Protocol of an extraterrestrial contact from the year 1969

Title : **Armageddon**

Contactees : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)

Mediums : Uwe Speer and Monika-Manuela Speer

SANTINER : ASHTAR SHERAN

These words from INTERPLANETARIANS published by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, were received during many public séances. We are mainly dealing with *fully automatic writing* messages subconsciously received by experienced mediums. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the Menetekel and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

Let the state of today's *philosophy* be referred to through one single pertinent example from the German magazine "Die Welt" (The World) from the year 1987. Shortly after the death of the often lauded but also controversial *Martin Heidegger*, a conversation that had already taken place in 1966 but *was not allowed to be published* at that time, appeared in the German magazine "Der Spiegel" 23/76 in 1976. Heidegger expressed the following view: "Philosophy will not be able to effect an immediate change of the present world situation. This doesn't just apply to philosophy, but above all to our all too human endeavours and projects. Only God can save us. The only option left for us, namely to foster preparedness through our thoughts and our verses for the appearance of God or the absence of God resulting in our decline, namely that we go under in the face of an absent God."

What leading catholic theologians believe in can be gleaned from the following quotation by the much lauded *Karl Rahner*: "Christendom was asking its followers the one question, namely how they basically want to see themselves individually: Whether as active beings only within the grand scheme of things that has as such nothing to do with the grand scheme of things, even though an advance within the grand scheme of things in the form of an asymptotic horizon will always leave the opportunity of insights and actions, or as receiving-acting beings within the grand scheme of things, to be engaged within the conditions of insights, actions and hopes by future-creating actions within the grand scheme of things, allowing this grand scheme of things to become the

absolute future, an event within itself. This is in the final analyses the only question Christendom asks. Namely that the absolute future within the grand scheme of things cannot turn into an actual object of categorical denomination and also not an object of technological manipulation, that it will remain the confronting untold secret that surpasses all individual insights and all individual actions in regards to the world, can be gleaned from the character of the grand scheme of things within the absolute future.” End of quotation. – Who could possibly make sense of this?

When a well known theologian was asked for his opinion in regards the whether the major churches and their followers did not urgently require NEW REVELATIONS adapted to present day conditions, *comprehensible* to all and sundry and above all *logical* and this in conjunction with Zen meditation or Yoga exercises, the confident sounding answers was: “We do not require something like this, because we are blessed with grace.”

Bad Salzuflen, February 1994

The Encyclopaedia Britannica lists the following about the word Armageddon:

Armageddon [Hebrew] meaning HILL of MEGIDDO, in the New Testament, where the kings of the Earth under demonic leadership will wage war against the forces of God at the end of world history (Revelations of John 16:16) The expression Armageddon is particularly applied in England for political catastrophes.

In Revelations Chapter 16, Verse 16 in the *New Testament* states: “Then the spirit brought the kings together in the place that in Hebrew is called Armageddon.”

The pertinent content of this brochure has nothing to do with science fiction.

The psychically transmitted content is based on the objective TRUTH.

The discourse by the UNIVERSAL TEACHER ASHTAR SHERAN deals with the final dispute between the great forces of good and evil.

Like all the other discourses by this UNIVERSAL TEACHER, the fulfilment of an eminent prophecy was psychically formulated and elucidated by the *Psychic Peace Circle, Berlin*.

Preface (By Herbert Viktor Speer, leader of the Psychic Peace Circle, Berlin)

It sometimes happens that terrestrial mankind's mind does not suffice to comprehend those things that invisibly determine life and existence. This is the reason why there have always been intermediaries that could see the future due to their divine giftedness. These prophets could hear the voices of the WORLD of SPIRIT and they translated these impartations with the words: “... and thus spoke GOD our LORD.”

It *wasn't always* the voice of the divine hierarchy; it was often the voice of demons. The leaders living here on Earth are however influenced; they are psychic and they are controlled by the great powers of good and evil like marionettes.

ASHTAR SHERAN is an extraterrestrial human being from another star system. His colossal messages are known and have been acknowledged all over the world. His admonitions and

explanations are of unimaginable importance. It will surely take years for us to grasp what this eminent INTELLIGENCE offers us. All those that have read our ASHTAR SHERAN messages find that any comment is superfluous.

We don't know whether the highest government circles believe these messages or not. We know however that one will remain silent about them, because our present world situation will not be able to remain in its present form, if these extraterrestrial messages are taken as seriously as they should really be.

An unprecedented battle is taking place between the TRUTH and lies. – What mankind is offered here *is* the TRUTH.

The appellation “Armageddon” is biblical and correlates to the *prophet Daniel*. We are dealing with the greatest battle that ever took place, namely with the fundamental, uncompromising dispute between good and evil, whereby every kind of treachery, craftiness and brutality is employed by the powers of darkness. This battle doesn't just rage in our days, it started many centuries ago and it has *now* reached *its apex*.

The Battle of Armageddon originally raged in the spiritual regions. It was a quarrel between otherworldly thought bearers that had organised themselves into incredibly huge organizations. We are dealing with a battle between heaven and hell. – All of this may sound like a fairytale, but this disagreement has nothing to do with human fantasy.

The Battle of Armageddon has sometimes encroached on the physical Earth and this for a number of millennia now. This is the reason why mankind on Earth suffers quite severely from the effects of wars, from illnesses and from all sorts of evils. *Most* of what takes place on Earth is the result of an influence coming from the *invisible* regions that are quite overpopulated with human spirit entities. What would a member of parliament know about such a battle? –

Theologians know something about this, but they *can not imagine* the extent and the effects of this. Human fantasy does not suffice and our own knowledge is unfortunately inadequate. This is why it turns out to be a great REVELATION when our eyes are opened by an extraterrestrial source. This is the only way we can finally begin to understand our world. One erroneously called the last two world wars Armageddon. Even the dispute between the two philosophies of communism and capitalism does not demonstrate the extent of this enormous Battle of Armageddon.

The old prophets were quite capable of sensing the imminent Battle of Armageddon, because this battle was already raging. It *increasingly amplified* its influence over the last millennia and it finally also cast its calamitous shadow over planet Earth.

The commander-in-chief of the demonic forces is undoubtedly Satan, whilst the ARCHANGEL MICHAEL is responsible for the outcome in a positive sense. But who believes in the devil? He is as difficult to comprehend as it is difficult to correctly imagine what GOD is all about. Satan is however a spirit force, a real and enormous consciousness with creative powers.

Our present day world situation is more dangerous than one could possibly imagine. Well, even the most eminent politicians and war experts cannot make sense of this situation, because they hardly know anything in regards to the Battle of Armageddon; they show no interest in religious or supernatural facts. Even though the *Book of Books* contains many false interpretations and

notations, certain partial truths are recorded within it that are of up to now unrecognised importance for mankind. ASHTAR SHERAN is a messenger of the LORD; he is a UNIVERSAL TEACHER of CHRIST'S stature.

- *Ever since the Battle of Armageddon cast its shadow over this Earth, extraterrestrial have shown an interest in the welfare of mankind on Earth.*

These people from another planet – at any rate from a better one – made such an impressive appearance that they found their own niche in the bible. Due to a lack of understanding in regards to scientific and technological problems, they were however given the rank of ANGELS; they are however not ANGELS, but SANTINER, meaning holy people. The SANTINER'S level of development is very significant, *a lot higher* than any race here on Earth. According to our concepts, we would denote them to be *coloured*.

We made the decision to not edit these messages from the SANTINER. That is to say, *to not change the texts under any circumstances*. Even if grammatical impurities should arise, we will not change anything. We will put our own considerations in brackets.

The University of Columbia, in the USA released a report on FLYING SAUCERS. This publication states:

“... UFOS cannot always be explained.”

One leaves one's options open here in case something extraordinary takes place, for instance a major power failure etc. It further states:

“... there is no actual evidence that UFOS transport visitors from other solar systems to Earth.”

This is where one wants to portray extraterrestrial contactees as liars. We can assess with a clear conscience whether one is actually dealing with a lie perpetrated by the commissaries, because *we ourselves entertained contacts* for more than 10 years. Our numerous contact reports and the extent of our research are proof enough that UFOS who transport extraterrestrial to our shores exist. – We are of the opinion that the real friends of UFOS and those seriously interested in UFOS know very well that the report published by the University of Columbia *is incorrect*; only those that always fostered doubts in regards to UFOS might find an answer here that will satisfy them.

Reports on UFOS are also part of the Battle of Armageddon's strategy!

The people on Earth have *increasingly* drawn the attention of our extraterrestrial brothers over the last years. A universal community made up of numerous humanities domiciled within our Milky Way, show in interest in the battle that is looming for us.

Let's assume that the University of Columbia ascertained that extraterrestrial spaceships transport human beings from other star systems to Earth. This report would *never* have been acknowledged by the government. The same applies to world wide *spiritualism*. The TRUTH is suppressed with all possible force in order to enslave mankind's conscience. Only by enslaving the masses can the despots of this world retain their positions of power.

Apart from this latest publication, our brochures dealing with ASHTAR SHERAN are completely out of stock. Every one of these revelations represents an objective document of the real facts. The apparent enormous speeds these extraterrestrial spaceships travel at are no reason to reject them outright. The first ever train reached the enormous speeds of 20km/h, something considered incredible in those days. Today's terrestrial spaceships reach speeds of 45,000km/h. The theory of relativity does not find application here, because we lack certain insights. As we found out, the SANTINER utilise the power ratio between matter and anti-matter.

The bible verifies the existence of extraterrestrial astronauts, respectively cosmonauts. The churches have dealt with the question of whether Christian churches ought to send their missionaries into space. They unfortunately failed to comprehend the fact that the SANTINER, that is to say, our extraterrestrial friends have played a missionary role here on Earth since the beginning of the terrestrial Battle of Armageddon, that they already had a great influence on the bible. They actually represent the advocates of theism and the Christian faith.

The bible comprehensibly describes extraterrestrial heavenly craft. Their appearance is almost identical to all *genuine* UFO sightings. This fact has simply been ignored by spreading unprecedented lies. UFO research *might however just get* the required impetus because of this.

The UNIVERSAL TEACHER ASHTAR SHERAN'S messages became more intense over time. His words turned quite conspicuously more beseeching. He uses the words: "I accuse ..." these days. – Which court of law is he appealing to? – It must surely be a court of law that holds sway over all terrestrial legal authorities. If Satan is however the instigator of all evil, mankind must bear the guilt of obeying Satan, of allowing him to lead it astray and of serving his destructive tendencies. SHERAN is *not* an otherworldly spirit; we do however entertain contact with his consciousness every now and then. This is the great advantage of a prolonged, trained psychic ability.

The psycho-scientific research group works with a spiritual team. This joint venture is known under the name of *Medialer Friedenskreis, Berlin* (Psychic Peace Circle, Berlin). Séances are held and their results are known worldwide. The output of the mediums amounts to over 2,000 hours up to now. The SANTINER occasionally participate in these séances. The extraterrestrial UNIVERSAL TEACHER ASHTAR SHERAN takes pride of place and his distinguished indoctrinations have been translated into numerous world languages. The genuineness of these messages is beyond reproach, because they represent a WISDOM the like cannot be achieved through the terrestrial perspective.

- ASHTAR SHERAN cannot be sent for. He appears *seldom* and *completely spontaneously*.

From our miscellaneous, international correspondence we can glean that the people of his world can no longer comprehend our overall world situation; they are bewildered by a development they cannot change or influence and this is why they expect a higher POWER to interfere in order to save this world from total annihilation. Writers and politicians tried to find a way out, but no human being, no matter how intelligent, will find a way out of this dead end. Mankind on this Earth is genuinely dependent on help from a higher POWER. This POWER exists; it intensively deals with our problems. We do not expect that this higher POWER will apply force to save this Earth for the time being.

