Anny Baguhn

Messages from our

Older Brothers

Anny Baguhn, born in 1901, was the daughter of the machinery manufacturer Carl Baguhn from Hamburg. She showed a great musical and artistic talent from an early age. In 1920 she married the architect Frido Wald who died later as a prisoner of war. Mrs. Baguhn was a co-founder of the "Deutsch-Indischen-Gesellschaft" (German-Indian Society) and later its long serving leader. With *Mrs. H. Zehmke* she founded the "Parapsychologische Gesellschaft Hamburg" (Parapsychological Society, Hamburg) in the sixties. From 1985 onwards, she belonged to the "UFO-Forschungsgruppe Hamburg" (UFO Research Group, Hamburg) founded by *Dr. Teichmann*. – In 1961 she started a remarkable experiment: A New Zealand contactee gave her and the sensitive *Herta Schachner* an appointed time when they were asked to prepare themselves to receive a telepathic message. It was the first of around 100 messages that Mrs. Baguhn published in her legendary "Blauen Heften" (Blue Notebooks). During a SWF program (SWF = Südwestrundfunk) on the 22nd of April 1978 she explained to the SWF journalist *Klaus Langer*: "I am convinced that we are just at the beginning". – Her UFO archive was probably the largest on the European Continent, but it was unfortunately irretrievably lost. When Mrs. Baguhn had to go to hospital at age 87, her nephew used the opportunity: He disbanded her flat, sold her antiques and destroyed her archive – she ended up in a nursing home. Mrs. Baguhn passed away on the 19th of May 1992 aged 91.

The *less* insight in regards to the transiency and changeability of all things *hurt* you, the more your consciousness will *expand*.

The *more* you cling to your possessions, the more transient things you collect, the *lower* your consciousness.

Everything belongs to you and *nothing* belongs to you. You should realise this and release your soul from the bonds that will no longer be a part of the human thought processes in the new, approaching Age.

All people would dearly like to help and advice others. This is due to the *ancient knowledge* of the unity of all life that lies within everyone, but people are rarely conscious of what impels them to do and think such things. They are often also not aware of *whether* they do it is *correct* and whether it *truly* helps their fellow men. Only once you are capable of seeing the souls of your fellow men *absolutely clearly* and discover where they hurt, will you be in a position to help them heal the things their souls suffer from, you will then know exactly what to do and what advice to give to heal them, something that *their* own SELF must however accomplish.

It is *easy* to be a helper when it comes to material things. When your fellow creatures are hungry, try to satisfy their hunger, when they are cold, try to give them warmth. But what happens when your fellow creatures poison their environment with *heresies* and *delusions*? You do not have the right to reprimand them with admonitions and castigations, this certainly wouldn't help them. When people are filled with hatred for their fellow men because they have been duped, persecuted and tormented by them, try to tell them that those that trespassed against them have done these things *to themselves*. Tell those that *envy* those next to them their worldly goods that their envy only *harms themselves*, because those next to them only reveal their amplexness, their God-given amplexness, a blessing they exclude themselves from with their envy. Tell those that *worry* night and day that they *sin*, that they *isolate* themselves, because their worries *hamper* the healing, sustaining and divine STREAM of LIFE that has the tendency to maintain harmony. If you are a helper, see your fellow human beings as perfected creatures that have flowed from GOD and are sustained by GOD. See them *as yourselves*, see everything as ONE and see everything as GOD.

Wanting to gain dominion over the world is impossible. A world government is indeed soon to be expected and it is a common, well-tried practice on *our* planets. These world government do indeed represent a certain level of authority, but they could never be classified as a "dominion". *Ten* or also more human beings govern each planet with great *love* for all life, with *farsightedness*, *wisdom*, *knowledge* and *tolerance*. These governing individuals are *most accurately* informed about all problems on their respective planet so that they will always make the *right* decisions.

A lot of people take great pleasure in *disseminating doom and gloom* and they think that they and their actions are important. Those that prophesy fear and horror are *low SPIRITS* that know nothing about the POWER of THOUGHTS, they take no responsibility and only sow mischief. We would like to censure these prophets with strict words, because they touch the depths of the human soul, they awaken the *primal fear* that human beings are supposed *to bring out* of themselves to then *no longer* recognise. They animate people's fantasy so that *bad* images could develop and gain form, they could make it possible for CONCENTRATIONS of these images *to materialise*. Those that constantly prophecy the end of the world are busybodies and ignorant.

Outsiders can also *not* predict exact locally determined changes on a planet with accuracy, changes caused by the population inhabiting that planet. *Cosmic events* on the other hand *can* be predicted and accurately calculated unless a planet destroys itself. But no great dangers that could affect the

Earth are expected in the near future, so nothing physically threatening is approaching the Earth from outside.

Beware of such prophets! Listen to the VOICE of LOVE and LIGHT and deny these messengers and prophets of doom your hearts. But do *forgive* them their machinations, because they are also human beings.

21st of December 1965

It is clear to those that strive and managed to break through a certain conscious boundary, that their striving may neither be hindered though any adherence to a dogma, the statutes of a sect nor the opinions of their fellow men. They must internally be *completely free* and approach every new revelation *openly*, even if it seems that it couldn't possibly be comprehensible.

Everything is possible and LEVELS of CONSCIOUSNESS are as numerous as the stars on the firmament. Nobody alive professes *to know everything*. The higher the human spirit grows towards the DIVINE, the *wider* it will spread across creation, the more its ego-consciousness *disappears* and it becomes the I AM, the solely divine CONSCIOUSNESS – the CONSCIOUSNESS that holds everything with love, that is love.

As GOD *is everything*, all plants and herbs, all leaves and blossoms and all roots and grasses contain the divine LIFE FORCE and there probably are people on Earth that are *aware* of these FORCES and SAPS and also know how to utilise them to benefit their fellow men. These are most of the time people that live a reclusive live within nature and they are connected with what takes place there; they know how to talk to the wind and the stars, predict rain and sunshine, tempests and thunderstorms, they know where to find herbs and when to harvest them. They do not have to be quaint women or strange hermits. These are often educated people who know the Latin names of all plants. You can recognise these people by their kind smiles and their calm and reassuring EMANATIONS. You can trust them and you can also hear secrets from them that are as astonishing as they are simple. The also know the POWER within stones and gemstones, because they have enshrined ancient knowledge about human beings and their environment *within themselves*. The things they have to tell you in words, scripts and images often seem *too simple* and too fatuous to you, but *all* great and true things are *extremely simple*, because the more *undivided*, ergo *simpler* they are, the *higher* they reach towards the RECOGNITION of the UNIVERSAL UNITY. The *more dissipated* things are, the *more watered down* and useless they become. It is often one single herb or the powder derived from a root that can help ill people, *truly help* to make their bodies fit for action, but one has to *know* what it is and trust *those* that *know* and can *advise* about these things.

Learn to recognise the INVISIBLE *behind* the visible, the SPIRITUAL, NON-MATERIAL *behind* the physical. The *primary* factor is the SPIRITUAL IDEA and nothing can reveal itself without it. Everything lives and weaves in *two* worlds: It *appears* from the NON-PHYSICAL WORLD, *fulfils its purpose* and *disappears*, dissolves within the POWER that is no longer visible, but certainly still existent to then be called back to the world of phenomena, constituting an eternal alternation, an eternally flowing existence. *Nothing* is lost and *nothing new* is added – *everything is* – but it *flows* it moves and transforms, it visibly appears to then disappear within the INVISIBLE again. All of this oscillating and flowing is exhaled through GOD'S BREATH and it is sustained and thought of by HIM. This will be eternally *unimaginable* and incomprehensible to us as human beings and it will continue to astonish us.

