLICATION, THE LAW THAT NEVER WAVERS AND NEVER YIELDS, THE LAW THAT IS INFALLIBLE.

Question : We are of the opinion that the word GOD is used *all too often*. This leads to misunderstandings. According to a lot of people, GOD is supposed to be responsible for every one of their fates and every one of their actions. How do you see this?

AREDOS : Instead of talking about GOD as a PERSONALITY, one should rather take a look at HIS ORGANIZATION. GOD keeps watch over man through HIS HELPERS, through the positive spiritual realm.

- One therefore *shouldn't* say: “You will face your MAKER”, but “you will face GOD’S *authorised* HELPERS”! GOD *doesn't* observe all your deeds. The ORGANIZATION of the spiritual realm *does so*, in particularly your personal GUARDIAN ANGEL.

These are not some kind of myths, fantasies or fairytales, but absolute, objective REALITIES. A trip to the moon is also no longer a fantasy, utopia or fairytale, but a fact people had to get used to. The same applies to the spiritual world; man must also get used to dealing with it, to incorporate it in his cache of knowledge. It is our assignment to make this easier for you. We are aware that this MISSION is not an easy one.

Objection : In spite of all the various religions of our world, the powerful of this Earth are seemingly unafraid of GOD’S “ARM”.

AREDOS : Neither politics nor the church nor the world press for that matter respects a dominant GOD. It may be true that man fears natural catastrophes or death, but he hardly ever fears GOD’S “ARM”.

However GOD HAS his ORGANIZATION! – HE has ALLIES throughout the universe. This ORGANIZATION stands *above* the human race. The SANTINER can also be regarded as a kind of “UNIVERSAL POLICE FORCE”.

This ORGANIZATION naturally metes out *punishment completely differently* from the way human beings do on Earth. This is why its type of punishment is not directly apparent; aside from that it is often very recessive (covered over).

Question : Do ANGELS really exist in the spiritual realm?

ARGUN : ANGELS are EMINENT BEINGS that possess *more* divinity than human beings. They have specific assignments to fulfil. As they possess the POWER *to change* their appearance with the help of their will power, they can certainly produce wings on their backs, they are however are *not* suitable for flight, but *symbolically represent FREEDOM*. - Pictorial depiction of them like that usually *discredits* any FAITH in GOD. This happens because one knows too little about ANGELS in the first place.

The actions of ANGELS are influenced by your progressive technology. Progress can also effect a regress, if one *neglects* the spiritual side. The regress brought about by progress robs man of his peace of mind and chases him hither and tither until he suffers a breakdown.

Question : If nobody has ever seen GOD, can one assume that some ANGELS have revealed themselves to man?

ELIAS : *ANGELS sometimes can reveal themselves to people on Earth!*

Question : Do ANGELS look the way some inspired painters have depicted them?

ELIAS : Their wings are a *symbolic expression* of their unlimited FREEDOM. These wings are *not* visible most of the time. However an ANGEL *can* reveal himself with these symbols on his back. An ANGEL can affect the viewer in such a way that he will see HIM endowed with these wings and with HIS glorious aura. The mental influence of departed souls is also of great pertinence. Every human being possesses this ability, that is to say, in *latent* form. A lot of things can appear in front of the SPIRITUAL EYE in dreams, but also in an awakened state when one's eyes are closed. This ability, wrenched from its latent anchorage, can achieve a lot more. This ability has the capability of creating something from nothing. These things are then actually existent and therefore perceptible *to everyone*.

Question : There is a passage in the bible that describes CHERUBIM with swords in their hands. We are however aware that their intensions are peaceful. What are we to make of this?

ARGUN : The sword is *a symbol* of defence. They defend JUSTICE and GOD'S TRUTH in this case.

Question : It has been written that VISITS by ANGELS have become a *rarity* in our day and age to a degree that hardly anything is ever reported and that hardly anyone still believes in them anymore.

ARGUN : This has to do with the "progress" achieved by technology. This progress is ultimately also a regress, if one takes the fact into consideration that it robs man of his peace of mind. Technology, instead of making life more comfortable, *harasses and chases* man. – This hinders ANGELS to a high degree.

Question : Can GOD make himself known to a human being?

AREDOS : A HIGHT SPRIT can *very easily make himself known* to a human being. Basically speaking, *every* human has contact with the spiritual world, even if it is *unknowingly* most of the time. A dream already constitutes contact with the supernatural regions. Native tribes are *much better aware* of these contacts than more civilized people.

A *psychically* gifted person can make it possible for a spirit to utilise its body in one way or another. One's own spirit (soul) is *temporarily suspended*. This is how an otherworldly spirit controls a terrestrial body. You find these cases in so-called trances.

- *Not one human body exists that could possibly accommodate GOD'S spirit.*

But GOD has HIS ANGELS!

- CHRIST had a *human* body that allowed an eminent ANGEL to utilise his body from time to time. – This represented the highest possible form of contact with GOD'S SPIRIT here on Earth; because this ANGEL was one of GOD'S PLENIPOTENTIARIES.

Question : Does this ANGEL have a name?

AREDOS: No. It was the ANGEL of DELIVERANCE. – This is why CHRIST said: “The FATHER and I *are one.*”

7. The sciences and the church

7.1. The greatest prestige (Transmission from the year 1961)

Every human being on Earth has his or her pride. Every citizen protects his or her reputation. There is such a thing as professional pride and the whole reputation of a people, a nation. Legislation endeavours *to offer protection* for this pride. This is why there are magistrates and courts of arbitration that deal with the honour of human beings. But he, who is antisocial and positions himself completely outside of the human society, can in extreme cases *lose* his civil rights.

In the eyes of humankind, GOD has already lost HIS CIVIL RIGHTS! HE is reviled, disowned and persecuted.

What asocial behaviourism has atheism accused this GOD of that HE is regarded as being outside human society? – HIS NAME is shunned in public – HIS EXISTENCE is listed amongst the dead!

Well, the churches are HIS adjudicators, but they have *too little KNOWLEDGE to effectively* defend HIS TRUTHFULNESS and PHILANTHROPY. The culprits are not even punished, well, they are not even asked to release new editions in order to recant the inflicted mortifications and defamations printed in the daily press.

What an *unjust* judicial system you have on Earth!

The sciences fight against every attack on their prestige with the courage of lions. Scientists bear reference to their academic laureateship.

But where is GOD’S PRESTIGE?

The CREATOR, who created the universe and also maintains the universe, must surely be entitled, and deservedly so, to the *greatest possible* prestige! But as HE does not make an appearance in human form, does neither front any court in the land nor make a judicial complaint, there is not one single judicial authority that deals with HIS PRESTIGE.

How can one explain this phenomenon, this mentality? Looking at it from a logical, philosophical point of view one would have to say: JUSTICE is being raped by injustice, because GOD represents JUSTICE and the devil represents injustice.

Why should this happen in the first place?

Because mankind willingly stoops to this infamous activity!

Man's honour is a federally protected affair. The state is there to protect its citizens; there are official channels for this. – However which official channel looks after GOD'S PRESTIGE? Well, when all else fails, man's sense of justice should actually come into effect. But where are the people who worry about this and who raise their voice on behalf of GOD out of a sense of justice and trust in HIM? – It is much more convenient to leave this to the churches. – They are however much more interested in their *own* position of power, rather in their *own* prestige than in GOD'S PRESTIGE, which they can only express through *their pomp and ceremony* and not through HIS rehabilitation, that is to say, through the acknowledgement of the divine RIGHTS, the way man on Earth insists on his civil rights.

GOD only ever had *one* ADVOCATE. HE was however not listened to, but condemned by man's civil rights, tortured and crucified because HE defended GOD and GOD'S divine RIGHTS. This was *and still is* GOD'S true "PRESTIGE" in the eyes of terrestrial mankind!

7.2 Questions and answers

Question : How is it possible that eminent scientists doubt GOD'S existence?

AREDOS : GOD gave man a mind, that is to say, the ability *to think*. However most people do not really make full use of their divine GIFT! Scientists, respectively academics, are so arrogant that they only have *their own interests* and their successes at heart. This is why they do not apply logic when they contemplate CREATION. Physical matter is *more important* to them. There is not enough spiritual material available. – Faced with all the sweets, one omits to recognise the confectioner!

Question : The sciences would presently like to exclude GOD from their deliberations as much as possible. How do you see this?

AREDOS A scientist will only ever be able to *copy* nature, but never be nature *himself*.

Question : Is there a valid reason why scholars generally reject GOD?

AREDOS : Certainly, the reason for this is that GOD is immensely strong and powerful, whilst man is extremely small, weak and powerless. This is why HE is looked upon as *an enemy*. This is the reason why HE is rejected.

ARGUN : Academic science is well aware that it will *never be able to explain* GOD'S origin, respectively GOD'S "birth". So out of *hurt pride*, they prefer to reject GOD. They entertain the position that something they will never be able to explain, does not exist.

- It is *not* man's task to delve into GOD'S ORIGIN, but *to serve* GOD!

However everything that does exist, is *only then* of importance to people, when its *origin* is known! This is why in the eyes of most people, GOD does not exist; they do not bother about it.

Question : We know that most scientists do not like to hear the word "GOD" mentioned. Why is this word "GOD" so reviled?

ELIAS : It is because they refuse to accept the fact that they are controlled by a HIGHER AUTHORITY. People who are not interested in a PLANER are not willing *to better themselves. Nothing* stops their arrogance. If they had to accept GOD, they would no longer be able to live the way they do, they would have to realign, reassess their whole existence.

- GOD is their conscience, something they fear, *because they know* just how they are.

They throw any uncomfortable ballast over board, even if we're dealing with something divine. This doesn't just apply to scientists, but also applies to a lot of other people who delude themselves in order to be able to live an alleged freer existence.

Question : The sciences believe that *they* can assume the PLANER'S role.

ELIAS : They also believe that they are able to confirm that GOD does *not* exist, however their own research will verify *that this is not so*. There are a number of researchers that slowly begin to muse over this. They mix up the terminologies. The terminology of *causality* for instance for a very long time!

Question : There are scientists and philosophers that reject GOD and ascribe everything to *a caprice of nature*. These people are unfortunately successful in spreading their message. What can you tell us about this?

AREDOS: Why don't you ask them whether they find it plausible that GOD could have been created through a caprice of nature? Something that applies to CREATION must surely also apply to the CREATOR? Is there a difference here? These doubters feel strong and wallow in self-importance. They are unwilling to accept the fact that there is something that *stands above them* and reigns over them. – But there are to be pitied, because once they arrive in the hereafter, they will suffer an enormous shock, something no human being Earth could ever imagine. – This thought alone makes us shiver uncontrollably.

Question : It is alleged that the universe and all the creatures in it created itself by coincidence. Wouldn't this also make GOD'S existence coincidental?

ARGUN : If this were the case, you could be told that GOD'S EXISTENCE is due to a coincidence. However there are no coincidences, only providences. Everything is providence! – However there is a difference, namely whether these providences are in a divine SENSE, because *not everything* that takes place is according to HIS WISHES. Coincidences that contravene *against* the LAW of ETERNAL LOVE are *not* providences GOD condones. When we talk about GOD, we often also mean HIS actual CO-WORKERS within HIS realm who were granted FULL POWERS.

Question : But there are scientists and philosophers who reject GOD and who ascribe everything to a "caprice of nature", wherein coincidence plays *a major role*.

ARGUN : This isn't true. They know that the LORD is powerful and that man is powerless, but they will not admit this, *they feel strong* and they like to make a show of their prowess. However the LORD shows mercy and allows them time to come to their senses. –

- Well, my dears, many a soul has woken up and seen GOD’S LIGHT through a great miracle during a crisis⁶ and tried to reach out for it. Some have been successful in reaching this LIGHT, but only after a lot of arduous work. – It shines for *every one* of you!

Question : Why won’t the sciences simply admit that there *must* be a GOD?

AREDOS : *A GOD, the way the churches depicts him, does not exist!*

This is the main reason why intellectuals do *not* want to believe in GOD. But this doesn’t mean that there is no GOD! It’s just that HE is *different* from what you have been taught about HIM! This is why we don’t say GOD, but call HIM the GREAT PLANNER.

The sciences are these days well aware that life and all of CREATION comes into being through INFORMATION⁷, respectively, came into being. Logic must therefore dictate that there *must* also be an INFORMER, because from where else would this INFORMATION come from?

But an INFORMER does not necessarily have to *do everything on his own*. The GREAT PLANNER therefore had an immeasurably large ARMY of CO-WORKERS at HIS SIDE and HE managed to accomplish the feat of CREATION with their HELP.

- *CREATION is not yet completed! It continuously changes and continuously produces something new!*

If you contemplate this correctly, you will realise that all the humanities throughout the universe are GOD’S co-workers. There is however a whole bunch of co-workers that work *against* CREATION, because they lack the most important insight in regards to life, namely that there *is* a GREAT PLANNER everything should be aligned with.

- GOD will bear (only then) responsibility, when you *do the things* HE wants and plans!

Question : Wouldn’t it be possible to reach these scientists through inspiration?

ELIAS : Institutes of para-psychology are the *forerunners* for such a development.

Question : (1968) Is there *another* opportunity to dissuade the sciences from their atheistic attitude?

ELIAS : No. The sciences had the correct key for it *in their hands*. You should not forget that institutes of para-psychology are also universities. These institutes however find themselves in precarious positions and are quite unsure whether they will be able to maintain their present positions.

⁶ For instance through a near-death-experience during a serious illness or an accident.

⁷ See brochure “INFORMATION”.

Question : The world situation becomes more precarious. Everything becomes more critical. This situation allows forces to come to the fore that propagate the idea that “GOD is dead!” – and a lot more. What does the spiritual realm have to say about this negative development?

ELIAS : It’s not enough to say *that GOD is alive* or that the sinner *is punished*. It is more a point of *verifying* GOD’S existence scientifically. This can only happen with reference to HIS CREATION. Creation is well qualified to furnish such proof, because its innumerable forms of phenomena, which interact with one another like clockwork, thereby *presenting an absolutely meaningful whole*; should by themselves be irrefutable proof that a PLANNER exists, one that is also an INFORMER at the same time.

- *There would be no universe without planning, only chaos! Nothing would function; not even the stars would trace their path across the sky.*
- GOD’S CENTRAL CONSCIOUSNESS is omnipresent throughout nature, including HIS HIERARCHY. Everything animated and everything endowed with a consciousness is affiliated with HIM.
- *GOD can see through the eyes of people as well as through the eyes of animals.*

Man is also affiliated with the CENTRAL CONSCIOUSNESS that directs him, that controls his heartbeat and his breathing and keeps him animated. Man is either a valuable or invaluable instrument in the service of CREATION. If this wasn’t so, man would never be creatively active.

Even though man on Earth is not the centre of the universe, he occupies a meaningful *central position* within the microcosm and macrocosm just the same. GOD’S meaningful CREATION is once again revealed here also, because:

- *The number of atoms within the human body is almost identical to the volume of the sun!*

He, who reviles or affronts GOD reviles and affronts *himself*, because he forgets that he represents *a minute part* of the divine, CENTRAL CONSCIOUSNESS of NATURE. He, who acts in this way exhibits an eminently terrestrial way of thinking. – He has never meditated!

AREDOS: Almost everybody these days has an inkling about the unimaginable size and versatility of the divine CREATION, but one still discriminates against the CREATOR in an unbelievable fashion.

The GOD of the church is virtually *an absolutely simple minded old man*, endowed with all the shortcomings and vices of mankind. He thinks like a human being and he’s ridiculously merciful against the greatest of sinners. He tolerates injustice and murder and pardons everything in his divine sentimentalism. He lives in a palace somewhere in the cosmos and all who come to him in a party mood; do not know what they are supposed to do. –

- This is so incredibly *naïve* that it is difficult to find words for it!!

However the church insists: “When it comes to GOD, *everything* is possible”, even when we’re dealing with the greatest of nonsense. Well, GOD is supposed to look upon the devil as HIS employees, here to teach mankind the difference between good and evil⁸.

Question : What is the CREATOR really all about?

AREDOS : The CREATOR represents an unimaginable ENERGY. This ENERGY also happens to possess an enormous CONSCIOUSNESS. This CONSCIOUSNESS interacts with the whole cosmos on the basis of experience and of memory. Every THOUGHT IMPULSE is engraved within the cosmos, to remain there forever. This is how GOD is able to remember every single detail, even if it happened eons ago. This is so enormous that one has to muster the greatest of respect man is capable of. Masquerades and theatrics are a complete affront to this enormous GRANDNESS of INTELLIGENCE.

- *GOD in no way thinks like a human being! In regards to humanities, HE created HIS ORGANIZATION and it is designated to deal with them.*
- *GOD does not deal with the kind of tasks priests have bestowed upon HIM.*
- *All religions on Earth are unfortunately full of assumptions by priests, because they lack the imagination to come up with something else.*

But GOD is the MAJESTY of the universe personified. All of us, here and in the hereafter are HIS subjects!

Question : (1965) Will one be able to represent the problem of a correct GOD REALISATION in the near future in such a way that will at least allow intellectuals to comprehend it?

AREDOS : *Never* through the representatives of major religions.

- The way things look at the moment, this insight will be made public through a *private* initiative.
- The academic sciences will however take an interest in this, as we are dealing with *insights into Mother Nature*.

The spiritual realm endeavours *to spiritually support* all such efforts and this more than ever. The *material* support however must come *from you!*

Question : (1965) *Who* will verify GOD’S existence?

ELIAS : The church would actually have to do this, because this is what they are there for. But the situation on this planet is the complete reverse.