- The MISSION of this higher POWER increasingly concentrates on giving us a comprehensive INDOCTRINATION.

The spiritually undesirable development of mankind on Earth is mainly due to the unimaginable events taking place in the Battle of Armageddon that rages in the spiritual regions and gradually encroaches on the physical world. This is the reason why terrestrial mankind required higher GUIDANCE for millennia. People needed a MESSIAH that would lead them out of the darkness into the LIGHT. CHRIST was such a LEADER, but *other* eminent PERSONALITIES *also* endeavoured to provide INDOCTRINATION and GUIDANCE in this respect.

The present situation is so critical, so serious, that a new MESSIAH is required. Such a MESSIAH must possess exceptional gifts; the things that are asked of him nowadays cannot be compared to those CHRIST tried to fulfil. A whole contingent of eminent INTELLIGENCES from the WORLD of SPIRIT is standing by to support this MISSION of SALVATION.

A French psycho-scientific journal of accredited importance dealt with the UNIVERSAL TEACHER ASHTAR SHERAN'S messages. His name was closely scrutinised. It was established that this name possesses the highest characteristics one can possibly calculate, namely: *Messiah, leader, hero, universal teacher*. – This journal's editorial office asked us whether it was possible to find out if ASHTAR SHERAN had anything to do with CHRIST'S second Coming. The MESSIAH, that is to say, the LEADER and SAVIOUR must *not* necessarily have to be the same all the time. ASHTAR SHERAN confirmed the eminence of his SPIRIT during the last ten years of his didactic activity.

One can probably not expect help from a terrestrial source. The major fronts of different world philosophies have solidified into blocks of ice. All of mankind suffers under this solidification. We no longer live amongst like-minded people, but amongst enemies that mask their intentions so nobody really knows where dangers loom from.

Faced by a terrible, undesirable development with its enormous potential for destruction, we find that pious bible passages or prayers no longer help. We require a MESSIAH, the like the world has never seen before. ASHTAR SHERAN therefore utilises a way to communicate that correlates to his own development. He has however found a medium that can manifest his messages. The way this communication takes place is unusual and difficult to comprehend by the layman. For those in the know, it is common place.

The planet's leaders might be unwilling to listen to a terrestrial or divine message, but things will however take place that will inevitably remind them of these messages. The effect of the message is recessive.

A significant French translation states: ASHTAR SHERAN parle au monde, meaning: ASHTAR SHERAN speaks to the world. These extraterrestrial messages, being so exceedingly excellent, should not just be acknowledge by a few people, but by *all of* mankind on Earth, because everyone one on Earth virtually sits in a boat that's about to sink.

ASHTAR SHERAN is aware of our problems – and he also knows *the only way to solve them*.

I accuse (Discourse by the universal teacher ASHTAR SHERAN)

As I am not in a position to publish my words throughout the world, I have to depend on the reliability of my tried and trusted friends. I am aware that the great antagonist works against me and that he will do everything within his powers to suppress or to discriminate against my words. I

stand however in the camp of the great, infinite CREATOR. This battle *isn't just* a battle of the spirit, intelligence and discernment, but *a heated battle on the physical plane at the same time*, ergo a battle that is waged with all the means technology and scientific insights can provide.

The aim of my MISSION is:

PEACE ACROSS ALL FRONTIERS!

I therefore accuse!

Mankind on this very beautiful Terra has detached itself from GOD and obeys – to the detriment of its development – the instructions of a spiritual organization known as demons.

The leadership of this human race did *not* find it necessary to gain INSIGHTS into things that lay beyond the physical, but are of superior importance.

I *don't just* accuse the living, but also the dead, because they have also contributed to the misfortunes of this Terra.

Terrestrial man's egotism is beyond *equal* throughout the universe. It leads to the complete isolation of individuals, parties, nations, races and groups fight an embittered battle against one another, but they don't know why. They are unaware of the TRUTH, because they completely lack any higher INSIGHTS in regards to their whole existence or because they follow false paroles.

The apocalypse, meaning chaos, is on the horizon.

The behaviourism of the responsible leaderships is *adverse to nature*. Mother Nature, that is to say, the divine WILL promotes and maintains life. Human planning predominantly deals *with the opposite*. The general population of Terra is unaware of the details of this endeavour. What one is publicly aware of are only parts of preparations for annihilation. Technology, industry, the sciences and finance are misused for these baleful machinations.

The accusation comprises 10,000 pages!

The extent of such an accusation makes it impossible for any terrestrial court to ever be able to deal with it. This is why an extraterrestrial AUTHORITY is designated to do so; it is *presently still* rejected by the governments of this planet as if it didn't exist.

We could establish a protectorate of the UNIVERSAL BROTHERHOOD on this Earth. This however would *not* constitute *liberal* development. We can *not yet* decide to undertake such a step, at least not whilst there is hope that common sense will break through.

As government circles in the USA reject the existence of our spaceships I ask myself, what do they know about the *Miracle of Fatima*? – An extraterrestrial spaceship appeared over Fatima. This demonstration was in conjunction with a message. – It isn't any different these days. It isn't just about demonstration flights by our space fleet, but we simultaneously direct our messages at mankind of this Terra.

What I proclaim with this message is a phenomenon that contains more and has more pertinence

than those from Mount Sinai or Fatima. It represents an *admonition* directed at this world and an indoctrination for mankind on this ignorant material plane. Your knowledge is completely one-sided – as the opposite polarity is missing.

- *The full potential of human knowledge can only be achieved when, like with electricity, two polarities oppose one another, namely the physical and the world of spirit.*

One mentions progress, evolution, but what really takes place is relegation, this is however covered up through the accomplishments of technology. One could say that the enormous developments within research in physics have pulled the wool over people's eyes so they will be *unable to recognise* the absolutely REAL. When one is absolutely unfamiliar with a subject, one usually shows no interest in it at all. The same applies to the situation on Terra. One distance oneself from a subject one considers a waste of time, because one has no inkling of its real importance.

People on Earth are almost without exception *very incapable of comprehending things*. One must continuously reach for comparing parables the way your CHRIST had to. Who on Terra could have recognised and predicted the enormous importance of electricity waves 100 years ago? – A similar situation exists in regards to psychic research. What *you* consider it to be is hocus-pocus. The facts are hardly ever mentioned and universities deny them outright.

Don't be fooled!

The apocalypse has not yet passed you by and it could happen that we would allow it to take its course with good reason and this without batting an eyelid. The evocations of terrestrial leaders that include church leaders, pedagogues, politicians and military experts, scientists and warmongers of any kind are unavoidable. This is not threatening you with a boogie-man, but one effect of the causality of the law of nature.

The people bearing the highest responsibilities on this Terra wear golden blinkers in front of their eyes, blinkers designed by Satan. For as long as they wear these blinkers, they cannot see their own misfortune, namely a terrible misfortune for themselves, one that is quite eminent, but one that remains unavoidably acute.

The powers that be within the communist party said that poor people were given an "opiate" in order to pacify them, namely that they will have it better once they are dead. I can't for the life of me see that this would be a pacifier; because what happens to people when they're dead is certainly *not* an opiate, least of all to primitive people. These primitive people are not the poor, but those in position of power or those with stacks of money. They are so primitive that they surmise that the spiritual regions are of no importance to them, that they simply portray a lot of nonsense one can only laugh about.

What darkness reigns in regards to spiritual things on such an invitingly beautiful planet!

I shudder just thinking about it!

It is a crying shame that your MESSIAH CHRIST never really had a chance. He did indeed indicate the immortal life of man's consciousness, but he didn't get the opportunity to explain this. There are various institutes nowadays that deal with the human psyche, but they never achieve genuine results because they *reject* the existence of consciousness outside of physical matter *right*

from the start, respectively they're incapable of imagining it.

- *Doctrines in regards to the spirit, respectively in regards to man's consciousness, are of paramount importance!*

The flesh can only be regarded a highly developed instrument. – As an example, of what use would be the best television set if no broadcast is forthcoming? It would just unwittingly stand around.

- *All processes of consciousness take place outside of physical matter, ergo outside of all sensory organs. The sensory organs only perform an inter-related function between body and spirit.*

This *doesn't just* apply to human beings, but isn't any different with all animals. The brain of a bee may be diminutively small – but it might be excellently adapted as a mediator, namely between a very comprehensive cosmic conscious process and the head of the bee.

- *Of importance is always the complexity of the spiritual FREQUENCIES!*

I continue with my accusations!

It may be true that *the religions* of this world developed a cult that impresses people, but it robs them of the TRUTH. The real TRUTH doesn't have to be made trashy through a cult. The TRUTH possesses enough dignity of its own; it doesn't require a singsong, because this will not eliminate aberrations from this world.

- *An animal knows nothing about spiritual insights. Human beings on the other hand have been given all possible means to acquire – and also to comprehend - these insights.*

Human beings still occupy a lower level than animals from a *spiritual point of view*, because they use their ignorance in regard to themselves to commit baleful acts and to think baleful thoughts thereby turning into enemies of Mother Nature and challenging the most eminent CREATION.

A soldier is kept in ignorance about whether his actions are beneficial or not, this is the only way they can be misused. Satan applies the same principle. Almost all people on Earth are his ignorant soldiers he can utilise for his evil purposes. It doesn't matter one iota what position these soldiers occupy within the Battle of Armageddon; because Satan requires *all* occupations and all societal or public positions. Ignorance provides the opportunity to engage them unconditionally everywhere.

Satan, regarded a fairytale figure, wants to exact revenge on the CREATOR. This revenge is so enormously negative that nobody is capable of imagining it. This revenge is actually only possible because a whole planetary human race is prepared to actualise it. It is this dangerous ignorance that will lead to the abuse of a whole human race and this takes place without any one of the Armageddon soldiers being aware of what happens to them and for which side they employ their very best. The greater the idealism, the easier it is for Satan to utilise it, exactly according to the way military institutions apply the system. This is why we are not dealing with an ordinary dispute between good and evil, but with an actual battle of absolute realism.

No religion has been able to remove man's ignorance about his existence in general, nor his existence on other planets and in spiritual regions. Churches and sects, Buddhism and Islam also, all of them without exception, willing support the Battle of Armageddon without being aware of it.

I therefore accuse the religions on this Terra of not having sufficiently bothered to look for the objective facts. Instead of endeavouring to discover these important insights, one pursued different interests. One argued over the most insignificant measures. One developed all this superfluous pomp and ceremony whilst trampling the TRUTH underfoot wherever it made a hesitant appearance.

One generally lacks the courage to be consequent. One is not prepared to utilise one's common sense.

- *Fabulous miracles, incapable of withstanding any scientific scrutiny, are dogmatically and traditionally defended with a fanaticism that is beyond comprehension.*¹

I explained the events that took place on Mount Sinai to you, namely that a mother-ship landed so that the people on Earth could receive guidelines in regards to a normal co-existence between nations and peoples. We admit that the people on those days were incapable of comprehending space travel, because their technology was still insufficient. One thought that the occupants were Jehovah and his hierarchy. The fiery, glowing cloud, namely the spaceship, flew in front of the Israelites and made the dangerous passage across the Red Sea possible.

These Israelites then asserted that they were and are GOD'S chosen people, because HE guided them and *gave* them a country to live in. Moses was supposed to have talked to GOD face to face. The Christian Church accepted this version of events. But what followed can only be describes as dangerous nonsense, because it led to today's unrests in this world in a most unequalled, superlative way.