* * *

Be still and you will *feel* the waft of eternity. You will experience yourselves as a SPIRITUAL BEING that dons and discards its garment, that is *eternally true* and *exists eternally* with everything revealed, a component of UNIVERSAL CREATION. *Sense* that nothing can exist without the other! To believe that *individual beings* exist is an aberration. Consider the fact that all terrestrial beings breathe *the same* air that wafts around your Earth, that you are forced to remain the length of a terrestrial life on one planet *with all the others*, that all the thoughts thought on Earth *go through* you and that *one* sun shines down on all of you.

All of you are affected by COSMIC RAYS that are directed at the Earth from outside. All of you live in *one* house, all of you flowed from *one* SOURCE and you are sustained by the ONE SINGULARITY who also sustains the universe. How could you possibly hate or even kill one another? - Who threatens whom? – When you hate, you hate yourselves and you kill yourselves when you kill. This should tell you that when you hinder the natural evolvement of your fellow man, you disturb *your* own evolvement that is designed to be perfect. – Think about this!

* * *

Love is welfare, shepherding, blessing and sustaining life. Those that *truly* love forget about themselves and FLOW over all life. Only *altruistic* love, ergo love that is expressed, *is* love. *You believe* that you love most times, but take a look at your love and see how poor and egoistic it is: Wanting to have things, wanting to possess and wanting to enjoy, is this what you call love? – COSMIC LOVE can express itself in small things and in vast things and it must STREAM from WITHIN. It shows itself in the *care for all life* and it STREAMS over everything that lives, be it a stone, a plant, an animal or a human being; it shows mercy and love for the sake of the love that sustains and blesses everything. Everything that still *affects you* is *not* love. For as long as you are *not* love, utter love, you cannot truly love. – We love you!

6th of March 1966 – 12:30 pm

This is what human beings would like to achieve: *The cognizance of cosmic coherences*. The moment human beings have achieved these insights and begin to comprehend the LAWS that their existence and all forms of beings they are aware of are based upon, they know how to live *consciously* and they are aware of their own POWER, but also the consequences that each and every thought they think brings with it within the scheme of things. Life is then an unexpected joy. Constant new revelations make them richer, happier and more grateful. Constantly new insights and transformations guide them towards becoming true, divine human beings that will unify with the DIVINE after their perfection.

Achievement is the merit of the future and *thoughts* will constitute people's *renown* and *not* money, possessions, power or man made titles and classifications. These thoughts are already beginning to form an image in a lot of people, an image that wants to be realised, because the SPIRITUAL DARKNESS begins to dissipate.

The components of the cosmos, its spiritual image and the love of the CREATIVE POWER are eternally the cause of all life. To comprehend this down to its last detail is *impossible* for the human spirit for as long as it sees itself as an appearance, as a creature. But people can *sense* and *feel* the greatness and wonderfulness in regards to their CAUSE and EXISTENCE deep in their HEARTS.

May you enter often into the TEMPLE of your HEARTS in order to express your *gratitude* there, so that you may recognise his INFINITNESS to an ever higher degree, so that you may comprehend

the coherences between forms of existence, their development and their cause, so that you may observe his greatness, beauty and diversity more and more, so that you may feel his love that burns *inside of you*. Remain still within his LIGHT that you actually are and will be glad about his love that burns *within you* so that you may let it STREAM over all life, towards him who gives it and who placed it within you, as your ORIGINAL ELEMENT, your CAUSE.

8th of March 1966

A human being that can *consciously* become aware of its capability to love has reached the highest level of wisdom possible in its present form of existence. *The more* people discover this ability within themselves, the purer and more harmonic *all the other* creatures will be that share their presently revealed existence, the purer people will become as a whole.

Those that love are a large FIRE that can warm and invigorated everything. To make this burning, cosmic love known does not require words and protestations. It does however require one's *concentration* on love within one's own HEART, it can then emerge and awaken a hot STREAM in all the HEARTS it encounters. Those that love forget themselves, they forget their own personality and turn into servants, selfless servants that see the anguish in the HEARTS of others *first and foremost*, they help, bless, love and love over again without giving a thought to being loved in return. The fulfillment lies *within love itself* and to be *allowed* to love is the ELIXIR OF LIFE that makes people beautiful, healthy, great, bright and happy. It is this selfless *cosmic* love, GOD'S REALM JESUS talked about that makes things fall into our laps once we have acknowledged it within ourselves. Ask for GOD'S REALM, for being allowed to recognise the love in your HEARTS every day and ask for the grace of having love *awakened* within.

9th of March 1966

The most stringent borders between nations will soon become blurred and neighbouring countries will amalgamate and blend into one whole. These amalgamations are *preparations* for the realisation of the necessity of a *world government*, something that can also be expected on Earth in the near future. But there are still a lot of people around that cannot yet grasp the benevolent importance of this global event, namely the *formation of a World Government*. It will bring the deliverance from fears and insecurity to those with a sound mind. Everything the world has to offer will be *wisely shared* and hunger and hardship will disappear, because the Earth offers its children sufficient space and nourishment. A *wise* team, one that thinks and acts *globally*, will make people the centre of their attention and the world will *not* be governed by money, gold, possessions and power, but with love, wisdom and gratitude.

12th of March 1966

Ten of the Best on Earth will be the ones that form the *World Government* and they will do this without asking for huge salaries. They will be aware of their eminent assignment and they will be capable of dealing with it in every respect. They know that the Earth does not represent a permanent place for all human beings; but they know that in order to further their development, human beings also need the opportunity to live their lives to the end if possible so they can unfold their creative abilities in the shape of all the arts, manual skills in regards to bodacious buildings and projects with the knowledge of as many cosmic coherences as possible within the traces of all life. The people who comprehended that *everything belongs to everyone* and that everyone should be loved,

protected and understood by everyone, that collecting and hoarding restricts, is un-cosmic and blind, that *only* take what they *need* and *not* more, that allow all their deeds and thoughts to be guided by wisdom and love and also love the sun, the wind and life, will be the future, predestined guardians of mankind. Whether they are old or young matters not, but most of them will be *over* 40 years old.

14th of March 1966

Human beings stand at the centre of everything and not the things they created. Everything created by human hands is transient, transformable and of no constant value. But human beings, as GOD'S living THOUGHT, must *respect* human beings and *all* other life.

15th of March 1966

Discard all sentimentality, all misleading emotions so that your thoughts become *clear* and *factual*. This is the only way things can be seen in the correct light. The moment you spotlight something with your terrestrial-human emotions, *it will change* and it will hide its true face behind a veil and its correct form can no longer be recognised. But when you look at things without any personal emotions, ergo with your *spiritual* EYES, you will recognise it and form an opinion, you can then do something with what you recognised. Don't think that the world you presently look at through the *veil* of your sympathies and antipathies will look desolate and empty if you look at it like this.

24th of March 1966

A thistle is also one of GOD'S creatures, but you wouldn't like it to prod your skin. Snakes are also GOD'S children, but you wouldn't want to agitate them, because they might bite you. You should *not* see them as enemies, but for as long as you are not in a position to understand everything, avoid them without fear or prejudice, keep both of them out of your area until you are capable of loving *everything*, absolutely *everything*. Do exactly the same with people that do *not* swing within your range. *Leave them be* whilst your love has not been perfected. You are of no use to them; they do not need you, they do *not yet* need your love and you waste your time trying to indoctrinate, convert or change them. *But do not despise* anyone and do not treat anything and anyone uncaringly and harshly.

