Protocol extracts from the *Menetekel* brochures of 1956 - 1975

Theme : **UFOLOGY**

Author: Herbert Viktor Speer
2. Addenda 1960 – 1966

This additional series on “*UFO-Contacts*” mainly stems from the pen of *Herbert Viktor Speer*, the leader of the *Medialen Friedenskreis, Berlin* (Psychic Peace Circle, Berlin). The following texts were left in their original form and this naturally also applies to the psychically received passages introduced by *H. V. Speer* here and there as additional information or explanations. All contents are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. This additional series began in 1961 and ended with the disbandment of the work circle in 1975. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

Neither academic doubts nor antiquated school-taught wisdom suffices to comprehend inter-planetary beings. The breaking dawn of a New Age must be measured with *new* yardsticks, **HIGHER INSIGHTS** will otherwise remain hidden; despite the fact that we are bombarded with them we *cannot understand* them.

For as long as human beings do *not* believe in the immortality of their soul, they will not believe in themselves. But those that do not recognise themselves will remain ignorant and reject everything supernatural or extraterrestrial, or only repeat the things the public at large publicises.

Ufology confronts us with problems that are not as difficult as they seem. We do however have to be very adaptable and intensively deal with those subjects that have been erroneously derided up to now.

Questions and answers

Question : Experience shows that *George Adamski* in the USA for instance is an enemy of *spiritualism* and also *spiritism* for that matter. But *Adamski* had genuine occult contacts in spite of this. How is something like that possible under these circumstances?

ARGUN : This is where you find the parallel: Reverie *and* fact. – What now?

Question : Is *Adamski* also one of these musers?

ARGUN : Yes, absolutely.

Question : Is musing a character trait or an idiosyncrasy?

ARGUN : Musing is a characteristics of the soul, but it depends on *what* one is musing about.

Question : A Russian moon-rocket expelled a visible sodium cloud. Can this cloud have a damaging influence on the Earth?

ARGUN : This would have been absolutely possible, but this cloud was also observed by the SANTINER, it was captured and rendered harmless. That such a SPACE POLICE is present is very fortunate, but it is continuously attacked and derided just the same. This however happens due to people's general ignorance. We do forgive them.

Question : It is asserted that a brother from the stars made a statement saying that a second sun will appear within our planetary, respectively solar system. Is this statement correct?

ARGUN : How could this be, GOD does not create chaos in his own universe.

Question : It is furthermore asserted that UFOS create a kind of vacuum around their flying disks. Is this correct?

ARGUN : To some degree, yes. We are however not dealing with a vacuum, but with an *acclimatisation principle* that allows the inter-planetarians to gradually adapt to the terrestrial atmosphere and terrestrial radiation conditions. These experiments do however take time and this is why major manoeuvres planned for the future are deferred over again.

Question : Are these inter-planetarians physical or semi-physical? Why do they often appear completely invisible?

ARGUN : Expressed in your words; we are dealing with a compromise. The SANTINER can dematerialise. This is an incomprehensible phenomenon in your eyes, it is a change, respectively a shift, within atomic structures. You on the other hand have to squeeze you physical, ergo your atomic body, into the relative small space of a rocket's head in order to be flung into space. You will however succeed just the same.

The *Soviet Union* will conquer space first. But it will initially not be possible to leave the capsule on top of these rockets, this would be the end of it. Tests with astronauts will be carried out with great success and there are enough people willing to undergo such tests.

- *These rockets will indeed claim a number of victims, but space will turn into a divine revelation for mankind. Terrestrial man's curiosity will be placated by the LORD'S realm.*

The moment the first human being is flung into space and physically survives this adventure, Day X for a great event is nigh. The *inter-planetarians* continuously observe your attempts to go into space. They track all projectiles sent from this Earth, because there might be some significance to them.

- *The INTER-PLANETARY BROTHERHOOD is peaceful, but terrestrial mankind is under stress.*

Question : It is asserted that a Brazilian contactee published a book that contains exact details about the *propelling system* of UFOS. This book is supposed to have gotten into the hands of Soviet scientists and they are supposed to utilise it. Can you confirm this?

ARGUN : The Soviet's sciences are experts in regards to spaceship development. But *not* because of such a book. We know with certainty that the Soviet Union has experts in the field of space technology, medicine and the arts. Those that doubt this are beyond help.

- *This is the reason why the mysteries of the realm of the spirit will be scientifically disclosed to the Soviet Union.*

The philosophy of the Soviets leadership is *negative* and this is like a dangerous, destructive worm, one that has to be eliminated absolutely. This is the only way the apple it is in becomes edible. It must be cut into pieces and this worm must be grasped and recklessly removed from the apple's core, because it will otherwise try to spread right across the world. GOD will however get hold of it and remove it so that no traces of it are left behind. The SANTINER, the police from the heavens you are familiar with, are destined to do this.

Question : Do you know how this "operation" is going to be carried out?

ARGUN : It will be carried out along the line of terrestrial-scientific insights based on telepathic, suggestive support from the SANTINER. A start has already been made. Two scientists in America who managed to lift the *secrets of anti-matter* have been rewarded with the Nobel Prize. We are dealing here with the substance the realm of the spirit utilises for the construction of immortal intelligence, the building blocks of the spirit. The Soviet Union will successfully continue with this research and they will inadvertently push the doors to the realm of the spirit wide open. This world-shattering about-face will be closely connected to the great planet constellation taking place in 1962.

Question : The brochure "*Not from this Earth*" states that UFONAUTS were *not* involved in the phenomenon of *Fatima*. We now know through the SANTINER that it was the case *after all*. Such contradictions make people insecure. Is there an explanation for this?

AREDOS : The "*Miracle of Fatima*" was a *divine* miracle. The SANTINER did not produce it of their own accord, MARIA did. The emphasis was put on the psychic sector. The SANTINER only made a humble contribution in order to make this divine miracle visible to *all and sundry*. You should therefore not confuse the things that take place from a divine position with the things that are carried out by the SANTINER from within their own initiatives.

- *CHRIST was a SANTINER, that is to say, he stemmed from the development within the*

star system of Alpha Centauri. The salvation of a humanity was also carried out there. CHRIST is a Son of the Sun and a SON of GOD at the same time, the way the SANTINER are Sons of the Sun.

* * * * *

The American Spiritual Circle “Mark Probert Controls”

The American Spiritual Circle “*Mark Probert Controls*” constantly received messages from UFONAUTS since 1950 that completely coincide with the constantly received messages of the *Psychic peace Circle, Berlin* in every respect.

In America, twelve psychically gifted people of solid character had almost the same contacts with UFONAUTS.

Those that still doubt or deride this inter-planetary fact and regard the seriousness and value of these extremely important messages to be utter fantasies, are illiterate in respect to the psycho-sciences. Their inexperience turns them into culpable smart-alecks and their views have been refuted on all continents. The nuclear age and UFONAUTS belong together. They represent the preparations for the momentous events the future holds in store for us.

Questions and answers

February 1960

Question : *George Adamski* claims to have deciphered graphic characters from extraterrestrial sources in his possession in regards to the construction of spaceships. Is this correct?
We are most distrustful.

ARGUN : Rightly so, because these graphic characters are *not* genuine. I prefer to no longer answer such questions, because such cases bring discredit to all of Ufology. The truth is always followed by lies.

* * * * *

In regards to Michalek

The cosmic teacher ASHTAR SHERAN (A. S.) gives answers to the questions we posed.

Leader : What hides behind the machination of this *Michalek*?

A. S. : As I mentioned before, we do not know a *Michalek*.

Question : What are we going to tell the public about this?

A. S. : We are dealing with a pseudonym adopted by a number of people, ergo a group that would like to change the existing world-order.

Question : Is this group in any kind of contact with other extraterrestrials or with you, the

SANTINER? – Are you happy with these publications? - Why are we not aware of these plans and these preparations?

A. S. : These people believe in our existence and they endeavoured to make contact with us in any way they can. They did not manage to establish a genuine contact because, from a *character point of view*, they do not fulfil the required prerequisites. They say that their intentions are good, but they are actually very dumb. We do not accept them. Our plans remain a secret. We are however not your enemies.

Question : Where does this *Michalek Group* get its material from?

A. S. : They utilise all available UFO material, in as far as they can get their hands on it, and they build their plans on that. They count on the support of lots of friends of UFOS, that is to say, on our friends who expect a positive change to take place all over the world.

Question : Are financial means at the disposal of this group? If yes, where does this money come from? They are talking about gold from outside of planet Earth.

A.S. : We would smile about this if it wasn't so serious. But laughing about this would be demonic. Their means stem from lots of small donations by religious people who erroneously see a new messiah in the pseudonym "*Michalek*".

Question : Is it true that a target date has been set for the next months, something the journal "*New Europa*" claims?

A. S. : If "*New Europa*" – I mean the editor – is aware of such a target date or if he assumes that a landing will take place in the coming month, then all I can say is that: Even I am not aware of such a thing. A landing this year would trigger an enormous chaos and more than 2/3 of the terrestrial mankind would bleed to death.

- *This human race has to learn to believe in GOD first.*

A date for a landing was indeed set once before, but it was deferred; but this was a few years ago. The situation on Earth has continued to get worse.

Objection : We cannot comprehend that it is possible for such aberrations to be disseminated right under your eyes and that nothing is done about them.

A.S. : The *Michalek Group* set itself the task of removing the existing contrasts that exist between political endeavours. They are of the opinion that terrestrial people should do something of their own accord to support our invasion and to make it possible. They believe that we condone their efforts and that we will fulfil their wishes by undertaking a mass-landing one day. They are indeed disappointed, but they are not without hope, they pray that we descend from the heavens. Their hopes are in vain, because they speculate that such a landing will place all the might over this Earth into their hands. This group would like to have the *total control* over all of mankind in its hands, something the *Soviet Union* would also like to have – but finds no longer possible because of the *Red Chinese*.

Question : I asked you, why you do not prohibit this aberration?

A. S. : It would be akin to a criminal court and could only be accomplished by force. It is not our intention or our position to kill erring human beings. These *Michalek supporters* would undoubtedly kill the leaders of mankind if they were to gain power through us.

Cosmic Rescue (Psychic Peace Circle, Berlin)

It is clearly evident that one's knowledge and one's nous is *inadequate* when a phenomenon goes *beyond* one's knowledge and one's nous. This failure can however not be ascribed to the phenomenon itself. Such an interpretation is unparalleled nonsense.

The secret of flying saucers (UFOS) has not really been a secret for some time, but rather a phenomenon that is increasingly being unveiled. Those that still maintain that this phenomenon cannot be taken serious have not made one single step forward in regards to contemplating this issue,

Just how many truths do these cosmic messages, received through psychic channels, offer us in as far as they deal with inter-planetary spaceship phenomena?

One repeatedly tried to deride the messages from ASHTAR SHERAN or to call them pure fantasy. The great UFO message from ASHTAR SHERAN, "*Veritas Vincit*" however verifies that we were allocated an indoctrination here that we could never understand without its associated UFO phenomena. The brochure "*Veritas Vincit*" was successfully translated into Italian and then published by a spiritualistic community in Venice. Their address is: *Alaya-Anima-Universale – Venezia – Santa Margherita 3006 – Italy*.

ASHTAR SHERAN'S messages are *verified* by all the larger Christian-spiritual communities throughout the world – and to discriminate against the Commander of the Space-flotilla ASHTAR SHERAN is a devilish attack, particularly when *George Adamski* for instance asserts that: ASHTAR was in reality a figment of imagination, one that only exists in the imagination of spiritists. Those that have managed to read just one sentence of ASHTAR'S message must feel affronted.

The Italian community "*Alaya*" also received these kind of messages and we do not want to deprive our readers of their contents.

Omissis Mestre, 10/1/60

We will soon give you instructions. Suffices it to say for now that, the moment the attempt people have presently in mind has been thwarted, our activities will begin. Have trust, but above everything else, feel honoured to be allowed to fight under the banner of SPIRITUAL FREEDOM. It would please me greatly to see you united in harmony again – and my greetings and blessings are with you in the meantime. ASHTAR

Alaya – question : What kind of impression did the translation and publication of the brochure "*Veritas Vincit*" make on you?

Answer : *I understand your question and I would like to say that I have not come across anyone who understood things as you have. I am pleased to hear and observe how your thoughts accordantly assimilate our TRUTH. Continue with your alliance (association), because everything tends to attempt to unify. ASHTAR*

These words from ASHTAR SHERAN, received in Italy, were *absolutely verified* by our dear spirit

guide ARGUN in their entirety and he added:

ARGUN : *Alaya-Anima-Universale* is an open minded, sincere community, strenuously working on behalf of the truth. These inter-planetary messages are therefore genuine.

Questions and answers

April 1960

Question : Are there people on Venus who have lived there for millennia the way we live here on Earth?

ARGUN : All the people on Venus are *visiting* SANTINER (Support base). But a lot of their race of people have been born on Venus. They only managed to live there after becoming acclimatised.

Question : Is there also another solar system involved in the great “Action Earth”?

ARGUN : The SANTINER stem from *Alpha Centauri*. Inter-planetarians who have gained a foothold in your solar system are also participating in “Action Earth”. But all of them are SANTINER. No other solar system is involved, the action to reform planet Earth would otherwise be a lot easier. Whether other inter-planetarians will get involved has not been determined. It would however be possible, if certain difficulties could be eliminated.

