Extracts from the *Menetekel* of the years 1956 to 1975

Title: **Love and emancipation**

Formulated by	:	Medialer Friedenskreis Berlin
Mediums	:	Uwe Speer (17) and Monika-Manuela Speer (15)
MESSENGERS OF LIGHT:		ELIAS, ARGUN, AREDOS
SANTINER	:	ASHTAR SHERAN

The Medialen Friedenskreis Berlin, a Christian/spiritual community, psychically received the text to this theme between 1956 and 1975. These messages are part of the *Menetekel*, a collection of about 4,000 A4 sized pages of protocols, collected over 20 years, which were recently reorganised. These mediumistic messages are complete and were left in their original quality, even when similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production is considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have tried to copy their work, but its quality was never achieved. The distribution of these recently re-catalogued messages and protocols is *explicitly encouraged* and is not covered by any copyright.

## Preface by the publisher

The theme of emancipation is very controversially discussed by the public. The word "emancipation" originates from the Latin *emancipium*, meaning manumission. Roman law mentions a discharge from *mancipium*, the dominion of the landlord. On a wider scale, emancipation means any kind of deliverance of groups or individuals from traditional powers, for instance during times of war or some other domination. Karl Marx talks about the emancipation of Jews, workers, women and Negroes. The word emancipation is mainly applied in regards to the liberation of women from their dependence on their male counterparts and their judicial and social equality. Many are of the opinion that times have changed and that opinions have, generally speaking, become more "modern". But the question now arises of just how far we have come with our "modern" opinions in regards to life? It is quite obvious that there is a great discrepancy between the sexes and beyond that also in regards to the environment, because permanently valid divine LAWS have been disregarded.

The “modern” emancipation of women followed after their medieval enslavement. The jokes, grotesque gags and situation comics that have emerged from this sign of the times defy any description. A special kind of bloomer emerged from an, up to this point, very objective scientific assays. The word “man”, as in mankind etc. was replaced by man/woman from the feminist’s vocabulary. Man/woman find it hard to believe; an idiocy without equal! What stops a man from recognising his wife’s work in the home and with bringing up the children? - The second text of the original seven commandments and seven demands (changed to the “Ten Commandments” by the Church) states: *“Respect your common-law wife; she is the responsible carrier of the divine WILL, divine LIFE and the preparer of the way for a well planned future. Her failure spells the slow but inevitable destruction of man.”* - I don’t think we have to add anything to this!

## **Something about LOVE** (Transmission from the year 1973)

*Well, life without LOVE is unthinkable.  
The whole animated CREATION is based on LOVE!*

But most people unfortunately live a thoughtless life, without reflecting on how important LOVE is in regards to sustaining and maintaining life.

- *But LOVE is more than just a feeling!*

There are many kinds of LOVE and all of them spring from one source, namely the CENTRAL ORIGIN: GOD. But it is unfortunate that people want to hear very little or nothing at all about GOD and this is why they never contemplate the ORIGIN of LOVE.

Love is equated with sex these days.

- *Sex is never pure LOVE, but only a natural law designed to guarantee the survival of the species.*

Those who think that a may bug loves, when it obeys the law of self-preservation, are *sadly mistaken!*

The preservation of the species must be obeyed; this is why the impulse to propagate is coupled with a strong desire. This form of sustaining life is pleasurable, designed to encourage man to propagate.

## **But LOVE is something else!**

LOVE does *not necessarily* have anything to do with propagation. On the contrary - the farther LOVE distances itself from the reproductive instincts, *the better* it can manifest itself; it can give and make sacrifices.

The act of procreation is *not* a giving of LOVE, as is often assumed. Nothing is actually given away, only one’s emotions are enhanced. But a FEELING of LOVE can also be enhanced *without sex*. Plato

talked about it, but he was not understood. Plato had divine INFORMATION that LOVE has an even *higher function* than that of mere sex.

- Prostitution proves unambiguously and irrefutably that sex is *not* actually LOVE.
- Sex can *only bring about* a genuine enhancement of one's feelings, if *genuine* LOVE is present.

But LOVE can certainly be divided into various degrees.

- The *highest* degree is LOVE for GOD.
- The *lowest* degree is love for the negative, for baseness.

There are unfortunately people who experience a heightened sexual sensation when they behave in an *inhuman* and *cruel* manner. This dreadfulness represents a kind of love to these people, because they are *incapable* of feeling a *higher* kind of LOVE.

- *People who strive for LOVE and see LOVE as sex only, are to be pitied, because they possess the primitive instincts of lowly animals.*

Here is an explanatory example: If someone pursues a creative activity, he will only succeed in his endeavour, if he carries out his work with interest and with LOVE. Without these prerequisites, the result will only be some botched up job.

We can see that LOVE and interest are *closely related*.

Sex directs one's interest to one certain object. But if it *only* deals with satisfying *one's interest*, real LOVE *misses out* completely.

- LOVE must be *more* than an interest; it must be *durable* and *willing to make sacrifices*; it must be able to *give*.

But GOD'S antagonist has unfortunately made this subject *his own*. He is interested in portraying *sex as LOVE* in order to debase people.

An interest in sex is often an **enormous mistake** in regards to LOVE. This is why there are so many disappointments that end up in hatred and in the courts.

- LOVE is a field of KNOWLEDGE!

Everybody should acquire this KNOWLEDGE and it ought to be *correctly explained* in schools.

## The desire for LOVE (Transmission from the year 1970)

As everything is based on vibrations, that is to say, on oscillations, matter only represents a form of vibrations. But *spiritual* VIBRATIONS are as *real as physical vibrations*. Sometimes perceptions and feelings also belong in that category. LOVE is also VIBRATION, even though it comes in *many* variations.

- *The highest VIBRATION of LOVE is naturally DIVINE LOVE.*

LOVE will *only* gain *complete* effectiveness when it is *yearned for*, desired with all of one's powers. The desire and the fulfilment of LOVE are akin to two electric polarities and they will only reach their full potential *when* they meet one another.

- *Only those that yearn for LOVE can experience it!*

This is the reason why Christmas is so informative and important. People might desire a lot of presents, but the *underlying* desire is always the desire for LOVE! One can immediately recognise whether a present has been selected *with LOVE* or whether it just fulfils the requirements of tradition. He, who is *not* prepared to give with a *genuine desire* to give out of pure LOVE, is better off leaving it be altogether, because simulated fuss and ado hides falsehood and hypocrisy.

The exact same applies to DIVINE LOVE. Whatever we want to give GOD has to be reverence and LOVE, because HE has everything else himself. The universe *belongs* to HIM! But whatever we give *cannot* be hypocrisy, because one *cannot* buy GOD'S LOVE! - GENUINE LOVE cannot be bought at all. LOVE is not some kind of merchandise!

- This is why DIVINE LOVE cannot be acquired through bartering or promises.

Many people believe that GOD has abandoned them or that GOD doesn't actually exist. They cannot feel personal LOVE, because they haven't recognised that their personal desire for LOVE is a *false* desire. One cannot ask for more *than one is prepared to give*. This has nothing to do with being rich or poor, because LOVE does not depend on that!

Genuine LOVE unfortunately takes a *backward step* when it comes to giving presents at Christmas time. *Business* and the *mania* to *outdo* others with presents, to big note and to distinguish oneself are unfortunately very much the norm. This actually represents a misjudgement of the meaning of this so very important celebration of brotherly love! He, who gives with LOVE, naturally enters a closer, more intimate relationship with the other person. This is what this is all about. But just how many presents trigger envy and anger these days when they change ownership? Or they stimulate *negative* emotions, if they *differ* from the norm, respectively from the expected.

People's feelings should *not* fade away and certainly not atrophy! On the contrary - they *are a part of one's development* and this development represents the main assignment here on Earth. Man continues to live in spirit after death; there is a huge amount of evidence to attest to this. Only an obstinate,

egotistical, and selfish person, an irresponsible person, will believe the doubters that *cannot think* different from his own way of thinking.

Do not make the mistake of giving your LOVE to GOD'S antagonist. He can *blind* you with material possessions, with pleasurable things and with a craving for recognition, but he can *never* bestow genuine LOVE upon you. Philosophy has never given this point any *serious* consideration. But we are your TEACHERS and we will make up for this omission.