28th of March 1966

Who can see the inclinations of people tied to a specific *people's soul* on Earth with absolute clarity? Who can recognise what has to be done to bring peace and order amongst all human beings on a planet without actually spreading fear and horror amongst them? Who enlightens the minds of their fellow human beings by explaining that *only things* that are *not* from this Earth bring advantages and progress, joy and freedom, but that one has to correctly deal with what the Earth carries and holds that can and must be acquired and formed? – Only people who *have recognised all of these things* and control these things down to the last detail can be the *first* within a *World Government* that could turn the Earth into a paradise wherein all living things can form and develop higher with the help of others. Joy and peace could reign and there would no longer be wars and quarrelling people amongst the living.

29th of March 1966

You bicker and quarrel and you cannot agree with one another, but all of you sit in *one* boat! In a boat that drifts on the waves of cosmic STREAMS and that is threatened by various dangers. Human

races exists that *know* about these things and are therefore in a position to wisely utilise these cosmic STREAMS and ANTI-STREAMS. There are people amongst them whose thoughts are so elevated that they can be preparers of the path to a consciously living human race. But do you encourage them to utilise their knowledge to benefit mankind? You are in the process of learning to recognise the things that could turn planet Earth into a paradise in partnership with other inhabited planets – but also turn it into a hell wherein deformed shapes must struggle, shapes whose intended forms can no longer be recognised. – Utilise your insights to benefit all living things and regale with gratitude for being *allowed to recognise* this!

8th of April 1966

Do not talk about the end of the world! A world can never come to an end, where would it go? There is a possibility that a human race can remove itself in its physical form of appearance from its home planet for an extensive period of time and *damage* their home planet to such a degree that it becomes uninhabitable for plants, animals and human beings. All inhabited planets came into being after unimaginably long periods of time, something that is beyond the human time-bound capacity to think and apprehend, and they can only decay when they are obsolete, they will then dissolve into their components and constitute building blocks for new worlds.

A celestial body *hardly ever* collides with a negative ANTI-CELESTIAL BODY, when this happens *radiant energies* are released from both parties that in turn serve the purpose of creating new worlds. Nothing is lost and nothing dies, the *same substance* remains, either visible or invisible, only their forms of appearance or energies, their spiritual POWER SOURCES are always *different* in their forms of expression and behaviourism. The thoughts and views of the people that *presently* live on planet Earth are bound by the concept of time and space and they therefore find it difficult to separate themselves from their imaginations that already belong to the past, a past that, like the future, *doesn't* exist, because there is only an *eternal now*, an eternal being we call “GOD”.

No being with a *higher* level of thinking will condemn or pity another being that has *not yet* achieved the same level, because *all* human beings must pass through *all* of these levels in order to be able to share in the beatitude of progressing and looking ahead. Is there a tree that could bear fruit *without* buds and blossoms, *without* being pollinated? Fruit that in turn carry innumerable seeds inside? – Everything has its place! We, as human beings, should be able to recognise this in everything and learn *how* people fit within his order, how to oscillate, live and weave *with* and *in* this order. All disharmony and disorder is *only imaginary* and only seems apparent within time and space restricted thought processes.

Beings that *have transformed* these thoughts have broken through the boundaries, *expanded* and stretched their thought processes and will agree with us, they will be able to recognise the inconceivable nurturance, order and harmony present everywhere, they will learn to feel and see the incomprehensible love of the CREATOR, this lavish, inexplicable amplexity and greatness and the infiniteness of their own existence. The *higher* sentient beings climb within evolutionary events, the *quieter* and *more internalised* they become, the *less valid* the events will become that can still deeply shock and move terrestrial human beings nowadays. They will *no longer* see individual events, but ever more clearly recognise and see the GREATNESS of the WHOLE to the degree possible for human beings. But know that this knowledge rests deep within your hearts and that it is ready to unveil itself to a stage where human thoughts can flow into GOD'S THOUGHTS thereby closing the circuit.

Nobody amongst us can appreciate the *true heights* of recognising things, because statements can only be made about recognised and seen things, whereby the statements can only provide enlightenment to *those* that are *close* to the stage of *higher* things. The OLDER BROTHERS do however have *the duty* to gradually *awaken* the INNER KNOWLEDGE of the younger brothers, to caringly *advise* them and lovingly make them go WITHIN so they can see the miracle called “human being” blossoming. *We also* have OLDER BROTHERS and they in turn are also loved and awakened by HIGHER ONES.

* * *

When you look at something from *a distance*, everything looks *different* from when you are the centre of attention, when you are involved in it. Events taking place on Earth look completely *different* to outsiders than to the people that are in the *midst* of events here on Earth. Terrestrial people still find it very important to have a roof over their head, to have clothing and a place to live. The health of their physical abodes are important to them and also the things that they present or try to present within their environment. Family and home are important to them and so are the things that are part and parcel of life on a planet during their lifetime. All the travails and torments, the worries and joys, the sadness and laughing of human beings on planet Earth are things that human beings from *other* planets *find difficult to understand*, because they usually live under *different* conditions and therefore have *different* expressions of life. They are *not* interested in the inhabitants of planet Earth – but they are human beings just the same.

Human beings with a highly sophisticated capacity to grasp things will be and are in a position to fly to various planets, to explore these orbs with *special apparatuses* and to apprehend the forms of appearance and soul structures of the revelation that live on these planets. They will be able to ascertain that all revelations of life express reverence and love towards a *higher* ENTITY to the degree the intelligence of these revelations of life allowed it, those that can be denoted as “human beings”. All of them revere an invisible GOD in various ways, someone they *acknowledge* as the CREATOR and SUSTAINER of all life. The revelations of life who occupy these distant planets would probably seem unfathomable to terrestrial human beings, exactly the way they would find things inconceivable if they would land in Earth. But the *more* highly cultured consciousness becomes, the more of the UNIVERSAL REVELATIONS of exhales life it can grasp and understand and it will no longer seem strange and peculiar to them, but *explicable* and *understandable*, exactly the way these CHILDREN of GOD are used to seeing their fellow species.

18th of April 1966 – 8:30 am

Obstacles are the things that make people’s love awaken, grow and blossom. When you arrange your present life *too conveniently* and when you *egotistically push aside* everything that gets in the way of your terrestrial-human thoughts and emotions, you will *never* grow beyond yourselves and your souls will *never* become richer, more beautiful and brighter. People who only think of themselves, their own *person*, have *gambled away, lost* and *wasted* their present life. The people who haunt others with their jealousy, envy and their obstinacy, ergo interfere with their free existence, should go within themselves and recognise that they represent an obstacle. They *not only* harm their environment, no, they also harm their *own souls* and they are an annoyance and a hindrance to their fellow men.

The *more perfect* you prepared yourselves, *the more* you can help and serve your fellow men. But try to find your own faults *a priory*, faults that are rooted deep down INSIDE of you. Endeavour to

bring them to the surface and live according to: “Go forth and sin no longer.” And when things have turned *very bright* within you and you have become completely *impersonal*, you will represent a *solid rock* in the eternal surge of human emotions and thoughts. You will then represent *solid ground* whereupon those that seek help can rescue themselves on from the waves of confusion and aberrations, you can then be an *archetype* and a *teacher* to them and a boon to everyone on Earth.