Question : The vice-president of the Brazilian UFO research group would like to know why the details about the physical size of inter-planetarians vary so much?

AREDOS : This vice-president might be able to tell us why people on your planet Earth also vary so much in size and in colour? There are for instance a tribe of *Watussi* and a tribe of *Pygmies*.

Question : He would furthermore like to know on what level the UFO problem can best be clarified, on a psychic or a physical level.

AREDOS : On a *scientific-religious* level.

- *Acknowledge GOD’S and his HEAVENLY HOST’S existence and you will be absolutely on the right level in respect to the UFO problem.*

Question : The vice-president would like to know whether one has to know anything about aeronautics or technology or whether being a serious, tolerant human being with one’s own thoughts suffices to be a successful UFO researcher?

AREDOS : Neither one nor the other. One has to be a *humble, devout* co-worker within GOD’S PLAN who *dauntlessly fights for the truth* and who is prepared to be exposed to all kinds of ridicule. One will then be the right person for this bodacious affair, specifically if fate tested one’s mettle and if one can bear severe suffering without complaining about it.

Question : When will the truth about these contact reports be exposed?

AREDOS : *A part of this truth can already be found in the Bible.* Those that do not give credit to this truth will not be helped by taking a journey through space either, because they will continue to see this truth as a *technological marvel* only. The truth about UFOS is however a *divine* marvel and only GOD will determine the time of its divulgement.

Question : What are these flying saucers made of? Are UFOS metaphysical or purely physical?

AREDOS : They represent a *link* between the *spiritual* and the *physical* plane. UFOS are a great assimilation, they are neither purely physical nor purely metaphysical. One could say that they live in *both* worlds, according to what is required of them.

They first and foremost prefer a PLANE of VIBRATION that is invisible to you.

- *Your increased acceptance will make them appear more physical over time. This conversion is necessary in order to finally convince you of GOD'S occult existence.*

Question : The contact-friend *Orfeo Angelucci* asserts in his book that he suffered from a laps of memory for a number of days. He remembered later, after his body had returned to work and after it behaved completely normal again, that he had been in extraterrestrial regions. We think that something like this is impossible. How do you see this?

ARGUN : I answer on behalf of the INTER-PLANETARIANS. I am presently their mediator:

Orfeo Angelucci experienced the exit of his soul in conjunction with his ASTRAL BODY. The ASTRAL BODY and the soul are *two separate entities*. He had no knowledge of such spiritual possibilities. His personal GUARDIAN ANGEL, his GENIUS, having been with him for many years, as an exception took control of *Orfeo's* body and utilised his brain's functions. Seizing somebody's body like this is difficult and dangerous and this is why it is a rarity in itself. His GENIUS went to work in *Orfeo's* body and managed to cope with his private life, because he was familiar with everything.

Orfeo was in *spiritual* REGIONS whilst this was going on, but *not* on another planet or on a space station. The soul remains connected to the *spinal cord* and the *solar plexus* via a delicate ASTRAL CORD during an ASTRAL EXIT from a *living* body and this is why the range of action is relatively small. Its maximum does not reach beyond a mile.

AREDOS : It is quite possible to suggest certain imaginary processes to the soul that will seem to be taking place. The experience of such processes seem *very real* and they hardly vary from terrestrial, physical experiences.

Adamski also had a number of such experiences that he considered as absolutely experienced later on. The INTER-PLANETARIANS left him in the lurch, because he unfortunately derides the REALM of the SPIRIT and now only thinks and acts along material lines like an atheist. *Adamski* has a completely false concept in respect to GOD and his REALM, but a lot of what's in his books is true just the same.

Question : Why did *Orfeo's* GUARDIAN ANGEL not clearly reveal himself? – Why didn't he simply say for instance: "I am the GENIUS and the situation is like this..."

AREDOS : This would only have been possible if this world possessed *better* insights. *Angelucci's*

GENIUS with its body would have been branded insane in this case and *Angelucci's* UFO experience would have been regarded an insane pomposity and an aerial fancy. Contactees are in any case already arousing the suspicion that they might be schizophrenic.

May 1960

Question : Are there people on *planet Mars* one could call Martians, ergo people that are absolute natives of Mars?

ARGUN : *No, there are no Martians* – least of all the way your visionaries depict them. Mars is also occupied by the SANTINER. The climate there is conducive to their constitution. Air-conditioning has to be installed on almost all other planets or the SANTINER have to get acclimatised, something that is often very difficult and claims a lot of victims. This might sound incredible to most terrestrial human beings, but how should they know if they do not listen to or give credence to cosmic messages?

Question : How high do you estimate the maximum speed of a spaceship to be when it flies in a physical state?

ARGUN : This varies a lot when flying in a physical state, it is between 10,000km/h and 25,000km/h in your atmosphere. They fly faster than the speed of light through space, but this in a dematerialised state.

Comment: See brochure: "From Star to Star". The SANTINER gave some accurate information.

Question : Is it true that the SANTINER send radio signals to Earth?

AREDOS : This is very rarely the case. Radio signals meant for operating UFOS are however quite often intercepted. The SANTINER utilise far speedier telepathy for longer distances.

May 1960

Message from the stars (Psychic Peace Circle, Berlin)

Politics doesn't deal with the truth all that accurately. Coercion and a craving for power have been rated *higher* than the truth for millennia. This seems to have virtually turned into a "law of nature" here on Earth, because the Churches and religions throughout the world are *paralysed* and obstinately fight against all indoctrinations that reprove their present knowledge.

The despots of this humanity took a very distinct stance against the *ufology* problem. The *Soviets* publicly distanced themselves from flying saucers and alien spaceships with derision, well even by boldly rejecting the problem. But now, all of a sudden, after the *Soviets* gained an advantage in space research that gobbles up an enormous amount of money, they endeavour to quickly correct their past rejecting attitude against ufology. The *Soviets sciences* suddenly accept the possibility of life on other planets and beyond that the possibility that highly intelligent human beings have visited us for centuries. What a turnaround! – One has to remember the derision newspapers spread in the past.

Those that seriously search for the truth by applying their own logic have known for quite some time that the inter-planetarians worry about our existence. Well, the *Soviets* see this issue from their

own perspective to begin with, namely solely from a *technical* point of view. This is at least one step in the right direction. The real perspective is however somewhat different: Not only interplanetary flying object penetrate our sphere of existence, but extraterrestrial messages do so at the same time too. The way this happens is unusual, because - just like the *Soviets* – we abnegated such possibilities up to now. These messages from the stars reach us through ghostly means most of the time, either through convincing telepathy that virtually borders on possession or clairaudience – ergo through psychic, that is to say, spiritual means like for instance also during a trance state or automatic writing. It is therefore not surprising that these messages are opposed by a lot of scepticism.

The inexperienced should take note: Even though spiritual or other occult phenomena are very differently publicised in individual countries here on Earth, almost all countries have either secret or public Christian/spiritualistic communities or circles with far in excess of 100 million members (1960). This represents an enormous religion and a very respectable Church (including all secret groups in the *Soviet Union* and also in the other nations behind the *Iron Curtain*). These communities unfortunately do not strive for unification, because they do not want to fall prey to a materialistically minded governing body with the inherent danger that the truth will be suppressed or falsified through unscrupulous white lies.

But enormous cosmic processes are taking place in spite of this so that all these millions of spiritually educated people can unite under the same GUIDANCE, something they undoubtedly deserve. This GUIDANCE, who represented a spiritual, ergo invisible GUIDANCE up to now, will soon be replaced by a very visible LEADERSHIP.

All *spiritualists* and like-minded seekers of the truth will be gathered together in a formidable army under the banner of a cosmic religion and of terrestrial renewal. The LEADER of this worldwide community is absolutely able to defend himself and the community against all attacks and all derision.

He is the biblically prophesied SON of MAN.

The SANTINER are the ones that will help us.

We are presently processing the wonderful transmission from ASHTAR SHERAN, the commander of the space-flotilla. As from the 1st of June 1960, we will release his wonderful expositions to the public in our brochure "*From star to star*".

Words from ASHTAR SHERAN

The great despots on this Earth have always derived their courage from their *disbelief*. We now have to wait and see whether they will now derive their courage from their *beliefs*.

Avow yourselves to the truth and get rid of all aberrations once and for all!

IN NOMINE DEI!

From the knowledge and the experiences I gained from the divine spheres and the material regions, places that are of incredible dimensions in your eyes, I can tell you that the demise of this Earth is not at hand and that this terrestrial human race cannot be annihilated.

- *I will however repeat the words of your MESSIAH, namely that the unfaithful and dangerous despots of this world will fall prey to their arrogance, the way all that is imperfect and against the laws of nature, things that cannot be improved, are destined for destruction.*

June 1960

They do exist after all...

Theology has made the great mistake for millennia of calling man's creation something apart from the rest of Mother Nature, ergo *only created for this Earth*. Today's acknowledged infinity of space refutes such an insane assertion.

This assumption was also refuted from a purely biblical point of view thousands of years ago through visual facts.

The Earth was already visited by people from distant stars at biblical times. These encounters between terrestrial and extraterrestrial people were unfortunately *misunderstood* and *misinterpreted*. These visitors were often called "angels", because they could hover and as they had control over the laws of gravity, one endowed them with wings.

The fact that our theology hardly paid any attention to inter-planetary spaceships is deplorable. These miracles represent a considerable component of the Bible. These phenomena in particular have given rise to the greatest mistakes, because due to a lack of applicable comparable technology, one was unable to understand their significance. All lot of these types of reports had perforce to be regarded as pure products of fantasy, legends or fairytales.

We must unfortunately admit that the psychic messages that reach us are also not believed by most people, because people lack experience in such matters. We are therefore more than pleased about the fact that the people from the stars transmitted only just recently reports that completely explain the thousands of year old, highly controversial theme of biblical miracles. Our brochure "*Veritas Vincit*" (truth wins) already supported the great work of elucidation by our brothers from the stars in this direction. We are once again in the happy position of continuing with this bodacious elucidation.

The new, just now completed brochure "*From star to star*", to be published in a few days, irrefutable verifies that the brothers from the stars, ergo from other planets, really exist – and that they *actually* act within a *divine assignment*.

Radio Moskau publicly requested GOD, if HE really existed, to show himself. – GOD does not fail to give an answer. HE reveals himself in his own way. HE authorised his MESSENGERS *to verify HIS DIVINE EXISTENCE*. All readers will find this revelation in the new brochure by ASHTAR SHERAN "*From star to star*".

Communism, nihilism and atheism have always placed all raised objections against religion *at the disposal of politics*, but no existing philosophy can circumvent this truth. These revelations from interplanetary regions will introduce an enormous change in all our thought processes. All human beings interested in peace and harmony will sense a divine CALL within that encourages them to co-participate in this bodacious act of elucidation.

Questions and answers

Question : We can gather from your answers that our brothers from the stars do *not* represent a *bellicose* power. Are Ufonauts neutral?

ARGUN : They are neutral *and this is why they do not appear at this point in time*. Everything that takes place according to GOD’S assignment *is divine and non-political*. No disputes should ensue, it should rather remain a divine phenomenon.

Question : These inter-planetarians will therefore not attack unless we attack them first?

ARGUN : Do not worry about this. A third global destruction will not come about.

- *Do not allow yourselves to be misled. Trust in the things that you know, because it is the unadulterated truth – and it allows you to behold and to enjoy a beautiful life. Everything negative makes you only nervous and discontent, without actually changing anything.*

Words from ASHTAR SHERAN

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS

And the LORD’S word becomes active and it says to you: Because the time has come where the enemy of goodness and justice has established its domicile here on Earth, I will have the Earth cleansed. The enemy of goodness and justice will now assemble mankind in order to lead a battle against everything that is positive. This is why I call upon you:

Be on guard and pray!

We were once called CHERUBS, one thought in the past that we were GOD’S ANGELS. Well, we are *not* ANGELS, but *we are* CHERUBS, that is to say: GUARDIANS of ORDER within the divine inter-planetary. Terrestrial mankind has overfilled the cup of its sin. Blasphemies have become the order of the day. Read what’s in the Bible:

“I will make a new Heaven and a new Earth!”

Terrestrial mankind has depended on the interpretations and falsifications of dogmatic and egotistical theologians for millennia and not only based their lifestyle on them, but also abided by them.

Those that believe in lies will perish.

The SPIRITUAL CHURCH of the Son of God JESUS CHRIST will finally put an end to all these lies. This MISSION is indeed supported by GOD’S heavenly flotilla and its might is not from this Earth.

Do not be afraid when theologians and the powerful of this human race *force* us to darken the sun.

ASHTAR SHERAN.

August 1960

Spaceships are of divine origin

Our open-mindedness in regards to INTER-PLANETARIANS has been increasingly rewarded during the last year. The brochures we published are the best evidence of the extraordinary insights that were transmitted to us.

This “*beating around the bush*” by the powers that be in almost all nations unfortunately led to a situation where large sections of the population regard this serious UFO problem a utopia or the misguidance of mankind even now. It is of course a misguidance in as far as governments really *desire* and *promote* this ignorance. The reality is that these inter-planetary spaceships are as real and as current as nuclear bombs; because governments in particular grab all documented material in order to keep it secret.

UFOS could also possibly turn into a threat for negatively minded people; but they can also stage the salvation of the world, depending on how we behave in the near future. Their intentions and aims have been clearly established.

