Protocol of an extraterrestrial contact from the year 1965

Title : **No Utopia** (The yoke of tradition)

Contactee : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)
 Mediums : Uwe Speer (17) and Monika-Manuela Speer (15)
 SANTINER : ASHTAR SHERAN

These words from INTERPLANETARY BEINGS published here were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during their many public séances. We are mainly dealing with fully-automatic written messages, unconsciously received by two mediums well tested over time. These psychic messages are complete and they were left in their original form. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the Menetekel and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these messages and protocols is *explicitly encouraged* and is not covered by any copyright!

Preface by the publisher

The well-known UFO researcher and certificated engineer, Mr. Hermann Ilg from Reutlingen in Germany passed away early in May 1999 aged nearly 80. Through his activity as a civil engineer, he was used to logical thought and only believed the things that could be absolutely verified. The former senior building expert was abhorred by anything dubious. Due to his *extraordinary telepathic ability* he had no doubt at all about the existence of the SANTINER. He had personally observed UFOS. For more than 20 years he published accounts of these contacts through the dispatch of individual A4 size pages, covering the costs himself. A semi-page article in the "Badische Zeitung" from the 20th of July 1996 called Hermann Ilg "the most eminent UFO researcher of Germany's south". The following, shortened data stems from this article. The starting point of his ufology career was the Upper Swabia town of Ravensburg where an acquainted minister of the church observed six, rapidly moving disks chase across the sky in the direction of Lake Constance. This clergyman was confronted by a wall of ignorance at that time. An observatory in the region declared this sighting an "optical illusion". This type of dilettantism annoyed Ilg. Ilg compared NASA, who tried to make contact with extraterrestrial life through radio waves, to a "tribal chief" sitting in the jungle looking for other tribes via drum signals. If he does not receive an answer, he comes to the conclusion that: We are alone on this planet.

The halls were always full when Ilg announced a lecture. Ilg had detailed information about the SANTINER life style, their flying objects and their developmental history. Their UFOS must travel 40 billion kilometers when they come from the constellation of Alpha Centauri, more than 4.3 light years away. Terrestrial technology cannot be compared with their type of flying objects. The reception they receive here on Earth is often less than friendly. One theme that always annoyed Ilg: "Interceptors then take to the air and they are called invaders!" Astronauts are supposed to have observed the flying visits by the SANTINER long ago, but they were sworn to secrecy by NASA. (The UFO problem was part of the US national security. Those that trespassed against it risked losing their pension!) Ilg maintained that the result of an encounter would "bring our whole social fabric and our whole view of the world crashing down". – Mr. Ilg deserves our deepest gratitude for his exemplary commitment. He departed from this Earth at the beginning of May 1999 and is now able to observe the things he believed in first hand.

Bad Salzuflen, January 2000

Joshua 5. 13-14: While Joshua was near Jericho, he suddenly saw a man standing in front of him holding a sword. Joshua went up to him and asked: "Are you one of our soldiers or an enemy?"

"Neither", the man answered, "I am here as the commander of the Lord's army." "I am your servant, sir. What do you want me to do?"

Preface (By Herbert Viktor Speer, leader of the Psychic Peace Circle, Berlin)

These lines from the bible unambiguous verify that the people on Earth had contact with extraterrestrial people in biblical times. These contacts were often demonstrably repeated. These lines from the bible however also verify that the extraterrestrials we call SANTINER, came to Earth with a divine ASSIGNMENT.

Mankind is faced with the same situation as we speak: Extraterrestrial messengers from the cosmos visit us in order to indoctrinate us and to free us from our mistakes. But just the way one doubts the documented facts recorded in the bible, one *particularly* doubts the possibility of a divine MISSION in our time.

The Psychic Peace Circle, a strict, scientific work circle dealing with research into spiritual phenomena, has been a trusted point of contact for extraterrestrials for about 10 years. These messages represent only *a fraction* of a great MISSION. Up to this point in time we produced and published ten brochures dealing with these contacts; they all greatly impressed people. This message here is the 11th message of its kind. The extraordinary content of these brochures has been noted and debated in the highest government circles, by theologians and the sciences. We received hundreds of thank-you letters.

Ever since the end of WWII, the theme of "flying saucers" has never been off the agenda. These flying objects are however mainly the focal point of *military* interests.

Intellectual mankind intends *to distance* itself from GOD. This is the reason why they doggedly disown everything to do with the concept of GOD. UFOS, that is to say, extraterrestrial flying objects, are however not just a technological miracle, but *actual evidence* of GOD and HIS HOST'S EXISTENCE. The bible documents their existence and their divine MISSION.

Extraterrestrial flying objects cannot just be looked upon as the superior technology of another human race. These spaceships represent the means of transport for MESSENGERS of a higher AUTHORITY, particularly of a far superior INTELLECT.

- *This extraterrestrial MISSION that reaches us here on Earth happens on BEHALF of a SPIRIT we call GOD. This momentous fact can be irreproachably verified through the bible.*

The church has unfortunately wrongly interpreted this TRUTH. Biblical accounts however contain wonderful evidence that can explain the UFO phenomenon to us here and now in spite of this. The MESSENGERS from other star systems are *here to help us*. The way they go about it is not correctly understood by us. They are however bound by sacred LAWS, LAWS that don't seem to have any validity for us and they adhere to them very strictly. Our *thought processes differ* from that of the SANTINER, as these extraterrestrial MESSENGERS call themselves; they are unmistakably far superior spiritually and technologically.

What we publish in our brochures in this way is the pure TRUTH and *no* utopia. There will be enough people that doubt our genuine intentions. We do however *not* regard them APOSTLES of the TRUTH, because they *lack the experience* and consequently *objective thought*.

Mankind on Earth is not an isolated case within the huge universe. It is absolutely illogical to believe that a human race should *only exist on this* one planet. We are *not* the pinnacle of universal evolution. We have been outdistanced by other humanities for millennia.

- The blasphemy we commit is called *abysmal ignorance*; our atheism represents *scientific arrears*.

We have had intermittent contact with messengers from another solar system for about 10 years (1965). What they tell us shocks us deeply. It is the TRUTH, respectively harsh criticism. They do however actually verify our backwardness based on our behaviourism, particularly the way we relegate this criticism to the world of fantasy with a mocking smile.

We feel infinitely sorry, well we actually suffer mental anguish about the fact that we are unable to furnish every individual with direct evidence of the way we entertain these contacts.

- We *didn't look for* this contact and we didn't conjure it up either. Extraterrestrial MESSENGERS *observed* our meditation circle and *visited* us spiritually.

We received INDOCTRINATIONS from the hereafter and correspondingly, we also recorded doctrines from the SANTINER. In order to remove any difficulties in regards to communication, the SANTINER utilised ways we have not yet fully comprehended. We are dealing with *spiritual* opportunities, but they are part of mankind's spirit. This is a communication between souls, from one soul to another, because the SANTINER are also GOD'S children, they also possess a soul and they can therefore manifest themselves through all possible *spiritual*, respectively *psychic* means.

In order to explain these communication and reception opportunities, we would have to publish a whole book. This is not our assignment; we confine ourselves to the literal publication of those TRUTH that we were privileged to receive with GOD'S help. We are only the mediators between two planets.

What does my LORD say to his servant? (By ASHTAR SHERAN)

The leader of the working circle writes:

The MESSIAH requires a preparer of the way. He must be introduced by a predecessor. ASHTAR SHERAN, the leader and world teacher of the SANTINER is the LIGHT that lights the way for the new MESSIAH. We utterly concentrate on this preparer of the way and listen to what this world teacher has to say. We are aware that he finds it difficult to communicate in our language, because it is *inadequate* in regards to a lot of concepts. We therefore also find it very difficult to use the right words to convey the things ASHTAR SHERAN could only hint at. He is GOD'S VOICE the way CHRIST was a SPEAKER of the LORD. He is an authorized representative, the way an authorized representative talked to Moses on Mount Sinai. He will tell us what the LORD has to say to his servant so that mankind on Earth can hear the things that concern us all. Our devotional room is a tabernacle that offers the SANTINER to opportunity to communicate with us. A contact from soul to soul, something the sciences will only comprehend years from now.

ASHTAR SHERAN:

“Brothers of this Terra, I salute you – even though I find it very difficult to confer the usual hearty geniality to this greeting that is common practise throughout the universe. Brothers of a universal mankind, reflect on the fact that you only represent *a minute part of* a humanity that created a spiritual FORCE that no human being will ever be able to comprehend. It therefore suffices to know that *all of us* have created this FORCE that reigns over us. IT is the UNIVERSAL MIND, the UNIVERSAL CONSCIOUSNESS, and UNIVERSAL CREATION could not exist without it. IT is the cause of spirit and matter.

Every human being can deny the highest TRUTH out of pure malice. It is only a question of who wants to give this malice credibility. We have come to the conclusion that literally billions do so on this planet. This is a sum that almost incorporates all of mankind on Terra. This fact can however neither be changed nor embellished.

- Political interests spread the darkness of ungodliness everywhere. Atheism is not just the privilege of world communism, it encompasses all political philosophies, either openly admitted or hidden under a mantle of hypocrisy.

There are *invisible planets* throughout the universe that exhibit a level of development that no human being on Earth can begin to imagine. The divine existence doesn't just encompass the things that are humanly perceptible. It is called “*Tkrogassko*” in our language, but I can unfortunately not translate it. A depiction of such an existence would sound like a magnificent fairytale to you, a superlative fantasy. But such an existence is absolutely no utopia. It is an existence on a specific FREQUENCY LEVEL, the way life after one's terrestrial death exists on another FREQUENCY LEVEL than a terrestrial life in the physical. The word “physical” means something solid to you, something that you can perceive.

- *There are however many more kinds of physical matter you are presently unable to perceive. There therefore exist enormous worlds where animated life exists that cannot be captured by any telescope.*

You are absolutely unaware of the gigantic fullness of glorious marvels and secrets the universe has to show. But every *ennobled* soul is able to set foot in these worlds. *Ignoble* souls on the other

hand have to travel along the paths of darkness before they encounter GOD'S LIGHT.

- *Death is not the final stage of the human existence; it is a process of transformation. Every human being goes through this transformation innumerable times and human beings are also refined innumerable times.*

The fact that you can only perceive physical frequencies does by no means give you the right to behave like antagonistic beings.

The hatred you feel for one another is *beneath human dignity*.

The people on Earth separate themselves more and more from the community of universal humanities. Your sciences are completely ignorant in regards to consciousness. A cannibal can be excused for his misanthropic behaviourism, but an educated European or a sophisticated coloured person can never be excused for this type of behaviourism. These people have forfeited the right to plead ignorance. They can only plead ignorance in regards to divine INSTRUCTIONS. They therefore have to bear the consequences, even for their fellow men that are sucked into the maelstrom of their dangerous intentions.

- You have at least a Holy Scripture. Even if this Scripture doesn't completely represent the facts, it does at least give a few hints in regards to correct human behaviourism; *it does mention punishment after one's physical demise.*

The people on Earth ignore this justice after one's demise. This threat does not instil fear. The people on Earth are sure of themselves. They *don't believe* in supernatural punishment. But when a human being does believe in a life after death, he believes that GOD has already absolved him from his shortcomings and his sins.

This is absolutely insane, so insane in fact that it could not be worse!

Highly regarded politician enter ANOTHER EXISTENCE where they face a form of punishment they could never imagine whilst still living on Earth. One might feel sorry for them, but they never pitied anybody on Earth and they never contemplated just what they inflicted on INTELLIGENCES of a HIGHER LEVEL of CONSCIOUSNESS. This otherworldly horror – you can call it hell if you like – was *not* created by the LORD. This horror is *self-inflicted*!

I know that there are a lot of sinners that will think that my words are a short treatise. They however have no respect for so-called short treatises. My words are not a tract, but the words of my LORD, who is also your LORD, it matters not whether you are prepared to acknowledge HIM or not, HE will remain your LORD for ever and you will be HIS servants forever. The LORD however ordains over his servants. HE gives them everything they require to exist, but HE can also take everything away from them.

Your scientists search and search; but when they encounter divine DOMAINS, for instance man's soul, man's consciousness or the survival of the ego in the hereafter, they dismiss it or they search for lame excuses in order to prevent the TRUTH from reaching the light of day. This is also pure nonsense, because one has to take the damage done to the soul into consideration, it has fallen prey to this nonsense.

- *There is no greater superstition on your planet than the belief in the non-existence of the spiritual realm.*

Most academics and politicians are addicted to this superstition, this idolatry. They have no idea just how far they got stuck in their ignorance. We are affronted.¹

I know that there are a lot of wiseacres out there whose skin smells so abominably that we, the SANTINER, have to avoid them. These wiseacres deride those people that believe in us and with desperate efforts support us. Why does ASHTAR SHERAN approach spiritualists and not the pope or the president of the United Nations? – Why does ASHTAR use a psychic medium in order to say something that concerns all of mankind? –

- I say to you that we *prefer a pious* circle to an atheistic congress.

Even though most people regard citations from departed souls a nonsense, we have for millennia been far better informed. This spiritual circle has received a lot of doctrines from eminent SPIRIT TEACHERS. This was the reason why we *preferred this* circle for conveying our messages. It isn't just messages from departed souls that gain prevalence here and now, the spirit of the living also talk to you. We are also made of flesh and blood, but physically (materially) *not quite* on the same FREQUENCY as you.

- *The more spiritual a person is, the closer he or she is to GOD'S SPIRIT. Only the spiritual is of real permanence. Only the spirit is of uttermost importance within life's whole existence.*
- *More important than man himself is his soul.*

With dismay we had to observe just what the churches of this Terra turned FAITH in GOD into. They *totally falsified* the august TRUTH and they filled the tiniest of gaps within this FAITH with their embryologic, human thoughts. Not one church on this Terra is capable of giving a *true* answer in regards to questions about death.

- *Your MESSIAH did resurrect, but this MESSIAH did not accomplish a unique miracle. Every adept is capable of doing so. Every human being continues to live in the spirit.*

This insight is the most important formula of your whole existence! – You will not find peace without this formula; because death will *grasp everything* if one is inclined to believe in death. Life however will *give you everything*, if you believe in life.