When a research group, lets say a UFO study group, now asserts that the LEGISLATION received on Mount Sinai is due to an extraterrestrial visit with all its concomitant phenomena, one cannot expect that the Jewish community will shout hallelujah. On the contrary – one will endeavour to do everything possible to maintain one's so beautiful "faith in God". Particularly because of one's perceived claim of having received special privileges from the MAJESTIC GOD. – We are therefore not surprised at all that we do *not* exist in their eyes!

It isn't any different with the Christian Churches; they also do not want to admit any mistakes. One incredibly also included the Old Testament. One literally believes every word that is written in the Holy Scriptures. One wants to use miracles to verify GOD'S existence, even though one achieves the exact opposite result with normally reacting people. Young people are particularly unwilling to put up with this. Today's adolescents are *more discerning* than their predecessors, even though they are partially incorrect. Nonsense of such a scale is rejected.

People on Earth ask themselves the question of what has suddenly happened to adolescents as they become ever more rebellious through their student demonstrations all over the world. One fails to comprehend this development. One condemns their violent demonstrations, but is unable to help them. Remember that particularly young people represent a coveted human potential for the negative side of the Battle of Armageddon. Youth represents the best cannon fodder for Satan. – This fact will be demonstrated to you soon!

You have to realise that enhancement is expected in all evolutionary processes. Youth, in its

¹ During a séance Our spiritual leader ARGUN once said that the men of this earth will drop their mask in these times. This would show which side the individual is on.

natural alacrity, will always endeavour to enhance its position. If they break ten shopwindows during their protest this time, they will surely break twenty next time around – and the time after even forty. This cumulation is a law of nature. If these actions cannot be arrested, chaos will not stay away. Chaos is part of the strategy of the negative side within the Armageddon dispute. Criminality will also be on the rise. Means designed to annihilate the human race are also subject to this escalation. The public is hardly aware of the things that go on in this field. Weapons are developed that stem directly from inspirations from hell.

You naturally believe that such a place does not exist. It *cannot* be found within the *physical* world. Your senses are primarily attuned to *terrestrial* frequencies. Only a few can actually perceive something anomalous. The worldwide ignorance in regards to man's existence *prevents* any *harmonious* cohabitation, beginning with the cohabitation of married couples to major disputes between religions, races and nations. Elucidation is well nigh impossible, because an absolute disinterest exists amongst the people of all nations.

I accuse all those universities and schools that bother about all sorts of things except about the essential things that are part of the human existence. Pupils and students instinctively sense that there *must* be something that is of enormous importance to the human existence. This specific something is however withheld, because those in charge of them have no inkling about it themselves or because they balk at accepting this knowledge.²

The things that have taken place here on this Terra over the last decades defy description.

Nations concentrate mainly on the total destruction of all human beings and the whole existence of this Terra. Whatever base characters individually concoct and carry out finds a superlative echo with authorities.

Tutorism³

Giving instructions has never ever been so difficult for me as this time around. The terrestrial situation under the aspect of the Battle of Armageddon has reached such a critical point where we SANTINER are confronted with a momentous decision, one that we cannot fully comprehend ourselves as yet. The trivialisation of our visits alone represents a problem that makes our MISSION much more difficult. People allow themselves to be influenced too easily by their insincere leaders. This humanity, giving us so many headaches, misjudges the tutorism, that is to say, cannot find a judicious way out of this dead-end street. There are only two possibilities, either the path that will lead to peace or the path that will lead to the total destruction of this Terra. The consequent, absolutely judicious path can only be the one that leads to peace. This mankind's behaviourism however does not embrace common sense, because it ignores the more secure opportunity, namely the path to peace. Whether one believes my physical existence or not, whether one gives credibility to my words or not, I warn you in the name of the unimaginably great SPIRIT that planned and enabled this universe. My words are more important than the DECALOGUE (Ten Commandments) received on Mount Sinai!

Mankind on Earth no longer lives on an exceptionally beautiful Terra, but on an active volcano, one that could erupt at any time. What your technology and science comes up with is absolute

² ASHTAR SHERAN'S expositions and messages have become increasingly more admonishing and energetic. His words have become more severe over time. This increasing severity has been criticised on numerous occasions. The old prophets, CHRIST also, were virtually forced to do so, because nobody listened to them. When CHRIST said that one should not cast pearls before swine, his words were just as severe.

³ **Tutorism:** (Christianity / Roman Catholic Church) (in Roman Catholic moral theology) the doctrine that in cases of moral doubt it is best to follow the safer course or that in agreement with the law.

madness, because their destructive intensions occupy the greatest interest in your existence. The majority of the people on Earth might know something about warfare; they are familiar with bombers and tanks, grenades and nuclear weapons, but all of this to a very limited extent. The public however doesn't know what is *actually* developed and produced in this field. One carelessly sleeps on top of a time bomb one doesn't know when it could explode. I find such a political disinterest incredible.

There is generally speaking no impetus to educate oneself. Most people simply live from day to day and only think of *new ways to better amused themselves*. The general level of education is appalling. An enormous amount is however achieved in all fields of knowledge and all sectors of technology. Mankind on Earth has made tremendous strides forwards in this regards. However due to a spiritual darkness, the resulting dangers for the human race have risen to incredible heights. This bodacious development on the physical plane completely lacks the required *spiritual maturity*. Simply put: This humanity was given fire the way one gives a child a box of matches to play.

I will endeavour to explain to you in your own language the things that are wrong in your case. You might regard this indoctrination a malicious criticism. You will object by saying that I might be wrong. I would like to say in this regards that we SANTINER live on a planet that has *overcome* your mistakes and blunders *millennia ago*. We live by all means harmonious, content and in great affluence and in absolute health. This is surely a good enough reference to trust me.

I know what one thinks of me: You don't trust my words and regard them an invention of terrestrial human fantasy, and me an imaginary figure like for instance the Easter Bunny or the stork. Far from the truth! – The way I communicate psychically with you does not warrant the kind of criticism it receives, just because it is completely beyond your understanding. You dismiss occult phenomena as so-called baloney. Undesirable developments allowed important fields of knowledge to atrophy or even prevent their further development.

You would find it appropriate if an extraterrestrial spaceship would land at a larger airport. A delegation from ANOTHER PLANET asks for a convivial reception and converse with terrestrial experts that are working on the systematic destruction of the world, ergo with hypocrites, traitors, smart alecks and atheists in order to establish peace on Earth. All I can say to this is:

ABSOLUTELY IMPOSSIBLE!

We are informed!

We are aware of what would be on their mind in such a case.

We are not willing to enter the den of a gluttonous lion. We also do not negotiate with immature atheists. We also detest any feigned friendship.

- *We would be unable to have a sensible conversation anyway, because such conversations are not even possible between your own government representatives!*

I am happy to have a point of contact at my disposal at all, one that makes it possible for me to make myself understood. I place great importance in these publications and it matters not what form they take. The main thing is that a number of people acknowledge them. These people will however have to take responsibility so that these words are not smothered.

We also have other difficulties with prevailing conditions apart from this, so that we presently prefer to make psychic contact. You would also favour this form of communicating if you could master it. Let us therefore no squabble over *the form* of the communication, but turn to *the content* of this communication. In a sense I also decide according to the ideas of tutorism here, namely the choice between two possibilities whereby the saver option is always authoritative.

We SANTINER should rightly cease our visits, because it is really beneath our dignity to deal with people that do *not deserve* the appellation of HUMAN BEING. Those that offer their services to the devil are contemptible.⁴

We also entertained psychic contact with the shepherd children at Fatima. We are however aware that such simple contacts no longer suffice to warn you these days. The intellect of children is not mature enough to deal with these types of messages. We require the best possible instruments we can find. The “Psychic Peace Circle” has dealt with this assignment relatively well. One must however also take those messages into consideration that we revealed over a number of years.

I see myself confronted by an unusually difficult assignment, namely the animosity stemming from aberrations, false dogma, traditions and methods of education. If I should for instance state that communism is wrong, one will attack me, because many millions of people believe in the correctness and integrity of this philosophy. It is equally difficult for me when I assert that all religions of this world partially represent a lot of nonsense that is virtually incomprehensible. Here is another situation where many millions of people *fanatically* adhere to these doctrines.

The assignment I am faced with is irksome. If this Earth and its people didn’t represent such a major factor, I would prefer to simply no longer deal with this. Sodom and Gomorrah were just two little places on this Terra. The situation is so different these days that the whole world has turned into a Sodom and Gomorrah. This human race had to achieve some technological and scientific maturity first in order to create the opportunities for a physical and spiritual Battle of Armageddon.

This stage has now been reached!

There is not one region where this battle isn’t already raging. The superlative coherences are however not clear to anyone. This is why I will help you so you know what we are actually dealing with here. Nobody understands the world. Nobody knows its true secrets. But there may be no secrets whatsoever for you! You must *know* what the causes mean.

Cause and effect is the total LAW that nobody can change. You already feel the effect, but you do not know the cause of it. Knowledge in regards to spiritual coherences never went beyond what the bible had to say up to now. Most of this knowledge is however *false* or *falsely interpreted*. The bible is published a million times over and translated into many languages. The mistakes therein are therefore continuously disseminated anew.

How small the TRUTH looks next to this campaign of deception!

Eminent sociologists have dealt with this and they came to the conclusion that the lore contained in the bible *cannot withstand* logical scrutiny. Present logic has been strained and strengthened by

⁴ We once again recognise ASHTAR SHERAN’S anger. His words are as cutting as never before. We however also find the same style in the Old Testament. *Ezekiel* absolutely had CONTACT with the SANTINER.

the experiences gained in the fields of technology and science. Even adolescents are no longer able to make sense of the expositions within the bible. They don't just feel duped, but also affronted by the fact that their intelligence is questioned. They therefore turn to sociology, even though sociology distances itself from the divine TRUTH.

- It will however not work *without* religion, because there is only *one* religion, namely *the* TRUTH and there can be no human evolution and no peaceful coexistence between people without this TRUTH.

Before people test their sociological opinion and before they change social conditions they must know the whole TRUTH and this TRUTH must portray a RELIGION that will guide them and provide them the security for their whole universal existence. I now ask you:

What have you done to obtain this TRUTH!

You have *degraded* and malevolently *denied* the TRUTH wherever it made a humble appearance the way you are prepared to drag *all* positive endeavours through the mud. You don't kowtow to GOD or the divine TRUTH, but to people that lack all decency and have no ethics. You glorify your academics and your politicians that have been in the limelight, even though they do not deserve this. It is not enough for mankind to engage in one-sided politics, the TRUTH must be part of all facets of the human existence. Ignorance, aberrations and lies cannot offer you a healthy existence.

Kitsch is a by-product of negative development. We cannot find the right words to describe the religious kitsch that is promoted by those that are supposed to be responsible for people's salvation. Government representatives, ambassadors, generals, princes and their lackeys are not immune from kitsch. Their "costumes" are ridiculous and they are supposed to hide negative factors. Just look at your academics and legal authorities. Look at England and you will recognise the things that are still possible even these days in regards to the kitsch that is supposed to represent the TRUTH and dignity! To put it mildly: We are dealing with ... (crossed out).⁵

With all these negative embellishments and transfigurations, the people on Earth unfortunately do not know that they abide by instructions from hell that exercises its great powers on man's thought processes. The more negative one's attitude, the stronger this inspiration. This brings about a solidarity relationship between Satan and negatively polarised people. – Even a prince or a prime minister can turn into a total instrument of hell, without being aware of playing this role.

Deism⁶

Man on Earth can undoubtedly not comprehend CREATION and even less so, when he realises that the universe is so vast that not even the most intelligent human being could possibly imagine its expanse. There is however a PRINCIPLE of ORDER at work within this CREATION. Those that trespass against the LAWS of this ORDER must expect consequences. As human beings repeatedly trespass against this ORDER, they end up creating conditions they're not pleased with. They also continuously expose themselves to mortal dangers.