The Churches balk at this.

Using biblical comparisons, their existence can be traced back for thousands of years. Those that express a negative judgment in respect to this phenomenon without actually studying it more closely have no inkling of biblical or divine events. Even the Churches can no longer heedlessly pass these urgent facts by; because the evidence of their absolute existence has never been more coercible for many thousands of years.

- *What is conspicuous is that these spaceships have always co-operated in connection with a divine PREPLANNING. The “Miracle of Fatima” or the “LEGISLATION received on Mount Sinai”, it matters not how and where, have one thing in common, namely that the INTER-PLANETARIANS were always the messengers that proclaimed the divine will.*

This is why the appellation of “Flying Saucers” is virtually a blasphemy. We will in future no longer use this appellation and we advise all our friends to avoid this nonsensical appellation also, because only the antagonist could have come up with something like that. These spaceships are not modelled on any saucer and they also do not have that shape.

- *These cosmic flying objects have been modelled on a bodacious example of divine CREATION according to their purpose of application. This bodacious model is the giant energy nebula we have labelled **Spiral Nebula NGC 4594**. This enormous, brightly illuminated spiral nebula has stood as the best shape for the SANTINER’S fast spaceships for many thousands of years.*

We are therefore *not* dealing with “Flying Saucers”, but with cosmic spaceships that were developed based on a divine model for divine assignments.

- *Their true appellation in religious Latin is: NAVI-DEU, that is to say, GOD’S flying ship.*

These flying objects deserve our highest acknowledgment and esteem – and not slanderous derision. We are dealing with spaceships of great beauty and perfection, designed and completed by the great CREATOR’S hand.

UFOS are divine flying messengers

We initially did *not* intent to deal with the UFO problem. Our work *exclusively* dealt with the realm of the spirit. Our mediums were ultimately simply *employed* to transmit these UFO messages.

When we brought these messages to the public's attention we were reproached, because these messages also dealt with GOD and with his LAWS. We were advised to specifically deal with the *purely technical* side only. It has however been very clearly established in the meantime that these inter-planetary spaceships actually do come to us on a divine MISSION. This is the reason why we should not be confused about the fact that their messages utilise *spiritual* means.

It is worthwhile to have a look in the Bible in regards to this affair in order to undertake a comparison between traditional reports and today's UFO sightings. It must a priori be said that UFOS, and all larger spaceships, *emanate a brilliant light*. They shine from a *blue-white* across all the nuances to *orange* and in their last state, a *dark red*. With the light-aura switched off, the material appears *diaphanous, crystal-like* with a *metallic sheen*. The colour nuances oscillate and they are mainly *ocean-green, delicate blue, opaque* or a *smoky grey*. Let us compare these assessments with reports in the Bible:

Exodus 13, Verse 21: During the day the Lord went in front of them in a pillar of cloud to show them the way and during the night he went in front of them in a pillar of fire to give them light.

Exodus: ... and they saw the God of the Israelites. The ground at his feet looked like tiles made from sapphires and as clear as heaven itself.

Ezekiel 1, Verse 4 - 18: I looked up and saw a windstorm coming from the North. Lightning was flashing from a huge cloud and the sky around it was glowing. Where the lightning was flashing something shone like bronze. At the centre of the storm I saw what looked like four living creatures in human form, but each of them had four faces and four wings. – As I was looking at the four creatures I saw four wheels touching the ground, one beside each of them. All four wheels were alike, each shone like precious stone. – The rims of the wheels were covered with eyes (portholes).

Ezekiel 1, Verse 26 – 28: Above the dome there was something that looked like a throne made of sapphire and sitting on the throne was a figure that looked like a man. The figure seemed to be shining like bronze in the middle of a fire. It shone all over with a bright light that had in it all the colours of the rainbow.

Combing through the Bible further one can find lots of such clues about GOD'S flying ships, the "NAVI-DEU". But one traditional clue from CHRIST'S own mouth is most informative for our time. It is written in the Bible:

A number of scribes and Pharisees answered him: Master, we want to see a sign from you. He however answered them by saying: An evil and apostate genus covets a sign, but apart from a sign from the prophet Jonah, a sign will not be given to it.

The *prophet Jonah* was however *not* inside a whale for three days and three nights, he was inside a spaceship of the SANTINER (Cherubs). – We can therefore not entertain the slightest doubt that UFOS are indeed divine flying ships, engaged in CHRIST'S great mission of salvation. This is why it states: In the radiance and the glory of the LORD.

Something in regards to our brothers from the stars

Even though there are millions and millions of people that have never ever heard of planetarians, there are also a considerable number of people who have *witnessed* spaceships first hand. But one of the most important facts consists in that the PLANETARIANS are very closely aligned with *spiritualism*, because spiritualism represents an opportunity to communicate with GOD'S INTELLIGENCES and it knows no language differences. Every word can be replaced by a concept.

Our brothers from the stars also form part of GOD'S INTELLIGENCES, because they exist on the boundary between spiritual and physical beings. If purely spiritual beings find it difficult to gain credence with materialistically minded people, the brothers from the stars might find it easier to clear out academic mistakes in a more convincing manner. We have had a number of interesting experiences in this respect.

- *Whilst we are able to make appointments with spirit beings from the hereafter, we find that this is not possible with the planetarians.*

All kind of doubters like to assert that the medium itself fulfils the desired dreams of the circle's participants by being able to make contact with otherworldly beings at any given time. A belief in the genuine contact with INTELLIGENCES from the otherworldly SPHERES is no longer required. – The MESSENGERS of LIGHT are indeed *very punctual* and they answer all questions surprisingly sound and rapidly. This is however not particularly convincing to critical sceptics. They assume that the medium dupes itself by unintentionally answering all questions of its own accord. The reality is that the knowledge of the otherworldly entities *surpasses* the power of imagination of terrestrial people. If sceptics were correct in their assessment one would have to find it quite incredible that a good medium does not receive a Nobel Price for higher knowledge.

The situation with our BROTHERS from the STARS is however completely different, they cannot be beckoned under any circumstance. One can do whatever one will, they do not come at an appointed time, even if our curiosity or our urge for knowledge burns in our hearts. The BROTHERS from the STARS determine the time of their arrival themselves or they appear quite spontaneously. They do however never force themselves on a circle, that is to say, they certainly do not intrude into any contact with the hereafter. Any contact with our BROTHERS from the STARS is always a separate meeting in itself and the composition of the participants is a decisive factor. – The fact that the medium does not fulfil any desired wishes and is actually completely powerless in any of these cases is therefore very specific evidence of the genuineness of these spiritual contacts.

When our BROTHERS from the STARS announce their intention to visit us we have to leave at least one window open. A bowl of fresh water must be placed on the table. The arranged time must be adhered to to the second; because the planetarians are extraordinarily accurate with their answers and painfully accurate with their promises. They do not have one minute to spare for any irrelevances or a salutation without an important attached message.

- *Sceptics will however find their doubts confirmed wherever brothers from the stars arrive on command and engage in frivolous conversation; because these mediums fulfil all the desired dreams of the circle participants.*

- *7 or 8 months can pass where no planetarians will come in spite of all our pleas. We are dealing with a genuine contact when a genuine contact, as an exception, becomes possible after such a long time and when all participants show symptoms of radiation sickness. This is the true reason why they come to us only on rare occasions.*

An excerpt from a speech given by the SANTINER and cosmic teacher ASHTAR SHERAN

PEACE ACROSS ALL FRONTIERS!

We have the capability of seeing and hearing everything that takes place in secrecy behind closed doors. We are like all the invisible souls that are around you day and night. Due of these experiences we are deeply shattered.

- *We know of no other planet throughout the explored universe where such a lot of lies, falsehoods and dissentions take place.*

The nations on this Earth are not aware of the truth and we *cannot* fully convey it to you, because we do not want to expose our terrestrial mediators and mediums to persecutions. But let me tell all of you:

- *You are capable of doing everything, but not when it comes to do GOOD!*

We have known you for a long time and we recorded the measure of your misdeeds. This chronicle contains facts like:

- *Mountains of wheat were burned whilst millions of people died of starvation.*
- *Thousands and thousands of tons of comestibles were thrown into the sea in order to keep prices high.*
- *Hectolitres of milk were poured down drains.*
- *Savers were cheated out of their hard-earned cash.*
- *People were placed under lock and key because they knew something the public was not supposed to hear about.*
- *Newspapers were bought or bribed in order to hide injustices committed by the rich and powerful.*
- *Princes of the Church engaged in battles in order to maintain their profit-yielding supremacy.*
- *Millions of people are cruelly slaughtered, without sedation and worse than cattle, because a group of power-hungry, egotistical and faithless people defend their positions through the blood of the people.*

We, your BROTHERS from the STARS *mistrust* you – but GOD still believes in you, otherwise something calamitous would have happened on Earth a long time ago.

Human beings are not a terrestrial, but a *universal* creation by GOD and brought into being for the sake of intelligence. They are called upon *to explore, to recognise, to maintain* and *to improve* the divine universe. If human beings were *not* capable of doing this, GOD would not have to have created a universe.

Human beings can traverse though all the levels of the universe, upwards and downwards, because they have the immortality of GOD'S inheritance within themselves and they can continuously create a new physical body for themselves for millions of years. The divine soul does not die when its organic functions come to a standstill.

The fact that your sciences or theology has not correctly recognised these coherences is a devastating and abashing sign of *malevolent inactivity* and *abhorrent egotism*.

Terrestrial man has been trying for millennia to rate his mind *higher* than any divine INTELLIGENCE. This blasphemy represents the pathological cell within terrestrial mankind and the SPIRIT called LUCIFER has prevented this cell from healing.

To enhance your *higher* insights I can tell you that your despots and the leading lights of your intelligence, respectively your human intellect, could not maintain their eminently responsible positions if it were not for the distressing number of *callous* and *asinine* people here on Earth. These ignorant people *require* the dullness of the masses; because when only a handful of really knowledgeable people fight for the truth, they will find that they are *alone*. But when people see what the masses do, they are inclined to believe in its ravings, because they lack their *own* discernment and appreciation in regards to the truth and true *justice*.

Mankind's leaders established a nimbus for themselves, one that is unconditionally revered by the unsuspecting and ignorant majority amongst the world's nations, even if they go to rack and run in the process.

December 1960

An excerpt from a speech given by the SANTINER and cosmic teacher ASHTAR SHERAN

PEACE ACROSS ALL FRONTIERS!

Dear friends, my name has been *abused* in a most shameful manner by a former medium in the South-West of England and this for quite some time. A pathological craving for recognition is the cause for this mental derailment. The things that are reported about us are bereft of the truth and defy all logic.

The almighty GOD of positive development has not yet given us permission to interfere in the affairs of this planet through the application of severe measures. We are all too aware that HIS knowledge and HIS projections of the future eliminate all doubts and all criticism. HE alone knows what is in store for your planet.

Time is something the human mind cannot grasp. Nobody knows when they have to die. No human being knows what the future brings. No human beings know how much time GOD requires to perform a miracle. – But we know with absolute certainty that we have *to expand* the UNIVERSAL BROTHERHOOD here on Earth and this is why we are your BROTHERS and *not just* planetarians – as you like to call us. You are *ashamed* to call us by our correct name; you would otherwise call us “GOD’S MESSENGERS”.

There is only *one* planet in two, to us well-known star systems, where the word GOD is a *cuss word* and a disgrace. There are plenty of people amongst our best friends who work on our behalf who are *ashamed* to use this appellation, but *still* yearn for extraterrestrial help in spite of this. – We observe and monitor everything that takes place on your planet. Almost nothing of importance escapes our attention.

Every one of you would like to get the most out of this life and this as much as possible. But hardly anyone on this planet is interested in what happens after your physical demise! The young people presently living with you at most only interest you in respect to how they can be politically abused and how can the future generation be of interest to you if it has not been born yet and if it has to deal with the sins of your ungodliness?

You will have realised by now that we hardly ever entertain intimate contact with you, ergo that we *avoid* direct contact with you and that we come face to face with you only on very rare occasions – not because we fear you or are afraid of catching a disease from you. *We are not allowed to do so*, because it is not provided for within GOD’S plan of salvation.

- *We require the approval of GOD’S REALM for everything we do here on Earth.*

Those that were fortunate enough to see one of our spaceships have visible proof of GOD’S existence. – And those that were fortunate enough to encounter one of us will have seen a messenger of GOD, a CHERUB. – Those that were however privileged to receive a message from us have the advantage of having heard a message from GOD. – Those that are however fortunate enough to *read* such a message are touched by the waft of the HOLY SPIRIT and they have to opportunity to proceed on the path GOD illuminates for them.

- *Your life here on Earth is not a coincidence. It was your own, ardent desire and an act of inconceivable grace made it possible. Providence and the LORD’S enormous ORGANISATION prepares your terrestrial existence in every individual case – and you selected your parents and procreators yourselves.*

Your thanks for this bodacious grace consists in your devilish *discontentment* and in the *abuse* or waste of your whole life on Earth. Your governments, newspapers, television stations and radio technology *supress* all evidence of our existence and our endeavours, so that no hope and no faith in divine HELP can arise. GOD cannot be held up! I will soon return and I will enlighten you in a most dramatic manner.

Questions and answers

Question : Are there people on our planet who are in possession of construction plans for spaceships that stem from our BROTHERS from the STARS?