⁸ This erroneous idea is unfortunately often advocated in esoteric circles and at spiritual seminars. A dangerous belittlement of the most dangerous power that exists!

The sciences will perforce, that is to say, *involuntarily* produce the evidence that GOD exists. It will also verify the existence of the soul and at the same time confirm its immortality.

The church is unfortunately *a stumbling block* for all the sciences in regards to research within this field of knowledge. It is however a good thing that you do have churches here on Earth, because the sciences would often have gone *too far* in their research, something that has already been the case every once in a while. One would otherwise certainly have proceeded in a more *extreme way*. The churches are aware of a lot of things within the scientific arena in spite of this.

Question : We are of the opinion that the sciences will never be able to furnish the proof that: “At the beginning there was man”. How do you see this?

ELIAS : Therein you can see the nonsense: GOD tries to make the best out of negative side effects. This is a thankless task. But this is why a lot of things that seem *negative to begin with*, turn out fine. Man has the opportunity to learn from his mistakes and to benefit from them, but this is where he unfortunately fails.

- *Evil is certainly not required to help man gain better insights!*

Evil represents GOD’S antagonist’s basic principle. Man must *clearly recognise* this fact! On a *purely emotional level*, man is in a position *to differentiate* between what is right and what is wrong.

Question : Will something positive happen in regards to spiritual INSIGHTS?

ELIAS : As the sciences have already progressed to a stage where only a *few* doors remain to be opened, there will be progress in this field of knowledge. The sciences might not be aware of where their path will lead them, but it is a circle, the ALPHA and the OMEGA. They will realise that if they make one more step, it will lead to nihilism. They will *have to* accept the fact that a GREAT PLANNER stands behind CREATION.

Question : A senior priest offered the following opinion during a morning mass: “GOD has stepped down from HIS throne and taken on the guise of a servant in human form in order to redeem mankind”. Can you explain this to us?

AREDOS : This is of course nonsense! – However this priest must surely have thought that this is so, because this is what has been *drummed into* him. It does verify though that even church elders and pastoral carers do *not* know the TRUTH and that they stick with their false interpretations.

- *GOD is a SPIRIT BEING that never makes an appearance in human form and the same applies to the devil!*

The church still tries to depict and *to explain* GOD as a *human* being. This is a serious mistake and it doesn’t fit in at all with the present situation. The present high standard of science and technology creates the situation where GOD can be explained more easily and comprehensibly.

- You know many secrets in regards to *invisible* forces and radiation.
- You know a few things about telepathy and *non-physical* VIBRATIONS.
- You know the processes involved in radio waves and colour television.

These are all good prerequisites to help you understand GOD and to comprehend HIS EXISTENCE. A normal human being, one who wants to be a church elder, would surely know something about this. A *sensible* EXPLANATION by the church about what GOD is all about is actually missing, so that the disrespect shown the CREATOR is lessened.

- *GOD is a non-physical BEING, akin to a human consciousness, only unimaginably enormous and all encompassing. It contains the KNOWLEDGE and the OVERALL EXPERIENCE of eons.*

The explain GOD in human terms is *more* than just a blasphemy. It is akin to making an idiot out be a genius! The main emphasis of any EXPLANATION must be on CONSCIOUSNESS, because:

- *GOD is the CONSCIOUSNESS of all of nature throughout the universe. – This CONSCIOUSNESS is invisible, the way it is invisible in man, and it only makes an appearance through its actions.*

This would surely have to be comprehended by every human being these days. However the correct interpretation by the sciences is lacking, as the sciences are given *more* credibility than the church.

Question : As you mentioned before: People have to get used to many invisible miracles these days, like for instance the invisible colour picture transmission of television. Why can they therefore not comprehend GOD'S invisible existence?

AREDOS : The churches have *not* dealt with explanations in regards to television. We are dealing with technology here! – But the churches have dealt with explaining GOD and they have *created an image* of HIM that is absolutely incorrect.

People cannot give credence to the explanations of the church, because their technological *and* scientific thought processes cannot accept a church inspired God. This is the absolute reason behind the lack of faith in GOD by the people on Earth. This situation brought atheism into being and it has been accepted by today's youth.

Question : How can this mistake, respectively, this aberrant be eliminated?

AREDOS : The religions of this world are so stuck in their ways that *every* innovation in this area is rejected. Only the science can bring about a change. However the sciences have always kept their distance from these things. Scientist must be encouraged to deal with this field of knowledge in order to wrench it from the grasp of the church, respectively from religious communities.

- *For as long as the church fathers regards their mistakes sacrosanct and continue to teach them and defend them, the TRUTH will never become part and parcel of mankind's store of knowledge.*

This is a sad assessment, but it is important and it is true.

Question : (1968) Are today's scientific insights directly opposed to the accounts of the bible?

AREDOS : The accounts of the bible deal with remarkable events and they were recorded the way they were interpreted *at that time*. Their way of observing things does not always coincide with reality. This is why miracles were recorded that, looked at objectively, are not miracles at all, but only an extraordinary, that is to say, not an every day event

The bible gives the impression as if GOD and HIS HEAVENLY HOST were (then) in constant contact with people, whilst this doesn't seem to be the case these days at all. – The *atheist* acquired his lack of faith from this perspective.

Science rejects such miracles and I can't even blame them. However the sciences have *not made a serious attempt* to present these miracles in the correct light. They leave it up to the churches, but they are not interested in explaining these miracles away. We are dealing with blind faith and with pious fanatics who revolt against every different interpretation at the cost of objectivity.

Once bible miracles and all events recorded in the bible find the *correct* interpretation, these events will coincide with your present level of scientific knowledge and technology. This will however not include the spiritual character of it. It must be accepted, otherwise one only dupes oneself.

- *The people, who live on many planets throughout the universe, on diverse levels of existence, have gained far GREATER INSIGHTS than you. This is why they have a UNIVERSAL RELIGION, something completely lacking here on Earth.*

It has always been the desire of these highly evolved people to bring their positive insights to *this* planet. But a human race has lived here for thousands of years that hardly made any spiritual progress and therefore has to incarnate over and over again. Almost all the people here on Earth are unable to emerge from a series of lower spheres.

- The concept you have of GOD is absolutely not acceptable. You may *not compare* yourself to GOD, even if you incorrectly assume that He is a superlative human being. – There are no parallels to be found here!

This nonsense has come about, because the Holy Scriptures say that man was created in the "image" of GOD. The way the Holy Scriptures *undermine* the true FAITH in GOD with such passages is appalling.

- Neither Adam nor Eve, neither paradise nor similar accounts have anything to do with REALITY. These are *false* deliberations, looked at from a *terrestrial* perspective.

- Man *is* GOD'S mirror image in as much as he possesses a *certain* creative ability through his intelligence.

This makes GOD a CREATOR of the HIGHEST ORDER and man also a creator of many things that are produced from the physical matter and from the vibrations the universe provides him with. – GOD is of course an enormous INTELLIGENCE.

- Can you physically *see* your intelligence?
- Can you *see* or *make* the flood of thoughts of a human being *visible*?
- You therefore cannot *see* or *make* the great INTELLIGENCE of the LORD *visible* either.

It is a flaw in your thought processes to assume that GOD would have to make a *direct appearance* in one form or another, only atheists or communists think like that.

- He, who actually manages to get near GOD will certainly not see HIM, but will invariably *feel* HIS enormous PRESENCE and NEARNESS with his senses. This then represents an inner ENLIGHTENMENT that is so powerful that one will hardly be able to bear it. In inner LUMINOSITY of indescribable proportions. However one certainly does not find oneself in front of a superlative human figure
- GOD does *not require hands* to construct or to create something.
- GOD does *not require feet* in order to move.
- GOD does *not require eyes* in order to recognise things.
- GOD does not require a *human* body at all! HE exists wholly and solely through HIS INTELLIGENCE, HIS POWER and HIS SPIRIT.
- HE *speaks* through inspiration and through telepathy.
- HE *reigns* through HIS HELPERS, through HIS GIGANTIC ORGANIZATION.

If the clergy were aware of the unrealistic idol they venerate, they would hide in shame.

- It's a completely different situation in regards to entities in the spiritual realm: They do have *human* features that are either very beautiful or very ugly.

People cannot show genuine respect for GOD and HIS REALM if a *false* God has been described to them and if they have *not* learned the TRUTH about the spiritual realm.

Question : The Christian Church and also many other religious denominations display an *exaggerated* seriousness about the whole thing. – Does GOD possess a sense of humour?

ARGUN : GOD self-evidently has a sense of humour! HIS realm also has a penchant for humour. This humour sometimes shows up in CREATION. Man, in his obstinacy, believes that when he is stern, he is also *pious*. He condemns all joviality, because he thinks that one has to be “pious”, to fear GOD.

- This “piousness” is *a lot of nonsense*; because man *cannot love GOD and be afraid of HIM* at the same time.

Man might well *revere* GOD and have a high opinion of HIM, but man must be able to approach GOD with LOVE and TRUST in his heart. Anyway, GOD and HIS spiritual realm *rather prefer* People to be *laughing happily* than to remain stuck in forced seriousness. The word “fear” could be *rubbed out* of the bible!

Applying logic, man could *self-assess a lot of things* and should then *act according* to what logic tells him! However logic is unfortunately often set aside. Most people do not employ *the application* of logic often enough. Only *false* logic makes it possible for such warlike animosities to exist here on Earth.

Question : The churches, which endow GOD with infallibility, bring atheists into the fray with this. Specifically atheists point out the failures within the laws of nature, thereby justifying their opinion that there is no GOD. What do you say to this?

ELIAS : It is certainly written that GOD is infallible, but since time immemorial, GOD *also learns* from HIS own ACTIONS. HIS intangible MAJESTY and MAGNITUDE would not be possible at all without HIS own EXPERIENCES.

- *GOD is the total sum of all HIS experiences throughout the universe. HIS CONSCIOUSNESS is an encyclopaedia in regards to development and this forever and ever.*

Derailments are not necessarily there to learn from. But remember, there is a planner, an antagonist, who wants to do things *differently* from the way GOD does things. This opponent *wants to prevail*. He therefore tries to interfere in GOD’S handicraft. Apart from the derailments – one should not overlook this aspect!

Question : Theology is of the opinion that GOD, in HIS eminent MAGNITUDE, is and always will be the way HE is. However you tell us that GOD *also undergoes development* and that HE *constantly* grows in STATURE. We will find it difficult to disseminate the actual TRUTHS. Don’t you think so too?

ELIAS : The TRUTH also needs time to mature!

- The whole universe is undergoing constant development. This *also* applies to GOD and this *first and foremost*. GOD is the GREAT PLANNER and HIS LAWS implement HIS PLANS.

Every PLAN is based on an idea. One IDEA is ultimately *replaced* by a *better* IDEA. – NEW CREATIONS are *planned, drafted and implemented*. – Existing CREATIONS are *changed, improved and modified*. Everything is in a constant state of flux. A state of inertia does not exist! Flaws made are constantly *remedied*. However such corrections can also contain flaws that will then have to be corrected also.

- The results of changes *cannot always be predicted*, because not all ideas put into practice are based on *prior examples*!

This communication is no idle talk, but a divine REVELATION! These divine REVELATIONS are not just restricted to the bible; they can also come from other SOURCES.

- It is therefore a blasphemy when theology declares that the bible is a *concluded* revelation, meaning: *GOD is no longer allowed to speak!*

One adheres too much to the written word and one overlooks the many contradictions in the process. Is this really logical?

8. Omnipotence and Justice

8.1. Is GOD omnipotent and merciful? (Transmission from the year 1963)

There is nothing in these two expressions that could give rise to a dispute.

- The GREAT SPIRIT is almighty, omnipotent, because all the MIGHT is within the natural LAWS that control the universe and all life forms in it.

There is nothing that is higher, greater and mightier than GOD. HIS dominion over the universe is controlled through LAWS that mirror infallible WISDOM and charitable intent.

- All life forms strive from darkness towards the LIGHT. The base rises higher, the imperfect becomes perfect. *This shows* that GRACE and MERCY are *a part* of the divine PLAN!

But what are all the things that have to be anchored within the mechanism of these natural LAWS? Mechanical in a sense that they are perfect as it were, that nothing is powerful enough to interrupt the sequence of cause and effect.

The concept I would like to see used is the following, namely to regard the GREAT SPIRIT to be ALMIGHTY, MERCIFUL, PERFECT and INFINITE. However one must discontinue personifying HIM in a human sense at the same time. Don't forget in the process that the INFINITE SPIRIT has many manifestations at HIS disposal.

You are *a miniature* version of the GREAT SPIRIT; because the SPARK of PERFECTION smoulders within you. *No* human being can exist *without* this divine SPARK! But in your manifestation as a *terrestrial* human being you are far from being perfect. The SPARK of the SPIRIT *is* perfect, however *the aspect* of consciousness, evoked by the physical body, is *fas from perfect*.

After your demise, you will manifest yourself in a highly ethereal, astral, spiritual BODY. The words to describe this body are immaterial, as long as you *correctly* recognise what we're trying to express here. A part of your present imperfection will one day fall away in the REALM of the SPIRIT.

When you continue *your development* in the REALM of the SPIRIT, your imperfections will gradually disappear and your hitherto hidden divinity will rise to the surface. The fact that you are presently both, namely imperfect *and* perfect, is only a sign of your level of development.

- *There is no finality to KNOWLEDGE, WISDOM, COMPREHENSION or the TRUTH, because everything is always in constant flux. This flux continuously creates new targets, which in turn bring about new insights. There will never be an end to OMNISCIENCE, not even for GOD!*

The advancement of your spirit also expands the capacity of comprehension. What still seems unattainable these days will by all means become attainable in coming years. If this wasn't so, the whole development would be meaningless.

You are trying to grasp things that are *beyond* the limits set by your terrestrial languages. It must be grasped and understood, even if it is *impossible* to linguistically describe it. *Your feelings* should guide you in all of these cases. It does *not always* require words to comprehend something. Of importance is only that man's feelings react *positively*, so that he develops and maintains his true capacity of differentiation. The *correct* feeling overcomes the limitations of language. We should always endeavour to express ourselves clearly, because this facilitates better comprehension.

8.2. Mother Nature (Transmission from the year 1968)

Well, Mother Nature is unimaginable intelligent, but Mother Nature is neither physical, nor a dead object. It is a *mental process* that stands above all things. Physical matter would not be animated, it would not show the slightest sign of life, if there was not something *above* it that is decisive in regards to *triggering* its behaviourism.

The sciences *cannot ignore* this invisible, but verifiable INTELLIGENCE, even though they *can't explain* this INTELLIGENCE. This is why it is reluctantly accepted, but only regarded a process. However one cannot simply dismiss such an eminent INTELLIGENCE like this. The frightening thing about this is that, compared to man, the universe is so immeasurable enormous. And then there is also the polymorphism of CREATION to consider.

- *No human being will ever be able to comprehend CREATION, because even though man is a divine being, he is no GOD!*
- *The CREATOR is naturally the highest INTELLIGENCE. HE is the sum total of all experiences from time immemorial.*
- *Man was only created after eons had passed, long after GOD represented a perfected INTELLIGENCE. The existence of this INTELLIGENCE would have to be questioned, if it were to fail in regards to things pertaining to JUSTICE.*
- *A law of nature is a divine LAW. One might be able to interfere with it, but one will never be able to abolish it completely. Once any interference stops, it will again have its compelling validity.*
- *Nature, another word to describe GOD, therefore possesses the maximum possible JUSTICE. This is why there is renaissance, reincarnation for man!*

I cannot quite grasp an atheist's attitude, because an atheist, the way we know him, recognises the way nature works, he can't refute the process, but he seems to have an aversion in regards to the word "GOD", even though there is no difference there. Only moralists differentiate between GOD and Mother Nature, because they base their assumptions on the injustices of this world.

But is there actually such a thing as an injustice?

Who amongst you professes to know what injustice is?

As one hardly knows anything about the whole universe and as one is not even completely aware of the grandness and augustness of the visible world, one also *knows nothing* about reincarnation and about atonement and about *remuneration* in other regions. An evil person, whether here or in the hereafter, *cannot assert a claim* for remuneration. He will be apportioned this remuneration in GOD'S realm, even if he had a high status or lived in great opulence during his life on Earth.

- JUSTICE, which is a part of nature and which forms a unit with it, *never* makes an exception!

A human being who has *missed out* in every respect during his terrestrial sojourn has no reason to doubt nature's JUSTICE. Its LAWS provide him with the opportunity to receive the things he missed out on. Nature's JUSTICE, in its stupendousness, is however *not* guided by deprivations, austerities or enslavements, but by the *level of human development*.

Corrections are constantly made. He, who received *too much* and this in an *iniquitous* way, will have it *deducted* from his OVERALL ACCOUNT. He, who received too little, will have it *added to* his account, if he *deserves* it. These are the things that the sciences and many leaders of mankind do not like. This has to be said, whether they like it or not.

- *JUSTICE is identical with GOD, it is nature's essence!*

8.3. Questions and answers

Question : (1960) Can you please tell us more about GOD'S JUSTICE?

AREDOS : Most people are not too pleased that divine JUSTICE demands account of *every debt* incurred and this down to the last cent without exceptions. Everything one hears about GOD indicates that HE is supposed to be almighty and merciful. If GOD does possess this characteristic, HE must virtually be a conjuror who only has to say the words "let there be..." and a miracle is performed.

This is how man thinks and this is why he would like to participate in this magic and partake of this miracle. One ardently prays and the ALMIGHTY shows mercy and fulfils the wishes of the petitioner with the words: "Let there be...". Millions and millions of people have relied on GOD'S almightiness and mercy, hoped for it with intense concentration, but the expected miracle did *not* eventuate.