⁵ We find a lot of words from CHERUBS in the bible. As we are now aware that there is no difference between a CHERUB and a SANTINER, we also find these words comprehensible.

⁶ Elucidation of the concept of God from the 17th and 18th century where God did indeed create the world, but where He no longer exerts an influence on His creation.

Wouldn't it be nice if a superior ENTITY would keep vigil over these conditions in order to correct them? Your religions indicate that such a superior ENTITY exists, but they're unable *to explain* it. No human being can imagine what this GOD is all about. This is the reason why a human entity was *invented* whose shape and whose consciousness is *so similar* to that of human beings, that one readily acknowledges this entity as one's "father" or as one's "judge".

All of this is nonsense!

- No human being, no theologian or scientist can *even approximately* explain GOD and nobody has ever seen him.

The Israelites however *assert* that Moses spoke to GOD like one speaks to a friend, face to face. GOD must therefore be a super-human.

This is also nonsense!

Moses talked to a SANTINER, a messenger from ANOTHER STAR SYSTEM, that he regarded to be his GOD, as he was unable to comprehend the development of technology and facilities he saw. He would also not have understood that people exist that live on other planets.

This is where the bible is comprehensibly wrong!

Our forefathers supported the Israelites, this is correct, but we *also* supported *other* peoples if we thought it was appropriate. The consequences of this erroneous depiction are considerable. Almost all religions have been affected by this aberration.

- *There is no legal claim for anyone for preferential treatment from GOD or from other BEINGS!*

A university in the USA asserted not too long ago that we could *not expect* an extraterrestrial visit "within the next 10,000 years". I can only shake my head when I hear that an eminent university is prepared to pronounce such brutishness. We do have our sources for information. I am therefore aware that certain circles are *unwilling to accept* that the depictions in Exodus are *false*. The results that would inevitable arise from correcting this are considerable and would change the whole situation on Earth. One therefore tries everything possible to suppress the TRUTH the way it has already been suppressed for millennia.

Other religious constitutions are also not interested in admitting that their glorified and sacrosanct miracles are in reality *completely different*. This would damage the prestige of their faith that demands unconditional obedience. The churches not only demand obedience in regards to everything they assert, they also demand complete submission, the virtual enslavement of thoughts, but no conformability, because they are also unwilling to conform to the TRUTH.

- *Every form of subjugation is negative and every doctrine with this in mind is also negative.*

When UFO sighting reports – as you call them – are compared with depictions from the bible, a clear picture emerges, that is to say, a 100% coincidence emerges that our forefathers have visited this Earth *for specific reasons*. Any university asserting the opposite exposes its backwardness in regards to extremely important facts. But I find comfort in the fact that there are sufficient UFO study groups *that are absolutely aware* that audacious lies are bandied about.

The people on Earth cannot imagine the extent of a network of lies that is spread across the world like a giant spider's web. Nobody can extricate themselves from this web, all are cocooned, sucked dry and destroyed and no leader, even of the highest standing, can distance themselves from this.

- *Renewal can only come about through the TRUTH. – We are also a part of this TRUTH.*

Eminent sociologists have made it easy for themselves by simply wiping the word GOD from their vocabulary, because HE can neither be comprehended nor explained. This inability of the human thought process has spread right across the world. Whatever is too hard to comprehend is simply eliminated. One is unable to eliminate the ALMIGHTY from one's contemplations of the universe in spite of this tactics.

One prerequisite, an imperative condition, must be fulfilled in order to comprehend GOD, namely that man *comprehends his own existence* and that he is also able to explain it. The reverse is impossible, because one cannot comprehend GOD if one is unable to recognise and comprehend the lesser, namely man.

- *Only those that recognise and comprehend themselves based on their knowledge and thought processes will turn into true human beings.*

However those that deal with this must know that they possess a soul, a consciousness that is of a cosmic nature. All thought and conscious processes are inorganic, they are perpetual – universal. This is where we find our likeness to GOD.

- *GOD is a perpetual – universal CONSCIOUSNESS. – We are dealing with the incredibly gigantic CONSCIOUSNESS of all of nature.*

Those that cannot comprehend this must start from the very beginning, but they have to leave theology out of the equation!

The sciences comprehended long ago that all life complies with INFORMATION. The INFORMER however never rated a mention. We are also dealing with the CONSCIOUSNESS of nature here. GOD does control nature, but HE created a supernatural ORGANIZATION for dealing with mankind's fate and freedom.

Many will not believe that there are scientists of high esteem that openly admit that they only believe what they can *see* in the pot. They always had to be confronted with accomplished facts and in mattered not whether they were dealing with radio or television, they always spoke against it at first – and only accepted things later. Mother Nature is however such a pot that is filled to such a degree that these scientists would have to ask: WHO filled this pot? Well, that it is actually based on LAWS, but *without* a LEGISLATOR? –

I prefer not to mention here what doctors say about the dead, but it has an influence on young people who really should have a lot of respect for Mother Nature's grandness.

But just how far has one foundered?

Darwinism exerted a dangerous influence on the way one beholds human beings. Darwin

established a *theory* and the rest of science *made a doctrine out of it*.

Neither the theory nor the doctrine is however correct!

As all life stems from one original source, man should be able to look far back in regards to man's development. We regard the theory of evolution as quite unimportant, because it rather confuses than promotes man's progress. Man has overcome all animalistic stages of his development to a degree where he represents a being these days that is positioned way above all of fauna.

- It is not appropriate to still take Darwinism serious.

Darwinism is readily refuted through insights gained about this all important INFORMATION. For the INFORMATION assigned to the development of apes to allow a mutation to take place that leads to a Nobel Price winner, is simply impossible. Man possesses his own, very specific INFORMATION and it is absolutely binding. Any possible similarities are purely coincidental.

- *The brain of an ape does not offer a human soul the opportunity to interact.*

It is not a sign of kinship when an ape copies a human being's movements. Parrots can also learn to talk, but all they do is mimic the human voice.

Mankind has naturally progressed through many animalistic stages of development, but these created the *basics* for homo sapient whose appearance on Terra and also on other planets had been predetermined long ago. The human development accurately followed the development assigned by its specific INFORMATION.

- The theory of evolution only represents an excuse for man's behaviourism.

Darwin indeed noticed changes within the fauna of the Galapagos Islands, but it isn't a case of one species changing into another. A Simiae, respectively a Quadrumana (Ape,), can separate into many sub-species, but these will always be Simiae, never ever another species. (**Quadrumana** and **Bimana** form an obsolete division of the [primates](#): the Quadrumana are primates with four hands (two attached to the arms and two attached to the legs), and the Bimana being those with two hands and two feet.)

- *If man had evolved through the stages of apes, man would be able to mate and to propagate at any stage of man's development. This impossibility verifies the individuality of the species.*⁷

Darwinism is a concept that managed to establish deep roots within the sciences. Man's eminent position within universal fauna is *considerably discriminated against* through Darwinism. The results are apparent in man's behaviourism, in man's negativity and artistic concepts. We distance ourselves from such primitiveness.

- This philosophy was given *much too much* importance, particularly as it represents quite a baleful science, one that produced all kinds of theories *out of thin air* without possessing the slightest amount of actual evidence.

⁷ **Francis Bacon**, an eminent philosopher stated: "Isn't it knowledge alone that frees man's spirit from confusion? – Is there a greater bliss for man's spirit then to be elevated above abstruse things from whence he can gain the correct appraisalment of the order within nature and of man's follies? – ASHTAR SHERAN repeated verified his superiority in regards to the sciences. We can trust him.

One assumes on this planet that philosophers are people that had access to the highest possible insights. If one includes Voltaire amongst these philosophers, it becomes clearly apparent just *what kind* of philosophers they *really* were. We know what Voltaire had to say:

“I am beginning to place more worth in life and bliss than in the TRUTH.”

As philosophy however represents a major subject taught at universities, one imparts this unqualified nonsense to the inquisitive and inexperienced youth at these universities so that the rest of their life is contaminated by this. I can point out other philosophers to you that deserve everything else but renown, but are lauded *just the same* and this to the detriment to mankind.

Your philosopher George Santayana said:

“Religion is a human experience interpreted through human imagination.”

He is indeed correct when he believes that the bible is *incorrectly* interpreted because of human imagination, but philosophers in particular should be *more careful* with choosing the right words. Religion is actually *not just* based on human experience, but also on *supernatural inspiration* and *persuasion* as well as *transcendental phenomena* the like we practise here. George Santayana however complements his expositions by asserting that:

“Placing one’s hope in the supernatural is a desperate attempt and action of people whose fortunes have reached rock bottom.”

These lines actually reveal *a significant ignorance* in regards to spiritual knowledge. Not only those in responsible positions at universities tolerate and disseminate this nonsense, but leading politicians are also taken in by them. The resulting idea seized the imagination of all of mankind on Terra and one no longer has a genuine yardstick in regards to important concepts like happiness and hope. All and sundry are enslaved to materialism to such a degree that they have no interest in anything spiritual, all they want to do is *to claim* more from life than they’re *actually entitled to* according to their development. The results are quite apparent in the behaviourism of underdeveloped nations on this Terra. This attitude to life inevitably produces a hatred that is *completely ignorant* of brotherly love, a hatred that completely ignores it. The “northern barbarians” will find out one day the troubles they caused.

A *genuine* philosophy, the like we developed on *our* planet, specifically deals with the spiritual, supernatural sciences that represents the only reliable source of knowledge. Our philosophy does *not* deal with racial or class differences, but with the relationship mankind maintains with the GREATER WORLD, ergo only with the core question of the bodacious SECRETS of CREATION.

What are GOD, NATURE and MAN?

Thousands of highly psychically gifted people live on *this* Terra that are *unaware* of this gift and do not employ their abilities in a positive way, but in a *negative* fashion. As these psychic people, extremely well qualified as human instruments, often reach eminent positions in society, they *represent a considerable danger to the rest of mankind*. All of this is unfortunately not acknowledged because one is too inexperienced in this field.

Academic scientists, in a dependent relationship with the state, see it as their role to accept everything. They adopt the same attitude as calculating legal eagles; they look for explanations and these may be incredibly illogical or hare-brained, just as long as they *don't* have to admit that there is life, *conscious* and *very intelligent* life at that, beyond the grave, ergo an immediate continuance of our existence. These scientists – I am not too sure whether they still deserve this appellation – find explanations like the one I recently heard somewhere:

“These are risers of the subconscious. A person does something he is not aware of, but what he does is highly intelligent and it possesses released energies that effect the movement of physical matter.”

The prevailing ignorance either thinks it funny or ignores the whole thing, because it has nothing to do with making money.

People must naturally concentrate on their terrestrial assignments, but unfortunately nobody knows *what* these assignments are. Above everything, people must learn to live with LOVE, harmony and peace with their fellow men even if they're of a different race, pedigree and mentality.

The Battle of Armageddon has a noticeable effect in all areas. Chaotic events that take place all over the world are connected with it. People cannot comprehend why there is such a lot of unrest and so much violence. Affrays and demonstration are the order of the day or rather more the disorder of the day. Nations and groups are disturbed by one thing or another, they want to change everything, but they do not know how. There is however only one solution, namely to point out the TRUTH and this TRUTH is called:

GOD!

But one particularly baulks at *this type* of solution, because one is convinced that there is no GOD. Churches are regarded superfluous. This becomes incredible apparent when one realises that in regards to the most important aspects, the most eminent church patriarchs completely fail and reveal their ignorance.

Who amongst you came up with this “Judgment Day” business? – This is a *completely false interpretation* in the bible.

