Anny Baguhn

Messages from our

Older Brothers

Anny Baguhn, born in 1901, was the daughter of the machinery manufacturer Carl Baguhn from Hamburg. She showed a great musical and artistic talent from an early age. In 1920 she married the architect Frido Wald who died later as a prisoner of war. Mrs. Baguhn was a co-founder of the "Deutsch-Indischen-Gesellschaft" (German-Indian Society) and later its long serving leader. With *Mrs. H. Zehmke* she founded the "Parapsychologische Gesellschaft Hamburg" (Parapsychological Society, Hamburg) in the sixties. From 1985 onwards, she belonged to the "UFO-Forschungsgruppe Hamburg" (UFO Research Group, Hamburg) founded by *Dr. Teichmann*. – In 1961 she started a remarkable experiment: A New Zealand contactee gave her and the sensitive *Herta Schachner* an appointed time when they were asked to prepare themselves to receive a telepathic message. It was the first of around 100 messages that Mrs. Baguhn published in her legendary "Blauen Heften" (Blue Notebooks). During a SWF program (SWF = Südwestrundfunk) on the 22nd of April 1978 she explained to the SWF journalist *Klaus Langer*: "I am convinced that we are just at the beginning". – Her UFO archive was probably the largest on the European Continent, but it was unfortunately irretrievably lost. When Mrs. Baguhn had to go to hospital at age 87, her nephew used the opportunity: He disbanded her flat, sold her antiques and destroyed her archive – she ended up in a nursing home. Mrs. Baguhn passed away on the 19th of May 1992 aged 91.

Introduction

The ever increasing number of readers of the "Blue Notebooks" here and abroad makes me feel very grateful for being allowed to serve my fellow men in my way.

With love
Hertha Schachner, Hamburg 61

17th of March 1965

I am alive, I live with all life and there is nothing that could possibly hinder true life in its sun-like unfoldment towards HIM who represents all life.

No tree exists that shows itself immediately as a visible tree, even though it is already perfect within its seed. No butterfly exists that shows itself immediately perfected, even though the IDEA “butterfly” has already existed for an eternity and is present within the egg of every butterfly. The same applies to *everything* visible. Everything is there and achieves visibility through its seed as a compressed IDEA, everything unfolds, bears fruit and seeds in order to decay again.

22nd of March 1965 (Sunday)

If the welfare of your environment and your contemporary world is *upmost in your thoughts*, you will always feel well. Human beings that are always concerned and care in an unobtrusive way about their fellow men and their environment, be that flowers, trees, animals and everything that grows around them, will always be a blessing and a joy to all and everything. They will then receive everything they require to truly live, because they live and *let live* and *protect* life. To smile on the outside is not enough, no, the smiles should be *inside* of you, love, understanding and blessings should be *inside* of you, unobtrusively delicate and lovingly, but full of energy and joy. *Dismiss* your own personality and there is nothing and no-one that could possibly harm you. But be mindful that your personality does *not* turn into an *annoyance* to your contemporary world, but a beautiful sight, eye candy; your body can be beautiful and attractive even when it is older. – Think about this!

Exactly the way no human being is like any other human being but *all* of them are human beings just the same, you’ll find that all revealed planets, suns and cosmoses are the same. Depending on how the particles of a human being or a planet are grouped together, the revealed unfolds as all types of species. No sun is like any other sun, but all suns are suns after all and they send out rays to maintain the planets that orbit around them as their children. Every sun emits a *somewhat different* radiation and this is why no sun is exactly like any other sun, but all of them can be recognised as suns that visibly promote life in one form or another.

28th of March 1965 – 8:30 am

Things are being discovered on planet Earth whose essence and usability other human races on other planets *already recognised* and exploit or apply. But all humanities must grow and live through many kinds of levels of insights on all of these planets. This is the reason why the OLDER BROTHERS *may only convey* the things that conform to the LEVEL of DEVELOPMENT a human race has achieved. This can then propel the development UPWARDS, but only to the degree whereby an opportunity exists for as many people as possible to benefit from it, ergo guarantees *genuine* progress.

JESUS said: “What would it do to man if he won the whole world and took damage to his soul?” We endeavour to see that your soul does *not* suffer any damage – *other* ENTITIES are however interested in seeing *that* this happens. This is why they take possession of the minds of people that were sent down to Earth *to incite unrest* and *to interfere* with the overall development of mankind, ergo *arrest* its SPIRITUAL progress. These POWERS of DARKNESS teach people the enjoyment of destroying things, the enjoyment of quarrel, conflict and dissention. They do this so intelligently that it is difficult to see through their machinations.

The development of technology must be *in harmony* with the ability of recognition and mental maturity so that the highest technological unfoldment is still *controlled* and *governed* by human beings with wisdom, love and understood with the in-depth knowledge that these things are their servants. The moment people *lose* control over technology they will be flung *far back* in their overall development. All technological achievements should only be there to provide people with *ever deeper* insights into creation's secrets and to wring ever greater astonishment and ever more powerful awe in regards to the CREATIVE POWER from them. They should have a *life-supporting* effect!

The *meaning* of all revelations is that one *serves* the other and that one *loves* and tries *to understand* the other, that all may *recognise* the UNIVERSAL ONE who created and sustains everything, who is *everything*.

There is an *enormous* POWER within you and you must know that once you awaken it, you will be carried away by this POWER from your present habits and thoughts processes, from everything that is presently dear and of value to you and particularly from all the things you strived and yearned for in the past. You will then have turned into a completely *different* being and your fellow men you once called “your own”, will no longer understand you. You will be a stranger to them unless, like you, they have also awakened this enormous POWER that burned everything in you in order to create something NEW, RADIANT and UNKNOWN in you. Interplanetary STREAM that are presently hitting, and will in future hit planet Earth, make it momentarily *easier* for human beings to participate in this awakening. You will also notice that a *revision of people's diet* makes itself felt these days that spontaneously affects all those in the process of awakening. All of this is connected with the new cosmic RADIATION that brings new evolution-promoting influences to bear on those that are capable of understanding and realising this. People on Earth will become lighter, *brighter* and more enlightened and they will feel that they are still *on* Earth, but *no longer* from Earth. They completely, consciously feel that their body is an instrument of the SPIRIT and a fullness of life you never dreamt of will become accessible to you. Open your eyes and your ears and listen to the murmuring that swings in the air. Utilise the time and be alert like the ten virgins JESUS talked about in one of his parables. The “groom” that wants to wed you is approaching. – Think about this!

7th of April 1965 – 2 pm

Try to *correctly* interpret all the parables and speeches from the UNIVERSAL TEACHER you call “JESUS of NAZARETH” – the key to this is *found in you*. All of his words are cosmic truths, explanations of eternally existing LAWS, the relationship between man and the cosmos and the explanation of man within the cosmos. It is about time *to revise* all *confession* related explanations and interpretations and *to learn to understand* his life and his doctrines, actually all the knowledge about his existence, for the sake of expanded consciousness. All of what he said and lived can nowadays be correctly understood. Even his disciples could not grasp and not appreciate the greatness of his being, how wide and omniscient his mind is, how deep and how far his divine thoughts reach and how powerful the RADIATION of his divine love is. He is love, but a *cosmic, knowing love*, something every human being requires in order to live a conscious life. “Me and the FATHER are one” said JESUS. Those that can hear him in their HEART and understand and live his words, also *reveal* the FATHER. – Think about this!

8th of April 1965

The moment you live your life *fully conscious* from within yourself, you can call yourself lucky. Everything is in you and you are able to extricate everything from within you – *everything*!

Easter 1965

Don't even try to help, to give and to love, if you *expect* gratitude in any shape or form. When you expect gratitude, you *coerce* your fellow man to give *you* something that only belongs to the ONE SINGULAR POWER – GOD and you thereby blasphemes HIM by trying to take something that belongs to HIM. It is your *duty* to help your fellow men, to help, to give and to bless your environment and your contemporary world with everything that exists and everything that consists. Know this and act accordingly! You will feel the blessing that comes from this and your love, your help and your giving will become mightier and more visible. – Understand this!

This *shouldn't* just apply to material things that people with a new, extended thought process *no longer* store and hoard, when they *relinquish* all superfluous things, but also to NON-MATERIAL things. When human beings have *good* thoughts, insights and intuitions, they should scatter them *like good seeds* over their fellow men and where the soil has been prepared, the seeds will grow and in turn produce a new batch of seeds. – You cannot contemplate this enough!

23rd of April 1965

We constantly hear the question: “Who was JESUS from NAZARETH, who was JESUS CHRIST?” – He wasn't, *He is!* – He is always and will always be, because he is not a human being, he never was. He has indeed *experienced* life as a human being, many times on *lots* of planets in order to better help mankind. He concentrated his whole self within a human body at such times and thereby lived the life of a human being and *not* as a DEITY. He did indeed live the life of a human being, but one through which the DEITY shone and radiated through. He showed people how to live a life that reveals perfection. He *possessed nothing* from the Earth – but has *everything* just the same.

25th of April 1965 – 8:30 am

Intelligence is not tied to the form of the human body. *Every* cell is intelligent, every atom and actually everything that exists is. Intelligence is the ability to acknowledge and the ability to react to IMPULSES coming from other intelligences. Intelligence is the ability to deduce things from recognised facts, the ability to combines things from them and the prime mover for future actions. Intelligence is the ability to make conclusions from recognised facts that allow new cognitions and new insights to reveal themselves. Intelligence is the ability to comprehend the environment and the ability to effectuates something that could not be effected without intelligence. Intelligence is of a neutral nature, it can, only revealed by human beings, be utilised for good and evil, for life-promoting and life-diminishing causes.

The COSMIC, DIVINE INTELLIGENCE is in itself *completely neutral* and only works as such alone. Human beings can recognise the way it works to a very limited degree, but it acts within all cosmoses, recognisable to the level of recognition human beings have reached.

INTELLIGENCE and INTUITION are certainly not the same. INTUITION is the conscious absorption of IDEAS from the WORLD of IDEAS that, unrevealed everywhere within the UNIVERSAL DIVINE INTELLIGENCE, is prepared to reveal itself. INTUITION is falling into DIVINE COSMIC IDEAS and facts by open, trained human thought processes.

The *solar plexus* is the RECEIVER that catches the revelations of IDEAS to then *radiate* them towards an open mind and this is where all intuitions become conscious and can then be implemented as actions. IDEAS have been flowing from GOD, the UNIVERSAL POWER and

MIGHT from the beginning of all exhaled creation. They flow eternally *with* HIM – *from* HIM – they *are* GOD.

May 1965

Superlatives reign on Earth in every shape and form nowadays and everything will be boosted *even more*, will become *ever* better, *ever* more interesting and *ever* more rapid and your physical senses will no longer be able to grasp all that clamour, the gleam and the racing by of man-made things. They will fail you and woe to those that do not know how to use their INNER SPIRITUAL ORGANS, they will be carried away by this ever more rapid *hellish spook* and they will no longer be able to avoid it in this life. But joy to those that can view all the things that approach mankind with such terrific force as if they were looking at a movie they know is only make-believe, they also know that they can simply switch it off when they get bored with it or when they no longer like it, they don't have to see it.

All human beings are capable of *discernment*, of seeing things from INSIDE, and they have the option to turn INWARDS where everything has been prepared to benefit them and to give them the insight of what is good and proper for them. All external walls and protective shields will become superfluous. Solely depending on itself, every human beings will eventually *have to* go INSIDE itself. This is why external things *hustle* people with such force, they are there to *encourage them to go WITHIN themselves* so that they might awaken as true human beings. Everything is possible once people have *recognised* themselves and the FORCE that rests within, but they can only recognise it when external things *force* them to look WITHIN.