ARGUN : No, there is presently not one single human being in possession of such plans. All of these assertions are *untrue*. All these people want to do is to draw the attentions of others in order to look interesting. There are however constructors that deal with such plans for spaceships – and they can come up with something of their own in this field of knowledge.

February 1961

A transmission from ASHTAR SHERAN

A large section of terrestrial mankind is *evil*.

Another section of this human race is *arrogant*.

A further section is *impatient*.

Those that have complaints about their fellow human beings would like to change a four-thousand year old development *overnight*. These people demand from MESSENGERS of LIGHT to accomplish such a miracle; they would otherwise not be regarded as divine delegates.

- *We ourselves do not produce divine miracles – we help to prepare them or we accompany them.*

But we abide by *every* divine assignment. If we were told: Destroy Moscow or New York to the last human life! – We would *abide without hesitation*; because the responsibility lies with the CREATOR, the CLIENT, and *not* with us. We have no right to criticise HIS decisions, we just have to carry them out. We can however not destroy a locality of our own accord. We serve LOVE and not revenge!

The thing that one is however expecting from us is revenge. But I have to disappoint everyone in this respect. GOD will also not be a revenger. HE has another PLAN. The last word is however with HIM. HIS hand is still raised, it has not yet come down.

- *We assume that terrestrial mankind is supposed to be made judicious through a great indoctrination.*
- *The ships from the heavens will not undertake a major mission until mankind has been reasonably orientated in regards to what kind of event they are dealing with.*

One was aware of what kind of event one was dealing with four thousand years ago. But one soon enough *forgot*. This terrestrial mankind unfortunately only treads the line if confronted by severe threats.

We work with all our might to enlighten you and we wait to see whether we will succeed.

The work of the SANTINER (Cherubs) (By H. V. Speer, leader of the Psychic Peace Circle, Berlin)

Would anybody have ever entertained the idea a few thousand years ago that planets from *other* star systems could also be inhabited by living things? – Would anybody in the past have entertained the idea that one could fly from continent to continent with planes weighing tons? - Would the thought that the world could be effortlessly travelled across with the help of petroleum been possible in biblical times? All of these technological acquisitions, including electricity, radio and television, not to mention nuclear physics, were *unknown* to these people. The fact that spaceships from other planets that visited our Earth were thought to be “chariots of angels”, well actually “GOD’S abode”, was the result of this ignorance.

The occupants of these heavenly ships made an impression on the people at that time that was so powerful that it remained conserved in the Bible to this day. The “Star of Bethlehem” is also a part of these miracles and the proclamation of CHRIST’S birth by shepherds as well. *Elijah’s* trip to heaven in a “fiery chariot” and CHRIST’S “Ascension” are also part of this. The “miracle of Fatima” is the same type of phenomenon.

The SANTINER work on behalf of GOD. One can investigate all of these miracles, but one will always come to the same conclusion, namely that the WORLD of the SPIRIT has a hand in these heavenly apparitions.

The daily press recently published renewed reports of observations of *balls of fire* sighted over various countries. These types of balls of fire are “Stars of Bethlehem”, ergo spaceships on an ASSIGNMENT from GOD, proclaiming to us that our world is under constant surveillance.

* * * * *

March 1961

Question : Can we still expect a mass-landing by our brothers from the stars?

ARGUN : This is *not* on the cards at this point in time. The present mental constitution of terrestrial mankind would only cause a great panic. One would say: “The Martians are coming!” – One would not even assume that one was dealing with a divine event, only with a negative event. This is why everything must be prepared judiciously, without any mistakes; because mistakes could mess up everything. I am very careful with dates, it could be tomorrow, but also the day after. A question mark still hangs over everything.

Question : Is there a still undiscovered planet between Saturn and Jupiter called “Rhumba” that is supposed to be a major base for spaceships?

ARGUN : I only know of one Rumba and that is a dance. This is a *lot of nonsense* and a lot of other nonsense also stems from the same source.

Something about ASHTAR SHERAN (Psychic Peace Circle, Berlin)

We have to put up with the fact that people from other star systems have completely *different* insights in respect to the natural sciences than we have. Things that seem like unbelievable fairytales to us are normal matter of course things to them. This is why it does not make sense to deny their human existence, we just have to accept them as they are.

The cosmic teacher ASHTAR SHERAN transmits some very conclusive messages from time to time. These communications are no spiritistic gimmicks, but a reality that *doesn't* just make an appearance in *specific* work circles, but also in the USA, Italy, England, Germany and in other countries. This eminently spiritual GUIDE naturally selects very specific, suitable mediums for his task.

But there are also egotistical people and racketeers that *abuse* his name or are abused by the *negative* WORLD of the SPIRIT due to their defective spiritual mentality. But those with a genuine sense for the truth, for justice and for LOVE will find out by themselves just which message is genuine or falsified. – It has to be pointed out in this respect that the SANTINER, as these human beings call themselves, do not intent to force fantasies upon us that cannot be checked. They do not tell us fairytales or novels, but are engaged in our *systematic* indoctrination in order to bring our terrestrial spiritual mentality to a *higher* level.

It is therefore completely nonsensical to believe that the alleged messages were received during “terrestrial conferences” with Ufonauts and are supposed to have taken place between circles and mediums. SANTINER contacts are not conferences. Fantasies about electrically charged space animals or sunspots generated through storms on the sun’s surface, as well as “Motsum-rays”, are lies from the regions of the ANTI-SPIRIT. They only cause damage and they discredit the SANTINER.

Our last cooperation went hand in hand with our otherworldly teachers and the SANTINER. The results we managed to achieve give us a completely clear picture of what HEAVEN has to offer. Our LOVE and respect for this spiritual HELP has been enhanced whilst we were engaged in this work. We deeply regret the fact that only a few people find it possible to engage in such cooperation between extraterrestrial and terrestrial INTELLIGENCES.

Our limited resources unfortunately only allow to publish abridged results – but brevity is sometimes the soul of wit.

We do not formulate fairytales of “solar generators”. The things MESSENGERS of LIGHT or the SANTINER have to tell us is of enormous scientific importance and attract a lot of interest in leading circles throughout the world.

It is unfortunately impossible to publish the numerous confirmations and thank-you notes we receive for the work we do. It isn't really our intention to engage in propaganda. All we recommend is our work, that is to say, we draw people's attention to it and leave it up to spiritual FORCES to promote it and to bring it *to the attention* of responsible people.

ASHTAR SHERAN is no fairy-tale figure, but a current phenomenon of our times.

The highest ranking people within the United Nations are aware of our work.

The truth about ASHTAR SHERAN

There are still certain doubts about whether the cosmic teacher ASHTAR SHERAN really exists. One is asking whether he is a fictitious figure or whether he can be ascribed to the over-the-top fantasy of religious fanatics or spiritists. The truth is:

ASHTAR SHERAN really exists!

It has been asserted on various occasions that ASHTAR SHERAN'S messages are not identical to other ASHTAR messages. We would like to give a few explanations to clarify this misunderstanding. This will be of great interest to our readers and it will open their eyes.

The *Psychic Peace Circle, Berlin* (Mediale Friedenskreis, Berlin) is an organisation that works under all sorts of conditions, that is to say, under the *most severe* conditions on behalf of the objective truth and world peace. Failures, attacks or deprivations can therefore not discourage us. As a peace organisation we are obliged to remain tolerant in respect to all attacks and defamations. We do not retaliate with the same weapons, even if we could do so.

The representative of GOD'S divine PLAN of SALVATION, ASHTAR SHERAN, prefers to not expose his physical body to life-threatening dangers. This is the reason why his act of salvation is carried out along *psychic*, respectively *spiritual* lines. This type of contact has been *prescribed* by the highest spiritual AUTHORITY – and this includes, amongst other things, telepathy.

ASHTAR is his *name*. - SHERAN is his *title*. – He appears at the following places on Earth in order to perform his astral duties: In *Germany, Italy, Japan* and in the *USA* (California), on rare occasion in *England* and twice in *Brazil*. German is his preferred language.

A certain faction asserted immediately after the appearance of our brochure "*Not from this Earth*" that this ASHTAR SHERAN was different to the one that was active in California. When we asked ASHTAR SHERAN himself, he told us in the presence of witnesses that this assertion was incorrect.

There are indeed a number of contradictions between the American messages and those from the *Psychic Peace Circle*. We have now been able to get to the bottom of these contradictions, respectively clarify their development: The first ASHTAR message came via the telepathic medium *Mrs. Hill*. The *New Age Publishing Company* in *Los Angeles* published this message. This organisation acknowledged the proclamations of the *Psychic Peace Circle* as genuine continuations and it asked for the right to translate them. The lady translator unfortunately died. The proclamation via the medium *Mrs. Hill* were translated into German by Frau *Cläre Müller*, Düsseldorf. The *Ventla-Verlag* in *Wiesbaden-Schierstein* published this translation under the title of "*In coming Days*".

The American messages were later compared to the German messages; they only tended to show slight differences. These contradictions however sufficed to have people attack and boycott the proclamation "*Not from this Earth*".

The publisher *Karl Schönenberger*, Switzerland demanded that the *Psychic Peace Circle, Berlin* included the fraudulent action of "*Michalek*" in the *Menetekel*. We balked at this impertinence. This made the publisher forgo all his obligations and he ceased all payments to the *Psychic Peace Circle*,

Berlin. The losses had to be borne by the Psychic Peace Circle, Berlin, because we completely disassociated ourselves from the publisher. Every *Menetekel* subscription *Karl Schönenberger* profited from was delivered to people *free of charge* – a loss we had to bear. All further ASHTAR messages were duplicated and disseminated in their original form by the Psychic Peace Circle, Berlin from then on.

We always defended our position against the action of “*Michalek*” and we made this very clear to our readers. We have always warned them.

A *Mrs. Elle Elbert* (44) from Los Angeles, California wrote the following lines and we reproduce them here unaltered:

Los Angeles, the 13th of January 1961

“...I have actually been in writing contact with lots of Germans in Germany for many years (since 1946), amongst others also with the *UFO Study Group, Wiesbaden*, but not one word was ever mentioned about these books. They always told me that nobody else had contact with the BROTHERS from the STARS there and they always placed great importance in the scripts and bulletins of *American* contactees that were translated into German.

Your books have coincidentally fallen into my hands through our American contactee *Mr. Michael X. Barton* who is also the publisher of a number of UFO scripts and I am indebted to him, because I find that apart from ASHTAR’S first proclamations received through the above mentioned mediums, they are the most beautiful and enlightening amongst all the other literature I have read so far.

A German translation of ASHTAR’S book “In days to come” (by Mrs. Hill) was made titled “*In kommenden Tagen*”. Even though it can be regarded a literary work, it is unfortunately not a true-to-original translation, (ASHTAR said so himself). As I have accurately compared it with the original English text, I am in a position to assess this. I do actually translate things myself. The translator *Frau Cläre Müller, Düsseldorf*, has according to my opinion, completely ignored or omitted the most important fact, the affectionate character of ASHTAR is not expressed and does not come to the fore in this translation as it has been completely perverted.

I had the opportunity to personally meet the lady in question last October... What else can one expect? – SETUN SHENAR expressed this in Volume 3, page 58 in these felicitous words: *You do not have the feeling for a genuine, trustworthy friendship and LOVE the way we have for you,*” – This is exactly how I also feel. This is actually the case. –

I have now dared to draw the attention of the publisher of the translations of these very important messages to these pervertions and I expressed my opinion that these are not faithful translations, and what do you reckon their answer was? – I do not dare to talk about this! – *Mrs. Hill* received the second part of ASHTAR’S book soon after, but it was been published here. I made a German translation at that point in time and I sent it to *Wiesbaden*, but they also did not publish it there either.

What an interesting account. A commentary is superfluous. –

ASHTAR SHERAN told us the following in regards to this a few days ago:

- “*There is an intolerant will for autarchy here, one that would like to exclude all other contactees.*”

Something like this is only possible here on Earth.

Every reader is asked to seriously contemplate this. They might then better understand the nerve-unsettling battle we lead. We really have to feel ashamed in front of the SANTINER; because they

give us knowledge, truth and genuine LOVE. And what do *we* offer in return? – We behave like the *hypocrites* and the *priests* that danced around the *Golden Calf* 4,000 years ago. We rate GOD *lower* than terrestrial technology. (Technology comes first.)

May 1961

We conversed with ASHTAR SHERAN (A. S.)

A. S. : PEACE ACROSS ALL FRONTIERS! – Faithfully yours, ASHTAR.

Question : We do not see you. You utilise the hand of the medium. May we know how far you are from your body?

A. S. : The spaceship is about 20,000 meters above this house. You cannot see it. I am connected to my physical body via a fine strand (called “silver-cord”). I have one hour at my disposal to answer your questions.

Question : Did we formulate your message the way you meant it? Are you satisfied with the result?

A. S. : Our friendship has become more intimate and I am very pleased about this. I do not only want to thank you with words, but also with my heart. Everything you try with good intentions is of help to us. This thank-you also applies to the *Alaya* (The Italian spiritual community in Venice). You can count on their help and I also visit them in Italy. Write to them in person, tell them that I rate their work very highly and that I stand by them at all times.

Question : The medium *Mrs. Ethel Hill*, Coleville USA, is supposed to have received a second message from you, but it has not yet been published. Is this correct?