Is it possible that GOD is *not* merciful or that HE *doesn't* even exist or that HE is *not* omnipotent after all? – Who can make heads or tails out of this? – What does seem to *be confirmed* every time though is that such prayers *are never answered* and that one cannot rely on GOD'S almightiness and mercy. It therefore comes as no surprise that hundred of millions of people are not interested in GOD and prefer to rely on the promises made by governments and political parties. They much rather have a *pseudo-religion* and a *pseudo-god* than a biblical one who does not help and who does not promise anything.

Many think like that!

However the real, almighty and merciful GOD is just!

- HE does not listen to the requests of HIS children that *go against* their own development, examination, probation or atonement. This is why the CREATOR usually reacts *differently* from what is expected.

He would certainly not be just if were HE to fulfil all these requests. Well, HE would actually support injustice, wreck havoc on the bodies and souls of HIS children and trespass against HIS own LAWS!

All the numerous unhappy, underdeveloped and ignorant people, who would now like to know more about GOD but who will eventually end up persecuting HIM, do *neither* hate HIM because of HIS doubted existence, *nor* HIS obscurity, but *because if HIS JUSTICE*, of which most people have no concept of or a completely wrong concept.

- It wouldn't help one single human being on Earth, if GOD would reveal himself *in the form of a person*, because this would put an end to man's *free self-determination* once and for all and man on Earth would end up fearing GOD more than trusting HIM. Apart from that, he would simply renounce responsibility for all his deeds and leave it in the hands of GOD. This is why such expectations are impossible and illogical.
- The CREATOR only conveys HIS CONCERNS to *the spiritual realm*, that is to say, to the spiritual MESSENGERS and HELPERS, whilst the HEAVENLY HOST is there to take care of all *physical matters*.

This is how it's been from the start and this is how it will remain – for ever and ever!

- GOD is *omnipotent* in HIS role as LAWGIVER.
- HE is *merciful*, because HE purges injustice with HIS JUSTNESS.
- HE is *merciful*, because HE *is not vindictive* once an injustice has been *purged*.
- *We will only be able to understand GOD through discernment, repentance and atonement.*

Question : There are a lot of otherworldly messages and prophecies and not all of them are genuine and true. How can we discern between what is GENUINE and what is false?

AREDOS: A *genuine* PROPHECY will never portray GOD as an avenger! GOD represents LOVE, PATIENCE and JUSTICE. No prophecy may deviate from these virtues. You say: "GOD is merciful". This is the greatest mistakes terrestrial theology makes! GOD is *not feeble* and placable, but *absolutely* JUST! GOD never sins against this JUSTNESS, ergo never against HIMSELF. The most ardent of prayer will not help here!

- *Do not ask for mercy, but for JUSTICE, you will always receive that. However never confuse JUSTICE with revenge, this would be another, a very severe mistake.*

Question : There are also those who imagine that GOD is *benevolent*. How are we to understand this benevolence?

Answer : Who says that GOD is benevolent? – GOD is the LAW and benevolence is *a part of it*; because the LAW sends sunshine, rain, snow and storms, calmness and tempests, hot and cold conditions.

- *The LAW is manifested in everything!*

I am trying to explain that in spite of love and hatred, in spite of anger and sorrow, the august and superior LAW is *always effective*. GOD must be *within* the LAW, otherwise the LAW would not constitute a compelling FORCE.

You will come to know and realise one day that *suffering is also* a part of GOD'S LAW; because its effect also makes a contribution in regards to the redemption process. Mankind would become extinct if all your assignments *were easy*, if there was no distress, no temptation, no difficulties, if life was a pleasure trip. – *Nobody* on Earth goes through his terrestrial existence *without* experiencing suffering and pain, *without* grief or worries. *No* terrestrial existence is blessed with *only* sunshine and no clouds. I have never come across a situation like that.

Question : What is this divine GRACE, CHRIST promised us long ago, all about?

ELIAS : *GOD'S grace can be found in reincarnation, it offers people the opportunity to recognise their mistakes and to atone for them in another life!*

However CHRIST'S promise is that of *advocacy*. A debt can be mitigated if the person concerned has an advocate. Everybody can make a contribution in regards to mitigating the debt of somebody else, through advocacy.

Question : What blame do the people on Earth bestow on GOD?

ARGUN : HIS JUSTICE!

Question : Many religious zealots hope for a grandiose final tribunal. Bible pundits indicate that this is certainly a possibility and that it is supposed to happen in *our lifetime*?

AREDOS : Bible experts and members of sects in their religious zealotness believe that they are *far better* than all other people. They promote themselves *above others*, thereby committing the worst of sins, the sin of lack of humility. All of them hope that GOD will pounce on the rest of humanity with fire and lightning; however they only wish this to happen to *other* people, *but never to themselves!* If GOD, in HIS JUSTICE, would listen to this appellation, HE would do the exact opposite and destroy those that are so cruel to others who do not want to believe in this nonsense.

Question : Is GOD amorphous?

AREDOS : HE is an all pervasive, eternal LAW, ergo a GREAT SPIRIT, the PLANNER and CREATOR of LAWS. This naturally requires a CONSCIOUSNESS, because *no* thought, *no* feeling and *no* perception can be grasped without CONSCIOUSNESS.

There is however no PLANNING without experience and without deliberations. Most people balk at the fact that GOD is *invisible*.

But I ask you, have you ever seen a *human* consciousness?

After all, you are aware that you have one!

- *GOD is a SPIRIT that permeates everything eternally.*
- *HIS OUTWARD APPEARANCE is the universe.*
- *HE is the sentient, planning CONSCIOUSNESS of nature.*
- *HE is the KEY that opens all doors.*
- *GOD represents EXPERIENCE, LOVE and PATIENCE.*

He, who looks for GOD in *human* form, will never find HIM. – Please never equate HIM with human beings. You are being misguided by the bible in this respect. After GOD, man on Earth is not the highest creation by a long shot. GOD has co-workers that number beyond all description.

- *Nobody comes into contact with GOD even after their demise, even though HE does exist and HE does represent the apex of all things. However GOD has HIS REPRESENTATIVES, they regulate a lot on HIS behalf and they are designated to look after man.*

Why are people ashamed to speak the word “GOD”? Only false religious perceptions can be blamed for this.

GOD has *his* TASKS.

You have yours.

It is certainly not true that GOD is *without* a sentient CONSCIOUSNESS. To every human being, HIS CONSCIOUSNESS is unimaginably INTELLIGENT, POWERFUL and IMMENSE. As GOD is eternal, you are unable to comprehend HIM, because what could the term “eternal” possibly mean to you? – You cannot even comprehend distances and velocities.

Therefore leave GOD in peace, but *respect* HIM!

I know that you need something to help you *imagine* what GOD looks like. This is the reason why you have replaced HIM with CHRIST. –

This is also an aberration!

You know what electricity is and you also know the effects of gravity. This already gives you a couple of examples. –

- *Imagine GOD as a sentient ENERGY, namely the greatest planning ENERGY that exists throughout the universe. But do not forget all HIS REPRESENTATIVES in he process!*

Question : Do you know *where* GOD'S DOMICILE is?

AREDOS : According to our experience, GOD'S DOMICILE is everywhere where there is true LOVE.

- *Wherever there is no LOVE, there is no GOD!*

However LOVE can be *everywhere*. – This is *why* GOD is *omnipresent*, that is to say, unlike all other beings, HE is without limitations.

Objection : The Churches hold the opinion that GOD is almighty, that is to say, that HE is no longer in need of additional experiences. That HE is perfect.

ELIAS : Let us assume that a scientist makes an invention that brings the desired results. He therefore achieved what he set out to do and his invention functions the way he wanted it to work. Can one therefore say that the invention is perfect? – No! The perspectives that result from this invention and to what degree it will *subsequently improve* other inventions can not be foreseen by the inventor.

The development proceeds along a *prescribed* path, but *nobody* knows where it will end. New opportunities also arise for the CREATOR moment by moment. However you must remember that GOD had eons of time at HIS disposal to come up with HIS INVENTIONS.

Question : Is GOD almighty?

AREDOS : The Churches say: Yes. I say: No! – You know what a perpetual motion machine is: A machine that runs by itself and never stops. GOD is bound the LAWS HE has passed. These laws of nature are *perpetual*, they never stop. The whole universe is therefore *perpetual*, it will never stop moving. No amount of “almightiness” will make a difference in many instances.

- *If GOD did not abide by HIS LAWS, HE would have to abrogate some of HIS LAWS and this would spell the end for the universe!*
- *ALMIGHTINESS is meant in regards to the CREATION that has been called into life so far, it is so unimaginably profound that no scientist will ever be able to comprehend it all.*

However GOD'S antagonist is *also* a part of CREATION, but he has unfortunately *fallen by the wayside* and he is unable to leave the dead-end-street he is in for as long as *mankind* keeps him there.

- GOD will *never abuse* HIS ALMIGHTINESS, something a lot of people would like to see happen. – There are some paradises to be found amongst the many stars.

You should not apply the term “ALMIGHTINESS” in regards to the situation here on Earth, because this planet has been designated to be there for *your redemption* and you have actually made quite some progress, but not within *one single* lifetime!

Question : Many people who contemplate religion form the opinion that if GOD was almighty, HE would have to change everything. One thereby accuses HIM of the sin of omission. What is your opinion in regards to this?

ELIAS : **This is a great mistake!**

If GOD would use HIS ALMIGHTINESS *to coerce* every human being, not one *free* human being would live here on Earth, only HIS robots and marionettes. All of CREATION would then have lost its meaning. This surely must make sense!

You can see just how *illogical* most human beings are, even if it is in regards of their own or some other eminent personality. War is proof that this is right!

8.4. GOD'S ALMIGHTINESS (Transmission from the year 1958)

Many of you, well, I say *most of you*, are ill. Many are poor and needy. Many are exposed to persecutions and others are unhappy and desire riches. War threatens with destruction, crops are endangered and the churches are not visited as much as they should be. – Deprived people despair and are no longer able to believe in GOD'S almightiness. The rich believe that they do not need to go to church, as everything they have is due to their own intelligence.

But if GOD really is ALMIGHTY, HE could get rid of all evil. HE could for instance *make* the poor *rich* or *prevent* wars or HE could make everybody *healthy* and *free* them from pain.

A desperate person prays to GOD, because the bailiff seized all his property, and GOD does not hear him. HE does not allow this desperate person to win Lotto. However criminals can rob and live in luxury, politicians can plot intrigues and the ungodly can make nations go to rack and ruin.

In spite of all this evil, GOD remains inactive and mute.

This is why many feel that we do not need such a “powerless God”, we have conceived this “God” who is just an idol ourselves. But now, that we are enlightened, we no longer need superstitions, nor imagined idols not even made from wood, we pull ourselves together and make some clear deliberations after which we energetically get rid of him, so that we no longer rely on aberrations and no longer live in false hope.

These people have their own point of view and they look at their existence, their fellow men and the HIGHEST OF ALL from *this* position. They forget that GOD is GOODNESS, MERCY, WISDOM, EXPERIENCE, PATIENCE, LOVE and TOLERANCE. However all the things man desires *contradict* GOD'S characteristic. Man's thoughts are *negative* and his actions wrong:

- When the harvest is good, the surplus gets thrown into the sea.
- When he's healthy, he abuses his health by taking poisons or by depriving himself of sleep.
- If he is rich, he elevates himself above the poor, exploits them and persecutes them or enslaves them.
- When GOD rescues someone from hardship, this someone is then ungrateful and soon completely forgets HIM.

All of this has *nothing* to do with GOD'S ALMIGHTINESS! GOD *could* do all the things human beings wish for, but all of these "acts of God" would turn into a dangerous boomerang against HIMSELF. Mankind would *not be helped*, but it would certainly help the devil! GOD is a FATHER and people are HIS children. These children are *inexperienced, dumb and egotistical, disobedient and negatively influenced*.

- *No child has ever turned into a decent and proficient human being by being showered with gifts and benefactions!*

GOD requires sincerity, stability, dependability, trust, LOVE, patience, selflessness, in a nutshell, HE needs children HE can be *proud of*, HE can *employ*; children HE has *tested* and *tested over again*. GOD requires people in *responsible positions*, because He has no other positions and employment on offer.

Those that do not seek positions of trust, those that do not seek exalted, well-paid positions in GOD'S house and organization must seek their fortunes somewhere else. Evil has positions available where loafers and the discontent, where criminals and know-it-all find some sort of employment. *However their boss there is a crook and a cheat!*

8.5. About ALMIGHTINESS (Transmission from the year 1967)

Well, religious communities have managed to *incorrectly* interpret GOD'S ALMIGHTINESS for thousands of years. I know that it is very difficult to revolt against those kinds of *dogmas*, but conditions prevalent on this planet verify the kind of terrible consequences these mistakes can produce.

The faithful, but atheists also, have a *completely false concept* of GOD'S ALMIGHTINESS. It therefore comes as no surprise that atheists completely reject an ALMIGHTY GOD, because this *dogma* continuously bumps into an infinite number of contradictions.

- *A GOD in a human sense does not exist!* One must finally and energetically get rid of this nonsense. Once the GOD-CONCEPT has been rectified, the number of atheist will also be reduced. One should not simply dismiss them, because *some* of their deliberations are *correct!*

Let's get down to brass tacks: GOD is just a word. However, it always depends on the *correct terminology*. The concept most people on this planet have of GOD is completely false.

- *GOD is a NATURE SPIRIT, endowed with the greatest CONSCIOUSNESS throughout the universe. The extent of these THOUGHT VIBRATIONS encompasses the whole universe. GOD is the central UNIVERSAL CONSCIOUSNESS, that creates, informs and controls everything.*

However most people do not know what a NATURE SPIRIT is. NATURE SPIRITS exist in their billions and beyond. All of them have important tasks to fulfil in regards to maintaining Mother Nature. But GOD is the greatest SPIRIT amongst them all. HE has *the last say* in critical cases. All of this is in regards to the great UNIVERSAL CREATION.

A *different* ORGANIZATION is authorised to look after the welfare and the preservation of mankind. It is a spiritual realm, enlivened and populated with human souls, *that looks after the people on Earth*. The contact happens through the spirit, which is at the disposal of every human

being and every otherworldly soul in equal measure. The churches have come to the conclusion that GOD is ALMIGHTY. They arrive at this conclusion, because they say that CREATION verifies this ALMIGHTINESS.

- *Nothing is actually impossible for GOD, because the attainment of a goal is only a matter of time; it can take eons. GOD is patient and knows no time.*

It is however incorrect to regard this ALMIGHTINESS as something every human being on Earth could utilise. No prayer helps here, even if it is expressed in all seriousness.

- *Man's free will is a LAW, a DIVINE TABOO that has nothing to do with ALMIGHTINESS.*

The pious pray until they're totally exhausted in order to avert or to change a fateful situation. Nothing happens. – Even CHRIST had to experience this as a human being. It was a bitter pill to swallow for HIM also. – GOD does *not* utilise HIS ALMIGHTINESS to help a human being to gain fame and fortune. HE also does not fight and vanquish the enemies of a human being or a nation.

- *If GOD would get involved, the fulfilment of the personal request of a person here on Earth could take longer than a human lifetime.*

Let us therefore stop all this nonsense!

Every human being has his or her personal GUARDIAN ANGEL who does the best it can. If a human being does not have the support of his fellow man or his own peoples, he certainly *has to rely on his own merit* in order to cope. *All* people must however bear responsibility for all their actions that stem from their *free will*!

8.6. GOD is ALMIGHTY (Transmission from the year 1961)

You say that GOD is ALMIGHTY, but GOD is not a magician. HE is also subject to lawful development. GOD is an autodidact, meaning that *HE must respect* all the laws of nature HE has effectively called into being! If GOD would *not* do so, HE would automatically suspend all HIS own laws of nature through HIS behaviourism.

- *A law will only then have validity when the lawgiver also abides by it. GOD is therefore also bound by space and time. HIS ALMIGHTINESS is not magic, but always remains within a sensible developmental framework.*

It is very sad to see that your theologians have not given this enough thought!

When you pray to GOD so that HE grants you help, almost all of you erroneously believe that this HELP must arrive *over night*. Many of your *self-inflicted* difficulties and adversities are so complicated that it requires a lot of time to alleviate them. How often must many HELPERS and SPIRITS be authorised to make appropriate preparations? - How often must many *approachable* people *be inspired to participate* in providing this HELP? – You base your ideas on false beliefs and you have an erroneous concept of GOD'S ALMIGHTINESS. There is also the fact that man possesses his *free will* and that he may *not be coerced* into undertaking anything.

- *GOD also has HIS FREE WILL and as all intelligent life originates from HIM, every intelligence, whether positive or negative, must retain its own will. This is the reason why demons and Lucifer also have their own free will.*

GOD could certainly *abolish* this free will and HE *could* also eliminate injustice through coercion. However, GOD as autodidact, as GIVER of HIS own LAWS, would by exercising HIS FREE WILL, cease to abide by HIS own LAWS and would therefore *have to bow to the inevitability of events!* Mind you, I only indicate the mistakes *you* make by *abusing* the application of your own free will!

- You yield to events around you.
- You yield to your environment.
- You are not independent enough and you do not utilise your free will *correctly*.
- You kowtow to the persuasive powers of the negative and you allow yourselves to be totally controlled by evil.

However, you could be *partially* almighty through the *correct* application of your own free will. You should also *emulate* GOD by being autodidactic instead of listening to the ululations of some people who behave like a mob of voracious wolves. He, who is an autodidact, self-educated as it were, does not listen to sanctimonious promises of pompous people, but is guided by his *own power of reason* and not by the mistakes of alleged pundits that only lead to false prejudices.