- *LOVE is the most important feeling that human beings need in their development, here and in the hereafter!*

PEACE ACROSS ALL FRONTIERS for you and all of mankind!

### **One single word** (From the SPHERES of LIGHT)

*Well, the word is with GOD - and GOD is the word.*

Have you ever thought about this?

The word serves communication. It is also the *expression of thought*. There are no other entities throughout the universe that surpass man in this regards. Thought activity in the form of speech is a GIFT from GOD, one that was *given* to man. It is therefore a divine GIFT!

Mankind on Earth treats this immeasurably precious gift in an *unbelievably negligent fashion*. Not to mention swear words and the one word that is most often used; is unfortunately part and parcel of the current vocabulary of radio and television.

- One single word can mean the difference between life and death for all of mankind.
- One single "no" can rob someone of their sanity.
- One single "no" can bring starvation to whole nations.
- One single word - expressed- has broken many a heart.

These are just a few examples of millions of examples.

*Think about this!*

If one single word can gain such significances, how much more comes into the equation if *whole sentences* are composed. - What is even more remarkable is when these sentences are immortalised in writing and printing.

What intangible meaning lies hidden in this particular and simple word: LOVE!

The spiritual realm cannot understand you in this respect, because it simply cannot fathom the way you so terribly *superficial* and *unscrupulously* apply your vocabulary.

This represents a blasphemy!

This is a blasphemy against GOD!

GOD did *not* impart these abilities for *that* purpose.

Are universities actually aware of the meaning of your vocabulary? If the communication between people is not clean and correct, *misunderstandings* develop - leading to wars and eventually even to the *end of the world*. I don't just say this without rationale, because *everyone's* mind must be able to grasp this.

*Be careful with your thoughts!*

*But also careful with your spoken words!*

Your role model JESUS CHRIST called your attention to this by saying that: "Words fly away like birds, but they never return to the mouth that spoke them."

In your unspeakable *ignorance* in regards to *spiritual facts* you have no idea at all just where a spoken word ends up.

- *The end of the acoustic reverberations does not mean that the word has gone forever. There is a meaning attached to it and it was expressed via the soul. This is the reason why all the terminologies are not simply obliterated, they remain in the cosmos forever, they can be recalled and this after thousands of years.*

These words, which should never be spoken, these unfortunate words can haunt you terribly *after your demise*.

- *There are authors here in the hereafter that cannot rest peacefully, because their written words keep them confined on a level that the word "hell" would describe very accurately.*

It is strange that you find it so easy to express *ugly* and *evil* words and that you can curse so readily, whilst you find it so unbelievably difficult to utter a nice and conciliatory word.

To add to this comes *the emphasis* placed on a word, because the sound is also of importance.

If you profess to love music, why does one not find the same harmony in your speech?

## WORDS of CHRIST:

Matthew 12: 36-37:

*“You can be sure that on the Judgment Day everyone will have to give account of every useless word they have ever spoken. Your words will be used to judge you - to declare you either innocent or guilty.”*

## LOVE (Transmission from the year 1967)

Well, great thinkers have also given LOVE some consideration. But if LOVE is to be recognised and assessed *correctly* one has to apply universal thinking. It is not enough to look at just the LOVE between man and woman or parents and children. LOVE is actually the greatest thing that exists throughout the universe. It isn't just a HEAVENLY POWER, but a PRINCIPLE of CREATION, an ENTELEGY that created and now maintains the whole universe. If the CREATOR wanted to create something good, HE could only do so through eternal LOVE. The moment the PRINCIPLE of CREATION is *abandoned*, nothing worthwhile will come about.

Even though prominent philosophers and theologians have thought about LOVE, they have not been successful *in recognising* LOVE as the mysterious POWER that created everything in the first place.

- *Man has given the essence of LOVE none or very little consideration.*

No single being would exist if it were not created by GOD'S LOVE. No human being could live on Earth, if he or she wasn't sustained by GOD'S LOVE. One talks of a LIFE FORCE, of biological insights and laws. But they are merely poor periphrases, because life, the immortality of the soul, the abilities of one's consciousness etc. are all things that originate from divine LOVE.

- *The people on Earth can only love in a diminished way or not at all!*

This makes life on Earth *troublesome* and even *dangerous*. Mankind on Earth lives in unrest, disharmony and great dissension. All of this would not exist, if the people on Earth would *study* the LAWS OF LOVE and *act accordingly*! Even if the will for world peace existed at all, this world peace could *never* come about, if LOVE isn't *consolidated first*.

- *To live without LOVE means to live without GOD!*

There are no opportunities at all to make peace without GOD. This is the reality of it all! This is why CHRIST, the *advocate* of brotherly love, especially emphasised this. He was an ANGEL of LOVE who interpreted LOVE, but unfortunately without a lot of success.

Those who *didn't develop* and nourish their LOVE here on Earth must do so *over again*. This is why there are many reincarnations, that is to say, an earthly rebirth. The flesh represents an agent there to help *the development* of LOVE. This has never been recognised.

- *No soul can achieve bliss in the spiritual realm, if it has not reached a high degree of LOVE.*
- HEAVEN is not a holiday camp, but a community of LOVING souls, alien to animosity and with the same interests in HIGHER DEVELOPMENT.

Where LOVE resides, there is also harmony - and therefore also beauty. The more beautiful a landscape, the more beautiful the divine sun can illuminate it. Beauty and creative LOVE go hand in hand. Beauty can *only* be achieved through LOVE. When a woman puts on make up and cultivates her beauty, she loves herself and endeavours to impress others with her beauty, in order for them to LOVE her. The *real principle* of LOVE can be documented through this. But he, who LOVES his fellow man, is a step closer to bliss.

GOD'S NAME is and remains for all eternity: LOVE!

### **The LAW of LOVE** (Transmission from the year 1959)

LOVE is a word that is used a lot, but it represents an even greater concept. Our whole existence and *also our future* is influenced by and dependent wholly and solely on LOVE.

- If one worries about one's future, if one fears a terrible war or if one suffers in any way, it is only because one has *not enough intuitiveness* about LOVE.
- LOVE represents the highest LAW throughout the whole universe!

If unwritten LAWS are *trespassed against*, the results are enormous. Whoever *trespasses* against the LAW of LOVE in any way, cannot escape its grave consequences in any way, it acts like powerful poison.

- On the other hand, LOVE is the greatest POWER in the universe.

It is so absolutely CREATIVE, persevering and stable and as a pure SPIRITUAL ENERGY, it has built the whole universe.

Within the polarity between good and evil that is unfortunately present, divine LOVE plays an important role. It can turn *negative without* suffering any loss of ENERGY, because it then turns into a *parasite*. If this is the case, it turns to hatred and its aim then is not construction but destruction.

- We know very little about the mysterious LAW of LOVE, but it does represent GOD'S greatest CHARACTERISTICS.

What most people understand to be LOVE is in fact the *reproductive instinct*, it does indeed receive *its impulse* from LOVE, but it doesn't contain any real LOVE. There are thousands of characteristics and

forms that are denoted as a kind of LOVE, but they are certainly not the kind of LOVE that has absolute validity as the UNIVERSAL LAW of LOVE.

- All of these forms and possibilities are *influenced* by LOVE, but as they stand they are *not* ELEMENTARY POWER!

The fallen angel Lucifer re-polarised his enormous LOVE of his own accord. His own *over-emphasised love of self* turned to hatred against all creative, positive FORCES. This hatred turned against the LIGHT, against CREATION and even against GOD.

- *But next to ANGELS, man also stands next to GOD.*

Lucifer prefers to direct his hatred *against people*, because they are so *very easily* re-polarised due to their own love of self. If this takes place, LOVE turns into a very *dangerous* POWER through Lucifer's influence and this in a completely *negative* sense. Man's instinct to reproduce does not receive a divine LOVE IMPULSE, but turns to *the demonic*, which can display itself in most ghastly forms and this even more so concealed.

Hatred for instance can make you *ugly* very quickly. People can become *beautiful* through the harmony of brotherly love.

- *The LAW of LOVE must be fulfilled, otherwise there is no escape, no chance for peace and no way for development to progress.*

Animals fulfil the LAW of LOVE *a lot easier* than man. Man's dependence on Lucifer makes them *slide* very easily below the mental status of animals. Papers often enough report about the bestial repercussions of this. The courts psychiatrist might well make an advisory opinion by constructing a motive. But in all cases, the *real* motive is always an infraction of the UNIVERSAL LAW of LOVE!