A. S. : No, not quite, because this message was transmitted by one of my FRIENDS. It was not me. There is no need to correct it.

Question : We are often asked why there is such a lot of disunity amongst UFO experts. We are in possession of lots of letters wherein the readers of our brochures complain about the fact that your messages are doubted by certain people. What are we to do about this?

A. S. : I am aware of all of this. It is a cause of annoyance to us too. The reason for this is found in people’s striving for *dictatorial supremacy* in this field of knowledge. There is a certain business proficiency involved here under the maxim: *Materialism*. I advise you to ignore these disturbances and to continue to concentrate on the work you do. You do not eat their bread. We certainly do not appreciate a dictator amongst the instructors. We also do not allow terrestrial people to give us any kind of instructions. It therefore comes as no surprise that such arrangements are not to our satisfaction and do not find our support. We do *not* approve of such an undertaking. A lot of things are in progress on our side. We can show our physical presence a lot better in space. You will soon meet us half way (space exploration) and this will be an indoctrination for you. Your atmosphere and your climatic conditions cause us a lot of trouble.

Question : Why can’t you display your might just the once? The people on Earth *only* react to powerful authorities.

A. S. : *GOD does not want this!* HE plans and HE commands. Nothing can be forced, but we are ready for action at all time.

Question : We received the following question from Rome from somebody by the name of “RATHSHA”, but this without a return address: What is your opinion in regards to the great MASTERS and CHRIST’S predecessors?

A. S. : I know who the sender is. – The great MASTERS were *preparers of the way* for a universal religion, one that was unfortunately falsified over again. This religion has nothing to do with any of today’s confessions. CHRIST did not want to found a confession, he wanted to proclaim GOD’S WORDS and they have validity for all human beings throughout the universe.

Question : What is your opinion in respect to the billions of people who lived *before* biblical times?

A. S. : We have a very concrete opinion, namely that they engaged in *continuous blasphemy against GOD* and the destruction of physical life at that time through their own fault. These people were however above-average intelligent compared to today’s people, even though they lacked a certain level of technology. They were well acquainted with metaphysical energies.

Question : Why wasn’t it possible for you to keep CHRIST from dying on the cross?

A. S. : *Because GOD did not give us an order to do so.* The object-lesson happened only after his demise, but then by order, because GOD plans – *we* don’t. HE has an answer for everything.

Question : Why could CHRIST not fulfil his mission? GOD could have protected him with the power of the SANTINER.

A. S. : Human beings are endowed with their individual free will and we respect this. CHRIST rejected this free will (man’s free will). Whether you are willing *these days* to allow GOD’S might *to help you* is up to you. We would welcome it.

Question : These were the questions from Rome. (Did they stem from the Vatican?)
Can you explain the following, difficult to understand passage from the Bible that deals with you, the SANTINER? It states in *Ezekiel*:

“And the CHERUB stuck out his hand between the CHERUBIM and the fire that was between the CHERUBIM, took some of it and placed it in the man dressed in linen’s hand; he received it and walked outside.”

A. S. : When dealing with the Bible one has to be very careful, because it *isn’t always correct*. This passage will however have to be regarded as symbolic. The prophet, in this case the contactee, received the required ENERGY for his mission from the SANTINER (Cherubim).

Question : Can you tell us something about future intentions that deal with our further development?

A. S. : No, I am presently not allowed to talk about this, because you have to wait for what your *own* development brings first, before we can decisively intervene. You have now approached a new level of development. Your attempts to produce spaceships will encounter some difficulty. We now have a new, very good model, somewhat flat, of medium size.

Question : Why doesn't one large spaceships of your flotilla approach Earth so closely that it will leave an unforgettable impression on everybody?

A.S. : Of what use is one single spaceship? And what would an invasion cause? – This is why we prefer that you rack your brain about this. But things will look different once you reach space. You are *harmless* to us down there, but *not* to yourselves.

Question : Do you know a brother from the stars named KUMAR who is supposed to bring messages also?

A. S. : I do not know him. He is not with us. – SETUN SHENAR sends his greetings.

Question : All UFO commanders are supposed to have continuous conferences at a *Mrs. Hohenner-Parker* in England. Is this correct?

A. S. : I have no such contacts. I therefore have no explanation for this.

PEACE ACROSS ALL FRONTIERS! – ASHTAR SHERAN.

I know that most of my brothers and sisters on your planet hope every day that GOD will allow his hand to come down in order to give us the sign to intervene on Earth and to establish a NEW JERUSALEM. The PLAN my dear friends however looks completely different. It is naturally guided by the existing *level of the terrestrial development* and it is amended almost *every day*.

I have to mention a priory that you have no inkling in regards to how and to what degree the physical universe is controlled.

- *One could comparatively say that the whole universe is divided into sectors whereby each sector is supervised by a HEAVENLY FLOTILLA. This is why we named one space-station QUADRA SECTOR, because it is near Earth. It is the command station that supervises events here on Earth and it forwards its observations to the highest AUTHORITY in charge of spiritual GUIDANCE and PLANNING.*

Not even one percent of the Earth's population is informed about the fact that flying space objects control planet Earth. The behaviourism of the politically powerful is also not different from that of the Pharaohs that did not want to believe in GOD'S might until this celestial CONTROL allowed one phenomenon after another to take place on this planet. – We can produce a whole series of phenomenon with ease, but we are subject to COMMANDS from a *higher* SUPERVISION and we are *not* entitled to act on *our own* accord.

I will explain one page of the PLAN of SALVATION to you in order to not stress your hopes too much: Terrestrial rocket research gobbles up *millions* of various currencies every day. There is *no appreciable amount of money* left for the exploration of *spiritual* REGIONS. This is why all of terrestrial mankind is unbelievably ignorant and asinine in this respect.

This dangerous situation has enormously changes in the meantime. The billions rocket research draws from the labours of nations are now *subconsciously* and *unintentionally* used for spiritual research into supernatural fields of knowledge and this makes otherworldly DIMENSION accessible at the same time. This has made our assignment considerably easier. *You now meet us half way* and we can now receive you. You will receive all the necessary evidence in regards to a denied existence that is way higher than your present physical life. It is a lot easier for us to produce and control phenomena when we're *outside* the Earth's gravity and atmosphere. We will therefore make use of all available opportunities that can be registered by your astronauts and satellites. Experts will however assert that space and its associated exertions produce hallucinations, but this assertion will have a short life.

In closing I can tell you today that the MISSION of SALVATION has far greater prospects of being successful at this point in time than it has been the case over the last thousands of years. GOD has never ever allowed a MISSION to go unfulfilled.

- *It has never been our intention to evacuate you from this planet. GOD would not have sent you to this planet if HE had such a solution in mind.*

PEACE ACROSS ALL FRONTIERS!

Faithfully yours, ASHTAR SHERAN

Questions and answers

Question : One UFO message asserts that a BROTHER from the STARS offered a contactee a cigarette. Do you believe that this is possible, respectively plausible?

ARGUN : This is *absolutely impossible*! This can only stem from terrestrial thought processes.

Question : Could it not be possible that this offer was made by a human being from another star system, ego *not* the one the SANTINER come from?

ARGUN : No, this does not comply with the truth and this applies to the dialogue too. It is a creation of someone's fantasy. *This however represents a poison that is directed at us* and it tears down the things we arduously built.

Question : It is asserted that terrestrial mankind has to undergo a “divine cleansing” whereby a large portion of mankind will be annihilated, whilst positive people will be saved, respectively evacuated. Is there something to these prophecies?

ARGUN : These types of prophecies stem from *terrestrial fantasies*. You can believe me when I say that the reality does not look dark. I give you my word for that. To discuss this is completely superfluous.

Question : Did any UFO ever crash here on Earth.

ARGUN : We are not aware whether such an accident ever happened. – But you know that reporters like to tell lies. They are often forced to report something new and extraordinary and this makes them embellish the truth a little. UFOS are not your run-of-the-mill aeroplanes!

November 1961

Question : To what degree do governments acknowledge the appearance of the SANTINER?

ARGUN : One has ascertained that the movements of UFOS *surpass all* human experiences and possibilities. Their incredible speed and manoeuvrability can only be explained through the technology of a higher INTELLIGENCE. – I do wish that all of you could experience such a sighting, it would remain *unforgettable*, particularly because of the associated EMANATION of divine harmony.

(Comment: ARGUN directed his attention to a guest who had participated at a séance for the first time.)

ARGUN : My dear friend, (female) I can see that you have presently no inkling of what goes on here. But I am a friend of this circle. It is my firm commitment – I made a vow to GOD in this respect – *to only serve the truth*. I once dwelled amongst you. I feel very comfortable in your company and this explains my intimacy. All of us have worked together for many years in order to teach the truth and to achieve contentment and to find our LOVE for GOD. We trust in you and you trust in us. We have become a matter of course to you and you are the same to us. This is why we belong together, why we feel drawn towards one another and why we are never alone. You have the certainty of knowing that you are listened to and also understood. There is always a way out of every situation.

- *All your nearest and dearest, who had to leave the Earth when they died, are now closer to you than ever before through this connection. This is the most wonderful thing in all of GOD'S creation.*

(Comment: A bodacious explanation of the future eminence of *International Spiritualism*.)

I know that all of this seems incredible to the novice, but it is a fact. I am right amongst you. You my dear friend are also surrounded by your invisible FRIENDS at all times. I hope that I managed to give you a small insight and I hope that this evening will remain in your memory for a long time.

- *Believe me: Terrestrial people are never alone, even when they are asleep. The WORLD of the SPIRIT, under the guidance of CHRIST, organised everything to protect people. Everything runs according to a great PLAN.*

January 1962

Question : A number of UFOS were sighted in Australia and they left long trails of condensation behind. What do these trails of condensation consist of and how do they develop?

ARGUN : These specific trails of condensation escape from a jet and enter the Earth's atmosphere. This is how the so-called ANGEL'S HAIR comes into being, which then floats down to Earth before it slowly dissolves. It is a kind of skid mark left by UFOS.

The occupants of UFOS, the SANTINER, appeal to terrestrial man's sane thought processes. They intent to explain everything and to also furnish the evidence to support their explanations. A lot of people will still have to be jolted from their dreams.

(Comment: Contact with UFOS will significantly increase in the next year.)

Question : Is there a possibility that the INTER-PLANETARIANS will flex their muscles in order to punish certain negative despots here on Earth?

ARGUN : The INTER-PLANETARIANS, I mean the SANTINER, are *neutral* and they do not interfere unless their neutrality is attacked.

April 1962

Question : How does it happen that a message from the SANTINER is denoted genuine for instance, whilst one finds out later that it was part of a swindle?

AREDOS : There are a *lot of genuine* SANTINER messages. A swindler might however make use of these messages so that the rest of his publications look as *genuine as possible*. This was specifically the case with *Michalek*. He even used the SANTINER salutation: "Peace across all frontiers!"

Question : *John Glenn*, the American astronaut, saw "peculiar flashes of light" that passed by the window of his space capsule. What were those?

ARGUN : He saw a SANTINER spaceship in the shape of a red, glowing orb and he also saw so-called "ANGEL'S HAIR", namely spaceship plasma.

July 1962

Question : It is still common practise to *bagatellise* or to *disclaim* all UFO reports as much as possible. Will there be an end to this one day?

ARGUN : The TRUTH stirs them up *more and more*. This is why they endeavour to expand their space research in order to get "up there" without great difficulties if possible. They are very curious and they would like to know as soon as possible what actually goes on "up there" and what other life forms exist there. Once the international cooperation has been

correctly established, there will no longer be a reason to keep anything secret in this field of knowledge.

ASHTAR SHERAN: GREETING IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

Dear friends, we are mainly concerned with verifying to all of you that *other* heavenly bodies are *also* endowed with fauna and flora.

- *But as the highest creation throughout the universe, universal man stands above all other created life. He is not just a terrestrial masterpiece, but GOD'S masterpiece dispensed throughout lots of star systems.*

It is absolutely imperative to *distinguish* between the INNER man and external man. For millennia you have made the same mistake over again to *equate* the INNER man with the external man. This great mistake produces almost all defective developments in this world.

- *Due to the fact that you cannot grasp that the INNER man is immortal within an infinite chain of developmental stages, you turn your whole existence into a senseless terrestrial existence. GOD called upon us through HIS realm of the spirit to finally teach you the truth.*

August 1962

Question : Have the SANTINER spaceships always been a visible side effect of great revelations?

ARGUN : Yes, apart from just a few exceptions. They are *even nowadays* present like a star at all important events.

September 1962

Question : Do the SANTINER have anything in common with biblical angels? They are called "SANTINI" in Italy – ergo little saints.

ARGUN : The SANTINER REPRESENT an intermediate level between ASTRAL ANGELS and physical human beings.

- *The SANTINER are a conjunction between GOD'S REALM and the realm of physical matter.*

The SANTINER are somewhat smaller than ASTRAL ANGELS. They fulfil their duty under the sacred oath of serving GOD. Your Italian friends are not too far of the mark by calling the SANTINER "*little saints*". Their MISSION is indeed sacred.

Question : Can you tell us something about the might of UFOS?

ARGUN : The might of UFOS is a "secret command issue" It is *not* publicly discussed. This might will however be displayed when necessary so that its colossal effect is not lost. It is decisive in every respect.

Question : Why is it so *rare* for an approaching UFO to *land* on our Earth?