There is no “Judgment Day”!

This is nonsense because man's individual existence knows no boundaries and no time frame. Every one of you and every human being on all the other planets already have incredible cycles of developments behind them. GOD and HIS HIERARCHY'S existence will become *more* comprehensible, once you deal with this fact.

One is unfortunately of the opinion on this planet that the human soul represents a function of the brain. The soul is therefore expected to develop with the functions of the brain. It therefore comes as no surprise that there is such a lot of backwardness in this mankind's behaviourism.

Over the last 50 years or so the *material* development on this planet has made a leap forward that led to arrogance and over-appraisal of self. The relationship between spirit and matter is disturbed to such a degree that the material accomplishments conjure up a danger that threatens to destroy

this arrogant and decadent humanity.

Nobody would ever entertain the thought of dealing with such plans of destruction; if they had comprehensive insights into the REGIONS of EXISTENCE that still await them. Your armament policies and your permanent warfare are only possible because of your ignorance, that is to say, because you are completely unacquainted with man's purely personal overall existence. It is important to us that you don't end up jumping from the frying pan into the fire, because the way things are at the moment this will inevitably be the case.

- *The LAW of ATONEMENT (Karma) will exist forever and this is why it is futile to hope that the CREATOR will be GRACIOUS.*
- *Expecting an act of grace can express the greatest stupidity and this can be abused. GOD however is the SUPERLATIVE INTELLIGENCE and HIS DECISIONS are infallible.*
- *HE will never bestow HIS TRUST in someone that failed over again. All and sundry must square their account – and it will be presented, even if it takes centuries!*⁸

People who are still inclined to believe the things their religion teaches them *speculate* on GOD'S GRACE and they excuse their course of action with the words: "I am only human after all."⁹

You are *much too frivolous* when it comes to proposing theories, dogmas and assumptions. Your definitions are based on *whole series* of mistakes in many respects. One mistake naturally breeds another. We can however not comprehend the *blind* faith you put in this nonsense.

- As you know much too little about man's *existence*, *death will also* remain an atrocious secret to you.

People's fear of dying is taken advantage of in a most deplorable way by those in positions of power. This threat *turns ineffective* when the TRUTH pulls the veil from the mystery and the REALITY becomes apparent.

- *Death is by no means dreadful.*
- *But people's existence that follows death is extremely varied. It can be very good and also indescribably excruciating.*

But in your unequalled carelessness about these prospects, you think that you are dealing with cock-and-bull stories. As one *rightfully* mistrust the churches, one also refuses to take these types of prophecies serious.

The sciences remain silent or they smile pitifully or derisively.

I have always emphasised that deism represents a natural science that must be part of the curriculum at universities, but this must however be in its *real* form.

⁸ Compare with CHRIST'S WORD: "Nobody will enter GOD'S HOUSE until the last Penny has been paid."

⁹ The obstinateness people show in regards to sticking to their vices and by not allowing judiciousness reign can be observed in regards to the vices of alcohol and nicotine. Even though most are familiar with the dire consequences, not a lot are willing to abstain from them. This character weakness emphasises the backwardness of mankind on Earth.

Questions and answers (A. S. = ASHTAR SHERAN)

Question : We know that politics is not a pleasant theme, because this theme can cause unpleasant interference during our contacts. We are however of the opinion that we cannot avoid certain political questions, because they control our existence. Political aspects also influence our philosophies and thereby also our religious faith. We have a suspicion that there is an enormous difference between the concept of democracy and that of freedom. Is this suspicion justified?

A. S. : Yes, these two concepts cannot be thrown into the same basket; they are *entirely different*. Democracy certainly doesn't mean a fool's freedom. The state, responsible for keeping its democracy alive, has the most powerful means at its disposal. This power, utilised to its full potential the way we can observe this with the CREATOR of ALL THERE IS, managed to bring a whole universe, and all that it contains, into being. Applied in a different way it can cause chaos and completely destroy everything. Political democracy can have a positive and also a negative effect.

A negatively interpreted and handled democracy can obliterate everything. GOD may therefore not be seen as a dictator even though HE created LAWS that compellingly apply in regards to maintaining HIS universe's existence. We must actually see GOD in the role of a FATHER who determines the fate of humanities. HE acts like an *educator* in all cases by respecting *all types of freedom* HE endowed us with, but this not completely without constraint.

GOD discovered long ago that portions of HIS CREATION were in danger of gradually losing control. HE therefore made provisions for this long ago. The fact is that GOD'S TIME SCHEDULE does not coincide with our human time schedule. This is the reason why doubts arise, because something that could save you does *not happen right away*.

- *GOD knows that no human being can die, but HE knows that human beings can be disembodied. The mass extinction through human sanctions is not within GOD'S PLAN.*

Question : The people on Earth are indeed familiar with the concept of a devil, but GOD'S antagonist is not regarded as an existing entity. This is why people unfortunately do not realise the danger they're in, because the antagonist is supposed to exert revenge on every human being. What can you tell us about this?

A. S. : This is correct. This is the reason why not just mankind on Earth armed itself military style; the devil also prepared the greatest battle the universe has ever seen, namely the Battle of Armageddon, this enormous dispute between GOOD and evil. All of mankind on Earth *is embroiled* in this cosmic event.

- *The negative forces exert a compelling force on people with a negative attitude. These people are however completely unaware that all their thoughts and perceptions are forcibly guided, a little like ones instinct of self preservation or instinct of procreation.*

GOD'S antagonist however quite unintentionally influenced people by opening many people's eyes to what is taking place on Earth that can never be alright, that will only lead to destruction.

- *When demonic inspiration encounters genuinely positive thought processes, it can achieve nothing.*
- *Positive thoughts have to be nurtured intensively and this nurturing is lacking everywhere. You must promote an absolute, positive will.*

But those that allow themselves to be dragged down through demonic telepathy can expect the worse. They can count themselves lucky that GOD in HIS grace does not allow them to fall by wrenching them from the clutches of demons so they can still be redeemed. Once they acquire this GRACE, they can be *incarnated* on this planet *once again*; but they have to *redeem* the KARMA of their guilt in order *to pay* for this GRACE.

- *JUSTICE is incorruptible; it is based on the basis of debit and credit.*

Question : The maladies this world is afflicted with are vast and only hidden by the technological progress. Most people are unfortunately unaware that next to the divine CREATION there is an opposing demonic creation that wages a war against GOODNESS. What can you tell us about this?

A. S. : *With HIS ALMIGHTINESS, GOD could destroy the whole demonic creation all at once; but HE would then have to begin right from the start with a lot of things.*

In comparison to other planets, man on Earth is pre-programmed in regards to the concepts of GOOD and evil; because the percentage rate of diabolicalness is *very small* on other planets. The redemption process on Earth is very much in arrears, because the churches are hardly aware of what this process is all about and because politics, with its political parties, *acts against* redemption. The demonic creation must be deprived of a basis for its viability. Such an enormous assignment can only be resolved through the Battle of Armageddon. This dispute will however still take some time. Its climax has *not yet* been reached.

Question : Why do most people shy away from these messages that are so exceedingly important for them?

A. S. : There is a general disinterest in everything one has to *contemplate in more detail*. One's fears of a nuclear war, of the end of the world and the apparent hopelessness of the situation are all things that make one *tired* and *apathetic*. Those that aimlessly live according to these observations think: After me the deluge! – General disbelief *assists* these negative thought processes. The situation in this regards is a *lot worse* these days than in the past. Good executives are lacking! Those that entertain positive thoughts are regarded weaklings and therefore have no chance of promotion.

Question : Will the churches be capable of exerting more influence in regards to a true faith?

A. S. : The churches are *way of the mark* when it comes to a *true* faith; they *fanatically* believe in things that have been *erroneously* interpreted and portended. If audio tapes and vinyl records had existed thousands of years ago, church representatives would be extremely astonished if they had to find out what one thought the TRUTH was all about.

To list all basic problems would fill a book. People live a *careless existence* and they only entertain one thought: I only live for a short time on this Earth, everything else comes to an end after that anyhow, I therefore have to endeavour to gain as much as possible.

Question : Is there actually an opportunity to communicate any objective knowledge to the people on Earth?

A. S. : *This opportunity only exists through us!* Almost everybody will not allow this KNOWLEDGE that is so important for them anywhere near them. Every human being is in a position to ascertain where one camp is and where the other one is. It is therefore not difficult to come to a decision. One can also see this in regards to sport.

- *If the people on Earth would know the COSMIC TRUTH, they would certainly not take themselves so serious. The TRUTH contains EVERYTHING within. This TRUTH contains faith in GOD, faith in HIS EXISTENCE and the survival of the human soul after death.*

Every human being that behaves in a *positive* way should be comforted by the fact that they no longer have to incarnate on this planet, but probably on another planet whose population has reached a higher level and not back on this planet until the situation has finally turned normal again. This is why it is important to defy all hostilities by the negative world so that the human race does not go under in the Battle of Armageddon. – Notwithstanding this I have to say to you: Planet Earth is a jewel amongst planets. It now only rests on winning the Battle of Armageddon.

- *In the final analyses, this Earth will experience a great cosmic surprise.*

This point in time gets closer by the minute. A confrontation with extraterrestrials will soon take place. Man on Earth's preparations to advance into space becomes ever more successful. Every inhabited planet goes through this phase. A point in time eventuates in every case when a human race leaves its home-planet in order to turn to an unknown star system. This in itself is a divine principle.

Now, if the people travelling through space are *not mature enough* for such journeys and land on another planet, they might find that they are *not* welcome. That immature, negative people visit a planet full of innocent people in order to have a negative influence on them just isn't on. This could happen through the employment of weapons. – But this is still somewhere in the distant future.

The Soviets endeavour more and more to establish an *artificial space-station*, even though there is a danger that the Americans might set foot on the Moon before they're able to. An artificial space-station is much more meaningful to the Soviets. They want to gain control over the Earth. Apart from this, its respective location can be changed

at will.

Question : Did the American astronauts see UFOS on their trip to the Moon?

A. S. : Yes, they did encounter a number of extraterrestrial spaceships. But because of the enormous speed these UFOS were travelling, they could not establish what type of flying objects they were dealing with.

Question : Luminous UFOS were thought to be “burned out rocket stages”. What do you say?

A. S. : This is impossible, because burned out rocket stages would not flicker as a *green* light. One keeps the TRUTH hidden from the masses, because one fears losing ones position. Most of them are aware that they occupy positions they’re *not* really entitled to.

Question : What do the SANTINER intend to do in regards to our situation in the near future?

A. S. : In order to assess the various classes of society of mankind in general, it is extremely important for the SANTINER to ascertain *in which one of the various camps people actually stand*. The tactics applied in the Battle of Armageddon demand that one is accurately informed about the situation in one’s enemy’s camp. If the necessity should arise to establish an extraterrestrial protectorate on this Earth there should be no obscurities. The SANTINER regard any form of terror an extremely detestable affair.

The SANTINER are very much aware that an invasion could prevent the *natural* evolution of mankind on Earth in one fell swoop, but this could leapfrog the *natural* development by thousands of years.

Question : Have the SANTINER ever encountered a similar situation?

A. S. : I can only answer this with reservations: The people on Earth are unfortunately inclined to use others as archetypes, particularly when dealing with something negative. They simply say: “Well, as you can see, others weren’t any better either!”

Question : What is the extraterrestrial visitor’s general assessment of this human race?

A. S. : One cannot give up on *one* single human being; one has to *continuously* try to guide all of them in the right direction. If the applied means are however incorrect one will achieve the opposite. This human race finds itself on the wrong tracks and we, the SANTINER, endeavour to help it. Our proposals are not incorrect; all you have to do is *to pay attention* to them. Dealing with this human race, that is strictly speaking quite admirable if it was positively guided, isn’t easy.