10th of June 1965

Don't allow anyone to discourage you from listening to and from spreading our words throughout the world. Those that *need* our words will gratefully accept them, it will move their hearts, they will gain progress and release from old, spent opinions and freedom from self-inflicted hindrances; they will learn to find themselves in their own HEARTS and they will be able to *understand* and to live the words of JESUS. But those that do *not* want to hear our words simply put them aside. They will not put anything in your way that could hinder your work. Our words, when they are heard and passed on in their pure form, carry VIBRATIONS that are *devoid of hatred* and can therefore not produce hatred.

11th of June 1965

The image produced by the thoughts that orbit around the Earth turns ever more colourful and *confused*. This must be like this during a time of transformation and it is a *sign of transformation*. Everything hemming, everything leaning towards the animalistic, must initially *separate* itself from the general human thought processes in order to provide space to *brighter* human thought processes. Everything from deep within terrestrial souls must come to the surface and *run free* in order to be *expelled* from general human thought processes. Every cleansing process is the removal of impurities.

Average terrestrial human beings still have a *disposition to kill, to envy, to hate* and *to live blindly*, because they only see their life from the point of view of eating and drinking, of having possessions and other emotions and satisfying their urges. A lot of human souls however begin to see the light

and they look for LIGHT and truth in all directions except *within* themselves. They sense that life is not what one assumed, that life is *eternal* and *indestructible*. Help them so that they *can recognise* their true, free, beautiful and vibrant life on Earth, in this body, you who are only temporary guests on this Earth.

14th of June 1965 – 4 pm

We would like to tell you that everything *must* have a *reason*. You asked whether it made sense for you here on Earth to try to *change place* with people from *other* planets, whether it made sense to look for other planets, whether it made sense to trust other human beings and accept their doctrines. Would we try to reach as many of you as possible through various means and *all* kinds of ways at our disposal, if we *didn't see sense* in it? – There is such a lot to see, to explore and to comprehend! Believe us, if we *didn't love* you, you terrestrial human beings, we would leave you alone. But *because* we love you we try over again to help you make your life on Earth easier and more beautiful, to *awaken* you to what you truly are.

You are the ones that have to perform these miracles in order to have a paradise on the home planet that you inhabit. All human beings can turn into perfect entities if only they *wanted to* and if only they *realise* that they are perfect entities. Our words are designed to shake your HEARTS and open the door that *you* keep locked *yourselves*. Know that it isn't just us, human beings like you, no, many, many *higher* and *highest* SPIRIT ENTITIES and FORCES form and radiate, love and try to teach you, try to bring the things that *wait* WITHIN you to become visible, audible and perceptible. Imagine *us* like the sun, the wind and the rain trying to awaken the seed that rest in the soil, to make it grow, with all our love and our joy to help. Perfection can be found everywhere, but it is rarely completely understood. May our endeavours widen, expand and make your thoughts and feelings greater and more perfect all the time. If only you could begin, *each of their own accord*, to *discard* the old, past human entity in order to then represent the new awakened entity.

You possess many, many scripts, books, tablets and traditions that were given to you with love to help you. Who knows them? – Who reads them? – Who tries to live accordingly? Few, *very few*, because they are often just lying about and their meaning is difficult to understand. We know this and we also know what ails you. Continue with listening to us and to all those that love you. We are *not* gods and we *don't want to be idolised*, you don't even have to love us, but *do listen to us*. – We love you!

6 pm

It is a strange fact that the children on Earth want to hear everything else but that the mistakes they make in regards to the way they think and live will one day *reproach* them. They can dictate *others* what to do and what to leave alone in most wonderful ways, but *they themselves* amble along in their accustomed fashion. In conjunction with JESUS we would like to say: “Why do you behold the mote that is in your brother's eye, but do not consider the beam that is in thine own eye?” – Understand these wonderful words, understand them! “Eyes” here means your *spiritual* EYES, your horizon, ergo your consciousness. – Think about this and try to live accordingly.

Notice you *own* faults first and once you have conquered and bettered *all* of them, you can caringly try to correct those of your fellow men. Have the COURAGE to start this and don't say that what we tell you is “too simple” or that “you already know” this. But do you *do* it? – Don't be surprised when we talk harshly to you, but a friend who makes you aware of your faults is a *true friend*, one that would like to help you. To tell you the things that you want to hear is something that we cannot

do and it would certainly not be evidence of our love for you.

6:30 pm

You are proud about the fact that the number of nuclear test in the atmosphere have diminished. But be aware that subterranean tests are *even more dangerous*, actually as dangerous as *drilling* down to great depths. If you continue with this nonsense you will experience some evil surprises, because the body of planet Earth is *alive* and you considerably damage the living body that carries you and this to a degree where your life on Earth is endangered. You can do anything if you do it with *wisdom*, that is to say, if you can foresee the *outcome* down to the last consequence, but this is something that you *cannot* do, even though you *would be* in a position to do so if your thought were attuned *correctly*. The “needle pricks”, as you try to *belittle* these tests as, you inflict upon the Earth can unleash the enormous forces that are locked up inside the Earth. *These* forces cannot be arrested or controlled by any other force on Earth. To destroy your wonderful abode through your ignorance would be a shame.

16th of June 1965

From our point of view we can see a *small bunch* of people on planet Earth that have *started* to see things *as they really are*. They begin to realise that everyone should start to tidy up their own affairs and to learn to keep their emotions in check. Would the kind of ugly image the world offers most of the time be portrait to the outside, if everyone could control themselves with common sense? – If everyone would be able see their fellow man *as themselves*, would these useless conflicts, would hatred, envy, jealousy, craving for power, greed and addictions still exist?

We want to do everything in our power to help you so that the Earth can become *bright* and *joyful* without having to experience destruction and suffering a priory. *Help us*, you little bunch, help us and *consciously send love to everything alive* the way we tell it to you. Do so in the *morning*, the *evening* and at *night*, try to do so *whilst you work* and take the thought of love with you when you go to sleep. Let it be your first thought in the morning. Do not stop your endeavours, because this is the *only* way you can help, heal and brighten things up.

Many think that they progressed quite a bit, but for as long as you are still the slightest bit your own *person*, the *spiritual* MAN inside you cannot fully unfold. When you are *without* desires, *without* ambitions and *only* represent shining love, you will be one of us.

17th of June 1965

It has often been said that human beings *do not necessarily have to have your form*. The anthropogenic image is identified through intelligence and the ability to express it visibly. Colour, form, vibrations and the level of consciousness *vary*. But the embodied and DISEMBODIED intelligences, ergo human beings, would like to be differentiated. Because there are entities that *no longer solidly* embody themselves and there are entities that one *no longer* calls “human beings” because they *just exist* without being able to express themselves as intelligences. These entities are approachable and they serve those that call upon them and know how to deal with them. They neither know time nor space, neither today nor tomorrow and they are neither good nor evil – *they are* – but they know nothing about it. These entities do not tie themselves to anything, they are everywhere and they wait for commands from intelligent beings. They are capable of performing anything they are commanded to do. I do *not* mean what you call “devas”.

Human beings live in *two* worlds and do so consciously. Birth and death are *transitions* that are a part of the human existence for as long as it has to *visibly* embody itself in order to further its development. Once this has been *comprehended*, a lot of things become clear in regards to the human existence and it will take a lot of anguish and suffering away. It is however a mistake to believe that one will experience a “fabulous state of beatitude” after one’s “death” or “rest in eternal peace”. Life continues after the transition, but *without* a body that tries to express and experience everything that takes place *INSIDE* a human being. Every cell within the body possesses *intelligence* because it is *alive* – and life is GOD. This should be recognised whilst *living in the body*, because this is *not* possible in the DISEMBODIED WORLD.

However, it wouldn’t make sense to confuse you; all we want to do is to help you, because the mankind that you represent is developed to a degree where it would be capable of *recognising* the coherences. People that still *kill, rob, hate* and *tyrannise* others, people that only see *their body* and its base requirements, people that believe that they have to take things from others in order survive themselves or those that believe that they couldn’t live unless those that do *not* conform to their own base way of thinking have been dragged down to their own level, should enhance their thought processes.

All *political parties, programs* and *dogmas* are *inhumane presumptions* and they *hinder* the unfoldment of *true* human beings. Every planet of a higher order is governed by a group of people, it matters not how large it is, that do so with *wisdom* and out of *pure love*. These groups of regents are *healthy* in regards to body and soul, they possess *wisdom* and *universal knowledge* in regards to the existence of the human species that populate their planet and a great POWER of *impersonal* love. Every human being that lives on a planet governed in this fashion *cheerfully* subsumes to such a government and if a group deviates from the flow of such a cheerful existence, they will be *lovingly admonished* or rebuked with *gentle* force.

11:30 am

The fact is that an *ego-free* way of life and a *serving-loving* mental state are required in order to be able to be ahead of today’s average, prevailing thought processes and in order to make contact with *higher SPIRITS* that could indeed also be human beings. If you could appeal to your INNER HELPER *even more*, you would be able to live from *WITHIN even more*, your exterior would express ever more perfection, ergo *ampleness, joy, love and harmony*. Human beings are a part of revealed creation and conceived as such. The environment and globes were created and become visible for the sake of human beings, to rule *in, with* and *for* them and so that everything together would become the perfect expression of joy. *Learn this* and learn to see and to understand everything from *WITHIN*, because all knowledge, wisdom, love, joy and harmony are within you. The completely divine, perfect human being is *INSIDE* of you and it would like to be revealed through you. – Think about this and show your fellow men the *genuine* human being that you are!

The way a gardener nurtures plants that do not flourish all that well with special attention and love, JESUS the NAZARENE also tried *to complete* his work for mankind with all his love and patience. But because his august DOCTRINE of LOVE was and is unfortunately often *wrongly interpreted*, leading to false beliefs and concepts, he send his embodied and disembodied disciples and student to tend to mankind and he gives them the ENERGY and POWER to make themselves understood. What we teach you is the DOCTRINE of JESUS, the SON of GOD, ergo the SON of LOVE. He is love and love is GOD and GOD is love. We help you out of love and we will always help you, *until you are our love*.

Know that it is not within our nature to criticise the working and teaching ethos of those that are different from us. Everybody can hear us, we love everybody – and those that do *not want to hear us* can listen to other teachers – just as they please.

20th of June 1965 – 10:20 am

Tand, tand is the structure of human hand. Everything created and formed by human hand is *transient*, it decays, changes and is only of value whilst being used or desired by some human being or other and of value to the one who created and formed it as the image of an idea, drawn from the WORLD of IDEAS. But it is transient, decays and becomes worthless.

But whatever is *thought of* is *imperishable*. Thoughts are FORCES that continue to oscillate and they do *not* decay. Therefore be on guard! They are equipped with divine MIGHT and they belong to a WORLD *that exists*. – When your bodies decay and disintegrate, you remain as that what you *thought*, you are your thoughts and you live on the PLANE of existence that you have *reached* with your thoughts. – More about this later.