AREDOS : *Most* approaching UFOS – correctly called heavenly ships – are *remotely controlled* from a larger spaceship, that is to say, they are un-manned. This is the reason why we are not interested in landing these objects. But these flying objects have a very catholic assignment, namely to register lots of things. Their technological equipment is beyond description, it is of eminent perfection, actually to a point where *even the thoughts of human beings can be registered*, at least to establish whether thoughts are *positive* or *negative*. I know that you will smile when you hear this, but what would your ancestors have made of today's television?

Question : We already know that the SANTINER have an apparatus that makes *telepathic* transmissions possible. Is this apparatus also employed for such transmission to our Earth?

ARGUN : No, *not at this stage*. This humanity must first be raised to a certain level of spiritual maturity in order *to be able* to receive such transmissions.

- *This level of spiritual maturity is the natural acknowledgment of the here and now and the hereafter.*

Terrestrial mankind is *under* the planned level in this respect. It lacks the basic maturity for HIGHER INSIGHTS. This is why everything has to be brought to a unified, spiritual VIBRATION so that a mental assimilation becomes possible. This is the purpose behind this GREAT MISSION.

Question : Is it of specific significance to dream of the SANTINER or of UFOS?

ARGUN : These dreamers thereby verify an *increasing* spiritual maturity, because this make them learn many truths about their ASTRAL LIFE. Dreams often have a deeper meaning and they also induce you to contemplate whether you have done things the wrong way round. Dreams that contain warnings are particularly important.

Question : What level of development does terrestrial mankind have to undergo a priory?

ASHTAR : This mankind has to achieve world peace first, everything else will follow suit.

Once world peace is *achieved*, people's ears will become receptive to spiritual things. Being at war unfortunately only tunes people's ears to *negative* things.

- *The more prolific your armament, the more interested in negative things mankind becomes.*

Question : The ignorant believe that they do not burden themselves with blame.

ARGUN : The unsuspecting misjudge the true situation. *Because* they are unsuspecting, they also have the *prejudices* that *stand in the way* of progress. This makes the unsuspecting *particularly* involved in all disadvantages.

December 1962

Question : Have the latest results of international space research still not managed to assist the verification of the existence of extraterrestrial UFOS?

ARGUN : Members of parliaments have too little character to publicly stand by their personal convictions. It will however not be long before some of them voice their opinion.

Question : How do you assess the development within UFO research?

ARGUN : We can see that there is unfortunately too much *malfeasance* within it. But I would like to say at the same time that open-mindedness is certainly there.

Question : Is the damage done by this misfeasance considerable?

ARGUN : Yes, certainly, because when people believe in something and then hear that it was a lie in the first place, they will be difficult to convince of the truth after. Those that believe in something accept it as *sacred* and they will be deeply hurt when they have to acknowledge that they have been duped. This is a great sacrilege.

- *This is the reason why all wrongdoers are severely called to account.*

Question : Can the SANTINER verify their existence better than they have in the past?

ARGUN : They will make full use of this opportunity one day.

Question : Astronauts have observed apparitions during their orbits around the world that they described as “glow worms”. What were they?

ARGUN : We are dealing with so-called “ANGEL’S HAIR” (UFO plasma). I repeat once again, the next three years will bring a lot of success on *both* sides:

- *East and West will start to cooperate in their space research.*

Question : Is this “ANGELS HAIR” within the illumination effect of the sun or of a UFO?

ARGUN : It is within the illumination effect of a UFO. I feel very confident answering these questions, because I know that my answers will be confirmed in the future.

February 1963

Question : A SANTINER asked a terrestrial human being in Italy for some water. After two bags were filled with water, the SANTINER said: “You have done me a favour. I have done you one as well.” – The terrestrial citizen in Italy didn’t know what favour the SANTINER talked about. What do you say to this?

AREDOS : For a SANTINER to make *direct* contact with a terrestrial human being is a very great favour (blessing). This terrestrial citizen in Italy should therefore be over the Moon about having experienced such a favour, because this is something a lot of people yearn for.

Question : How was this high development achieved on other planets?

ARGUN : One achieved them indirectly. Various groups formed to begin with. But the groups that developed higher more quickly, *helped the others* to also achieve spiritually ascent.

- *The difference between the people on other planets and the people on Earth consists in that underdeveloped groups on other planets were guided and indoctrinated easier, whilst terrestrial mankind bristles at any higher development and against all spiritual indoctrination.*

Question : Is there a chance that terrestrial mankind will travel a similar path to the one the SANTINER took?

ARGUN : This path can *never* be travelled on along party-political lines.

- *Moreover, the SANTINER are ahead of you by about 12,000 years.*

April 1963

Question : After attempting to build a model of a UFO for over 23 years, a Frenchman built one on an island in the Seine in three years. When he attempted to register his patent, he apparently disappeared without trace. Is this correct?

AREDOS : This clever inventor must have discovered dematerialisation itself. Unless he disappeared in the meantime, he should register his patent. The rumours that are *invented* in this respect are beyond belief! This does not do a service to the cause.

Question : Astronauts are supposed to have had encounters with UFOS according to your reports. Because they are not allowed to tell us anything, they must deal with this themselves. Does this not represent an enormous burden on their soul?

ARGUN : They don't even tell their own family their secrets. This is very difficult for them. They live with the hope that the time for the truth is ripening.

Question : According to the latest measurements by the American Venus probe, Venus is so hot that life on it is impossible. There can therefore be no Venusians that are supposed to live there either. What do you say to this?

ARGUN : As we have told you once before:

- *There are no Venusians. – There are also no Martians. – There are only the SANTINER and they stem from the star system of Alpha Centauri. They have their space-stations near some of the solar system's planets.*

Inhabiting the space-station near Venus is particularly beneficial. The gravitation of the planets plays a major role during a lengthy stay in a space-station. Living on the surface of Venus is impossible. The actual heat there is about 270 °C.

May 1963

Question : Can you explain to us what the title “SHERAN” means?

ARGUN : ASHTAR SHERAN is the spiritual leader of the SANTINER. “SHERAN” means as much as “*SPIRITUAL LEADER of ASCENSION*”. – For the SANTINER he exists within the physical conditions they are in. But not for you. You can only establish *spiritual*, respectively *mental* contact with him. All his attempts to materialise for longer periods of time have *failed*.

Question : Will planet Earth achieve a similar level of development one day to that of the home planet of the SANTINER?

ARGUN : *Certainly*, Earth will one day discover the same path of development. This is the SANTINER’S intentions. This development will be supported by future *Eurasians*.

Question : Does astrology have anything to do with this development?

ARGUN : The Age of Aquarius will calm the stormy seas of the past age. The future *Eurasians* will be akin to the SANTINER, that is to say, they will adapt. The present political contentions will gradually abate, one will then recognise that there is no sense in combating one another over nothing. The free world will never forget the things communism has shown it. It is all a question of good will.

- *Borders between countries will lose their pertinence and will one day disappear altogether.*

Question : We received a very detailed report about the measurements transmitted by the *Venus probe* in the meantime. Are these figures reliable?

ARGUN : They did indeed use very delicate and excellent gauges, but the measurements are not quite correct just the same, because the apparatuses were exposed to completely different conditions than here on Earth. Terrestrial mankind shows a great interest in all individual planets. We, on the other hand, are only interested in *what GOD can utilise as his workshop*. They are therefore more interested in *more important* planets than Venus. There are thousands of planets that have not yet been discovered by you.

The universe has so many beautiful things on offer that if you were to even gain the slightest glimpse of them, you would be absolutely rapt. You do not have a correct concept of the indescribable beauty and many-sidedness of the LORD’S divine creation. You hold the opinion that Venusians must exist. *This is a mistake!* There are indeed islanders, namely you, but certainly no Venusians.

Question : Why is it that one began to talk about “Venusians”?

ARGUN : Because the SANTINER have a space-station there.

August 1963

Question : Why is it that a number of people have the gall to report about contacts with space people

from other planets, even though their assertions are incorrect?

AREDOS : This is an attitude that is adopted in complete ignorance in respect to the realm of the spirit. Atheists and pantheists do not entertain any thoughts about a divine COURT and their fantasy has therefore no boundaries. What is regrettable is the fact that they proclaim that these fictitious accounts are the self-experienced truth.

Question : But how can one distinguish between the truth and fiction?

AREDOS : Only the mind makes this possible. You must decide where the boundaries of the realities lie, because the SANTINER do not swamp you with truths you are *not mature enough* to grasp. They prefer to keep them back, particularly if they sense that the truth could be seen as fantasy. This is an excellent point in regards to your assessment, because the SANTINER adapt themselves very well. When you attempt to indoctrinate someone and this person doubts your indoctrination, you will find that *no* evil will be involved *most of the time*, but that it is rather a sign of immaturity in such things. The difficulties however consist in the fact that nobody wants to admit that they are *still too immature* in respect to one thing or another. Church representatives are *particularly difficult* to approach in regards to such things, because they believe that they know everything and therefore do not like to admit that they are completely ignorant.

September 1963

Questions for ASHTAR SHERAN

Question : Do you see our endeavours to reach space as a kind of blasphemy?

A. S. : *Certainly not.* Such attempts are progressive, unless mischief is the order of the day. In any case, *no nuclear warheads* should be transported with them. The universe is at terrestrial people's disposal if they respect the universe as GOD'S REALM.

- *Your rocket technology will gradually move into another phase. The time when your rocket technology will be superseded will soon arrive.*

Terrestrial astronauts will be faced with lots of miracles and they will find out that the realm of the stars is GOD'S *real* creation. We will support this.

Question : We once heard that the history of your planet was also written in blood. How were you able to extricate yourselves from that situation?

A. S. : Yes, this is correct. But we were of a *more ethereal* constitution than you. We had *no* racial hatred and *no* of hatred for our fellow human beings. Hatred unfortunately plays a *major* role on your planet. We soon came to an agreement because we recognised that only harmonious cooperation would advance our progress. Harmony is actually the basis for divine peace. We also experienced peace with a negative undertone, but this was not due to the devil, as it is the case with *you*.

- *Nowhere throughout the known universe that we know is there such a pronounced negativity as here on Terra.*

Question : Were your wars also waged with superlatives weapons?

A.S. : No, certainly not with nuclear weapons. Our wars were more of a *spiritual* nature. They were mainly *ideological* contentions. All of this took place a long time ago. We now inhabit a very harmonious planet.

- *Once you disarm your nuclear arsenal, you will move towards peace. This would represent the first step towards your salvation.*

Your greatest enemy at this point in time is your own perceived might. It threatens you the most. You completely *forget* GOD'S MIGHT in the process.

Question : Is a path recorded in GOD'S PLAN that will guide us out of this crisis?

A. S. : Yes, certainly, exactly the way it was the case with us. I say to you:

- *Do not fear the might of a new World War, such a war lies in chains and they are so tight that they cannot be broken.*

Question : Can you tell us something about Berlin's wall of shame?

A. S. : This wall will be – and in the not too distant future – be pulled down. Do not allow yourselves to be burdened by fear, trust in a blessed future, it will bring you more peace than the past and the presence.

Question : We try very hard to disseminate your messages, but our means are *limited* and we are also confronted with a *considerable* amount of mistrust about whether we are really dealing with the objective truth. Only one specific, open-minded circle of people stand by us. The people on Earth would trust these messages more, if we were able to *better* verify your existence. What are your thoughts on this?

A. S. : This problem is also subject to the laws of time. On no account lose your courage!

- *We will better verify our existence the moment we see that it promises to be a resounding success and not the exact opposite.*

Only time will help us win this, so do not ask for everything *all at once*. We are quite happy with what we have achieved so far.

Question : A lot of our readers asked the same question. All of them think that it would be important that you verify your existence *clearly*. What should be our answer to them?

A. S. : Do not allow yourselves to be provoked! *Truth is what logic possesses!* Your assignment is voluntary and your FRIENDS are true to you. *Listen to them* and you will always only bring the truth. – I try hard to verify my existence to you and this is why I use your writing method. That's the way it is when worlds separate, only peace and LOVE can carry the fruit for a happy planet with it. This planet must blossom and its peace must penetrate the boundaries of the cosmos and proclaim that the LIGHT of the LORD outshines everything.

Question : Have your flights through the atmosphere abated or increased?

A. S. : We show ourselves above *all* the nations on this Earth. A lot of our spaceships are invisible to your eyes, because their high velocity make all sightings and measuring impossible. Friends, make a note of the month of September, I will then bring you new messages.

Question : Dear ASHTAR, it has not been our privilege up to now to have you join a more extended circle. Why is this?

A. S. : *I will never appear to a general, common circle. It requires very specific VIBRATIONS and maturity. This connection is only made possible through our absolute reciprocal trust in each other.*

Question : Can you tell us how far telepathy penetrates through space?

A. S. : There are absolutely *no* boundaries for telepathy. It is the fastest thing that exists in your universe and throughout the cosmos.

Question : A number of scientists are now specifically dealing with telepathy. One established that it strength *increases* with distance. Is this correct?

A. S. : Yes, this is absolutely correct. A decrease in distance also *reduces* the strength of the telepathic signal. This is one very important reason why we start telepathic messages from a great distance in as far as we have a dependable medium available for this, one that can easily detach itself from its own subconscious.

Question : Are you a spirit or a human being?