19th of April 1966

It is *imperative* that the eminent insights gained by the psycho-sciences are confronted with the research results and findings of the various sciences and to make them understand that *one cannot* be accepted without the other within people’s eternal guesswork who constantly ask: “Who am I?” – Only the deepest and most favourable insights of *both* sciences make an explanation of the apparition called “Man” and its behaviourism, developmental opportunities, meaning and origin possible. The more human beings learn to see inside the wonderful structure of physical forms of appearances, the more mysteries in regards to worlds and cosmoses, in regards to the minutest recognisable particles appear and they will learn to comprehend that a UNIVERSAL INTELLIGENCE *must* exist, one that *is everything* and one that is never really acknowledged as the CREATOR, but one that can and must indeed be *sensed behind* everything.

The cosmic DOCTRINE states that human beings *may recognise* GOD *within themselves* and *within all life*. Human being may *no longer* fetter and tie themselves to confessions, particularly those that feel called upon to guide and lead mankind or specific nations. Only globally *tolerantly* thinking human beings may govern their own people if they *accurately know* the mentalities and predeterminations of all nations on Earth or the planet they live on and *have an oversight* over the outcome if they do this or that. They should *respect* the religious persuasions of those that still need and utilise a kraal, respectively a corral, and they may *never* push their *own* corral they might still have within their HEARTS, upon those amongst their fellow men they think that they are inferior, respectively hold a different opinion. It is enormously important for peace on a planet that it should be governed by *wise* men or *wise* women. – It is possible!

* * *

20th of April 1966

The sciences see human beings as the result of lots of harmonies and circumstances and they see their thoughts and actions are conditional to external influences and events that people do not know and cannot determine. But the possibility to *recognise* and to *know* that there is a KINGDOM within exists, that it can be *expanded* to then be controlled by the divine SUPER-HUMAN being within, one that thinks and acts *on behalf* of all of creation and contributes towards its revelation.

21st of April 1966

The moment you become *consciously aware* of the truth that only perfection exists, you will be *healthy*. The moment you *know* that GOD is amplexness, you have everything that you need in order to live the rest of your life on Earth *successfully* – because GOD *is* amplexness. The moment you *know* that to be allowed to live is a joy, your existence will be a joy – because GOD *is* the joy of life. The moment you *know* that GOD is everything, you will do and think everything *correctly* and you will be a blessing to everything alive.

25th of April 1966

Selflessness, open-mindedness and healthy discernment make it possible to HEAR the VOICES that orbit around the Earth and that *would like to be* heard. If you try to *achieve* it, you will *not* succeed, but if you intent to *serve* without expecting remuneration, gratitude and recognition, you will hear the murmurings of VOICES, the coherences will be revealed to you, you will then hear, see and feel what's required to be allowed to help. For as long as there is still a spark of *craving for recognition* and *egotism* in you, you will *not yet* succeed, even though every human being is capable of CLAIRVOYANCE and CLAIRAUDIENCE.

26th of April 1966

You live on Earth in order to learn to deal with the conditions of a physical life and in order to guide the revelation called "Man" towards perfection. Human beings, as a revelation of DIVINE THOUGHTS, are *conceived as perfect* creative beings that inhabit the cosmos and that are at home in *two* worlds, aware of being a part of the whole. All human beings with human characteristics are *one*, it emerged from GOD'S THOUGHTS and it is maintained through GOD'S LOVE.

The *highest* perfection of the creature called "Man" is still *unimaginable* to us also and those that can apprehend that GOD *is everything*, can also apprehend that human beings have no concept whatsoever of the inherent possibilities within a divine creature. Let all of us be grateful that we are allowed to live an *aware* existence within a creation that has neither a beginning nor an end, one that eternally swinging provides us with ever new prospects that we are *capable* of grasping. – When you *first and foremost* think about your fellow men and the environment with every thought and deed without deliberation and when you *completely exclude* your own personality from your thoughts and deeds, ergo remain *impersonal*, you can say that you have taken the *first* step towards becoming a true human being. But if you still think *the minutest thoughts* about your own *personality* and if you place them *between* your thoughts and actions, you should endeavour to grow beyond your own self into the worldwide *impersonal*, cosmic WORLD of THOUGHT that can only see the WHOLE.

27th of April 1966 – 8:30 am

All cooperation thrives best when a woman and a man begin to work together, even though a woman or a man could perform the highest performances *alone*. *Collaboration* is mentioned. The present division of people into *two* genders that not only *complement* themselves physically, but mainly *spiritually* has been well conceived, because humans where *once one* and they should now represent the *duality* of the body and the *unity* of the spirit to then flow once again into the perfection of the *one*.

The present forms of appearance of human beings as *lunar-feminine* and *solar-masculine* constitute together *cosmically* orientated beings that blast away the fetters imposed by their home planet and their present state of consciousness, they can also leave their home planet and their restricted consciousness in order to reveal a *new* phase of the human existence. An *analogousness* between men and women *is already underfoot these days*, but it only represents a *co-operation* and not the complete unification into as visibly existent being. This stage of development is still in the *distant* future and it must *first* be completely *spiritually* dissolved before it can visually show itself.

A lot of prophets raise their voices these days to spread all kinds of doctrines in all sorts of languages and nations, some of their philosophies sound very clever and look relatively interesting and real. But all doctrines that *lack* love and gratitude do *not* serve progress, are *not* a blessing and do *not* lead to the LIGHT. Only the doctrine that makes you retreat into your own HEARTS, only the doctrine that can ignite the DIVINE LOVE in your HEARTS and touches your INSIDES with simple words, can awaken you and enlighten you and give you insights, peace and joy. Joy in regards to the fruit of your labour, because nothing exists that you do not have to work out yourselves.

28th of April 1966

Whatever you do, do it joyfully, you will then succeed with performing the most difficult tasks. Joy is a power that can uncover energy in you that you did not have the slightest inkling of. Look at the fact that you are allowed to work, that you can be active with joy, it matters not what you have to do. A *joyfully* performed task is like a prayer of gratitude to the all-preserving CREATOR, even if it seems all too profane and lowly in your eyes. Try to reintroduce joy and cheerfulness to all your deeds and actions and you will soon feel the blessing that springs from a joyfully performed task. Don't say: "I already know all of this." – Do *you* do it?

29th of April 1966

Consult yourselves and accurately investigate whether you already truly *do* and *think* the things you *profess* to "already know". Only the *things* that are *anchored* within your being belong to you, things that became your own without contemplation. You can only say "*I know this*" about the things that are embodied in you.

1st of May 1966

Do not wail when your body is *ill* and say as little as possible about the complaint that developed in you. Pity is *not* a healing agent, it *amplifies* and affirms the functions that are in disarray; try therefore to *not* to awaken it in your fellow men, you *burden* your environment with your lament and you *amplify* the disarray *within you* by encouraging your environment to see your afflictions *as genuine*. Make sure that you deal with your mishap *alone*. Initially try to *not* take it serious within your environment. *Don't* actually take it seriously, but delve into the *cause* of why things have gone awry. When you delve deep enough inside of you, you will a priori find the *cause* INSIDE of you. As above, so below – as the thought, so the revealed state. This is hard, but that's the way it is. – But this *doesn't* mean that there are situations where giving help, love and compassion is your *duty*. There are however an infinite number of people that end up in adversity due to *karmic related events*, through accidents, wars or ignorance. *They* deserve your love, have pity for them and ease their suffering, they are *many*. Those that I talked about before are those that can only be helped by telling them *the truth*, where help can only be provided *with harshness*. These are the ones I talked about, because you have to learn to differentiate. Where you see that pathological conditions are based on *false thoughts* and that the afflicted is in a position to realise this *themselves*, you can help and try to change their thought processes and thereby their condition. I do believe that you have understood me. Those that strive and love have *developed* the ability to see and do what's *right*.