21st of June 1965 – 2:30 pm

Thoughts can be compared to keys that produce something specific through their vibrations when struck, allowing thoughts to *resound* and thereby giving them the opportunity to become visible, perceptible, audible and palpable. Every possible thought has the opportunity to reveal itself, because the so produced vibration encounters the wherewithal in the INVISIBLE WORLD, it unites with it and through it strives for perceptibility. Everything visible strives for unification, for perfection and for completion that is solely found within the *united ONE*. – When the ONENESS enters the *visible world*, it has already entered diversity *without* having actually stepped away from the ONENESS, from absolute rest. GOD is *always* the same and *everything in everything* just the same. This is a secret human beings find incredible, something they can never grasp - something they can only guess.

When a planet is exposed to *different* external radiation on its journey through the universe, all the conditions *on, in* and *around* the planet that were seen as “constant” and “verified” *change*. The same will take place on Earth. Approaching RADIATIONS will change the field of vision of human beings to such a degree that it requires a *strong* soul to bear this *so sudden* appearing illumination and brightening up. Conditions that are still almost completely imperceptible to the physical senses will become visible, audible and tangible, something *unprepared* human beings will neither be able to explain nor be able to deal with. Just when the *full brunt* of this RADIATION will hit the Earth is not known to us and we also do not know how long this condition will last. Coming events do however already cast their LIGHT ahead and those that strive will feel changes in you and in your environment, you will hear about the things other human beings experience.

It is however not just planet Earth that is subjected to eternal changes. All planets move through space and as the *emanations* of heavenly bodies encounter, abnegate or connect with one another, something new develops and if these *emanations* encounter an inhabited planet, the conditions *on* and *around* the planet change and the people on its surface also change without the planet turning into something else. Human beings always remain human beings, only their state of consciousness changes. Effectively *life-destroying* emanations hardly every materialise and we have no reason to assume such a thing in our systems. But negative worlds do exist.

20th of July 1965

Terrestrial human beings are able to *at least partially* receive the TRANSMISSIONS that are BROADCAST from globe to globe, even though they cannot comprehend much of them. The time has come to get used to the idea that imagined technology has turned into reality and that human thoughts and the ability to comprehend, paired with what they envisaged and realised, can lead to great successes in regards to grasping and comprehending the universe and what has been revealed in it. But do *not* allow yourselves to be held up by even the greatest and most overwhelming insights. There are *even more* monumental, greater, smaller and incomprehensible things for you to recognise. Man's capacity to recognise things is nearly as great as the whole visible creation of the UNIVERSAL SINGULAR ONE.

28th of July 1965 – 2 pm

“What would it do to man if he won the whole world and took damage to his soul?” – Contemplate these universally known words! It is important nowadays to recognise that it is the IMPERISHABLE, the SOUL that *continues to live* and that what's envelops by the body with its senses, is *only a guest* on a planet; that this IMPERISHABLE cannot *take away* anything from the planet that it desired and acquired, often with voracity, with craftiness and artfulness. This greed, whether it is subconscious or not, is a *drain on the purity of the soul*, it tarnishes and blemishes its image. This unjustified greed, something that only *seems* to be something, distorts the soul, buries ugly things within the soul, it suffers damage that cannot easily be undone.

Human beings have the opportunity to chase after things that are transient, that they cannot take with them to a WORLD where these things *no longer have meaning* or the opportunity to stand *above* the transient things of the world and to see them as they are. A life without greed and covetousness, a life that doesn't damage the soul *beautifies* the soul, it makes it brighter, lighter, more joyful and more loving. It brings the soul the most beautiful jewellery, so beautiful and shining, unlike any jewellery in the world of transientness. A soul that only expresses love and gratefulness, wisdom and joy, *shines through the body* – brighter, more attractive and radiant than the brightest jewel. A human being devoid of envy and covetousness, a human being that doesn't want to claim the world, is the revelation of a *true* human being, one that knows: “What would it do to man if he won the whole world and took damage to his soul?”

6th of August 1965

When you try to love all the things that frighten you, they will enter the harmony of the divine STREAMS. JESUS said: “Love your enemies, bless those that curse you, do good to those that hate you”. Try to do this! These words express the harmonisation of the revelation called human being and nothing more need be said about it. It cannot be expressed any clearer, but it must fall *deep* into the HUMAN HEART and once there, it must act and work until it is part and parcel of all human thought processes. – Does this sound *too simple* to you? It *is* simple! So why don't you try it?

Do not allow yourselves to be beguiled by the world's fame and fortune, they are just sound and smoke. Love, the POWERS of *divine* love, will flow to those that give it and only give it so that they can love more and more and so they can spread this love throughout all the cosmoses. Close your eyes and concentrate on the THIRD EYE on your forehead and *meditate* over these words. A STREAM of LOVE will spring from your HEARTS and you will see it flow beyond your Earth to the suns and the stars. Those with *open* eyes will see the grass grow – and those that *sleep* will not

even hear the thunder. You received your senses in order to absorb creation's miracles in your HEARTS, so that you can then offer them at the altar of devotion and gratefulness.

10th of August 1965 – 3:30 pm

To learn *what* belongs to *one* LEVEL of CONSCIOUSNESS and *what* belongs to another is important. The HUMAN SPIRIT starts to recognise *what it is* and which levels of consciousness it has already past and which levels it is about to enter. Things that have been incomprehensible up to now begin to become *real* and they will be recognised by human beings as what they have always been, but *unrecognised*.

All periods of transitions cause confusions and intermediate levels that have to be surmounted. The path of evolution leads *upwards* and must be travelled by humanity, by *all* human beings. Past levels of cognizance reappear with all conditional higher developments. People *sense* that something is taking place and they would like to participate in what is happening. They would like to participate and experience it, but they are usually unclear about *what it is all about*. They listen here and there, hear this and the other and run with something until they become aware that this or the other *leads nowhere*, that it is antiquated, past and no longer useful in its old form in regards to progress. To find the *right teacher* or *master* is difficult. There are lots out there that mean well, but also a lot that only have their *own* interests at heart and lots that, driven by certain ENTITIES, consciously spread *heresies*. How can you differentiate if you are *not* trained?

One path is *always the right one* for you who strive and this is the path to INSIDE, it is the path that the great UNIVERSAL TEACHER JESUS CHRIST lived and taught: "The Kingdom of Heaven is inside of you." – Look for it there and everything you do will be right and correct.

7:30 pm

The mentioned vibrations with their contrary effect create increased difficulties for human beings. The only means against them is a *silent* going-within and remaining there until one can confront the turbulent environment completely at ease and calmly. *This* is the *only* way to keep these life-hindering effects that strike every planet in various forms at certain intervals, at bay, they do however *only* disadvantage those that live a *blind* existence. Those that know confront everything that happens and must happen with the *inner calmness* of the wise. Therefore, try to conquer the influences of the environment *in this way*. Be also aware that STREAMS that harm some, *benefit* others, that everything has a reason and a purpose.

26th of August 1965 – 8:30 am

The period of existence on planet Earth should bring about an expansion of consciousness within the body of human beings incarnated there. An expansion means to bring one's consciousness to a *higher* LEVEL after the lower levels have been *lived through* and fully *comprehended*. To *only consciously* raise one's consciousness is *not* genuine progress, one's consciousness must be capable of grasping what's ABOVE and BELOW and become capable of categorising and elevating what's BELOW from ABOVE.

Human beings that do everything for the sake of *their* beatitude and in order to escape the Earth's attraction and the singing of the Earth's atoms, have *not yet* grasped the *meaning* of their terrestrial existence. There are *practises* and *exercises* to raise oneself above the conditions of one's physical existence, but human beings incarnate, ergo enveloped themselves with a terrestrial garment, in

order to work on themselves in *this* garment *and* on behalf of all life, something they must do anyway after having disbanded this terrestrial garment. Human beings must learn to understand *why* they donned this terrestrial garment, they should delve into all the things they can learn whilst in this garment and what they must learn about the ETHEREAL GARMENT of disembodiment. They must wander through *both* worlds until they *comprehend* that the two lives are *one* life and that they each have a severe effect on one another. Only once they have solved all the tasks of the terrestrial classroom, whereby the home planet doesn't always have to be the Earth, can human beings turn to other tasks in their *disembodied* state, and these do however *not* exclude an *occasional* incarnation somewhere or other.

Nothing hinders the higher development of human beings more than a *stubborn adherence* to traditional concepts, points of view and interpretations. Everything flows and things can only be recognised correctly when people are at all times prepared to see them from a *different* perspective than in the past. The words of the MASTERS and TEACHERS also have no solid interpretation and the word only survives when it is correctly and contemporarily understood and lived. Every age has its *own* way of interpreting the word and you will only recognise its true meaning when it is adapted to modern times, when you do *not* adhere to solid concepts.

We live in an *eternal now* when we *know how to correctly interpret* the writings of the enlightened and we can understand them when we look at them as if we saw them for the very first time, as if we never had interpretations of them before and as if we never heard these words before. We will always be able to understand them when we *interpret* them *anew*. This scrutiny *without prejudice* is the best and safest way to gain true insights and to make genuine progress.

When you look at something with a *preconceived* adjudication, all true insights will remain *occlusive* and the most wonderful revelations will be kept from you. But when you look at everything as if you had *never seen it before*, a world of insights and perceptions will reveal itself to you that you could never even imagine before. For instance, when you delve into the aspect of a flower, it will show itself the way it actually is. You will be able to observe its development, see that its colour, its scent and its form is based on a specific vibration, you will realise that any *change* of this specific vibration would produce *something different* from what you have in front of you. You will recognise that when the POWER this vibration is based upon, that allows it to vibrate, is withdrawn, *nothing would remain* and you will recognise the greatness and the POWER that is *everything, absolutely everything* and through your calm and unprejudiced contemplation you will learn to feel *at one* with all of creation and your CREATOR. "Unless you become like children, you will not gain the kingdom of heaven."

3rd of October 1965

Why do you want to find out from us the things you are called upon to delve into *yourselves*? Would we take your pleasure of discovery away from you because we love you dearly? – Isn't reaching the top of a mountain an uplifting experience and wouldn't it be boring to be placed on top by someone, thereby be robbed of one's pride in one's own endeavour? – Isn't it a glorious feeling to have conquered a passion or a vice by *oneself* with a lot of effort and toil? Isn't it wonderful to have discovered something, to have created and acquired an addition to one's SPIRITUAL POSSESSIONS by *oneself*, something that is a *genuine possession* that no power can take away from you?

5th of October 1965

People that *love* the sun, the wind, the rain, water and the Earth and everything living are usually capable of also hearing the thoughts and words, of seeing images and receiving the love from caring EXTRATERRESTRIAL BEINGS. The more detached human beings are from all the things that moths and rust can eat, the clearer their thoughts and the *purser* their HEARTS will be. Don't collect anything that doesn't serve your life, do not waste your HEARTS on *lifeless* things, *love life* and live for the sake of your life. As you hoard and collect things, you waste your time with useless thoughts and lend your words to dead things, you *hinder* a life that constantly flows and yearns to fully unfold.

We know exactly which house and which HEART our words enter, words that you affectionately disseminate for us. We ask you: *Please endure!* The implementation of our plan also entails all kinds of difficulties of a terrestrial nature for you, but our blessings guide your hands for as long as you do your work with love in your HEARTS. You do not notice that your deeds and actions propel you forwards and that your souls grow wings that become stronger and larger. With your *willingness to serve* you are pathfinders for the New Age and *helpers* for those that serve life and progress.