- *All of you are little SPARKS from within GOD'S enormous INVENTORY. This INVENTORY is eternal – and every SPARK that stems from this RESERVOIR is therefore also immortal. If one was able to extinguish the existence of such a SPARK, GOD'S existence would also come to an end. All life throughout the universe would come to an end instantly and forever.*

Due to their arrogance, your scientists are unteachable! Everything bounces off them. – Your leaders endeavour very hard to deny the devils existence. As one is already in the process of lying, one also denies GOD, because he is *spiritual, intangible*.

- *You are also incarnated, spiritual beings. You unfortunately realise this fact only after your demise.*

¹ We find it difficult to publish ASHTAR SHERAN'S words literally this time around, but we are beholden to the TRUTH.

As one likes lying so much and as *we are also* part of the divine INVENTORY, one also denies our existence. But we possess more patience than you. We are prepared to wait for the point in time when you absolutely cross the boundaries. We have tried in various ways to attract your attention to our existence. Your despots however are strenuously preoccupied with hushing up all evidence.²

We now know that our signals were received. We however also know that the communistic regime immediately demanded that these messages be disclaimed. This didn't surprise us at all.

We also know that an eminent Swiss psychologist said that one is dealing with a figment of the imagination here that has spread all over the world. But as this psychologist is a world famous personality, one unconditionally accepts this nonsense, even though all evidence points against this.

This is total nonsense!

We have never encountered such a *cult of idolatry for scholars* and for *leaders* as here on Terra anywhere.³ Scientifically based propaganda is not active on behalf of the TRUTH, it is active on behalf of aberrations. The problem of controlling the masses has been solved, but one controls the masses in a *negative* way.

Mankind on Earth has always been living in dissension on this planet. This is the reason why one has formed the opinion that animosities between nations are *a natural characteristic* of every human being. One even established a political philosophy based on this *alleged* natural behaviourism. I can however tell you that this behaviourism is not natural, but *inhuman*.

- If all of man's character traits *were only positive*, he would *not* live on this planet; he would live a *higher* classification, because there are planets of a higher order out there.

Life on the terrestrial plane is *not* GOD'S PUNISHMENT, but the LORD'S GRACE, as life within the otherworldly regions would be an *even worse* situation.

- It is up to every individual person to rise above this terrestrial plane and to take prudent advantage of the GRACE GOD renders.

But what does mankind on Earth know about GOD'S GRACE? – A few years ago I was allowed and privileged to report something about GOD'S LEGISLATION.⁴ I am now *once again* in a position to tell you something about this. I feel that this is very important, because your churches, this includes Judaism, have *interpreted* this important process *completely falsely*.

- *One understands that this LEGISLATION is mainly inspiration.*

² On the 13th of April, 1965, Moscow's daily newspapers published an article stating that on the 12th of April, 1965, Soviet scientists intercepted mysterious signals from space. The Soviet astronomer Dr. Kardaschew asserted: "We have discovered a super civilisation". The source of these radio signals is identified as "STA-102".

³ That ASHTAR SHERAN is correct is clearly evident when we look at the Hitler regime, but also in other countries like for instance the Soviet Union or in China.

⁴ See brochure "Veritas Vincit".

Inspiration is however a process that takes place within the human brain. Mankind on this Earth is however not spiritually developed enough *to see* a mental process taking place within a human being as a divine PHENOMENON. This is the reason why all the laws delineated by man are underrated. One therefore does not believe in GOD'S LAWS, because one does not believe in GOD'S EXISTENCE, but only in man's ability to deliberate. This is the reason why GOD'S LAWS hardly have a binding denotation. We are not dealing with prophecy, with inspiration, a voice from the hereafter or human deliberation here, this DECALOGUE was brought to you by our forefathers, the SANTINER. This DECALOGUE is *not just* designated for the people on this Earth, but for all humanities *throughout the whole* universe.

- *This DECALOGUE has therefore also been delivered to humanities on other planets. GOD'S LAWS didn't fall from the heavens, they were transported through space.*

World Judaism has the wrong ideas about this process. GOD has never ever set foot on this planet. Christianity is also wrong when it asserts that CHRIST directly personifies GOD. He was also just an instrument. I am also just an instrument in this respect. But I am *one of GOD'S speakers* just the same. Moses was a student of the SANTINER, namely our forefathers who indoctrinated him on their spaceship. Moses however thought that this spaceship was GOD'S THRONE, something we cannot blame him for. He had no knowledge of space flight technology. This is why he told his confidants that he had been privileged to talk to GOD.

Intermediate questions

Question : The bible states that GOD talked to Moses from a burning bush. What is your explanation for this?

A. S. : One of our spaceships has a *strong light aura* similar to a glowing cloud. Moses could only report what he saw, namely a burning, horizontal pillar of fire. This pillar of fire was quite often observed.

- *It is extremely important that the people on Earth correctly comprehend this phenomenon. Any dogmatic interpretation leads people down the path of losing faith. Those that do not believe this communication can also not believe in the existence of the CREATOR.*

Every law is associated with punishment and penance. The divine LAW is not exempt from this. Philosophy however said that this DECALOGUE was conceived based on political and social considerations. This is not just a mistake, it is an outright lie! – We are exactly informed about this event. We are still the bringers of such LAWS. Yes, we indoctrinate humanities throughout the universe the way we indoctrinate and enlighten you to this day. Communication problems are overcome through telepathy.

- *It wasn't GOD'S intention to indoctrinate and to rescue only the Jewish people. GOD turned HIS attention to mankind on Earth.*

If the people on Earth would really believe in GOD, things on this Terra would be completely different. This planet is however enveloped by the darkness of ignorance. This is why there is murder and mayhem. Our problem consists in trying to demonstrate to you that this faithlessness is a mistake. This is not an easy assignment, because the most august TRUTH can be *twisted and devitalised* through malevolence.

Religious communities are not exempt from this. The fanatic and dogmatic doggedly sticks to his points of view and woe to him that dares to question this. A lot will have been achieved once the LEGISLATION received on Mount Sinai has been verified; a lot of things will *inevitably* have to change. The people on Earth only obey orders when they fear something and this is why the divine LAW must be feared.

- *The LAW of the LORD however doesn't just apply during one's terrestrial existence – on the contrary, is also has an effect after one's life on Earth. The MESSENGER CHRIST solemnly indicated that this was so.*

GOD'S LAW does not only concern man's behaviourism according to GOD'S wishes, HIS LAWS are more than terrestrial laws; they are a part of the laws of nature.

- *He who acts against the laws of nature will face the potency of the consequences.*

It is an unfortunate situation that the most important events the bible transmits have been *intermingled* with the greatest nonsense. This naturally taints the TRUTH. One single mistake in the bible would have been enough to throw the whole thing into doubt. There are however an overabundance of aberrations, mistakes and false interpretations. This is why the bible is *not* a document of the objective TRUTH. It is a mutilated, partially mendacious and illogical book. The churches will not be pleased to hear this. I hope that if they are serious about being tolerant, they will surely contemplate this. Neither GOD nor HIS LAW can be verified with contradictions.

Question : How did the DECALOGUE get into the hands of the SANTINER?

A. S. : This is not an easy question to answer, because you have not enough knowledge about telepathy. Your scientists and philosophers will immediately criticise this, because their attitude is much too negative and they always look for the negative.

You have to know that *my* humanity, that is to say, the human race called the SANTINER domiciled on planet Metharia, have had excellent knowledge about telepathy for a long, long time. We communicate across infinite distances from spaceship to spaceship, from space station to space station and even from planet to planet.

- We have ascertained that, strange as it may seem, telepathy *increases* over *greater* distances, it pulsates and this amplifies its potency. We employ a *technical telepathy amplifier* for *shorter* distances.
- No time is lost, because telepathy is the fastest mode of communication between two points. It is *at least 100 times faster than the speed of light*. Its actual speed cannot be measured.

This enabled our forefathers to entertain contact with the divine HIERARCHY already thousands of years ago. This divine HIERARCHY can be many, many light years away from us. We are in constant contact with them in spite of this. We receive all our instructions from either GOD or one of HIS REPRESENTATIVES in a matter of a few minutes, because we are immediately informed.

- Our forefathers received the HEAVENLY LAW (DECALOGUE) from the realm of the divine HIERARCHY. It's correctness has been verified many, many times over.⁵

Question : Religions assert that ANGELS from GOD'S HIERARCHY are supposed to have appeared on our Earth. Is this correct?

A. S. :

- *ANGELS do not materialise. If a seer has seen them, he has only seen them in their astral state. If a person on Earth has actually perceived a physically solid ANGEL, this person has not seen an ANGEL in the rue sense of the word, but a SANTINER.*

Your bible often mentions encounters with ANGELS, the reality is that almost all of them were SANTINER:

- Lot encountered the SANTINER.
- The shepherds in the field near Bethlehem saw a SANTINER and there are many more cases like that.
- Your sagas report about Gods that came down from the heavens. Here again we are dealing in most cases with encounters with the SANTINER.

We have always tried to entertain positive contact with mankind on Earth. These contacts were however *doubted* and *abnegated* over again. Reality was turned into sagas or declared pure fantasy. We hope that the time is finally ripe when one will correctly comprehend who we are.

ASHTAR SHERAN continues:

We are not too pleased about the way students are taught at universities and academies. Their methods considerably inhibit the student's free capacity of discernment. The phraseology used by scholars is unnatural and stilted, respectively garbled. It is only natural that the scholar's phraseology and behaviourism is transferred to the students. These immature young people find pleasure in the way they are taught and they feel that they are a cut above the rest of their fellow men.

- This results in an unnatural, arrogant class of people *that loses direct contact with their fellow men.*

Experiences and insights gained by the general social classes are not heeded by the academic fraternity, even if we are dealing with the most eminent of TRUTHS. A student is not allowed to voice any other opinion but the one prescribed. Those that exercise a different critique on the lectures given will fail their exams. This *doesn't* turn a classroom of academic intellectuals into a *truly* progressive class. Only a few can raise themselves above this viscous circle. All academic faculties relegate humaneness *to the back*. Transcendental aspects are *completely* dismissed. Only a few exceptions gradually push to the front.

⁵ In spite of years of discrimination, telepathy is now scientifically recognised. The Soviet Union also continuously conducts such experiments. As ASHTAR SHERAN'S explanation clearly indicate that this field of knowledge still offers unforeseen opportunities.

The educational materials of politicians come from the same source. There is hardly one politician that is interested in religion even if it is their family's tradition to belong to such a community. In as much as they try to orientate themselves, they reach for negative learning materials, namely atheism whose definitions finds ready acceptance, *because it helps them to appease their conscience*. Positive religion however can also not answer their questions, as the evidence remains hidden.

As we have observed this for many years, nothing remained hidden from our gaze. The world situation *verifies this inability*; because one does not find any other solution but to apply force. As I am already talking about atheism, I might as well emphasise that theistic religion also contains a fair portion of atheism, because all the pious fuss within it is part of it.

The leading stratum of society are of the opinion that death extinguishes man's consciousness forever. These people hold onto this thesis with an iron grip. They indignantly, well actually arrogantly, reject any other explanation. It therefore comes as no surprise that this terrible aberration impacts on all their decisions. One leading politician made a name for himself by admitting openly that he regards GOD to be a superstitious fantasy.

We place the greatest importance in the conclusion that a GOD exists. We also place importance in the fact that *every* human being throughout the universe possesses an imperishable existence, one that runs through many different phases. Amongst them is a conscious phases of a spiritual existence wherein one *has to give account* for all one's thoughts and actions.

The churches established a series of dogmas that do *not help* mankind; they rather lead towards an abyss. One of these dogmas refers to a "Day of Judgement" and "Resurrection". One does not have to spend a lot of time discussing the "Resurrection" of the human soul with its consciousness at all; it is as certain as physical death. The "Day of Judgement" however plays an important part, because:

- *The so-called Day of Judgement is the last day of one's terrestrial, physical existence.*

This is a clear cut fact. I cannot comprehend how one can come up with the idea to put this day at an absolutely indefinite point in time. There are cases where the dying do not perceive that they are evacuating their material body. The perceptions of their consciousness remain unchanged.

The medical fraternity fall prey to a whole series of deceptions. They therefore assume that one's consciousness is located within the human brain; they believe that the brain *gives rise* to all thoughts and that it registers and stores all perceptions.

This however is a dangerous aberration!

This is where the cause of atheism is to be found! I therefore assert that medical science bears the full blame for the rise of world atheism and political differences. Researchers verifying that the opposite is true, namely that man has an astral soul, are *viciously attacked* and dismissed in a most unfair way. I will select just one crass example of a medical contortion:

- Every amputee still feels the limb he physically lost. He feels the limb of his astral soul. Every nerve is present. Physicians explain this phenomenon by asserting that we are only dealing with

memory here, an echo of one's senses. Those aware of the TRUTH would have to laugh, - if the consequences weren't so dire.⁶

The broader masses within nations assume that a scientist with a doctor's degree is, based on his academic education, is able to think more logically and more reliably than your average citizen.

This is another world wide mistake that has dire consequences.

If such a scientist studied only *some of these mistakes* thinking that they were the truth, it is enough to taint his judgment in regards to a lot of things. Universities however do *not only* teach the truth, but with the same kind of earnestness also mistakes.

- *Respect for universities is however a heavy encumbrance in regards to logic.*

It neither depends on the name nor the title, but solely on the knowledge that is confirmed through experience. This also applies to every type of political leadership. GOD does not elect any political leadership otherwise things would look entirely different.

- *Free will allows man to commit any injustice.*

Man must protect himself against injustice by himself. No prayer will help here. Only *positive inspiration* can help to some degree. The way telepathy exists between people, telepathy also exists between spirits or between spirits and human beings or the other way round.

- *A human being can be inspired by another human being that lives somewhere else. This human being can however also be inspired by a spirit being or by a SANTINER. This is the reason why we are indefatigably active in order to inspire those that bear responsibilities in regards to terrestrial mankind.*

I do admit that the rest of your scientific and technical progress is significant. But mankind has *not made any progress* in regards to spiritual issues. An enormous number of religious mistakes still exist. These mistakes also exist in the fields of mysticism and politics. – I also have to say that terrestrial man's spirit is *underdeveloped*. Signs of redemption are *nowhere* to be seen even though a life on Earth is supposed to *serve* man's redemption!

We are confronted with racial hatred in the USA. Some within the white race are of the opinion that the coloured race is an *inferior* race and that it therefore cannot assert a claim for humane treatment. If one would admit that one is actually dealing with equal human beings, one would also have to admit that one has dealt *inhumanely* with members of another race. Ergo, this is therefore not allowed to happen.