To see through this on their own is impossible for the people on Earth.

- *This is why GOD sends HIS SERVANTS to indoctrinate man through messages. Every one of these messages is a part of GOD'S LOVE.*

Due to the influences of all your acquired knowledge in all areas, it is impossible for you to recognise and acknowledge these types of messages as coming from GOD directly. They seem all too human, even though they're philosophical or theological.

- *It takes a lot of experience to accept a general indoctrination as a LOVE MESSAGE from GOD as genuine. But one can only gain experience if one deals with this in detail!*

Billions of people on Earth never ever think about attempting to deal with GOD'S TRUTH, because they are of the opinion that they know the TRUTH *already*.

- *Their lack of experience is their downfall!*

## About LOVE (Transmission from the year 1965)

Well, there is a lot of talk about love. But if we have a *closer* look, it all seems *very suspect* to us. One has assumed that there are various kinds of love and that one can therefore rate it accordingly. But true LOVE can only be rated on *one* level, because everything else has *nothing to do* with genuine LOVE, Love that represents one of GOD'S highest CHARACTERISTICS.

But the POWER that goes hand in hand with LOVE is another story and it has to be *applied correctly*. LOVE can be very strong and it can be very great to begin with and if that is so, it is fed by divine ENERGY. But this very same LOVE can abate after a very short time, because it runs out of the ENERGY that maintains it.

A machine or a motor must also be fed by a power source. The same applies to LOVE, is also needs a POWER SOURCE - and this is a *very strong* POWER, well, actually the strongest one in the universe. This POWER feeds the LOVE that is involved with any kind of higher development and with the help of this POWER, man accomplishes extreme performances. Those who love their occupation must also find the POWER, the ENERGY for it. Those who love their fellow man need a *special amount* of ENERGY. Even those who love their partner, need POWER for *this* LOVE, because if this POWER diminishes, LOVE will die, like a flame without oil.

You are sometimes amazed that two people can deeply love each other throughout their lives, even though they don't look all that lovable on the outside. These people draw correctly from the great cosmic and divine ENERGY SOURCE that nourished LOVE. This is why it is essential - and this in the truest sense of the word - to give *this* ENERGY all of one's attention.

This ENERGY can *certainly not* be obtained from the negative regions; that would be an illusion. This ENERGY comes *only* from the *positive* region, as mentioned before, it comes from HEAVEN. Everything that challenges this ENERGY must be avoided, namely: Discontent, egotism, ungodliness, profligacy, envy and so forth.

- *But those who look for harmony and avoid all vices and discontentment make themselves receptive to the MIRACULOUS POWER of LOVE, which in turn will not just concentrate on their partner, but include every other human being and actually encompass all of divine CREATION.*

If one wants to arrive at a *positive* objective one has to take a *positive* path; one must live positively, that is to say, one must live *correctly*!

- *There is no negative life's journey that will lead to a positive objective!*

This certainly makes sense - and this is why I'm very surprised that most people do *not* act accordingly. They tread a negative path filled with suffering and it *robs* them of the greatest POWER that exists throughout the universe. Somewhere along the line they insist that *the whole world is good for nothing* and that there is *no just CREATOR*. They're abhorred by their very own existence - and

they have suicide in mind. They do not love another creature, nor a flower or any other earthly beauty. But they are *powerful in their hatred*, because they *terribly misuse* the ENERGY of their fellow man.

- *He, who lives without LOVE is damned and even GOD cannot save him unless he comes to his senses and chooses another path, one that will lead in a positive direction.*

Enjoyment and lust in any direction under the heading of “love” is *without* divine ENERGY and therefore *never long term*! Apart from that, *this* “love” has nothing to give but an egotistical grab for ownership in order to delude the senses for a certain period of time.

- True LOVE never causes suffering!

### **About brotherly love (1)** (Transmission from the year 1965)

Well, CHRIST was already well aware that brotherly love it the *most important* thing for mankind. The world can *never* live in peace *without* brotherly love. In his explanations, CHRIST went as far as saying that: “Love your enemies *also*.” - But if there is brotherly love that is abided by, there can be no enemies, because every animosity arises from some negative behaviour of someone.

- *Every prayer comes to nothing without the associated practice of brotherly love, because one cannot love GOD with all one's heart if one doesn't take brotherly love serious!*

The bible unfortunately doesn't give enough information about this type of LOVE - which is after all GOD'S *most important* characteristics and *outweighs any other* by far.

The *marital* alliance is also a case of brotherly love and if it *isn't* correctly administered to, living together comes to an end -, and the marriage also!

To educate people from an early age is *vital* and important! But the educational system has never entertained the idea of incorporating a subject called “brotherly love” into its curriculum. One prefers to specialise in the *history of war*, which represents everything else but brotherly love. Well, divine AUTHORITY offers you a suggestion:

- *Teach brotherly love in schools, this can begin at primary school level!*

CHRIST, who was a divine TEACHER, gave an explanation. He mentioned the story that is known to you as the parable of the Good Samaritan. Let me give you *the beginning* of brotherly love *in action*.

- Allow war atrocities to rest and teach FIRST AID instead!

I am even in favour that students, who take up a scholarship, *must* absolve a time in the field of geriatrics or the sick. Only then will they realised that they are *beholden* to society and that they are *not only* be the beneficiaries of society. This form of education should naturally not be confined to just

one country; it must be attempted *worldwide*, and I can tell you that this *is more important* than all the peace conferences in the whole world.

People are unfortunately looked upon as a resource more and more. This fact becomes apparent in theatres of war (cannon fodder). But one tends to forget that one is dealing with the *best organised* resource that exists in the whole wide world; not taking into consideration that this resource has a *divine soul*! This absolute disregard for this most highly organised resource is reason enough to give the subject some serious thought and put the contemplation of the subject *in place* of peace conferences. It would actually be the *duty of the Church* to put this into action instead of holding rock concerts.

- *This can never make any progress without giving people the correct form of education, because GOD'S antagonist takes full advantage of the situation.*
- All trespasses against brotherly love must be severely punished, but the appropriate legislation is actually missing here!

The advancement in technology increases the dangers for people. This is why FIRST AID is of paramount importance. But this HELP is in fact an *excellent means of communication* between people who have *never met*.

- *Everybody can assert a claim for brotherly love, no matter what race, what nation or what family they belong to!*

## **About brotherly love (2)** (Transmission from the year 1973)

CHRIST preached about brotherly love. From that point in time, Christians have been expected to *set the standards* in regards to brotherly love. Atheists virtually expect PIOUS PEOPLE to be, subjected to patient martyrdom, *subjects of exploitation* in the hands of ruthless people. But it has never been the intentions of the divine TEACHERS and SPEAKERS to influence mankind in such a way that they willingly bow to the evil intentions of materialists.

- *True brotherly love has nothing to do with stupidity, nor with waste or frivolousness. True brotherly love is more a case of spiritual help than a willingness to make physical sacrifices.*

Most gifts are *not* a sacrifice, but a form of endearment. They are of a *traditional* nature most of the time and contain a hidden agenda in regards to higher rewards. Many presents have had a more of a disastrous result than actually bestowing bliss on someone. Apart from that, bliss can never be bought. A present is supposed to give pleasure. But the *true* meaning of a present is found mainly in the pleasure *the giver* derives from giving, no matter whether he participates in the pleasure the receiver derived from it.

- *But if a Christian allows himself to be taken advantage of in regards to Christianity, he does not do his religion and therefore the divine TRUTH justice, but only brings discredit to this religion. A*

*true Christian must have enough character and common sense to be able to say “no” without hesitation.*

In the majority cases of brotherly love in action, people cannot ascertain just who *the actual* beneficiary of the present is. A bottle of alcohol and a packet of cigarettes are therefore presents that have nothing to do with brotherly love, because the *true* beneficiary is GOD’S antagonist!

- *One has to decide very carefully whether HEAVEN or hell, or whether GOOD or evil is the true beneficiary.*

People hardly ever think things through to the end.

So-called sentimentalism, a weakness of mind, is a dangerous precipice many Christians has come to grief upon, because they didn’t know what *true* brotherly love was all about!