Call upon us, call upon JESUS, the most eminent amongst us, and know that HE will bless you and help you to also heal your terrestrial suffering, so that you feel strong enough to solve the assignment you set yourselves and because you are blessed, may carry out by engaging your whole selves. You are blessed, you are protected, but do not deviate from the path of fidelity and devotion, of simplicity and love. Remain calm and continue to serve for the sake of the fruits the work you do produces, namely to benefit and to help your fellow human beings to progress. – We love you!

You have a specific relationship with the sun, with the solar system you live in. The sun with its physical and spiritual energies deposited a part of itself in you *figuratively speaking* and it is therefore also active within you. These solar energies are being activated through the impact of the direct sunrays that are filtered by the atmosphere and by energies that swings through space. Therefore *sun-loving* people, people that like to sit in the sun, are *more cheerful* and of a sunnier disposition than others. Their inherent *inner* solar energies, they inhabit all physical bodies, *spiritualise easier* and they become lighter, freer, more joyful and more open-minded in regard to their environment. They, these sun-people are the future light-people that already represent the new type of physical human being that will dominate the future. The fact that INSIDE and outside, the physical and the spiritual, *are one* is known and it doesn't have to be emphasised once again. Can you understand us?

6th of October 1965

This may sound arrogant in your ears, but everything looks *completely different* from a specific level of consciousness than from deep down, from a depth where one is being captured within the fabric of the physical senses. The *more spiritual* the INNER SENSES become, the clearer the images of all revelations, the more visible the coherences and the more comprehensible the ORIGIN of all things become. Things that are still important today slowly sink into the depths of the past and things yet unknown elevate themselves in importance and gradually grow into something *essential*. A lot of things *we* are familiar with are still unknown and distant to you, but you will be allowed to recognise and to experience them exactly like us and all other creatures.

According to the best of our knowledge we try to stir up, to awaken things *in you* that are important. Everything is INSIDE of you and it should be *understood* that this is so. The enormous MIGHT and

POWER deposited within every living creature should be noticed and unfolded, it is capable of providing everything that the creature concerned is rightfully allowed in regard to perfection, beauty, freedom and joy de vivre. It must be acknowledged that human beings exclude themselves from this perfection whilst they *only* believe in what their physical senses convey to them and whilst they do not know what these senses are actually for.

It is not in our nature to criticise events on other planets, but we do assess them in regard to progress or malformation as far as we are called upon to interfere as helpers. Even though terrestrial human beings seem in turmoil, restless and sometimes belligerent, we do find that the overall thought processes *expand and stretch enormously* and that this small, beautiful planet will turn into a bright, peaceful place of residence in the *foreseeable* future.

What is important is that every human being leaves their place of residence as often as they can in order to get to know their environment and their fellow human beings. Travelling and observing things with an inner calm and joy, listening and advising those that need this, *smiling*, smiling at everything, be it the sea or a mountain, a tree or a beggar, is a healing agent, a binding agent, a magic potion. Walk through GOD'S garden called Earth *smiling* from WITHIN and do not allow anything to frighten you, no sight, no word and no other living creature. Look at everything from WITHIN, resting securely within you, and you will turn into a helper, because you will always do and think the right thing, ergo do whatever is necessary. Everybody can live like this if they *strive* for this – and everybody that lives like this will sense that their life swings and resounds fully, that they *are* at one with all life.

The coming, approaching time for planet Earth is being determined by *human thought processes* and supported by cosmically conditioned RADIATION designed to brighten and widen the thoughts of the living so that they can also alight on other planets without suffering damage, so that they can love and understand all their fellow men and so that they can recognise the specific meaning inherent in all life, but specifically that of the divine revelation called “*Man*”.

The *new* human being will not be governed with great speeches, reprimands or confusing laws, they will react to the universal thoughts of a *global government* like delicate receivers that react to a bodacious sender. Those in government will guide planet Earth *according* to the advice of *advanced human entities* so that all human beings feel that they can live, create and think freely, but still abide by a moral code that excludes all conflicts and quarrels. Technological and artistic marvels will be able to develop and the people that atrophy into ballast, ergo as a remnant of the past, *are to be corralled caringly* until they completed their existence on Earth to then domicile on a *baser* planet.

This development will proceed *very rapidly*, surprising rapidly *in our eyes*, but not necessarily for those human beings that are still in the grasp of prejudices, confessions and old traditions. Therefore, endeavour to serve PROGRESS step by step, live *with* and *for* your fellow men and *often forget your own worries* and troubles by trying to alleviate and remedy the worries and hardships of the one's you live with. You can do so mentally or with selfless actions, whichever one is necessary. The serving, SEEING, observing and silent grow into the cosmos, towards its vastness. Have patience with your fellow men and do not condemn them if they do *not* share your opinion. Don't be cross with those that disturb you or represent a nuisance to you. See the eternal CHRIST *in all* and talk to HIM who resides in everyone.

“YOU, who lives in all, release them from the fetters of DARKNESS, so that YOU can shine from within them in all YOUR glory and beauty.”

Ask as often as you can for patience, understanding, calmness and joyfulness so that you can be a joy to all your fellow human beings, to your environment and to us also. *Allows yourselves to be guided and trust* in your INNER VOICE that always tells you what is right at a specific moment. Those that strive, those that consciously swing in the STREAM of LIFE, will neither encounter a script, a book nor an image that does not serve their progress and their spiritualisation. – But those still on their way should listen to their heart and when it says “no”, they should turn their back on everything, even when their senses crave it. To listen to the VOICE of one’s HEART, for oneself and for other, will be beneficial.

Planets exist throughout the cosmos that *still bear signs of extinct cultures*. These planets are however not inhabited by planet-bound humanities, but they are certainly inhabitable. They are utilised as *landing sites* and as *colonies* by other planetary humanities. These relatively small celestial bodies are often *very fertile*, because they haven’t been *abused* by *unenlightened* human beings or other phenomena of life for long periods of time. Terrestrial mankind will experience great surprises once they are in a position to move from their inhabited planet to other planets, namely that they will be well acquainted with a lot of the things they encounter in space, that things will not be as strange as expected. All human beings carry an image of *all* revealed worlds *inside of them* and the brighter their awakening, *the more* graspable and more familiar things will become. But this feeling, this knowledge that everything revealed is part of the large WHOLE we live and weave in, that all of us are a component of and wherein we are well protected at home, will elevate us to COSMIC CONSCIOUSNESS, it will make us joyful, grateful and powerful, the way our UNIVERSAL FATHER intended us to be.

8th of October 1965

Genuine *healing* ENERGIES are always prepared to serve human beings’ and all other life’s revelations, but they are only there where they are *called upon* and requested. They wait for an opportunity to be allowed to become active, but they must be given a field of activity. – The situation with *destructive* FORCES is different, they try to attack where the *opportunity to attack* is offered.

Now, human beings who have their thoughts under control as best as they can, do *not* represent appoints of attack for destructive forces, because wherever constructive, BRIGHT POWERS reign, darkness cannot exist, because LIGHT exists there. But the thought processes of *present-day* human beings are mostly an *intermediate thing* between LIGHT and DARKNESS, but *not* complete DARKNESS anymore.

When we look at the Earth’s *overall image*, we can see that the LIGHT is *getting more powerful* and that DARKNESS must give way. But it must be said that the complete DARKNESS, ergo people that do not give a thought to how they lead their life and allow themselves to be driven by the POWERS of DARKNESS, are lost and *pitiable* in our eyes, something that is hardly ever encountered amongst human beings on other planets. *No* BEAMS of LIGHT of the true life fall upon these minds, they are the dregs that all cleaning processes can produce.

But these lost souls are *not as numerous* as you might assume. The things that you might consider a “vice” might be the only possible path for them on their search for the LIGHT and their true life. There are *very few genuinely lost* souls here on Earth and they have fallen *so deep* that they will no longer return to Earth.

Try to live as an *archetype*, but do *not* to take measures or judge without wisdom and insight, because it is very difficult to see *clearly* when people live in the middle of a cleansing process. We

therefore ask all those that read or hear our words to *put them aside* and not trouble themselves with them, if they do not understand them completely. Everything will become clear to those that strive after having striven for some time.

11th of October 1965 – 10 am

Telepathy is the *universal means of communicating* between all creatures. What must be constantly pointed out that the ability of SENDING and immediately GRASPING clear thoughts is the only potentiality for *perfect* communication between two or all creatures. When creatures are able *to read* the *clear* thoughts, the imaginations of their fellow beings, misunderstandings will *never* arise. – How deficient are languages and words! Even colours and sounds, they are of a higher nature, *cannot* be communicated the *same to everybody*, even though colours and sounds affect equally oscillating beings *equally*, beings with different oscillations *cannot perceive* these vibrations.

Telepathy is the grasping of thought processes the *way they are conceived* and these cannot be misunderstood. The moment all creatures developed a sense for *telepathy*, all creatures are like glass and every impure thought is perceived as an opacity that can therefore be cleansed with the caring assistance of the OLDER, those that SEE *best*. It is a matter of course that when this time is here, everyone will endeavour to refrain from thinking impure, ergo dark thoughts, because they know that their thoughts can be perceived *by all*. – To describe these things is difficult, but it should be mentioned and contemplated quite often, because to train oneself *now* and *immediately* and to experiment is within the realm of possibility.

Let it be said that only the perfected ones are allowed, through *clear* TRANSMISSIONS of thought vibrations, *to change* events towards a predetermined direction. All those that strive are allowed and encouraged to bless and to dearly love everything within their vicinity and *far* beyond their home planet and the solar system, to flood it with love, constantly and more powerfully all the time. This is a REMEDY, a dedication and a connecting everyone who is *willing* is capable of. No formula exists that is generally applicable in regards to the training of one's inherent ability of SEEING THOUGHTS. We can *a priory* only recommend a quiet *listening within others*, a *listening within* everything.

12th of October 1965

If *all* terrestrial human beings would remember that it has so far been impossible for anyone to escape to another planet in their physical garment, if all of them *knew* that they *continue to exist* after their supposed death and that they *have to give account* for all their deeds, if all of them would *realise* that nothing that *doesn't benefit all and sundry* amounts to anything, would peace reign then?

Deeds are neither forgotten nor do they disappear, whether they are good or evil, on any planet or in the DISEMBODIED WORLD. Everything moves between *two* worlds and once this has been recognised and comprehended, the situation *changes* immediately towards harmony and joy. This is why it is so important for those that are servants to bring elucidation and clarification into their environment. They should *a priory* draw people's attention to themselves by being archetypes so that their fellow men can show trust in them and ask them to reveal the secret that is behind the cause of their *constant cheeriness* and *composure*. They should then inform them that people have everything they require to live and that they shouldn't covet anything that they do *not* need to live. They should tell them that they live in *two* worlds and that death *doesn't mean the end*, that they only experience a *different* from of existence, an existence *without* a physical body, that life continues to swing and that everything of a *non-physical* nature remains. All of these are thoughts

and insights human beings have thought about and gained and they indicate progress or standstill in the final analysis.

If all human beings *know* that it is *of no benefit* to them to destroy life in order to survive, could they still kill each other? – All that is required is a change to the *thought processes* of terrestrial human beings!

13th of October 1965

The Earth is an abode that offers a home to human beings of *various* LEVELS of DEVELOPMENT for a certain period of time. It floats, in company of many others planets, like a large spaceship through infinite space. It is presently still a *very restless* house, because a lot of its residents are still *asleep* and only see the small space they occupy – and this is why it is the *duty* of the awakened ones to awaken the sleeping with their love, their words and their thoughts. Those that seek the wideness with their power of imagination should pull the sleeping out of their predicament and create light and joy. – Therefore, *direct* your thoughts afar and then *compress* them into an ENERGY that you can stream over all life, to illuminate the Earth.