Injustice is defended and this with means that only baser human would apply.

Where is the influence of an academic title *here*?

Where is the logic in this?

⁶ Soviet experiments have verified that human thoughts exhibit no trace of magnetism or electricity. They penetrate any type of shield and do not display any physical characteristics.

No utopia

GOD'S realm within the spiritual spheres is *no* utopia. Ignorance is to blame if the major religious communities of this humanity are unable to sufficiently underpin this assessment.

We have been called upon to put an end to this ignorance. We will not follow the examples of terrestrial politics *to begin with* by applying force. We will abide by the law of humanness. But do *not force* us to defend ourselves, because this could have dire consequences for you. This line of argument would be our last resort.

Your *interpretation* in regards to religious matters is *atrocious*. It is marred by incredible egotism. The major churches will resent me saying this, but the TRUTH demands that I am open about this:

The dogma : GOD sacrificed HIS SON JESUS CHRIST for mankind.

The TRUTH: GOD'S OMNISCIENCE and LOGIC, that is extremely forward-looking, would have known what was in store for the MESSIAH JESUS CHRIST. GOD would have had to save him, like everybody is obliged to save somebody from dying. But *all other people* are also GOD'S children.

GOD'S OMNISCIENCE however does not save anybody from dying, even if they are about to be criminally killed. GOD looks on through the eyes of HIS spiritual REPRESENTATIVES. HIS LAWS catch up with *all those* that committed an outrage once they enter the LORD'S DIMENSION. (Death)

This dogma gives GOD the hallmark of a *cruel* FATHER, who allowed HIS SON to die in order to forgive criminals their crimes. This dogma can only produce disrespect for GOD. Ergo, a dumb, illogical GOD, one that only *the dullness* of a *fanatical* could invent.

Intellectual people who only deal *occasionally* with religions must balked at this nonsense. The result is that they distance themselves from religions and generally lose interest altogether. As it is, the bible *cannot* be accepted.

- There is no redemption through the shedding of blood in any shape or form!

Our forefathers *highly reprov*ed the blood shedding caused by the Israelites. An animal can also not affect conciliation with GOD. Only man's character is able to do so, even if it does *not* believe in GOD. – The fact that a heathen with plenty of character has a *better* prospect of ETERNAL LIFE than a pious hypocrite or religious zealot is no utopia. Religious egotism consists in that one asks of GOD to forgive sins that have been committed deliberately and out of pure egotism. What does one do with these people? Is GOD supposed to react to their pleas and allow them to enter heaven?

- *Heaven, the way you imagine it, is utopia!*

There are indeed spheres where harmony reigns, but they are *not* places of eternal rest. There are places on Earth where people's bodies rot away, but the flesh does certainly not rest there. But man's disowned spirit resurrects and finds itself mentally and consciously active.

- *How horrible do you think a situation is when one looks at one's deeds on Earth from this perspective?*

The dogma: GOD is everywhere, in all things also.

The TRUTH: GOD is located at a place within the universe that nobody from planet Earth can reach. No terrestrial *soul* can approach HIM. GOD has HIS REPRESENTATIVE in charge of Terra. GOD also has HIS REPRESENTATIVES for other inhabited planets. HIS PRESENCE represents the LAW. If GOD is omnipresent, capable of looking into every nook and cranny, HE does so through HIS HELPERS, through the SPIRIT BEINGS that have qualified to do serve HIM. There are an incredible number of these BEINGS around you and they observe you and they are telepathically connected with your thoughts.

- *If GOD is in all things, we are not talking about GOD, but about HIS ENERGY. – This ENERGY has nothing to do with HIS CONSCIOUSNESS; because GOD is a sentient and sensitive PERSONALITY, an eternal BEING.*

Man on Earth balks at the word “eternal”. Man is incapable of imagining eternity. This is however a shortcoming in man's education, because he lacks the respective experience. Man cannot remember anything eternal, only certain details of his childhood. But being able to live for one second, he is also able to live for an eternity, but not within the same physical body.

- *Eternity is dependent on memory; it can only be comprehended through memory.*

Religion on this Terra is not interesting and diversified enough. One has only given it *lopsided* attention. One only adheres to the letter of the word. The world however offers *more* and this is the reason why the experience (life) this world offers is more interesting, even if you have to deal with war and crime. Religion cannot compete against a crime story. The genuine TRUTH is however *much more interesting than you guess* in spite of this. The universe has unimaginable miracles and enchanting opportunities on offer, physically as well as spiritually.

What do you know about GOD?

You only imagine an old man who can do conjuring tricks and who is very benevolent, well actually simple minded, because he loves the greatest of miscreants and digests all blasphemies. Bless my soul, what kind of humanity are you? – This is a hard nut to crack for us and it brought about CHRIST'S demise.

Where on Earth did religion really make an effort to understand GOD and to defend HIM? *Most* people on planet Earth who have proclaimed the TRUTH have been persecuted and *murdered*. Even those that do good deeds for their fellow men are disregarded and maliciously persecuted.

All of this bears witness of a *very low* level of development, because in one's assessment one has to take the masses into consideration and not the individual few.

Political interests of coercion reign over the interests of the TRUTH. *One thinks that GOD competes against governments*. This point of view was already advocated when CHRIST was convicted. We waited for over 2,000 year for an improvement. Progress within the *general* development has indeed come about, but the *spiritual* attitude of people has *not* changed at all.

When it comes to their obstinacy, political leaders are quite resolved to risk the greatest war of all times.

The LORD has up to now avoided the issue. We are however *not* of the opinion that this attitude is GOD'S normal attitude. You can also not find solace in believing that GOD does not exist. HE exists *just the same* and you cannot heedlessly ignore this fact. Those that doubt are beyond help; otherwise CHRIST would have been a liar. *He prophesied the cleansing of the Earth – and HIS prophecy will be fulfilled in the foreseeable future.*

We *play a part* within this fact. This is why we cannot warn you often enough to take our messages *serious*. The preparations are so real that millions of people are already dreaming about them, because they were able to foresee and telepathically grasp this event. Your psychologists will not find an explanation for this dream phenomenon..⁷

The nations on Earth *depend* on mediums of publication. These mediums of dissemination in turn *depend* on governments. This is the reason why the masses are *never correctly informed* when it comes to revolutionising things. Governments hold the point of view that one should not tell the masses everything governments know.

Our *tolerant* attitude gives the false impression that we are no match against the military forces of the people on Earth. The USA for instance believes that the Soviet Union would immediately assist them if an attack from space were to take place. The Pentagon has no idea about our weaponry and our strength. We hope that we don't have to exercise this strength, we are well aware of .

Interposed questions

Question: Why is this strength not demonstrated as a warning, as is the case with manoeuvres?

A. S. : Such a manoeuvre would only alarm the people on Earth. One would live in fear from then on, expecting something terrible to happen at any moment. One would remember Sodom and Gomorrah.

Question : The WW2 claimed 55 million lives and 35 million wounded. Apart from this are 5 million missing persons and they are surely also dead. As MISSIONARIES of PEACE and possessing the MIGHT to defeat terrestrial despots, do you feel responsible *for allowing* this bloodletting to take place?

A. S. : This question is asked from *your* perspective. The whole thing looks different from *our* perspective. More KNOWLEDGE is required to understand this situation correctly. I will try to give you some clarity about this: This planet is *a planet of redemption*. Those incarnated on this planet possess a spiritual grade that is *not particularly high*. A physical life lived under terrestrial conditions ought to lead to a higher LEVEL. Terrestrial man ought to learn *to live peacefully* amongst his fellow men. Even though man on this Earth learns many things and occasionally develops his genius, *character* and *morality* lag behind.

⁷ Professor Jung explained that UFO sightings are the product of an anxiety neuroses. It was the masses's fear of the end of the world.

- *Economic and technical success alone is not decisive in regards to the maturity of a person.*

This is the reason why we studied the causes of this immaturity. We endeavour to help you in this regards. The resistance we encounter is however *quite severe*.

- *Life and death are therefore not as decisive, because spiritual maturity is not affected by it.*

Whether a person on Earth dies sooner or later, whether this person is killed in a war or becomes a casualty of a natural disaster *is irrelevant*. The people on Earth return to a life in spirit in most cases *unredeemed* character wise. This situation would be akin to having the whole population on Earth dispatched to the otherworldly regions *all at once*.

- *This is why we see no reason to arrest or to prevent a total annihilation of mankind on Earth.*

But GOD has an antagonist – and he would rub his hands together if he were able to destroy part of GOD’S divine CREATION. This would be a victory *for him*.

- *This would be rather more of a reason for us to prevent the global destruction of the Earth.*

But the main cause consists in the intention of *redemption* so that Earth’s objective can be justified. A life on Earth should *not solely* serve one’s physical development; it should also make you spiritually more mature.

- This spiritual maturity can however *never* be achieved through an advancing atheism or through mendacious, overtly pious behaviourism.

Of the 55 million people who died during the last Great War, about 54 million of them did *not* register any redemption of their soul. They returned to the spiritual realm the way they were *before* their incarnation. They learned to *fight*, learned *languages* and possess some knowledge in regards to *technology* and *the sciences*, but in regards to religion, they have remained completely in the dark. If these 54 million casualties had remained alive, nothing much would have changed within their ranks in regard to redemption.

Let’s assume that this war had claimed *two billion* lives; that would have been nearly two billion people that would have entered the divine REALM *unredeemed*. The same situation would also have existed if these people had *gradually* died from *natural* causes.

- I have now clearly indicated that completely *different things are of importance* than a superlative mass exodus of souls during a terrible war.

Every human being that dies due to an accident, a bullet from a rifle or a bomb, returns to the spiritual realm with their soul *intact*. They can return to Earth again within a few years in order to make a *new* attempt at redeeming themselves.

Mankind on Earth however experiments in a most dangerous fashion with the original forces of the universe. Nuclear bombs are *far more dangerous* then just causing an ordinary death. This type of death *tears the soul* into a thousand pieces. This is a mental cruelty we find no words for.

- *The soul, representing a divine SPARK, cannot be completely extinguished, but it can be adversely affected. The pieces of such a soul will gradually reassemble over many, many years. A great mental shock will however remain for many, many years.*

This is where the people on Earth commit a sacrilege that could not have been planned more devilishly. The Americans proved that they also have the freedom to sin. They are *no exception* in this regards. The first detonation of an atom bomb is proof that they are prepared to risk the welfare of planet Earth. The dropping of an atom bomb on the civilian population of Japan is further proof that they regard *any means* justified, if it serves their purpose. Even though the Americans do not avow to communism, they still act in many way the same.

- Democracy is an ideology that has *not yet* encountered the required maturity on Earth. Communism also does *not* possess the maturity to be a *real* communism and nations do *not* possess this maturity *at all*.

One also doesn't make any attempts to create a *new* ideology that pleases both, communism and democracy. Such an ideology is absolutely possible if one endeavours to extricate oneself from old habits. The present political guidelines are *impractical* and this is verified by the current world situation as they now only represent *a threat* to mankind.

- *We can not yet interfere! Not even GOD would interfere, because no advantage could be gained. The deliverance from these shackles cannot come from the outside, it must be initiated from inside.*

We endeavour with all possible means to guide human thought processes in *other* directions. All of mankind thinks back to front, because it is falsely instructed. The TRUTH is lacking. Only when mankind begins to think differently will logic come into play. Logic is presently inhibited even though on *surmises* to be logical. As the population can unfortunately not think more superior than their leaders, the population can also not assess the things their leaders actually do wrong. Discernment and KNOWLEDGE is lacking right across the board. GOD however gives you the KNOWLEDGE you lack here, *in this way*.

Mankind on Earth is of the opinion that the word “impossible” applies to a lot of things. – We hold a different opinion, because the things we regard utopia to day, may be possible tomorrow. There are therefore practically no utopias. If one had told people 4,000 years ago about all the things you have today, one would have regarded all of this without exception as impossible. *Utopias have become reality*. Today's generation's fantasies are certainly realisable. This is why we absolutely cannot understand why one doubts our existence. Why can't one comprehend that we travel beyond the speed of light? – Why does one doubt the possibility that dematerialisation exists?

- *There is no utopia. Everything is possible, if one knows the way to realise it.*

It isn't for instance utopia that we, respectively our forefathers, brought the LAW of HEAVEN down to Earth. The handing over of the LAW of HEAVEN took place on Mount Sinai. I have indicated details about this once before in the past. If the handing over of this important event didn't take place conspicuously enough, then it is mainly due to the technological ignorance of the people at that time. What could they have known about spaceships travelling through space? – As far as Moses was concerned, the spaceship was “GOD'S ABODE” and the rest of the crew “HIS ANGELS”. The siren was the “divine trombone” and the ships antigravity was GOD'S promise to

“put anyone to death” that crossed a certain line. All of this is so simple and so easy to understand if one is willing to use one’s mind.

You have enough technical experience to *correctly* comprehend the LEGISLATION received on Mount Sinai. There is absolutely no room for doubt here, because any doubt would indicate mental derangement. He, who doesn’t comprehend this plausible LEGISLATION, also does not know how a car is steered and unaware of the energy that moves it.

There is however also an *evil will* that *prevents* comprehension. Generally speaking, these people are not dumb; there are even some very famous authorities in politics and the sciences amongst them as well as people in the field of theology. This evil will is like a blinker for spiritual eyes. People do *not want to know* the TRUTH, because it *perturbs* them *personally*.

Atheists doubt GOD’S COMMANDMENTS. They deem it impossible that GOD talked to a human being on Mount Sinai amidst thunder and lightning. These atheists are correct in some respect: GOD actually did not appear in front of Moses, otherwise HE would also have appeared in front of CHRIST, particularly when CHRIST was about to die. But HIS MESSENGERS, our forefathers, had a mission to fulfil.

It isn’t absolutely necessary for the highest boss of a concern to personally bring his messages and ordinances to his workforce, particularly if he is otherwise engaged, otherwise the whole factory would come to a standstill. – This isn’t any different with GOD. HE also has HIS executive ORGANIZATION. HE himself, is *otherwise engaged*, otherwise the whole universe would stand still. I ask you: “Is this something that is not possible?”