- *Even the worst adversity can under certain circumstances be the best brotherly love, if it ends up guiding a licentious person to a life of diligence and duty.*

GOD will not save anyone from an adverse situation HE knows to be *a blessing in disguise*. GOD will not save a despairing humanity from a crisis HE knows to be the only opportunity for spiritual renewal. But GOD would have to be the greatest role model in regards to brotherly love - GOD certainly is - and this most of the time in HIS inexorable JUSTICE!

All the many careless mistakes, also all the business dealings on behalf of Christian brotherly love, all insincerity and exploitation have managed to *undermine* the true FAITH in GOD.

- *The asking of donations by the Churches and sects are also a great blemish on GOD’S majestic CHARACTER. These practices damage the whole reputation of religious knowledge.*

When divine TRUTH heralds its performance of doing good so that it is recognised all over the world, this kind of brotherly love comes to an end.

## **Doing good has limits** (Transmission from the year 1957)

To do good is the *highest* LAW throughout the universe. How little good do the people on Earth really do? But the *highest* LAW actually asks here to be *very careful* and *wise* when it comes to doing good. It can happen that people are careless with their brotherly love and in stead of helping, only do damage.

Well, listen very carefully, because this is very important!

An earthly existence on planet Earth is *one of the most difficult* stages of redemption in the whole universe. Man undergoes his major examination here on Earth - and if he *doesn’t* pass, *he will regress*

a long way in his development. A difficult education begins anew and many, many stages or classes have to be re-absolved.

- *GOD asks of man a very particular MATURITY, let's say an AVERAGE MATURITY, in order for him to lead a better existence on a more advanced planet.*

Everything that *happens* on this Earth serves the purpose of educating and of advancement, that is to say, *that's the way it would be, if the people on Earth wouldn't always struggle against their own destiny. Man is unfortunately dissatisfied with GOD'S MEASURES* - and he would like to live the way *he* sees fit. But the ALMIGHTY'S ORGANISATION doesn't see it the way people think it should be by a long shot.

It's all a question of what will help to *consolidate* the soul.

Imagine a dissolute and idle person, one who always wants *to be served*. There are innumerable of that kind. The LAW advises you to do good to *everybody*. Is it correct to act *imprudently* and wait on this lazybones left, right and centre? - Your good deeds would do *more* damage than good.

It would make about as much sense as giving a good-for-nothing a lot of money, he would only do mischief with it. - Let's take the case of a drinker who mixes with the lowest of the low. Would it make sense to give him money and *to pour* him some wine so he can *sink even lower*? -

- *There are innumerable situations and people where "doing good" only does harm. How one does "good" has to be carefully weight up and considered. - It must make sense and it must promise further success.*

There are enough cases like that, you come across them daily! But you make the mistake of simply *overlooking* these cases. You don't even think about it. You try to appease your conscience instead by giving gifts for *all the wrong reasons*.

- *But there are also spiritual GIFTS, these INDOCTRINATIONS for instance. These may also not be frivolously given away. They must be given away to where they serve progress and where they will be understood.*

With my spiritual eyes I saw a mother, with an immense love for her disobedient daughter. With a *false* sense of brotherly love and a *false* sense of motherly love, she gave all her savings to her daughter. The daughter began *to rely on this* and became ever more dissolute, well, even vicious and ungodly when the mother had nothing left to give.

The government often makes the same mistake as well and gives *where it's inappropriate*, by completely overlooking or excluding the *real* cases where help is appropriate through legislation.

## About the **FESTIVAL of LIGHT** (Transmission from the year 1962)

Well, the world finds itself in a great crisis, akin to a great darkness. But remember that the GREAT LIGHT *will follow* this darkness. Many of you may think that it takes *too long*, because impatience of one of man's flaws. This flaw must also be redeemed.

- *Many of you are of the opinion that ungodliness is progressing. But I can tell you that there is no reason for you to worry about that. The universe is governed by GOD and HIS HEAVENLY HOST and certainly not by HIS antagonist!*
- *The great FESTIVAL of LIGHT has also a correlative meaning in the LORD'S REALM. The spiritual SUN penetrates the whole universe and everywhere where darkness reigns, GOD allows HIS MIRACLES to shine.*

Be assured, Earth's humanity experiences its darkest night. But what meaning does it have, if GOD is *aware* of this night? GOD will not allow this situation to remain *for ever*. Therefore light the LIGHT within your hearts, so that they can illuminate the night and so that GOD can *see* that you *yearn* for the SUN.

Christmas is not some business transaction, but a festival of GOD'S infinite LOVE. Under the influence of GOD'S antagonist, people have turned the GREAT FESTIVAL of LIGHT of the divine CONSECRATION into business propaganda.

- *GOD'S great distribution of gifts to mankind on Earth comes in the form of HIS REVELATIONS!*

In spite of all the deprived resistance, mankind will arrive at the conclusion that life itself *is not limited by time*, but only *serves the physical for a limited time*. The universe is so magnificent and large that it is at the disposal of *every* soul. Not just limited to one single place, but *every* soul will *consciously* transit all of these levels, once GOD'S SPIRIT properly awakens and is recognised.

Universal peace is the HOLIEST of LAWS!

Many ANGELS are trying to realise this LAW on Earth!

GOD continuously endeavours to rescue HIS children from the clutches of fallen spirits. This is why HIS spiritual HELPERS extend their hands to you, so that you can be lifted up.

Trust the GREAT SPIRIT who created the universe and who has given you life.

GOD wants the most intimate contact with *all* the people of this Earth.  
This is *why* GOD has realised this contact with *JESUS CHRIST*.

PEACE ACROSS ALL FRONTIERS! - PEACE THROUGHOUT THE UNIVERSE!

GREETINGS IN THE NAME OF GOD - and GOD'S BLESSINGS for this Earth. - Amen

## About the FESTIVAL of LOVE (1) (Transmission from the year 1965)

Well, Christmas is just around the corner. Christian religion uses the propaganda around all the many Christmas presents to promote their case. But this propaganda veils the *true meaning* of Christmas.

- *It is not really about what kind of present, nor is it the tradition of giving, but it's all about brotherly love! - It is the actual reason of this eminent festival!*

Well, the people on Earth ought to remember that GOD gave them HIS BENEVOLENCE. HE *didn't* leave them in the darkness of ignorance. GOD sent HIS MESSENGERS from a distance solar system to Earth in order to help mankind on Earth. HE sent an EMINENT SOUL to this world in order to have an INSTRUMENT of communication between HIM and the people on Earth at HIS disposal.

- *JESUS CHRIST had an assignment like no other person before him! He was telepathically connected to the HIGHEST ENTITY that exists throughout the whole universe. He received GOD'S THOUGHTS and uttered them through his mouth. This is way CHRIST said: "I and the FATHER are one." (John 10:30)*

This *didn't* refer to the physical body, because GOD is *not* incarnated and will never be so. It *also doesn't* refer to the soul, because no vessel in the whole universe is capable of absorbing the (whole) unimaginable SPIRIT of GOD within.

- *If you aspire to connect with GOD, you have to endeavour to connect with the SPIRIT of GOD through brotherly love. That's the way!*

Brotherly love is not a valve for the craving for recognition. Brotherly love represents the absolute form of humanity. *It alone* indicates whether a person is mentally part of mankind or whether he mentally *distances* himself from the rest of humanity. But where will he go, if he distances himself from the rest of mankind? - Where is the terminal station? - The terminal station is with the anti-god, with the antagonist, with the lord of demons.

What I am trying to say is that there are many, many people who do *not* possess brotherly love and *therefore side with demons*. This doesn't stop them from attacking their own race or to destroy it. They cannot *disguise* their lack of brotherly love by donating money for this or that charity.

- *Brotherly love can exist without money. It is - as I mentioned before - the real characteristics of mankind. There are people who need comfort or even one single word of encouragement more than a sack full of money.*

In regards to giving Christmas presents, it is more important that the giver thoroughly deals with his own approach to brotherly love. He should reflect on how he can bring enjoyment to his fellow man or how he can do him a service.

- *It doesn't make sense to give someone an expensive car and to affront him at the same time or if one endeavours to gain dominion over him. Simply good manners ought to be and can be an excellent present.*

People walk through department stores and nobody wants to be trumped in their choice of presents. This is pure *craving for recognition* and *doesn't* count in the assessment by the SPIRIT WORLD. When giving presents to your loved ones:

- *Have you ever thought of how you could also please GOD, the greatest of all GIVERS?*

## **About the FESTIVAL of LOVE (2)** (Transmission from the year 1973)

Well, the festival of LOVE once again approaches. The question of whether a FESTIVAL of LOVE *without* peace is at all possible arises?