- *Emulate GOD and rely on the latent, divine FORCES within you!*

GOD did not have one single TEACHER at HIS side that could have advised and instructed HIM. HE had to *rely on HIS own merit*. HE is SELF-TAUGHT and HE only has HIS OWN EXPERIENCE at HIS disposal. HE learned very quickly, because HE was *unable to think in a negative way!* You should therefore also be an autodidact in your divine SEARCH and THOUGHTS. GOD being GOD *shows you* your own potential, if you look for the positive and if you do not think negatively and superficially.

- *As soon as you doubt the immortality of your soul, you already think in a negative way and you retrogress!*

9. The devil – yes or no?

9.1. Is there a devil?

The word “devil” is world-renowned and it is connected to a very specific concept.

- Many tellers of tales have done *immeasurable harm* to the TRUTH, by *specifically* making *the devil* a figure of ridicule in fairytales!

The devil’s existence represents a hitherto unconceived tragic for the people on Earth. This is the reason why religious circles sometimes call him the “devil incarnate”, because his existence is *not* fantasy, but a *real* existence.

- *The devil's, Lucifer's existence is very easily verifiable, actually a lot easier than GOD'S EXISTENCE. – That we simply see an evil principle at work here is not appropriate!*

It is also utterly wrong to simply look upon GOD *as a principle*. Both of them are personalities, both exist, both can see, feel, think, move through space and both have a lot of POWER over every human being.

- The devil's villainous behaviourism consist in the fact that *he likes to disown himself* by inspiring people to believe that he doesn't exist, that he is only a figure of imagination.

Every spiritist, every spiritualist and every psychic person *knows* that the devil is a reality that appears on the scene *much quicker* than any good soul or any MESSENGER of LIGHT! Every novice to the supernatural sector must not take his eyes of the devil. However he hardly ever turns up in person, because he has a large horde of sidekicks and followers. This is no superstition even if some know-it-all fancy themselves to be ever so clever.

- *Lunatic asylums attest to the living existence of the devil!*

It is a sad fact that we look upon him as the “prince” of this Earth. (Prince of darkness) He actually has the *majority of people* on *his* side, even though only a few people have an idea about what kind of spiritual monster they serve. There are thousands of people who miserably go to rack and ruin in lunatic asylums because they are possessed by one of the devil's spiritual helpers.

Even *pious* people are *not* spared either! –

Even CHRIST was harassed by him!

- *It is an inexcusable insanity and a mistake to negate the devil's existence and to interpret his oppressive activities as religious lunacy. One should rather analyse the dialogue between a possessed person and a devilish spirit, a demon. These conversations offer an accurate picture of his true existence, conversations take place that no human being on Earth could come up with, because they lack all experience in regards to this. The devil however has this experience and he certainly applies it!*

Almost all house-spiritists become completely convinced about the reality of a spiritual existence after one's demise after a few, well, actually after some simple séances, because they do not come into contact with ANGELS, as hoped for, but *with demons*, who in their stupidity talk in a way that should immediately raise suspicion in every logically thinking human being. *Dr. Martin Luther* was no exception and became acquainted with the existence of a terrible spirit. The German poet *Goethe* didn't fare better either. He also became acquainted with the devil and endeavoured to explain his existence with all the logic he could muster.

- The satanic cults that exist here on Earth are *no fantasy*, but a massive reaction of all of humanity in regards to a negative reality that makes an appearance everywhere.

9.2. Something about the antagonist (Transmission from the year 1973)

Pope Paul VI warned about the devil by emphasising that the devil *exists*. What are we to make of this? Who on Earth still believes in the devil? Is he a person the way the pope portrays him?

Well, the word "GOD" is used by everyone. "In GOD'S name" is used at important events, because GOD is not just the CREATOR, but also the HIGHEST ADJUDICATOR. However there is unfortunately one evil in the universe that GOD was unable to eradicate, namely GOD'S antagonist who is the unfathomable enemy of GOODNESS.

GOD'S antagonist is *not a person* in the true sense of the word, the way GOD is also *not a person*. However both of them are endowed with a CONSCIOUSNESS that is equipped with enormous POWERS. *Both* of them are therefore the universe's PLANNERS, INFORMERS and CREATORS.

It is therefore *incorrect* to call GOD the *only* originator of all there is. The antagonist, the anti-spirit, also *makes a contribution* in regards to the origin of everything there is!

- *One should not make the mistake of regarding the antagonist as dumb or harmless! He is crafty, dastardly clever, unimaginable full of hatred and he possesses an insane craving for destruction.*

He does however also have *his limitations*; but he makes absolute use of his powers within these limitations. Every pact entered into is useless, because the antagonist does not keep promises and he is bereft of mercy or emotions. All his *positive* feelings are *dead*! He lives a vital existence in his rage and he unleashes this rage on CREATION wherever he can!

It is very difficult for man to comprehend this discontentment.

The CREATIVE PROCESS is still *not finalised*. One *still* PLANS, one still makes ALTERATIONS and NEW THINGS are still being CREATED. The devil also has a hand in this! He was determined to hold the HIGHEST POSITION in the universe and because this was not possible as GOD was the MORE POWERFUL, his LOVE turned into hatred.

- *Human beings are also still being modified and the devil interferes with these modifications and with this development. He is to blame for many illnesses and diseases and he built up his own negative creation, which he directs and which he sends into battle against GOD and HIS WORKS. However the devil can influence people in such a way that they will also join the battle and destroy one another in the process.*

Something the pope *failed to mention* is the *extent* of the BATTLE of ARMAGEDDON. It is the culmination of the dispute between GOOD and evil. It is a sign that a battle is in progress, if the power of the devil becomes more prominent. The antagonist's most perfidious characteristic is that fact that he does not want anybody to believe in his existence. *He remains in the background* and he prefers to remain unrecognised.

- Do not allow yourselves to be guided by stupid *fairy tale images* of the devil. He is the most dangerous intelligence throughout the universe. *Satan attacks there where one least expects him to attack*. But you mistakenly say: "Why does GOD allow this to happen?"

But GOD is diplomatic and HE knows whether a danger can be averted or not! GOD can certainly wait and HE does *not* use raw force.

- *GOD cannot kill the devil. – But there is the possibility that the devil will go to rack and ruin, but not in the foreseeable future. He has his organization, his hierarchy and it possesses the powers of mental influence. Therein lays a great danger for all of you. – The pope is correct when he warns you about this danger!*

9.3. GOD and the devil (Transmission from the year 1962)

- The people on Earth blame GOD for mistakes *the devil actually made*.

All the misdeeds and mistakes *committed by people*, because they have decided to side with the devil's organization, are a part of this.

But what is the connection between the devil and mankind?

On hand of scientific and all other knowledge, what image should people have of the devil?

- *The devil is the most fearsome thing man can ever imagine with his consciousness. This unique and most dreadful concept is the greatest evil that exists throughout the cosmos.*

Your negative philosophy presupposes GOD in the efficacy of Mother Nature, but one does dispute his human-like personality. The same methodology is applied in regards to the concept of the “devil”, he is simply regarded as a force that works against Mother Nature.

What a mistake!

- *Both of them are actual, spiritually existing personalities with human-like characteristics. However both personalities have their own ORGANIZATION!*

You will now ask whether a human being has ever had *direct* contact with GOD or with the devil. If you make an effort to take the religious development of mankind into consideration, you will find the following:

- BUDDHA fought with Mara, with evil.
- MOHAMMED also got utterly enraged fighting evil.
- ZOROASTER was also not spared and recognised the devil's organization.
- CHRIST was also attacked. He rejected the evil one.

9.4. The great negative (Transmission from the year 1962)

- GOD has many pulpits and preachers, but evil preaches *amongst the people!*

You stand in awe in front of churches and marvel at stone statues of angels or the colourful stained

glass windows from yesteryear, where pictures of angels have remained intact after all these years. Many of you could say: “If only angels would still exist so that could come to us, especially to me as I am filled with worries and as I experience certain hardships the people around me have no understanding of. Angels must almost certainly be a fairytale fantasy”.

Just a moment! – Fairytale fantasy?

Where do fairytales actually come from?

The most beautiful naturally come from the Orient, from Persia. Fairytales are not as invented as one assumes, they have been passed down orally for generations and poetically embellished with beautiful words. Specific impressive supernatural experiences or a glance beyond the doors that lead to another REALM have provided the impetus for these fairytales.

However teller of tales like to exaggerate a little, but a bit of the TRUTH remained behind: One could see angels. – *Not everybody* of course, but psychically gifted people, able *to meditate*, for instance great artists in the field of music or painting, certainly could. Angels still come to great artists and spiritually mature people even now. They sometimes cannot be seen in full form, but rather as a faint light emanation. However their voice can certainly be heard.

- *A spiritually mature person who has talked to an angel keeps this experience to himself.*
- *A spiritually immature person, who had this happening to him, goes haywire, but he is not believed and he is locked up.*

It is easier for Lucifer. He is the great negative. He doesn't show himself to people, otherwise they would fear him. However his abettors indiscernibly mix with the populace. His words are *promises of terrestrial affluence, progress, power and faultfinding* and *mockery* of GOD and HIS ANGELS. He will never say: “This is the devil speaking” or “This is a demon speaking”.

He speaks with the most powerful suggestion technique directly to people's brains: “I am not stupid.” – “You cannot make a fool out of me.” – “I know what's going on.” – “After me the deluge.” – “This is laughable.” – “I have had enough.” – “I showed him what's right”. – “Friends and comrades.” – “Citizen and workers.” – “He who has the money, has the power.” – “We will now take care of everything.” – “Watch out, I'm coming.” – “Clothes make the man.” – “He, who has problems also has liqueur.” – “I have no idea what art is all about, because art is what the artist imagined something to be.” – “War is justified.” – “Nations must have soldiers.” – “Playing cards bans boredom.” – “The man is the master at home.” – “Children must obey to the letter.” – “You have no idea what upbringing is all about.” – “Nobody knows what I have been through.” – “As ill as I am...” – And on and on...

And then there is a whole series of curses – who doesn't know them all? Or all the jokes one could die laughing over, because they are so crude.

The great negative, the evil one GOD christened Lucifer – meaning BEARER of LIGHT – *seduces people*, because he sends his servants who do not preach from pulpits, but mix with the populace. Lucifer knows where it's worth his while! – The public speaker with his loud mouth, with his sure-fire arguments, is his instrument. People's craving for recognition is the impetus he benefits from. – *Tear the mask from Lucifer's face!*

9.5. The negative (Transmission from the year 1962)

He, who knows anything about religion, also knows that everything DIVINE is always depicted as something *august, ceremonial* and something *unimaginably beautiful*.

This is *one* side of religion.

However there is also a *flip side* to religion, respectively to religious beliefs. The flip side is gruesome, maleficent, deceitful, brutal and extremely ugly and abhorrent. This is what we are told from all sides.

Many of you will have asked themselves whether all of this is really true. As your FRIEND I say to you: It isn't true! There is indeed a negative world that is populated by GOD'S antagonist's great organization. It is the so-called hell. The people on Earth receive a lot of *motivation, orders* and *inspirations* from this spiritual sphere, something most people unfortunately have no inkling about at all. Their affinity with evil turns them into compliant marionettes; however they still *surmise* that they are completely independent human beings.

The highest principal spirit within this hellish sphere is also the most powerful angel that has ever lived next to the CREATOR. However he is *neither an autonomous initiator, nor an independent creator*. This fallen angel does *not possess his own* creative powers, not the way GOD does, he only misuses the ENERGY of the ALMIGHTY SPIRIT. Based on his divine experience and mastery, he creates a world of *negative* existence with this CREATIVE POWER and this *parallel* to the divine WORLD of CREATION.

The fallen angel Lucifer is however a great copier and he takes divine CREATION as his model, *he imitates it*; that is to say, he converts it into something dangerous and malicious. In spite of being a great copyist, he possesses one great aptitude, namely:

- *To mask evil through blinding beauty* and conspicuous uniqueness.

One sometimes talks about negative transfiguration. This is absolutely correct. The demonic is *not always* ugly, but sometimes extremely *colourfully gleaming, gilded, of bizarre shape, speciously conspicuous, brilliantly strange* and *extremely interesting*. Therein lays the greatest danger for all terrestrial life.

- Neither animals nor people sense what is really behind this negative transfiguration: It is hell *doll up*, the *gilded net* of many vices and temptations.

So that you understand me, I will give you only one example from an infinite miscellaneousness of examples:

Take a look at all that cigarette propaganda. The costs involved are enormous. The promotion is *highly artistic and colourful*. The packaging is presented in gold and silver and the accompanying musical compositions remind you of the most beautiful Christmas carols. But the reality is that all of it is simply an inspiration forced upon people. It serves the most enormous temptation to engage in a deadly vice that poisons body and soul and *negatively polarises* man.

- Also take a look at the décor of so-called *dens of iniquity*. Take a look at the décor of *brothels* and *casinos*.

- Take a look at the elaborate covers of *trash novels*, of political and scientific journals full of *aberrations*.
- Take a look at *uniforms, medals and banners*.

But do remember what I told you so beseechingly!

9.6. Questions and answers

Question : There are some theologians who are of the opinion that evil *must* exist to present an *opposite polarity to goodness*. Is this correct or are we dealing with a dogma here?

ELIAS : *This is incorrect!* – When one looks at the whole picture there must be an opposite polarity, that is correct, but one cannot apply this in regards to good and evil, because being good or being evil are *the same kind* of character traits, they are *mental* character traits.

- *Man's logic mentally creates the evil aspect; this already presents an opposite, mental polarity. Man therefore already knows what is good and what is evil. He therefore does not have to do evil in order to recognise goodness.*⁹

Man's fantasy could create any desired situation; well it could at least mentally. One can effortlessly imagine that one can do something evil, something forbidden, and by imagining this one also immediately knows *what is good*. Goodness is always the opposite of evil.

Question : Dr. Martin Luther is supposed to have tossed his inkpot at the devil when he translated the bible?

ELIAS : He saw *one* of the antagonist's *creatures*.

Question : Did Martin Luther actually *see* this creature whilst residing at the Wartburg?

ARGUN : Yes, *he saw it!* – He had a difficult time of it. He was tempted a lot, but he was *very psychic*, hence the ink spot.

Question : Dear ARGUN, we now ask a cardinal question: Did Lucifer arise from GOD?

ARGUN : No! – Lucifer did *not arise* from GOD, he was *created* by GOD.

He is part of the divine CREATION. He fell by the wayside and took his entourage with him. Lucifer *abused* his god-given INTELLIGENCE.

⁹ ELIAS is our oldest guide. When ELIAS takes spiritual control of the circle, it is usually due to the medium. The medium *Uwe Speer* tends to write more legible with ELIAS than with ARGUN, whilst *Monika-Manuela* has a better rapport with ARGUN. ARGUN remains at the side of the medium in spite of this. He also writes his signature under the written memorandum. The answers come from within the SPIRITUAL COMMUNITY.

- *Pay close attention to these decisive words: One always says positive and negative – never the other way round. GOD is also positive and this is why HE is always in position number one. The first word therefore is GOOD and not evil. Even Lucifer cannot change this LAW.*

Therefore trust in GOD, because the Earth's development has not been completed by a long shot.

- *The map of the world will receive a completely new configuration. But before this will take place, man will become better acquainted with the stars.*

Question : You said that Lucifer “took his entourage with him”. Are some of the souls of his entourage incarnated here on our Earth?

ARGUN : No. – *These souls help to establish his resistance against everything that is good. They are his helpers and everything he owns, he keeps firmly in his claws. A seduced soul can of course be rescued from his clutches, but this does not apply to Lucifer's fallen angels, they form a circle around him, they are his negative hierarchy.*

Question : Why do you call the antagonist the “Incarnated One”?

ARGUN : We only do this so we do not use a terminology that would immediately bring like-minded souls into the fray. He is the one who once stood at the side of GOD'S throne, an angel who didn't like the fact that he *didn't* have *all this* MIGHT and POWER in *his own hands*. This is why he entered into darkness in order to fight *against* the LIGHT and against goodness. The term “Incarnated ONE” is a misnomer, *a term created by man*. He is SPIRIT!

Question : The devil, as the representative of evil, is not taken serious by the people on Earth. Will this grave mistake be our downfall?

AREDOS : The fact that this humanity is not able to gain self-knowledge and knowledge about their existence in regards to spiritual things is due to their self-inflicted ignorance and this is a great tragic for all. The result of this is people's destructive and negative thought process. One laughs when talk turns to the power of evil.

With all personal misfortune, tragic events and catastrophes one can over again hear and determine that man blames *the CREATOR* with the words: “Why does GOD, if HE exists, allow all of this to happen?” – All I can say to this is:

- *GOD is the CREATOR of all there is. However nobody is capable of comprehending why something evil exists in the universe. The God-given freedom gives every being the power to choose to develop in a positive or negative direction.*
- *It is not within GOD'S principle when a being turns towards evil!*

GOD endeavours to explain this to HIS children. However HE is not prepared to change HIS LAWS, because GOD looks absolutely *further into the future* than will ever be possible for any human being.

- All ENERGIES stem from the CREATOR and man utilises these ENERGIES. Evil people however utilise these FORCES *to destroy* CREATION.

People are very much aware that an evil force constantly menaces the world and creates a lot of unrest. They don't however consider the fact that this force stems from a *superhuman* intelligence.