14th of October 1965

Every well on Earth can run dry. But the WELL of ETERNAL LIFE bubbles in the HEARTS of all human beings, deep inside. They can bail from it and eternally quench their thirst, their thirst for insights, harmony and love. And *love* is the magic word that *opens* this WELL. Time and space have a beginning and an end, but the universe is infinite – GOD is without a beginning and without an end. Human beings have *forgotten* the secret that hides the reason *why* human beings, the children of the universe, entered into time and space and why they now search through time and space for the secret *deep within* themselves that harbours the solution.

15th of October 1965

A lot of scriptures that you call “sacred” speak to you in images, comparisons and parables and the time has come to recognise the *true meaning* of these images and parables and to experience and to live the profound cosmic insights, truths and advice contained therein. All of these are solely directed at human beings and their environment, their genesis and their position as sentient beings within the cosmos and the image that a *true* human being represents as a CHILD of the HIGHEST that is to be actualised.

When these already ancient doctrines have been *understood* and *lived by*, human beings will reveal themselves as creative, omniscient beings, beings that feel at home within the universe and that are no longer tied to anything that could hinder their completion, their path towards perfection. Human beings will then have passed through all the stages of their development and will *know* that they are *one* with INFINITY.

16th of October 1965

The people that live on Earth can achieve a lot through *correct deportment, breathing, nourishment* and *inner attitude*, but the impetus to live towards a goal must come from INSIDE and it must be through *one's own* initiative. Once our INSIDE begins to awaken, we will *know* the *correct* deeds and actions to take, GOD who can do everything will then act *within us*.

18th of October 1965

Our doctrine states:

Human beings, as a thought, a seed, were exhaled by the UNIVERSAL-ONE CREATIVE POWER from the start and they oscillate with everything – within the BREATH of the HIGHEST who *is everything*.

Human beings as sentient creatures grow the way everything revealed grows, ergo develops onwards towards what it is destined to be. GOD’S CHILDREN grow on planetary abodes and planetary islands until they are mature, they can then begin to develop further on solid planets without direct supervision, ergo *independently*. This is the time when human beings are fit to wear a *solid* body, one they can however *put on and discard* during their lives on a solid planet.

We therefore do not hold the opinion that human creatures develop purely organically with and on visible planets. The human seed *matures* on planets that *are different* from the planet you know as planet Earth and it will be relocated to suitable planets at a specific point in time. Some of these human creatures will remain on the home planet that accommodated them in *both* forms of existence, whilst other human creatures will incarnate on *various* other planets, but very *highly developed* BEINGS live *without* a body for long periods of time because they have traversed through physical periods of time and can therefore be there as GUARDIANS for HUMAN BEINGS.

This doesn’t mean that our doctrine is definitive. But we see the eternal enigma “*Man*” as GOD’S THOUGHTS, as an exhaled human seed, maturing and becoming visible and recompressed as a seed, to be re-inhaled by the eternal, infinite, but non-created UNIVERSAL-ONE GOD.

We can only guess at this incredibly long cycle of our development, because we *do not know*, we assume and ponder, because we are always impelled from inside *to want to know*. One *part* can indeed *guess* the WHOLE, but we can *never see it*. We can indeed *feel* GOD within us, but never stand above HIM and see HIM.

20th of October 1965

The *awakened* begin to look inside a world that is completely new and *of a different nature* than the one they assume they live in. Colours, forms and sounds begin to express, clarify and make things comprehensible. The *disembodied*, eternally flowing, surging WORLD, a *realistic* WORLD from whence the material, physically visible worlds flows from and is designed from, represents the true image of the visible world.

SEERS see or perceive *everything* with their physical senses *and* with their *spiritual* SENSES and can therefore SEE everything as it really is. They do not only SEE and HEAR the FORM and BUILDING FORCES that maintain the species and form of plants, that control and guide animals and their group-souls, they also SEE the thoughts of their fellow men, they are also aware of the emotions of their home planet and everything seem like looking through glass that becomes more see-through and brighter. They become SENSITIVE and CLAIREAUDIENT and they are astonished and often horrified about all the things that are revealed by day and by night.

21st of October 1965 – 4:30 pm

All the people on the *same* level of cognisance can HEAR and SEE everything around themselves,

around their planet and far into the universe. But they cannot convey anything to those that they would like to transmit their insights to, if they have *not yet* reached the same level. They can only attempt to offer clarity to others through images, a few available sounds and visible colours and forms.

Genuine VIEWING can only be acquired through the *animation* and the *training* of the SOUL'S ORGANS inherent in all human beings. Once these ORGANS begin to work within human beings, their *true, conscious* lives begin. They will then however also become conscious of the responsibilities they have as *sentient* beings in regards to all life, they are advised to be fully conscious of this responsibility and they have to realise that they are a limb of a large body that is designed to be bright and healthy.

Your lives should therefore be a life of service, striving, loving and realisation, *not just for yourselves*, but for all and everything. It is within the LAW of the HIGHEST that everything that *separates* itself, ergo *sins*, will be forced to flow back to harmony with severity. The CREATIVE POWER does however not deal with time. It is within the BREATH of the HIGHEST that everything that flows away from harmony flows back to harmony, back to the ORIGIN of all THINGS. – Think about this!

Concerning drawings on ancient tablets and scrolls

Those that know, *recognise* the symbols that are mere images to the ignorant, images that have no meaning in their eyes. Most of them are body positions and symbols that deal with *breathing*. Certain *mantras* were also disguised, ergo past on *symbolically*, and so were astronomic and physical insights in the field of chemistry and medicine in regards to the relationship between human beings and “DEITIES”, GUIDES of WORLDS and inhabitants of other planets.

One has now started to decipher these symbols and to grasp their meaning and one will recognise with astonishment that the Earth has seen and will see *great cultures*. Sound and colour play a major role here and also the LIFE FORCE, ergo breath.

Masks of birds on many tablets for instance indicate specific breathing exercises that facilitate an easier path to the LIGHT, well actually illuminate it. Certain practices were kept strictly secret to keep them as the prerogative of priests and also specific sound and colours, astronomical interpretation and encrypted rules of conduct for adepts, so that they would only serve those that were already prepared and ready to provide a major service.

Awakened human beings are astonished when they see the great cognitions of people that inhabited the Earth a long time before they did. It would have to be obvious that *various* advanced beings inhabit planets like Earth and that people willing to serve exist that see the hardship of the younger ones and want to help them recognise that everything *is completely different* from the way they see it.

22nd of October 1965

You that strive should always keep your feet firmly planted on the ground. Your fellow human beings need you so *do not alienate yourselves from them*, but love them as they are and understand their deeds and thoughts. This is the only way you can help to alter things and make them easier.

Things approach the Earth that demand the assistance of HUMAN HEARTS filled with love and knowing trust, HUMAN HEARTS that have *found* their very CENTRE of their BEING and take a *solid stance* from this CENTRE amidst the surging waves of upheaval, as an archetype and support for those that *drift* within the stream of time.

To find the divine, *dormant polarity* in one's CENTRE, in order to be useful within the upheavals and transformation, is and remains the most *essential* thing.

Remember, it is all about human beings and *not* about what's around them and certainly not about the things they surround themselves with. What is solely important is that human beings *realise* that they create the events that take place around them *themselves* and that *only they* can change and transform things. Helping POWERS only help those that are prepared to *help themselves*, themselves and all the others.

26th of October 1965

People who constantly try to either consciously or subconsciously push *their own person* into the *limelight* will not be able to perceive their own CENTRE of BEING because they constantly focus their thoughts on the outside. – But those that *direct their gaze INSIDE*, ergo live from INSIDE, are the centre for their environment. What the first strive for will eventually befall the latter.

* * *

Part 2

The Earth's reactions to encroachments into her being, committed by human beings, come unexpectedly and *almost without warning*. Human beings forget in their arrogance that the Earth is *alive*, as alive as they are, and that they may *not disturb her* life, neither out of curiosity nor ignorance.

- Life-related transformations and movements are taking place *on*, and *around* the Earth and all planets according to their age, their composition and their location within the cosmoses.
- Changes take place through the *thoughts* of the creatures that inhabit these planets.
- Changes take place through *actual interferences* in the natural existence of a planet.

When a planet is *devoid* of any movement, it no longer carries life of a physical nature and it is close to its end, that is to say, close to transferring into the INVISIBLE WORLD. Most of these worlds are gobbled up by negative worlds and this dissolves their physical body, so their souls can continue to live freed from their body.

But there are also planets that *mature* into enormous ENERGY CENTRES with their populations on board and they can turn into great SOURCES of ENERGY for *other* planets and creatures. Their EMMANATION flow *far* into other systems and they are very life-sustaining and promoting for specific, revealed creatures, they *awaken* SPIRITUAL ENERGIES and they open inner CENTRES.

These illuminated planets can represent a great SOURCE of ENERGY for some time and their various RADIATIONS *cannot* be hinder or diminished by negative worlds.

Planets exist that touch all the CENTRES of living being and planets exist that only send specific RADIATIONS *far* into space. But all planets that are alive and inhabited emanate specific RAYS of totally different strengths and form, of totally different sounds and totally different colours.

Practise tolerance in all its facets. Also listen to what seems “nonsense” to you if it comes from a *pure* HEART. But try to avoid *unnecessary* lament, pessimism and viciousness by allowing the OM-sound to resonate within you to an ever-higher degree. Allow it to stream from you with such intensity that it burns and destroys all of this negativity. Also do this when you read newspapers and periodicals.

Great FORCES *were* your own and worlds lay before you unveiled in the past. Human beings were like glass to you and you could look into their HEARTS. You could also look INSIDE the Earth and you could feel her breath. You danced in her hallways and you could swim as easy as a fish in her pure oceans, because we were as ONE in those days. – I was with you and you *knew it*.

23rd of March 1965

Allow the dried hallways in your HEART to be verdant, make them appear in a deep green, something your physical eyes *have never seen before*. Allow the ocean in your HEART to thunder, so wonderful and mighty, something your physical ears *have never heard before* and dance the dance of cosmic joy, relaxed and full of devotion in your HEART. Breathe in the POWER of the rays of your sun and spread the scent of universal love and joy.

Do *not* allow yourself to be *fettered* by AHRIMANIC FORCES, allow them to keep you, but only to the degree that *you want them to*.

See, this is why you should *renounce your usual diet* for periods of time during the *spring* and the *summer* and try to free your body from unnecessary stress. You require your body here on this Earth, but you should know that it does not have to become a burden to you. The *more* you constantly *work on yourself*, the less use you will have for external needs. Didn't the ancients say: “When the soul is hungry, the body eats.”

Do *not* allow your soul to go hungry, let it absorb everything that you are capable of giving it. Let it wander afar, allow it to see all the miracles of creation, things human eyes on this Earth have never seen before. – Remember my words and try to live them – *animate* them.

24th of March 1965

Remain true to your friends, you will accomplish great things during the enlightenment process of HUMAN HEARTS. Remain strong within your HEART! Things will approach you that cannot be comprehended with your mind. A powerful WAVE of ENLIGHTENMENT circles the Earth, one that *can bowl over the unprepared* and completely confuse them. It is indeed important to sing the OM sound in your HEART in order to remain strong and have a clear mind. It will be akin to the times the Tower of Babel was built, only the confusion will be *far more extensive*, because we are dealing with the breakthrough of a *semi-physical* nature and of *semi-physical* things these days, things that should be made comprehensible to human beings.