A lot of the DESEASED are naturally still invisibly amongst you, but if they have not considerably progressed with their discernments, experiences and insights during their physical existence to your *degree*, how could they possibly advise you fruitfully? *Eminent DISEMBODIED SPIRITS* you are

in contact with can indeed advise you on *any LEVEL of CONSCIOUSNESS*, but never the DESEASED that have left their physical body on the *same* or *lower* level of consciousness. Most of their messages deal with *physical concerns*, with things that they wanted to regulate and couldn't finish, but *very seldom* about *spiritual* solutions to problems and farsightedness' they found, but could no longer or were not allowed to convey whilst in the physical body. But they represent an extreme exception.

4th of May 1966 – 8:30 am

No thoughts exist that can be kept *secret*, because the moment a thought becomes conceptional, its image and its concept, whether in words, sound, colour or form, RADIATES around the planet it originated from, it further RADIATES to *other* stars and worlds where it can be *perceived* by those living there, in as far as the capacity to perceive, inherent in all beings, has been *awakened*. But the thinker, the *imager*, ergo the SENDER is usually not a being that is still endowed with a body and physical organs like terrestrial human beings, even though it is also possible for terrestrial human beings within a terrestrial garment to be thinkers, ergo SENDER and creators, but usually only in forms of a lower nature. This *doesn't* say that one is dealing with "lower types", ergo base and inhibiting thought images; we are dealing with RADIATIONS that can *make sense* and can be made *comprehensible* to presently living human beings and touch their consciousness or are *slightly above* their limit of consciousness, ergo are *still perceptible* or partially comprehensible, but *impel* them *to widen* and *to heighten* their consciousness.

5th of May 1966

A *tangible*, well even *visible* transformation is taking place on planet Earth. Attentive people not only notice more intensive colour effects, but also a changed rate of vibration. A lot of people also *feel* an ever more apparent ability to penetrate into other domains of existence and regions. It isn't easy to *correctly* subsume the ever increasing POWER of the revealed changes that are ultimately found within the human consciousness, in the human existence and a lot of people do *not* succeed in making this leap into an expanded consciousness unharmed. Human beings are forced into a different consciousness through the RADIATIONS and VIBRATIONS Mother Earth is *guided into*, something everything living on Earth and in its vicinity cannot escape.

10th of May 1966 – 8:30 am

The function of human organs, actually all physical functions of the body, are discovered to an ever higher degree and this allows one to normalise disturbed body functions with all kinds of medication. But there is more to it than just such insights. It should always be acknowledged that the *body is an instrument in the hands of spiritual man* and that what one calls the "soul", is the *mediator* between the two. All disturbances within the normal processes are due to *false thoughts* or the inability to think correctly. An unrequited craving produces more toxins in the body than a sin (segregation) committed out of greed, that is to say, the inability to think correctly. But if this greed is *recognised* for what it is with the help of human thought processes, namely that it is *not* part of the human existence, it is excluded from thought processes, it no longer exists and the words of JESUS: "Go forth and sin no longer" are fulfilled. The recognition of "Go forth and sin no longer", ergo do not segregate yourself, is already the *start of the healing process* of the body through the *mediation* of the soul towards the perfect, spiritually divine human being whose thought processes *no longer* contain any kind of separation, that is to say, any type of sin.

For as long as you still entertain thoughts of imperfection, susceptibility and disease, you will be *susceptible* to all the disturbances to your body that you can imagine. Learning to think *differently* is the *best path* towards healing your physical instrument and the path to a joyful earthly existence, to adventures and progress. This is naturally not all that simple for human beings that must absolve their schooling on Earth during *this* period of time. To *see through* the events within their environment and to recognise them *for what they are* is a part of it. If we look at everything, but do *not* allow it to enter into our soul, it will not burden us and it will make our path *easier* for us. But if we flow *into* these turbulent happenings without maintaining the upper hand as sentient beings, it will be *difficult* to extricate oneself from this maelstrom and to see oneself as a higher, spiritual BEING.

May all willing people, those that haven't wasted their terrestrial life, go *within themselves* and remain in the *stillness* of their HEARTS as often as they can, so that they can gather STRENGTH and wisdom from within their own SELF, the divinely ordained SELF – the I AM.

People are playing with fire here on Earth and love, only love, can *extinguish* this fire. You, who hear our words, *live* love, *think* love and *represent* love. Love is *no* sweet flirtatiousness! Love is the *willing bearing* of the responsibility of one's own actions and way of thinking. Love is the *nurturance* of all living things. Love is *selflessness*. Love is the *joyful dissemination* of the vibrating LIFE FORCES that stream from the inexhaustible FOUNTAIN within our HEARTS. GOD is love and love is life! Those that *only know themselves* know nothing about love. Love must inexhaustibly sprinkle from your HEARTS so it can illuminate and invigorate everything around you. Everything is good, everything is beautiful, everything is perfected and everything is joy if every HUMAN HEARTS becomes consciously aware of the love that resides *in everyone* – because GOD is love, everything is GOD and GOD is everything!

* * *

You can *quietly sit still* and only allow love to stream from your HEARTS. Do so and you will feel that your love becomes more powerful and hotter. You can be like a little sun that warms everything and that makes everything blossom that was loveless and withered. Love is capable of achieving anything. Love is capable of healing everything. Love is capable of burning everything that wants to confront the free unfoldment of life. Love is capable of blessing everything and of enveloping everything with security, cheerfulness and joy.

* * *

Recognise the UNITY, the PRIMARY ORIGIN of all appearances. Every UNIVERSAL TREACHER is the ONE that can appear in polymorphic form on Earth or on another planet to address human beings at any time in a language that they can understand at that time. He comes in a human body, a perfect, beautiful body and he lives the life of a human being in his body until he has expressed and physically demonstrated everything that is required at this point in time. But he *is* and does not decay with the body that he occupies and the soul that he utilises. He *is* and *was* and will *eternally exist*. He is the ONE that flows from the UNITY as a *multiplicity*, but still remains within the UNITY.

14th of May 1966

It is solely *your thoughts* that hinder you from fully revealing your *true existence* as the revelation called “Man”. This divine gift of *being able to think* must be *learned*. All human development

reaches a point where this *having to learn* and *learning to utilise* begins and when it must be boosted in order to be able to unfold the full evolution of the divinely ordained, creative human being.

Thoughts that work and weave as POWERS to FORM things are solely responsible for *forcing* the unrevealed to reveal itself. All *eminent* ENTITIES create with their high and highest POWERS of THOUGHT and make forms, colours and sounds visible, audible and tactile, all of them are GOD, all of them have been exhaled, conceived and are sustained by GOD, because GOD IS. – GOD IS EVERYTHING.