- LOVE and peace are divine CONCEPTS and they are therefore *closely related*. Where strife reigns, there can be no LOVE!

Recent events have made it very clear that the world is *without* LOVE and that the people on Earth tremble at the prospect of terrible wars. GOD'S antagonist is restless and fights for his survival by dragging mankind down in his misery.

- *There is no confrontation that can be settled with weapons.*

Without LOVE there is no peace! This is why there is no "holy war". That is the *apogee of blasphemy*. Genocide *cannot* take place in the NAME of GOD, but certainly in the name of the devil. Therefore every "holy" war *is a hellish war*. Political atheism spreads its wings even through the strata of leaders who speak the WORD of GOD and kneel in devotion.

- *It is GOD'S WILL that the people on Earth not only love themselves, but also others. This doesn't mean that people ought to LOVE someone else or a group of people, but that they ought to endeavour to concentrate their LOVE on all of mankind.*

He, who concentrates on his fellow man with this in mind, in order *to understand* them, *to respect* and *to LOVE* them, concentrates on world peace.

This is the way the antagonist's evil deeds are foiled!

Christmas is a reminder of the birth of CHRIST. He emphasised even then: "Love thy neighbour as you love thyself." (Matthew 19. 19-22. 39, Mark 12. 31) It is *not* about the presents! Because one can give *without* regards to traditions or showing off - not always out of LOVE! He, who is concerned about the *well-being* of his fellow man, will give something that will help the other *progress*. It can be in the shape of good DOCTRINES or advice about health issues. - Presents quite often bring envy into

play. One should be aware that envy is far removed from LOVE, because that is not according to CHRIST'S wishes.

There are incited, influenced or misguided people who would prefer to *abolish* Christmas. But Christmas is not all about business, but very important in reminding people of their *humanity*.

Every progressive person really ought to meditate for a few minutes on Christmas Eve. Positive thoughts always advance things. Whether Christmas is regarded as CHRIST'S birthday or a festival of self-reflection is left to every individual. Everyone can look at it from their own point of view, but the necessity to remember LOVE can not be denied.

- *One's LOVE for one's fellow man brings one closer to GOD, even if one cannot fathom HIM.*

The more joyful and decent Christmas is celebrated, the easier it is to understand that mankind needs LOVE and peace in order not to degenerate due to evil inspirations. That this important festivity is not just celebrated by a few, but enjoys a *worldwide* tradition, clearly shows that this is a beautiful festival and one that one is *not* prepared to do without. GOD'S REALM feels wanted at Christmas time!

## **DIVINE LOVE** (Transmission from the year 1971)

Well, Christmas is the festival of divine LOVE. Most people are *not aware* of the true meaning of this festival, because political and atheistic lunacy influences them.

- *It isn't just about celebrating the REDEEMER'S birthday, who brought the LIGHT of TRUTH to this darkened world, but about GOD'S LOVE, something every human being should remember.*

A quarrelsome and stressed mankind needs more LOVE, more understanding and more tolerance. This is why Christmas offers a great opportunity to contemplate the whole affair in more detail. Next to material presents there are also *spiritual* PRESENTS. GOD, the GREAT PLANNER has given *this* humanity also such a PRESENT. HE gave HIS LOVE. But this has unfortunately been forgotten.

Many people are angry and upset, because they are of the opinion that GOD ought to strike hard at sinners, because sin reigns everywhere. But they forget about GOD'S LOVE, he *doesn't* strike hard, but shows unfathomable patience and tolerance instead, HE abstains from punishing and prefers to utilise *different means*.

Ungodly tongues insist that Christmas is purely a season of profiteering. But that is **a fallacy**, because the *true* character of the festive season has nothing to do with profiteering, but with giving from the heart, with LOVE.

- *Do not give these material gifts an overemphasised value. True values are not determined by their money value, they are found within the reciprocal LOVE that one shows one another.*

But the most important thing here is that people should have the feeling that they are still on GOD'S side and that they have not yet been abandoned by HIM. He, who accepts GOD finds himself in the *right* camp, nothing can happen to him *that could harm his soul*, because he, who loves GOD, is also loved by HIM!

Great TRUTHS establish themselves very slowly. We still hear great TRUTHS *even now*, but they take their time. But a red dawn is on the horizon. Have you not noticed recently that CHRIST once again plays an important role? HE has captured the imagination of young people all over the world. One returns to *real* values, because the birth of CHRIST *was a gift* to mankind, a TEACHER without equal. Even the rebellious youth has recognised this. CHRIST represents the *only useful* role model, because there is nothing better available. This alone is a worthy cause to celebrate GOD'S LOVE in an appropriate way.

But I must warn you!

Do not allow yourselves to be inspired by the antagonist, because it is to his advantage *to degrade* and *to interrupt* Christmas. Material avarice and overindulgence are a welcome means when it comes to helping the antagonist to succeed. Christmas will then look accordingly.

Mankind needs Christmas more than ever these days. It ought not to disappear or be distorted, because it represents the memory of divine LOVE. But Christmas must be celebrated in a *decent* manner and it may *not* be under the influence of atheism, the religion of the devil.

## **The FESTIVAL of LOVE** (Transmission from the year 1969)

Well, LIGHT comes to this world! This *doesn't* mean it going to come *tomorrow already*. CHRIST announced the LIGHT about 2,000 years ago. All of mankind still waits for this prophecy *to be fulfilled*.

- *But I can tell you that all the preparations have been made to fulfil this prophecy.*

It is unnecessary to argue the fact of whether CHRIST is a SON of GOD. Important is his messages, which is supposed to bring mankind salvation. Salvation? - What does that mean? - Mankind must be released from the shackles of disbelief and ignorance. *When this happens, people will change their whole life - and therefore the whole world!* But this salvation can only take place through the GREAT LOVE.

- *CHRIST is the embodiment of this GREAT LOVE and Christian religion is therefore ahead of all the other religions in spite of all its shortcomings and imperfections, because it is based on the LOVE CHRIST represents!*

But whether LOVE is practiced correctly or not is another thing.

At least you should abide by it; you are not unaware of it.

Is LOVE something worthwhile? - To answer this question is very important. The Churches have unfortunately neglected to inform mankind about the success LOVE has. If you only look at this from your mundane perspective you will not make any progress in regards to this. Every human being is *not just* an earthly being. The body, that is to say, matter is physical, but its spiritual contents, namely the soul, is universal! Every human being is therefore a *universal being*, one that is *temporarily embodied* in an earthly body. Those in the know have no doubts about that.

- *Whether LOVE is something worthwhile can not just be contemplated from an earthly point of view, but must be predominantly regarded from a cosmic point of view.*

It might seem to you that in many instances LOVE doesn't pay. But that is **a great error**, because real LOVE always *pays*, because your earthly existence is not at an end by a long shot after your earthly demise. There is still a long, long way for you to go and LOVE certainly pays in the long run. Only terrible ignorance can seduce you to draw the *wrong* conclusions.

Christmas is the FESTIVAL of LOVE. But LOVE is not just expressed through gifts, even if they are very expensive. LOVE, *true* LOVE, is a feeling that gives people enormous ENERGY. He, who senses the LOVE of another person, *feels* that this mysterious ENERGY flows through him; that he profits by it.

- *LOVE can reveal itself through one glance, often one single word!*
- *CHRIST was aware of this LOVE like no other. He is the prophet of this divine LOVE. Therefore look at Christmas from a universal perspective. It is a great occasion and its meaning is greater than you apprehend.*

Can you feel GOD'S LOVE? - I believe that most people are blind in this respect. They are too involved in their day to day business. But GOD is magnanimous. HE is not obtrusive. GOD works mysteriously in the background. When it comes to earthly matters, HE allows *you* primacy and you should be grateful for that, because that is a great act of true LOVE! - Are you now aware how much you are loved, in spite of everything?

- *Please, do think about this during the Christmas season, it is a good opportunity and maybe even a turning point in regards to your personal development towards true BROTHERLY LOVE.*

## **About peace** (Transmission from the year 1963)

Well, Christmas is near. Have you forgotten what kind of celebration it is and always should be?