The realities that lie *between* the vital and the ASTRAL PLANE reveal themselves with great intensity and those amongst the living that have never dealt with psycho-scientific facts will be *devastated* to such a degree that they can no longer see things *clearly* on this Earth. Things will then befall them with such power that they will have to doubt their own sanity and will lose the ability to judge things clearly. The purpose of their present incarnation will not have been fulfilled, they will not have utilised their time here and they will have to go to a *dark planet* where a lot of difficulties and annoyances await them and where they have to propel their lives forward *without* the great help of the OLDER ONES.

26th of March 1965

If you could meet some of the human beings from distant stars, you would naturally not consider them to be “beautiful”, you might even find them “quite strange”. You would also not comprehend their lifestyle habits. The souls that don a body on some planet or other or allow themselves to be placed in a body, will *always remain* human souls, no matter what type of physical garment they might occupy. What kind of body forms prevail *differs a lot* and always depends on the planet they inhabit and the planet’s components they consist of, but they are always such that a human soul can live *in them* and *express* themselves with.

A lot of planets are populated by human beings like you and they only *differ very slightly* in regard to size, skin colour, head shape, language and mode of life. Other planets however accommodate beings of the highest intelligence and they are *completely unlike you* in their external appearance. Their intelligence is so sophisticated that they hardly require their external form anymore, but they still represent physical revelations of life and are therefore not pure SPIRIT BEINGS. From my vantage point I can see that an *indescribable diversity* flowed, still flows and continuous to flow from GOD’S BREATH, something no human heart will probably ever completely grasp.

All of this exists and a *lot more, much more* than you will ever be able to imagine!

The idea that intelligence is not tied to forms that you can grasp with your five senses should *now* be a part of your normal thought processes. Intelligence and the ability to react to commands from beings that are also endowed with intelligence will now become graspable on hand of examples.

All life is intelligence, because life is GOD – and GOD is INTELLIGENCE in itself.

Everybody is in a position to react to the thoughts of everybody else, ergo to understand them and to use them to do something, to make them visible. DISEMBODIED INTELLIGENCES can expand, spread and make themselves understood to an incredible degree. They can have an extremely fruitful effect and create harmony where chaos seems to reign. Human beings can indeed reach these INTELLIGENCES *through their thoughts*, connect with them and thereby participate in the revelation of new creations and the maintenance of already revealed life. Can a human HEART not *expand far* across the Earth and much further if it is filled with love?

Human beings, during their stage of appearing as terrestrial human beings, wear a physical garment that exists of atoms *derived from the Earth*, ergo are therefore connected and interwoven with the Earth as a home planet. But because the home planet is a part of the cosmoses, not only interactions and connections with the home planet exist, but *connections with cosmoses* and their STREAMS, emanations and vibrations also exist. The human body is therefore *a part* of the cosmoses and exists *within* their vibrations and it feels these vibrations and radiations.

The human body is healthy for as long as this connection is not *disturbed* or even *destroyed* through the ability to think that stems from the NON-MATERIAL SPHERE.

A revealed life that *cannot* consciously think always reveals itself as pure, beautiful and healthy if it *isn't disturbed* by other thinking beings. But human beings, as sentient creatures, consciously or subconsciously *abuse* this gift, this ability to think and thereby harm their type of revelation, revealed through their bodies. With their thoughts they interfere with the natural RADIATION of the Earth and the cosmos, they *destroy* the wisely though through functions of the body through their thoughts and actions, thereby hindering the SOUL ENTITY they represent in its further development and ascension as a universal intelligence. What is called “progress” these days is *only a hindrance* to the free unfoldment of the species called human being that lives in a terrestrial body.

I will explain to you what I mean: When the organs of the body require rest, animals lie down to rest, to relax and to then get up fortified and ready to follow their instincts again. But human beings turn *night into day* and when they tire, the unlawfully *force* drugs and essences on their bodies so they can keep performing, they *abuse* them without giving a thought to their deeds and actions. People allow themselves to be seduced by their senses and *nourish themselves completely erroneously*, they often eat *much too much* and must once again take medication to help them digest this unnecessary ballast. Who can *hear* the call from their inner organs? Who can *hear* the lament of an overtaxed heart? – Which smokers *hear* the groaning of their lungs? – Who can *hear* the call from their skin that doesn't like to be draped in synthetics? – Probably only a few. But all are astonished that their bodies no longer want to serve them as they should, when they suffer and feel pain and when the pills and potions they take no longer seem to help. Begin to *think correctly* and *pause to think* and all the suffering and pain will go away, because they are not appertaining to the human existence and do not appertain to their abodes, namely their bodies.

Herbs and plants grow that can nourish human beings as nature provides them. People can and should prepare *this* food appetisingly and palatably before they eat it. They are also allowed to eat *fish* and moderate amounts of *meat*, because it all stems from the Earth.

But they are *not allowed* to eat all kinds of tempting, colourful things that have been fabricated by greedy ignorant producers through unnecessary refinements and falsifications. People should indeed bake their bread, cook their meals and drink their tea, but they should *not* corrupt their food with artificial colouring and life-destroying essences, with sprays and conservatives, because this also corrupts their bodies. People *should sleep* when they are tired and not pop pills to stay awake in order to do useless things.

Know that *spiritually active* people *are hardly ever tired* because the vibration of the SPIRIT, the higher it is, force lethargic atoms to become agile, lighter and brighter in a natural way. The blood gains a different composition and it sings a cheerful song, the organs have to work less and the skin breathes better. The higher the spiritual vibrations, the *less encumbered* the body will be, it will then hardly be felt or not felt at all and it can then, like in its original state, perform its functions unhindered, in the service of the SPIRIT BEING that inhabits it – a human being.

13th of May 1965 – 8:30 am

When an *eminent* SPIRIT ENTITY has the assignment *to support* human beings in their planned endeavours to solve a problem on the specific planet they incarnated upon, there have *two* potentialities for this:

The first potentiality

It can radiate parts of its HIGHER ENLIGHTENED SELF from the NON-PHYSICAL WORLD, wherein it can act unhindered, to the centre of the specified planet and they can spread as IMPULSES across the planet to then be received by human beings that are predestined to receive them, ergo are prepared a priori to receive them. These IMPULSES, emitted by caring ENTITIES, can be *intercepted by everyone*, because they circle the radiated planet every second of the day during their intensive, consistent and powerful period of irradiation. The general nature of the thus irradiated human race will then *change* according to the number of people that can *consciously* absorb this radiation.

But *evolution-hindering* ENTITIES will try to *slow down* these RADIATIONS. This is why they can only be absorbed by human beings that can *no longer be reached* by these hemming ENTITIES.

These are the *most ethereal*, no longer explicable processes that can only be profanely hinted at in the form I present them today. But who amongst you is in a position to understand, to know that such a RADIATION is *approaching* the EARTH *with great force* and already begins to impart the finest types of IMPULSES?

Try to keep your thoughts *under control* and your thoughts and actions from the machinations of war mongers and materialists without negating your profane existence. Remain striving for *harmony and beauty* in the here and now, but do *not* deal with thoughts that can produce fear and disharmony.

But you should also not feel that you are in “Seventh Heaven”, because you are *in* a body *on* a body that is drifting through space with myriads of other bodies you call “stars”. Certain assignments are supposed to be dealt with whilst in the body, assignments that *cannot* be solved in the spiritual, disembodied garment. This is why you *yearned* for the body that you may now wear, so you can solve these specific tasks. Therefore, wear it *with joy* and work in it and do *not* yearn to cast it off anytime soon, because you would only yearn *once again* for a physical garment.

See things as they are, touch them and utilise the things you have. You are *now* given the opportunity to gain *insights* on planet Earth, to *realise your higher development*, something that can only take place at great intervals. *Millenia* may pass before such HELP is offered again, if the COSMIC HELP *isn't* utilised this time around, the preferred planet pursues a *LIGHTLESS* path and its inhabitants toil with difficulty towards the yearned for LIGHT that is offered to them *right now* with great love and intensity.

The signs are there from our point of view, namely that the great endeavours by the DISEMBODIED WORLD on behalf of planet Earth and all other planets that have reached the same level, are not in vain and that terrestrial mankind *will accept* these enlightening, harmonising IMPULSES.

The DARK FORCES will *mobilise everything to destroy* this enlightening and harmonising process – they actually do so right now – and *lots of unrests and upheavals* will be necessary. But new things can only eventuate when old things pass and space for the new becomes available. Therefore, see your present time, the 20th Century in your calendar, as a time of *total upheaval* that will be followed by an epoch of insights, joy and LIGHT.

Be happy about the fact that you are *allowed to consciously help* to drive a development forward whilst in your body that not only reveals true human beings as *masters* over planets, but also as

COSMIC BEINGS. All human beings carry the seed of a COSMIC BEING within and the time to be able to reveal it is *now*, once the COSMIC HELP on offer has been acknowledged and accepted.

The second potentiality

The second potentiality for an *eminent* SPIRIT ENTITY to support and to propel a planet forward in its higher development is this: An *eminent* SPIRIT ENTITY can *compress* its POWER totally or to a specific degree and *appear* in a human body, but only on *one* planet at a time. Its great POWERS are at that time totally or partially tied to one planet and only have an effect there. The appearance as a UNIVERSAL TEACHER represents an *unimaginable sacrifice*, one you'd find difficult to imagine and also presents difficulties to *very eminent* ENTITIES, something we have little inkling of. The higher an ENTITY ascended on its path of cognisance and comprehension, the *more difficult* the path becomes for it, a path it only undertakes out of its *enormous* love for creation and the CREATOR.

Let me tell you a secret: *The more* love you extricate and emit with unrestrained force from within you, the more filled with LIGHT and joy *your* life will be. All living things yearn for love, everything alive blossoms when love strikes it, everything alive *brightens up* and shines when the love resting inside is awakened through love. – You now know that love is the *key* to paradise.

18th of May 1965

Everything that can *consciously* love is only capable of expressing love and everything else falls by the wayside. Love can only beget love and awaken love. Love burns everything that is not love. Love is life and a life that only consists of love is luminous and beautiful and capable of unimaginable unfoldment, because love *burns everything* that could possibly confront a perfect unfoldment. Therefore, try over again to *awaken* the love that rest within you and to make it glow.

Be aware that those that radiate love should never see their love rays reflected by a *specific person* only, their love should flow *over all* life. They should love everyone and be automatically loved in return by all those that can feel their love and all those that they were able to awaken to also love, because they cannot only send love, but will also receive love in return, love they require to amplify their own ENERGY. But all personal desires must be excluded from this type of cosmic love, because they *constrict* and curb the ENERGY of their STREAMS.

Never demand to be loved by another human being, but try to *kindle* love in everything living – in everything. GOD is love and the whole universe is preserved through love; when you consciously give love in your own way, you participate in the creative process and help to preserve all life, you are consciously aware that you are a part of GOD the ALMIGHTY and your life is like a glowing, life-giving, life-sustaining sun. Love, love, love and you will live a divine existence.