Footnote (By Herbert Viktor Speer, Leader of the MFK, Berlin)

Our regular séances form the basis of our UFO research. Since January 1952, we carried out over 1,000 séances. The result of these contacts comprises circa 5,000 printed pages. A major portion of these messages were translated into other world languages and published worldwide. The press and television showed an interest in our spiritual work. Evidence of the genuineness of these

contacts is no secret and they are eminently factual and intelligent.

Only the incredible backwardness of our terrestrial, occult and magic research prevents the comprehension of such a bodacious opportunity, the like we have been able to benefit from with great success. ASHTAR SHERAN is a UNIVERSAL TEACHER and some people abroad think that he is the returning MESSIAH. His indoctrination could save terrestrial mankind, if we would only show some good will. But we are very much doubters in this regards.

Those participating at the meetings of the “Psychic Peace Circle, Berlin” have been doing so for more than 10 years. The enduring interest verifies the absolute reliability of these contacts. A very materialistically minded doctor personally convinced himself of the genuineness of these contacts and this also includes the ASHTAR SHERAN contacts. We are talking about *Senior Medical Officer, Doctor Hermann Gerbis*, Berlin who, after establishing the absolute genuineness of our spiritual contact, became an active member of our circle. He himself could not comprehend that such eminent KNOWLEDGE and such a convincing INSIGHT were still so much in the background in regards to questions about our human existence. His endeavours to break down his colleagues resistance was unfortunately in vain.

Spiritism has unfortunately been proscribed and discredited, because completely incompetent laymen have abused its standing. Spiritualism is unfortunately still *confused* with discriminating spiritism. In dictionaries one actually finds the explanation that under the terminology of spiritism; one is dealing with a spirit faith. One talks about a faith in the appearance of apparent souls of departed human beings. The explanation that one is dealing with “alleged” appearances can be found everywhere and this *undermines* any trust in the subject matter.

The extremely superficial way spiritism has been handled naturally leads to dangers and all kinds of failures. Spiritualism on the other hand is seriously fostered in many civilised nations. The results show that one is dealing with an extremely high INTELLIGENCE. As all *good* messages however are of a *divine* character, the powerful on this Earth distance themselves from this TRUTH. These powerful people also include the authoritative capacities within the sciences as well as the heads of all major religious denominations.

This undesirable development is denounced with great emphasis by the UNIVERSAL TEACHER and MESSIAH ASHTAR SHERAN. Dictionaries give the following information about spiritualism: “Doctrine about the reality and effectuality of the spirit”. This makes it absolutely clear that this practise deals with REALITY and allows the effectuality of the spirit to gain prevalence.

Eminent proponents of esoteric thoughts at home and abroad have shown support for ASHTAR SHERAN’S messages. We place great importance in their acknowledgment because these messages represent the bible in today’s day and age. It is about time that the people on Earth finally extricate themselves from the iron fetters of false interpretations, definitions, assumptions, dogmas and religious aberrations that guided our lives in directions that connote the demise of mankind on Earth.

Millions of people on this Earth have clearly recognised this, but they neither know the causes nor the way that leads to freedom. Freedom, in the true sense of the word, is only achieved when the maturity for this freedom has been attained, as this maturity guarantees this freedom. Without this maturity, all revolutions and all demonstrations are simply nonsense.

Questions and answers

Question : The wider population lacks a yardstick in regards to real intelligence. People are portrait as highly intelligent even though they are actually very dumb. Others feel highly intelligent even though it is clearly apparent that they only surmise their intelligence. Is there a reliable yardstick?

A. S. : Really intelligent people are certainly not so asinine that they regard other people to be stupid. On the contrary – they know that stupidity can be very dangerous and that it can also possess a reckless sophistication. Overassessment of self is a flaw that can always only make an appearance when one regards those around one as stupid. There is a yardstick for the intellect, namely the assessment of whether the person in question is open minded or whether this person judges things according to prejudices and weird influences. The masses only assess things according to alien concepts in regards to political issues.

A really intelligent person is well ahead of the others in regards to the consequences of its thought processes if this person thinks with the heart. One always has to think one step ahead, but only very few can do so. Those that do will be considerate.

- *The quantity of acquired knowledge is by no means a yardstick for intelligence. The average person will allow themselves to be bluffed in regards to drummed-in academic knowledge.*

A proverb states: “Those that sow the wind will reap a storm”. Mankind’s leaders are no exception. We SANTINER often wondered why worse things never happened. There are enough reasons.

Question : As you are well versed in regards to religious and philosophical issues we ask you whether GOD can change or abrogate HIS LAWS?

A. S. The GREAT SPIRIT can *gradually* change existing LAWS, if this is required. *GOD is also undergoing an evolution and it is eternal.* GOD also started out most modestly. A modification, let’s call it a mutation, can initially have a dangerous effect. A *radical* modification would be akin to a cosmic catastrophe. This is why I warn all leaders and reformers on this Terra against taking radical measures, because they could also have *chaotic consequences*. Changes should only come about gradually, that is to say, stage by stage. Those that abruptly topple the old must actually start from scratch. This also means a retrograde step.

Question : A scientific committee at the University of Columbia that dealt with reviewing the UFO phenomenon published its findings by stating that we could not expect extraterrestrial visitors within the next ten thousand years. Where do these scientists get their brashness from to establish such calculations?

A. S. : It is quite self-evident that lies are illogical. The average world population is incapable of logically contemplating this nonsense. The mental, respectively spiritual backwardness is *a lot greater* than one assumes. This backwardness is really responsible for all warfare that is so preposterous to nature. - Planet Earth already had extraterrestrial visitors ten thousand years ago, but however not from the SANTINER.

The people on Earth have no concept of the various levels of development on other planets. One hardly knows anything about gravity ratios and modes of transportation. Scientists *established* boundaries and yardsticks they work and think within. They do however not apprehend that these yardsticks and boundaries only represent one inch on this yardstick.

Question : You mentioned before that GOD is also *undergoing an evolution*. The churches do not give this one single thought, because they are of the opinion that GOD is so almighty and so perfect that HE no longer needs to develop. What can you tell us about this?

A. S. : If GOD had not given HIS intelligent CREATION complete free will, HIS whole CREATION would only lead a *robotic existence*. Through the freedom man was endowed with, man further configures the existing CREATION, *man extends it*. GOD however stands in the background and observes. But if a point in time arrives that threatens HIS CREATION with destruction, HE will no longer sit back and watch.

- *As GOD behaves in a reserved manner, mankind on Earth believes that the freedom of their actions is not restricted in any way. **This is a mistake** that many will rue one day!*

GOD is naturally interested in something new and better being created all the time. If it turns out good, it will find HIS support. – Man however only measures with small yardsticks. He shows *no patience* for anything and always wants *immediate* results. GOD on the other hand has eons at his disposal. CREATION is a long way from being completed. Mankind represents HIS extended ARM.

Question : When experiments here on Earth discover new LAWS, where these freshly created or are they just newly discovered?

A. S. : In most cases GOD'S LAWS are universal, they are therefore only discovered. Something new that GOD will show an interest in appears only very rarely and HE will then decide whether it should become a LAW or whether it should be gradually extinguished.

- *One can for instance create temperatures that do not exist anywhere in the universe. They are allowed, if this wasn't so they could not be created. GOD supplies the prerequisites and the material.*

Such discoveries are *also made on other* planets. Therefore, if a new LAW develops on another planet, it gains validity *on all the other* planets simultaneously.

Question : Are you telling us that GOD created man to fulfil the role of a valuable co-worker?

A. S. : Yes, this is correct. This collaboration however stops the moment man begins to turn *against* CREATION, when he begins to attack it. Once GOD has generally been acknowledged as the highest AUTHORITY, this planet can also turn into a paradise.

Question : Scientists are looking for the very first human being on Earth. Can you tell us when the first people made an appearance on this planet?

A. S. : I can only give you an approximate answer to this. We assume that man on Earth appeared in a primitive form about 2 million years ago.

Question : It says in the bible that GOD formed man out of clay, then breathed life into him and created a companion for him out of one of his ribs. How much of this can be believe?

A. S. : Man, as well as all other life forms, is created out of physical matter. Man's formation was effected according to a very specific model. This model, present like a blueprint, is the soul with its spirit body.

- *GOD'S POWER confers every atom from the spirit model to the developing body. Ergo, the INFORMATION is therefore conferred from the spirit body to the physical body.*
- *Once the body is complete, the soul that has existed in its complete form for millions of years, is reincarnated into the new body through GOD'S POWER. One could simply call this process "GOD'S ODEM".*
- *The biblical description of the creation of Adam is not accurate, because man's origin is not on Terra.*

Only the physical body developed independently. It was so primitive to begin with that it never occurred to it to use a fig leaf. Conditions on Earth were quite warm at that time.

Question : And what's the situation with Adam's rib?

A. S. : If one were to concur with the bible, it would mean that all SANTINER also descended from Adam; but we *neither have apes nor fig trees* on our planet.

- *The story about the rib is an aberrant! Both genders developed parallel.*

Question : Universities ask a particular question in jest they think there is no answer for, namely what was first on Earth, the chicken or the egg?

A. S. : Naturally the chicken, *only it* can lay eggs. GOD does not lay eggs, HE always creates things that are *complete*.

Question : Our sciences cannot explain the miscellaneousness of CREATION, nor how it all came about. Can you explain this to us?

A. S. : The miscellaneousness of vital CREATION, fauna and flora are part of it, came into being at the same time, that is to say, all forms *appeared at the same time*. We are dealing with forms that *already* existed on other planets long ago. There was an epoch in the Earth's development of around half a million years where the Earth emitted acids and vapours that were conducive for *organic materialisations*. The required protein cells developed during that epoch.

- *All animals arose in their absolute forms according to their spirit models.*

Completed tortoises and other life forms arose. These animals were however engineered to multiply, they had reproductive organs, so that during the subsequent epoch, direct materialisations *were no longer required* and, due to changes on this Terra, could no longer take place. Terra has a level of development nowadays where such materialisations *are scarcely possible*; they can now only take place on a microcosmic level.

When the Earth experienced an epoch of the *best* possible opportunities for materialisations, *extremely large* life forms came into being. These were later followed by smaller and smaller life forms until they could only take place on a microcosmic level. This is why *new bacteria, viruses and insects* are still a possibility.

- *If the people on Earth should be successful in creating artificial climatic conditions with the help of acidic excretions and corresponding vapours, the materialisation of a living thing could be possible.*

Question : In which way and with what means have *you* been able to find out these SECRETS of CREATION that took place such an infinitely long time ago? What can verify the correctness of these expositions and explanations?

A. S. : We also have a great interest in CREATION. We also have a corresponding science, but it is *far advanced* of yours. As we still do not possess a time machine in spite of our advanced technology that could take us back in time, we had to reach for other means in order to orientate us. With the help of extremely well constructed spaceships, particularly our cosmic beam ships, we can fly to very distant star systems. As the development of planets of these star systems are *very varied*, we are able to observe and survey the path of development of CREATION on some of the less advanced planets. We can recognise *our own* development there, because there is not difference as it runs exactly along the same lines on all planets.

This is the reason why we visited Terra thousands of years ago. Our forefathers however were regarded as gods that had come down from the heavenly throne. A mother-ship landed on Mount Sinai later on and the Israelites thought that the chief pilot was their god Jehovah.

- *It would have been impossible to familiarise the Israelites with the TRUTH more closely. The miracle they witnessed shocked them too severely.*

Our forefathers however observed a *very dangerous backwardness* in regards to the cohabitation between tribes and groups. They encountered impossible circumstances. The animosity and the hatred amongst the people on Earth were enormous and led to murder and manslaughter, to every possible blasphemy and sexual deviation.