- *GOD’S LEGISLATION is no fairytale, no myth, no superstition, no human fantasy and no pontifical babble. This LEGISLATION, even though it only came to you through GOD’S MESSENGERS, is a SACRED AFFAIR, it represents the objective TRUTH in its highest potential and it is absolute proof of GOD’S EXISTENCE, a personal GOD indeed, able to think and to feel, to see and to hear, well, capable of apprehending all thoughts and intensions telepathically. But HE has basically HIS innumerable REPRESENTATIVES for everything. You too can one day be one of HIS REPRESENTATIVES if you want to.*

Your and also our spaceflight endeavours verify that the biblical accounts of the event that took place on Mount Sinai completely complies with the TRUTH; it matters not whether GOD or HIS REPRESENTATIVES were present: GOD’S LAWS are designated for mankind on Earth. If you therefore believe that GOD cannot be verified, you will find that at least the deliverance of HIS LAWS can be verified. Subjective evidence is also valid. I will once again recount the most important characteristic of these facts:

- *The Israelites saw a fiery cloud moving in front of them. This pillar of fire hovered horizontally. This pillar of fire did not hover vertically as Jewish theology assumes. There is no mentioning of a vertical pillar anywhere. This pillar was one of our spaceships, that is to say, a mother-ship. Their aura of light can still be observed on all our flying objects by you.*
- *The material of the spaceships under our control consists of a glass-like mass that is harder than your normal glass. The colour is similar to a Nile-green. The bible describes its appearance as being similar to chrysolite.*

- *Antigravity is so powerful that the landing must take place on solid rock. Our spaceships of this size land on Mount Etna or similar mountain these days. So as not to suffer any injuries, the Israelites were advised to stay beyond a boundary, crossing this boundary could be life threatening. A siren of great sound intensity warned the people from crossing the indicated boundary. Moses could only cross this boundary after the gravitational force was switched off. He received an appropriate signal. There was neither thunder nor lightning, only the din of the spaceship and its alternating aura of light. When the antigravity field was switched on, the Israelites fled in all directions filled with fear and terror. They were of the opinion that only GOD could blow a trombone with such might. Moses also personally believed in GOD. Under the influence of powerful antigravity, the rock is geologically repolarised.*
- *Our forefathers did not participate in any of the Israelite's battles. They did however part the ocean, stop the river Jordan with the help of powerful rays and guide the Jewish nation in the right direction. GOD did not give away land! The Earth represents a homogenous home for everybody.*
- *The radiation forces of our mother-ships are a lot more intense than that of smaller flying objects. This is the reason why powerful whirlwinds develop underneath spaceships. We can however deflect the air in other directions. The water of the river Jordan was pushed back with the help of powerful air pressure. The same thing happened when the Israelites passed through the Red Sea.*
- *The bible reports about great plagues. The plague of locusts came about because the spaceship created such a storm with the help of antigravity that all the locusts were blown in the desired direction.*
- *Darkness is created through a change within light molecules. We can also produce this phenomenon, even though it is more difficult to achieve. We produced this phenomenon when CHRIST was executed; we also triggered the storm that was of great tempestuousness.*

As you can see, we're *not* dealing with *supernatural miracles*, but with the intervention of divine MESSENGERS that have some significant technology at their disposal. If the churches want to continue to ignore these facts, they will find that atheism's ignorance will overrun them tomorrow or the day after tomorrow. Where will the people find the TRUTH, if it *isn't offered* the TRUTH in the first place? – We have allowed the winds to blow from the east and eventually from the west again according to our wishes in order to impress people: Exodus: Verse 19: And the Lord changed to east wind into a very strong west wind, which picked up the locusts and blew them into the Gulf of Suez. Not one locust was left in all of Egypt.⁸

Question : Why isn't it possible to show communism a number of miracles in this way that would be appropriate in regards to educating atheists?

A. S. : This would certainly be possible nowadays, but one did not have rockets or fighter planes in the past that could have interfered with our intention. The situation looks completely different theses days. Combat missions would be in full swing the moment

⁸ The adjustment of the bible is of such an enormous importance that every reader must make the greatest of effort to disseminate it, if they still feel a spark of responsibility within. The "flying saucer" phenomenon is *not* about technology and *not* about science; it is about a divine PROBLEM, namely about UNIVERSAL PEACE and the coexistence between nations devoid of brutal fratricide.

such a phenomenon would take shape. We can therefore only operate at great heights. Aside from this, we want to avoid everything that could portray us as enemies.

Question : If this is the case, we have no hope of support. Can we hope for a solution at all?

A. S. : We hope that a solution will come through *the acknowledgement* of our messages. We would like people to believe every word we say. I don't mean the absurd and sensationalistic stories published by most imaginative writers. One surely cannot confuse such stories with our messages!

Our messages are still insufficiently disseminated. It begins with one stone starting to roll, but it must turn into an enormous avalanche. If this should not be possible, as disbelief is preferred, it will have *dire consequences* for you either way. It might end up in huge mass murders and this is something we would have to try to prevent. But it might also ensue that we intervene from within our own initiative so that no nuclear contamination will take place. This battle would also be a very severe. But one thing is certain:

- *Whatever happens, we will be the victors. GOD cannot be defeated and we are HIS WARRIORS.*

Question : Atheism is the religion of communist countries. This does not surprise if one looks at the churches behaviourism. Atheism has therefore sufficient financial means at its disposal. How can we remedy this evil?

A. S. : A religion that absolves a person from responsibility in front of a higher JUDGE after that person's demise is a last straw that everybody is willing to grasp. But such a religion is only a piece of straw and not a life belt. What we offer mankind is a life belt it can depend upon. We know that our friends on this Earth work their fingers to the bone to disseminate the TRUTH. We cannot offer you any financial support. We can only offer you the TRUTH. Everything else is left up to progress. We presently still trust this progress.

- *Communitistic atheism will also have to abdicate, because the TRUTH will not allow itself to be held up.*

We are only surprised that the churches are so narrow minded that they do not recognise the TRUTH. It is *their duty* to primarily work on behalf of the TRUTH. This is their assignment, their sacred MISSION, the way it is also our MISSION.

Misapplication of knowledge

A doctor has to swear the Hippocratic Oath, promising *to respect and to maintain life* under any circumstances.

This is a wonderful oath, but unfortunately one that *does not* find general observance.

The situation with scientists or with technicians or politicians looks completely different. These people do *not* have to swear an oath promising to respect life. These people do *not* break an oath when they make decisions that are *detrimental in regards to life*. The results of this sin of omission can be seen everywhere. A politician swears by the constitution; but this oath is really completely different to that of a doctor, to that of a helper of mankind.

All of us here swear such an oath and we do so *gladly*. This is one reason why we look upon mankind on Earth as a very ill patient. We are *obliged* to help you, even if we have to make some sacrifices.

Due to the fact that your technicians, your engineers and your nuclear scientists do *not* have to swear such an oath, they cannot be made to account for any perjuries they commit. Politics supplies them with a direct assignment to invent something that can *wipe out* the human race at the press of a button. As they are not doctors or theologians, they employ all their ambitions to fulfil this assignment; because the more successful they are, the more convinced they are that they are intelligent, they want to be *negatively prominent*.

Many amongst them actually do possess a good intellect. GOD endowed them with a great mind. They do however not give this DONATOR a thought, but believe that they made *their own contribution* in regards to developing their own mind.

Theology has up to now not balked at the idea that one *accused* GOD of enormous fiendishness. According to the bible, the PRODUCER and SPENDER of all that exists is supposed to have strangled all first-born in Egypt: Exodus 12 verse 29: At midnight the Lord killed all the first-born sons in Egypt, from the king's son, who was heir to the throne, to the son of the prisoner in the dungeons; all the first-born of the animals were also killed.

This is truly a negative communistic means of coercion one *endowed* GOD with.

Who can trust GOD after this, who can still love HIM if HE is so cruel that HE kills HIS own CREATION?

If the people of Egypt did allegedly flee filled with horror and calling out: "We are all doomed!" I would have to say that all of us would in fact also be doomed, if this was correct.

- If theology regards the bible part of its most eminent knowledge base, we're dealing with the misapplication of knowledge. Logic would surely have to act like a broom sweeping all this manure from the barn.

One present day scientist is experimenting with death and he would like to get it under his control down to its most detailed opportunities. He did *not* swear an oath and is therefore *not* obliged to account for his actions. The means he comes up with are *utilised* by his client who then assumes to have the approval of the whole populace *without* asking it in the first place. This is what one calls the "a population's free expression of will". –

This is also a *misapplication of knowledge*, because this knowledge stems from scientists, but it is abused by ambitious, obstinate politicians.

Politicians might swear a sacred oath, but only on behalf of their *own* people, their *own* nations. They unfortunately do *not* swear this oath on behalf of the rest of mankind.

Is this a humane, a responsible oath?

All political measures are only taken on behalf of one's *own* country and not on behalf of all of mankind. One arms oneself against misanthropists, but the dangers faced by mankind come from a completely different direction. Ignorance, ungodliness and uncharitableness are *the real* dangers, but they are completely ignored.

- *Every person on Earth that does not make an effort to promote his or her redemption is a lost soul.*

Most people are unaware of what this means. They know *absolutely nothing* about their soul! Man's human existence has and had an infinite number of LEVELS to accomplish. Some of these are positive LEVELS and some are very negative LEVELS.

- The luxuries of this world are *no* yardstick. People living in luxury now might end up experiencing the kind of misery after their physical demise no human being on Terra could possibly imagine.

You are well aware of these facts. There is certainly *enough* literature available to inform oneself. But there is unfortunately no interest in this literature whatsoever. Everybody only wants to have a car, a television, a washing machine and six numbers in a lottery. The things that lie beyond this boundary are uninteresting and remain unquestioned.

Interposed questions

Question : Is the disinterest the result of the general belief that there is no supernatural existence?

A. S. : This disinterest *is promoted*. The science's representatives discriminate against all such insights. These insights are abhorrently criticised even when they stem from notable authorities. People willingly accept this kind of discrimination. Completely inexperienced journalists in regards to this field of knowledge in particular make sure that these rejections are disseminated. This is an extremely unfair behaviourism of a science that still has things to learn. This is more than just intolerance!

Psycho-science does not allow itself to apply such unfavourable criticism and defamation in regards to the empirical sciences. Scientists gather in order to defend their mistakes with unfair means. This sort of thing doesn't happen with psycho-science, because it is religious, that is to say, it has a theistic attitude.

This discrimination also affects us. Everything that is publicised in regards to us is dragged through the mud by the academic sciences. Students are incited by lecturers and professors to rebel against all such publications.

It isn't always the students *own* point of view that is expressed during a student rebellion. It is in most cases the point of view of lecturers and other kinds of academics who use their pupils to reach the public's ears. Scholarships are wasted, because it isn't the student's task to deal with these things. These people are immature and they should *learn something first* at these institutions. Their opinion is therefore

also immature, because they lack experience. But as a mob they feel strong, particularly if they have been incited to rebel by their tutors. Young people are hot headed and easily influenced. They are involved in a politics they still fail to understand. It would be better to acquaint these young people with the TRUTH; they might even *understand it better* than their lecturers.

Air Marshall *Lord Dowding*, of the Royal Air Force, used a medium in order to make contact with the “dead” during WW2. He was successful! – He did not keep the fact that his decisions were made with the help of “dead” pilots a secret. He admitted this fact in the British parliament. This gentleman had the required courage.

But what remains of this fact?

Is this fact taught at universities?

Are nations informed about this?

What does the world at large know about spiritual activity in South America?

The TRUTH is treated like a secret science. Mankind is *warned* that it is supposed to be dealing with superstition here. Do you believe that my solemn words and explanations have anything to do with superstition? –

But this theme gets even worse. Scapegoats are found within one’s own ranks. There are so-called “experts” that feel completely at home within the psycho-science. They write in their publications that they are sick and tired of this fraud and that they are in a position the write such protocols themselves. Who then is still willing to believe in spiritual things when these “experts” are not interested and if they assume that they are dealing with fraud? They also cannot differentiate between the genuine and the apocryphal.

And this has brought us to a critical point. It is basically about an extremely difficult assessment, namely deciding about what is genuine and what is fake?

- A layman for instance finds it impossible to distinguish between a genuine and a synthetic jewel.
- What does the layman know about the various types of wood, even though he encounters them all the time?

It is *a lot more difficult* to distinguish between a UFO and a star. It is even more difficult to comprehend what an invisible spirit is all about. All of this requires *great expertise*.

- What does a spiritual circle know about life on another planet if it never entertained contact with a real BROTHER from the STARS?
- What does an occult writer know about extraterrestrial space travel if he never had contact with a SANTINER?

- What does a normal human being know about what a medium experiences?
- What does a doctor know about the soul if it has always been explained to him that there is only a brain to deal with?

You can see just how difficult it is to assess the TRUTH. One should never flippantly dismiss the things one only has superficial knowledge of, but try *to procure more certitude* about it. This step however demands open mindedness. Most people are unfortunately incapable of such open mindedness. We have a major point of focus here and it caused the present world situation.

- *The obstinacy in regards to the prejudices instilled in people is to blame for the collapse of all theistic religious denominations. There is not one theistic religious denomination that does justice to the TRUTH unless we're dealing with the DOCTRINES of those souls that have received the ASSIGNMENT to instruct.*

We endeavour to support otherworldly TEACHERS in any way possible. They need us, because they are unable to accomplish this on their own. We are the link between the visible and the invisible world. We occupy a *physical intermediate stage*. We are closer to GOD than any human being on Earth.

- *Those that want to know the religious TRUTH must turn to GOD'S world of spirits. It alone possesses OBJECTIVE KNOWLEDGE. This KNOWLEDGE that is handed on to you is abused by you in the most horrid way.*

We keep an eye on you so that injustice does not become rampant.

Question : How could injustice become rampant?

A. S. : When atheism spreads to such a degree that it robs people of all reverence of CREATION. This implies that people will also lose all reverence for their fellow men that are *also* a part of CREATION. An opposing polarity still exists, but once this opposing polarity has been overrun, a point in time will have arrived where Terra will no longer play a significant role in the hands of atheists. GOD will however know how to prevent this; we are absolutely convinced about this.

GOD is not a secret (By ASHTAR SHERAN)

Exodus 20, 1 - 3: God spoke and these were his words: I am the Lord, your God who brought you out of Egypt, where you were slaves. Worship no god but me.

Your bible bears a significant part of the blame for the atheism and the dialectic materialism prevalent on this curious Terra.