* * *

I will try to explain to you how one *travels* from planet to planet – to planets with human races that are one step *ahead* of you in regard to their insights. The way the development of conquering distances and the recognition of the utilisation of everywhere available STREAMS of ENERGY and conditions is propelled subsumable, visible and tangible by your five physical senses, is the way things are happening *everywhere* and a standstill is never and nowhere to be found. One invented a very simple system to fly *blindly* from A to B or from C to D. Instruments are simply given the co-ordinates to the planet one intends to visit and after the gravity of the home planet is quickly left

behind, the spaceship is *automatically* guided to the selected planet. Every planet affiliated with interplanetary traffic has its own receiver station that is accurately calibrated and therefore capable of *attracting* spaceships attuned to this station. This doesn't happen at random, but according to exact plans, the way train, bus, ship and plane schedules work on Earth.

Researching space travellers encounter considerable difficulties approaching a planet if it is *not* connected to this network, or even to land on it undamaged. Space travellers are human beings like you and not SPIRIT ENTITIES capable of doing everything because time and space no longer exist for them. Higher and *much higher* developed human beings do indeed have completely different opportunities than terrestrial mankind is familiar with, but we are dealing with human beings with physical bodies here and they are harder to transport than disembodied SPIRIT ENTITIES that can go anywhere they want to *at the speed of their thoughts*. But once a human race has comprehended certain insights, their development will proceed at pace, but what is extremely important is that this development does *not* run *lopsided*. Wisdom and technology must keep pace with one another and unforeseen expanses will be laid out in front of said human race. Things that only a few could *foresee* will become tangible and applicable, distances will be conquered, time will be lapsed, past and present will amalgamate within the eternal now, within the eternal consciousness of I AM.

Human beings, as the highest form of existence, have been endowed with the *ability to think*. Do they utilise it! True life is *eternal thinking*, attempting to see and recognise why things are like this or like that. *Why* does this flower have the vibration that makes it appear *white*, why does that flower have the vibration that makes it appear *red*? *What* are the coherences between the organs of people that perceive things and the perceived forms of appearance of creation? To be able to think is wonderful! Therefore, do not expect your OLDER BROTHERS to tell you things that you should work out *yourselves*. How could we take away the pleasure that a true insight triggers in your hearts? You are allowed to convey *your* insights to your fellow men, but we may only do so *to a certain degree*; do therefore not expect us to do what you are capable of doing *yourselves*.

Anyway, certain IMPULSES are given by COSMIC TEACHERS that circle around all planets within their vicinity. These IMPULSES are *particularly powerful* now, but they can only be absorbed by people that have learned to think independently. We are talking about IMPULSES that *promote evolution* and not about *baser* IMPULSES with a hemming effect, given by other FORCES.

Train your thoughts! Separate yourselves from what the *masses think*. Look at everything with your INNER EYES and form your own images of things. Try to get *behind* things and *not* believe what others think about it. Think *for yourselves* and gain your independence through this. This independence, this being perfectly anchored INNER steadfastness, is something you will urgently need, because it is absolutely necessary for the coming times. It is the aim of the tests you will have to pass; it is part of man's image who is *lord* over heaven and earth, who can hurry from planet to planet and to whom the wonders of creation will become recognisable in their radiant and eternally vibrating state with ever greater clarity and amplex.

10th of June 1965 – 8 pm

The ones you call your "OLDER BROTHERS" have served a "DISH" of their own accord, one that the terrestrial people of the 20th century will find palatable, it can be easily eaten and digested and it effectuates a healthy body and soul. Partake of the dish they lovingly offer you and accept the words that are captured by those that caringly serve amongst you. To find revealed perfection is *very rare* in a still *maturing* human race. Therefore, do *not ask too much* of those that serve you here on Earth. They serve with you love, they absorb our words with love as best as they can and as best

as they might understand us. Feel *our* love, feel *their* love – and everything will be alright.

Take notice of the fact that you should pair your knowledge with your *wisdom* and *not* force your fellow men to revere and respect *your person*, because when you self-congratulatory spread your wisdom in order to be adored, your remuneration will be zilch because you raise feelings in your fellow men that are *non-promoting* but inhibiting instead. *Truly* wise people are *very humble* and only divulge their wisdom in order to help, to enlighten and lighten people's burden. They always *sense* what has to be done, they remain silent when monologues are inappropriate and talk when the things they say bring blessings and harmony wherever they are heard, so that it will be stimulating and invigorating like a warm summer rain.

* * *

Something is *ousted* from you when you *breathe in*. Something *forces its way* in when you *breathe out*. The purer your temple, the more COSMIC ENERGIES can penetrate and the more consciously you observe and later guide the process that maintains and makes life possible in the form that you exist in, the better the chance for you to become a SOURCE of ENERGY yourselves. Because when you are a *pure* temple, only love, harmony and joy can escape from you when you *breathe in*. And when you can *knowingly guide* these STREAMS, you turn into a CREATIVE FOUNTAIN, a POWER GENERATOR that can do and produce unforeseen things. – Think about this and try to live *consciously*, because to realise and to do so is the *meaning* of “*embodied human being*”.

We are talking about *spiritual* BREATHING here and it naturally happens in conjunction *with* physical breathing, but it has nothing to do with profane air, with things that can happen to the air that you call *polluted*. *Everything is pure* to the pure!

Most terrestrial masters will *not* tell you these things and you must *guess* the *meaning* of my words, because there are no terrestrial words that can convey this. *Feel* the coming and going of the STREAMS and use them to be a blessing for *all* and above all, everything that carries life.

* * *

You are on Earth and you *wanted* to come to Earth for a terrestrial life and this is why a certain conscious connectiveness with your home planet is required. But all COSMIC BEINGS strive *to dissolve* this adhesion during their incarnation, whilst they *sense* an affiliation with the vastness of space, whilst they *sense* that they are DIVINE UNIVERSAL BEINGS that would like to *extricate* themselves from their self-selected enforcement. This stress brings great adversity and distress to the *ignorant*. The willing endurance of the Earth's gravitational pull is an *exercise* and it leads towards the perfection of the revelation called “*Man*”. – It is therefore *not necessary* for the knowledgeable to do these exercises that are supposed to give the body cosmic lightness, because human beings are *not* the body, it is *only* an instrument of *spiritual* MAN and created in such a fashion that the SPIRIT can reveal itself *through it* in an unimaginable manifoldness, beauty and abundance. True human beings are perfect COSMIC BEINGS that can use their bodies as an *expression of the SPIRITUAL* in a visible form. Human beings in themselves are always the *same* divine IDEA that knowingly rest within revealed human beings. To the degree the INNER being is awakened, he or she will also reveal their *external* perfection and power.

* * *

Never leave the things you can attend to *yourselves* to your fellow men. You have the POWER and

the MIGHT to do everything that has to be done. When everybody attends to their own affairs with joy, peace and joy will reign; but when everyone demands *that others* do the things they should do themselves but do not want to do, quarrels, conflicts and unrest ensue. But you should always be an archetype for your fellow men, you should therefore avoid *burdening* and *annoying* them. Therefore, do not demand anything from your environment but that you may love it. You can do everything from within you, because you have the POWER to do so. – Always remember this!

Once again: Let us recapitulate with great clarity that it is within the plan of *certain* ENTITIES to sow great confusion amongst those that strive and they try to carry this out with great intelligence and shrewdness. Those that serve and strive are the *targets* and one tries to *deviate* them from their path. One tries to sow *disunity* and *discord* amongst them so that the great POWER they developed is *dispersed*. Therefore, be steadfast WITHIN and walk the path of love and service *in a straight line*. Live from WITHIN your HEARTS, there where GOD prevails and lives. *Know this* and you will withstand the onslaught and follow your path. *Do not condemn* those that stumble and fall, *help them regain their feet* so that *their* own POWER does not fade away, see them strong and unperturbed, hold them up with love. This is what we request from you, *what I request from you!*

14th of July 1965

This concerns the hardly bearable vibration that *suddenly attacks* not only you, but a lot of other people also. All the people on your planet that can consciously absorb this radiation in their body without getting what you call “ill”, are guests on this planet and only sporadically incarnate on it. They bring inclinations and memories with them that makes it possible for them to ignore the constraint of terrestrial atoms. This radiation, as a temporary abrogation of the Earth’s gravity, makes one feel something that is akin to a seemingly unfounded feeling of joy. This state arises completely independent from events on Earth and day-to-day life, at any time and hour, whenever *particularly powerful* IMPULSES strike the Earth. The fact is that these IMPULSES strike the Earth more often now than before and they can be seen as the *forerunners* of a future FULL RADIATION.

It is a given that when you feel this RADIATION, you should bear it relaxed and unprejudiced, but remain as *still* as possible, breathing deeply – better still: breathe the OM SOUND – to wait until the intensity of the ARADIATION begins to abate. This IRRADIATION is *at the present* still only in the form of short IMPULSES of lesser strength and can, as the RADIATION moves and spreads, strike your solar system at *increasing intensity*. – It does well to know about these things!

People whose consciousness is *extremely earthbound* also feel this radiation, but rather *disagreeably* and the lower their consciousness, the less control they possess over their terrestrial garment, the more these people have to suffer from it. Unbearable headaches, sore limbs, heart complaints and a lot of other things arise, but also stress that causes *confusion* or an *inner poisoning* that appears as unknown skin diseases. These phenomena are however only *very small* beginnings of the future FULL RADIATION the solar system will eventually have to enter according to our calculations. What is however peculiar is that this RADIATION will partially *neutralise* the damage done through nuclear tests, but on the other hand *severely agitate* the Earth’s *inner activity*. You live in an interesting but also *restless* time and you should use what’s promoting things and assiduously try to neutralise the disagreeableness through working on your spiritual EGO.

21st of July 1965 – 8:30 am

Every physical planet or orb is animated, is somehow material. SPIRIT ENTITIES do not exclusively need a physical globe as a home because they are *not embodied*, ergo do not live

physically, but can certainly act in a physical world. But *everything* is inhabited by *disembodied* BEINGS and ENTITIES. They know neither space nor time and it is possible for them to exist *everywhere*. – But *higher* BEINGS and ENTITIES *specialise* their activity, they allocate their CREATIVE POWERS to specific stars or star clusters and they immerse their being utterly and completely in these regions.

Every step on the PATH of COGNISANCE makes you see things *differently from before* and the further you go, the closer you get to seeing the *true* vision of things, the *better* you will control your environment, the *more* active you can be within creation. But do not turn around, do not take one step back, but leave old opinions and lifestyle habits behind.

One moment you strive for freedom and the next moment you would like more EXPERIENCED ENTITIES to save you from the things that actually serve to make this freedom possible. We have often told you that the way you could put a tribesman into a luxury villa equipped with all the latest mod-cons, we could create conditions on Earth that would be comparable to this example. But you would feel *rather miserable* and abandoned. Where would your joy of awakening, your joy of seeing progress and your joy of being allowed to recognise things be, if we were to influence your thoughts by using force and our superiority? Where would what you call “man’s free will” end up? You are certainly not free in the way that you *imagine* it. All of us are not *as free* as the CREATIVE POWERS, and they in turn are not freedom in itself, only GOD alone is free!

23rd of July 1965 – 2 pm

The more, the further and *more concentrated* you immerse *yourselves* within and remain there, the brighter and wider your vistas, the further your horizons and the calmer your minds. You will then feel as *a part* of the cosmoses and your home planet will *no longer* feel like a prison to you. You will then be aware that this planet is your home for but a fleeting moment and that your true home is in the SPIRITUAL, in the UNIVERSAL. You feel the swinging and singing of the CREATIVE BREATH and everything that seemed heavy and encumbering to you will lift from you. Your INNER EYES awaken and you SEE everything *as it is*, without the veil that covered your eyes. Your petty day-to-day worries disappear, your outlook grows *clearer* and *purier* and everything around you looks *different* from before and changes over again. Your mind will *open* in regard to events in *both* worlds you are inhabitants in. Quarrels and conflicts, envy and avarice *disappear* and will no longer be a part of you.