- *Christmas is not just a Christian celebration, but a monition and reminder for all the people on this Earth!*

But a lot has changed here unfortunately, because many people regard this festival a good opportunity to conduct their business. Others look at it as party time, where one can sin in all kinds of ways. Others do not want anything to do with Christmas; they prefer to abolish this celebration altogether. - Well, this makes it quite clear that almost everybody is not too sure what it is all about.

I would like to remind you today!

Christmas is the most important celebration that exists in the field of REVERENCE of GOD. Have a look in the bible. It deal with the solemn announcement of world peace. (Luke 2:1-14) This message of peace was announced by the SANTINER, that is to say, by the MESSENGERS of GOD. But GOD does not announce nonsense, only real TRUTHS. This message of peace tells you that you will achieve this peace, if you do as you are commissioned to do. Therefore he, who is *against* Christmas or disregards it, has no idea about its genuine message of peace. He stands *for* chaos, for the dissolution and the destruction of the human community.

- *Consider this for a moment! - If people talk of peace, but degrade Christmas, they don't qualify as peace makers, but peace hypocrites.*

But the true message of peace is: Glory to GOD in Heaven and peace on Earth and goodwill to all and sundry.

It is a sad state of affairs that one has to remind you of these words!

- *Peace is possible, because it is dependant on faith and the right kind of REVERENCE for GOD.*

But if someone talks of peace, but *disowns* CHRIST, treads his DOCTRINES with his feet, *desecrates* Christmas and endeavours to *abolish* it because it is supposed to be mere superstition, he does not consider peace to be divine, but simply idle talk.

- *The better and more reverently you celebrate Christmas, the closer the peace you all yearn for will approach. Only people prevent peace! GOD doesn't do so! But HE does ask for your co-operation, well, at least your good will.*

It is not about giving, but all about the expression of LOVE. It is therefore all about brotherly love, which is the first prerequisite when it comes to genuine peace. A little something can give pleasure, if the receiver feels that the gift comes *from the heart*.

- *One cannot do business deals with peace, it is the result of OBEISANCE to GOD!*

Angels made from paper and figurines made from straw do *not* demonstrate a genuine message of peace. But if you glance at the sky, you will see GOD'S glory every now and then. The SANTINER, GOD'S MESSENGERS are still around even now, but they are reluctant to come down, because they would be attacked and killed. - Try to celebrate Christmas in a proper and contemplative way, so that you will *recognise* that you are dealing with a MESSAGE of PEACE from GOD!

## New Year's Eve (Transmission from the years 1975)

Well, Christians also celebrate the beginning of a new year. It should *actually* be a *solemn* occasion, because every year has its secret. Nobody can say with any certainty what the future brings. But the future is *important* for every human being; it can bring death or good fortune, whatever people understand under the term of good fortune. I don't want to prophecy the future, but I will tell you the situation as is really is, because New Years Eve is *more* than a mysterious turning point in people's lives.

You live in a time of enormous cosmic events. It is the dispute between two SUPERPOWERS, GOOD and evil. It is the BATTLE of ARMAGEDDON - and this battle, extended over a considerable amount of time, is in progress. But as the victor also has to pay a price, it is inevitable that the GOOD will also have to make some sacrifices. This is *not* really a good reason to celebrate.

- *Demons have always asserted a claim on the changing of the seasons and nothing has changed in this respect.*

There are many people that have an interest in *abolishing* Christmas, the festival of remembrance of brotherly love. - They are naturally *the opponent* of GOOD. We would be a lot happier if these people *were to abolish the New Years Eve revelries*. But they are unfortunately unaware of the sinister meaning of this particular celebration.

I will explain it to you:

Christmas is in reality *not just* a remembrance of the MESSIAH'S birthday, but also an *admonition* telling people to be *tolerant* towards their fellow man. CHRIST preached about it and people ought to select *small* gifts with lots of LOVE for this very reason - but they should not forget about their forgotten fellow man! It is a very important festival, one that has also great significance and is also celebrated in the hereafter. It is part of the redemption process.

But the antagonist is very annoyed, because in his unimaginable hatred of GOD and his people he is *against* any kind of redemption. He decided many years ago to set a counterpoint against Christmas. This is why he has asserted a claim *for himself and for his objectives* on the whole New Years Eve celebration. And herein lays a danger for *every* human being that should not be underestimated, because this celebration plunges mankind into improbable depths. Lucifer says: "I will show you just how I and my cohorts celebrate such an important festival!" He turns the changing of the seasons into a festival from hell.

Mankind has fallen into the trap and with every progressive year, this Witches Sabbath is celebrated with ever more fervour. You know how this day is celebrated, but you don't know *who's behind it* and who holds the strings!

- *One shoots, plunders, murders, rapes and fights. People die in a most horrible fashion.*

- To add to this are *arson*, the consumption of unimaginable *amounts of alcohol*, sexual *derailments*, *desecrations*, *blasphemies against God* and the *clamour of explosions* that remind you of very war ever fought.

Hell has been let loose and every vice can be overtrumped and mankind suffers enormous moral damage.

*Please think about this!*

## **Woman's emancipation** (Compiled from the Menetekel)

Once one is involved with sin, it isn't all that easy to extricate oneself from it. Politics has been in that positions right from its beginnings. The **common mistakes** mankind is prone to, makes it *impossible* to make these important decisions hand in hand with GOD'S REALM, the way people on other planets have been doing for a long time.

Politicians are no theologians and certainly no spiritualists!

- *Unfortunately everything goes wrong without GOD. But the LORD can move the stars wherever HE wants to. Therefore do not make the mistake of underestimating HIS apparent PATIENCE!*

It would be a lot more advantageous for the people on this Earth to rely on the support of a higher POWER (SANTINER), than on SUPERLATIVE ARMAMENT!

The development on Earth strives for a completely new order. But *most* of the prophecies of the past are *false*.

- *Before a new order can be established, a clear separation between GOOD and evil must come about first.*

This separation is already taking place. The positive FORCES *amalgamate* with ever increasing FORCE. But the negative also agglomerates. But this puts an end to the dangerous and difficult task of distinguishing between the perceive mixture of GOOD and evil.

- A HIGHER POWER will force people *to stop masquerading* and to reveal their true intentions.

Therefore do not be surprised if you begin to *recognise* the differences between good and evil *in politics also*. It will not be possible in the near future to establish new world views or new political parties through pure propaganda. The concentration of positive people will *recognise* such devious tactics and *react* accordingly. The impending reorganization of the present legislature will do away with some of the insane laws of equality.

There is only one *veritable* equality and it includes:

- *Mutual respect,*
- *Freedom*
- *Intelligence,*

but *not* in regards to occupation, domestic duties, clothing or behaviourism. Every other equality leads to degeneracy! But degeneracy is *not* GOD'S WILL and it is *not* part of man's development on this planet.

Equality is an *after-effect of wars*. Women were force *to do the work reserved for men* by ignoring their inherent assignments. The results they achieved made them ambitious and they felt superior.

- *But in reality they are completely inferior, because they have forfeited their femininity, because they have lost man's respect and compulsion to protect them and "worship the ground they walk on."*

The results are catastrophic, because the deviation from the norm damaged the children's development in the first instance.

- *The present day homelessness and blight of the young generation is a very high price to pay.*

The most important commandment of the hour is called: Back to a normal life, away with those practical pants. Womanhood does not need man's clothing, they will only be misunderstood. The results are *singleness, divorce* and the difficult duty of feeding oneself. But the children also lose the respect for their mother and transfer this antipathy to every other gender.

- *An emancipated woman and an emancipated girl can not truly be loved, because they do not comply with the designations of natural laws. These de-feminised souls find life in the hereafter very difficult also.*

Woman's equality is *not* part of GOD'S PLAN.

The Holy Scripture states this already (Moses 1, 2:18):

"Then the Lord God said: It is not good for man to live alone. I will make a suitable companion to help him."

- *This indicates that the woman should play a helping and not a leading role.*

But people will always interfere in GOD'S ORDER to *their own detriment*.

Women do *not* want to be mere assistants or wives *anymore*, they want to take *independent control*, well, in many cases they want to *eliminate* or even *overtrump man*. There is no such mental attitude and arrogance on any other planet of the divine universe.