So-called atheists are not always asinine people. There are even some smartypants amongst them. Their back to front thought processes are the result of illogical Holy Scriptures. – Their relatively sound mind is reluctant to accept all that's completely illogical within the bible. One cannot blame them for this, because these people do not want the illogical explained in terms of “miracles”. This illogic cannot be replaced by so-called miracles as far as they are concerned.

These people are well ahead of those that *unconditionally believe* in all miracles.

These sceptics, most of them also atheists, make the mistake of *rejecting* GOD, because HE plays a major role within the Holy Scriptures, ergo a book that is so illogical and so mendacious. The greatest reformers in the field of sociology are amongst these atheists. I mean for instance Marx, Engels and also Lenin. They too stumbled over the untruths within the bible and also over the mistakes within other religions. They also rejected the idea that GOD represented a person that lived above the people on Earth. The idea of pantheism seemed more real to them.

You must forgive me for dealing with this extremely difficult theme with only a few words. This isn't due to my lack of knowledge in regards to this theme, but due to the *inadequacy of your languages*.

- *GOD does not represent a secret to us and HE should not represent a secret to you in the future either.*

Some of the great thinkers endeavoured to define GOD. Even though many explanations were found, their deliberations weren't quite satisfactory. Even the greatest thinkers of this Terra could not define the correct positive point in all of their contemplations. Their definitions might induce deeper cogitation, but they could *not* remove the doubt in regards to GOD'S existence.

The sciences know of no genuine formula that solidly anchors GOD'S personal existence.

When I say "personal existence", I use your vocabulary to say, that this GOD has a CONSCIOUSNESS, that HE can think and reason.

Of particular importance is the consideration that GOD is the CREATOR of the universe and HE achieved this by creating a spiritual and a physical realm.

Atheism and dialectic materialism will *not* acknowledge these *main characteristics*. Almost all the sciences on Terra willingly abide by this doubt. We are talking about great logicians and meritorious researchers from many different fields of interest. They are pioneers within the sciences and technology and they *accept* this aberrant *as the truth*. One has to make a great effort to convince them that this doubt is a mistake.

- This is where the applicable phraseology is missing, because the terrestrial vocabulary does not possess the right words.

This is why the church maintains that one should rely on one's heart and one's feelings. Atheists are however not well endowed in regards to heart and feelings.

I plea with you to pay very close attention to my explanations! I will give you a number of examples that will show you where all the great logicians *really err* in their contemplations:

1. The universe *exists*. *Every* human being, either here or in the hereafter, perceives it.
2. The universe is *not chaotic*, it *exhibits order*.
3. The universe is *continuously developing*. Its CREATION is by no means completed. Mankind's development still continues to make progress.

4. The universe contains *innumerable humanities* and they live on many different planets.
5. There are *spiritual realms* that are not completely visible to the physical reality. Great humanities also live in them and they entertain a constant *inter-relationship* with the physical side of CREATION.
6. The unimaginable construction of the universe can only be justified if it is *acknowledged* and *appreciated* by intelligences.
7. The size of the universe demands that more than one human race must recognise it for what it is; the billion fold surplus within UNIVERSAL CREATION would otherwise be *superfluous*.
8. A single humanity cannot construct a universe, not even a single planet; there *must* therefore be a natural force that reigns *over* mankind and that looks after the construction process.
9. The people on Earth call this enormous construction process “force of nature”. However an INTELLIGENCE reigns *over* this force of nature, otherwise there could and would be no meaningful order.
10. Next to the *constructive* FORCE exists a *counterforce* and it seeks destruction and disorganisation. It is also governed by an intelligence!

In the light of these observations one can see that the universe consists of innumerable, meaningful individual processes. The bible *cannot* elucidate these processes as a whole. What the Old Testament tells us about it is more symbolical than anything else. The bible also doesn't assert a claim of being a book of the natural sciences.

- *If we take all that exists into consideration we come to the conclusion that the universe must have a PLANNER.*

Give me one single example of something meaningful that could possibly come into being *without* planning! – The unimaginable PLANNER is the UNIVERSAL SPIRIT you could call “GOD”. Without a PLANNER, the universe would be impossible. A planner must however have an idea that he can use to carry out his plans with. The same applies to all your inventions and activities. This is a *spiritual* process and it comes from spirit.

- *Physical matter does not plan and does not have ideas, only the spirit can do so.*

Human beings have a divine spirit within that allows them to plan. People can plan far into the future. They can calculate everything and they can include their experiences in their calculations. But a *higher*, more powerful SPIRIT reigns *over* man's spirit, one that can plan *even further* into the future, one that can calculate *far better* and take *far greater* and *richer* experiences into consideration.

You balk at the word “GOD” because it has been *desecrated* by man, terrestrial science should therefore finally get rid of the undefinable “Factor X” and substitute it with the word “PLANNER”. We are naturally dealing with the *greatest* PLANNER that exists throughout the universe.

This GREAT PLANER however has an adversary, a counter-planer, one that constantly interferes, thereby guiding a lot of things in the wrong direction. If the sciences balk at the word “devil” because this terminology has always been ridiculed, I suggest that you use the word “counter-planer”, because it better conforms to the people on Earth’s whole mind set.

- *A PLANER does not necessarily realise every one of his ideas himself. HE has HIS WORKERS, HIS universal ENGINEERS and HIS PLENIPOTENTIARIES to do that.*

Do remember that the GREAT PLANER has a very definite responsibility. HE does *not* deal with the things *you* credit HIM with. You are always surprised afterwards when you find that your requests have not been fulfilled.

This is not a good enough reason to simply disavow the PLANER’S existence.

- *What you demand from GOD is exactly the same as asking the pope to wage war.*

The PLANER maintains this world though the laws of nature HE created. But *you* must control and *account for* the things that take place on Earth as far as you have been given dominion over it.

How many people do you think have made fools of themselves by assuming that GOD personally monitors and controls every step you take, according to HIS wishes? – This OMNISCIENCE is *absolutely no* OMNISCIENCE, but **the greatest nonsense** within the field of religion.

- A nation wages an embittered war, which in itself constitutes a great sin against nature. But the same nation turns to GOD and asks for assistance and for the annihilation of its enemies. – This war is of no concern to the PLANER, because it has nothing to do with HIS CREATION. This war is *against* CREATION and is *not* part of the PLANER’S responsibility.
- An unhappy marriage, allegedly entered into in the sight of GOD, is not divorced because one does not want to amend a mistake in the bible. Both parties are forced to go down a path to hell, because it pleases the established dogma. Marriage is not part of the PLANER’S responsibility; because what has marriage to do with the UNIVERSAL PLAN?

Atheistic politicians discovered long ago that GOD has not the slightest interest in your problems. This is why they become so incredibly brash and assert that there is no GOD.

Mistake!

I explained to you that a PLANER exists whose LAWS are effective. The PLANER however intended ORDER to reign. This is the reason why every sin has its respective consequences (Karma). The results of erroneous behaviourism are *not always* apparent during one’s life on Earth. This ambiguity inveigles one to assume that there are *no* consequences. If you were however *able to see* the consequences that lie beyond your physical perceptions, you would get the fright of your life.

- *The personal debts man accumulates must be absolutely expiated, even if this takes centuries.*

There are two things that keep you in fetters. It is a completely false concept of GOD on the one

hand and furthermore the disbelief that the human soul continues to exist after its disembodiment.⁹

Mankind requires *comprehensible* EVIDENCE of GOD'S EXISTENCE.

You do have this here!

I do not assume that the sciences will find any objections in regards to this definition. Applying your limited vocabulary, we can tell you exactly what this all depends upon.

- *GOD exists, HE is the PLANER, but HE is not responsible for all the things you make HIM responsible for – and for all the things one demands of HIM.*¹⁰

Interposed questions

Question : One assumes that the leaders of mankind *are being inspired* in a way that they are virtually guided by GOD. One also reasons that all inexplicable and evil deeds *also* take place according to GOD'S WILL. Is it true that GOD allows such things to take place?

Answer : The assumption that human beings who find their soul embedded in the physical world are inspired, is correct. This inspiration is in the form of telepathy. This inspiration does *not* come from the PLANER, but from souls situated in the spiritual realm.

- *GOD, the PLANER, has absolutely no influence on mankind's leaders.*

Every human being has his or her *free will* in this regards. They can do either good or evil, unless they are hindered by people.

- *GOD hinders nobody from doing anything.*

But people with a negative attitude, as we find them in governments, can *well* be *inspired* to do evil by otherworldly souls. Because they are *inclined* to do evil, they are marionettes in the hands of evil intelligences. This particularly applies when they act out of *selfishness*.

Question : If the GREAT PLANER was as powerful and benevolent as they say, derailments the like we find them in Mother Nature should really never happen. They had to separate Siamese twin only recently. How can we interpret this?

⁹ We are actually explaining a great secret here. Explaining and defining GOD is so significant that it must be pursued with all means mankind has at its disposal so it can enter mankind's consciousness. Church representatives might recoil from this TRUTH. They might even fight against it like the devil. Logic will however win the day. There are matter of fact people that do not ignore their discernment when they recognise the full TRUTH. Religions and churches are something positive, but not the way they exist these days. Their dogmas and their wrong interpretations of religious facts bear co-responsibility in regards to the rise of atheism, dialectic materialism and communism, well actually all the strife on Earth.

¹⁰ The people on Earth have always looked for better explanations in regards to GOD'S existence. Great thinkers have dealt with it; but doubt continuous to remain. Any evidence could always be attacked in one way or another. The EVIDENCE of GOD'S EXISTENCE **provided here** does not require blind faith, but provides the mind with sufficient material to be able to really comprehend GOD. What does find application here is an absolutely logical thought process. It supplies all forms of meditation with sufficient amounts of material to contemplate. Pantheism, as it has already been called into being by Spinoza, deals with GOD'S responsibilities, but it fails to recognise GOD'S personality. GOD'S PERSONALITY is in no way diminished here, it allows one to clearly recognise the PLANER'S enormous GENIALITY. This is the reason why this explanation, the way we publish it here, should be at the forefront of all evidence in regards to GOD'S existence, as far as it is philosophically possible.

Answer : • *The PLANER has an anti-planer opposing Him who continuously interferes with HIS handiwork. This is where the derailments in Mother Nature develop from.*

But GOD also collects HIS EXPERIENCES and then applies them. In addition to this are mutations that *arise* from *new* experiments. Such mutations often enough represent quite a risk for the PLANER. These risks are however necessary, because there would be no progress otherwise. Life as it exists can also become outdated. Antiquated life forms must be replaced with new ones. Everything is in constant flux and new LAWS are being tested on people all the time.

You talk about a caprice of nature. This is however *erroneously expressed*. Mother Nature does not afford herself caprices. We are dealing with *phases of development* that sometimes end in failure. Great risks sometimes claim casualties. Accidents within the process of life do happen. The PLANER will however always learn from all of these experiments. Perfection within the universe is far from being achieved.

- *The PLANER is also constantly evolving. HE grows in STATURE.*

The churches therefore make **a mistake** when they assume that GOD *has always had* HIS OMNISCIENCE and that *nothing* ever changed in this regards.

Question : Even if we accept that accidents take place within the process of life, we still can't understand why a soul would incarnate into a body with abnormalities. GOD should not allow this to happen. It seems cruel and unjust. It therefore comes as no surprise that atheists have lost their faith. This requires a very lucid explanation.

Answer : Once the CREATOR we call the PLANER created a LAW of LIFE, it becomes *absolutely valid*. Such a LAW is based on millions of EXPERIENCES. It isn't as simple as described in the bible: "God said: 'Let there be light and there was light'".

- *Thousands of years can pass before a divine LAW experiences the slightest of changes.*
- *One of GOD'S LAWS determines that every human or animal body has to receive a soul if it is physically viable.*

A body with abnormalities can be viable even if it's only for a short period of time. Based on this divine LAW, an incarnation *must* take place. This is why every viable deformity turns into a vessel for a soul; it matters not whether the soul is able to deal with this vessel. – This has nothing to do with a cruel act of the PLANER and also not with HIS WILL; because HIS WILL *always strives for progress*, even if something might go amiss every now and then.

Question : This tells us that things can happen that are *not planned* by GOD. This changes our view of GOD'S PERSONALITY, because we have looked upon HIS PERSONALITY from a *different* perspective. GOD is therefore *not* omniscient in regards to many things?

Answer : The PLANER expects some failures, but HE learns from them and tries to prevent

them. This is HIS responsibility. – HE *doesn't* deal with things that are *outside* the scope of HIS LEGISLATION.

Question : We don't have to be surprised then that such barbarous wars take place. We also have to put up with the fact that a politician, like for instance Ulbricht, (GDR) can continue his tyranny *without* being hindered by a higher AUTHORITY. Do we have to completely depend on ourselves?

Answer : All of us are the PLANER'S creatures, so GOD is naturally interested in our welfare. However, HE *never interferes personally*. GOD has HIS HELPERS! GOD gives the ASSIGNMENT and OTHERS carry them out. GOD is the BOSS of the universe. GOD possesses this unimaginably great CONSCIOUSNESS.

Man's consciousness *is invisible*. GOD'S CONSCIOUSNESS *is also invisible* otherwise it would have to be a brain the size of your sun. But as GOD does not possess a physical body, GOD does not require a physical brain *that controls the body*.

We are GOD'S SERVANTS in the true sense of the word and we endeavour to help you. You can see that you are *certainly not alone*. The fact that your ancestors mistook our ancestors for GOD and HIS HELPERS was mainly due to their inexperience. We are enlightening you now about this here:

- *GOD is a PLANER and whenever somebody plans something, it is always based on an idea. One idea is superseded by a better one. Once an idea has been fixed, it is converted into action and one will find things to improve here and there. Mistakes were made that could not be foreseen, because a particular idea had never been put into action before. GOD continues to grow through HIS EXPERIENCES. HE also finds means for those cases that could not be foreseen.*

This is GOD'S FORMULA.¹¹

- We have always been regarded as angels or gods.
- We taught the people on Earth their first *social* concepts.
- We taught the people on Earth how *to use fire and tools*.
- We taught them the concept of a *living* GOD in those days.
- All the places where we or our forefathers appeared in flesh and blood have been designated *sacred sites*.

Our spaceships have always entertained close contact with mankind on Earth. These contacts with you have become ever more difficult, because you also developed flying machines that try to pursue us in order to harm us.

¹¹ A number of these bodacious revelations were received in the presence of many witnesses during public contact session (séances). The pope acknowledged that revelations are not just confined to the bible, but that they can come from other sources also.