Writers of fairytales and also church representatives did take this force *into consideration*, but they have portrayed the spiritual character of this force in a *ridiculous* light. A Punch and Judy puppet of the devil can never express what the devil *really means* to this humanity. It is the victim of an unimaginable act of revenge, because the devil's ambitions have been wounded, because he wanted to be *more than* the CREATOR. He neither tolerated criticism nor disagreement.

Many have tried to explain the devil's existence to people. They ended up being ridiculed, because the devil always takes immediate counter measures. The present pope (1975) also solemnly warned about this danger. But what do people say about this? – "This is just religious nonsense!"

- *But can we really expect that the whole world would take a different direction if people were more inclined to believe in the devil?*
- If people were aware just how much telepathic contact they have with his spiritual entourage, they would slowly come to their senses.

Objection : The "enlightened person" unfortunately does not believe these cock-and-bull stories.

AREDOS : The dilemma between GOD and the antagonist represents the greatest tragedy throughout the universe. The people on Earth *have no idea* what this dispute really means for them. There is not an ounce of superstition of fairytale attached to this. We are dealing with a REALITY that could not be more factual.

Sure enough, the clergy have *misrepresented* this negative force, the writers of fairytales have *belittled* the devil and made him look *dumb*. But the devil is crafty, that is to say, he is smart in a negative sense. Through his helpers he inspires people to think that he doesn't exist. This helps him to ply his trade *more easily*!

- *All the destructive character traits people display here on Earth are traits that initially originated in the devil first.*

These characteristics began to develop during the conjoint CREATIVE period with GOD. A fanaticism developed within Lucifer that rendered him devoid of *subjectivity*.

Question : Some theologians insist that Lucifer *works* for GOD. Can you tell us something about this?

AREDOS : Such a thought is *absurd!* – Mankind does not require this type of tuition! In regards to Lucifer, we are dealing with the most blatant case of retrogression. All evil characteristics developed from *within* Lucifer himself! He *also didn't* require any

object-lessons for this. GOD never endowed Lucifer with such wickednesses in order to redeem mankind in this way.

- Evil and negativity are *not* something that *is part* of CREATION; they were *created* by a spirit that *behaves* in a negative way, one that shies away from advancement.

These particular theologians do not deserve to be called theologians, because they are total failures.

Question : There are priests or also “enunciators of salvation” who are of the opinion that Lucifer is virtually one of GOD’S “employees”, there *to test* us and to punish us. How can we correctly comprehend GOD’S almightiness?

ARGUN : This is a very *primitive* way of thinking. GOD has completely different ASSIGNMENTS to perform within his universe than people can ever imagine. The average person has spirit, a mind and a soul and all he has to do it *to correctly utilise* them and this Earth would *really* be the divine PARADISE. However man seeks his fortune in the unreachable stars and prefers to fight with cannons.

People question GOD’S competence when they blame HIM for all their *self-created* problems. This is a great mistake, because almost all of them fall within the competence of man. A great mistake is thereby spread about GOD’S almightiness and it usually comes from the churches.

- The otherworldly TRUTH is rejected, but one does believe in the stars, because everybody can *see them!*

I therefore advice you to exclude GOD’S almightiness from all terrestrial affairs and this wherever possible! GOD no longer bears responsibility here; it is now man’s *own* responsibility.

Man must know where his limits are and he should only move within the boundaries of these limits. War also means an *overstepping* of these boundaries and it is neither approved by GOD nor the positive spiritual realm!

10. Negative creation

10.1 The borders of the universe (Transmission from the year 1960)

The universe does not just comprise the space where there are stars. Wherever there is radiation present, a VIBRATION as it were, the universe is also present. The universe has *no* curvature and it is *not* in the shape of a sphere. It is *constant* and it does not expand.

There is a spiral within the universe you call the “Milky way”. This spiral spins on its axis and it is made up of an infinite number of cells. Every one of these cells represents a self-contained system and plays its part in the whole structure. The universe therefore expands a lot further than you assume. Unimaginable forces are at play in regions where stars no longer shine.

- It is *a mistake* to believe that wherever GOODNESS reigns, evil must also be represented. These two polarities do not exist fifty-fifty.

The belief that the devil has a hand in *everything* is based on a *biblical fallacy*. A LIMIT has been set in this case. His negative force does not spread all too far. But this battle certainly has to be fought here on Earth.

- *GOODNESS throughout the universe is unimaginably greater than evil. The ratio between GOOD and evil is like the size of the solar system compared to the size of the Earth and its satellite, the Moon!*

Lucifer's power is *localised* within the universe, it is *mainly restricted to planet Earth*, because mankind provides the right *prerequisites*. Lucifer's beguiling manoeuvres bring the best results here. The people on Earth are easily misled and blinded. Lucifer's and his hordes chances for success are quite hopeless from a purely cosmic point of view, because the POSITIVE represents *an enormous superiority* throughout the universe. But Lucifer wants to unhinge this world in spite of this so that he can at least score a partial victory.

- *The universe has no dimensional boundaries as it were.*

However CREATION, in its visible and also *invisible* aspect, is located within the universe. Every action is monitored by an experienced INTELLIGENCE, because no power station runs by itself if it isn't supervised.

All of space is illuminated. It does not require an atmosphere to make things visible. The rays of light emanating from stars and suns proceed in a direct line from the core of the greatest energy source. These rays of light can however *deviate to some degree* when they are forced to change course by other energies. These rays rush through certain *areas of disturbances* when they come from enormous distances away. This results in optical illusions, for instance the huddling together of stars that are behind these areas of disturbances.

There are infinite ASTRAL REGIONS in between all the star systems and they have been created by the VIBRATIONS of mental imaginations. We are dealing with a SUPERLATIVE CREATION here that *exceeds* your power of imagination *by far*. This world is also ruled by spiritual LAWS.

- *The universe's intelligent ORGANIZATION is magnificent and enormous. Even we do not have a complete overview, because it is so enormous.*

There is no such thing as "impossible" in the whole universe and GOD'S REALM is part of this. But there are LIMITS, particularly when one thing or another is not considered advantageous in regards to the universe's progress, as it might do some damage. Lucifer's interests are directed at these impossibilities, because he wants to push beyond these LIMITS. But as he now possesses only a *little* influence over physical creation, he uses the people on Earth *as his instruments*.

10.2. About CREATION

1. When GOD was engaged in creating so well ordered and advantageously according to HIS WILL, Lucifer was one of HIS most eager BEARERS of LIGHT, keen to perform

some the great CREATOR'S most arduous TASKS. Every day was an eternity of trillions of years.

2. After GOD created the Earth and light, HE proceeded to separate water from land in order to give HIS organic life the opportunity to exist on this Earth. HE showed Lucifer how to accomplish this – and lo and behold, it was good.

GOD said to Lucifer:

3. I AM LIFE AND LIFE CAN ONLY COME FROM LIFE. I AM SPIRIT AND SPIRIT CAN ONLY COME FROM SPIRIT. I AM THE BEGINNING AND THE END ALL AT ONCE. I AM THE ETERNAL CIRCLE.
4. I AM MOVEMENT, I AM ENERGY. ALL MATTER IS MY MOVEMENT, MY ENERGY; THIS IS WHY IT DOESN'T MATTER WHETHER I AM IN A SOLID OR ETHEREAL STATE. I AM EVERYWHERE WHERE THERE IS MOVEMENT AND MOVEMENT IS IN ANIMATED AND UNANIMATED BODIES, IN VISIBLE AND INVISIBLE BODIES.
5. SEE, I HAVE CREATED LIGHT AND IT SHINES ON PLANET EARTH, IT SHINES ON EVERY SOLID BODY, SO THAT LIGHT AND DARKNESS SEPARATE FROM ONE ANOTHER. THERE IS LIGHT AND SHADOW SO THAT EVERY LIVING THING CAN SEE IT.
6. EVERYTHING SPIRITUAL WILL EMANATE INVISIBLE LIGHT AND THEREFORE HAVE NO SHADOW AND NOBODY WILL SEE IT, BUT WITH HIS SPIRIT. BUT I WILL COMBINE THE VISIBLE WITH THE INVISIBLE AND SEPARATE AGAIN ACCORDING TO MY WILL.
7. GOD now created HIS living CREATION. HE created microbes and elephants. HE created jellyfish and whales and also a lot more. However Lucifer, in his ambitiousness, didn't want to be inferior so he created microbes and mushrooms (toadstools) – but they were *poisonous*! He also created scorpions, snakes and other evil and poisonous creatures, because he couldn't imitate the perfection the great CREATOR GOD created.
8. This is why Lucifer despaired in his pride and said: "I try everything and I don't quite succeed, enough is enough, because I am also a creator. I will not rest until I have created a whole universe and may it be as successful as I can manage, it will give me pleasure even if it is ever so poisonous. I will trump the CREATOR GOD with my creation, because it will go into battle on my behalf *against everything* GOD created."
9. GOD then created his greatest works, namely man! In HIS IMAGE and as HIS REPRESENTATIVE! He created man in order to allow him to continue HIS CREATION, but according to HIS WILL, to PLEASE HIM and to please man.
10. In his *insane* ambitiousness and his rebellious attitude against GOD, the bearer of light Lucifer however, wanted to imitate GOD. Lucifer wanted to create something in his *own* image. After a lot of work and by imitating, he created *apes and monkeys* in a variety of species – and he continuously tried to create something in his own image until he finally created his masterpiece, *the Gorilla*. – Only then did Satan feel content.

10.3 The origin of evil

- All ruinous characteristics people on Earth display are characteristics Lucifer first developed *within himself*. These satanic, respectively negative characteristics first began on the day of the great CREATION with his *craving for recognition*.

Lucifer tried to trump GOD and he vaunted that he would be able to perform the construction of the universe and all life in it even *more* sensibly, *more* properly and even *better*. One can assume that GOD had to chastise Lucifer over this. This must have wounded the devil's pride and he began to brood over revenge and wanted retribution. Rejection also entered the picture and he began *to hate* GOD.

Satan *revolted* against GOD, but the CREATOR however was not overawed. HE distanced HIMSELF from Lucifer, HIS, up to this point, greatest, most powerful and trusted friend and consequently from the concertedly intended CREATION. Satan saw in this separation the start of open animosity. He couldn't help himself, because he had turned into a contrary character. Lucifer became *increasingly negative*, that is to say, evil in all aspects.

- Satan became completely independent from that moment on and began *to copy* GOD'S CREATION in a negative fashion. He thus had only one thing in mind, namely *to interfere with, to attack* and *to destroy* divine CREATION; he wanted his *own* creation to dominate.

Philosophy has always balked at the fact that organic life fights *against* organic life. This state of affairs was very difficult to equate with the universal WORLD PLAN of a sensible and loving GOD. This is the reason why philosophy continued to steer towards atheism. Nature however does *not* possess discrepancies as such, but what we are seeing here quite clearly is a battle between divine CREATION and satanic creation.

- When GOD created *benign* microbes, Satan opposed them with *malignant* ones.
- When GOD created *good natured* animals, Satan created his *poisonous* scorpions and reptiles.

There is hardly one section of CREATION that has *not* been copied in a negative sense. All of fauna and flora is interspersed with negative fabrications.

Man is verily the apex within the divine CREATION, that is to say, that's how it was carefully planned within the divine PLAN. Satan however contrived many ways and means to *divert* and *distract* man from his divine ASSIGNMENT. He told GOD: "I will take every human being and every soul away from you and win them over and employ them in *my* creation and *my* creation will do battle with yours until I have won the day. Your creation must then submit to mine, because I am more powerful than you!"

We can see the mistake people make when they *identify* their own existence with that of the animal kingdom or with the contradistinctions within the flora of this planet.

- *Man does not have the right to fight himself, respectively, his fellow man!*

Whole nations turn into barbarous enemies that seek to destroy one another in spite of this.

- The insight into the *true reasons* that led to these contradistinctions within Mother Nature is lacking!

10.4. Questions and answers

Question : Within Mother Nature, certain species are engaged in a life and death battle. Man has learned a lot from nature's behaviourism, thereby *justifying* many of his own actions. How do you see this?

ARGUN : There is a negative and a POSITIVE creation. The negative creation attacks the positive creation and this is the reason why it had been called into being. The creator of the negative creation is called Lucifer! The negative creation would not be able to maintain its vitality without cruelty and this is why it is a satanic law of nature.

- Man, as the highest, *rational* and *sentient* being, makes the mistake of *identifying himself with the animal kingdom*. He believes that he can act *like an animal*. He says to himself: GOD arranged the animal kingdom in this way and this is why I *also* have the right to kill.

Question : Did the power that conferred the scent to a flower also confer poison to the snake?

SILVERBIRKE: The GREAT SPIRIT is not responsible for *everything* the devil calls into being! Every human being is a microcosm.

- *You are a miniature version of the universe!*

Everything is present: The perfection of the angels and the evil of a beast. This is why you were given the gift of *free will* so that you can chose which way you want to go.

When I look around in your world I find that there are a lot of things that cause you pain. I remind you of all the wars, all hardships, distress and sorrow. However I also know that the power of the SPIRIT is at work.

- *A far better world will spring from all this sorrow, but not immediately.*

Question : Lucifer called all the poisonous reptiles, insects and plants, damaging viruses and bacteria into being. Should one – as far as it is possible – either ignore or destroy the creations of the negative world?

Elias : The negative creation naturally attacks the positive CREATION and man draws the *wrong* conclusions from this state of affairs. He therefore believes that he also has a *right* to *also* attack CREATION in a most cruel and gruesome fashion.

This is an aberration!

Even though man is a part of the divine side of CREATION, he *indiscriminately* attacks the divine CREATION, for instance his fellow man!

- GOD however tries to *re-polarise* the negative creation so it will become *positive*. Poisonous plants and reptiles could turn out *very useful* in this way. One should therefore not continuously try to destroy the negative side of creation; one should try to make positive use of it.

Objection : But Extreme cruelties take place in nature where the stronger attacks the weaker to devour him. Man has copied quite a lot from this barbarous behaviourism within Mother Nature.

ARGUN : As I mentioned before: There is a positive *and* a negative creation. It is within GOD'S LAWS that the animal kingdom fights for its survival. However man makes the unpardonable mistake of *identifying* himself, as creation's crowning glory, as a *rationaly talented* being, with the animal kingdom. He is naturally allowed to protect himself from the animal kingdom, but he may not include his fellow man in this battle.

Animals have *no* emotions in regards to the cruelties they commit against one another. They only instinctively sense a danger. However man has the capacity to *fully understand* the cruelties committed amongst one another – and *thereby* to doubt GOD'S existence.

- *Mankind would find it easier to comprehend GOD, if was good and kind.*
- *Cruelty is a side effect of atheism.*
- *LOVE is a side effect of a true FAITH in GOD.*

Man *believes* that he's entitled to behave like an animal. He comes to the conclusion that as Mother Nature has arranged it like this in the animal kingdom, *he is also* entitled to kill.

The ever increasing row between good and evil are *signs of the end-times*. The end-times are however *not* the catastrophic demise of the world, but a *victory of GOODNESS* over negativity. You can believe me when I say that GOD will free you from the claws of the demonic powers.

Question : What are the features we can recognise negative creation by?

ARGUN : It is so extremely cleverly masked that it is very easy to miss them. This is his great artistry and it takes time to learn to recognise them. In any case, it is the aim of the negative side to falsify GOD in every respect.

- *The greater one's spiritual knowledge, the easier it is to distinguish between negative and positive.*

Question : Are flies, spiders, mosquitos, etc part of negative creation?

ARGUN : All insects engaged in the *pollination* of fruit trees, all kinds of herbs and edible plants are a part of the divine CREATION. However all insects that *spread diseases* and *destroy* GOD'S CREATION are a part of negative creation.

Question : There are birds that feed on these insects. Isn't there a contradiction in this?

ARGUN : Appearances are deceiving, because there are plenty of birds that do *not* eat insects. If this is the way you look at it, you could also say that: Spiders also belong to the positive side of creation, because they feed on flies etc. We only talk around in circles here. One has to assume that: If the one would not exist, there would be no need for the other.

- *There are planets where there is no useless, that is to say, no negative creation. The people on these planets are also not attacked by any negative creations. Every positive person on Earth has the prospect of getting there one day in as far as he or she wants to, but certainly only in another life.*

The people on Earth generally show unwillingness in this regards and this brings *ignorance* with it. Man's negative characteristics bring *no advantages* and they can only be comprehended by negative people.

Question : What is your opinion of orchids?

ARGUN : They belong to the most noble of flowers. Their colours come very close to the blaze of colours of *otherworldly* flowers.

Question : Why are there so many *poisonous* plants particularly in the tropics?

ARGUN : The tropics are areas where the negative is *particularly strongly* entrenched. It has something to do with the inhabitants there and with the *high temperatures*. The *cult of the dead* plays a particular role here. It promotes the existence of negativity in every way. The night times are filled with demonic trance dances and they irresistibly attract these powers. This is why they promote the nurturing of snakes and other vicious animals. Termites and also soldier ants are *spiritually guided* and they are on the march particularly in this region. Septic diseases are also promoted by the lower spiritual awareness prevalent there. Remember leprosy?

Question : Could one stem the negative development within the fauna and flora in the tropics through a better mindset?

ARGUN : Yes, one could certainly do so, namely through harmonious religious exercises and by adhering to the divine REQUESTS.¹⁰

- *A UNIVERSAL RELIGION based on the TRUTH and spread throughout the world would eliminate all kinds of physical disturbances. There would then simply be no more room for Lucifer's influences.*

Poisonous snakes could be bred in captivity in any case as they are of great importance in the field of medicine.

¹⁰ See: Protocol "Decalogue" in "The Ten Commandments".