But guard against losing your connection to your planet, against *losing* your footing. Do *not* strive to hear nothing, to see nothing and to say nothing, because you are in this terrestrial body at this time to specifically hear, to see and the talk, but know *how*, *what* and *where* to hear, *what* to see and *what* you say. You are not here to escape the Earth *prematurely* and to relinquish your affiliation with the Earth, you are here *to understand* her and to reveal yourselves in a terrestrial garment. – Understand me!

24th of July 1965 - 8 am

If JESUS, the *greatest* UNIVERSAL TEACHER the Earth ever saw in a terrestrial garment, would stand in front of you, HE would say:

“What’s the use of *exercises*, reading *books*, learning *sayings* and cramming yourselves full of highfalutin knowledge – and still *fail* in your everyday lives? You quarrel and fight with your neighbour, you envy those near you for their possessions and you *only*

think of yourselves. You cheat those near you of your love!"

Apply your knowledge in your day-to-day affairs every second of the day, this is what you received it for! Constantly endeavour to have a simple, loving nature from within your HEARTS. Live from within yourselves as RADIANT ONES! Live from within yourselves as LOVING ONES! Live from within yourselves as *helpers*, as GOD'S CHILDREN! I say this to you with love so that you may heed it. – You can do it!

27th of July 1965 – 6 pm

It *isn't only* the results of nuclear tests that are partially abrogated by cosmic radiation within the perimeter of the Earth, cosmic radiation has recently arrived that can *no longer* be parried by the Earth and it makes people tired and despondent. Now *begins* the time on planet Earth, and this with *great speed*, where mankind begins to conquer time and space. The coherences between the *natural* and the SUPERNATURAL begin to enter people's consciousness to an ever-higher degree and things that initially seemed inexplicable will become explicable. People begin to become aware of their NON-PHYSICAL ORGANS and they find ever more things whose application lead to solving the *enigma* called *human being* and the *enigma* of *all life* in general. One will ever more clearly recognise that *everything is alive*, even the things considered "dead material", and that one is only dealing with *various states* of existences, that all substances contain *life* as it were. Everything is subjected to eternal change and *nothing* can get lost or die.

Do not fear the catastrophes that could affect your Earth. If catastrophes do appear, they *solely come from you* and exactly the way you cause them, you can also avoid them.

Every planet lives its own life and is *naturally* subjected to lots and constant transformations just like all living creatures. But when a planet accommodates a human race, its expression of life is influenced by sentient beings called "*Man*" the way human beings are influenced by it in return. An inseparable cohabiting relationship between the planet and the being called "*Man*" developed so that *interactions* between them *had to develop*. The gift of being able to think makes human beings superior to the planet and they do have the power to form and to configure the planet; they *could* create a paradise here if they were *to apply* the DIVINE WISDOM inherent within them.

"Be fruitful and fill the Earth and subdue it!" These words are recorded in the Holy Scripts, they *mean* what they say and should be understood these days. Not to senselessly destroy and interfere with the Earth, no, but *to express* GOD'S creative WILL found in the mind of man, to *protect* the Earth's beauty and amplex with wisdom, love and gratefulness, to learn to correctly understand and correctly recognise what she can give you, learn to recognise what human beings may *not do* or take in order to not interfere with the Earth's life, ergo even destroy it. This is something the people on Earth have to *decide themselves*. We can and may only *remind* you, because we may *not forcefully* influence the thoughts of terrestrial human beings, this is a LAW that we do respect.

But be aware that *not all* the inhabitants of other worlds do so. They delight in carrying out *experiments*, roughly the way you do with hypnosis to the amusement of others. Many an *offence* takes place for various inexplicable reasons. Do you not, once in a while, tread *senselessly* on an ant hill that has been artfully constructed? Do you not often *senselessly* kill a beetle or a moth that has done nothing to you? Do you not undertake experiments with harmless animals that are innocent and cannot defend themselves? What do you think about when you kill animals in order to take possession of their pelts for reasons of profit or vanity? Other BEINGS also exist that take great pleasure in *taking possession of your souls*, take pleasure in influencing your thoughts so that

something is created *they can exist* from.

If animals would recognise a danger, they would avoid it. Human beings that are aware of a danger should *also do* this and they can, once they have achieved a certain LEVEL of CONSCIOUSNESS, they are then SPIRITUALLY *unassailable*. You can protect your bodies only to a limited degree, they represent garments that are subject to decay. But *you* remain with the CREATOR of all things.

All the things the HUMAN SPIRIT is capable of thinking of is possible – and a lot more. Have your toes ever seen your heart? They are a part of your own body and *only you* know *that* this is so. Everything in your body is impelled by one FORCE and none of the individual parts know the other parts, but one part lives and weaves *with* the others, *of* the others and *through* the others. – Think about this!

Know that we now have *good* RECEIVERS that are predestined in regard to scientific insights of an eminent nature and technological findings and they will astonish terrestrial mankind. Leave these fields of knowledge to those that are designated *for* them, they usually come from other systems and they are employed here on Earth to drive evolution forward.

The DECEASED, that is to say, human beings within their period of development that absolve their life *without* a body, but are aware of what a physical existence is, would like to *make themselves known* if they left something *unfinished* during their past physical existence, so *others* can complete their task. *Above* all, we are dealing with *domineering* and *greedy* deceased human beings that would like to *keep* domineering and directing. They try all the tricks in the book to make themselves noticeable. The wise, kind and gentle do however remain *silent*. But all terrestrial beings that *allow themselves to be used* as speakers of the DEPARTED will have some of their LIFE FORCE extracted through these machinations, because this process is designed to accomplish this. It is also very difficult to establish *what kind of* ENTITY expresses itself through a medium.

But the instructions given by the OLDER BROTHERS and other *eminent* SPIRIT ENTITIES do not sap any LIFE FORCE from the receiver, on the contrary, the POWER, love and receptivity of the serving *considerably amplifies* when instructions are heard, seen and received with awe and humility. Their whole being constantly changes and their work is blessed.

You are *always beautiful*, you are *always good* and you are *always young* when you allow the things the CREATOR placed in your HEARTS to EMMANATE lovingly over all life. – Think about this!

19th of August 1965 – 7:10 am

Know that there are a lot of people that occupy lots of LEVELS of CONSCIOUSNESS and they are being touched by *another* timbre. We would like to make the things that are INSIDE of human beings sing, ring and resonate so that *all* human beings begin to comprehend the *meaning* of life and *why*, *what for* and *whereby* they live, think and act. We want to awaken all and sundry and we want to help, but *not* every word is suitable *for everyone*. Therefore, do not ask a lot of questions, help, help us and help your peers without thinking about yourselves. This is your assignment and you

cannot avoid it for as long as you have this Earth under your feet, everything else is *immaterial*. And love all those that *try to hinder* you, love, love, love them until they no longer interfere with your work, even if they do not understand you.

We help you and we give you the thoughts about *how you* can disseminate the joy, harmony and clear love of our words across the world. We form and prepare everything, but *you* must do it! The people that share your work and your love in a serving and selfless way participate in this without you having to give it one thought. Do not allow yourselves to be deterred by anything and anyone who wants to interrupt our work and do not allow yourselves to be enticed to spend your POWER and your love on other things. One *cannot* serve *two* masters and you must *remain true* to your *first* love.

Remain true and devoted to your work and do not allow anything to influence you. Do not deal with things that do indeed exist, but are of a *hostile* and *ungodly* nature. Your task is to make GOD *visible* to people, to praise the CREATOR through your servile love and to produce joy, love and harmony everywhere you're able to bring our words. It matters not whether you have to do this on your own or whether true, selfless love-servants stand by your side. Purity attracts purity, love attracts love, joy attracts joy and the purer, the more joyful, the more love-servile *you become*, the purer and selfless will the people be that you *attract* and enlist in the great work that we have imposed on you.

The possibility to recognise things to an ever higher degree exists, namely that the Earth is only a short term residence for your true being and existence. Once this insight is gained by lots of human children and once it begins to spread, the power of materialism will have been broken and people's approach to life will generally change. People will then know that they do not have a permanent place here on Earth and they will no longer *engage* their hearts in things that are only here to *serve* them. Human hearts will begin to yearn for things of an *eternal* nature and they will strive to absorb *as much as possible* from the greatness, beauty and love of what you call GOD. This attitude towards life makes human beings *unattached, free, happy, radiant* and *creative*. This knowledge gives them power over the TREASURE they all possess deep on their HEARTS and they should live, weave and strive to dig it up.

The things that are possible in the ASTRAL BODY, *outside* of the terrestrial body, surpass all of your present imaginations. All human beings have to opportunity to leave the physical abode *at will* and then return again. Every incarnated being on Earth also has the opportunity to alight on other planets, in and outside their bodies. People living at this point in time will be able to visit other worlds with the terrestrial bodies – as in the past – to live there or to return back to Earth. Terrestrial human beings will now quickly learn to move out into the cosmos and this will make them realise that they are COSMIC BEINGS.

You must naturally forgive all those that *confuse* their ASTRAL ADVENTURES with real physical events. They are not liars or beguilers. They are the pioneers of the New Age, they already experience ASTRAL things, something that can be physically experienced later. They find themselves in an *intermediate state*, something that represents a *precursor* of the cosmic-conscious human thought processes. We are aware that ASYTRAL EXPERIENCES can be so powerful that those that experience them find it no longer possible to distinguish them from pure, vital experiences, exactly the way *prophetic dreams* exist that people incorporate into their consciousness as *real experiences*. There are in fact no boundaries between one's vital life and ASTRAL LIFE and all HIGHER PLANES, because all of them are part and parcel of the human existence and because

all human beings are, or can be, *at home on all levels*. Human beings are *components* of the cosmos.

* * *

Only one POWER, a UNIVERSAL POWER exists and it *is everything*. The HIGHEST INTELLIGENCE sends FLUID STREAMS that maintain everything that wants to become visible, they PERMIATE and maintain everything INVISIBLE and visible. THEY are *everything* and nothing exists beside them. THEY represent *unimaginable possibilities* on all levels of revelations, in all aspects.

As this knowledge is *contained* within the STREAM of LIFE, every sentient creature yearns for a GOD that it can *imagine*. But as GOD is *inconceivable* in regards to human thought processes, people create an image of GOD in their *own* image. This image is then transferred to the spirit ENTITIES that are prepared to serve, they are *completely neutral*, neither good nor evil. GOD is *INSIDE human beings* and human beings can reveal many of HIS ASPECTS. But as people usually look for GOD *outside* of their own selves, they call for HIM outside of themselves, but they touch something INSIDES themselves in the process so that something there begins to stir and produce STREAMS that *sustain life*.

ENTITIES that exist in the vicinity of all planets and suns *reflect* the pious thoughts directed at GOD and radiate them back to the planet they came from, they therefore neutralise everything around the planet to the degree of *strength* the STREAMS from human HEARTS possess. To *call* on GOD is therefore a good thing, because it means that you recognise HIM INSIDE of you, and to imagine HIM as a *personal* GOD in order to gain a true insight is *not a sin*. Only the GOD *inside of us* is *approachable* and the eminent MASTERS of LIGHT, love and harmony we are familiar with, the greatest amongst them for us is JESUS of NAZARETH.

With love
Your OLDER BROTHERS