- Our ancestors *didn't just* deal with the Israelites, but often tried and carried out landings on *other* continents also. The people in Peru organised kilometre long lines on the ground in order to guide us in.¹²
- *Deism on Earth is closely related to our visit.*

Many drawings and other images of “gods” indicate that the SANTINER visited. The thought that we were gods was firstly because of our spaceships and secondly because of our ability to dematerialise; a condition you cannot comprehend.

From the point of view of the people on Earth our flying objects look like glowing chrysolite. The Israelites fleeing Egypt made the same observations on Mount Sinai. They however thought that the mother-ship was the LORD’S abode and they thought that the commander of the ship was “GOD JAHWEH” himself.

Exodus 24. 9 – 10: Moses, Aaron, Nadab, Abihu and seventy of the leaders of Israel went up the mountain and they saw the God of Israel. Beneath his feet was what looked like a pavement of sapphires, as blue as the sky.

As you can see, there are no doubts about the delivery of the HEAVENLY LAW. The facts speak for themselves. How could our forefathers explain to the Israelites that they were people from *another* planet that was so infinitely far away from Earth? – The Jewish People of yore couldn’t begin to imagine that there could be other planets like planet Earth where people could live. It was therefore more beneficial for them to believe in a personal appearance by GOD. Our forefathers did everything possible to strengthen their beliefs in this regards. We are still dealing with a genuine revelation in spite of this.

- *The HEAVENLY LAW is universal. It has general and immutable validity. These COMMANDMENTS are of importance to all races and all people. Those that trespass against them must bear the consequences.*

Moses however was *not just* the receiver of these commandments, he was also a pupil of the SANTINER and they instructed him for some time. Moses received instructions in ethics, but he unfortunately didn’t comprehend them all. He mangled quite a lot of it and the priests destroyed everything that went against *their* philosophy.

- *Atheism is synonymic to ignorance. We are not dealing with dullness, but with a false analogy.*

Va banque (Risky business)

- How does a forensic pathologist assess somebody that risks all his possessions because of his passion for gambling?
- How does a forensic pathologist assess those who show a *complete disregard* for their own life and the life of others, only because something goes against their grain?
- How do you assess those that risk the welfare and lives of all of mankind on Earth?

¹² Such markings, they actually extend for miles, have recently been discovered and photographed from a great height. One allegedly found no explanation for them, because flying objects did not exist in those days. *This here is their explanation.*

I call them gamblers, they gamble with humanity!

They absolutely do not possess an iota of INSIGHT, even though they are *true masters* in regards to waging wars.

The Earth is embedded in a magnetic envelope. This envelope was damaged by an American atom bomb exploded at height. *One was aware* that this encroachment on cosmic natural processes is dangerous for planet Earth. Those in responsible positions do not shy away from sinning against the cosmos. They dared risking the creation of a hole in the radiation belt.

The fact that the Earth has not received a different rotation is a miracle; because it turns like a motor between magnets. The changes within the magnetic conditions *have an effect on life on Earth*. Fauna as well as flora is affected by this. The process of life's rhythm is then out of order for a long time.

Interposed questions

Question : Can you tell us how long this condition will last?

Answer : When one sent this bomb into the stratosphere, one assumed that the damage caused would last for about one year. One has come to the conclusion in the mean time that it might be at least 10 years. I assert that it will last for about 50 years.

These are *not* what we would call research experiments, but an incredible provocation in regards to unknown forces of nature. Any accidents that do happen are kept quiet. But an accident *has taken place* and the result of its ramifications is not yet exactly known.

The Earth's rotation also affects the atmosphere and the oceans which are also part of the physical makeup of the planet. The rotation of the solid part of the Earth, that is to say, the globe, has not yet been affected.

- *The rotation of the layers of the atmosphere are however no longer the same. Huge eddies and also huge holes within the atmosphere are created and all the air currents are pretty much in disarray.*

People might read in the papers that enormous floods and devastating hurricanes create unimaginable damage here and there, but nothing is said about why these catastrophes developed. Due to the fact that such catastrophes have *always been around*, one simply includes them in past records. Just who is going to investigate this more closely?

Challenging Mother Nature through nuclear tests is exactly the same. One contaminated the atmosphere to begin with even though one was *well aware* that radio activity has a damaging effect. Nobody showed regard for the suffering human race, nor did anyone show regard for plants and animals either. – Delusions of power triumphed.

This endangers mankind's viability, because any damage to people's genetic makeup *only comes to the surface later*. By the time the danger was recognised it was already too late. The damage caused will now run its course.

Politics, in one way or other, demands unimaginable sacrifices.

As one is *not* prepared to *completely* give up nuclear tests, one has therefore relocated these tests underground. Every human being nowadays knows that the Earth's crust is relatively thin, comparably as thin as an eggshell. But no scientist on Earth knows what things look like under this eggshell.

Large earthquakes have always been with us, but the quakes we experience these days have been *provoked*.

- *I have told you once before that every shockwave within hollow spaces proliferates to then have an explosive effect at a far distant location. Long, hollow spaces also exist under the Earth's "eggshell" and they encompass the whole planet. In addition to this are weak areas under the ocean's floor that represent a specific danger.*

A global danger

In August of the year 1883, the ocean flooded the crater of Krakatau, located in the Sunda Strait between Sumatra and Java. You know the results of this catastrophe. Due to the enormous amount of steam created in the process, the island erupted high into the atmosphere. Enormous tidal waves inundated other countries and seabords. About 75,000 people lost their life. *The tidal wave circumnavigated the Earth seven times*. The plume of the eruption rose 30km into the atmosphere and it changed light conditions on Earth.

- *You can imagine what would ensue if a large gash would open on the seafloor and the ocean could enter the Earth's crust. This would be the end of the world, because the explosion caused by the steam would make the whole planet burst asunder. Such an explosion happened once before in your solar system¹³*

I warn against underground nuclear tests!

The indescribable recklessness of *politically driven* science and technology has already verified just what one is capable of. Major catastrophes are the result of it. One did not balk at the idea of igniting the first atom bomb, even though the experience was lacking and the end of the world could have ensued. "Don't be afraid, things will go wrong!" –

We are aware of the hard boiled attitude within the political-technological arena. We are very much concerned about this development that must slowly but surely lead to a world wide catastrophe. The stress within the regions of the Earth's core is heightening.

- *The Earth has an enormously large core consisting of one single diamond. This diamond emits formidable rays and they constitute the anti-polarity to the existing cosmic radiation belt around the globe.*

¹³ What we're talking about here is the "Asteroid Belt", a ring of fragments of a once inhabited planet. Its fragments now circle the sun between Mars and Jupiter.

There is a tension zone between the core and the Earth's surface and nuclear tests change the pressure within this zone. Due to the absolutely solid consistency of the Earth's core, this pressure cannot disperse towards the inside; the excessive pressure within the pressure zone must therefore push towards the Earth's surface. If this pressure continues to grow, it will eventually not be able to disperse within the zone and with enormous force, will look for an escape route. The resulting explosion does not necessarily ensue through the usual pressure valves. This excessive pressure isn't necessarily regulated through volcanos. The Earth's crust can burst open anywhere where it is thinner than usual. Geologists are however unaware of where all these weak points within the Earth's crust are. A seemingly solid base can easily turn out to be a location where an eruption will take place.

You amplify this danger in an incredible way!

One little break under water can have such terrible consequence that whole continents can be inundated.

This planet is not an experimental retort for bellicose purposes!

This isn't just about polluting the atmosphere; *this is about the continuance of the whole Earth.*

Who amongst you can give account for this after their disembodiment? This person's torments of consciousness are indescribable, they will last forever.

- *To see the dumbness your mental giants are afflicted by is terrible to behold!*

PEACE ACROSS ALL FRONTIERS!

Our salutation has always been:

PEACE ACROSS ALL FRONTIERS!

This sentence contains the most eminent denotation; because only peace can bring about *genuine* progress. A ceasefire can by no means constitute peace!

When we talk about peace across all frontiers, we naturally mean peace *throughout* the universe.

Terra is a very unfriendly planet; real peace has *never ever* reigned and this comes as no surprise, because *real* peace can *never* be achieved *without* higher KNOWLEDGE. This planet Terra never had any higher KNOWLEDGE. What one does *regard* as higher KNOWLEDGE are *material* concepts.

We *genuinely tried* to communicate higher KNOWLEDGE to this world of yours. We have unfortunately made little progress.

- *Religious history has adulterated our efforts.*

Your ancestors entertained *good* contacts with us, but they have become more difficult over the

years. We also expect some responsiveness from you, well at least more understanding in regards to our MISSION.

We are thoroughly convinced that biological science has turned into religion's most significant enemy. Insights gained within biology have led to *false assumptions*. Religion is incapable of comprehending and explaining man's spiritual existence. Biology however stands its ground and denies any possible spiritual existence with *threadbare* definitions. If this continues along this path, mankind will never come to its senses.

War seems to be a *law of nature*.

Death seems to be the *end of the line* for man.

He, who deals with the subject of the supernatural stands on thin ice right from the start. The people on Earth have never been able to comprehend that world peace is *the result of divine INSIGHTS*. Atheism will always be the opposite of peace and as your communism is identical to atheism, it will forever represent a threat of violence.

Interposed questions

Question : Do you have a formula for world peace that we could be guided by?

A. S. : Yes, such a formula does exist. Our forefathers handed this formula to Moses on Mount Sinai. Not a lot of it has remained. Our forefathers might have made the mistake of having taken the religious cult of the Israelites too much into account. The Jewish priests were not looking for a formula for peace; all they wanted was *GOD'S ASSISTANCE in their campaigns*.

- *The first prerequisite for peace is to fully acknowledge GOD, a SPIRIT that reigns over everything.*
- *Mankind must then acknowledge that a spiritual realm exists that every human being will enter immediately after their disembodiment, their exit from this world. There is no promised Judgment Day, but only the objective reality of a life in a spiritual condition.*
- *Mankind on Terra must know that all human beings must account for their life on Earth. After having given account of one's thoughts and deeds, one is led to one's appropriate LEVEL (sphere).*
- *Mankind must know that the path of progress is a lot slower and more difficult in the spiritual realm than during one's physical existence. Life on Terra represents a quickening of the maturing process.*
- *Consciousness is the accumulation of VIBRATIONS the cosmos absorbs and retains; consciousness can then always locate this reservoir telepathically.*

What is important is that *reincarnation* is acknowledged!

The churches on Terra have *completely ignored* this theme. This is an incalculable evil and *oafishness* at the same time.

- *As the most important factotum, reincarnation is part of the overall development of universal mankind.*

If I had to give you an elaborate account of it, I would end up writing a whole book. – When we take a look at all of this we can hardly comprehend how obstinate and *headstrong* terrestrial scientists are the way they simply bypass such facts. Church representatives also do not deserve a pat on the back for their blindness either.

Question : Is there a reliable, convincing explanation for the fact that consciousness is *not* anchored within the brain but within the cosmos?

A. S. : Nothing easier than that. Your researchers should have comprehended long ago that the activity of the spirit has nothing to do with the cells of the brain. The activities of the spirit do indeed pass through the brain, but only the way sound can be routed through a tube.

Every doctor is aware that the cells of a human body become severely worn-out over time. The body *virtually renews* itself after a few days.

- *Pathological or genetic traits however still remain intact, because the structure of the new cells is guided according to the PLAN.*

If every conscious process registers a recorded entry within the brain, some movement must take place within the brain. The only things that actually move within the brain are blood, electricity, magnetism and the spirit. The spirit that is of importance here is however *not physical*, the spirit has therefore nothing to do with any physical movement whatsoever.

Brain cells also wear out and they are *also renewed* even though this regeneration takes a little longer than is the case with the other cells of the physical body. If these cells were to disappear, one's consciousness would also have to *diminish*. All of one's memory would disappear with the decline of the brain cells. But:

- *The functions of the brain cells affect the body and not one's thought processes!*

Question : When the blood drains from the brain, one's consciousness is affected and one blacks out. How is it then possible for one's consciousness *to exist in its own right*?

A. S. : This is easy to explain: All conscious processes are directed through the brain for as long as the soul is associated with the body. If the brain is *not* supplied with blood, the conscious connection to the body is interrupted. As the soul is however not yet separated from the body, one's conscious bearings do *not yet* function independently.

Research within this field of knowledge is extremely interesting. All such research does however not bring useful results when the intensions are there right from the

beginning to simply abnegate all gained insights and to replace them with *explanations pulled out of thin air*.

The Christian religion makes quite an elemental mistake. This mistake leads every religious person to think along completely wrong lines. The interpretation of CHRIST'S resurrection indicates that only Christians who *believed* in CHRIST will resurrect. If a Christian however *really* believes, he would have to live according to GOD'S COMMANDMENTS. As he does *not* do so, he has to rely on the grace of forgiveness. No person on Earth therefore knows whether he or she will partake of this grace, whether he or she will be a soul GOD will awake.

This is an enormous absurdness, one that *mars* the whole religion.

- *It matters not whether a person was kind hearted and obedient or whether a person acted devilishly evil; every human being possesses a soul that, due to a law of nature, continues to live after disembodiment.*

A human being reincarnating on a planet finds that his or her consciousness reacts on a *new* FREQUENCY and this is the reason why a past life cannot be remembered. This circumstance leads to the *delusion* that people only experience an existence *for the first time* on the day they are born. This is the reason why people presuppose that death will once again obliterate their existence.

It is the church's function to enlighten mankind about this.

The churches however have a *completely false notion* about man's TOTAL EXISTENCE. The fact that reincarnation is a reality does not fit into their doctrines. According to their depictions, man either goes to heaven or to hell.

But both of these depictions are rather more a fairytale than the TRUTH! – According to the church's doctrines, the CREATOR would have to be the kind of boogieman children imagine. This robs the CREATOR of HIS DIGNITY. HIS area of responsibility is different from the one ascribed to HIM.

We cannot understand why reincarnation is something so unimaginable to you. - If all human beings *could* remember their past lives, progress would *be impossible*, because they would be too attached to their short comings and their traditions. We can already observe how mankind on Earth adheres to certain traditions and thereby hinders its progress.

- Your fascination with monuments is an example. You cannot get rid of ancient ruins, because you include them in monuments and historic buildings acts. But you want to be *progressive* people in spite of this.
- Wars are also protected by traditions. Wars are the most important traditions you know.
- The worship of heroes is also one of your traditions.