- *This is how GOD – using the services of HIS CREATION – leads negativity back into HIS PLAN!*

Question : Does negative creation have the upper hand here on Earth?

ELIAS : As I said before, *Lucifer has his domicile here.* – But what do pundits know about this *negative* creation? It includes all creatures that are directed *against* divine CREATION, for instance poisonous insects, bacteria, toadstools and snakes. Well, you can also add rats and other creatures to these numbers. Man however is also in danger of *joining* negative creation, because he *steps out of* the divine CIRCLE.

Question : The catholic and also the reformed church do not make a distinction between a negative and a positive CREATION. Everything that exists is put down to GOD'S almightiness. What do you make of this attitude?

ARGUN : This is a huge mistake and we condemn it totally. These churches are *devoid of objectivity*. Their representatives might be *arrogant*, but they are also *uninterested* in the TRUTH.

- *No human being will be able to comprehend the reason for his or her existence without taking the rivalry between the physical and the spiritual world into consideration.*

Question : (1965) The terrible state this world is in is enormous and it is *obscured* by the progress of technology. Most people however are unfortunately unaware that next to the divine CREATION, there also exists an opposing, a demonic creation that is engaged in a war *against* GOODNESS. Can you tell us more about this problem?

Answer : In HIS ALMIGHTINESS, GOD could eradicate all of demonic creation in one go, but HE would then have to *begin right from the start* in many respects.

Compared to prevailing conditions on other planets, man has been *pre-programmed* in regards to the concepts of good and evil, because the percentage rate of diabolicalness on *other* planets is *absolutely miniscule*.

The process of redemption on this planet is *very backward*, because the churches are hardly aware what this redemption is all about and party politics absolutely *swart* any attempts at redemption.

The demonic world must be robbed of the very foundation of its existence. Such an enormous endeavour can only be solved through the BATTLE of ARMAGEDDON. This dispute will however still take some time. It has not yet reached its apogee.

Question : Why must man fight a battle with Mother Nature?

ELIAS : Because the antagonist has a hand in this, as he is a negative creator whilst GOD is a positive CREATOR. Both creations are so intermingled that it is very difficult to tell them apart.

- *Nature is incapable of deliberations; it is devoid of consciousness. But GOD is the CONSCIOUSNESS behind positive nature, whilst the antagonist is the consciousness behind negative nature.*
- *If one wants to see GOD in the correct light, one has to see HIM as a COSMIC UNIVERSAL CONSCIOUSNESS, but not as a human-like person.*
- *This also applies to the antagonist; the devil is also not a person but a mental process that inspires his instruments.*

This misjudgement has had the effect that nature was always regarded a compulsory example. Particularly atheistically minded philosophers make this great mistake.

- *Nature in itself knows neither good nor evil; it performs its functions like a robot, like an enormous relay.*

The concerted CO-OPERATION between GOD and man can bring about a situation where this bodacious apparatus we call nature, can perform *even more* dependably and meaningfully to benefit mankind and to please its CREATOR. It is therefore essential to recognise the SPIRITUAL and to opposed, negative creation.

- *One should never select dreadful examples from nature in order to glorify them as archetypes!*

The wunderkind of human ingenuity can force NATURE to behave *less* aggressive towards mankind; because some natural disasters are brought about by negative energies that can be *triggered by man*.

- *Man should hold dominion over planet Earth, but only over planet EARTH! - and not its inhabitants; I mean to say, not over its people.*

There is a possibility that political atheism takes the negative behaviourism of nature as their primary *paradigm*. The first steps in that direction have already been taken. If they continue along these lines, these people will achieve *the same level* negative nature occupies, meaning that they will no longer know the difference between good and evil, no longer feel LOVE or KINDNESS – that they will allow other consciousnesses to do the thinking for them.

- *By comparing himself with generic nature, it can easily happen that he will completely regress back to his original, primitive state. Naturally not from one day to another.*

Question : Does the Soviet Dialectic Materialism (DIAMAT) therefore represent a great danger to the future of mankind?

ELIAS : This is the great danger we are worried about. Once man aligns himself with the alleged insights of Dialectic Materialism, he invariably compares himself to *non-sentient* physical matter.

- *Man should rather begin to emulate his CREATOR, but before he can do so, he must become aware that the immortal spirit reigns over matter.*

Question : But isn't nature's archetype authoritative, as GOD and NATURE are supposed to be identical?

ELIAS : Man stands above nature, but *never* above GOD. Man looks upon nature as something that is self-evident, something that does not require an INFORMER. In any case, the law of the jungle reigns in nature and this is where a great mistake is being made.

- Nature is something *purely physical*, it is a *concrete* concept that does *not* recognise characteristics like kindness, LOVE, trust, mercy and considerateness. GOD on the other hand is an *abstract* concept, but one that does *possess* all of these characteristics.

Question : Many serious thinkers find it difficult to understand why the stronger devours the weaker?

ELIAS : Whether man wants to believe it or not, this helps mankind in one way or another. Imagine just how quickly the whole world would end up in an inhomogeneous situation. However there is a deeper meaning to all of this. GOD knows exactly why.

- Woe to man if he would begin to senselessly exterminate fauna.
- An animal feels pain. It does suffer, but *it does not think like a human being* and it doesn't ask why.

Question : Dialectic Materialism explains its stand based on this behaviourism, namely that human beings have the *same rights*. How do you see this?

ELIAS : The mistake being made is very obvious: Because people *identify* too much with animals or assume that they *descended* from apes.

- *An animal doesn't know what it does, however human beings do!*

11. Negative characteristics

11.1. Malicious glee (Transmission from the year 1974)

Well, no objections can be raised against being pleased, being joyful, but it is always a question of *what* one is pleased about. Feeling joy can be positive and even strengthen people and heal them. There is however also a *negative* joy and no philosophers have even given this differentiation a thought. This negative joy is the so-called *malicious glee*. It is very dangerous and it has cost many a person's life.

Let's look at the criminal act of an arsonist: *He delights* in the catastrophe he initiated and then there is also the endless succession of the crime of *vandalism*, negative people also *delight* in the

destruction they have caused. It wouldn't be worth their while to do these criminal acts without feeling this satanic glee.

How is it possible that such a derailment can give such pleasure?

Man on Earth has still not comprehended that there are *two* SUPERPOWERS that oppose one another: GOD and Lucifer. GOOD and evil in enormous proportions. You lack any plausible explanation to explain these FORCES.

When somebody says: "I don't believe in GOD" he might as well say: "I don't believe in GOODNESS!" – He is well aware that GOOD and evil really exist in spite of this. Therein lays the contradiction!

GOD created CREATION through the incredible process of a TEAM EFFORT. Lucifer was also a member of this cosmic TEAM. He fell pray to fanaticism and ambition, because he *didn't* tolerate objections from anyone and when GOD reproved him, all the GOODNESS within him turned into unimaginable hatred. He no longer enjoyed participating in the CREATION process. He downed his tools and, like an evil, aggrieved person, said: "I've had enough, do it yourself."

However, after quite a long period of time he no longer enjoyed his inactivity and looked for something to do. But whatever he was going to do could no longer be the same work he did for GOD in the role of a co-worker in the name of LOVE, joy and beauty. His new challenge had to *coincide* with his new feelings of hatred. This is when he discovered malicious glee. The destruction of CREATION was *going to be a pleasure*.

- *Malicious glee is the only real motivation the antagonist instils in his demonic hordes.*

When assessing malicious glee, one should always take into consideration *where* this negative glee comes from!

- He, who *destroys* something out of malicious glee, is the same type of antagonist as the devil.
- He, who takes *pleasure* in the damage others do, is also an antagonist.
- And he, who plots bloody wars, *endorses* and *assists* them, is *also* an antagonist; he is also a devil who enjoys the prospect of calamity.

The common denominator behind all of these actions is hatred and hatred is even capable of destroying itself!

GOOD and evil are however *directed* events and they require deliberation, because they are controlled by WILL and by very specific intentions. Consequently, WILL, THOUGHT and above all CONSCIOUSNESS are *behind* GOOD and evil, otherwise one could not feel either joy or malicious glee. –

I have now explained this to you and nobody should now stand up and say that GOD or the antagonist does *not* exist.

11.2 Demonic forces

11.2.1. Questions and answers

Question : Why are there people in this world that always want to do something evil?

AREDOS : This is in context with joy. There is *positive* joy and also *negative* joy. One must feel pleased when one does something good and one should not feel joy when one does something evil. There are unfortunately a lot of people that derive *some kind of pleasure* when they do something to the detriment of others. They are unfortunately unaware that they are *inspired* to perform these negative pranks by the antagonist's cronies.

Question : Which genotype is particularly damaging to our development?

ELIAS : The SANTINER (extraterrestrials) lack any understanding of sadism. But it is *hereditary* amongst the people on Earth, otherwise there would no longer be any wars.

Question : What can one do against this?

ELIAS : In order to be able to understand an evil person, one has to be psychologically trained so that one can find out exactly where their weakest point is. Once this has been recognised, a positive treatment must then proceed. Such a negative point is usually in connection with a *complex*.

Question : Can you tell us something about fanaticism?

ARGUN : Fanaticism always leads into an abyss. It is noticeable in all areas. Mankind, for instance, is *considerably* hindered in its higher development through false, cultic behaviourisms. Almost all religious institutions promote fanaticism's behaviourism and it always begins with exaggeration.

- *It is most important to be honest!*

Better understanding could also be promoted in politics, if one wouldn't always exaggerate everything so fanatically.

- *The real reason behind all this bragging is one's craving for admiration and it is always a sure sign of an undeveloped spirit.*

Do you believe that GOD or CHRIST agrees with the all that bragging of the Christian churches?

Question : Fanaticism is encountered everywhere in the world. Are there some TRUTHS one should fanatically defend?

AREDOS : *No!* Whenever fanaticism rears its head, there is something wrong with the TRUTH. *Every* type of fanaticism makes you unreasonable. *Every* type of fanaticism is capable of reaching for the most negative means. You can already gather from this that it can *never* offer you objective TRUTHS!

Question : Arrogance seems to be a global occurrence these days. To talk about humility here is completely out of the question. Not even the major religions exhibit genuine humility. What can you tell about this?

ELIAS : The more people possess, the more they profess to know things, the more arrogant and haughtier they become. Only *true* hardship brings back their humility. The craving for admiration thrives particularly well under atheism. A negative attitude is always coupled with: Haughtiness, greed, hatred, craving for admiration, disobedience, contempt, unscrupulousness and a lot more.

- *These people can be immediately recognised by the answers they give!*

The masses distance themselves from the ALMIGHTY, because they are predominantly negative. Only a small band of positive people are in the foreground; they represent GOD'S elite. You can clearly see here how the spiritual realm assesses things. – The smallest is at the same time also the largest! You find this example verified by the atom.

Question : You once mentioned “ill” souls. What did you mean by that?

ARGUN : An ill soul is *negative*. It can have a penchant for vandalism. It is ill, because it *doesn't like itself* and it only has mischief on its mind. We don't say “evil” in this case, we say “ill”.

Question : Black Magic knows a form of mental concentration that is directed at other people with antagonistic intentions. It is possible that such thoughts can do damage to others?

ARGUN : *If you believe in GOD, you are protected through your GUARDIAN ANGELS.*

It is a different situation in regards to atheists, because their PROTECTION is *more relaxed* due to their negative behaviourism. It is in your hands to create a protective WALL for yourself. I can see from where I stand, that this is already a small mountain (with you). We will endeavour to stand on top of it and to heap more sand on it.

- *The best protection against negative influences is brotherly love! – If it is genuine, everything simply rebounds.*

As you know, brotherly love is also the BRIDGE that CONNECTS the here with the hereafter. But you must be aware that the foundation of any LOVE is one's LOVE for GOD, *no* other form of LOVE can endure *without* this foundation.

Question : It is incomprehensible to a normal human being that there are those that are so negative and evil, that they keep their surroundings in a constant state of anxiety. Are these sorts of people absolutely not reformable?

ARGUN : Above all, remember:

- *These people live off the ENERGY of positive and harmonious people!¹¹ The villain gains strength in the process, whilst the sensitive person becomes weak.*

There are *no opportunities* to change these people. They have to be *avoided* whenever possible. However I know that this isn't easy, particularly when one has to depend on them. Every attempt to help them –they ridicule any effort in that direction, because they are ungrateful and turn insolent – to do something kind for them, is LOVE wasted on the *wrong* object. Even bearing reference to GOD will not help these people. Christian brotherly love is *not an issue* as far as they are concerned, because they *abuse* those that endeavour to help them. They are unreachable, because they even deride the name of GOD.

Question : Are these people not quite normal?

ARGUN : *Oh yes, they are normal. They are completely responsible* people, but they do evil out of pure malicious glee. They are malevolent and envious, because they gain complete satisfaction from this. They couldn't bear a normal, harmonious existence, because it would be *too boring* for them. But those that believe that they can help these discontented people, that is to say, awaken them, will be completely *exploited* and eventually *destroyed* by them.

Brotherly love actually has its limits! – The churches however are completely unaware of these limits, otherwise they would not ask for *senseless* sacrifices from their followers.

- It is not worthwhile to waste one's generosity and also a SERVICE of LOVE on the wrong object!

Abusing the decent emotions of their fellow human beings is their greatest ignobility. It is about time that these people are *shunned* so that they can learn something from their own solitariness. Once in the spiritual realm, they also only improve by being isolated.

Question : Is it appropriate to pray for these people?

ARGUN : Prayers do not reach them at all, because their boundless egotism overrides every prayer. These people prefer to waste their affections *on a dog*, than not to grudge someone they hate something. This is unfortunately how it looks in all too many cases. This is why I advice you to:

- *Avoid these people, because they will only harm you!*

Question : How should one behave when there are negative people *in one's own family* that cannot be rehabilitated and that continuously create disharmonies?

ARGUN : These are difficult tests for positive people. The best one can do is to erect SPIRITUAL WALLS around oneself and *to avoid* them as much as possible. One has

¹¹ See: Protocol "Decalogue" in "The Ten Commandments".

to ward against these disharmonies. One should naturally try to help, but once this help remains unnoticed and promises to be fruitless, one must resign to the fact and remain inactive from then on. This isn't easy and cannot be accomplished from one day to another.

Question : According to what you say, otherworldly souls can extract ENERGY from a human being on Earth?

ARGUN : Yes, there is this kind of *vampirism!* – I will give you an example: A man dies and leaves a grief stricken wife behind on Earth. The bereaved, through her *permanent grief*, detains the departed soul here on Earth. The departed attaches himself now to the grieving widow and extracts all her ENERGY from her so that she becomes ill – and as you say – dies of a “broken heart”. Both of them do not allow *one another* time to continue their own development.¹²

Question : Can you tell us something about sleep-walking (somnambulism)?

ARGUN : The moon reflects the light of the sun. The permutation to the sun's ray gives the spiritual, respectively the occult forces, impetus. The moon thereby gives the otherworldly forces power over someone on Earth. The sleepwalker is *guided* by the otherworldly souls and this is why they never stumble. However, if the spiritual thread of life (silver cord) breaks due to some terrible shock, life in the physical comes to an end.

Question : Can a sleepwalker commit a crime he is not responsible for in this state, because he is obeying an otherworldly spirit?

ARGUN : You are aware that one cannot force anybody under hypnosis to do something they wouldn't do under normal circumstances.

- *Hypnosis represents direct contact with the soul!*

The same applies to sleepwalkers. The otherworldly plays the role of the hypnotist. He can however only utilise his medium to the degree his medium allows it. A negative soul tries to commit evil deeds, whilst a good soul does positive things.

- This is why sleepwalkers are *responsible* for their crimes, because *they know* what they do *in spite of this!*

This mental state is used in many cases to provide an excuse – even when we're dealing with states of inebriation.

Question : Does a state of inebriation diminish one's responsibility?

AREDOS: The terrestrial judicial system is *wrong in many instances*. Many laws have the complete opposite effect. Instead of dishing out punishment or trying to rehabilitate them, they offer the offenders reduced sentences or even acquittals. This is *particularly true* in regards to inebriation. Being inebriated is a crime in itself. One

¹² This unfortunate situation is even supported by dogmatic church religion.

therefore cannot use one form of crime to excuse another crime that follows the first one.

He, who commits a crime whilst under the influence of alcohol, must receive *additional* punishment, drunkenness *doesn't* alleviate the sentence, it aggravates it. To poison oneself *intentionally*, thereby representing a danger to one's fellow man is a severe crime in itself. One's capacity is certainly diminished, everybody knows that, but the blame does *not* lay with the alcohol, it lays squarely the wallower!

Question : For how long can evil draw from a positive person's ENERGY?

ARGUN : The negative can tap into a positive person's ENERGY and feed itself from it for about 10 years. To put it in context, an incarnated soul can be *abused* and *exploited* by evil souls and by his terrestrial counterparts for about 10 years. It is no longer worth their while after that. The negative must then begin to cope on its own.

- This gives negative souls the chance *to arrest* their descending development.

Once a soul has missed this chance, it will fall *even further*. It will then be so negative, that no help will reach it. It might be satiated with the amassed positive ENERGY, but it will *not* utilise it to do good. We then have the perfect example of a negative coarseness that only uses its raw energy to do damage to mankind. There are unfortunately plenty of those around.

Question : Why does Lucifer seek to destroy all of mankind on Earth?

AREDOS : He wants to prevent man from becoming *humble* and from improving himself through arduous life experiences and training.

Question : Many people turn negative when they *feel abandoned*. They have lost contact with society and begin to hate it. Can you tell us something about this?