* * *

When human children go to school, their teachers will *affectionately* talk to them and they will convey knowledge to them about the *start* of their schooling with puerile, comprehensible words and images, schooling that can lead them to the highest levels of scientific scholarliness. The teachers will *repeat things a lot*, they will praise and encourage them and let them know that they love them the way their parents at home love them. But when the children have grown a little, *good* teachers, the ones that wants their pupils to learn things for the life ahead of them, will allow *discipline* and *strictness* to reign and they will convey their wisdoms with clarity and levelheadedness, the higher the pupils advance in their education. They will indeed give their charges *security* and *confidence*, but sweet words and effeminate, childish phrases no longer befit *more mature* students. We say this to you because you might miss words like “We love you” or similar things when *we* talk to you. We do not lack love, but love *without* wisdom *never* leads to higher development – and love *without* nurturance is *not* love.

* * *

Respect the beliefs of those next to you if they take it seriously. Everybody will revise their beliefs when they find that there *is more* than what they believed and *could* accept. Promote the development of those next to you by leaving them alone, but *live* your cognitions and insights, make them visible and answer the questions of all those that ask about the secret of *your* LUMINOUSNESS. Always try to help and to advise in a humble way *without* forcing yourselves on others, but *supported* by love and indefatigable nurturance.

A lot of those that strive *miss* their aim of wanting to help others, because they want to *force* their opinion upon others in a *fanatical* way without recognising where giving clarity is appropriate and where not. Love *without* wisdom and wisdom *without* love *miss* their target to warm and to illuminate HEARTS altogether. Everybody understands the language that they speak and it is better, *more caring to remain silent* than to waste words that others do *not understand*. But allow your words to stream *when* you find a HEART that is filled with yearning and expectations, so that you can fill and awaken this HEART, so that it might discover the FOUNTAIN of LOVE within itself and draw from it, to become a blessing to the environment and those around it.

JESUS *severely* admonished the Pharisee who stood around corners and openly prayed so that *everybody could see* that they thought that they *were superior* to their fellow men. Take a good *look at yourself* to see whether you are also such a Pharisee. A lot of them are without actually realising it! All *arrogance*, all *tutoring*, all *interference* with the lifestyle of others *without* their consent is pharisee-like and unjust and something *you* will have to atone for. Leave your fellow men alone, but *always* see them as perfect human beings, something human beings are destined *to reveal*. This

is the only way you can help *without* consequences. – Would you pull a plant out of the ground that has not yet blossomed, even though you *know* that it can and will blossom and bear fruit if you would leave it alone? – Would you destroy a bird's egg because it is not yet a bird?

May 1966

People find that *giving service* is a *sacrifice* until they have *crossed* a certain conscious boundary. They will then feel that being allowed to give service is a *grace* and to continue to give service to others has become a habit and a matter of course. Once this level of thought has been achieved, their fellow men will *no longer be able to understand* their actions and behaviourism, even though they *sense* that these “servants” might have a lot to say and to give.

* * *

Those that can HEAR and SEE *acquired* the gift to distinguish between what's essential and non-essential and know when to apply their energies and abilities where they are needed. Those that serve voluntarily *deny* themselves a lot of the things that other people still find important, things that give them joy and happiness, that is to say, that pleases their *personality* and makes them feel important. These people only exists as a means to an end, as an expression within the physical. But those that serve are being directed and guided, driven and advised by their I AM, by the VOICE of their HEART, by their own SELF. It *isn't necessary* to sit in a cell, to close one's eyes and one's ears and to *segregate* oneself from everything that takes place in order to be able to HEAR and to SEE. It is possible to decide amidst all the turbulent seeming happenings *where* one's *person* must be engaged and where not, if one has the *right* inner attitude. The more someone pushes *their person* into the foreground, the *lower* their level of development. The WHOLE, the expansive and harmony always occupy the foreground.

* * *

Things within themselves are always the same, but thoughts, views and interpretations of them are *manifold*. If you were to alight on another inhabited planet, you would probably interpret all events there *completely differently* from the way the people on the planet you find yourself on, would interpret them. Your thoughts and actions are initially just as inexplicable to people from *other star systems* who observe and look at you, because they have completely different habits and points of view. Only a few have accurately studied the Earth, those that have can *confidently* assess and interpret the past, the present and the future.

Natural geological changes take place on or in every celestial body, because these bodies are *living things* with their own natural *expression of life*. But the expression of life of celestial bodies and their atmospheres can however be *promoted* or also be *hemmed* and transformed by the people that live on them, so that they can *no longer provide* the humanity inhabiting their bodies with the necessary conditions to *fully* unfold themselves. A *well-advised* humanity on the other hand is certainly able to turn their home planet and its environment into a veritable *paradise* wherein all life, including human beings, can *fully* develop. Such planets accommodate human beings whose technology and spiritual deportment is beyond the imagination of terrestrial human beings, but it is something they *could* catch up with in every way on their present level of unfoldment, if they could only *master* their thoughts the way the great universal teacher have told them over and over again.

People's THOUGHT WAVES are the only things that have a creatively-ordering, constructive or hemming effect. One *singular, concentrated* thought projection can move and change worlds – but

also destroy. When people want to raise their own consciousness, they have to start with the slightest hint of a thought. When their endeavours succeed with the *slightest hint* of a thought, all actualities will *change*, their thoughts will reach into other dimensions and their consciousness expand further and further, but this will *also* bring responsibilities. The responsibility that comes with knowledge will initially be seen as a great encumbrance, but it will gradually turn into a matter of course that will no longer stress the existence of a human being, but allow *joy* to rise within that only those will experience that have reached this level. But somebody on a *different* level will find it *impossible* to understand the ones that toiled and continue to toil in GOD'S GARDEN. – The delightful feeling of having climbed such a height can only be appreciated by those on *top* and by those with the desire to also drag *all* their fellow men to the top, *without* exceptions.

* * *

Talk less! Let others *feel* that you love them by being *thoughtful*, by *imagining* being in their shoes so you can see *where* you can help them. But *guard against* pushing your own person to the fore! Your recompense will otherwise be *zilch* and all your endeavours on *vain*. Those that only talk about themselves and their work have not progressed one step forward with the work they do in GOD'S GARDEN. They are a *weed* that smothers delicate flowers and they will be *pulled out*. The time has come to use such words, they are given with love, with a love that would solely like to help and to heal from within further insights, that *must* talk in order to *open* people's eyes and ears. This "*Man, know thyself*" is the alpha and the omega of all progress and all enlightenment, because I can only change the things to become perfect, harmonious and joyful that I have recognised. Progress lies in one's *awakening* and in one's *courage* to constantly educate and change oneself. Have the courage to discard the things you arduously learned for the sake of a *new* insight that you know is the *first* rung on a ladder whose end you cannot yet see, you can't even begin to imagine. To think like this requires courage and trust. All pettiness, paltriness, everything related to one's person, everything egotistical, all conceitedness and one's perseverance with the traditional, the existing and acquired, make you *rigid* like Lot's wife that turned into a pillar of salt when she looked back at her mundane possessions. – This parable contains infinite wisdom, something you should contemplate within the stillness of your HEART.

* * *

A *good* teacher will never censure his pupil over a shortcoming, but he will *point it out* to him so that he can *admit* it to himself, how could I eliminate a shortcoming if I haven't yet recognised it? – I can only successfully work on myself if I am in a position to gradually *see* myself with all my imperfections and if I am *willing* to clear the table.

* * *

Try to awaken neither hatred nor jealousy, neither envy nor resentment in your fellow men, try to actually *save* them from these emotions by learning to control your thoughts and actions and by keeping *your tongue under control*. Learn to live without giving umbrage, neither to animals, plants and everything revealed and you will be a *useful* link within the chain of revelations.