A. S. : *I am a human being and I can detach my spirit from my body.* Once I leave you here, I return to my body.

Questions and answers

October 1963

Question : One discovered two craters in the Scottish shire of *East Lothian* that were about 3.5m apart. One also found square holes in the vicinity with a length of their edge of 30cm and a depth of 60cm. One assumes that extraterrestrial flying objects caused these craters. Is this assumption correct?

AREDOS : Such craters are caused by the recoil during a landing manoeuvre. The *antigravity* of UFOS is very powerful and it can therefore cause deep holes in the ground. This is the reason why stony ground or desert zones are preferred most of the time.

Question : In *Wayne City* (Illinois) a white light was observed pursuing a car. The light stopped the car's engine and it emanated a conspicuous coolness. Was one dealing with a UFO?

AREDOS : We cannot always say with certainty that one was dealing with a UFO; in order to make an assessment I would have to have seen the phenomenon personally. But as the light is

supposed to have emitted a coolness, it must have been a UFO. Besides, when UFOS change their polarity they do actually have an influence on any engine.

November 1963

Question : We find clues in the Bible that mediums were sometimes teleported great distances. The Brazilian medium *Mirabelli* was teleported some kilometres. Do the SANTINER utilise this opportunity because they are *more ethereal* than us and because they can abrogate gravity?

ARGUN : They *could* do so, but they do not do this. They have their LAWS and they abide by them.

Question : Is there a possibility that UFO research will make progress in the foreseeable future?

ARGUN : Terrestrial space research will *a priory* outstrip UFO research. The first manned spaceship will soon be launched. This will break the ice. This will then provide the evidence of our work. You are aware that these goals are often achieved from one day to the next.

Question : Will not an army of liars and deceivers in this field of knowledge appear in order to exploit the situation once this goal has been achieved?

ARGUN : I don't believe that this will be the case to a high degree, because a lot of new avenues for communication will then open up.

February 1964

Question : A lot of our subscribers read our *Menetekel* because it brings UFO news. We therefore rely on such information. Can we expect more of this type of information?

ARGUN : That's correct. This is why we are determined to call upon more experts from the WORLD of the SPIRIT. You will receive more interesting material. This is the reason why we are able to introduce one more MESSENGER of LIGHT to you. The *medium Uwe* will draw a picture by having his hand guided by JOHN SHERIDAN. The writing MESSENGER of LIGHT is *not* left-handed, but for some inexplicable reason it goes better with the left hand. This is evidence that psychic energy can have various effects. The name of the new MESSENGER of LIGHT is DESTINUS:

(Comment: The medium *Uwe Speer* writes psychically, respectively automatically with the left hand as fast as he has done in the past with the right hand. The medium is right-handed! The left hand is completely unpractised, but the left handwrites at a high psychic tempo *just the same*. We therefore assumed that the otherworldly was left-handed.)

(Comment: MESSENGERS of LIGHT are otherworldly TEACHERS. All of them have a spiritual NAME akin to a religious ORDER. But be careful with famous or known names of souls that were once in the limelight here on Earth!)

March 1964

Question : Two Italians who are in telepathic contact with UFOS assert to possess a "cosmic conscience". Is such a thing possible?

AREDOS: *All human beings possess a cosmic conscience, because the thought process is cosmic, even if the results run via thoughts within the brain. If these two Italians react telepathically, they make better use of their soul's mental capabilities whereby the brain is less active.*

Question : There is a place near *Santa Cruz* where the law of gravity is contradicted. A ball will roll *uphill*, ergo up a steep hill. What is happening there?

AREDOS: The gravitational field is *not* spread evenly and this is why there are locations that react differently. There are locations on this globe where heavy rocks are moved about. Heavy stones glide across the desert of their own accord and they leave their tracks behind. Changes within the terrestrial radiation belt can also considerably alter the Earth's gravitational field and thus can also trigger earthquakes.

Question : Do other human races live on lots of other planets of various levels of development?

ELIAS : *The atomic volume of humanities on inhabited planets roughly corresponds to the volume mass of the sun – and it continuous to grow.*

Levels of development *vary a lot*. The level of development on Earth still lags *far* behind. Terrestrial mankind has not even grasped the meaning and the reason for its existence! Terrestrial mankind hardly knows anything about itself, its bellicose intentions and the animosities amongst its members are often *baser* than between animals.

Question : Why do we actually have contact with the SANTINER?

AREDOS: The Earth is situated at the furthestmost reach of the SANTINER.

- *There are no other humanities within the active radius of the SANTINER'S extraterrestrial spaceships that also possess spaceships with such a reach. The SANTINER are MESSENGERS of the TRUTH.*

Question : Do the SANTINER occupy a privileged position amongst all the human races?

AREDOS: Without doubt. The SANTINER'S development is *very advanced* and this is why remaining in constant contact with the INVISIBLE WORLD hardly creates a problem to them.

Question : Is planet Earth the *only* planet in our solar system that is inhabited by human beings?

AREDOS: If we are talking about *your* condition, yes. – This does however not exclude the fact that there are human beings that *can* alight on planets of this solar system, if they fulfil the prerequisites to do so. – I am presently not prepared to talk about human life of a *different* condition, because this is still *incomprehensible* to you. *Most* people on Earth find the idea of an *otherworldly* EXISTENCE incomprehensible. They furthermore find it incomprehensible that a GOD exists who also lives under *different* conditions.

Question : Terrestrial mankind does *not* have an *archetype* it could be guided by. Would it be appropriate for us to have an ideal planet for an archetype?

ELIAS : The Earth represents an *extreme* within the universe. There is however an ideal planet, namely the home planet of the SANTINER – *Metharia*. You cannot see this planet. The SANTINER try very hard to make contact with you so that you can learn from them. It is therefore entirely *up to you* to accept their friendship. We are quite happy to give you information whilst this friendship is *not yet correctly established*, because we are quite competent in this field of knowledge.

Question : Are the SANTINER human beings that have passed through lots of incarnations or are we dealing with new creations?

ELIAS : Mankind within the divine universe has been living uninterrupted for eons on one planet or another. The planet of the SANTINER, planet *Metharia*, is *not* the last stage of development.

- *The universe is not a space as it were, it is without boundaries, something you find difficult to comprehend.*

You should ask yourselves one day, what is more logical: Is the Earth *unique* within the billions and billions of solar systems or faced with these billions of opportunities, do *other* human races also exist. Almost *all* star systems have inhabitable planets.

Question : Is planet *Metharia* similar to our Earth?

ELIAS : To a certain extent, yes, particularly in regards to landscapes. There is also a lot of water on that planet.

Objection : If planet *Metharia* is of a different physical density, the water there must also be of a different density.

ELIAS : Its density is similar to the Earth, only its gravity is *different*. The water has the same density as here on Earth.

Objection : If its gravity is *weaker* than the Earth's gravity, launching a spaceship must also be *a lot easier* than here.

ELIAS : Without doubt. The SANTINER do however *not* require boosters, because they can abrogate gravity in the first place.

Question : Are there also national boundaries on the SANTINER'S planet?

ELIAS : Yes, they also exists, but they do not have the same pertinence than here on Earth. The whole planet is governed by a *committee*. There are no *individual* despots with the powers to govern in their hands. – The highest commandment of the SANTINER is: BROTHERLY LOVE! Everything else can be derived from that.

Question : Do the SANTINER exercise birth control?

ELIAS : This has been practised for *a long time*. Birth control is not subject to any Church dogma. There is abstinence and ultimately also influence through medicaments. The SANTINER also settled on other planets. Besides, the ability to procreate is subject to

different timeframes then with you.

- *The more positive the spirit of people develops, the more sexuality moves into the background. It then turns away from pleasure into purpose.*

As you can ascertain yourselves, spiritually *underdeveloped* people are particularly engaged in senseless acts of procreation. Procreation makes people lose a very important ENERGY. This ENERGY is important for the *nerves* and the *brain*.

May 1964

Question : Why do the SANTINER not take energetic steps towards positively changing conditions here on Earth?

ELIAS : They want to wait until your *development* allows them to do things without applying any force. Don't believe for a moment that the SANTINER want to force anything on you because they believe that *it* might be good for you. If at all possible, you should recognise *of your own accord* when something is correct.

Question : We received a newspaper clipping that emphasised that not one single case has been verified that extraterrestrial spaceships have made personal contact with us. It stated that this will not happen next year or in ten years either. What do you say to that?

ELIAS : Slowly, slowly, things will look different here on Earth, particularly in ten years from now. What kind of *new discoveries* do you think will be made in the next ten years, revolutionary discoveries I say? Their research will make people penetrate into the fourth dimension.

The star of Bethlehem (December 1964)

A lot of people ask the question:

"What do extraterrestrial spaceships have to do with GOD and with Christendom?"

This question can be answered. The New Testament states:

Luke 2. 9: "An angel of the Lord appeared to them and the glory of the Lord shone over them and they were terribly afraid."

All extraterrestrial flying object have the characteristic of shining very powerfully.

Having a "star" *fly across* the heaven when CHRIST was born must have been an object of extraordinary pertinence, it would otherwise not have been so conspicuous. It *wandered* and then *came to a stop* above CHRIST'S place of birth.

The occupants of this flying object made contact with shepherds and these thought that they were dealing with ANGELS.

We have evidence from the Bible here that extraterrestrial *actually* have something to do with GOD and his ANGELS. These extraterrestrials are engaged in a MISSION.

The New Testament reports that ANGELS “*then flew back to heaven*”. – Not one word mentions that they personally *floated* up to heaven. They naturally returned the way they came from, namely with the “Star of Bethlehem”, that extraterrestrial flying object.

These extraterrestrials proclaimed CHRIST’S birth.

They were sent AMBASSADORS and not supernatural spirit beings of untold brilliance, but people from within the universe in GOD’S SERVICE. Any other interpretation does not concur with scientific insights. There are no comets that can be *steered* in such a fashion, the way it was the case with the “Star of Bethlehem”.

The “Star of Bethlehem” should be definite proof of CHRIST’S divine mission to us.

Correctly assessed, the fantastic turn into the objective truth.

Questions and answers

February 1965

Question : One reader writes that he cannot comprehend that experienced spiritualists fulminate against psychic messages and that they especially doubt the existence of UFOS. How is such an attitude possible?

AREDOS : I cannot blame an *objective* spiritualist for mistrusting all the various psychic messages. There is unfortunately *too much rubbish* bandied about in this field of knowledge. We are not always dealing with con artists here, but with *fanatics* that dupe themselves or fall prey to hoaxing spirits. You will find that when a spiritualist does not believe in the existence of extraterrestrial spaceships, his or her attitude stems from the same mistrust. These spiritualists will probably have no opportunity to experience a genuine contact with extraterrestrials. They therefore reject something, because they cannot verify it.

Question : The American Congress debated whether one should confront the danger UFOS represent head on. Does one *therefore* see extraterrestrials rather as enemies than mankind’s friends?

AREDOS : It is true that the SANTINER, that is to say, the crews of extraterrestrial spaceships are seen as potential enemies. The American Congress took the fact into consideration that *misjudging* UFOS for what they actually are *could* trigger a third World War, because such a war can nowadays be instigated within a few minutes. The SANTINER are *aware* of the situation and they are very concerned. This is why they are *very* guarded and *extremely* careful with all their manoeuvres.

Question : Would the SANTINER retaliate if they were attacked from Earth?

AREDOS : The greatest part of terrestrial mankind by far is spiritually *underdeveloped*. People do not have the highest opinion of their fellow human beings. There is mistrust and hatred between nations as well as racial hatred and similar negative attitudes. Every human being however continues to think *analogically*. One hears that extraterrestrials are *more*

advanced in every respect. One also knows that their technology is *more substantial*. Based on this analogy, terrestrial people *perforce* believe that extraterrestrials *must* accordingly be *more* evil and dangerous than terrestrial man. This is why one prefers to assume that one is dealing with monsters and not with angels.

Terrestrial people find it very difficult to imagine what a *higher* developed INTELLIGENCE is all about. This analogy also applies to the realm of the spirit. *Maleficently minded* terrestrial human beings find it difficult to comprehend that *higher* INTELLIGENCES could exist. They find it on the other hand *much easier* to imagine that demonic ghosts and spirits exist, something spirit cults on this planet verify explicitly.

As terrestrial human beings use *themselves* as the measure of all things, that is to say, use *themselves* as the norm, they profess to know that all of mankind is affected by doubts and disbelief. All *religious* comments by a fellow human being is seen as phony ado or abnormal.

Objection : If human beings continue to think analogically with *themselves* as the norm, they can naturally also not comprehend GOD.

AREDOS : Yes, absolutely that's how it is. – Comprehending GOD'S true existence is only possible to those that are accordingly *matured*. It isn't solely their matured intelligence, but their *whole spiritual attitude* that plays the greater role in this perception process, because when people are highly and positively evolved though and through, they will continue to think analogically and they will gain full awareness of GOD.

We find such an example with CHRIST: He also thought analogically based on his own existence. As GOD can however only represent the *superlative* within human beings, he grasped the fact that GOD superlatively represents the HIGHEST DEVELOPMENT of an INTELLIGENCE, one that could never be physical, but rather more spiritual. This higher insight in all its details *connected him* with the CREATOR.

March 1965

Question : Can we expect something decisive from the SANTINER in regards to our nuclear armament?