But nothing happens without a reason.

This irreverent and unlawful development on Earth has dire consequences and they were conjured up *by man*. Over a period of time, women were more and more *dishonoured* and *depreciated*. They became *slaves* and not man's helpers.

- *The natural service women perform is to be a mother and a housewife in their own home. But also a housewife in a different home is still a natural task.*

But how did these women fare in their natural, divinely ordained role?

- *A housewife does not enjoy respect anymore - and a maid even less so.*
- *Every female factory worker feels a lot freer and more comfortable than a maid.*
- *But the mothers smoke cigarettes and send their children to kindergartens only to find out of an evening just how ruined they have become.*

By disregarding the most difficult duties and assignments of women in their role as man's helpers and because of the degradation of their really beneficial duties, women's natural reaction was to revolt. Women did not receive the appreciation and equality their activities deserved, activities that take up most of the day time and night time too.

But man extolled his own deeds and looking over his plans and works he gazed down on the many mental and manual activities of women. Doing the dishes and shopping is not an honourable profession - it is more of a disgrace in his eyes, to such a degree actually, that he didn't find it necessary to remunerate them for it.

- *This doesn't just drag man into spiritual darkness, no indeed; it also drags his GOD created helper with him, because it isn't a good thing for people to be all alone.*

The pressure inside the kettle of impertinence and disrespect build up to such a degree that the safety valve didn't stand the pressure and the kettle exploded.

This was the birth of *women's rights*.

This had the effect that women became *unwomanly* and they began to seek the autocratic respect of the so-called man's world. Women didn't just emulate men; due to their subconscious mortification they tried to overtrump them. This brought the whole human structure tumbling down.

- *Women were only regarded as instruments of procreation, but not as educators and loving mothers.*

Due to the false duties women assigned themselves, their sexuality had to suffer also. They gradually became *partners* to their men and *not* companions and helpers. This made their feminine qualities and

their powers to attract disappear. They were augmented through *artificial* means and the lower worlds of the hereafter have a field day. Colours and chalk are used to replace these *forfeited, natural charms*.

- But at night their *derailed* and *improperly brought up* children fool around in streets and squares, rape one another or attack peaceful citizens.

The whole world is astonished and wonders about the times we live in!

- *Give women complete equality in their GOD given sector and recognise them as responsible housewives and mothers, so that they do not have to fight for women's right and the respect their positions deserve, in another way.*

This fight for women's right is *not* GOD'S will!

GOD wanted equality to be applied *differently*.

- *The divine LAW states that a trusted helper was created for man - and a good friend to share his joy and suffering, but not a slave.*

But *both* did *not* abide by the LAW. It was interpreted incorrectly!

Man is of the opinion that woman was created for him *to be enslaved* and therefore *took her freedom away*. She was *suppressed* and *despised*, but he couldn't do without her.

As time passed, she became stronger. Her esteem *rose* due to *her intelligence* and *political* co-operation. She proved that she wasn't dumb. She continued to grow mentally and held her own in many male occupations. But she was not interested in equality.

Wars and economic crisis came. This forced woman to apply all of her strength to look after her children. She accomplished improbable feats. She didn't want anybody to interfere with her life anymore from then on. She wanted to be left alone and in peace.

But the LAW was interpreted incorrectly.

No woman is for *this* artificial equality, it is against nature! This LAW has completely changed man's opinion and duty in regards to women. He now looks upon her as a *colleague*, a *worker*, but hardly ever as the embodiment of femininity. Over time she has become more *masculine* - more robust and *manlike*.

But woman can remain what GOD intended her to be - if she is serious about it. She can also remain what emancipation *has made her*. - If the latter is the case, the *male* sex will become completely *effeminate*. This is also self inflicted. It can only be combated, made better, through self-education!

The causes for this *effeminateness* and *unstableness* are:

- Little *mental* interests.

- *False* concepts of moral.
- *Contempt* for divine LAWS.

Wouldn't it be nice if the legislators here on Earth *would ask for advice* from the positive hereafter!

Emancipation that gives women equal *legal rights* makes sense. But emancipation that endeavours to equate man in every respect, well, even to surpass man, is *not* desirable. This situation would go against nature, because it would mean a *physical* and *psychic change* in women. If this was the case, women would not be real women anymore - but also not men.

Men are more inventive and more imaginative by nature. Apart from that, men are more practical and possess that urge to explore that most women are lacking. This is apparent when one looks at all the technological advancements right up to astronautics. If women had primacy, development would not be at the stage it is in and there would be no space travel.

But this deviation by women, away from their inherent nature, was caused by the male of the species, because the *enslavement* of woman by man has led to a pathological tendency for emancipation. But now, that they do have received many rights, they want to take revenge and prove that they are *competitive* in their eyes. It is therefore a *subconscious* act of revenge! But it is quite a natural thing for men do retain the upper hand. But they then carry the *full responsibility for the whole family*!

If women gain their emancipation on an *international* level the situation may arise where they will try to reign over the world in an Amazon-like manner. Man will then be forced into a defensive position and he will become effeminate. - These effeminate trends *are already here*! But this would mean that man would *lose* his interest in exploring nature. I don't think that women could arrange the affairs of the world correctly. A single Amazonian state could not assert itself, because from a *physical point of view* women are not as strong as men and *nature* did not equip them with that same inventive spirit. Apart from that, they lack the ambition to carry out great schemes. This would eventually lead to stagnation. Disintegration could not be stopped once it got that far. A state run by amazons is doomed to fail right from the start.

There is the danger that women could *change* due to the escalation of their emancipation. *Hormonal disorders* are the natural result of this. Doctors have already recognised these types of disorders and they try to stem them from spreading.

- *If women begin to think like men, it will not take long before their hormones change. This happens kind of psychosomatic!*
- *Sometimes the emotional world also changes. That would be nothing short of catastrophic. Changes on a cellular level are then not too far away.*

These grave changes can naturally also expedite one's susceptibility to contract cancer.

- *These changes, arising from false behaviourism, can also descend down the generations. Generations will then be born that GOD had not planned for.*

Once women's psyche has changed to such a strong degree, she will not be quite sure where she belongs in the hereafter *after her demise*.

- *Whether a soul has a male or female polarity is very important in the spiritual realm, because its assigned tasks are accordingly. It is a case of false programming of the soul, the psyche.*

These souls, the one's who cannot get comfortable in the hereafter, will be reincarnated as soon as possible; they will start a new life on Earth. Through the incarnation into an embryonic body, either feminine or masculine and without the associated memory, the psyche is reset to "zero" as it were, so that no inappropriate behaviour patterns are inherited.

The same applies to a male soul that became effeminate, even if only through psychosomatic influences. Man's EGO is indestructible, but it can be manipulated for certain periods of time.

- *The psyche of a drug addict is also changed. The effects are similar, but on a greater scale, because they still suffer greatly in the hereafter.*

It is a crying shame that the Churches have not managed to correctly enlighten people. The Church would have to be aware of the HEAVENLY LAW (the 7 commandments and the 7 demands). But that is not the case, because one didn't bother about the TRUTH. The 2<sup>nd</sup> DEMAND of the HEAVENLY LAW states:

*Respect your wife, because she is the responsible bearer of divine WILL, divine LIFE and the preparer of the way of a planned future. Her failure means the slow but inescapable annihilation of mankind.*

The sciences have not yet recognised the complete complexity and effect of emancipation.

- *If a woman desires to be like a man, because she is not comfortable with her femininity, the starting shot in regards to biological changes has been fired, because the hormones are changing.*

Due to the fact that the human body produces female and also male hormones, it can happen that a woman produces *more male* hormones and begins to change.

This in turn initiates a re-polarisation.

- *The same situation materialises in regards to man, especially if he is dissatisfied with his masculinity and behaves accordingly, for instance by caring for the children or doing housework, the actual domain of women.*

Psychosomatic treatment is necessary to counteract this re-polarisation. It could be a case where too many inappropriate hormones are present since birth. This will become apparent later, for instance through the growth of a "ladies- beard".

But wishful thinking has a more decisive effect!

- *Wishful thinking can achieve more than people can apprehend.*

There are psychosomatic remedies available, but they have been largely ignored.