You cannot take mundane things with you when you leave Earth, but the problems you had *with*, *about* and *in* things will *go with you* to the DISEMBODIED WORLD and you *must resolve them* and make them harmonious, whether you want to or not. Therefore, try to *resolve* as many problems as you can whilst here on your home planet, try to *dissolve* them so that the burden you carry is *not too heavy*, because nobody can take this burden away from you, only you yourself.

All *universal teachers, masters and prophets* play a personal tune and pursues a personal direction when they teach and disseminate their wisdom. They have their own, beatifying commandments and guidelines and all of them are supposed *to have* to the same goal, but they are however tied to a specific doctrine. Only the doctrine of JESUS and his disciples *is devoid* of these personal thoughts and connections. JESUS is a DIVINE-COSMIC SPIRIT, a SON of GOD and he fully and completely represents the CREATIVE POWER in all its *impersonal* love and *universally-loving* thoughts.

TRANSMISSIONS in all kinds of languages and for various RECEPTION AREAS are constantly floating around the Earth with the purpose of bringing peace, joy and the true revelation of life. When the sun stands in the *South-East*, ergo early morning, in Europe between 7am and 9am, and between 10pm and midnight, these transmitted WAVES can be HEARD *the best* and the TRANSMITTED images are *best* VISIBLE between 10pm and midnight. They are unfortunately not accurately observed by most RECEIVERS, but *sometimes*, on rare occasions, observed in their original colours. According to our knowledge, all human beings that are not *anxious* in any way have the OPPORTUNITY to RECEIVE.

Craving for recognition, egotism and imperiousness are *egocentric* anxieties and this is why the opportunity to HEAR and to SEE are given to people that *do not* think of themselves, because their whole existence is occupied with providing *a service to others*. Most of these usually overtaxed human beings are or can *no longer* be egocentric and this is why they have become relaxed and *open* for the things that weave and live around them. This is a natural occurrence and it is the same everywhere. People who only talk about *themselves* and their deeds *cannot* be RECEIVERS even when they *think* that they only do good things. This should not be seen as a criticism, but as an observation.

* * *

The *happiest* amongst women is a wife and mother, because only she learns to forsake things and to give her own *self* to the husband, the children and grandchildren thereby being formed into a *selfless* servant through her *voluntarily* selected fate. Be happy, you wives and mothers, joyfully bear your work and your sacrifice to the fullest; know that all of it is a grace that makes you *free* from all egocentric restrictions that in turn are a hindrance in regards to spiritual unfoldment and spiritual service for everyone and everything. The highest priestesses were and are women and mothers that give their body and soul, they do not think about their own person and they can therefore make sacrifices *for* others as *conscious* parts of the WHOLE.

Don't think that you know anything. Everything is subject to eternal transformations and everything flows and changes. One circumstance depends on another and one occurrence develops from another. One condition is conditional to another and afore you have recognised something, it is no longer the same. GOD is the *only* NON-TRANSFORMABLE, *always* the same, everything and CONSISTING from WITHIN ITSELF. Everything comes from him and everything flows back to him. He is *everything*. But this can *no longer be grasped* by human thought processes. These are processes that human beings can only *apprehend*, but not describe and comprehend. To search for the truth and to have the will to look for what's *behind* things is a human characteristic. But the recognised truth is *different* for human thought processes on *every* level of conscious existence, because they cannot comprehend that HIS EXISTENCE alone is the truth. The truth is that GOD is everything. But it is *not possible* for GOD'S creatures to grasp this for as long as they have not returned to their original CAUSE.

Almost all terrestrial human beings still adhere to the concepts of who GOD is, of creation, the universe and everything that exists, that they learned whilst they were young and these concepts are most of the time *tightly connected to one confession or another*. This is the reason why a lot of people, people that would *like* to enter higher LEVELS of CONSCIOUSNESS, find it impossible because they do not have the courage to *separate* themselves from the things that have become dear to them. But this absolute separation *is necessary* in order to look further into the wonderworld of the UNIVERSAL-ONE.

This: “*Have dominion over the Earth*” is an invitation to mentally *separate* yourselves from the things that *bind* you to the Earth or some other planet. The moment people realise that they are *not* tied to a planet, neither spiritually nor physically, their thoughts will *expand* and their demeanour a *lot friendlier*. The wings of their souls grow and all pettiness falls away. They will know that life *swings eternally* and that human beings, as *one* revelation amongst innumerable revelations of GOD’S LOVE and amplex, are a PART of the WHOLE and thereby eternally intertwined *with* the WHOLE. Those that have awakened *wear* this certainty like the *wings* human beings see their angels wear, beings they see as perfect. Those that are able to look INSIDE of themselves will comprehend and grasp these thoughts so they can be of help to them.

10th of June 1966

Your *impersonality* should go as far as having learned to *not* give the world you live in *the slightest* cause to stir up emotions that in turn could possibly cause *disharmony*. Trying to incite love in others for *your person* is an *injustice*. But the situation is different on the non-physical PLANE of EXISTENCE, the spiritual EXISTENCE; here you can *attract* love to then *emanate* it with force. The sun for instance does *not love individual* entities, it is love and it sends its rays without wanting to know *whom* and *what* they encounter, it radiates *completely impersonally without* looking for gratitude. Try to do the same. *Be* love, universally blessing love.

The situation with you should be that you do *not* see *your* impersonality as a sacrifice, but as something matter of fact, namely that you have understood, ergo assimilate your TRUE SELF. This is difficult, but understanding this is part and parcel of human beings that strive towards a *higher* LEVEL of EXISTENCE. This however *doesn’t* mean that you should become completely emotionless, but it does demand the complete *control* of your emotions, a transformation of expressing one’s emotions.

12th of June 1966 – 8:30 am

Everything is *the same*, but in an unimaginable *variety* of forms of appearance. This *also* applies to the stars and the forms of human beings. The HUMAN SPIRIT always dons the garment that can be worn on the planet it inhabits, so that it can develop towards an ever higher level of consciousness and gain ever higher insights. There are a great a *variety of forms*, that is to say, “garments” available throughout the cosmos, that a *high* level of consciousness is required to recognise all the various forms of human garments.

The *thought processes* and the *behaviourism* of the various human races are hardly ever the same on any planet and this is why extraterrestrials see the people on planet Earth *different* from the way terrestrial human beings see themselves, exactly the way terrestrial human beings would find a lot of things *incomprehensible* and *unintelligibly* on planets that are similar to the Earth. Terrestrial human beings, in their *present* terrestrial incarnation, will *not be capable at all* to recognise numerous worlds, because they are revealed at vibrations that are *completely alien* to them. This is

why most of the space travellers that head towards the Earth or inadvertently find themselves near it, are *neither friend nor foe*. They observe events on Earth *without comprehension* or they do not even recognise that you are their brothers.

Only a few are prepared to work as *teachers* and to come to Earth as *helpers* over again. They try to make the breakthrough to a *higher* LEVEL of CONSCIOUSNESS easier for a mature enough humanity. These are human beings that talk to you night and day, from within a physical body as well as other garments. What is important is that *you* HEAR them! What they say with love is said in a way that makes *strings resonate* INSIDE the people that are still dumb and untouched; but once they have been made to ring and to swing, they will be able to recognise worlds that terrestrial human beings are presently unable to even imagine. An enormous *wideness* and *depth* of consciousness lies within human beings and what their visible appearance might be matters not, it is an amplex of possibilities and forms of unfoldment that *far* surpasses our knowledge and insights.