- Murder is a tradition, from blood feuds to racial or general genocide.

Get rid of your traditions!

Traditions are one eminent impediment and the reason why your situation is so completely hopeless. Politics is also full of traditions and one is reluctant to let go of them.

- What do you believe would happen if GOD would also stick with certain traditions? *You would still be crawling around in slime or club each other to death.*
- Would you be pleased to see antediluvian monsters crawl around because of some tradition?

All traditions are nothing more than holding on to *antiquated* things already *superseded* by progress. Traditions have contributed to the situation where you cannot understand one another. Believe me when I say that communism is also based on traditions and not, as feinted, on progressive thought processes. One of these traditions is the application of brute force. Another tradition is the deportation of people to Siberia. A further tradition is making false promises. – If you seriously deal with this you will find that you are surrounded by numerous traditions that are completely absurd and they only arrest progress.

Why has it become a tradition to not believe in GOD anymore?

This tradition could have some meaning, but based on your traditions, you write epigraphs on your tombstones that do not come close to being the TRUTH.

- It is tradition to smoke and to drink.
- It is tradition to eat like pigs on religious holidays.

We cannot comprehend that reasonably intelligent people, like the ones walking about on Terra, could have such an *insane* attitude. Your pundits have a *whole series* of traditions that are absolutely superfluous.

- Tradition dictated that one had to fight a *duel*.
- Tradition makes one adhere to atheism.
- It is traditional to *deride* progress.
- It is traditional to regard a genius somewhat *insane*.
- Militarism has its own traditions. It has *defined them in books* and they remain inseparably tied to it.

Traditions have caused the demise of an infinite number of human lives.

- Tradition made people built fortifications (Wall) *through the middle of a city*.

- Tradition makes people *stick with the contents of the bible*, even though it proclaims a pack of lies in many regards.

Religions are known to have their traditions and they *absolutely hinder* all progress. These traditions rob the churches of any dignity.

You have a *traditional* God. The way you *imagine* God to be is solely based on a tradition that has *nothing* to do with reality.

One hardly makes any progress at large church councils, because one is incapable of extricating oneself from all the many traditions. Getting rid of all of these traditions would be an absolute masterpiece.

- One is *not interested* in spiritualism and also *not interested* in reincarnation, because of traditions.

All of your religions make the mistake of asserting a claim on *their own tradition of infallibility*. This makes traditions *immune*. – It is difficult for me to give you an amendment and a doctrine, because life on our own home planet is so *incredible different* from life on your Terra. We don't have any of the ubiquitous traditions you have.

- How one human being *can hate* another human being is incomprehensible to us.
- It is even more incomprehensible to us how one *can* even *kill* another human being. All the many accidents that take place are terrible enough.
- The death of ill people on its own is terrible enough. Why must people interfere in order *to increase* the death toll?

When politicians meet in order to find a solution to a problem, they are bound to their office and standards by *traditions* to such a degree that they are absolutely *incapable* of making humane and sensible decisions. They should be set free from their traditions so they have a free hand. The moment they come to a decision they find that it trespasses against some national tradition.

- Tradition makes you celebrate New Years Eve. What happens during this particular night is abysmal. But who has the courage and the power to get rid of this tradition? –You can see where the shoe pinches and how it can be fixed.

Lawyers and judges in England traditionally wear *wigs* in order to *feign* scholarliness. This tradition is supposed to maintain their reputation. The reality is that a senile head is covered so that nobody entertains the thought that old age might have clouded an older person's mind. This however does not spring to mind, because this is all about traditions that may not be changed. We are dealing in all of these cases with a *rigid principle*, one that continues to preserve long past and superseded customs. Conservatism is dangerous; it can preserve the memory of any war forever. All thoughts of freedom are powerless against this kind of conservatism right from the start.

This indoctrination is a revelation. It is given to you via a tried and trusted universal mode of communication that has been around for thousands years. This revelation is an act of infinite

LOVE. If GOD didn't love you, HE would not have sent us on this educational MISSION. HE would also not have prepared a reception centre for it.

Who can justify the assumption that there is *no* MESSIAH and no apostles around *nowadays*? What we have to tell you is the absolute TRUTH. – TRUTH reveals itself in conversation. This conversation however takes place on a higher plane than is usually the case in conversations between people. The hidden is elevated to reveal the TRUTH.

A very specific behaviourism is demanded from human beings, one that legitimises their claim to be human. You had JESUS CHRIST as your archetype and HIS life's story has been handed down to you.

Human beings, GOD'S living CREATION, possess their complete freedom in regards to their consciousness. How people turn out to be is at their own discretion. Man's free will can be directed in either direction, good or evil. This is why you cannot assume that mankind represents something uniform.

Who is human?

I will tell you something now that no philosopher on Earth has ever been able to explain:

Who is a human being?

You will balk at the idea that when I assert that *human-like* beings live on your Terra that *are* not real human beings. They do indeed have the appearance of a human being, are born to human parents, possess all the capabilities of a human being, but are themselves to blame that their inner essence has changed to such a degree that they can no longer be regarded as part of the human race.

Religions have an inkling of this fact when they talk about demons. The churches however believe that these demons are entities that are *not* part of the human race and that they were never part of it.

- *I beseechingly tell you that all human beings can demonise themselves. They change their soul through psychic self-contamination to such a degree, that they completely divest themselves of being humane, of being a genuine human being.*¹⁴

The metamorphosis of these human beings takes place *inside* of themselves.

- *The astral body can turn into an angelic being, even though the physical body does not take part in the process. The human soul can also change into a monster, even though no external changes of any kind are apparent.*¹⁵

When your religions talk about hell, they mean a place of damnation.

¹⁴ Eminent painters dealing with religious themes have apparently grasped this fact inspirationally. They depicted demons in the form of abominable creatures that possess human-like appendages in spite of this.

¹⁵ One talks about white or about black souls. ASHTAR SHERAN has a better explanation.

- *Human beings do not have to be damned by GOD; human beings manage to do that all by themselves and in the course of many lives on Earth will sink from one level to the next until they have completely relinquished their divine humanness. They disengage themselves from any connection and any similarity with GOD. A terrible situation, but true!*

Even an atheist will have to agree with me that no angelically beautiful souls can live in hell. This is the reason why the great ANGEL of LIGHT, GOD'S antagonist, completely relinquished his once lucid guise. He is *no longer* an ANGEL; he is an *entity of his own making*. GOD does give him life, but that's all. His countenance and his consciousness are *neither ANGEL nor human*, but that of a creature that does not exist within all of fauna.

Man's higher or lower development is equally man's own responsibility. GOD conceded man the chance *to become* a human being; HE provided man with all the required opportunities, even the appropriate stature. Of what use is a beautiful gown if it is worn by a monster?

If you could see the souls of your fellow men, you would not believe possible what you would see.

If you could see yourself in a spiritual mirror, you would get a fright!

Mind you, millions of people live on Terra that seemed to belong to the human race from a *purely physical point of view*. But from an *inner* point of view, they are *no longer* members of the human race, because they no longer conform to the prerequisites GOD demanded from them.

You will now understand the things that separate us from you to such a degree that we haven't had the courage to make *direct* contact with you these past couple of centuries; because we are very sensitive in regards to the *inner* man.

You already have an aversion against your brothers who are of a different skin colour.

What can we say when we see just *what you're capable of*?

But we fulfil a MISSION our GREATEST SPIRIT has entrusted in us in spite of this. The assignment is very difficult, actually *well nigh impossible*. We know however that there a number of people on this Terra that are still part of the human race. We utilise these people to accomplish our plans.

Many people on Terra present a *paradoxical image*: They dress in uniforms, adorned with golden braids and chequered colours, well *adorned* all over with medals and colourful ribbons. But their *inner* man stands *in stark contrast* to this external presentation.

As I said before: Your vocabulary just isn't adequate enough.

You are aware that apes have a lot of traits that are *similar* to those of people; but this doesn't make an ape human by a long shot; nobody would accept this assertion.

Man's metamorphosis is a lot like that.

This anti-human being has a lot in common with your real human being; all of his externalities are very similar to that of a real human being. This anti-human being is even endowed with a special memory and consciousness; it even copies everything, particularly the negative which it tries to enhance.

- *We must come to the conclusion that more than half the people on this Terra are anti-human beings.*

These are harsh words, but it finally had to be said.¹⁶ – As there are anti-human beings on your Terra, it comes as no surprise that these “people” think and act anti-human. Only this can explain the whole defective development on this most unfortunate planet.

- *Only the spiritual view communicates the TRUTH.*

The simple burger and average citizen has absolutely no idea about the spiritual dimensions he is surrounded by. He doesn’t concern himself with this for as long as the price of cigarettes and alcohol doesn’t increase...

We are already seriously worried about what would happen if GOD would show such an intense interest in this planet that HE would come to the conclusion that Terra is no longer a dedicated planet of redemption. HE is the AUTOCRAT in charge of this Earth and *not* politicians and *not* great statesmen who *surmise* to have the future of all of mankind already in their hands. GOD’S LOGIC will not allow billions of people, it matters not whether they are pro-human beings or anti-human beings, to depend on the caprices and grace of a corrupt clique.

- *What happen to Sodom and Gomorrah can be repeated in the superlative! The possibilities absolutely exist and nuclear weapons would be able to change anything. We have completely different means at our disposal.*

There are people amongst you whose thoughts and actions are *incomprehensible* to any *normal* human being. They stand in front of judges and psychiatrists who do not know what to do with them.

- Anti-human beings *murder bestially*.
- Sex offenders belong to this group.
- Deviants are also anti-human beings and they have voluntarily metabolised from being human beings.
- Other anti-human beings only have to confront a judge and jury once the government that protected them no longer exists.

Those amongst you who are unwilling to believe that anti-human beings *actually* exist have no idea about what *really* took place in concentration camps.

We would dearly like to intervene in order to *finally put an end* to all these atrocities on this planet. We may however *do nothing of our own accord* because we serve a higher AUTHORITY and we have to abide by ITS directives. But what happened to Sodom and Gomorrah can happen once again one day.

¹⁶ The major religions entertain the point of view that GOD’S antagonist is actually GOD’S anti-spirit. As metamorphosis also applies to the anti-spirit, whereby he is polarised from positive to negative, one can easily imagine that such a repolarisation is *more than* possible for every human being. – We carried out more than a thousand public séances and we have a lot of experience in the field of revelation-spiritualism. Based on this extraordinary experience, we can say that *these* messages are part of the most important revelations we have ever encountered.

Our anti-gravity capability is the most powerful weapon that exists. I have mentioned this to you before. We can create a powerful vortex with it. We can part immense bulks of water with it. When the Israelites intended to cross the river Jordan, we blocked the river's flow so that it could not run downhill. We created a miracle, but if one is aware of its causes, one has to conclude that it was no miracle.

Joshua, Chapter 3. 15-16: When the people left the camp to cross the river Jordan, the priests were ahead of them, carrying the Covenant Box. As soon as the priests stepped into the river, the river stopped flowing and piled up, far upstream at Adam, the city besides Zarethan. The flow downstream to the Dead Sea was completely cut off and the people were able to cross near Jericho.

The atheists who thinks that he is smarter then the rest, obviously balks at the bible's miracles. You can however see how wrong people can be when they do not find out the secrets behind these miracles. We do admit that GOD did not initiate these miracles, but in spite of this, GOD is the actual ORIGINATOR, because HE ordered our forefathers to carry them out.

We now give you a rational explanation, one that also includes metaphysics. To the probable annoyance of atheists and natural scientists, many of the biblical miracles have an absolutely judicious explanation that remains within the boundaries of the natural. Even if our forefathers accomplished these miracles with the help of some enormous technology, they still remain a testimony of GOD'S existence.

A DIVINE MIRACLE remains a DIVINE MIRACLE, even if it has been initiated with the help of human beings. *No* human beings from Earth were involved in this case, but people that *entertain a much closer relationship* with GOD than the people on Earth.

Whatever we do on Earth, whether we only fly past or whether we land, whether we make contact with you or send you radio signals; our actions belong to the realm of divine faith. Our MISSION consists in that we give this divine faith *a solid foundation* on this Terra and guide it in the *right* direction at the same time.

Our forefathers supported the miracle CHRIST represents in every possible way. They had a hand in HIS birth and also when HE died. Earthquakes, cyclonic conditions and pouring rain as well as complete darkness, but also the blinding light, can be attributed to the SANTINER.

It is GOD'S will that HIS REVELATIONS *for* human beings should be brought to them *by* human beings. This is why we are on this MISSION, which was also the MESSIAH CHRIST'S MISSION. Those that are qualified to do this are the mediators.

Divine EVENTS are part of GOD'S revelations.

- *Haunting is part of GOD'S revelations.*
- *As we are part of these divine EVENTS, our appearance here is also a revelation.*

We unfortunately ascertained the fact that an overwhelming opinion exists on Terra that is directed against every superior EVENT. You *neither respect nor protect* the TRUTH. This is why

the TRUTH is completely taken by surprise by lies. Authoritative academic circles are in agreement in regards to abnegating and *devitalising through convulsive definitions* all superior EVENTS.

We can simply eliminate the word faith. The TRUTH has however nothing to do with *blind* faith. Those that *investigate* GOD'S DOMAIN will gain objective KNOWLEDGE that towers high above any religion. A religion that is *only* based on faith will always only be an attempt to improve things.

- *Man on Earth is only genuinely capable of improvement on account of objective KNOWLEDGE and not on account of a questionable faith.*
- *We take a great interest in the objective KNOWLEDGE that we want to impart to you. We may however do nothing that might lead to influencing your free will. Even an eminent phenomenon is an event that can influence the development of your spirit.*

Interposed questions

Question : We now know that the miracle of Fatima has been staged by the SANTINER. According to your statements, this miracle should also not have taken place. What are we to make of this?

A. S. : The miracle of Fatima took place because of an intervention by GOD. We are *not allowed to carry out* such phenomena of our own accord; we are inhibited from doing so. We could have *considerably enhanced* the miracle of Fatima, but that was not to be the case.

Question : If the SANTINER did destroy Sodom and Gomorrah, it must surely have been an augmentation of a phenomenon. It must have been an influencing of people's free will. What do you say to this?