This was the reason why our forefathers voluntarily took on a MISSION. They took Moses on board of their spaceship and tried to instruct him. Their efforts unfortunately showed very little success. The religions on Terra put the wrong slant on everything and *derided* and *ignored* our well-meant suggestions.

A few thousand years later, we wanted to know what happened to the people on Earth. We once again headed for this planet. What we observed this time around shocked *us*.

The development of the sciences and technology had made great strides, but the animosity amongst races and peoples had *increased enormously*. A terrible, unwanted development could be ascertained. We could not just ignore what was happening. A lot of things affronted us, as we are also human beings.

In the old days, our forefathers only showed a *purely scientific* interest; we however go beyond this and have a *purely human* interest. We cannot accept this ungodliness and ignorance without saying or doing something if we don't want to have to shoulder some of the blame.

- *Those that know and tolerate such abominations are also guilty. Our conscience will only be appeased once we have the guarantee that a positive change has been accomplished.*

Planet Earth is presently in the middle of the dreaded Battle of Armageddon. Due to its spiritual backwardness, it has been largely dragged into the negative camp of demons. This is a calamity and probably something that we did not experience during our development, because – as far as we have been informed – the Battle of Armageddon didn't rage at that time. We could therefore pursue a *more peaceful* direction and it brought us *a lot further* along the way.

We would *dearly like to lend you a hand* with this dangerous situation, but we cannot find appropriate opportunities, because your authorities continue to put obstacles in our way. We would certainly not like to see the demise of this Earth.

We thank all positively thinking people for being prepared to help us. Even though we are unable to thank them *directly*, they will receive their remuneration one day in spite of this. They perform a service for mankind. Please be also prepared to perform the same service and remember that we have to bear the *majority* of the burden. We also find it not that easy to interfere here. Do not regard our journeys through space as something matter of fact. We have to make *great sacrifices* and we would prefer to distance ourselves from this Earth.

- Our scientific interest in this planet has been satisfied, but the general situation in regards to the human coexistence does not satisfy us.

Man's existence within the universe is something wonderful and this is why we *cannot comprehend* how one could possibly descend to such a degree, that one employs the highest accomplishments in the fields of technology and science in a most beastly way to endanger and destroy this interesting human race.

A hot issue

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This salutation isn't expressed willy-nilly. We are aware that this mankind *needs* peace. Nations are in principle *not* interested in animosities, but their leaders have the power in their hands and they abuse this power. Everything their leaders want happens "in the name of the nation". They base their audacity on the fact that they are the representatives of the people. Everything they plan

and carry out is supposed to happen with the consent of the people. As the people do however not dispose over the same powers as their leaders, they are at a disadvantage and must therefore bow to the will of their leaders. However those that have to subordinate relinquish their personality.

These are terrestrial circumstances that *no longer exist* on our planet. We have *conquered* this stage of negativity and *no longer* afford GOD'S antagonist a service. This is why he is powerless in our regions.

- *When we enter the regions around this Earth we enter the antagonist's sphere of control at the same time.*
- *We are exposed to dangers of a terrestrial nature. This is the reason why many extraterrestrials have relinquished their contact with Earth.*

Mankind on Earth is mainly interested in *material* issues and problems. The spiritual regions *are written off*; they are only paid attention to by native tribes. As these native tribes are mostly still underdeveloped, *one simply assumes* that their belief in spirits is traditional nonsense, whereas this belief contains *more* TRUTH that you can imagine. Native tribes are superior to cultured people in this respect. I *don't* mean their cult, only their KNOWLEDGE.¹⁰

Questions and answers

Question : How is it possible that you have such good command of our world languages?

A. S. : Thought transference played a major role thousands of years ago. Telepathy is still an excellent means of communication. We are well trained to do this and we are able to communicate extremely fast across millions of miles. We tried to measure the speed of a telepathic transmission with the help of technology, but this was utterly impossible, because there was no time to measure at all. Sent concepts arrived at the receiver's end the very moment they were sent. This surprised us very much.

- *We have however found a means that helps us amplify telepathy. Such an apparatus could not be employed by you, because most of your thoughts are negative. Negative thoughts interfere with the transmission; positive thoughts on the other hand are immediately registered.*

I know that my expositions will be published. The inexperienced, non-open-minded readers will say: "What a lot of baloney somebody has come up with". But how can we demonstrate this to you? – Everything supernatural, occult or spiritual is called a hot issue. What one is trying to say is that those that deal with this issue will burn their fingers. This is nothing short of an *unprecedented cowardice when dealing with the TRUTH* in my eyes. One senses the consequences associated with such a TRUTH and one avoids the issue.

¹⁰ Native tribes' belief in spirits occurs *independently from one tribe to another*. People living far apart from one another and who do not know one another have almost the same belief in spirits, because it is based on perceptions and experiences.

- *There may not be one single hot issue in regards to the human progress. Every human being has the right to the TRUTH, to knowledge and information.*

Many university professors and scientists do not deal with spiritual problems, neither with magic nor occult research; they don't even acknowledge gained insights, but simply declare these wonderful fields of research a hot potato, that is to say, they don't touch it! It is therefore not surprising that this human race does not make any progress in regards to spiritual things and that this makes it very easy for the devil. Indeed, the devil is also either part of superstition, a Punch and Judy show or a hot issue.

The worst thing that can happen to imperilled human beings is when they *do not know* that they have a dangerous enemy lurking or when one tries to convince them that this factual enemy doesn't actually exist, but only represents a fairytale figure. This is how things are everywhere, almost everywhere on Terra. Those with the knowledge and experience can only shake their head. Ignorance and dullness turns into such an enormous danger that I find it impossible to find the right words.

- *Those that are either unaware of the danger or do not believe in it enter a state of a dangerous carelessness that will ruin them physically and spiritually.*

This hot issue represents the number one danger for the world. The antagonist's incredible sophistication and cunningness managed to contrive a situation where he is completely obscured from sight so that the general opinion prevails that he does not exist at all. I ask you: If you apply your logic you have to ask yourself whether a case such as this ever existed where an eminent enemy, one that doesn't even respect GOD, can be so perfectly unreal and invisible the way it is the case with the devil. The effectiveness of his tactics is mainly due to man's cowardice in regards to this hot issue.

There are a number of people that had some very comprehensive experiences with the antagonist. *Everybody* naturally has these types of unpleasant experiences, but they are usually not aware enough of just *who* is behind them. The evil one never makes a direct appearance. He will guard against endangering his "non-existence". He does not want to be recognised. He is however the greatest director mankind has ever seen – and the plays he tries out are highly topical and exiting.

I sometimes think that I am visiting a kindergarten. I have only encountered this much ignorance and naivety in fields of knowledge, that are of *the greatest importance* for man, here on Terra. You will not be pleased to hear this, but this criticism is absolutely necessary. It represents an act of love for this mankind.

I could save myself a lot of bitter words if your churches and religions had at one time or another *logically* dealt with this hot issue. They have completely failed in dealing with this terribly important issue. They burned witches at the stake, accused innocent mediums of being the devil's companions, but did not realise that they did the antagonist a great service. All one can say to this is: Disgusting!

- *The antagonist isn't just mankind's director he is also the Field Marshall of the Battle of Armageddon, that is to say, the highest authority over all negative forces and powers.*

If mankind would recognise and accordingly acknowledge that the antagonist is an *existing* negative power, *he would perforce abandon his disguise*, because it would no longer be of any use to him. The now manifested major enemy of man and the rest of the divine CREATION would then confront mankind in his *true* form. Only then will this human race be able to fear and accordingly fight against him. There will *never* be peace on this planet without this battle.

- Revolutions are plotted.
- Wars against innocent brothers and sisters are waged.
- Skulduggery is applied against skulduggery.
- Nations and groups are divided.
- Super bombs are constructed.

Everything is combated, *but not* the allegedly nonexistent super enemy, namely GOD'S and man's antagonist.

- *The great religious doubters ask why GOD does not interfere, if HE really does exist. I can give you a logical answer here: GOD does interfere! We are HIS MISSIONARIES of the TRUTH and the EXECUTORS of HIS WILL at the same time!*

I already fulfil GOD'S WILL by enlightening you. Alright, this SEED is only sparingly sown *to begin with*, but this valuable SEED will proliferate. It is only a question of time; but according to the LAW of PROLIFERATION; *increasing by the power of the quadrat*, a time will come when these words gain such importance that not even the major religions of this world can heedlessly pass them by. A change will then take place that will affect all areas.

- Our minds find it incomprehensible that military armament, costing many billions, has been so highly developed all over the world, even though it *is generally based on the greatest possible ignorance and stupidity.*

This human race attracts attention throughout the universe in this respect.

This is *unique* in the history of human development!

We have to admit that there are planets out there that exhibit a very backward progress. But planets with a backwards population but with such powerful technology at its disposal *concurrently do not exist anywhere else.*

Question : We are ashamed, but we see no way out of this dilemma. What can you suggest we should do to get us out of this situation?

A. S. : Your churches have always placed the greatest emphasis on explaining GOD'S EXISTENCE in one comprehensible form or another. They have however *never reached* this goal. This is the reason why one came up with the idea *to humanise* GOD. Like primitive tribes, mankind was supposed to envisage a *human* GOD they can adore and present their wishes to and share their pains with. This is the reason why all religious thought and the whole devotional method has always concentrated on the major interpreters of RELIGIOUS FAITH.

It is the same everywhere; it matters not whether one is dealing with martyrs or great MASTERS that were in contact with the spiritual realm in one form or another, like for instance Mohammed or Buddha. One has however not been able to fathom GOD'S EXISTENCE. What is unfortunately lacking here are higher INSIGHT, let's say, the prerequisites for such KNOWLEDGE.

- Which testament explains for instance the establishment of a supernatural or extraterrestrial contact?

GOD is never ever your enemy. On the contrary – if HE was not your FATHER and FRIEND, the situation would look a lot more dismal. There is therefore no reason to search for a plausible explanation for GOD, as such an explanation is *not compellingly necessary*; because GOD will never do anything evil to you.

The situation is the complete opposite with the antagonist, with your dangerous enemy; all he wants to do is *do you evil*. *You completely ignore* this enemy! Let somebody else understand this, I can't! You are beyond help if you continue to declare the devil too hot an issue. – How often does one hear that GOD punishes. This is how the churches have tried to browbeat people.

- *One can however not gain LOVE by force. This is impossible!*

One should however not only revere this SPIRIT, but also trustingly love this SPIRIT. When one is afraid of punishment, one also fears the one that imposes this punishment. This is how the churches have managed to establish a situation where people have *more fear than LOVE* for their CREATOR.

Nevertheless, people do not escape unpunished. They bring situations upon themselves that incur *self-inflicted punishment* here and in the hereafter. The antagonist however neither asks for justice nor whether people will suffer. He exercises his brutality and spreads his ingenious nets.

- *You have numerous religious scriptures and it matters not what religion they spring from. All of these scriptures do not sufficiently emphasise the dangerousness of the misanthropist called Lucifer. This is incomprehensible!*

If I had to write a bible I would put *the whole emphasis* on the fact that mankind falls prey to the devil's ingeniousness, because he is extremely apt in applying means that lead mankind into perdition. The fact is that he knows many of man's weaknesses and is able to utilise them in every possible way. Above everything else he is aware of man's wishes and cleverly adapts to any new developments.