Answer : *No soul is ever alone for one moment*, - even if it might seem like at times. The LOVE of those *devoted* to you is always around you. This also happens when you are *not* aware of them. Whether they are able to enter your consciousness depends entirely on the circumstances around you.

Question : How is it possible that negative people *are so successful in life*?

ELIAS : There are people that appear to be very tough and thereby make an unsympathetic impression on you to begin with. They are however respected just the same, one looks up to them and one even idolises them.

- One knows too little about SPIRITUAL MATURITY and the achievements of the *victorious negative* is regarded as something splendid most of the time.

11.3. Crime

11.3.1. Question and answers

Question : What is the reason for such an increase in violent crimes like hold-ups and sexual abuse?

ASHTAR SHERAN: The more atheism spreads across the world, the more *all kinds of crimes* will also spread. The spread of atheism brings with it a lack of MORAL TUITION at schools, high-schools, tech-colleges and universities as well as all other academic institutions!

ELIAS : Children must receive easy to understand MORAL INSTRUCTIONS *before* they enter school. All students must also receive literal and credible instructions in a scientific RELIGION.

- When somebody has *no idea* about the soul's existences, particularly also about immortality, as well as an existence in another REALITY, *he will neither respect life* nor CREATION around him. He is unaware that he actually represents the best this CREATION has to offer and that it is worth his while to be good.

AREDOS: Bright children cannot take *existing* religions serious. Their antipathy against every religion has *an even greater effect* during their adolescent years. Adolescents feel that they are lied to by religion. Let's assume that an adolescent asks whether it is possible for a man to be swallowed by a whale to then be spat out on land after a few days.¹³ His teacher will say: "You should not rack your brain about this, because there are such things as miracles and when it comes to GOD, everything is possible".

You will not make any progress in this way and your scientific insights will overrun your good faith. Even miracles have to be *comprehensible* to modern man and they have to be *scientifically and irrefutable based on facts!*

Objection : Many people are forced into negative acts, they *must* participate!

ARGUN : These people participate because they are *not prepared to make sacrifices*, because non-participation demands renunciation. They don't object and then it's suddenly too late. They often accept other people's opinion without deliberations. This is wrong, because they fail *to test* the opinion of others before they make up their own mind! They then go from one mistake to another, even though they sense that something is not quite right.

Question : Our adversaries are of the opinion that it must be possible for otherworldly entities to solve certain capital crimes, in as much as there is otherworldly life that has contact with us. As this is *not* the case, one doesn't believe in a hereafter either. What do you say to this argumentation?

ARGUN : It is a well known fact that the adversaries of the spiritual sciences have no idea about divine LAWS. This is why they ask such primitive questions. I reject any denunciation, because it will not bring me bliss. But I can help the sinner, encourage him to contemplate his deed and not find rest.

¹³ This is in regards of the biblical story of the prophet Jonas being swallowed by a whale.

The spirit dwells within you so that you can find the rich treasures where all *genuine* riches are to be found and so that you receive the fortitude that *lifts you up* in times of hardship and sorrow, it is there *to support* you when everything else fails, when your so-called friends abandon you, when you seem lonely and abandoned. – This is *when* you can be certain that warmth, comradeship and the LOVE of BEINGS from ANOTHER WORLD surround you!

Question : You in the hereafter can observe criminals. Why can't you *participate* in solving capital crimes? This could *deter* a lot of people from committing crimes and it could also *reinforce* their belief in your existence.

Answer : When we make contact with you, we do so as a kind of MISSION. We have very specific guidelines! *We are prohibited from dealing with crimes*. Even the lower spirits will not help you when a crime takes place, because they *sympathise* with the criminal act. Assuming that we would really participate in solving a crime, we would certainly be hindered by unclean souls if this was the case.

- *This however has nothing to do with atonement; because every evildoer will one day end up here where we are and there will then be no weak excuses and no escape from punishment!*

Question : There have been a few cases throughout criminal history where people have behaved so extremely beyond humaneness that nobody is able to understand them. Are these people also influenced or controlled by unfortunate, evil spirits?

ELIAS : Abject thought and mean spiritedness naturally attract lower spirits. This has the effect that they *completely succumb* to these negative influences and end up a toy in the hands of negative forces. These criminal people certainly have it within their own power to defeat themselves. – *Everybody has it within their own power!* – These people entertain barbarous thoughts in spite of their great intelligence. They only fear medieval punishment.

Question : Due to the increase of criminality, voices are raised to bring back capital punishment. What are your thoughts on this?

ARGUN : The letter of the law is a dangerous thing. But the ignorance displayed by the judges and jurors is dangerous also. They know nothing about the LAWS that apply in an OTHER WORLD, in another form of existence. This is why we endeavour, in spite of enormous difficulties, to enhance your knowledge and your conscience. However various scientists and other academics cannot abide by the fact that *even higher KNOWLEDGE* than theirs comes through a medium.

Question : How should one deal with these criminals, *without* actually killing them?

ELIAS : *The best means are solitude and banishment!*

But there will come a time when the people on Earth will have the same opportunities as the SANTINER. Those that commit capital crimes will then be *banished* to other

planets. They will then have *to begin* their development over again there. It will be their own affair if they then kill one another.

Question : May you tell us something about the devastating air crashes that have occurred in Japan?

ELIAS : If we are dealing with criminal activities, we are *not* allowed to say anything. You have to be happy with that answer, even though I am *not* saying that we're dealing with *criminal* activity here. In spite of what I just said, the answer is still taboo.

Question : Is the spiritual realm actually interested in solving crimes and pursuing criminals?

ELIAS : The instant we interfere in these affairs we burden ourselves with guilt, especially once we *cease* to do so. This would then constitute an injustice against those who *miss out*. Apart from this, one would be asking too much from mediums, because crimes are the order of the day.

Question : Is it more advantageous for people to be judiciously punished whilst still here on Earth when they committed a punishable act or is it meaningless, as they might be punished again in the hereafter? Must they still expiate their punishment in the spiritual realm?

ELIAS : It is certainly *more advantageous* for the relevant sinner to be punished during his time here on Earth. The fact is that somebody convicted and punished here on Earth will *no longer have to make amends* for their crime in the spiritual realm. He is free. This however only applies to *minor* maledictions!

Question : We have always assumed that the "bitter end" always applies in *all* cases. This is apparently not the case?

ELIAS : It does say in the bible: "And forgive us our trespasses, as we forgive them that trespass against us". *We totally oppose capital punishment!* One can however not necessarily blame the condemned or the executioner. The blame lies squarely with the legislators.

Question : What happens to those souls that have been *unjustly* incarcerated?

ELIAS : These souls end up in the SPHERE for MARTYRS. - Blessed are those who have been persecuted for the sake of righteousness, for theirs is the kingdom of heaven.

Question : How does the spiritual realm assess the persecution of Nazi war criminals? One now intends to cease these persecutions.

ELIAS : This guilt is so immeasurable, so outrageous, well, what do I say, so universally offensive, that it triggered great indignations on every inhabited planet. One cannot allow these murderers to escape! However there are no LAWS here to mete out the kind of punishment that would be appropriate to some extent. GOD will be the last JUDGE in cases like these. It is out of the question to talk about forgiveness when it comes to such mass murderers.

Question : Why do victorious nations not *condemn* their own war criminals?

ELIAS : You can count on the spiritual realm to take over the judicial role in this, if they do not do so, like for instance the commanders who proliferated the bombing of innocent people, remember Nagasaki and Hiroshima!¹⁴

Question : When one reads the papers one mainly only finds reports about crimes and other atrocities. We cannot find an explanation for such horridness, respectively, no motives that could possibly explain this. What is your opinion on this?

ELIAS : You have *reared* yourselves to think positive and this is why you cannot comprehend this type of negative behaviourism. However people with a negative attitude *always* find an explanation, naturally a negative one!

But you must remember that human beings have a divine GIFT, namely their DISPOSITION. When someone gradually turns godless, he naturally also turns negative, because he deactivates his divine DISPOSITION in the process. The greatest intelligence will not help him, if this is the case. The greatest possible intelligence will also direct its attention to negative goals, if the important divine DISPOSITION *is deactivated*.

This situation is not just a general occurrence; it unfortunately also affects the upper echelon. Important political decisions are made under these conditions and major conferences are influenced by them. – As you can see, there is an explanation, well, even a motive present!

Question : Just the same, it is difficult to comprehend why the negative is able to prevail in this way?

ELIAS : What do you expect? – After all, you do live on a planet of redemption! – You are not here on this planet by mistake! It *isn't* about who has more *rights* here on Earth!

- *He, who tries to do his fellow man a SERVICE, is in the right!*

There is however a great number of souls incarnated here one does expect improvements from, but they *continuously* allow themselves to be *dragged down* by negativity. This *impedes* the redemption process. The fact that there are a lot of good souls in this world *in spite of this* is already a significant accomplishment.

The good and kind have a particularly difficult assignment: *To show that they have moral fibre!* But if they are successful in surviving this battle against all hostilities and if they remain *upright citizens* – dare I say it, if they are successful in helping *others* to gain redemption, they will certainly have made a great step forward!

Question : Why can Lucifer's devotees commit evil acts *unpunished*, as they are also subject to the LAW of KARMA? Would Lucifer not have to suffer under the LAW of KARMA to such a degree that he would perish?

¹⁴ A name was mentioned, but we prefer not to mention this name.

AREDOS : Every soul has the freedom to do either GOOD or evil. Lucifer is also a soul and he also has the same choices! The fact is that Lucifer's *devotees* here and in the hereafter *enjoy* doing evil deeds. Why does man on Earth stick to his vices? Only because he finds satisfaction in them!

- KARMA (penance) is naturally a LAW, but karmic suffering does *not improve every* soul. It is therefore a question of time.

The reason why Lucifer has not perished under the weight of his karma is due to the fact that all of mankind on the planet (here on Earth) continuously *helps* him to instigate evil. This ensures that the actual KARMA always falls on the *executants* of evil. Lucifer is crafty enough to cleverly avoid KARMA. Apart from that, the time when GOD'S LAW will reach him has *not yet come*.

- *Man must take responsibility for whatever he does! It is impossible to have somebody else take the blame, not even Lucifer as the instigator!*

People are in most cases *not* coerced into doing evil:

- He, who smokes for instance – *does so because it gives him pleasure!*
- He, who likes to drink – *feels good!*
- Man does evil deeds – *because he derives amusement from it!*
- He observes boxers, even when they punch one another till blood flows and *he loves it!*
- And then there is also the *sweet ecstasy* sex killers feel.

People commit many sins they are *not aware of* all day long, because they regard them to be harmless pleasures.

- *Human beings have no real capacity of discernment, because they do not know the TRUTH!*

12. The Battle of Armageddon

12.1. Questions and answers

Question : Mankind on Earth might be familiar with the term *the devil*, but one does *not* count GOD'S antagonist amongst any *existing* entities. This unfortunately makes them unaware of the dangers they are exposed to, because the antagonist's revenge is supposed to affect every human being. Do you agree with this?

Answer : This is correct. This is the reason why not just mankind on Earth has armed itself to the hilt, but the devil also prepared for the greatest battle the universe has ever seen, namely the BATTLE of ARMAGEDDON, this enormous dispute between GOOD and evil. The whole human race on Earth has been integrated into this cosmic event.

The negative forces exert a *compelling* force upon all people with a negative attitude. These people are however *completely unaware* that all their thoughts and feelings are *forcefully guided*, akin to one's instinct of self preservation or reproduction.

GOD'S antagonist has already had a positive influence – unwillingly though – on people by opening the eyes of many to the fact that something is happening here on Earth that can *never* be in order and that will eventually lead to destruction.

- *When demons inspirations encounter genuine, positive thought processes, they will never be able to achieve anything!*

Positive thought processes have to be trained and this training is lacking everywhere.

- *What you have to promote is absolute good will!*

However, those people who allow themselves *to be dragged down* by demons, will have a few things in store for them. They can call themselves fortunate if GOD in HIS GRACE does not simply abandon them instead of wrestling them from the grasp of demons so they can still be redeemed. If they obtain this GRACE, they will be able to reincarnate *once again* on this planet. But they have to redeem the karma of their guilt in order *to pay* for the GRACE they have received.

- *JUSTICE is incorruptible, it is based upon the foundation of DEBIT and CREDIT.*

Question : What else can you tell us about the BATTLE of ARMAGEDDON?

ELIAS : This enormous conflict now takes place more on the terrestrial plane than the spiritual plane.

- *This battle has already entered its final phase. It will soon reach its apex.*

At least there is an end in sight. This fight is however particularly aimed at the terrestrial wards of the spiritual realm. There is a pulling and pushing of people in progress: “He is mine!” “No, he is mine!” – The GUARDIAN ANGELS are enormously stressed trying to keep their charges under control. After all, the BATTLE of ARMAGEDDON rampages *on behalf of the people on Earth!*

- *He, who succumbs to evil influences here on Earth, will be abducted by evil souls in the spiritual realm.*

Question : Could a situation arise where WWII could erupt during the BATTLE of ARMAGEDDON?

ELIAS : This outbreak is absolutely feasible, but such a super conflict could not be brought to a conclusion, because all HIGHER FORCES would *interfere*. The SANTINER also belong to these FORCES! – This battle rages mainly *on behalf of mankind on Earth* anyway.

Question : What is actually meant by the appellation of “BATTLE of ARMAGEDDON”?

Answer : What is taking place at the moment is a very real event. This dispute between the super POWERS of GOOD and evil is literally and symbolically described in the bible. This dispute *must not* necessarily be on a physical level; it already started a few thousand years ago in the spiritual realm and now gradually interacts with Earth's plan. This spiritual battle already finds expression here on Earth. The major mental crisis suffered by individuals, nations, religions, races and all other areas of life already indicate that the BATTLE of ARMAGEDDON is in full swing.

- *We are actually dealing with the battle of JUDGEMENT DAY, a battle that is supposed to bring man's common sense under control.*

These things must *not* necessarily be restricted to the spiritual DOMAIN, they also affect other areas, for instance the *economy*, the *sciences* and *universities*.

- *A lot of people who now become consciously aware of this event are trying to participate in the divine HEALING PROCESS.*

The otherworldly INTELLIGENCES have already done all they can *to support* the divine HIERARCHY in order to win this enormous BATTLE. This is why it is high time that all positive FORCES are prepared to *make sacrifices* and to go all out to make sure that the big changes of the New Age end up POSITIVE changes.

The moment the people on Earth begin to envision *what* the BATTLE of ARMAGEDDON is all about, namely that it is already in full swing, all people of good will must side with the positive SIDE in order to prevent that evil prevails.

Objection : The situation here on Earth becomes more precarious by the minute. Most people unfortunately are unaware of the spiritual dispute.

ELIAS : Most people possess no knowledge about spiritual POWERS and FORCES. This is why they look for the source of their problems *somewhere completely different* or they cannot explain the results from this spiritual dispute.

- *The BATTLE of ARMAGEDDON is not restricted to specific centres; it takes place everywhere and in all areas.*

Question : We ask ourselves, what will be the result of this? Will people learn something from this dispute?

ELIAS : The hardship, the losses, the senselessness of civil war, the unnecessary shedding of blood and the hatred will have a sobering effect and it will lead to *innovative* deliberations!

Question : Is it true that the ARCHANGEL MICHAEL has the ASSIGNMENT to effectively deal with the dispute taking place here on Earth?

ELIAS : Yes, this is true, because he *directs* the BATTLE of ARMAGEDDON, this superlative dispute between GOOD and evil. This combat is in full swing, but most people

unfortunately know nothing about it; they only *sense* it. The negative unashamedly shows its face. This is why one is able to distinguish between GOOD and evil these days.

- *Evil makes the greatest politicians or scientist blind, so that they should not recognise the positive.*

Question : Everybody paints a dire picture. Is there really something to this pessimistic attitude?

ELIAS : What do you expect from a raging battle? – The BATTLE of ARMAGEDDON is in full swing. One always forgets that the Earth is a *planet of redemption, unfortunately so*, I might add.

- *The Earth is not designated to be a planet of redemption for ever!*

Question : Do the churches not choose the soft option by completely depending on GOD'S GRACE?

ELIAS : Absolutely, this is true. – One should not altogether depend on HIS GRACE, because *everybody* must make their own contribution. The *redemption process*, that is to say, life here on Earth, is a divine ACT of GRACE.

Question : The enormous dispute between good and evil forces us to explain to mankind the spiritual implications with great skills and by using *popular* phraseologies. Do you agree with this statement?

ELIAS : My own definitions are actually designed to make a contribution. Man on Earth, if *factored out of* his spiritual definition, is a completely useless and inanimate thing, a robot in need of mental stimulation in order to accomplish anything at all.

- *The unit between body and spirit consists solely of the interrelationship between spirit and matter. These interrelationships are to blame for the numerous deceptions! Physical man is – technically speaking – remote controlled by the soul.*

Question : Can we actually still ascertain what is GOOD and what is evil?

AREDOS : The delineations are indeed very tightly linked together. It seems to be the result of this enormous BATTLE of ARMAGEDDON that was initially triggered by the spiritual realm and that has now approached the physical world.

- *The best differentiations can be made by asking oneself the question of whom will benefit from it?*

If it benefits the antagonist, it is without doubt evil. However if it helps GOD'S PLAN in any way, it is naturally GOOD. GOD did not develop man in order for him to be negativity's sidekick. Every human being would have to comprehend this. But if one is *unable* to comprehend this, it is either because one doesn't know anything about or doesn't believe in GOD or his antagonist.