A. S. : Sodom and Gomorrah were destroyed by our forefathers. But this destruction could not have influenced the people's free will at all, because apart from Lot and his children, nobody else survived. Lot however already had his objective KNOWLEDGE about GOD'S EXISTENCE and that of man.

Question : Were Sodom and Gomorrah destroyed by nuclear force?

A. S. : This is an analogue question, because you are aware that atom bombs possess the greatest destructive force as far as you are concerned. Our forefathers however already enjoyed a technological advantage in those days that you might achieve many years from now.

- *Through influencing and regrouping certain atoms, we can produce any desired amount of fire. This is not utopia, but an actual fact.*

Our forefathers were already capable in those days of slinging enormous amounts of fire directly down to Earth from a great height. Everything, absolutely everything went up in flames. This is not designed to be a threat, because it is not our intention to repeat such an event.

We try a different way to impart better insights. If terrestrial scientists could understand and acknowledge us better, the path to a new age would be free. But if we had to defend ourselves, the consequences would be beyond imagination.

- *The fire we're capable of producing does not require an energy source, it just exists. We can for instance make the surface of a lake burn. Nothing can save you from this type of fire.*

A dangerous diet

We noticed that an unusual number of illnesses occur on this very beautiful Terra.

The majority of this human race is ill.

We have never ever come across such a development anywhere else.

This is a planet where illness reigns.

This unhealthily situation has however nothing to do with redemption; it is certainly not GOD'S WILL that man should be redeemed in such a terrible fashion. The LORD'S antagonist does indeed have a lot of influence, because one willingly allows him to access this planet, well actually just about encourages him to get a foothold. But this alone is *not* the cause for *all* this adversity on this Terra.

Mankind can only blame itself for the calamity all this suffering represents. The cause for it goes back many thousands of years. The people on Earth nowadays bear to a considerable degree the unhealthy inheritance of their ancestors within themselves. But *you were actually these very same ancestors* in past lives, meaning that *you are to blame* for the *recessive* affect of this inheritance.

The main reason lies within a wrong diet.

Our forefathers, the SANTINER, recognised this dangerous development within your diet in time. Moses received detailed instructions on board the spaceship of the SANTINER about the damage that this can afflict upon mankind. Moses brought this danger to the attention of his people, particularly the priesthood, because they were actually also the medical practitioners at that time. The people's diet was established in detail. Bans on certain food items were enacted.

- *Pork stands at the forefront of these dangerous food items.*

They were unable to detect trichinosis in those days. The presence of *Trichinella Spiralis* resulted in dangerous illnesses. But it isn't just about trichinosis, but about the meat of pigs in general. The pig is an unclean animal, it virtually suffers from a *metabolic illness*, it is *obese* and it is bred as a supplier of fat.

Your medical fraternity has not yet discovered how dangerous pork really is for human consumption. Millions of pigs are slaughtered every day; pork is consumed by almost the whole civilisation. Consuming pork changes the human body's metabolism.

- *Every human being that consumes pork gradually becomes susceptible to all types of illnesses. The human body's metabolism, its inner organs, kidney and gallbladder stones, the hardening of arteries and many other changes within the body is part of the debit account of pork.*

I know that one will *balk* at my allegations. But this does not come as a surprise, because the people who like to express their opinion always *reject* everything that does not fit in with their ideas. Because of my MISSION, I cannot spare anybody's feelings.

The people on Earth nowadays suffer in an indescribable way from the effects of a wrong diet. Most of them however do it in complete ignorance. Pigs are unfortunately easy to breed and they bring great profits and this seems to be *the main thing* as far as you are concerned. If one doesn't fall down dead immediately, one can at least gradually waste away. An evil is only acknowledged if it immediately results in death. All *recessive* evils, those that stretch out over centuries, are not taken into consideration at all.

Our forefathers, the SANTINER, have warned often and forcefully enough about this, but unfortunately without success. Only some of the Jews adhered to the interdictions and this is why they live longer and do so suffering less.

Leviticus 11, 7: Do not eat pigs. They must be considered unclean; they have divided hoofs, but do not chew the cud. ¹⁷

There are however *also other* causes that have an influence on mankind's state of health: I have pointed out years ago that nicotine and alcohol have a detrimental impact. It astonishes that even experienced doctors and responsible politicians, *perfectly aware* of the consequences and the dangers are not prepared to resist these vices. I emphatically say "*prepared*"!

- *Alcohol absolutely damages the brain.*

It therefore comes as no surprise when a large portion, well actually *the majority* of politicians as well as the powerful of this world, cannot make the right decisions. They are however left in their respective offices *in spite of this* and one also entrusts a whole human race in their care *in spite of this*. ¹⁸

You are intimately aware of the effect of alcohol. Those that drive a car after having imbibed alcohol conjure up accidents. Do you believe that the leaders of mankind behave differently? – The have the wheel of mankind's future in their hands. These irresponsible drinkers, toasting each other's health, are also not in charge of their senses and they conjure up misfortunes in a superlative way. Or do you believe that those you elected into office are immune against alcohol?¹⁹

¹⁷ One ascertained in concentration camps that practising Jews were just about immune against infectious diseases.

¹⁸ Scientific analysis has shown that alcohol attacks the body's central nervous system. Those that sit behind the wheel of a car whilst under the influence of alcohol are punished.

¹⁹ It was also discovered that 60% of all homes in the USA have a cache of alcohol in one form or another. The number of alcoholics is in the millions.

- *Addiction to nicotine has seized just about the whole population on Terra.*

Hundreds of millions of people live surrounded by smoke. The consequences are indescribable. What kind of leadership is this, if they are not prepared to stand up against this? The people's health is completely undermined and this with style. There are also *recessive* consequences and they can express themselves in miscarriages and deformities. We find it incredible that the leadership in the respective countries *tolerate* these types of derailments. We also find it difficult to understand that your doctors treat these evils lightly.

- *This negligence in regards to people's health is only due to the fact that all of mankind has absolutely not acquired any higher KNOWLEDGE.*

Spiritual KNOWLEDGE, encompassing mankind's overall existence, has been eminently disowned and neglected. *One ridicules* the most eminent and most sacred TRUTH, because just about everybody thinks that it is exceedingly ridiculous.

What kind of place is this Terra?

If we were not genuine HUMAN BEINGS, we would allow this Earth to go to rack and ruin. Being human calls upon us to do our sacred DUTY, namely to warn you. But if our warnings are no longer listened to, impending doom will irreversibly take its course. Do not think for a moment that you are dealing with a religious treatise here. We are dealing with a fundamental, spiritual issue here, one that is only gradually recognised by a small group of people.²⁰

- *Our religion is absolutely identical to our sciences. There are no discrepancies between our psycho-science and natural science. This is the only way we could reach the kind of progress that sets us above you.*

We therefore welcome the initiative one has taken in Brazil. A centre for the higher TRUTH and WISDOM will be created there.

The Soviet Russian Dialectic Materialism penned a great lie: According to its doctrine, good and evil have to wrestle one another so that progress can be achieved. This sounds very plausible, but it promotes the idea that evil *must absolutely be present* in order to wrestle with good.

This is an **aberration** that even the major churches on Earth have fallen prey to.

- GOD did *not* create evil.
- There is *no need* for evil to exist, because everything works *a lot better* without evil.
- People have the opportunity to repolarise themselves to commit evil deeds.
- The way Christians and anti-christians exist, human beings and anti-human beings also exist. Anti-human beings are the *product of ungodliness*, of an act of self-mutilation. It is akin to a suicide in regards to decency and good will.²¹

²⁰ A university of the SPIRITUAL PSYCHO-SCIENCES is being built in Sao Paolo, Brazil. This is an enormous project. The auditorium alone is capable of seating a maximum of 1,500 students. The whole installation encompasses about 800 buildings. All gained spiritual insights are supposed to be disseminated all over the world in this way.

²¹ It was ascertained in Brage, Portugal in the year 561 A.D. that evil spirits are not representatives of an uncreated evil principle; that they were

We are the LORD'S MESSENGERS. According to your theological insights, GOD'S MESSENGERS are called ANGELS. We are however *no* ANGELS, but actually *only MESSENGERS*. Even though our ancestors were always thought of as "Gods" or "ANGELS" that came down from heaven, I have to vehemently correct this idea.

- *ANGELS have completely different assignments; they are not MESSENGERS. Their powers are far greater than those of a messenger.*

The bible, in its present form, is *atheism's textbook*. It no longer fits in with modern times, because people's thought processes are *completely different* from those hundreds of year ago.

- *The bible represents a challenge to man's rationality.*

If the bible *isn't* corrected, it will soon end up *below* the level of a fairytale for infants. Modern man finds things that go *against* his own experience difficult to believe. Even though GOD constantly instructed this mankind, the historical transmission is not literal enough to be comprehended by a logical mind.

We hope that space travel will bring us *closer together*.

Once your experiences in regards to astronautics grow, you will be able to better understand us more and more. We hope that the time will soon come when one will no longer deny our MISSION and our existence.

When people from another solar system visit you in order to tell you that there is a living GOD who is surrounded by an illimitably large SPIRITUAL REALM, please remember that we are unimaginably superior to you.

Our knowledge and our skills are at least a thousand years ahead of yours.

This is why you can believe us when we say that we are absolutely at home when it comes to *spiritual* things. We know an infinite amount about man's existence. We know the divine PLAN and we endeavour to act according to this PLAN in order to actualise it. Terra also gets a mention in this divine PLAN – and it represents an eminent factor in all calculations. This is the reason why every one of you plays an important role.

Will Dialectic Materialism ever substantiate its idea that there is no divine PLAN?

It is simply incredible that this false doctrine has been conceived by a state that switches from one economy plan to another. Everything must go according to plan in the Soviet Union also. Why should the universe, or let's say nature, manage *without* a plan? – But as I said before, there must be a planer otherwise a plan cannot come into being.

It must surely be possible to comprehend this!

About LOVE

- People incarnated on this Earth *have no maturity* in regards to LOVE.
- *This is the reason* why they should achieve redemption. This is a failure in regards to the most important facet of being a human being.

You will not be pleased to hear this reproach. I know that one twists and turns hither and tither when confronted with the TRUTH one knows too well to be true, but one is unwilling *to admit*.

- For millennia, the whole world situation has been *the result of lovelessness*.

This is the reason why our forefathers brought you the divine LAW of LOVE. This is the reason why a MESSIAH was sent to you. He was supposed to be your TEACHER, teaching you the DOCTRINE of LOVE and not a sacrificial lamb to achieve conciliation with GOD.

- *GOD does not demand blood sacrifices!*

Never ever!

What could possibly be conciliated through the shedding of blood?

An incredible amount of blood has *senselessly* been spilled on Terra.

- LOVE does not ask for blood!
- LOVE asks for *respect* and *understanding*.
- *Your bible has been garbled and this is why it doesn't teach you about the POWER of LOVE in a diligence manner.*

A human being can love another human being. This is easily possible, because of the two different genders. "Love" however is often enough *purely egotistical* in such cases. But terrestrial man cannot love a whole human race, because he does not have the maturity to do so. The moment he feels *superior* to another human being, be this mentally or coercively or in regards to affluence or physical attributes, he withdraws his genuine LOVE from his fellow man. This *contradicts* the principle of unconditional LOVE, the kind of LOVE the CREATOR expresses.

- *LOVE is the greatest impulse throughout the universe, but if it isn't present to a sufficient degree, its opposing force becomes too powerful.*

Every force is countered with an opposing force. Your "love" is too weak and it is therefore the loser all the time. Feigned love doesn't count. Love of one's self is also ineffective within the overall picture.²²

Only terrestrial mankind's *lovelessness* made it possible for such animosities to have existed since time immemorial. War isn't just misanthropic, it is in every possible way degradingly inhumane. For as long as these animosities between races and nations continue, there can be no redemption,

²² The physicist Isaac Newton established the formula of opposing forces. ASHTAR SHERAN'S explanations coincide with Newton's views in this respect.

not even through faith in GOD or in CHRIST. Also no baptism can effectively change a human being into another human being if one retains this kind of inhumanness within one's heart.

- It isn't all that easy to *really* LOVE.

I can only explain this by saying that pure LOVE for humanness led *us* to you from a distance of light years away. No distance is too far away and no sacrifice too great for us *to demonstrate* our LOVE through humaneness.

- *LOVE is something very special, because it represents an enormous ENERGY and it leads to perfect contentment.*

Your wars verify an unprecedented lovelessness among yourselves; they represent the apex of *discontentment*. Terrestrial mankind will never achieve a just and lasting peace if LOVE is *not activated*.

Where is *the school* that teaches LOVE?

Where is *the press* that writes about LOVE?

Where is *the archetype* of LOVE these days?

Where is LOVE *for mankind*?

You take pride in a lot of things.

- You are proud of your technology.
- You are proud of your armament.
- You are proud of your culture.
- You are proud of your sporting achievements.

But you lack pride in regards to humankind!

You have a very pronounced national pride. Why have you neglected to develop a global pride? - Is it really this unworthy to be a human being that one only endeavours to seek how one could *destroy* one another? –

Too many anti-human beings have unfortunately incarnated on this Earth. But who really knows anything about reincarnation? – Your average citizen isn't even familiar with this terminology.

Enormous amounts of steel wallow booming and stinking through the countryside. Thousands of tanks bear witness to the subjugation of physical matter. But all of these endeavours to gain power on Earth have *nothing* to do with being a human being, nothing at all, not even the slightest in regards to humaneness! – One maintains that these colossuses made from fire and steel are there to protect you, but I say that this is a futile phrase and its arrogance is impossible to surpass. If a *real war were to take place these days*, no tanks and no tunnels in any mountain range would be of any real benefit.

- *If you do not engage all your energy in order to find LOVE again, if you do not develop LOVE within yourselves in a divine SENSE, you will be lost whilst alive and whilst dead.*

We have tried as best as we can.

Only GOD can do the impossible.

- GOD can lift this Terra off its hinges *easier* than your atom bombs could ever do.

Only your LOVE for mankind, only *your pride* in mankind can save you.

Pray to LOVE; pray that you are *capable* of feeling this LOVE.

Do you want to be proud of the destruction you cause, proud of your discontentment and proud of your inhumanness? – Create the required prerequisites so that you can be proud of humane LOVE one day; it can do more than tanks and atom bombs. – *Return to being human beings!*

Our race of people calls itself the SANTINER, this means: ANGELS of LOVE.

With unspeakable LOVE in my heart,

Your ASHTAR SHERAN.

The End