ARGUN : The SANTINER are *not* a bellicose power. They are *neutral* and this is why they do not appear here as conquerors. Everything that takes place within GOD'S ASSIGNMENTS is divine and *not* political. No political contestations should take place, but rather a *divine* phenomenon instead.

Question : Only tolerant means could be applied if mankind on Earth has to be called to order. How can the SANTINER call us to order when we reach that point?

ELIAS : The SANTINER are absolutely capable of calling you to order. But, if at all possible, terrestrial mankind should come to its senses *without* interference. But if a nuclear war for instance creates a situation where GOD give the order, the SANTINER can *paralyse* terrestrial mankind, respectively mentally lame all creatures.

(Comment: **Genesis 19, 11**: They then struck all the men outside with blindness so that they couldn't find the door.)

June 1965

Question : Do extraterrestrial spaceships have anything to do with magic?

ELIAS : Well, one could call it magic. To be honest about it, the SANTINER'S technology is a bit of a *paradox*. The magic is however only *imaginary*, because even the most wonderful is based on LAWS. The people that lived a hundred years ago would regard a lot of the things the sciences and technology present us with *these* days as "magic".

- *Magic is also subject to very specific LAWS.*

The LAWS of nature are certainly *not* tightly confined, but rather more *widely* confined and they generally allow the sciences plenty of elbowroom. The things technology is potentially capable of would presently be seen as wizardry. Human beings should be in charge of Mother Nature, but they should *not* unleash the powers of nature to a degree where they turn on them to destroy them.

Question : Will we find the support to publish one more ASHTAR brochure this year also?

ELIAS : Yes, this will be the case, because we have a good FRIEND who will place himself at our disposal. You will get to hear a lot of scientific information. This brochure will not be a treatise, it will be a view of the future for planet Earth. A prognosis of the future can naturally lead to an unpleasant reaction, but it will *not* be a *direct* prognosis.

Question : Do the bellicose contentions we are so accustomed to here on Earth also take place on other planets?

ELIAS : There are planets that have gone beyond this stage. These people know the blessing of peaceful cohabitation. There are however a few planets where fighting still takes place.

- *Whenever people live in abundance, when they have everything and when things are good in every respect, they become cocky and discontent and they endeavour to destroy this affluence. – This particularly applies to this Earth.*

It is *not* about individual nations having their own goals and assignments. It is more about mankind having *uniform* goals and assignments that do not deviate from one another in any way.

- *The people on Earth can breathe in GOD'S free nature. They enjoy an infinite abundance of beauty on this planet, but they still do not appreciate this and seek ugliness and the negative instead.*

September 1965

Question : People who deal with the SANTINER have often *lost* hope for such aid, because *nothing crucial* has happened up to now. To be blunt about this, we also cannot quite understand this, particularly when taking the things communism gets up into account. What do you say to that?

ARGUN : We listened to your conversations and we cannot understand why you have so many discussions about this. Things take their *prescribed* course, nothing can be done about this. The SANTINER decided to help your planet Earth and *they will do so*. You worry about the *point in time*. It is closer than you might think. But because the SANTINER are much more intelligent than terrestrial people, they contemplate everything they do most assiduously. They prepared everything down to the last detail, they carefully studied your planet and they familiarised themselves with terrestrial people's mentality. They studied the organic and mental causes of terrestrial illnesses and they did this in order for their help to be fruitful, ergo so that it will be crowned with success – not for the SANTINER, but *for you*, for all of mankind!

Individual people make one huge mistake, namely that they see everything from *their* perspective and that they surmise that the *others must* surely also think the way they do. The SANTINER have *completely different* thought processes, they are however considerably more inclined towards *bringing peace*. Terrestrial people, dealing more and more with coarse physical matter, turn – the more technologically evolved they become – *more ungodly* by the minute and thereby *retrogress* spiritually. The great contrast between your technology and your spiritual insights brings you life-threatening situations. Due to your ignorance the power of technology is used as a superlative weapon of destruction.

October 1965

Question : You once told us that when human beings turn towards technology they *distance* themselves from GOD at the same time. Can you tell us something about this contradiction, because extraterrestrial technology does display such a superior level?

AREDOS : You should certainly not compare terrestrial mankind with the SANTINER. These people who come to you in their flying apparatuses from another world, acknowledge *GOD'S majesty*. They certainly do not admire their own spirit and they do not overestimate their own capabilities. The SANTINER admire *GOD'S ingeniousness* and they know that GOD inspires them through his eminent INTELLIGENCES to master their technological assignments. They also know that GOD is LOVE and this is why they cannot use their technology for evil deeds. The situation with you looks entirely different. You *lack HIGHER INSIGHT*!

- *But don't think that the SANTINER have always been good right from the start. They were also acquainted with violence and they abused it. This is why they also required a SAVIOUR. This saviour did indeed not die on a cross, but he also suffered the torments inflicted upon him.*

The people did however believe in his DOCTRINES and *understood* his MISSION *after* his death. A deliverance took place, something that was *not* the case on Earth. It didn't take long for the SANTINER to acknowledge this SAVIOUR as the SON of GOD. According to your terrestrial calendar, this took place a number of millennia ago. CHRIST was however *not* the SAVIOUR of the SANTINER, he is however a SON of GOD just the same and GOD has *several* of them.

Objection : A lot of people will not be happy with this explanation.

AREDOS : I know, this is a problem for you, because the Churches only adhere to the Holy Scriptures. But the truth is not just present in the Holy Scriptures, it *towers* over all of these records. You can believe me when I say that the Bible contains a lot of things, but the Bible is not an encyclopaedia of the whole truth. The SANTINER have a completely different Holy Scripture, one whose *value* cannot be compared to your Bible at all in this respect. ASHTAR SHERAN will gradually tell you things about this. But communicating and understanding must improve first.

No human being can be redeemed *by another human being*. Redemption means nothing else but *improvement*. This improvement can however not be purchased like a commodity. Every human being must *improve himself or herself*. One can naturally teach people to achieve this – and this is what CHRIST also taught.

Question : When we peruse older documents of our meetings we find that the otherworldly messages held forth the hope of a landing by the SANTINER. A number of years have passed in the meantime and an extraterrestrial flotilla has still not landed on our planet. What do you say about these messages now?

AREDOS : The development of a negative nuclear arsenal, particularly super-bombs the public has no real inkling about, caused the SANTINER to be more cautious. The SANTINER had to come up with an entirely different plan.

December 1965

Question : Astronauts spotted a satellite. When they attempted to photograph it they found that the photographs showed nothing. What was the reason for this?

ELIAS : They were dealing with an extraterrestrial satellite whose surface was constructed in such a way that it did not reflect light particles. This is why it couldn't be photographed. The human eye is however capable of perceiving some of these light particles in spite of this.

Question : Why was this a satellite?

ELIAS : A spaceship in orbit around the Earth is a satellite. A remote-controlled observation ship with an approximate diameter of about 10 meters was near the terrestrial satellite.

Question : Large areas within the USA suddenly lost power so that the whole public transport system therein was paralysed. Can you tell us what caused this?

AREDOS : It was a dress rehearsal carried out by the SANTINER. They tested to see how they could best intervene. They naturally also have other means available. But they naturally do prefer means that *avoid* the shedding of blood.

- *It has been indicated to you years ago that the SANTINER can throw half the world into darkness. This is the half that is experiencing night time. It can then not be illuminated through any power supply.*

Question : Governments mention nothing about the interference of extraterrestrial forces. They always look for *other* explanations. Is there evidence available we can call upon for this

intervention in the States?

AREDOS : A spaceship was sighted just before this interference with the American power supply took place.

(Comment: The journal *Bild* featured a report on the 16/11/1965 that stated: "A pilot observed a great ball of fire 13 minute prior to the failure of the power supply. This observation was made in the region where the power failure initially started. The statement made by the pilot was verified by four more eyewitnesses.")

Question : Extraterrestrials have always been ridiculed up to now. Will one be more careful in government circles from now on?

AREDOS : The Pentagon has accurate information, but it is treated as classified information. One will *never* publicly admit that one did not inform mankind in due course. *Something special must take place before that happens.*

May 1966

Question : Is wearing the UFO badge important?

ARGUN : This depends entirely on the heart, because a badge does not make the man. This also applies to all medals and decorations. Craving for recognition plays the greatest role in this.

What is truth? (1)

The result of 20 years of research

Dear friend of spirit and Menetekel reader!

A very experienced co-worker of our *Psychic Peace Circle* who has been with us for many years conscientiously composed a tape-recorded presentation of the most important doctrines and answers of our spirit GUIDES. This presentation is a wonderful cross section through our lengthy work in the field of supernatural messages. The real DIVINE COMMANDMENTS are elucidated here. It represents the only way UPWARDS.

This wonderful representation and its comments are the crowning glory of our extensive endeavours to promote the spiritual progress of terrestrial mankind. It is a labour of love on behalf of peace and this without equal.

This representation was formulated into a brochure *true-to-original* so that everybody is able to orientate themselves on a constant basis. It represents the golden *Key to the Truth*. No Bible, no religion and nor confession is capable of offering a similar example. It is exactly what we, the people on Earth urgently require in the dangerous situation we find ourselves in.

To be able to offer an overview over our whole spiritual mission makes us extremely happy.

This work has already been assessed as being excellent. Even the most doubtful are deeply impressed. It is imperative that every human being on Earth has this brochure and that they absorb

its content. This would be the start of our salvation.

(Comment: This representation can be found in our Menetekel protocols titled “What is truth? – The result of 20years of research?”)

Questions and answers

May 1966

Question : We received a question from Italy asking us whether ASHTAR SHERAN is still the leader of the SANTINER, because one asserts that the leadership is now in the hands of the DEVA, whose portrait is presented here?

ELIAS : ASHTAR SHERAN is of course *still* the LEADER and COSMIC TEACHER of the SANTINER and not only that, he is also the spiritual GUIDE of terrestrial mankind. The picture presented here has nothing to do with the SANTINER. It is the photograph of a drawn picture – very harmonious, but of no consequence.

Question : Does the Italian UFO researcher *Siragusa* have genuine contacts with ASHTAR SHERAN?

ELIAS : Yes, he does, but he has often been telepathically lied to by hoaxing spirits. The variations within the names verify this.

(Comment: *Siragusa* also asserts to be in contact with “ARGUM”. ELIAS indicates here that one is dealing with a falsification of the name “ARGUN” here.)

It looks as if he gives an oath with the wrong hand. This picture is of no importance from a UFO point of view. It’s the pretty head of a woman, that’s all. This is why it does have an effect. The fact that the truth is over again split in such a fashion is deplorable. This *has to make* people lose their trust. I can tell you: ASHTAR SHERAN is the leading SANTINER! – This is once again an example of what CHRIST also said: “*Many will come to you in my name.*” This explicitly verifies how great ASHTAR’S mission is.

Question : We also received another newspaper clipping from Italy that shows a facsimile of a letter the devil is supposed to have written. Is this correct?

ELIAS : I cannot understand how one can send such things to a spiritual community. We have a completely different mission to fulfil.

- *We are not inclined to deal with GOD’S antagonist in any way.*

How can spiritualists deal with things that have to do with GOD’S archenemy *and* GOD’S CREATION?

June 1966

What is truth? (2)

The results of 20 years of research.

The *Psychic Peace Circle, Berlin* came into being by “coincidence”, if not through a divine assignation from within spiritualism. It developed into scientific spiritualism and then further down the track into revelation spiritualism through carefully planned endeavours. The scripts we publish verify its eminent level.

We only dared to make a selection after we had gained lots of experiences. The best pearls of wisdom from these divine revelations are amalgamated in a presentation and we put that into print for our readers. This presentation is certainly suitable for all and sundry and it matters not whether they are atheists or religious in any shape or form.

What’s on offer here does not exist in any other religious scriptures with such clarity, power of persuasion and logic. Only the realm of the spirit and the brothers from the stars made it possible to offer you so much truth.

- *If our readers are prepared to also take on an assignment, we ask them from the bottom of our hearts to make the dissemination of this script possible.*

Those that lend or give this booklet to others are actually doing something on behalf of peace and towards the salvation of terrestrial mankind. Those that have already read this booklet will understand us and admit that we are correct.

If it is the desire of the realm of the spirit that this valuable work, grown out of more than a thousand séances, is disseminated, it is GOD’S DESIRE even more so.

As the Churches have neglected to do this work, *you* can help us to do this work and to bring it to its conclusion! The realm of the spirit will be grateful.

(Comment: This presentation exists as a Menetekel protocol under the title of “What is truth? – The result of 20 years of research”).

Questions and answers

December 1966

Question : Is the so-called Madonna apparition at *Garabandal* in Spain a repetition of *Fatima*? Is it the last warning?

AREDOS: Every supernatural or extraterrestrial appearance of a woman, if she is beautiful, is interpreted as a “Madonna apparition”. There are *lots* of ghostly, respectively spirit apparitions that have nothing to do with an appearance of Mother Mary.

- *Mary does not appear, it is not part of her assignment.*

The phenomenon seen at Fatima was the sighting of an extraterrestrial spaceship. It was also not a Madonna miracle. If you were to encounter a longhaired SANTINER, you

might believe that you encountered “Mother Mary”. Besides, calling Mother Mary the “Mother of GOD” is a mistake! Mary did not give birth to GOD, but to an exceptional and nominated human being, one with the task of indoctrinating people in respect to religion and humanness. CHRIST was a good SON of GOD, most people are not.