- *The devil is very dangerous but certainly not simple or dumb. Mankind is therefore exposed to unparalleled dangers they have no inkling of whatsoever.*

If something is to be portrait as harmless and unimportant so that it isn't taken serious, there is nor better way than *to ridicule* it. One ridicules the issue to a point where it will be seen as absolute nonsense or foolish tittle-tattle. It is exactly the same situation with the antagonist; he is ridiculed to such a degree with the help of *human support* that nobody will allegedly have to fear him.

This is the great mistake and it weighs *heavier* upon you than all major global, social and political problems put together.

The effects developing from this situation cannot be quite conceived. –

I can however only advise you to *not underestimate* the devil. He is certainly not a joker or a fairytale figure, the way Grimm's fairytale depict them. He is also not one of the imaginative characters found in science fiction books.

- *The antagonist is as real as the whole universe!*

If your sciences or your religious leaders are *not successful* in depicting the antagonist in a *credible* light, this human race will not find its way out of the dead end street it's in.

Mankind unfortunately knows *too little* about his invisible EXISTENCE. This is why it is so incredibly difficult to convince people with a devil-may-care attitude that such enormous processes are taking place. – The situation is the same in our case. One condemns all extraterrestrial spaceship phenomena to ridicule so that people are not tempted to believe in them.

- During its terrestrial evolution, mankind undergoes a great examination. But who can possibly pass this examination when they have not sufficiently prepared for it? KNOWLEDGE is demanded and tested that only *a small number* of people possess.

Not even the brains amongst your leaders are *anywhere near enough* informed about *the reasons* for the human existence. These people assess according to their *own* opinion and not according to the real, objective TRUTH. Their findings are personal, but the personal does not come into the equation, because mankind's significance is of COSMIC IMPORTANCE.

I am amazed about your psychology. It hasn't been able to get *anywhere near* the TRUTH about the human existence. *Dream analyses* are of no importance *whatsoever*, but the EXTERNAL EXISTENCE of the SOUL is of *decisive* importance!

- *Without the sensible, objective integration of parapsychology, psychology has lost its right to empirical acknowledgment.*

There are unfortunately still a lot of pseudo insights within university taught sciences and they cause a lot of damage to mankind. When students protest *against* them, they receive my applause, but I am against them when they want to think along political

lines, because they don't even know the fundamentals of the TRUTH, all they want to do is to convert one mistake into another.

Insurrection¹¹

A general upheaval is presently taking place on this beautiful Terra which has never ever experience peace; a worldwide insurrection of increasing proportion. Nations believe that they are confronted with an enigma, but they are mistaken. We are dealing with effects that follow in line with GOD'S LAWS and their causes are to be found in mankind's false upbringing and indoctrination.

Many prophets are able to see the future that is sometimes still far away, but whose course is already predetermined by certain causes. This is something the people on Earth find impossible to comprehend. One can wind up a clock and set the alarm to 12 o'clock and then predict to the minute when it will go off. It is quite similar with prophesies. When a prophet, that is to say, a hypersensitive person realises that the world-clock has already been wound up and the alarm set, they will be *able* to foretell when the alarm will go off. And the alarm is ringing extremely loud right now! – Those that do not hear the ringing are not interested in their environment and only pursue their own egotistical interests.¹²

- *More nations will rise up, because the HOLY BATTLE is raging. HIGHER KNOWLEDGE must break through.*

The cause for the uprising of races, nations, students and citizens, well actually in all areas of the human existence, is to be found within the *spiritual* sector. The general discontentment takes on *fanatical* proportions. If one however observes the course of events *within politics*, one recognises the dangers of waves of armament that try to break down old walls.

It can certainly not continue the way this has been handled so far. We will not idly stand by, if a catastrophe is conjured up. Mankind on Earth can give us the signal; this would be akin to sounding *the biblical trombone*.

Things take place the general public does not understand. Negative people I called *anti-humans* in the past are so powerfully inspired that they drop their mask. People with a positive attitude can now recognised them immediately. Atrocious crimes are committed that defy description. These occurrences are part of the Battle of Armageddon.

- *Spiritual darkness has now completely enveloped this Terra; it can hardly get worse.*

Communists and socialists have rightly fulminated against the churches. But one cannot negate FAITH in GOD the way they tried to do. Religion cannot be replaced by a political pseudo-religion thought up by human beings. One can *only correct* a baleful, untrue religion that contains PARTIAL TRUTH. This correction is however prevented from various quarters. The churches defend their gnawed bones by barking loudly. Those that try to take them from them are ruthlessly

¹¹ Rebellion; national uprising.

¹² The prophets in the Holy Scriptures have at various times indicated a time when mankind on this Earth will be engaged in a great uprising. John's revelations, chapter 6, Verse 17 states: "The terrible day of their anger is here and who can stand up against it?"

bitten.

This situation cannot be resolved with politics, because politics does not take the cosmic TRUTH into account. The cosmic TRUTH I could also call the divine TRUTH does not apply force against force, but *insight against aberration* and *LOVE against egotism*. If a war were actually justified, it could only be waged in the form of elucidation and education against a generally prevailing dullness.

- *For as long as the majority of the people on Earth are of the opinion that every human being lives only once on this Earth and therefore only has one chance, man's behaviourism will never change. Everybody will try to grasp whatever they can without taking other people's losses into consideration.*

The uprising is here, but this insurrection must be guided towards the *correct* goal. It surely is difficult to make a start. It may be true that that this start is wrong, but corrections can still be made. Youthful energies must only be guided along the right tracks.

- Fanaticism must be *controlled*.
- Materialism must be *replaced with the spiritual*.
- The sciences must *expand* their fields of expertise.

I admit that there are no professors and no academic lecturers for bodacious INSIGHTS. Laws must be created that will allow non-academics to act as teachers if they possess the KNOWLEDGE and the abilities. Every university can establish a department for these temporary arrangements.

Mankind would profit tremendously from this!

Modern

It is not my MISSION to criticise you. My assignment consists of giving ASSISTANCE, of rendering mankind a service. This service is indeed the assignment of *every* human being and this is why I can't understand the great differences you make in regards to appraising work.

- *A street sweeper renders mankind a service, whilst a student on the other hand does not do so for quite a while, the student in fact freeloards on the service the street sweeper provides. This is just an example.*

I come across the word "modern" in your vocabulary. Even though you probably comprehend your mother tongue emotionally better than I can, I find it difficult to warm to this concept. I assume that the word "modern" means something new, something that is *even better*. Mankind has however a different concept in regards to this word. One doesn't consider its actual sense, but is of the opinion that anything modern is also very progressive and admirable.

This is a mistake!

One even talks about *modern* warfare! The greatest negativity can be portrait as something

modern. – Heels for women's shoes became fashion that were eminently harmful to women's health and they were lauded *ultra-modern*. Smoking and drug addiction is also *modern*. The worst about all this is that publications canvas modern things in a way that a *completely false picture* emerges. But an old tradition, long forgotten, is also represented as modern at times.

The term “modern” is misapplied a lot of times.

The imitative instinct is not to be underestimated. Imitation also plays a big role in warfare. Nobody wants to miss out on the things the masses get up to – and this is also *modern* – because one wants to be a *modern* person.

- *It is a shame that the HIGHEST INSIGHTS are not modern! – UFOLOGY has certain prospects of becoming modern, but this development was stopped with all available means.*

The Christian churches have been taken in by this dangerous word “modern”. They want to be modern and unscrupulously incorporate negativity into their houses of God. It is akin to putting a picture of Rubens into an abstract frame. The old masters don't aspire to be modern; we ascertained that their art presents itself very well without a frame or in a dignified golden frame. What applies to the old masters also applies to religion.

- *An objective FAITH in GOD does not have to be conceived as “modern”.*

Houses of God are houses of prayers; they cannot be modernised with negative, abstract things. The younger generation might accept this unscrupulously in their inexperience. The older faithful, capable of contemplating this *meditatively*, will perceive this as blasphemous. But if this faith is not in order, if it exhibits mistakes, if one is unwilling and incapable of admitting and eliminating these fateful mistakes, one reaches for *modernisation* in a negative sense just to attract attention and to assimilate with the general negative development.

- *Only the best is just good enough for an objective FAITH in GOD!*

This development is also part of the Battle of Armageddon. But what do religions know about this contention? – Satan already stands in the middle of the church!

Question and answers

Question : We find your explanations superlative, but how will the world at large deal with it? One will point out that one is not dealing with a direct conversation between human beings. One waits for an extraterrestrial visit one can talk to face to face with. A psychic connection is still regarded with reservations, because one knows too little about them.

A. S. : The behaviourism of the powers that be amongst the people on Earth stops us from doing this. If we were to fulfil your wishes, we would expose ourselves to great dangers. This could only be possible if we were to take the reigns at the same time, if we were to establish a protectorate here on Earth.

But another danger also hinders us: All people on Earth are *carriers of bacillus*. Furthermore, there are also pathogens you are *presently unaware of*, but many of you are *harbouring*. As we are highly susceptible in this regards, none of us would like to

expose themselves to a danger that could transmit an epidemic we might be powerless against.¹³ – We don't know whether our precautionary measures would suffice.

Sexus ineptus

Dear terrestrial friends!

A *lot more* could be said on this subject. We are unfortunately running out of time and the required energy is fading.

I am very concerned about the sexual crimes committed on LOVE.

LOVE is high and sacred, surely the most beautiful and most powerful thing throughout the universe. The antagonist has however selected LOVE to be his major target. People unfortunately do not know the kind of service they provide the devil with. During the course of the Battle of Armageddon LOVE is dragged through the mud and mankind is robbed of its highest ideals. Sexus ineptus; insipidness without equal!

I have to raise my hand here and implicitly warn you!

- *This insipidness hides an unfathomable danger to the future of the people on Earth.*

You easily fall prey to the dangers certain present day events are fraught with. The debasement and the profanities inflicted on divine LOVE that is absolutely sacred, helps to deteriorate man's character and morals in a most abominable way. This development is in no way inferior to the demoralisations brought on by alcohol. This behaviourism brings about a total collapse of all inhibitions that stopped man from committing vile acts before.

- *The respect for the other gender can never be high enough. If decency and natural modesty are however violated, the descent of one's spiritual development is the immediate result.*
- *The degradation of the sexes leads to the total degradation of all of mankind!*

Conclusion

Somebody is sitting in judgment over this human race...

The people on Earth are *not* invited to the court's proceedings. The judgment takes place *in their absence*.

I have been called as a witness and a number of others as well. What shall I say? – What have I experienced and what have I seen? It is not my place to judge. I do have my own thoughts just the same. Being aware of the spiritual forces and intelligences involved in the situation mankind find itself in, it is very difficult to talk about a direct guilt.

- *I would appeal to the court to give this mankind a period of probation after the judgment.*

¹³ Native tribes live in South America, in the jungles of Brazil that die from catching a cold, if infected by outsiders.

When your development was not all that advanced circa 2,000 years ago, CHRIST, your most eminent TEACHER said with deep empathy: “GOD, forgive them, for they do not know what they do!”

With the same empathy I say:

GREAT UNIVERSAL SPIRIT, ALLOW YOUR MILDNESS TO REIGN, BECAUSE THIS HUMAN RACE IS AFFECTED BY THE MOST CONCEIVABLY TERRIBLE INFLUENCE OF YOUR GREAT ANTAGONIST! GOD, FORGIVE THEM, BECAUSE THEY ARE UNAWARE OF THE INVISIBLE EVENTS THAT ARE TAKING PLACE.

Your theologians cannot be depended upon!

This is why I turn to those amongst you that utilise their intellect:

- *Recognise the things that are wrong here on Earth!*
- *Your hatred of one another is the basest your human spirit can produce. Stop fighting and insulting one another!*
- *Your life is not as short as you think, it lasts for eons!*

Your ASHTAR.

THE END