Through this falsely, that is to say, unnaturally understood emancipation, dangers approach mankind. But it is not quite as bad as that, if one ignores some of the details. If men fight back and if they do not allow the sceptre of control to be wrestled from their hands, it will not end up that dreadfully - and it will remain a sign of the times. But the men will have to be vigilant and make sure that women will not occupy a dominant position in politics, because if that happens they will lose their reputation completely.

- *But men must change enormously and really strive for peace, because the women's main argument is that: "Men are not able to abolish wars!" -*

Herein lies the danger, namely that the women will revolt. The women *cannot* be blamed for this, the mistake lies wholly and solely with the men - and this for generations. We are dealing with a major violation against the HEAVENLY LAW that states:

- *"Respect your wife..."*

The changes not only change the woman but also the psyche of the mother, therefore the children cannot love their mother the way a "real" mother should be loved.

- *If the children are brought up exemplary, that is to say, naturally and according to GOD'S will and if they feel LOVE at home, they will respect their parents. But a dangerous situation arises if they end up influenced by different quarters. Such a child will align itself with the masses.*

The way emancipation it is understood these days represents a great calamity for women. This emancipation has led to so many misunderstandings that I am sick of hearing about them. In regards to women's emancipation, one always has to take the fact into consideration that *biologically* and *mentally* women are a *feminine* species. The pathological aspiration to emulate man or even to out-do him makes them *unwomanly*.<sup>1</sup>

- *It is quite correct that women are given the same chances in society as men. They are also entitled to the same rights and responsibilities. But they should not endeavour to be stronger than the men. They should rather try to help their man to maintain his strength.*

If it is different, the nature's equilibrium is unbalanced and it will lead to a catastrophe.

The male sex is already very insecure.

---

<sup>1</sup> The women of the former Soviet Union and other places, which had to perform hard physical work, are an example of this. Their whole external appearance, especially their facial features proclaim their masculinity clearly. But we find more and more young girls doing strenuous physical work building roads, also on building sites, architectural engineering, civil engineering and even stoking the fires in steel factories in Germany. Is this normal?

- *The children's education is neglected and we're relying on these children to shape the future!*

The more emancipated a woman feels, the more she's inclined to look down on men, thereby destroying their self-consciousness.

This goes against LOVE!

- *A sanely thinking woman wants a man she can look up to and one that gives her a feeling of security. That is the norm!*

By seeking this emancipation, women effect a situation where these men are *harder to find*. *Busybodies* and the so-called *Jung and New psychologists* only bring the world's laws into disorder.

This way of thinking is promoted by greed and by money.

The "freedom" these women of today strive for is not their right.

- *Emancipated women have not created the world the way it is.*
- *The greatest technological advances were made by men of substance.*
- *A world created by emancipated women would not look the way it does now.*

What I am saying is that this emancipation of woman is a great mistake, it makes her loose her esteem and her true face.

Industry must be blamed from keeping women and girls away from their intended assignation. But due to the competitive nature prevalent in industry, women and girls have changed their whole demeanour. They are trying to be something that goes against their inherent nature. With every step they take towards being *like* men, they *loose* a little of their standing as feminine beings.

This represents a great danger to them!

Men loose their respect for women and do not look upon them as their helpers, but in many respects as *their enemies*. Emancipation makes women forfeit their protection. Men do not regard themselves as their protectors anymore. The relationship breaks down.

- *Co-operation, common interests and the concentration on one's natural idiosyncrasies are prerequisites in regards to cohabitation.*
- *Mutual respect is the basis for equality.*

It is *unnatural* when women strive to be something else but what they were born for. Men will never be able to put women in their place, if they do not break through that barrier themselves. Women are

the bearers of life and they bear the responsibility of bringing up the children. But things are not looking too good in this respect.

- *It is the spiritual realm's greatest wish that women become women again and not some kind of hybrid, something that has a repulsive effect.*

But industry shows no regards in this respect, it abuses women *any* way it can.

## **A speech about emancipation by ASHTAR SHERAN**

Because women play such an important role in humanity's progress I have to make a comment about emancipation: According to our inquiries, emancipation has taken a *wrong turn* and it is everything else but progress. The word "equality" is already a misnomer. - One has already found out that the string on the bow of good intentions is too tight!

- *I am all in favour that women receive the same real opportunities in regards to occupational chances of promotions. I am also in favour that women have the right of co-determination in politics.*
- *At the same time I am absolutely against the discrimination and suppression of women. - I am against women's endeavours to outperform men or to wrestle their positions from them. The complete opposite has already been observed in America!*

Most people have the wrong ideas when it comes to women's equality. The word "equality" may not be applied for this assimilation. It would really have to be called "social assimilation". This could give one a different idea.

- *Wrongly conceived rights lead to contrary lifestyles and by force to decadence.*

This is a very serious affair, because the hormonal balance of the female body is completely disturbed. This type of disturbance in turn has grave consequences in regards to the overall well-being. Decadence always brings about negative effects and they are *not immediately* apparent.

- *Women ought to try to remain women, in spite of all that diligence and all that ambition.*

The impression that my explanations represent a kind of philosophy might easily arise. But we are dealing with an assessment based on *an experience* (!) that is *advanced* of your own by thousands of years. Besides, I do not have a high opinion of so-called philosophies, especially if they originate from an *ignorant and atheistic* person.

- *Women's emancipation is a very serious affair, because it changes women to such a degree that they are deprived of their actual assignation.*

You must know that the human body, the *physical part* of people, is build according to a spiritual MODEL.

- *The INFORMATION (DNA) for the construction of the body is organised according to an invisible MODEL (astral body).*

This, to you, imperceptible body does *not* consist of empty fluid, but contains all the minuscule cells of *all the organs* of man's physical body. The fact that some organs have a different function in the LIFE of the SPIRIT doesn't come into the equation. The GREAT PLANNER created unimaginable fauna and flora throughout the universe and this in order to gain enough EXPERIENCE to finally create man. All life is concentrated IN him. Even the immortal spirit body is still subject to continuous improvement.

- *Women's emancipation changes the physical body to such a degree that it doesn't coincide with the spiritual MODEL anymore.*

But this can have dire consequences for women's assignation!

- *If the sexes forfeit their distinctive differences, they will gradually loose their attraction.*

This is such an unnatural situation that it is impossible to describe in your words. If the attraction between man and woman is lost, any respect disappears - and above everything else, sacred LOVE also! What I am saying here is that an emancipated woman *is not lovable anymore*. Something that one doesn't love one becomes indifferent to.

Maybe some of you will notice just how important this observation really is.

According to *your* laws, emancipation means the release of someone from the custody of the father, respectively, parental control, therefore manumission to an individual, *unprotected* existence. This formal conclusion is very important because it actually finds total acknowledgment here.

- With emancipation, a woman *voluntarily* renounces any protection provided by men and their responsibility also. She is left to her own devices.

It is therefore no surprise if things go wrong everywhere!

In any case, all of this is not according to GOD'S will.

- *This doesn't mean that women should be treated like minors. But the men should accept the heavy responsibility when dealing with questions of survival.*

Most women these days regard emancipation as their release from dependency on men. This makes them give up certain rights and these rights are *far more valuable* and important than any freedom emancipation can offer. Well, this gets to a point where they loose their natural right to be intimately loved by their partner. What is left, if the enormous difference that exists between the sexes is simply evened out or completely extinguished? -

- *Once women's femininity is extinguished they are condemned to decadence!*

Women, the responsible bearers of human life, harbour within them the greatest SECRET of CREATION in all of nature. People always confront a great secret with a certain amount of reverence. But if this secret is *dragged through the mud* this reverence soon turns *into contempt!*

We, the SANTINER, regard it a great mistake to *force* women to push for emancipation, respectively, if they *strive for it voluntarily*. The feminists have always regarded the fact that men are stationed above them in regards to *family laws* and *public life* as *unjust*.

- *Due to the effected manumission, the moral and ethical bonds between the sexes are disengaged.*

In order to compensate for this evil, most women ignore these barriers to find an outlet for their cravings and to satisfy the carnal desires in uncensored freedom and abandonment.

In reality, women's emancipation is a terrible joke, a step towards degeneracy.

- *It would be more desirable, if the men would have been reminded of their responsibility in regards to women.*

It should have been made clear to them with all the severity of the law, that women are *not slaves*, but human being that deserve the *highest regards* and the implicit protection of the male species *and* of society.