- *All this strife in this world is the handiwork of the antagonist who exploits mankind for his chaotic plan of revenge. There is unfortunately very little literature available that depicts this dispute convincingly.*

Question : Do you believe that the *positive* spiritual forces are able to withstand the enormous pressures applied by the materialistic forces?

ELIAS : The positive spiritual forces will maintain the upper hand, even if everything seemingly indicates the opposite. –

- *The spirit always rates higher than matter!*

Question : Eminent scientists are also inspired by otherworldly souls most of the time. *Which* spirits stand behind our scientists?

ELIAS : In regards to nuclear research and rocket science, many souls stand behind your scientists and technicians who once lived on a planet that was *ahead* of planet Earth's development before it was destroyed. This is where all inventions come from which have been so successful in such a short time. – The BATTLE of ARMAGEDDON has also an effect here.

Question : Is it true that GOD has drawn up a GREAT PLAN in regards to our Earth?

AREDOS : Yes, this is correct. – The situation here on Earth demands vital measures within the framework of the BATTLE of ARMAGEDDON. – *A NEW AGE will be born!*

Question : A proverb states that: "GOD'S MILLS grind slowly, but *very finely*." Is it a fact that everything that develops at a *leisurely* pace is *good*, whilst everything that shoots up fast and hastily is evil?

ARGUN : GOD has time, in fact a whole eternity. HIS antagonist however is afraid that he will run out of time. He leads a hopeless, fanatical battle *against* GOD and he knows deep down that he must lose this fight.

Question : (1970) Has the SPIRITUAL NEW AGE already begun? Can we already register successes?

AREDOS : The SPIRITUAL NEW AGE is already engaged in a battle with the physical, the materialistic age. This fight is unbelievably barbarous and hard. Divine FORCES fight with Lucifer's sidekicks. We stressed long ago that this dispute is in progress. The SANTINER have also drawn your attention to it. Everything is now in full swing.

- *All human beings will be confronted with an alternative, namely to decide on which side they want to be!*

The past must give way.

The NEW wants to be in charge.

But the past is also recorded in the church's literature and in the philosophies of universities. History also has its *negative* past and it must be combated and eliminated.

One cannot talk about successes at this point in time, because there are too many things still going on.

- *There will however be no other VICTOR but GOD. – You must always remember these words!*

Question : To what degree has the BATTLE of ARMAGEDDON, the way it has been described in the bible, progressed at this stage?

ARGUN : It is already nearing its end!

13. Better behaviourism

13.1. The world without TRUTH (Transmission from the year 1974)

Well, when one talks about the TRUTH one demands a word of honour or an oath; because one can not trust the TRUTH. The TRUTH unfortunately disguises itself in lies – and this mistake is due to human error, ergo due to failure.

- *The world is without TRUTH in regards to the most important questions, namely in regards to one's existence; because wherever the real TRUTH makes an appearance, it is attacked, trampled underfoot, ridiculed and regarded as nonsense. CHRIST also had some bitter experiences in regards to the TRUTH!*

Man relies on the sciences in difficult situations; because the Church and actually all other religions cannot be trusted when it comes to the TRUTH. However everything that goes *against* CREATION, let's say against nature, is *no real* TRUTH; because the absolute TRUTH is with GOD!

But what does the TRUTH look like with the sciences?

- Scientists *determine* what TRUTH is! The sciences will however *allow the odd lie to persist*, if they assume that it will *help* their cause.

The greatest enemy of the TRUTH is naturally GOD'S antagonist, namely the devil. He can only exist where aberrations and lies *reign*. This is the reason why the devil directs all his concentration on the sciences.

- Scientists are the *most psychically attacked* people in this world and they are neither informed nor aware of this.

When scientists encounter the TRUTH, demons are immediately alarmed and a supernatural, spiritual fight against the TRUTH begins. These circumstances make it extremely difficult *to convince* the sciences of the TRUTH. This becomes immediately apparent to you when dealing with *divine* processes: The scientists, one after the other, deny the validity of the MESSAGES that come from the spiritual realm. They have a thousand different excuses and arguments *to talk the*

TRUTH out of existence. But as they are *unaware* of the astral implications, they are *also unaware* of the devilish game one plays with them.

- In order to get to the TRUTH, to disseminate it all over the world, mankind must be *informed* about the devil's hellish activities.

This is *the only way* to direct mankind into a different direction, to elevate it to a *higher* level. But how can one break down this door when the devil stands behind it? The sciences are called upon to decide whether one is dealing with a TRUTH. Und when the sciences say "no", the judgment is made and it will become the current yardstick for the future. – *Spiritualism* also suffers from these aspects. There are a million corroborations *for* the TRUTH, but all of this evidence is *doomed to fail* the scrutiny of any scientific forum, because the antagonist is regent.

I ask you to give this a little thought!

The TRUTH is with GOD and it comes from GOD. Lies however come from the devil. You have to choose! – However if one allows oneself to be misguided and influenced to a point where one eventually believes to be able to manage *without* GOD, *without* HIS HELPERS and *without* taking an interest in the divine TRUTH, one is already solidly entangled in the antagonist's web, who has no other goal in mind than to destroy mankind, so that CREATION goes to rack and ruin. This is his revenge and he is totally obsessed by it.

13.2. Protection against negativity

13.2.1. Questions and answers

Question : What should one do when spiritual instructions or discussions meet with dogged resistance, should one simply give up?

ARGUN : In all spiritual confrontations and also all political discussions, people with a negative attitude extract COSMIC ENERGY from positive people. Apostles of the truth are slowly but surely devitalised in this way. This is the reason why negative people ultimately triumph over their victims.

You have to be steadfast, but *not fanatical*! But you should not allow yourselves to be sucked dry by vampires. Exhibit your *steadfastness* and do not object yourself to discussing insane proposals, but *consequently* reject them as *out of the question*. A negative, respectively, a godless person will not accept criticism of *his* proposals and views anyway. The *only* thing that will convince him will be your steadfastness, but it may *not* degenerate into conflict!

Question : Vast regions of the world are literally overpopulated with atheists. How can one approach these people?

ARGUN : By becoming *more generous* and above all, *more patient*. You must extend your hand in friendship, but do so without anger or frustration. You must completely subdue your emotions and offer everything with great *composure* and *dispassion*, otherwise you end up victims *yourselves*!

Question : Should one wrestle with negative influences, when one encounters negativity?

ARGUN : It is best to *distance* oneself *immediately* from negativity once it has been identified.

Question : But how should one behave if one finds oneself in a *mixed* group of people predominantly made up of negative people?

ARGUN : *The spiritualist must always be a shining example!*

He must endeavour to maintain a positive attitude. A *confident* and *calm* approach will also impress a negative person.

Question : Why do most people shy away from these MESSAGES as they are so extraordinarily important?

Answer : There is a disinterest in everything one has to give *a little bit more thought to*. Fears about a nuclear war, the end of the world and a seemingly inescapable situation are all things that make you *tired* and *apathetic*. He who lives according to these observations thinks: After me the deluge.

General faithlessness *supports* negative thought processes. The situation in this regards is *much worse* these days than it was years ago. What are lacking are *capable executives!* He, who thinks positive is deemed a weakling and has no chance of success.

Question : Is man incapable of defending himself against the devil?

AREDOS : This is *impossible* whilst materialism and egotism still hold the reins. The devil *lives off* the ENERGY mankind places at his disposal! The devil also lives of GOD'S ENERGY, but this constitutes an *abuse* of GOD'S ENERGY.

- GOD does *not* provide the devil with ENERGY so that he may survive, but *human beings* supply him with this divine ENERGY indirectly!

All *negatively* disposed people are *telepathically* connected to the antagonist's organization. They find everything negative good and proper, without every considering the fact that they are negativity's foot soldiers. This is a great universal tragedy nobody seems to know anything about and if they do, they don't take any notice of it at all.

- Animists are *even worse* than atheists, because they look for lame explanations in order to deny GOD'S and the spiritual realm's existence.

Question : The antagonist's negative instruments always pursue the same tactics in this world; they lame the positive elements ENERGIES by continuously challenging them and by keeping them needlessly active. How can one protect against this happening?

ELIAS : You shouldn't forget in the process that next to an evil power, there is also a good, a positive POWER. You can place all of your trust and hopes in this positive POWER.

Even if this positive POWER is presently unable to help you, you can lend this POWER your support by behaving mentally *positive* so that evil will *rebound* off you.

Question : Should one avoid evil and *not* challenge it, *not* confront it?

ARGUN : If at all possible, you should avoid it. However if you *cannot* avoid it, you should at least try to remain *neutral*. Above all, do not allow yourself to be challenged, but remain *calm* and *relaxed*.

Question : Can people protect themselves from the coercive powers of the antagonist?

ELIAS : The antagonist exploits *ignorance*. However when people *are informed* about these mysteries, the devil loses his powers.

- *KNOWLEDGE is therefore the best PROTECTION!*

What is even better is when a positive will is *added* to the mixture. Man must therefore try to inform himself in regards to these questions as best as he can.

Question : Is it true that GOD'S antagonist mainly approaches the people that endeavour to find divine LOVE?

ELIAS : Deliberately or accidentally, a lot of people unfortunately stand as allies at the side of the antagonist.

- *Only he, who LOVES his fellow men and tries to help them instead of harming them or outsmart them, is a fighter on the side of OBJECTIVE TRUTH in GOD'S SERVICE. In spite of all their unpleasantness, these people benefit from the LORD'S GRACE!*

Question : Can one protect oneself from negative influences and annoyances by making the sign of the cross or by saying: "In the name of the Father, the Son and the Holy Ghost"?

AREDOS : *No*, this is *not* enough! The negative FORCES do *not* take any notice of this, because they are much too disrespectful.

- *The best PROTECTION is unflappable faith – without fear! The RADIATION, the VIBRATIONS coming from this, acts like a bulwark.*

Question : We heard from you that evil is only powerful in larger numbers. Can an individual negative soul also have an effect?

ELIAS : Yes, particularly when it finds *support* from negative people. Evil, that is to say, evil creatures from our realm fear and eschew LIGHT, prayers and above all frankincense and ANGELS. They feel completely exposed and naked. They cannot bear the brilliance and gaze of an ANGEL. The lower spirits are like bedbugs, they only come out in the dark.

Question : How can one protect oneself from negativity?

ELIAS : You can best protect yourself through *composure*. I will prescribe an *autogenic training* for you:

- Imagine that you had good reason to look forward to something. Now *raise* this joy to a point of euphoria. If you lack the required power of imagination, imagine that we are there and that we would like to help you.

Question : What will be the result of such training?

ELIAS : Try it before you go *to sleep!* It will not be easy at first, but with a little practise, you will eventually succeed, because we will constantly help you. Important are *joy* and *contentment*, because they are valuable FACTORS within the HEALING PROCESS!

- *Try to continuously think that you have good reason to be joyful.*

If this doesn't work, remember that we mean you well, that we can perceive you and are around you and that we know all of your wishes and hardships.

What is important is that a *genuine feeling of joy* actually *wells up* within you, even if it is only for a few minutes. It is then *easier* for us to have an effect on you, to reach you when this happens – the result then could be that a *euphoric feeling of joy* begins to hit you, like lightning out of a blue sky. If this happens once, it will also happen more often and the connection between us will then be *perfect*. You will derive great joy from this contact with us.

Question : What is an anima?

Answer : An anima is for a man the most beautiful woman his imagination can produce. His type, the one he dreams about. And he loves this woman of his dreams from the bottom of his heart. However what represents an anima to a male represents an animus for a female, a dreamboat of a man.

- *Only once people recognise their anima, respectively their animus within GOD or within CHRIST, will they love the living GOD from the bottom of their heart, the way they owe it to HIM. Once GOD takes the place reserved for the anima, respectively animus within man's heart, the devil will no longer have access to man's heart.*

GOD has the opportunity to control every human being through HIS SOULS and ANGELS. HE possesses an enormous ORGANIZATION.

- No human being should suffer from the illusion that he or she is *without SUPERVISION* even for a fraction of a second!

This SUPERVISION affects all of man's thought processes, all sensations and all actions.

- Not even the faintest of thoughts is ever lost! Because whatever has been *thought of* by a soul, is born within the cosmos and will *resonate there forever*.

Question : Is this *why* we can remember old thought processes and experienced situations?

Answer : Yes, that's right, that's the way it is. –

- *Thoughts are not produced within the brain, but within the soul of people and this is where they race through space from, like an electrical impulse. However a strange MAGNETISM, a cloud-like mass in the vicinity of the soul in question retains these thoughts, so that these MINUTE VIBRATIONS can be accessed over again.* –
- *You call this process: “Remembering”, but it would be more appropriate to say that we are dealing with a human SOUL COSMOS that reflects these thoughts upon request.*

Question : Why does planet Earth possess so little knowledge in regards to the supernatural? Our sciences must surely be able to shed some light here.

Answer : Because occult insights *change* the world picture! – Human beings are willing pupils of evil. Apart from that, pundits are no great scientists or thinkers by a long shot. Governments also have *little interest* in this kind of higher KNOWLEDGE, because it acts *against* their striving for power! – Even the Church – GOD’S own Church! – *persecutes* prophets!

Question : Isn't there a way that leads *directly* to the TRUTH?

Answer : *The most reliable way begins within one's own heart!* –

GOD cannot use cowards for this assignment. HE requires spiritual revolutionaries, who fight for HIM and for the TRUTH with body and soul.

Question : Due to the fact that the Soviet Dialectic Materialism is also accessible to students, it is discussed and accepted by many. This leads to ungodliness and this endangers everybody. What is your opinion of this doctrine?

AREDOS: We are *not* dealing with a doctrine here, but with an *aberration* that emerged from party political thought processes and it has nothing to do with scientific insights. All I can tell you is that this *false doctrine* is a book written by the antagonist, it represents the “devil’s bible”. This false doctrine makes assertions that have *not been verified* by anything or anyone:

It states for instance that physical matter was not created, that it *always* existed. Where is the evidence? – It also states that consciousness is *connected to matter*, respectively, that consciousness is *evoked* by matter. Where is the evidence? –

- *The brain is utilised by one's consciousness! The brain informs one's consciousness via all of one's senses. This is the way it is and everything else is nonsense!*

Question : When one considers all the things the devil has on his conscience one can not do anything else but hate him.

Answer : It is *not appropriate* that you hate him, because GOD knows no hatred, not even against him. *Only he* knows hatred, namely hatred against GOD. When he comes to his senses one day and shows *genuine regret*, GOD will forgive him his sins and even make him forget them, the way I have shown you.¹⁵ He can never find peace for as long as he has his helpers and abettors that stand in great numbers at his side, encouraging him to do evil.

You are his helpers and abettors in regards to his misdeeds. But you should be his helpers and abettors and *really* help him by performing a SAMARITAN ACT for him:

- *Do not give him any opportunity to carry out his evil deeds.*
- *Refuse to serve him.*
- *Forgo his help and do not believe his promises!*

14. New Year's Eve (Transmission from the year 1975)

Well, Christians also celebrate the beginning of the New Year. It is supposed to be a *festive* moment, because every new year holds its own secrets. Nobody can say with certainty what the future brings. The future however is important to everybody; it can bring death or good fortune, well, whatever people actually regard as good fortune.

I don't want to be a prophet of the future, but I will delineate the situation for you the way it *really* is, because New Year's Eve *is more than* a mysterious turning point in people's lives.

You live at a time of enormous cosmic events. I am talking about the immense dispute between the superpowers of GOOD and evil. We are dealing with the BATTLE of ARMAGEDDON – and this fight, which has been going on for quite a long time, is in full swing. But as the victor also has to pay his dues, it is inevitable that GOODNESS also has to make sacrifices. – This is actually *no* reason to celebrate!

- *Demons have always asserted a claim on the New Year's Eve celebrations and nothing has changed there.*

There are a lot of people who are interested in *abolishing* Christmas, the festival of remembering brotherly love. – We are naturally dealing with *the adversaries* of GOODNESS.

We would prefer it if mankind would abolish the New Year's Eve celebrations altogether. Mankind is unfortunately unaware of the unsavoury implications of this celebration.

¹⁵ See the parable of "The prodigal son!"

I will explain this to you:

Christmas is in reality *not just* a remembrance of the MESSIAH'S birthday, but also *cautionary advice* that people must be *tolerant* towards their fellow human beings. CHRIST taught this and this is why people should select a *small* present with lots of LOVE – but they should not leave out their forgotten fellow men! Christmas is a very important festival and it also has great pertinence in the hereafter where it is also celebrated. It is a part of the redemption process.

The antagonist however is very annoyed by this, because in his unimaginable hatred against GOD and the human race, he is *against* every kind of redemption. He decided many years ago to *counteract* Christmas with something else and this is why he decided to usurp the New Year's Eve celebration *for himself*, for *his own* purposes. And this is where the dangers that should not be underestimated lie for *every* human being, because this celebration drags mankind down to unbelievable depths.

Lucifer says: "I will show you *how I* and my followers celebrate an eminent festival!"

He turns the New Year's Eve celebrations into *a festival from hell*.

Mankind has fallen into a trap and every year that passes sees this coven celebrated in an ever more outrageous fashion. You know how this festival is celebrated, but you don't know *who is behind it* and *who holds the reins!*

There is *shooting, rioting, murder, rape* and *fighting*. People die under most horrid circumstances. In addition to this there is *arson*, unimaginable amounts of *alcohol are consumed*, there are *sexual derailments, desecrations, blasphemies* and *the noise of explosions* that bring back memories of every war ever fought. – Hell has been let loose and every vice that can be overtrumped, will be overtrumped and mankind suffers enormous moral damage in the process.

Please contemplate this for a moment!