13th of June 1966

Believe me, it is a great fortune and joy *to know* that you are a being whose unfoldment *knows no limits*, that you are a being that has the opportunity *to recognise that it IS!* This insight holds a POWER within that you call “trust in GOD”, it is the knowledge about a *sense of security* in the UNIVERSAL-ONE that represents everything. This POWER is the perceiving of the FATHER who can accomplish everything and reveal everything. – Think about this!

8:30 am

You must remember over again that everything that you seek *outside* you find INSIDE *of you*. For as long as you cannot recognise this, you will search *in vain* and you will wander about, an eternal wanderer who feels nowhere at home. Even a “venerated” teacher does *not* have *more* INSIDE himself than you, than you yourself, because he is ONE, a human being and *nobody* exists who has more or less than you. The secret lies in *finding the key* to all the chambers that are INSIDE of you, ready to be opened one by one so that one insight after another can be revealed to you. This *key is love*, love alone opens *every* gate for you, one after another until you have *become* love yourself.

JESUS said: “*The Kingdom of Heaven is INSIDE of you*”, therefore seek there and you will find it. You can find this kingdom of heaven inside of you at any location on Earth or in the cosmos, it matters not where you are. If you do *not* find your kingdom of heaven within yourself, you will *not* find peace and quiet anywhere. But if you have found your kingdom of heaven, ergo the REALM of the FATHER deep inside of you, you will feel at home at *every* location, because you have your home *inside of you* and only you can evict yourself from it.

14th of June 1966 – 8:30 am

Question : Does life exist on other planets?

Answer : Yes.

Question : How does this life express itself?

Answer : In an amplex that is inconceivable to terrestrial human beings: Partially detectable and comprehensible to the terrestrial senses, partially completely incomprehensible,

partially semi-perceptible or completely incomprehensible or simply beyond the human capability of detection. But life on other planets and in different forms of existence does *indeed exist*.

Human beings with *higher* trained SENSORY ORGANS can *detect more* than only the physical senses the like terrestrial human beings possess. Everything call “Man”, everything that is a part of the human revelation, is capable of understanding everything that belongs to the revelation called “Man” one day, ergo SEE human beings in *all their forms*. But the whole creation, with all its possibilities, will never be completely comprehended by even the *highest* HUMAN SPIRITS, because OMNISCIENCE *solely* rests and therefore exists in the CREATOR, the UNIVERSAL GOD.

* * *

The truth is that everything really feels like a dream of the UNIVERSAL SPIRIT and human beings should enjoy their live and be happy about everything they still can delve into, comprehend and experience. Forms of existence exist that belong to *other evolutions* and whose existence runs along *completely different* lines to that of human beings. But everything intertwines anyway and everything is ONE in the final analysis. This is however *difficult* to reveal to human beings at their *present* level of consciousness *without* training their INNER ORGANS first, ORGANS capable of SEEING and grasping the things that are still veiled these days.

15th of June 1966

The most important thing for the TEACHERS and PROTECTORS of planet Earth today is to help terrestrial mankind, as best as they can, to make a breakthrough to a *freer* way of thinking. Aerial fancies that people from other planets or systems intend *to save* the physical lives of those incarnated on Earth from some catastrophe or another, should be dismissed. No extraterrestrial power is interested in this, this would *presently* be of *no* use to a people that will certainly settle on other planets one day. What would a body that is still inhabited by a SPIRIT that thinks along terrestrial lines do on a *much higher* developed planet?

What is important is that terrestrial people, that is to say, the people that incarnated on Earth in order to progress with their predetermined evolution, *achieve* this breakthrough to a new way of thinking. What should be achieved is a *higher* LEVEL of CONSCIOUSNESS on a planet like the Earth. This makes sense, because a tree cannot bear fruit without having blossomed first. It is a shabby thing to believe that brothers from other planets could do the work designed for the people on Earth. You must find things out *yourselves*, you must experience what life is all about *yourselves* and you must sense the machinations of the CREATOR *yourselves*, ergo experience his GREATNESS and AMPLENESS *yourselves*!

Laws always only apply under specific circumstances, particularly laws *created by human beings* and those that people *think* they have recognised. This applies to scientific, chemical and physical laws, but also to moral principles. But all of creation is subject to *irrefutable* DIVINE LAWS. Human beings are able to explore and learn to comprehend this DIVINE LAW, the UNIVERSAL LEGALITY that can *never be fully* grasped, to a certain degree, because the mind and the ORGANS *to recognise* the NON-PHYSICAL, the SPIRITUAL are inherent within them, things that the *physical* organs find *impossible* to recognise. Physical organs are orientation instruments that can

be developed to amazing heights on the *vital plane* that is *just as important* as the SPIRITUAL PLANES. Human beings live in *two* worlds, but they must become consciously aware that it *is truly so*.

Those that believe that they *no longer exist* after their death make a mistake, because human beings *live*, ergo *exist eternally* within the rest of creation. They are a revelation that *belongs* with creation and *nothing* can extinguish it. The body does indeed decay into its components and changes its texture, but *nothing* is lost, it only *transforms* and the soul that lived in the body *remains intact*, today and into all eternity, subjected to eternal transformation, *but is remains*. It remains with a more or less clear consciousness and this consciousness is *the same* in a NON-PHYSICAL WORLD as it was on Earth. All the revelations and insights about human beings, about their environment and milieu, about the CREATIVE FORCES and CREATIVE POWERS on Earth in this life and the experiences of past lives *that were added*, belong to you and *go with you*. But the *material* possession and all *terrestrial accolades* received on Earth remain on Earth and fall by the wayside. What remains is *you* – that, what you *are* and *constitute*.

Day to day: *Be creative!*

All human beings carry the same developmental opportunities within themselves – *all of them* – you also. Utilise this divine gift of creative capabilities, it is a *source of joy* and the genuine, far reaching feeling: *I am alive!* – Do not allow anyone to take the greatest joy of live, the unfoldment of your creative energy, away from you. You should be glad that you are allowed to have your own ideas and points of view. If you are *tolerant* and if you *accept* and allow the ideas of others to stand because they stem from the *same SOURCE* as yours, you, with your independent views, will find joy everywhere. A certain direction is indicated by *all* ideas of certain epochs and they proclaim *new* life-opportunities. Look inside yourself and bring all the RICHES you find there to the surface. Be creative and you will be happy and free!

When you step on an anthill you know that you *interfered* with something. But you are *hardly aware* of what you *have done* to the ant colony that, like you, has settled here on Earth in order to live and to reveal itself. The ants sense that an event took place in their existence that is *not* a part of their life-revelation, but they cannot recognise a human being or its utterances.

The situation is similar to when people end up in REGIONS of REVELATION they *did not know* that they existed, but that do indeed live *sometimes* or *always* with them on Earth. A lot of things that are still *inexplicable* to human beings would find a completely normal solution if human beings could *use* their SOUL'S ORGANS and recognise what LIFE-REVELATIONS *adhere* to them from *on*, *in* and *around* their home planet and how the LIFE-EXPRESSIONS of these dissimilar revelations show themselves. The time has come to recognise these coherences and to learn to *correctly* behave within these realities, because it isn't just man alone that inhabits the cosmos. Do not allow such words to frighten you, they should help you to recognise the GREAT WHOLE, to see, to understand and love GOD'S THOUGHTS.
